Aside from correcting certain minor errors found in the orders numbered G–3 through G–15, the issuance of the revised orders accompanying this opinion is intended to accomplish two objectives. In the first place the minor revisions in the areas covered under the revised orders numbered G–3 through G–15 together with the issuance of Order G–16, complete the coverage of the entire area comprising the Miami District. Thus, dollars-and-cents ceiling prices for the listed hard building materials are now established for the entire area commonly known as South Florida or Peninsular Florida. In the second place the issuance of the accompanying orders is intended to, and apparently does, remove the absorption of certain costs heretofore required of dealers and arising because of increased manufacturer's ceilings subsequent to March 31, 1946. Further, in accordance with the provisions of Section 2 (t) of the Emergency Price Control Act of 1942, as amended, the revised orders now make specific provisions regarding increased costs accruing to the affected sellers.

This action has been discussed with members of the trade at informal meetings with representative dealers and all suggestions and recommendations offered by the trade have been considered and have been incorporated into this order to the extent that these suggestions were consistent with the provisions of General Order No. 68 and the Emergency Price Control Act of 1942, as amended.

All provisions of these orders and their effect upon business practices, cost practices, or methods or means or aids to distribution in the industry have been carefully considered by the District Director of the Miami District Office. No provisions which might have the effect of requiring a change in such practices, methods, means or aids established in the industry have been included in the new regulations unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the regulation or of the Emergency Price Control Act of 1942, as amended. To the extent that provisions of the orders compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry, such provisions have been found necessary to prevent circumvention or evasion of the regulation or Act.

[F. R. Doc. 46-17119; Filed, Sept. 23, 1946; 8:49 a. m.]

[1] All prices are subject to the customary quantity and trade differentials in effect during March 1942.

[Kansas City Order 1 Under Gen. Order 68, Amdt. 6]

BUILDING MATERIALS IN CLAY AND JACKSON COUNTIES, MO., AND JOHNSON AND WYANDOTT COUNTIES, KANS.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to the provisions of General Order No. 68, *It is hereby ordered*, That Order No. 1 under General Order No. 68 be and it is hereby amended in the following respects:

The prices heretofore established for the following named items in Appendix A or said original order No. 1, including any and all amendments thereto, are hereby deleted and the following prices for said items are substituted in lieu thereof:

The adjusted prices herein established by this amendment include the upward adjusted prices granted in Supplementary Order 172, dated August 8, 1946.

All other provisions of said original Order No. 1 and/or any amendments thereto which are not specifically amended hereby shall remain in full force and effect.

Issued and effective the 24th day of August 1946.

J. G. CALLAWAY,
District Director.

OPINION ACCOMPANYING AMENDMENT 6 TO ORDER NO. 1 UNDER GENERAL ORDER NO. 68

In compliance with the Emergency Price Control Act of 1942, as amended, and in consideration of the complexities involved in effectuating the increase of maximum prices contemplated in connection with the building material industry, it has been determined that the "dollar and cent pass through" increase prices heretofore granted for the retail sellers thereof should be revoked and that the prices which would have otherwise been effective on March 1, 1946, should be increased by a definite percentage adjustment.

This amendment takes away the increases granted under Supplementary Order 172 as issued under date of August 8, 1946, and grants an upward adjustment by the application of percentage markups in lieu thereof. This amendment was made only after consultation with representative retail sellers of the materials affected, and in the opinion of the District Director, the amendments are necessary in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and it does effectuate those purposes. The District Director is of the further opinion that the amendment is generally fair and equitable to the buyers and sellers alike.

(10¢ refund to be made for the return of each empty bag in serviceable condition)

The adjusted prices herein established by this amendment include the upward adjusted prices granted in Supplementary Order 172, dated August 8, 1946.

All other provisions of said original Order No. 3 and/or any amendments thereto which are not specifically amended hereby shall remain in full force and effect.

Issued and effective the 24th day of August 1946.

J. G. CALLAWAY,
District Director.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER NO. 3 UNDER GENERAL ORDER NO. 68

In compliance with the Emergency Price Control Act of 1942, as amended, and in consideration of the complexities involved in effectuating the increase of maximum prices contemplated in connection with the building material industry, it has been determined that the dollar and cent pass through increase prices heretofore granted for the retail sellers thereof should be revoked and that the prices which would have otherwise been effective on March 1, 1946, should be increased by a definite percentage adjustment.

This amendment takes away the increases granted under Supplementary Order 172 as issued under date of August 8, 1946, and grants an upward adjustment by the application of percentage mark-ups in lieu thereof.

This amendment was made only after consultation with representative retail sellers of the materials affected, and in the opinion of the District Director, the amendments are necessary in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and it does effectuate those purposes. The District Director is of the further opinion that the amendment is generally fair and equitable to the buyers and sellers alike.

A 10¢ refund is to be made for the return of each empty bag in serviceable condition.

The adjusted prices herein established by this amendment include the upward adjusted prices granted in Supplementary Order 172, dated August 8, 1946.

All other provisions of said original Order No. 4 and/or any amendments thereto which are not specifically amended hereby shall remain in full force and effect.

Issued and effective the 24th day of August 1946.

J. G. CALLAWAY,
District Director.

OPINION ACCOMPANYING AMENDMENT 3 TO ORDER NO. 4 UNDER GENERAL ORDER NO. 68

In compliance with the Emergency Price Control Act of 1942, as amended, and in consideration of the complexities involved in effectuating the increase of maximum prices contemplated in connection with the building material industry, it has been determined that the dollar and cent pass through increase prices heretofore granted for the retail sellers thereof should be revoked and that the prices which would have otherwise been effective on March 1, 1946, should be increased by a definite percentage adjustment.

This amendment takes away the increases granted under Supplementary Order 172 as issued under date of August 8, 1946, and grants an upward adjustment by the application of percentage mark-ups in lieu thereof.

This amendment was made only after consultation with representative retail sellers of the materials affected, and in the opinion of the District Director, the amendments are necessary in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and it does effectuate those purposes. The District Director is of the further opinion that the amendment is generally fair and equitable to the buyers and sellers alike.

[F. R. Doc. 46-17133; Filed, Sept. 23, 1946; 8:59 a. m.]

The adjusted prices herein established by this amendment include the upward adjusted prices granted in Supplementary Order 172, dated August 8, 1946.

All other provisions of said original Order No. 4 and/or any amendments thereto which are not specifically amended hereby shall remain in full force and effect.

Issued and effective the 24th day of August 1946.

J. G. CALLAWAY,
District Director.

OPINION ACCOMPANYING AMENDMENT 3 TO ORDER NO. 4 UNDER GENERAL ORDER NO. 68

In compliance with the Emergency Price Control Act of 1942, as amended, and in consideration of the complexities involved in effectuating the increase of maximum prices contemplated in connection with the building material industry, it has been determined that the dollar and cent pass through increase prices heretofore granted for the retail sellers thereof should be revoked and that the prices which would have otherwise been effective on March 1, 1946, should be increased by a definite percentage adjustment.

This amendment takes away the increases granted under Supplementary Order 172 as issued under date of August 8, 1946, and grants an upward adjustment by the application of percentage mark-ups in lieu thereof.

This amendment was made only after consultation with representative retail sellers of the materials affected, and in the opinion of the District Director, the amendments are necessary in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and it does effectuate those purposes. The District Director is of the further opinion that the amendment is generally fair and equitable to the buyers and sellers alike.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER NO. 5 UNDER GENERAL ORDER NO. 68

In compliance with the Emergency Price Control Act of 1942, as amended, and in consideration of the complexities involved in effectuating the increase of maximum prices contemplated in connection with the building material industry, it has been determined that the dollar and cent pass through increase prices heretofore granted for the retail sellers thereof should be revoked and that the prices which would have otherwise been effective on March 1, 1946, should be increased by a definite percentage adjustment.

This amendment takes away the increases granted under Supplementary Order 172 as issued under date of August 8, 1946, and grants an upward adjustment by the application of percentage mark-ups in lieu thereof. This amendment was made only after consultation with representative retail sellers of the materials affected, and in the opinion of the District Director, the amendments are necessary in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and it does effectuate those purposes. The District Director is of the further opinion that the amendment is generally fair and equitable to the buyers and sellers alike.

[F. R. Doc. 46-17134; Filed, Sept. 23, 1946; 9:00 a. m.]

[Little Rock Order 6 Under Gen. Order 68, Amdt. 1]

BUILDING MATERIALS IN MILLER COUNTY, ARK.

Pursuant to the Emergency Price Control Act of 1942, as amended, General Order No. 68, and Delegation of Authority Order No. 126, and in accordance with Order No. 6, issued under General Order No. 68 by the Little Rock District Director of the OPA, and for the reasons set forth in the accompanying opinion, this amendment is issued. The statement of considerations involved in the issuance of this Amendment No. 1 to Order No. 6, under General Order No. 68, has been issued simultaneously herewith and filed with the Division of the Federal Register.

It is ordered, That the title and contents of section VII of Order No. 6, under General Order No. 68 is amended to read as follows:

SEC. VII. *Adjustment to reflect increase in supplier's price*—(a) *Applica-*

bility. This section is applicable only where the amendment or order which grants your supplier an increase in his maximum prices provides that all resellers, including those subject to area orders, issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) *Maximum Price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order.

It is also ordered. That Appendix A to Order No. 6, under General Order No. 68, is amended in the following respects:

(1) The dollars-and-cents prices for specific items of hard building materials contained in Order No. 6, issued under General Order No. 68, are revised to the extent set forth in Appendix A attached hereto and dated August 23, 1946.

(2) The original Appendix A to Order No. 6, under General Order No. 68, is hereby by reference dated August 23, 1946.

(3) The hard building material item of fire clay, originally set forth in Appendix A of Order No. 6, under General Order No. 68 are deleted from said Appendix.

This amendment No. 1 shall become effective August 23, 1946.

Issued at Little Rock, Arkansas, this 23d day of August 1946.

ROBERT P. HALL,
District Director.

AMENDED APPENDIX A

REVISED MAXIMUM PRICES FOR RETAIL SALES OF SPECIFIED BUILDING MATERIALS WHEN MADE IN MILLER COUNTY, ARK.

Masons hydrated, bbl.	Bbl.	C. L.		2.[illegible]

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 6 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Little Rock District Office by General Order No. 68 and Order of Delegation No. 126, issued by the Regional Administrator of Region V, and in accordance with the provisions of Order No. 6, under General Order No. 68, Amendment No. 1 to the above order has been issued.

Order No. 6, under General Order No. 68, was issued by the Little Rock District Director of the OPA on April 23, 1946, and became effective May 6, 1946. This order established dollars-and-cents ceiling prices for various items of hard building materials set forth in Appendix A thereof when sold at retail in the geographical area comprising Miller County, Arkansas.

Subsequent to March 31, 1946, various industry-wide adjustments have been granted manufacturers of hard building materials; and under the provisions of the Emergency Price Control Act as amended, the retail industry is entitled to its March, 1946 mark-up on those items on which the manufacturer has received adjustments. Therefore, in view of increases granted the producer of hard building materials, it has been necessary, under the provisions of the Emergency Price Control Act of 1942, as amended, to amend and revise the retail price list of hard building material items (as of August 23, 1946) to the extent set forth in the accompanying amendment. Such action by the District Director has been found necessary under the Act and will remove all inequities now existing in the original order.

Section VII of Order No. 6 provides that retailers subject to the order are required to absorb all price increases granted the producer of hard building materials. However, under the provisions of the Emergency Price Control Act, as amended, the retail industry is entitled to its March, 1946 mark-up on items on which the manufacturer has received price increases. Because of this provision of the Act as amended, it has been necessary to amend Order No. 6 to conform to the new provisions of the act. It is also for this reason that this Amendment is being issued.

Since the issuance of the above order, it has been found that certain items of building materials have been either suspended from price control or covered by other regulations. Therefore, this Amendment is also being issued to delete items exempt from control or covered by other regulations.

[F. R. Doc. 46-17121; Filed, Sept. 23, 1946; 8:48 a. m.]

[Miami Rev. Order G-11 Under Gen. Order 68]

HARD BUILDING MATERIALS IN BROWARD COUNTY, FLA.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales by any seller of commodities specified in this order delivered to a purchaser in Broward County, Florida.

SEC. 2. *Definition of retail sales.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to a purchaser for resale on an installed basis.

SEC. 3. *Description of items covered by this order.* This order covers the commodities set forth in the annexed price table.

SEC. 4. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, or of any other applicable regulation or order shall apply to sales covered by this order. This order reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order 68 for certain Building and Construction Materials). Accordingly, this order supersedes that supplementary order, and the maximum prices established by this order cannot be increased under that supplementary order.

SEC. 5. *Maximum prices.* The maximum prices for the building materials covered by this Order are set forth in Table 1 which is annexed to and made a part of this order.

SEC. 6. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in Broward County in a manner plainly visible to all purchasers.

SEC. 7. *Sales slips and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy, he must keep for at least 6 months after delivery a duplicate copy of each sale slip delivered by him pursuant to this section. Each such seller shall keep at least such records of each sale as he customarily kept. For any sale of $50.00 or more, each seller, regardless of previous custom, must keep records showing at least the following:

1. Name and address of buyer
2. Date of transaction
3. Place of delivery
4. Complete description of each item sold and price charged.

SEC. 8 *Adjustment to reflect increases in supplier's price*—(a) *Applicability* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area orders issued under General Order 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your suppliers maximum price is later than the date stated on the price list contained in this order. Thus, if your supplier's maximum price for a product is increased and at some later date the price listed in this order is increased for this product the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your supplier's maximum price.

SEC. 9. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective August 24, 1946.

Issued this 22d day of August 1946.

BERNARD C. GOODWIN,
District Director.

TABLE 1

Effective in Broward County, Florida.
Effective Date: August 24, 1946.

READY MIXED CONCRETE

The maximum prices for sales of ready-mixed concrete delivered to a jobsite within a five mile radius of the seller's plant shall be as follows: [1]

$10.20 per cubic yard of five bag mix

An additional 15¢ per cubic yard per mile may be charged for deliveries beyond a five mile radius of the seller's plant.

An additional 82¢ per bag of cement per cubic yard may be charged for ready-mixed concrete containing more than 5 bags of cement per cubic yard and 82¢ per bag of cement per cubic yard must be deducted for ready-mixed concrete containing less than 5 bags of cement per cubic yard.

An additional $1.50 per cubic yard may be charged for sales of less than two cubic yards.

An additional $2.00 per cubic yard may be added for installing the concrete in place with a chute.

An additional $1.00 per cubic yard may be added for concrete treated with a waterproofing additive.

An amount computed at the rate of $4.00 per hour may be added on deliveries requiring a waiting time of more than twenty (20) minutes.

OPINION ACCOMPANYING REVISED ORDERS NUMBERED G–3, G–4, G–5, G–6, G–7, G–8, G–9, G–10, G–11, G–12, G–13, G–14, G–15 AND ORDER NO. G–16

Under General Order No. 68, as amended, the Price Administrator may, and each Regional Administrator of the Office of Price Administration and any District Director who may be authorized by the appropriate Regional Administrator is authorized to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area, for sales of commodities under the jurisdiction of the Building Materials and Construction Price Branch by all persons to ultimate users or to purchasers for resale on an installed basis.

This authority has been delegated to the Director of the Miami District Office by the Regional Administrator of Region IV, by Regional Delegation Order No. 93, as amended.

Acting pursuant to said General Order 68, as amended, and to Regional Delegation Order No. 93, the District Director of the Miami District Office has heretofore issued orders numbered G–13 through G–15. These orders established ceiling prices for the listed hard building materials and covered most of the area comprising the Miami District.

General Order 68 provides the following standards to be applied to orders issued under that general order: (1) Maximum prices shall be set forth in dollars-and-cents unless this shall clearly appear impractical or inappropriate; and (2) maximum prices thus set forth shall not exceed the general level of prices as fixed by the regulation which would otherwise be applicable.

In accordance with the first of the above described standards, prices established in the above mentioned orders are specific dollars-and-cents prices applicable to sales in various quantities.

In determining the appropriate prices for inclusion in the orders the Director of the Miami District Office surveyed the prices charged by the principal suppliers in the stated areas. Prices charged currently and in March 1942, for each item in each quantity bracket as well as discount terms, delivery practices and other conditions of sale were obtained. The prices obtained were first studied in order to ascertain that amount of differentiation as to types of sellers, types of purchasers and quantity of sales that should be recognized in the orders to prevent substantial hardship and to avoid marked increases and which could be based on definite and recognizable objective characteristics apparent at the time of the sale. The data for each selected grouping was next set forth in an array and where possible a quasi-modal price based on prices weighted on the over-all sales volumes of the sellers studied and covering 60–65% of the volume of sales was chosen as the ceiling prices for the particular commodity. In those cases where the modal price was not appropriate or where it was impossible of ascertainment a bulkline price covering 60–65% of the sales was selected. By the use of these statistical methods it was apparent that in general the prices established did not exceed the level of prices as fixed by the regulation which otherwise would have been applicable nor was any substantial reduction made in the current legal maximum prices of any important group of sellers.

Aside from correcting certain minor errors found in the orders numbered G–3 through G–15, the issuance of the revised orders accompanying this opinion is intended to accomplish two objectives. In the first place the minor revisions in the areas covered under the Revised Orders numbered G–3 through G–15 together with the issuance of Order G–16, complete the coverage of the entire area comprising the Miami District. Thus, dollars-and-cents ceiling prices for the listed hard building materials are now established for the entire area commonly known as South Florida or Peninsular Florida. In the second place the issuance of the accompanying orders is intended to, and apparently does, remove the absorption of certain costs heretofore required of dealers and arising because of increased manufacturer's ceilings subsequent to March 31, 1946. Further, in accordance with the provisions of Section 2 (t) of the Emergency Price Control Act of 1942, as amended, the revised orders now make specific pro-

[1] All prices are subject to the customary quantity and trade differentials in effect during March 1942.

visions regarding increased costs accruing to the affected sellers.

This action has been discussed with members of the trade at informal meetings with representative dealers and all suggestions and recommendations offered by the trade have been considered and have been incorporated into this order to the extent that these suggestions were consistent with the provisions of General Order No. 68 and the Emergency Price Control Act of 1942, as amended.

All provisions of these orders and their effect upon business practices, cost practices, or methods or means or aids to distribution in the industry have been carefully considered by the District Director of the Miami District Office. No provisions which might have the effect of requiring a change in such practices, methods, means or aids established in the industry have been included in the new regulations unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the regulation or of the Emergency Price Control Act of 1942, as amended. To the extent that provisions of the orders compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry, such provisions have been found necessary to prevent circumvention or evasion of the regulation or Act.

	C.L. or more	Lin. ft	.27

(No refund to be given for the return of each empty bag in serviceable condition.)

The adjusted prices herein established by this amendment include the upward adjusted prices granted in Supplementary Order 172, dated August 8, 1946.

All other provisions of said original Order No. 2 and/or any amendments thereto which are not specifically amended hereby shall remain in full force and effect.

Issued and effective the 24th day of August, 1946.

J. G. CALLAWAY,
District Director.

AMENDMENT 3 TO ORDER NO. 2 UNDER GENERAL ORDER NO. 68

In compliance with the Emergency Price Control Act of 1942, as amended, and in consideration of the complexities involved in effectuating the increase of maximum prices contemplated in connection with the building material industry, it has been determined that the dollar and cent pass through increase prices heretofore granted for the retail sellers thereof should be revoked and that the prices which would have otherwise been effective on March 1, 1946, should be increased by a definite percentage adjustment.

This amendment takes away the increases granted under Supplementary Order 172 as issued under date of August 8, 1946, and grants an upward adjustment by the application of percentage mark-ups in lieu thereof.

This amendment was made only after consultation with representative retail sellers of the materials affected, and in the opinion of the District Director, the amendments are necessary in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and it does effectuate those purposes. The District Director is of the further opinion that the amendment is generally fair and equitable to the buyers and sellers alike.

[F. R. Doc. 46-17131; Filed, Sept. 23, 1946; 8:45 a. m.]

[Little Rock Order 7 Under Gen. Order 68, Amdt. 1]

BUILDING MATERIALS IN CRAIGHEAD COUNTY, ARK.

Pursuant to the Emergency Price Control Act of 1942, as amended, General Order No. 68, and Delegation of Authority Order No. 126, and in accordance with Order No. 7, issued under General Order No. 68 by the Little Rock District Director of the OPA, and for the reasons set forth in the accompanying opinion, this amendment is issued. The statement of considerations involved in the issuance of this amendment No. 1 to Order No. 7, under General Order No. 68, has been issued simultaneously herewith and filed with the Division of the Federal Register.

It is ordered, That the title and contents of Section VII of Order No. 7, under General Order No. 68, is amended to read as follows:

SEC. VII. *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum prices provides that all resellers, including those subject to area orders, issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order.

It is also ordered, That Appendix A to Order No. 7, under General Order No. 68, is amended in the following respects:

[Kansas City Order 2 Under Gen. Order 68, Amdt. 3]

BUILDING MATERIALS IN GREENE COUNTY, MO.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to the provisions of General Order No. 68, *It is hereby ordered*, That Order No. 2 under General Order No. 68 be and it is hereby amended in the following respects:

The prices heretofore established for the following named items in Appendix A of said original Order No. 2, including any and all amendments thereto, are hereby deleted and the following prices for said items are substituted in lieu thereof:

Item	When sold in quantities of—	Selling unit	Delivered in free delivery zone
Portland cement, standard paper bags.	L.C.L.	94 lb. bag	$0.75
	C.L. or more	376 lb. bbl	2.81
Portland cement, standard cloth bags.	L.C.L.	94 lb. bag	.85
	C.L. or more	376 lb. bbl	3.01
Masonry cement, paper bags	L.C.L.	67 lb. bag	.80
	C.L. or more	268 lb. bbl	2.41
Mason's hydrated lime	L.C.L.	50 lb. bag	.50
	C.L. or more	Ton	16.80
Waterproof cement, gray	1 bag or more	94 lb. bag	.90
Fibre insulation, ½", standard lath and board.	Any amount	1000 sq. ft	2.50
Vitrified clay sewer pipe No. 1SS-4".	L.C.L.	Lin. ft	.22
	C.L. or more	Lin. ft	.192
Vitrified clay sewer pipe No. 1SS-6".	L.C.L.	Lin. ft	.30
	C.L. or more	Lin. ft	.27

(1) The dollars-and-cents prices for specific items of hard building materials contained in Order No. 7, issued under General Order No. 68, are revised to the extent set forth in Appendix A attached hereto and dated August 23, 1946.

(2) The original Appendix A to Order No. 7, under General Order No. 68, is hereby by reference dated August 23, 1946.

(3) The hard building materials items "fire brick" and "fire clay powder" originally set forth in Appendix A of Order No. 7, under General Order No. 68, are deleted from said appendix.

This Amendment No. 1 shall become effective August 23, 1946.

Issued at Little Rock, Ark., this 23d day of August 1946.

ROBERT P. HALL,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 7 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Little Rock District Office by General Order No. 68 and Order of Delegation No. 126, issued by the Regional Administrator of Region V, and in accordance with the provisions of Order No. 7, under General Order No. 68, Amendment No. 1 to the above order has been issued.

Order No. 7, under General Order No. 68, was issued by the Little Rock District Director of the OPA on June 28, 1946, and became effective July 1, 1946. This order established dollars-and-cents ceiling prices for various items of hard building materials set forth in Appendix A thereof when sold at retail in the geographical area comprising Craighead County, Arkansas.

Subsequent to March 31, 1946, various industry-wide adjustments have been granted manufacturers of hard building materials; and under the provisions of the Emergency Price Control Act as amended, the retail industry is entitled to its March, 1946 mark-up on those items on which the manufacturer has received adjustments. Therefore, in view of increases granted the producer of hard building materials, it has been necessary, under the provisions of the Emergency Price Control Act of 1942 as amended, to amend and revise the retail price list of hard building material items (as of August 23, 1946) to the extent set forth in the accompanying amendment. Such action by the District Director has been found necessary under the Act and will remove all inequities now existing in the original order.

Section VII of Order No. 7 provides that retailers subject to the order are required to absorb all price increases granted the producer of hard building materials. However, under the provisions of the Emergency Price Control Act, as amended, the retail industry is entitled to its March, 1946 mark-up on items on which the manufacturer has received price increases. Because of this provision of the Act as amended, it has been necessary to amend Order No. 7 to conform to the new provisions of the Act. It is also for this reason that this Amendment is being issued.

Since the issuance of the above order, it has been found that certain items of building materials have been either suspended from price control or covered by other regulations. Therefore, this amendment is also being issued to delete items exempt from control or covered by other regulations.

[F. R. Doc. 46-17122; Filed, Sept. 23, 1946; 8:48 a. m.]

[Region I Order G-2 Under Gen. Order 70]

STOCK PRINT AND SPECIAL PRINT FOLDING EGG CARTONS OF PAPERBOARD IN NEW ENGLAND

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by General Order No. 70, as amended, and the Emergency Price Control Act of 1942, as amended, *It is ordered:*

(a) On and after the effective date of this order, the maximum prices for sales and deliveries to all purchasers within New England of the folding egg cartons listed below shall be as follows:

(1) *Manufacturers' maximum prices.* The following are the maximum prices for sellers who are producers or manufacturers:

Quantity sold	Maximum prices, per thousand: 3 x 4 chip carton	3 x 4 manila or blue lined chip carton	2 x 6 chip carton	2 x 6 manila or blue lined chip carton
Less than 10,000 cartons	$10.05	$10.50	$13.35	$13.85
10,000 cartons to carload [1]				
Carload and over [2]				

[1] List prices above less 2½%
[2] List prices above less 5%.

(2) *Wholesalers' maximum prices.* The following are the maximum prices for sellers who are wholesale distributors with receiving points within the manufacturer's free delivery zones, and who sell to buyers for resale rather than use:

Quantity sold	Maximum prices, per thousand: 3 x 4 chip carton	3 x 4 manila or blue lined chip carton	2 x 6 chip carton	2 x 6 manila or blue lined chip carton
Less than 10,000 cartons	$12.05	$12.60	$16.00	$16.60
10,000 or more cartons	11.45	12.00	15.25	15.85

(a) Wholesale distributors with receiving points outside of the manufacturer's free delivery zone may add to the above prices transportation charges (including transportation tax, if any) actually paid.

(3) *Retailers' maximum prices.* The following are the maximum prices for sellers who are retail distributors selling to buyers who buy for use (such as, to farmers, poultry:

Quantity sold	Maximum prices, per thousand: 3 x 4 chip carton	3 x 4 manila or blue lined chip carton	2 x 6 chip carton	2 x 6 manila or blue lined chip carton
Less than 250 cartons	$15.95	$16.40	$19.70	$20.30
250 up to 1,999 cartons	13.95	14.40	17.70	18.30
2,000 up to 4,999 cartons	13.15	13.60	17.15	17.65
5,000 up to 9,999 cartons	12.85	13.30	16.80	17.30
10,000 up to 24,999 cartons	12.60	13.05	16.45	16.95
25,000 up to 99,999 cartons	12.05	12.50	15.75	16.25
100,000 and over	11.75	12.20	15.05	15.90

(b) *Charges for special printing—(One color).*

	Per M
5M	$2.00
10M	1.50
25M	1.25
50M	1.00
100M	.50
Carload	.25

For each additional color, add the above one-color price.

"Special printing" shall include printing of trade names, addresses or slogans, but shall not include printing of words which indicate merely the contents of the carton.

(c) *Delivery.* The maximum prices hereby established are for sale on a delivered basis within the seller's free delivery zone in New England. For delivery made by the seller beyond his free delivery zone, transportation shall not exceed the lowest available common carrier rate. For non-delivered sales (i. e., f. o. b. seller's plant or warehouse), the seller must deduct from the maximum prices established in paragraph (a), above, the seller's customary delivery differential (as determined under the otherwise applicable regulation; e. g., Revised Maximum Price Regulation 187—for manufacturers, Maximum Price Regulation 349—for distributors, or General Maximum Price Regulation—for sellers other than manufacturers and distributors as defined in Maximum Price Regulation 349). If the seller had no such customary delivery differential, he must deduct for non-delivered sales the lowest available common carrier rate for delivery to the buyer.

(d) The seller must notify the buyer at the time of the first sale of the maximum prices established by this order for the items of such sale. The seller may comply with this requirement by furnishing each buyer with a copy of this order.

(e) Regardless of any contract or other obligation, this order applies to all sales and deliveries within Maine, New Hampshire, Vermont, Connecticut, Rhode Island, Massachusetts, of all stock-print and special-print folding egg cartons made of paperboard (but not of moulded paper) of caliper .020 to .023, inclusive, for which prices are established by paragraph (a). The maximum prices established hereby shall apply to all sales pursuant to which the buyer receives delivery within New England.

(f) The maximum prices of used egg cartons are not affected by this order.

(g) Sellers subject to this order must deduct from the maximum prices in paragraph (a) their customary allowances, discounts or other price differentials, including the differential for non-delivered sales.

(h) New sellers and sellers without "base-period experience" shall use the free delivery zone, delivery practices and differentials, allowances and discounts of their most closely competitive seller of the same class. "Seller of the same class" means a seller (1) performing the same function (for example, manufacturing, distributing, retailing), (2) of similar type (for example, manufacturer, paper jobber, wholesale grocer, feed and grain store, hardware store), (3) dealing in the same type of commodities, and (4) selling to the same class of purchaser. A seller's "most closely competitive seller of the same class" shall be a seller of the same class who (1) is selling the same or a similar commodity, and (2) is closely competitive in the sale of such commodities, and (3) is located nearest to the seller. "Base-period experience" refers to the business practices of manufacturers during October, 1941, and to the business practices of other sellers during March, 1942.

(i) No additional charges not provided for by this order shall be made. However, lower prices than those established by this order may be charged, demanded, offered or paid.

(j) (1) *Invoices and records.* Every person making a sale of egg cartons for which a maximum price is set by this order shall give the purchaser or his agent, at the time of the sale, an invoice or other memorandum of sale which shall show:

(i) The date of sale.

(ii) The name and address of the buyer and seller.

(iii) The quantity of egg cartons sold.

(iv) A description of the egg cartons in the same manner as they are described in this order.

(v) Any customary allowance, discount, or other price differential, including the differential for nondelivered sale.

(vi) Total price of the egg cartons.

(vii) A description of and the amount of the permitted charges for special printing.

(2) The seller shall keep an exact copy of such invoice or memorandum for a period of two years, and such copy shall be made available for inspectoin by the Office of Price Administration.

(k) *Adjustable pricing.* Any person may agree to sell at whatever maximum price is in effect at the time of delivery; but no person may deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery.

(l) *Applicability of other regulations.* (1) To the extent applicable, the provisions of this order supersede the maximum prices as established by Revised Maximum Price Regulation No. 187 for sales by manufacturers, and by Maximum Price Regulation No. 349 for sales by certain distributors, and by GMPR for certain wholesalers and retailers. This order incorporates the provisions relating to taxes contained in said regulations; namely: Revised Maximum Price Regulation 187, Section 5; Maximum Price Regulation 349, Section 4; and General Maximum Price Regulation, Section 7.

(2) The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(m) *Enforcement.* Persons violating any provision of this order are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942, and proceedings for the suspension of licenses.

(n) *Evasion.* The price limitation set forth in this order shall not be evaded, whether by direct or indirect methods in connection with any offer, solicitation, agreement, sale, delivery, purchase, or receipt of egg cartons covered in this order, within Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island, alone or in conjunction with any other commodity, or by way of commission service transportation, or other charge or discount, premium, privilege or other trade understanding, or by modifying, discontinuing or altering any customary trade practice of the seller, or by increasing terms, or extension of credit, or by splitting orders or by reducing the size of the sale, or by any other means.

(o) *Petitions for amendment.* Any person seeking an amendment of any provision of this order, including any provision of any appendix to this order, may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed in the Boston Regional Office of the Office of Price Administration.

(p) *Power to amend, revoke or correct.* This order is subject to revocation, correction or amendment by the Office of Price Administration at any time.

This order shall become effective September 19, 1946.

Issued this 19th day of September 1946.

ELDON C. SHOUP,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G-2 UNDER GENERAL ORDER NO. 70

The accompanying Order No. G-2, issued pursuant to General Order No. 70, sets forth current maximum prices for all sales in Region I of the folding egg cartons listed in the order. The cartons specified are made of paperboard only.

Paragraph (a) (1) establishes maximum prices in Region I to all purchasers direct from the manufacturers for stock print cartons. Paragraphs (a) (2) and (a) (3) establish maximum prices for all resellers in Region I. Paragraph (b) applies to charges for special print cartons. In other words, in respect to the egg cartons specified, the order affects all sellers; that is, a "manufacturer" as defined in Revised Maximum Price Regulation No. 187, a "distributor" as defined in Maximum Price Regulation No. 349, a "seller" as defined in General Maximum Price Regulation. The order does not affect the maximum prices of used egg cartons. Sellers subject to the order must price egg cartons, other than those specifically covered by the present order, pursuant to the particular maximum price regulation applicable to their own sales of such cartons.

Section (a) of General Order No. 70 delegates to the Regional Administrator authority to establish dollar-and-cent ceiling prices on certain paperboard commodities, including egg cartons; and to grant adjustment thereof, under certain conditions, in any area or locality within his jurisdiction. Section (c) provides that an order establishing maximum prices under General Order No. 70, after approval by the Office of Price Administration, Washington, D. C., shall supersede the maximum prices established for any of the items affected in any existing maximum price regulation, schedule or order.

The delegation of authority to the Regional Administrator under General Order No. 70, together with the applicable procedure and criteria, are explained in the Statement of Considerations accompanying said General Order No. 70, and were recited in the opinion accompanying Region I Order No. G-1 thereunder (to which further reference may be made). Pursuant thereto, the accompanying order adjusts the maximum prices for all sales within Region I of the cartons specified. Investigation discloses a threat of a local shortage of these egg cartons in the New England States. It appears that price adjustments for manufacturers, for sales by wholesale distributors selling to buyers who buy for resale rather than use, and for retail distributors selling to buyers who buy for use, such as farmers, poultrymen, etc., are necessary in order to maintain production and to avoid the threatened shortage.

Practically all of the egg cartons used in this region are produced here, since bulk and freight make it uneconomical to import from other sections of the country. Because price increases granted in paperboard, together with other necessary supplies (such as glue, ink and corrugated packing cases), have become so large compared with March, 1943, costs, and since it has been necessary to grant numerous wage increases to workers in the industry, the financial conditions facing the companies making up the industry are such as to threaten the continued supply of the cartons. In addition to cost increases in types of board and paper normally used, the shortage of these types has made it necessary very frequently to use more expensive substitutes. Since there would be no alternative source of supply if local manufacturers were to discontinue production, it is considered that there is a serious threat of shortage to the supply of egg cartons at the present time.

Upon the basis of the data submitted to this office, the present order effects an adjustment in manufacturers' maximum selling prices sufficient to compensate for recent increases in labor and material costs and to allow the percentage of return equal to the industry-wide profit factor prevailing in 1941. The latter is not less favorable to the industry than its profit factor based upon its operations in any prior annual period proximate thereto. As to resellers, the maximum selling prices which, as presently adjusted, are hereby established conform with the percentage mark-up in effect on March 31, 1946. The present adjustments will not create nor tend to create an increase in prices in another locality; since prices for said cartons have generally been higher than prices which have prevailed in this region. The present action is deemed advisable as establishing area prices in this region, where a large part of the egg cartons used are sold, and where the industry, although highly competitive, appears customarily to have maintained uniform prices.

To the extent practicable, the Regional Administrator has advised and consulted with the representatives of the industry which will be affected by this revised regulation, and has given due consideration to their recommendations.

All provisions of this order and their effect upon business practices, cost practices, or methods, or means, or aids to distribution in the industry affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the Emergency Price Control Act of 1942, as amended. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The present order supersedes Region I Order No. G-44, previously issued, under section 18 (c) of General Maximum Price Regulation. Consequently, that order will be revoked, said revocation to be effective concurrently with the effective date of the present order.

[F. R. Doc. 46-17114; Filed, Sept. 23, 1946; 8:50 a. m.]

[Kansas City Order 7 Under Gen. Order 68, Amdt. 2]

BUILDING MATERIALS IN MISSOURI

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to the provisions of General Order No. 68, *It is hereby ordered*, That Order 7 under General Order No. 68 be and it is hereby amended in the following respects:

The prices heretofore established for the following named items in Appendix A of said original Order No. 7, including any and all amendments thereto, are hereby deleted and the following prices for said items are substituted in lieu thereof:

MAXIMUM PRICES IN DOLLARS PER SELLING UNIT

Item	When sold in quantities of—	Selling unit	F. o. b. yard, store, plant, or railroad car
Portland cement, standard gray	Any	94-lb. bag	$0.765
Hydrated lime	Any	50-lb. bag	.73
Hydrated lime	Any	10-lb. bag	.28
Finish lime	Any	50-lb. bag	.84
Vitrified clay sewer pipe 4"	Any	Lin. ft	.199
Vitrified clay sewer pipe 6"	Any	Lin. ft	.30
Vitrified clay sewer pipe 8"	Any	Lin. ft	.418
Vitrified clay sewer pipe 10"	Any	Lin. ft	.584
Vitrified clay sewer pipe 12"	Any	Lin. ft	.713
Metal lath, painted diamond mesh, not copper bearing, 2.5 lb.	Any	Sq. yd	.83
Metal lath, painted diamond mesh, copper bearing, 2.5 lb.	Any	Sq. yd	.841
Metal lath, painted diamond mesh, not copper bearing, 3.4 lb.	Any	Sq. yd	.376
Metal lath, painted diamond mesh, copper bearing, 3.4 lb.	Any	Sq. yd	.387
Metal lath, 2.5-lb. galvanized diamond mesh	Any	Sq. yd	.363
Metal lath, 3.4 lb. galvanized diamond mesh	Any	Sq. yd	.411

Insulation pile, ½" 16 x 32, 24 x 48	Any	1,000 sq. ft	69.22

Issued and effective the twenty-fourth day of August, 1946.

The adjusted prices herein established by this amendment include the upward adjusted prices granted in Supplementary Order 172, dated August 8, 1946.

All other provisions of said original Order No. 7 and/or any amendments thereto which are not specifically amended hereby shall remain in full force and effect.

Issued and effective the 24th day of August 1946.

J. G. CALLAWAY,
District Director.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER NO. 7 UNDER GENERAL ORDER NO. 68

In compliance with the Emergency Price Control Act of 1942, as amended, and in consideration of the complexities involved in effectuating the increase of maximum prices contemplated in connection with the building material industry, it has been determined that the dollar and cent pass through increase prices heretofore granted for the retail sellers thereof should be revoked and that the prices which would have otherwise been effective on March 1, 1946, should be increased by a definite percentage adjustment.

This amendment takes away the increases granted under Supplementary Order 172 as issued under date of August 8, 1946, and grants an upward adjustment by the application of percentage mark-ups in lieu thereof. This amendment was made only after consultation with representative retail sellers of the materials affected, and in the opinion of the District Director, the amendments are necessary in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and it does effectuate these purposes. The District Director is of the further opinion that the amendment is generally fair and equitable to the buyers and sellers alike.

proved October 15, 1914 (the Clayton Act), as amended by an Act of Congress approved June 19, 1936 (Robinson-Patman Act);

It is ordered, That the respondent West Coast Packing Corporation, a corporation, and its respective officers, and the respondents Albert Vignolo, Sr., Eugene Giacomino, and Albert Vignolo, Jr., individually and as officers of said corporate respondent, and their respective representatives, agents, and employees, directly or through any corporate or other device in connection with the sale and distribution of fish and seafood products in commerce as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

Paying or granting, directly or indirectly, to any buyer, anything of value as a commission or brokerage, or any compensation, allowance, or discount in lieu thereof, upon purchases made for such buyer's own account.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of Federal Reserve System

PART 224—DISCOUNT RATES

Sec.
224.1 Introduction.
224.2 Advances and discounts for member banks under sections 13 and 13a.
224.3 Advances to member banks under section 10 (b).
224.4 Advances to persons other than member banks.
224.5 Buying rates on bills.
224.6 Rates to industrial or commercial businesses under section 13b.
224.7 Rates to financing institutions under section 13b.
224.8 Findings.

AUTHORITY: §§ 224.1 to 224.8, inclusive, issued under sec. 14 (d), 38 Stat. 264 as amended by 41 Stat. 550, 42 Stat. 1480 and 49 Stat. 704, 706; 12 U. S. C. 357.

§ 224.1 *Introduction.* The following are the rates to be charged by the Federal Reserve Banks as established by such Banks and as reviewed and determined by the Board of Governors of the Federal Reserve System, pursuant to the provisions of section 14 (d) of the Federal Reserve Act. All rates are stated in per cent per annum. Except as otherwise provided, these rates are effective immediately.

§ 224.2 *Advances and discounts for member banks under sections 13 and 13a.* The rates for all advances and discounts under sections 13 and 13a of the Federal Reserve Act (except advances under the last paragraph of such section 13 to individuals, partnerships or corporations other than member banks) are:

Federal Reserve Bank of—	Rate	Effective
Boston	1	Apr. 27, 1946
New York	1	Apr. 25, 1946
Philadelphia	1	Do.
Cleveland	1	May 3, 1946
Richmond	1	May 10, 1946
Atlanta	1	Do.
Chicago	1	Apr. 26, 1946
St. Louis	1	Do.
Minneapolis	1	Do.
Kansas City	1	Apr. 27, 1946
Dallas	1	May 10, 1946
San Francisco	1	Apr. 25, 1946

§ 224.3 *Advances to member banks under section 10 (b).* The rates for advances to member banks under section 10 (b) of the Federal Reserve Act are:

Federal Reserve Bank of—	Rate	Effective
Boston	1½	Oct. 27, 1942
New York	1½	Oct. 30, 1942
Philadelphia	1½	Oct. 17, 1942
Cleveland	1½	Sept. 12, 1942
Richmond	1½	Oct. 28, 1942
Atlanta	1½	Oct. 15, 1942
Chicago	1½	Aug. 29, 1942
St. Louis	1½	Mar. 14, 1942
Minneapolis	1½	Oct. 30, 1942
Kansas City	1½	Oct. 27, 1942
Dallas	1½	Oct. 17, 1942
San Francisco	1½	Oct. 28, 1942

§ 224.4 *Advances to persons other than member banks.* The rates for advances to individuals, partnerships or corporations other than member banks secured by direct obligations of the United States under the last paragraph of section 13 of the Federal Reserve Act are:

Federal Reserve Bank of—	Rate	Effective
Boston	2	Mar. 29, 1946
New York	2½	Apr. 6, 1946
Philadelphia	2	Mar. 23, 1946
Cleveland	2	Mar. 9, 1946
Richmond	2½	Mar. 16, 1946
Atlanta	2	Do.
Chicago	2	Do.
St. Louis	2	Do.
Minneapolis	2	Mar. 23, 1946
Kansas City	2	Apr. 13, 1946
Dallas	2	Mar. 16, 1946
San Francisco	2½	Apr. 25, 1946

§ 224.5 *Buying rates on bills.* The buying rates on bills are:

Federal Reserve Bank of—	Rate for Treasury bills	Effective	Minimum rate for prime bankers' acceptances [1]	Effective
Boston	⅜	Apr. 30, 1942	1	Aug. 30, 1946
New York	⅜	do	1	Aug. 24, 1946
Philadelphia	⅜	do	1	Sept. 7, 1946
Cleveland	⅜	do	1	Do.
Richmond	⅜	do		Sept. 14, 1946
Atlanta	⅜	do	1	Sept. 20, 1946
Chicago	⅜	do	1	Aug. 31, 1946
St. Louis	⅜	do	1	Aug. 29, 1946
Minneapolis	⅜	do	1	Aug. 24, 1946
Kansas City	⅜	do	1	Sept. 4, 1946
Dallas	⅜	do	1	Sept. 14, 1946
San Francisco	⅜	do	1	Sept. 7, 1946

[1] Rate also applies to trade acceptances at Federal Reserve Bank of New York.

§ 224.6 *Rates to industrial or commercial businesses under section 13b.* The rates to industrial and commercial businesses (including loans made in participation with financial institutions) under section 13b of the Federal Reserve Act are:

Federal Reserve Bank of—	On loans	On commitments	Effective
Boston	2½–5	½–1	May 29, 1942
New York	2½–5	½–1¼	June 6, 1942
Philadelphia	2½–5	½–1¼	May 20, 1942
Cleveland	2½–5	½–1¼	May 8, 1942
Richmond	2½–5	½–1¼	May 23, 1942
Atlanta	2½–5	½–1¼	May 16, 1942
Chicago	2½–5	¾–1¼	Oct. 5, 1944
St. Louis	2½–5	½–1¼	May 16, 1942
Minneapolis	2½–5	½–1¼	Do.
Kansas City	2½–5	½–1¼	June 6, 1942
Dallas	2½–5	½–1¼	May 16, 1942
San Francisco	2½–5	½–1¼	May 23, 1942

§ 224.7 *Rates to financing institutions under section 13b.* The rates to financing institutions under section 13b of the Federal Reserve Act are:

Federal Reserve Bank of—	On discounts or purchases: Portion for which institution is obligated	On discounts or purchases: Remaining portion	On commitments	Effective
Boston	(1)	(2)	½–1	May 29, 1942
New York	(1)	(2)	½–1¼	June 6, 1942
Philadelphia	(1)	(2)	½–1¼	May 20, 1942
Cleveland	(1)	(2)	½–1¼	May 8, 1942
Richmond	(1)	(2)	½–1¼	May 23, 1942
Atlanta	(1)	(2)	½–1¼	May 16, 1942
Chicago	2½–5	2½–5	¾–1¼	Oct. 5, 1944
St. Louis	1–½	(3)	¾–1¼	May 16, 1942
Minneapolis	(1)	(3)	½–1¼	Do.
Kansas City	(1)	(3)	½–1¼	June 6, 1942
Dallas	(1)	(3)	½–1¼	May 16, 1942
San Francisco	(1)	(3)	½–1¼	May 23, 1942

[1] Rate charged borrower less commitment rate.
[2] Rate charged borrower, but not exceeding 1 percent above rate under Section 224.2 of this Part.
[3] Rate charged borrower.
[4] ¼ percent on undisbursed portion of loan.

§ 224.8 *Findings—(a) No notice or public participation; rates effective immediately.* There is no notice or public participation when rates now or hereafter specified in this part are reviewed and determined. The Board of Governors of the Federal Reserve System finds that in this situation such notice and public participation are impracticable, unnecessary, and contrary to the public interest for the reasons stated in section 2 (e) of the Board's rules of procedure (§ 262.2 (e) of this chapter), and especially because such procedure would prevent the action from becoming effective as promptly as necessary, would permit unfair profits, would interfere with the Board's actions, would not aid the persons affected, and would otherwise serve no useful purpose. For the same reasons and good cause found, the effective dates of these rates, as now or hereafter reviewed and determined, are not deferred for 30 days; and except as otherwise provided, such rates are effective immediately.

(b) *Only changes in rates published.* Under section 14 (d) of the Federal Reserve Act, rates must be established at each Federal Reserve Bank every fourteen days, or oftener if deemed necessary by the Board of Governors of the Federal Reserve System. To avoid frequent and unnecessary publication of the fact that an existing rates is continued, only changes in rates will be published; and the fact that no new rate is published means that the existing rate has been continued.

[SEAL] BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
S. R. CARPENTER, *Secretary.*

[F. R. Doc. 46-17274; Filed, Sept. 25, 1946; 9:01 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs

[T. D. 51533]

PART 17—PROTESTS AND REAPPRAISEMENTS

REMISSION OF ADDITIONAL DUTY; PETITIONS

Procedure in connection with petitions for remission of additional duty. Section 17.10 (a), Customs Regulations of 1943, amended.

Section 17.10 (a), Customs Regulations of 1943 (19 CFR, Cum. Supp., 17.10 (a)), is hereby amended by deleting "in the office of the clerk thereof" and substituting therefor "with the collector of customs."

(Secs. 489, 624, 46 Stat. 725, 759; 19 U. S. C. 1489, 1624)

Note 12 of Part 17, Customs Regulations of 1943, is hereby changed to read as follows:

[12] Petitions for remission of additional duties, accruing by reason of advances made on final appraisement of merchandise, shall be in writing, signed and filed, in duplicate, by the importer, consignee, or agent with the collector of customs at the port of entry at any time after final appraisement, but within 60 days after liquidation. The petition shall set forth in concise form the relief sought and the facts desired to be proved before the court. The collector shall forthwith transmit the original thereof, together with the invoice, entry, and all other papers connected therewith to the Clerk of the United States Customs Court.

(Rules of the United States Customs Court, Rule 29)

[SEAL] W. R. JOHNSON,
Commissioner of Customs.

Approved: September 12, 1946.

O. MAX GARDNER,
Acting Secretary of the Treasury.

[F. R. Doc. 46-17275; Filed, Sept. 25, 1946; 8:59 a. m.]

Chapter II—United States Tariff Commission

PART 200—ORGANIZATION AND FUNCTIONS

PART 201—RULES OF GENERAL APPLICATION

PART 204—RULES RESPECTING INVESTIGATION OF EFFECTS OF IMPORTS ON AGRICULTURAL PROGRAMS

MISCELLANEOUS CHANGES

The following corrections are made in the Rules of Practice and Procedure of the United States Tariff Commission, as published in the FEDERAL REGISTER of September 11, 1946 (11 F. R. 117A-741).

1. In § 200.5 (d), the word "Courthouse" in line 13 of this paragraph is changed to read "Customhouse".

2. In § 200.5 (c), delete the word "and" appearing in the 4th line.

3. In § 200.5, the paragraph following paragraph (c) should be (d) instead of (t).

4. In Part 201, "207.7" following 201.6 in the heading is changed to "201.7".

5. In § 201.8, the word "sections" appearing in lines 6 and 7 should be changed to read "section".

6. In § 201.10, the quotation marks embracing the words "Foreign Commerce Weekly" in line 16 should be deleted.

7. In § 204.4 (c), the line reading "accepted unless verified under oath by" appearing below the footnotes should be moved to follow immediately after the words "shall be" in the third line of § 204.4 (c).

[SEAL] SIDNEY MORGAN,
Secretary.

SEPTEMBER 19, 1946.

[F. R. Doc. 46-17268; Filed, Sept. 25, 1946; 9:00 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetics Act (sec. 507, 52 Stat. 1040 as amended by 59 Stat. 463; 21 U. S. C. Supp. V 357), the regulations for the certification of batches of penicillin-containing drugs (10 F. R. 11227), as amended, are hereby further amended as indicated below:

1. Section 146.4 (b) (3), fifth line, is amended by inserting the words "or a vasoconstrictor" following the word "gel."

2. Section 146.24 (a) (6), second line, is amended by deleting the figure "5.5" and substituting the figure "5.0" therefor.

3. Section 146.25 (c) (1) (iii), third line, is amended by deleting the word "nine" and substituting the word "eighteen" therefor.

4. Section 146.26 (a), fourth sentence, is amended to read as follows: "Its content of viable microorganisms is not more than 50 per gram."

5. Section 146.27 (a), first sentence, is amended by deleting the word "and" in line eight and deleting the period at the end thereof, substituting a comma therefor and adding "and sodium salts of fatty acids, if in quantities sufficient to exert a buffering action."

6. Section 146.27 (c) (1) (iv), third line, is amended by deleting the word "nine" and substituting the word "eighteen" therefor.

7. Section 146.27 (c) (2) is amended by adding the following new subparagraph:

(iii) Unless it is intended solely for veterinary use and is so labeled, a reference specifically identifying a readily available medical publication containing directions and precautions (including contraindications and possible sensitization) adequate for the use of such tablets buffered penicillin, or a reference to a brochure, or other printed matter containing such directions and precautions, and a statement that such brochure and printed matter will be sent on request.

8. Section 146.27 (c) (3), second and third lines, is amended by deleting the phrase, "unless it is packaged for repacking" and substituting the following therefor: "if it is intended solely for veterinary use,".

9. Section 146.29 (c) (1) (iii) is amended by deleting the period at the end thereof and adding the following: "unless it is crystalline penicillin in which case the blank is filled in with the date which is 36 months after the month during which the batch was certified."

10. Section 146.29 (c) (3) (ii) is amended by deleting the period at the end thereof and adding the following: "unless it is crystalline sodium penicillin or potassium penicillin in which case the storage statement may be omitted."

11. Section 146.31 (c) (1) (iii), third line, is amended by deleting word "nine" and substituting the word "eighteen" therefor.

12. Section 146.33 (a), eighth line, is amended by inserting between the second and third sentences the following sentence: "Its moisture content is not more than 1.0 percent."

13. Section 146.34 (c) (1) (iv), third line, is amended by deleting the word "nine" and substituting the word "eighteen" therefor.

14. Section 146.34 (c) (2) is amended by adding the following new subparagraph:

(iii) Unless it is intended solely for veterinary use and is so labeled, a reference specifically identifying a readily available medical publication containing directions and precautions (including contraindications and possible sensitization) adequate for the use of such tablets alum precipitated penicillin, or a reference to a brochure, or other printed matter containing such directions and precautions, and a statement that such brochure and printed matter will be sent on request.

15. Section 146.34 (c) (3), second and third lines, is amended by deleting the phrase ", unless it is packaged for repacking" and substituting the following therefor: "if it is intended solely for veterinary use".

16. Section 146.35 (a), fifth line, is amended by inserting between the second and third sentences the following sentence: "Its moisture content is not more than 1.0 percent."

The foregoing amendments shall become effective on the sixtieth day after the date of the publication of this order in the FEDERAL REGISTER.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn at the request of and in collaboration with interested members of the affected industry, and since it would be against public interest to delay modifications in the composition and labeling of the affected penicillin—containing products beyond the sixty-day period permitted for label changes.

(Sec. 507, 52 Stat. 1040 as amended by 59 Stat. 463; 21 U. S. C., Supp. V 357)

Dated: September 20, 1946.

[SEAL] MAURICE COLLINS,
Acting Administrator.

[F. R. Doc. 46-17276; Filed, Sept. 25, 1946; 8:59 a. m.]

TITLE 24—HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Premium Payments Reg. 1, Interpretation 6]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

STRUCTURAL CLAY PRODUCTS; COMPUTATION OF PRODUCTION

The following interpretation is issued with respect to § 805.1:[1]

§ 805.1 *Structural clay products.* * * *

INTERPRETATION 6

Paragraph (b) (1) of Premium Payments Regulation 1 requires that for the purpose of determining the quota of a plant and the amount of a claim, production be computed by determining the number of units of "completely burned clay products produced in the month involved." The term "produced" includes, in its usual sense, the entire process of manufacture. The process of manufacture of a structural clay unit consists of (1) the forming of the unit, (2) the drying of the unit, and (3) the burning of the unit.

When the entire process of manufacture of a structural clay unit in any plant has taken one month or less, then it is proper to determine production in any such month by counting the number of structural clay units completely burned during that month. The same method of determining production may also be used even where the process of manufacture exceeds one month if there are no radical fluctuations (other than normal seasonal fluctuations) in the number of units completely burned from month to month.

Where, however, the process of manufacture of a structural clay unit exceeds one month, and there are radical fluctuations (other than normal seasonal fluctuations) in the number of units completely burned from month to month, it is obvious that the number of units burned in any one month does not even approximate the number of units in fact produced during that month. In such cases, it is necessary to make a reasonable allocation of the number of units completely burned during one or more months to each of the months involved in the production of those units. This should be done by dividing the total number of units completely burned during a selected group of consecutive months by the number of months in such group. It is recognized that as a practical matter in most cases, it will not be possible to select a group of months during which all of the units burned were completely manufactured. However, the aim should be to select a group of months during which the predominant number of the units that were completely burned were also completely manufactured during those same months. The monthly average of the number of completely burned units arrived at in this fashion may be regarded as the production during each of the months in the group selected for this computation.

The principles stated in this official interpretation apply for purposes of determining production both during the quota period and during a claim period.

Issued this 20th day of September, 1946.

DAVID L. KROOTH,
General Counsel.

[F. R. Doc. 46-17322; Filed, Sept. 25, 1946; 9:27 a. m.]

[Premium Payments Reg. 6, Interpretation 3]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

PAYMENT OF PREMIUM ON A SOUTHERN HARDWOOD FLOORING LUMBER WHICH IS DESTROYED BY FIRE AFTER COMPANY HAS PAID BONUS THEREON; ADJUSTMENT OF QUOTA

The following interpretation is issued with respect to § 805.6:

§ 805.6 *Hardwood flooring (southern area).* * * *

INTERPRETATION 3

Paragraph (d) (5) provides that, except for usual waste, all southern hardwood flooring lumber on which premium A is payable must be used in the production of residential flooring, unless otherwise authorized by the Expediter. Paragraph (b) (6) (i) gives the Expediter the right to invalidate a company's

[1] Formerly § 714.1, appearing at 11 F. R. 6904.

claim if it has failed to comply with any of the requirements of the regulation.

Since lumber destroyed by fire could not have been used in the production of residential flooring, there would be, as to this lumber, a failure to comply with the requirement of paragraph (d) (5). Therefore, no premium A could legally be payable with respect to such lumber, and if the fire were to occur after premium A had been paid thereon, such payment would be subject to recovery or set-off.

Destruction of lumber by fire is not a circumstance for which the Expediter will grant an exception from the requirement of paragraph (d) (5) that all lumber on which premium A is payable must be used in the production of residential flooring.

Although no premium A is payable with respect to lumber destroyed by fire, if such destruction by fire causes an interruption of production during any claim period this would constitute an interruption "due to unusual circumstances beyond the control of the company", on the basis of which an appropriate adjustment of the quota may be made for such claim period under paragraph (b) (2) of the regulation.

Issued this 21st day of September 1946.

DAVID L. KROOTH,
General Counsel.

[F. R. Doc. 46-17324; Filed, Sept. 25, 1946; 9:27 a. m.]

[Premium Payments Reg. 7, Interpretation 3]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

PAYMENT OF PREMIUM A ON NORTHERN HARDWOOD FLOORING LUMBER WHICH IS DESTROYED BY FIRE AFTER COMPANY HAS PAID BONUS THEREON; ADJUSTMENT OF QUOTA

The following interpretation is issued with respect to § 805.7:

§ 805.7 *Hardwood flooring (northern area).* * * *

INTERPRETATION 3

Paragraph (d) (5) provides that, except for unusual waste, all northern hardwood flooring lumber on which premium A is payable must be used in the production of residential flooring, unless otherwise authorized by the Expediter. Paragraph (h) (6) (i) gives the Expediter the right to invalidate a company's claim if it has failed to comply with any of the requirements of the regulation.

Since lumber destroyed by fire could not have been used in the production of residential flooring, there would be, as to this lumber, a failure to comply with the requirement of paragraph (d) (5). Therefore, no premium A could legally be payable with respect to such lumber, and if the fire were to occur after premium A had been paid thereon, such payment would be subject to recovery or set-off.

Destruction of lumber by fire is not a circumstance for which the Expediter will grant an exception from the requirement of paragraph (d) (5) that all lumber on which premium A is payable must be used in the production of residential flooring.

Although no premium A is payable with respect to lumber destroyed by fire, if such destruction by fire causes an interruption of production during any claim period this would constitute an interruption "due to unusual circumstances beyond the control of the company", on the basis of which an appropriate adjustment of the quota may be made for such claim period under paragraph (b) (2) of the regulation.

Issued this 21st day of September 1946.

DAVID L. KROOTH,
General Counsel.

[F. R. Doc. 46-17323; Filed, Sept. 25, 1946; 9:27 a. m.]

[Premium Payments Reg. 8, Interpretation 1]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

QUANTITY OF CAST IRON SOIL PIPE FITTINGS REQUIRED TO BE PRODUCED IN A MONTH

The following interpretation is issued with respect to § 805.8:

§ 805.8 *Cast iron soil pipe.* * * *

INTERPRETATION 1

In order to be a "producer" as defined in paragraph (a) (4) of EPPR-8, as amended, a person must produce both cast iron soil pipe and cast iron soil fittings. The quantity of fittings which a person must produce for the purpose of coming within the definition is approximately that amount which is needed to complement his additional output of soil pipe in addition to the amount of fittings which he produced during the period of time on the basis of which his quota was established.

Issued this 21st day of September 1946.

DAVID L. KROOTH,
General Counsel.

[F. R. Doc. 46-17325; Filed, Sept. 25, 1946; 9:27 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter IX—Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. O. 9024, 7 F. R. 329; E. O. 9040, 7 F. R. 527; E. O. 9125, 7 F. R. 2719; E. O. 9599, 10 F. R. 10155; E. O. 9638, 10 F. R. 12591; C. P. A. Reg. 1, Nov. 5, 1945, 10 F. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-975]

CHARLES LESSER AND LEONARD SALVAGGIO

Charles Lesser resides at 3218 Glendale Avenue, Detroit, Michigan. Leonard Salvaggio of 2422 Canton Avenue, Detroit, Michigan, is engaged in business as a building contractor. On March 28, 1946 they began the construction of a commercial store building located at 13224-30 Dexter Avenue, Detroit, Michigan, without authorization from the Civilian Production Administration. The estimated cost of this construction was approximately $39,000 which amount exceeded the limit of $1,000 permitted by Veterans' Housing Program Order 1 and was in violation of that order. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.975 *Suspension Order No. S-975.* (a) Neither Charles Lesser, Leonard Salvaggio, their successors or assigns, nor any other person, shall do any construction on the premises located at 13224-30 Dexter Avenue, Detroit, Michigan, including putting up, altering or completing the structure, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Charles Lesser and Leonard Salvaggio shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for priorities assistance or authorization to carry on construction.

(c) Nothing contained in this order shall be deeemed to relieve Charles Lesser or Leonard Salvaggio, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 24th day of September 1946.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 46-17481; Filed, Sept. 24, 1946; 4:21 p. m.]

Chapter XI—Office of Price Administration

PART 1305—ADMINISTRATION

[SO 166, Amdt. 2]

SUSPENSION AND EXEMPTION FROM PRICE CONTROL OF CERTAIN FUEL PRODUCTS AND SERVICES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order No. 166 is hereby amended in the following respects:

1. The following new item is added under section 2 (a):

4. Packaged fuel except charcoal in packages.

2. A new subparagraph (3) is added to subsection (c) of section 3 to read as follows:

(3) "Packaged fuel" is a solid fuel manufactured from a mixture of coal or petroleum coke screenings and a binder, which is compressed into cubes or bricks, wrapped in paper and sealed.

This amendment shall become effective September 25, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 2 TO SUPPLEMENTARY ORDER NO. 166

Certain fuel products have already been exempted from price control under Supplementary Order No. 166. Sales of packaged fuel, for which maximum prices are determined by producers and distributors under Maximum Price Regulation 121 and by resellers under Revised Maximum Price Regulation No. 122 are exempted by the accompanying amendment.

Packaged fuel is limited in this amendment to a solid fuel manufactured by compressing coal or petroleum coke screenings and a cornstarch, asphalt, or other binder into bricks or cubes which are then wrapped in paper and sealed. This fuel is primarily a specialty item which generally moves in less than one ton lots to household consumers, who use it as an auxiliary fuel. The industry is a small one and its output is not a significant addition to domestic coal production. In 1945, a total of 208,143 tons of packaged fuel was produced, or less than one fifth of one percent of the quantity of coal sold to household or domestic consumers.

Packaged fuel prices are being decontrolled for the reason that this commodity is not important to living cost or to business costs. Moreover, continued control of packaged fuel prices involves administrative difficulties which are disproportionate to the effectiveness of the control and its contribution to stabilization. Its exemption in the judgment of the Administrator will be consistent with the avoidance of a cumulative and dangerous unstabilizing effect. Some slight price increases may be expected to reflect recent increases in raw materials, supply and labor costs. However, prices for packaged fuel have historically been competitive with the best grades of domestic coal, and it is anticipated that such competition will exercise a restraining influence on price. In addition, the packaged fuel industry is concerned with obtaining wider consumer acceptance, and a satisfactory relationship with other solid fuel prices is important to such acceptance.

For the reasons stated above continuation of control on purchases, sales and deliveries of packaged fuel is unnecessary. It is the opinion of the Administrator, therefore, that the exemption of packaged fuel from price control, authorized by this Amendment No. 2 to Supplementary Order No. 166 will effectuate the purpose of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17494; Filed, Sept. 25, 1946; 11:24 a. m.]

PART 1305—ADMINISTRATION

[SO 177, Amdt. 7]

POSTPONING REIMPOSITION OF CONTROL ON CERTAIN COMMODITIES IN ALASKA AND HAWAII

A statement of the considerations involved in the issuance of this amendment to Supplementary Order No. 177, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 1 (b) is amended by changing the provisions for RMPR 194, RMPR 288, RMPR 373 and the GMPR for Hawaii, to read as follows:

Regulation	Commodity	Sellers	Effective date
RMPR 288	Food products manufactured in whole or substantial part from reindeer.	All	Sept. 16, 1946
RMPR 194, 288	Food products manufactured in whole or substantial part from livestock (other than reindeer), cottonseed or soy beans.	(1) All sellers except sellers located in Bering Sea and Bristol Bay areas.[1]	Sept. 25, 1946
		(2) Sellers located in Bering Sea and Bristol Bay areas.[1]	Jan. 1, 1947
RMPR 373, GMPR for Hawaii.	Food products manufactured in the territory of Hawaii in whole or substantial part from livestock.	(1) Wholesale distributors.	Sept. 16, 1946
		(2) Retailers	Sept. 20, 1946
RMPR 373, GMPR for Hawaii.	Mainland or imported food products manufactured in whole or substantial part from livestock, cottonseed or soy beans.	(1) Wholesale distributors.	Oct. 5, 1946
		(2) Retailers	Oct. 15, 1946

[1] Bering Sea and Bristol Bay areas means all places along the coast of Alaska extending from Kotzebue Sound to Bristol Bay, including Kotzebue, Nome and Bethel.

This amendment shall become effective as of September 13, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 7 TO SUPPLEMENTARY ORDER 177

The accompanying amendment postpones the effective dates for the recontrol of mainland meat, cottonseed and soy bean products sold in the territories of Alaska and Hawaii. The territorial directors notified this Office that distributors have accumulated larger inventories than usual during the seven-week period of absence of controls, due partly to the increased availability of supplies and partly to rumors of a shipping tie-up which did in fact occur. In the Bering Sea and Bristol Bay areas of Alaska, distributors have to purchase large stocks at a time to tide them over the long periods between sailings from Seattle. It has been reported that the last shipment to these areas brought in almost a three months' supply of meat purchased at high uncontrolled prices. The new effective dates were recommended by the territorial directors as the most suitable dates for reimposition of ceilings in accordance with the policy of this Office as set forth in the Statement of Considerations accompanying the issuance of amendment 1 to Supplementary Order 177.

[F. R. Doc. 46-17495; Filed, Sept. 25, 1946; 11:24 a. m.]

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS, PRINTING AND PUBLISHING

[RMPR 129,[1] Amdt. 14]

CONVERTED PAPER PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 129 is amended in the following respect:

Footnote 6 to item 6 in the list of products enumerated in Appendix A is amended to read as follows:

"On sales of gummed cloth tape, each manufacturer may add to his maximum price existing on September 30, 1946, an amount not to exceed $1.24 per M yards of tape one inch in width. However, this increase in maximum price of gummed cloth tape shall not be applicable to those manufacturers who have received or who may receive price adjustments under SO 160 based in any part upon increases in the cost of cloth resulting from amendments 30 and 32 to SO 131, which became effective August 5, 1946 and August 30, 1946, respectively.

This amendment shall become effective September 30, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 14 TO RMPR 129

The accompanying amendment increases the price of Gummed Cloth Tape $1.24 per M 1" yards to offset increased costs of sheetings and osnaburgs resulting from amendments 30 and 32 to Supplementary Order 131.

The considerations leading to the present action are similar to those involved in the issuance of amendments 3 and 5 to Revised Maximum Price Regulation 129. Amendment 3 to Revised Maximum Price Regulation 129, effective December 27, 1945 increased the price of Gummed Cloth Tape to cover costs for the bulk of the industry in order to insure continued supplies of this essential material. This action was based on a cost study covering 80% of the industry output. Subsequently, the cost of sheetings was increased by 9.14% and osnaburgs by 5.38% through Amendment 14 to Supplementary Order 131, effective March 8, 1946, which resulted in a weighted average increase of slightly more than 3¢ per M 1" yards in the cost of Gummed Cloth Tape. Amendment 5 to Revised Maximum Price Regulation 129, issued April 16, 1946 increased the price of Gummed Cloth Tape to offset these increased material costs and to satisfy the minimum requirements previously found to be necessary to maintain supplies of this material.

Amendment 30 to Supplementary Order 131, effective August 5, 1946 increased the price of sheetings by 20.25% and osnaburgs by 17.50%, pursuant to the provisions of Section 14 of the Price Control Extension Act of 1946. In addition, amendment 32 to Supplementary Order 131, effective August 30, 1946 increased the price of sheetings and osnaburgs by 2.34¢ per pound. These actions have resulted in increased costs for Gummed

[1] 9 F. R. 6825; 10 F. R. 11298, 15371; 11 F. R. 1525, 4237, 5282, 6014, 5950, 7131, 7341, 8772.

Cloth Tape ranging from $1.01 to $1.61 per M 1" yards. An average of the increases on the various grades of cloth tape weighted by the annual production of each grade results in an average cost increase of $1.24 per M 1" yards. This substantial cost increase placed most manufacturers for Gummed Cloth Tape in the position of having to sustain losses in its continued production, and threatened to reduce sharply available supplies of this material. Since cloth tape represents an essential factor in corrugated container production, curtailment in its supply would interfere with the free movement of commodities. Consequently, Order 15 under Revised Price Regulation 129, effective August 27, 1946 granted the industry authorization for adjustable pricing pending the completion of a cost study by this Office. This amendment, based on an analysis of the effects of the recent price increases for sheetings and osnaburgs on Gummed Cloth Tape production costs, undertakes to restore the cost-price relationship of the industry to the level previously determined to be necessary for the maintenance of supply. It will result in prices that cover total costs for the bulk of the Gummed Cloth production, excluding the few high cost producers who will be selling this material at a loss.

To the extent practicable this amendment has been discussed with representatives of the industry concerned, and due consideration has been given to their recommendations.

In the light of the foregoing, it has been determined that this Amendment is fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and E. O. 9599.

[F. R. Doc. 46-17497; Filed, Sept. 25, 1946; 11:25 a. m.]

PART 1499—COMMODITIES AND SERVICES

[RMPR 165, Amdt. 2 to Supp. Service Reg. 56]

LINEN SUPPLY SERVICES IN THE DETROIT AREA

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Service Regulation 56 is amended in the following respects:

1. In § 1499.697 paragraph (a) is amended to read as follows:

§ 1499.697 *Linen supply services in the Detroit area*—(a) *Maximum prices.* (1) The maximum prices established by Revised Maximum Price Regulation No. 165 for linen supply services when supplied by sellers located in the geographical area described below are hereby modified and henceforth shall be the prices set forth in Appendix A increased by seven percent, except for "large accounts" as herein defined.

(2) The maximum prices for a "large account" shall remain subject to the provisions of Revised Maximum Price Regulation 165 and any applicable supplementary service regulation, increased by seven percent.

(3) The percentage increases described above shall be applied to the total bills rendered to each customer, and not to individual items or lines. If the computation of the increase on any total bill results in an amount containing a fraction which is less than one-half cent, then the next lower cent shall be charged; if the resulting fraction is one-half or more, the next higher cent shall be charged. Lower prices than those established by this regulation may be charged.

2. Paragraph (c) is amended by the deletion of the following sentence: "The maximum prices for a "large account" shall remain subject to the provisions of Revised Maximum Price Regulation 165, and any applicable supplementary service regulation."

This amendment shall become effective September 25, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 2 TO SSR 56 TO RMPR 165

The accompanying amendment increases the maximum prices for linen supply services in the Detroit Area by 7%. This increase has been established on an over-all basis, and great care has been exercised to keep it within the maximum amount allowable under existing individual adjustment criteria.

Since the effective date of SSR 56, sellers of these services in the affected area have experienced several wage increases. Furthermore, replacement costs of linen items have risen greatly. These increases were adjusted percentage-wise in accordance with the criteria used in individual adjustments and the result obtained determined the aforementioned 7% over-all increase. It is the opinion of the Administrator that for the purposes of this particular action, this area-wide increase will eliminate the necessity of resorting to individual adjustments to relieve hardship. Individual adjustments in this instance would not only create a serious administrative burden, but would destroy the uniform prices now in effect.

[F. R. Doc. 46-17498; Filed, Sept. 25, 1946; 11:25 a. m.]

PART 1499—COMMODITIES AND SERVICES

[SR 14J, Amdt. 29]

MODIFICATION OF MAXIMUM PRICES ESTABLISHED FOR CERTAIN AUTOMOBILE SEAT COVERS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith; and it has been filed with the Division of the Federal Register.

Supplementary Regulation No. 14J is amended in the following respects:

1. Section 3.6 (b) is amended so that that part of the first sentence thereof which precedes the colon shall read as follows:

(b) The sales covered by this subsection are the following:

2. A new section 3.6 (d) is added to read as follows:

(d) The sales covered by this subsection are the following:

(1) Sales by General Motors Corporation to retailers, wholesalers, distributors and consumers.

(2) Sales to retailers by wholesale distributors who purchased the articles from General Motors Corporation.

(3) Sales to consumers by any person who purchased the articles from General Motors Corporation, or from a wholesale distributor who purchased the articles from General Motors Corporation.

3. A new section 3.6 (e) is added to read as follows:

(e) The maximum prices for the above sales are as follows:

Automobile seat cover model	Maximum price to wholesale distributors	Maximum price for sales to retailers	Maximum price for sales to consumer
1946-Buick model, 50% sateen, 41" sateen Cordeit thread 16/4, 30/4, paper dowel, 15".	*Per set* $18.75	*Per set* $21.50	*Per set* $37.50

This amendment shall become effective on the 30th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 29 TO SUPPLEMENTARY REGULATION NO. 14J

The accompanying amendment adds to Section 3.6 of Supplementary Regulation No. 14J, maximum resale prices for certain automobile seat covers manufactured by Fraser Products Company of Alpena, Michigan, and distributed through General Motors Corporation. The manufacturer's maximum prices for sales of these articles have been established pursuant to Section 1499.158 of Maximum Price Regulation No. 188.

Section 3.6 to Supplementary Regulation No. 14J which was added by Amendment 17 to that regulation established maximum resale prices for certain automobile seat covers manufactured by Fraser Products Company and distributed by Standard Oil Company of New Jersey, Standard Oil Company of Pennsylvania, and Colonial Beacon Oil Company.

The reasons set forth in the Statement of Considerations accompanying Amendment 17 to Supplementary Regulation No. 14J apply equally to the action now being taken, and they are incorporated herein by reference.

Chapter XVIII—Office of Economic Stabilization, Office of War Mobilization and Reconversion

PART 4003—SUBSIDIES; SUPPORT PRICES

[Directive 98, Amdt. 1]

1946-CROP SOYBEANS PRICE SUPPORT PROGRAM

The text of the 1946 Crop Soybeans Price Support Program (11 F. R. 1990) is designated § 4003.53a *Soybeans, 1946 crop* and is hereby amended by designating the existing text as paragraph (a) and adding paragraph (b), as follows:

§ 4003.53a *Soybeans, 1946 crop.* • • •

(b) The Secretary of Agriculture has, by letter dated September 10, 1946, requested my approval of a price support program for soybeans of the 1946-crop, in lieu of the program previously approved by the Stabilization Administrator.

Subsidies are not involved in the proposed program, but Commodity Credit Corporation will, through lending agency agreements entered into with established lending agencies and processors, arrange for the financing of processors' purchases of soybeans at support prices and agree to take over processors' inventories of soybeans at support prices upon request. The program is more fully described in the copy of the memorandum from the Director of the Fats and Oils Branch, Production and Marketing Administration, enclosed with the Secretary's letter; accordingly: *It is hereby ordered*, That:

The Secretary of Agriculture is authorized and directed to carry out, through Commodity Credit Corporation, the 1946-crop Soybeans Price Support Program described in the Secretary's letter and memorandum enclosed therewith, in lieu of the support and subsidy program heretofore approved by me.

TITLE 38—PENSIONS, BONUSES, AND VETERANS RELIEF

Chapter I—Veterans' Administration

PART 2—ADJUDICATION: VETERANS' CLAIMS

MISCELLANEOUS RULES ON SERVICE CONNECTION

§ 2.1101 *Proximate results.* Disability which is proximately due to or the result of a properly service-connected disease or injury is compensable, unless such disability is shown to be the result of a nonservice-connected intervening cause. When service connection is thus established for a secondary condition the secondary condition will be considered a part of the original condition for all purposes. (§ 35.03 of this chapter.) [Sec. 3, 48 Stat. 9; U. S. C. 703]

SERVICE CONNECTION FOR DENTAL DISABILITIES

§ 2.1104 *Required period of service.* Compensation may be awarded for a dental condition under § 35.011, of this chapter and Title III, Public No. 141, 73d Congress, where active service was performed on or after April 6, 1917, and prior to November 12, 1918, or prior to April 2, 1920 for persons who served with the United States military forces in Russia, or on or after November 12, 1918, and before July 2, 1921, where there was prior service between April 6, 1917, and November 11, 1918, or (under § 35.01 only of this chapter) where active service was performed in the Spanish American War, Boxer Rebellion, Philippine Insurrection or World War II as defined by §§ 4.2000 (a), 4.2001 (a), 4.2002 (a), 4.2017 (a) of this chapter and procedural instructions of the Veterans Administration. For the purposes of § 35.01 of this chapter the veteran must have been discharged under conditions other than dishonorable, and under Public No. 141, 73d Congress, not dishonorably discharged, and the disability must have been incurred in or aggravated by active service during the defined periods and not due to wilful misconduct. However, where incurrence of the disability is shown prior to the beginning date of the war concerned or where the enlistment commenced subsequent to the temination thereof, service connection may be established only in accordance with § 35.012 of this chapter. [Sec. 1, 27, 48 Stat. 8, 524; 38 U. S. C. 471a, 701; 50 Stat. 661, 38 U. S. C. 424a]

§ 2.1105 *Service connection.* Determinations relative to the origin or aggravation in active service of dental conditions will be in accordance with the requirements of §§ 35.011 (a) (1) and 35.012 (a) (1) of this chapter, respectively, as amended, and section 28, Title III, Public No. 141, 73d Congress.

(a) When a period of six months or over of continuous active service during a wartime enlistment which began prior to November 12, 1918, or prior to April 2, 1920, for persons who served with the United States military forces in Russia, or which began on or after November 12, 1918, and before July 2, 1921, where there was prior service between April 6, 1917 and November 11, 1918, or before the termination of hostilities incident to the present war (World War II), as determined by proclamation of the President or by concurrent resolution of Congress, is shown, service connection may be considered as having been established under the World War Veterans' Act, 1924, as amended, reenacted by Public No. 141, 73d Congress, or § 35.011 (a) (1) of this chapter, as amended, for World War II service, for any dental disability except such as were recorded at time of enlistment subject to the provisions of § 2.1107 (a) of this chapter, existed prior thereto, or otherwise rebutted, shown to have existed within a year from date of discharge from those periods of service. If the claimant was or is discharged after July 2, 1921, or after the termination of hostilities incident to the present war (World War II), as determined by proclamation of the President or concurrent resolution of Congress, the one year period for the establishment of such service connection will begin on July 2, 1921, or the date of termination of hostilities incident to the present war (World War II) as determined by proclamation of the President or concurrent resolution of Congress. Service connection will not be considered as having been established when the evidence clearly shows that the disabilities or conditions existed or were recorded at the time of enlistment subject to the provisions of § 2.1107 (a) of this chapter, or originated subsequent to discharge from causes not related to service. [Sec. 1, 28, 48 Stat. 8, 524; 38 U. S. C. 701, 722; 50 Stat. 661, 38 U. S. C. 424a]

§ 2.1107 *Service connection where dental disability is not of compensable*

degree. Determinations relating to the origin or aggravation in active service of dental conditions not of compensable degree where claim is made for treatment will be in accordance with §§ 2.1105, 2.1106 of this chapter and current instructions covering service connection and aggravation under § 35.011 of this chapter, as amended. However, the statutory presumption provided in section 200 of the World War Veterans' Act, 1924, as amended, as reenacted by Public No. 141, 73d Congress, or § 35.011 (a) (2) of this chapter, as amended, as to soundness of condition at time of entrance into active service will not be applicable in cases of dental conditions not of compensable degree. [Sec. 11, 46 Stat. 995, sec. 27, 48 Stat. 524; 38 U. S. C. 471, 471a]

No change in (a) or (b).

§ 2.1109 *Period of presumption.* The one year period of presumption of service connection for a dental disability will begin from the date of discharge, release from active duty, furlough to the reserves, July 2, 1921, or the termination of hostilities incident to the present war (World War II), as determined by proclamation of the President or concurrent resolution of Congress, whichever is the earlier.

DETERMINATIONS OF ACTIVE TUBERCULOSIS

§ 2.1137 *Rating of reactivation in cases of arrested tuberculosis.* In rating tuberculous disabilities to which the statutory award is not applicable, as when the diagnosis for the period of the disability upon which the rating is based is expressed in terms reflecting activity, the rating of the disability for such period shall be made in accordance with the applicable Schedule or Schedules of Disability Ratings, and extensions. If a period of complete arrest is interrupted by activity, the payment for arrested tuberculosis will cover only the period of arrest and will be terminated as of the date of determined reactivation, from which a rating will be made consistent with the physical findings pending reattainment of complete arrest.

RESTORATION OR GRANT OF BENEFITS FOR CLAIMANTS SUFFERING FROM PARALYSIS, PARESIS, OR BLINDNESS, OR WHO ARE HELPLESS OR BEDRIDDEN DUE TO WILFUL MISCONDUCT

§ 2.1138 *Application of Publics Nos. 196 and 866, 76th Congress.* (a) On and after July 19, 1939, the date of enactment of Public No. 196, 76th Congress, and World War I veteran suffering from paralysis, paresis, or blindness, or who is helpless or bedridden, as the result of any disability, and who was in receipt of compensation therefor on March 19, 1933, and on or after October 17, 1940, the date of enactment of Public No. 866, 76th Congress, any World War I veteran suffering from paralysis, paresis, or blindness, or who is helpless or bedridden as the result of any disability may be awarded compensation under the laws and interpretations govering this class of cases prior to the enactment of Public No. 2, 73d Congress, subject to the limitations, except as to wilful misconduct, contained in sections 27 and 28 of Public No. 141, 73d Congress, as amended: *Provided,* That compensation authorized under section 26 of Public No. 141, 73d Congress, will not be reduced or discontinued as a result of the application of the enactment: *And provided further,* That no payment of disability compensation under Public No. 866, 76th Congress, will be made for any period prior to the date of application therefor, which may be informal where there is of record a formal application, Form 526.

(b) In the application of the limitations contained in sections 27 and 28 of Public No. 141, 73d Congress, except as to wilful misconduct, it will be borne in mind that all reasonable doubts will be resolved in favor of the veteran. The delimiting dates of World War I under existing legislation will be applied; for the purposes of Publics Nos. 196 and 866, 76th Congress, the ending date of World War I will, therefore, be April 1, 1920, for those who served with the United States military forces in Russia, or July 2, 1921 for those who reenlisted on or after November 12, 1918, and before July 2, 1921, where there was prior service between April 6, 1917 and November 11, 1918. (See § 2.1000 (a) of this chapter.)

(c) The compensation award or disability rating in the case of any World War I veteran restored to the rolls or determinable under Public No. 196, 76th Congress, or granted disability benefits under section 7 of Public No. 866, 76th Congress, will be adjusted at any time upon the happening of a change in any of the contingencies upon which the current status is predicated, such as a change in family relationship, a change in physical condition, etc., as disclosed by competent evidence or a report of physical examination, and the effective date of the adjustment will be in accordance with the applicable regulations. [46 Stat. 1016, 53 Stat. 1067; 38 U. S. C. 11, 11a, 38 U. S. C., Sup. 703b; 50 Stat. 661, 38 U. S. C. Sup. 424a, 58 Stat. 752]

APPLICATION OF RATING SCHEDULE

§ 2.1141 *Use of 1925 and other schedules.* (a) Disability ratings will conform to the 1925 schedule in effect March 19, 1933, known as the Schedule of Disability Ratings, 1925, and Extensions thereto, continued under section 28, Title III, Public No. 141, 73d Congress, and/or the applicable edition or editions of the schedules authorized by § 35.03 of this chapter, pursuant to Public No. 2, 73d Congress, and Extensions, according to the facts in each case. [R. S. 471, sec. 5, 43 Stat. 608, secs. 1, 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 2, 11, 11a, 426, 707; interpret secs. 202, 8, 9, 43 Stat. 618, 1306, 1307, sec. 3, 48 Stat. 9; 38 U. S. C. 473–480, 482–491, 703]

(b) The schedules pursuant to Public No. 2, 73d Congress, apply to disabilities for which service connection is granted or continued under § 35.01 of this chapter, including wartime and peacetime service connections, or entitled to consideration under § 35.013 of this chapter, as amended by § 35.01 of this chapter, and to disabilities considered as service connected under section 31, Title III, Public No. 141, 73d Congress, and section 12, Public No. 866, 76th Congress.

(c) The 1925 Schedule applies to those disabilities for which service connection is granted or continued as direct or presumptive under sections 27 and 28, Title III, Public No. 141, 73d Congress, as amended by Public No. 344, 74th Congress, and to disabilities service connected under section 31 and section 12, Public No. 866, 76th Congress, under the two latter sections provided there was World War service. For periods on or after March 28, 1934, claims filed on or after March 20, 1933, by veterans who served in the active military or naval service between April 6, 1917, and November 12, 1918, (or prior to April 2, 1920, with the United States military forces in Russia), or prior to July 2, 1921, where there was service on or after November 12, 1918, and before July 2, 1921, and prior service between April 6, 1917, and November 11, 1918, for service-connected diseases or injuries, will be rated under both schedules. [R. S. 471, sec. 5, 43 Stat. 608, secs. 1, 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 2, 11, 11a, 426, 707; interpret secs. 202, 8, 9, 43 Stat. 618, 1306, 1307, sec. 3, 48 Stat. 9; 38 U. S. C. 473–480, 482–491, 703, 54 Stat. 1197, 38 U. S. C. 501a]

No change in (d).

§ 2.1142 *Special action where evaluations provided under rating schedules are considered inadequate or excessive.* (a) Exceptional cases to which the application of a schedule is not understood, or with regard to which evaluation under the applicable schedule pursuant to Public No. 2, 73d Congress is considered inadequate or excessive, may be submitted by the adjudication officer for advisory opinion or for reevaluation to the director, claims service, branch office. He will return the case with appropriate instructions if he finds that provisions of any applicable schedule have not been properly applied or that proper development has not been accomplished, or will forward the case to assistant administrator for claims, attention: director, veterans claims service, central office. Severe disabilities considered total, but for which current procedure does not authorize a total rating, questionable special monthly pension cases, and questionable double total and permanent disability cases will be similarly submitted. Where total disability is claimed and a submission hereunder is contemplated, a Form 8–527, Employment Affidavit, will be obtained and other indicated development of the evidence accomplished prior to the release of the records by the custodial office. The submission in any case comprehended by this regulation will include the case file, a recent medical examination, and definite recommendation from the submitting agency concerning evaluation of every disability, under the applicable schedule or schedules as interpreted by the submitting agency, and concerning schedular changes deemed advisable by reason of the particular situation encountered. However, cases will not be withdrawn from appellate channels for submission under this regulation, except as the board of appeals may join in reference of such cases with their recommendation (§ 35.03 of this chapter).

(b) Rating agencies are authorized to assign total disability ratings under

§§ 35.011 and 35.012 of this chapter as authorized by Extension No. 4, 1933 Rating Schedule and paragraph 16, page 5, 1945 Rating Schedule in cases of veterans under forty years of age when the disability or disabilities are the residuals of actual injury or acute disease episode of a character such as to have produced actual total disability without evidence of regained ability to follow a substantially gainful occupation. When the disability or disabilities are not the residuals of actual injury or acute disease episode the case will be referred to the assistant administrator for claims, attention: director, veterans claims service.

(c) Rating agencies will refer to assistant administrator for claims, attention: director, veterans claims service, all cases of World War II veterans under forty years of age who are considered to be totally or permanently and totally disabled under §§ 35.011, 35.012 and 35.013 of this chapter, because of unemployability under Extension 4, 1933 Rating Schedule and paragraph 16, page 5, 1945 rating schedule.

§ 2.1145 *Use of 1933 or 1945 schedule for remediable conditions.* Ratings, including ratings of total disability are authorized under the applicable schedule pursuant to Public No. 2, 73d Congress, for remediable conditions without regard to permanence, when the conditions were incurred or aggravated in the service. (§ 35.01 of this chapter)

§ 2.1148 *Effective dates of evaluations, 1925 and 1933 schedules in original ratings.* (a) In claims filed prior to July 13, 1943, evaluations under the 1933 Schedule will be effective as of the date of receipt of the application by the Veterans Administration under Title I, Public No. 2, 73d Congress, and regulations issued pursuant thereto, or the date the evidence shows a compensable or pensionable degree of disability to have existed, whichever is the later, but in no event prior to March 20, 1933; except that changed evaluations due to amendment of the rating schedule will be effective from the date of the receipt of the claim (original, reopening or increase), or the date the evidence shows entitlement, whichever is the later, but in no event prior to the effective date of the amendment to the schedule: *Provided however,* that where the claim was in a pending or appellate status as of that date the evaluation will be made effective as of the date of administrative determination (date rating or decision is signed) by the original or appellate rating agency. The effective date of the evaluation will not, however, necessarily control award action.

(b) In claims filed prior to July 13, 1943, evaluations under the 1925 schedule and extensions thereto will be effective as of the date of receipt of the application by the Veterans' Administration under Title III, Public No. 141, 73d Congress, or the date the evidence shows entitlement, whichever is the later but in no event prior to March 28, 1934.

Paragraph (c) is added:

(c) Evaluations under sections 16 and 17, Public No. 144, 78th Congress.

(1) Initial original claims filed on or after July 13, 1943, including those in a pending status July 13, 1943, filed within one year from date of discharge:

(i) When payable only under Public No. 144, 78th Congress, the evaluation of disability will be effective as of the day following the date of discharge, date the evidence shows entitlement, or July 13, 1943, whichever is the later.

(ii) When payable under laws other than Public No. 144, 78th Congress, the evaluation will be effective as of the date following date of discharge, date evidence shows entitlement, or July 13, 1943, whichever is the later, or if claim was pending as of July 13, 1943, from date of receipt of claim or date evidence shows entitlement, whichever is the later.

(2) Filed more than one year after date of discharge:

(i) When payable only under Public No. 144, 78th Congress, the evaluation will be effective from date of receipt of claim, except when claim was in a pending status as of July 13, 1943, in which event evaluation will be effective as of July 13, 1943.

(ii) When payable under laws other than Public No. 144, 78th Congress, the effective date of evaluation will be the date of receipt of claim or date the evidence shows entitlement, whichever is the later.

(iii) When service connection, World War II, is granted under § 35.011 (a) (3), of this chapter, the effective date of evaluation of disability will be determined as above outlined, except when claim is filed more than a year from date of discharge, the effective date of the evaluation of disability will be shown as of a date within the year from date of discharge.

(3) Reviewed or reopened disallowed claims:

(i) When reviewed on motion of the Veterans' Administration and compensation is payable only under Public No. 144, 78th Congress, the evaluation will be effective the date the rating is made.

(ii) When payable only under Public No. 144, 78th Congress, and claim to reopen under Public No. 144, 78th Congress, was filed within a year from the date of discharge, the evaluation will be effective from July 13, 1943, if otherwise in order. If claim to reopen was filed more than a year after date of discharge, the evaluation will be effective from the date of receipt of claim to reopen.

(iii) When payable under laws other than Public No. 144, 78th Congress, the evaluation will be determined in accordance with paragraph (a) or (b) of this section.

§ 2.1149 *Effective dates of evaluations, 1925 and 1933 schedules, in claims for increase.* (a) Evaluations under the 1933 schedule and extensions and the 1925 schedule and extensions thereto, in claims for increase, will be effective from the date of the receipt of the evidence, i. e., affidavits of physicians or other evidence submitted by the veteran showing an additional disability, or an increase in the condition for which he is receiving compensation or pension; or the date of the official report of physical examination made in a Veterans' Administration hospital, or by a designated examiner in connection with compensation, pension, or treatment pursuant to proper authority. The effective date of the evaluation will not, however, necessarily control award action (see § 3.1216 of this chapter).

Paragraph (b) is added:

(b) *Increase in evaluation under sections 16 and 17, Public, No. 144, 78th Congress.* (1) When entitlement to increase is due solely to Public No. 144, 78th Congress, the effective date of evaluation will be determined as provided in § 2.1148 (c of this chapter).

(2) When due to increase in disability, the effective date of evaluation will be in accordance with paragraph (a).

§ 2.1155 *Combined ratings.* (a) When there are two or more ratable disabilities, combined ratings, following the tables and rules prescribed in the appropriate schedule, or schedules, are authorized.

(b) Under § 35.014 of this chapter, a combined rating under the applicable schedule pursuant to Public No. 2, 73d Congress, is authorized as between ratings for one or more disabilities resulting from wartime service and ratings for one or more disabilities resulting from peacetime service.

No change in (c).

(d) Pursuant to section 202 (15), World War Veterans' Act, 1924, as amended, reenacted by Public No. 141, 73d Congress, a veteran of World War I, as defined by Public No. 141, 73d Congress, suffering from a disability of compensable degree connected with World War I service, who is entitled to compensation for a service-connected disability by reason of other military or naval service, is entitled to the evaluation and combination of his compensable service-connected disabilities in accordance with the Schedule of Disability Ratings, 1925, and Extensions thereto. Therefore, when a World War I veteran served in other war or peacetime service, it is necessary to evaluate his disabilities incident to such other service under the Schedule of Disability Ratings, 1925, and the applicable schedule pursuant to Public No. 2, 73d Congress.

No change in (e) or (f).

§ 2.1158 *Rating of noncompensable disabilities under 1925 and 1933 schedules.* No change in (a).

(b) For the purposes of the 1933 and 1945 schedules, a disability under any diagnostic classification which does not meet the minimum rating schedule standard under that classification will be rated as no percent, except for purposes of Civil Service preference, in which event an evaluation of less than ten percent may be made.

§ 2.1159 *Rating of disabilities aggravated by active service.* (a) In cases involving aggravation by active service, the rating will reflect only the degree of disability over and above the degree existing at the time of entrance into the active service, whether the particular condition was noted at the time of entrance into the active service, or is determined upon the evidence of record to have existed at that time. It is necessary, therefore, in all cases of this character to deduct from the present degree of disability the de-

gree, if ascertainable, of the disability existing at the time of entrance into active service, in terms of the applicable schedule, except that if the disability is total (100 percent) no deduction will be made. The resulting difference will be recorded on the rating sheet. If the degree of disability at the time of entrance into the service is not ascertainable in terms of the schedules, no deduction will be made.

No change in (b) or (c).

§ 2.1165 *Permanent total disability ratings under the World War Veterans' Act, 1924, as amended, and the schedule of disability ratings, 1925, as reinstated by Section 28, Public No. 141, 73d Congress.* Disability from an injury or disease will be rated as permanent total under the following conditions:

No change in (a) or (b) (1).

(2) Permanent total ratings based on single disabilities for which the schedule of disability ratings, 1925, provides specific, lesser ratings, are prohibited. The fact that for most diseases the 1925 schedule permitted a flexible range of ratings extending to total will not be interpreted as authorizing the making or continuance of total disability ratings in the absence of actual total disability, substantially as outlined in the schedules under Public No. 2, 73d Congress, as amended, except for the reference therein to specific ratings of these schedules. The provisions of regulations and schedules under the World War Veterans' Act, 1924, as amended, permitting ratings of temporary total disability on account of hospitalization or home treatment, are not effective in ratings under Public No. 141, 73d Congress.

§ 2.1166 *Total disability ratings under Public No. 2, 73d Congress, and the 1933 and 1945 Schedule.* No change in (a) or (b).

(c) Other provisions relative to total disability ratings are contained in the applicable schedules.

No change in (d).

(e) With actual progressive deterioration of the vision, so that the disabled person becomes blind in both eyes, or so nearly blind as to qualify under the applicable schedule pursuant to Public No. 2, 73d Congress, a permanent and total rating will not be withheld, notwithstanding that the underlying diagnosis is a congenital defect: *Provided*, The other requirements for the benefit are met. It is to be borne in mind that the essential requirement in this regard is actual reduction of the vision, so that the person, formerly able to see well, or fairly well, has become, as a result of physical changes occupationally blind. [Sec. 20, 48 Stat. 309; 38 U. S. C. 722]

§ 2.1168 *Ratings of total disability on history.* In the case of disabilities which have undergone some recent improvement, a rating of total disability may be made under Public No. 2, 73d Congress, without regard to the rating schedule: *Provided*, (a) That the disability must in the past have been of sufficient severity or warrant a total disability, (b) that it must have required extended, continuous or intermittent hospitalization, or have produced total industrial incapacity for at least one year, or be subject to recurring, severe, frequent or prolonged exacerbations, and (c) that it must be the opinion of the rating agency that despite the recent improvement of the physical condition, the veteran will be unable to effect an adjustment into a substantially gainful occupation. Due consideration will be given to the frequency and duration of totally incapacitating exacerbations since incurrence of the original disease or injury, and to periods of hospitalization for treatment, in determining whether the average person could have reestablished himself in a substantially gainful occupation.

§ 2.1172 *Stabilization of disability evaluations.* No change in (a) or (b).

(c) The above provisions apply to permanent ratings, or to those which on account of their long continuance at the same level (five years or more) are on a parity with permanent ratings. Such provisions of regulations and procedure are not for application in the cases of veterans so recently discharged from the service that their disability has not been stabilized. Accordingly, in these new cases and particularly when temporary disability, which is likely to improve, is under consideration reexamination disclosing improvement of the physical or mental condition will warrant reduction of th erating. [48 Stat. 9; 38 U. S. C. 707]

PART 3—ADJUDICATION; DISALLOWANCE AND AWARDS

§ 3.1212 *Effective dates of awards of disability compensation.* (a) Initial awards of disability compensation will be payable in accordance with the provisions of § 35.021 of this chapter (a) as amended by section 17, Public No. 144, 78th Congress: *Provided* an appropriate claim therefor has been filed and, if incomplete, the necessary evidence to complete such claim is submitted within one year from the date of request therefor: *Provided, however*, That no award of disability compensation under Public No. 2, 73d Congress, will be effective prior to March 20, 1933, no compensation under § 35.012 of this chapter, as amended by Public No. 159, 75th Congress, Act of June 23, 1937, shall be effective prior to June 23, 1937: *And provided further*, That no award of disability compensation under Title III, Public No. 141, 73d Congress, will be effective prior to March 28, 1934.

(b) Where, upon reconsideration by a rating agency or original jurisdiction in accordance with § 3.1201 of this chapter, a favorable decision is rendered the effective date of an award for monetary benefits will be the date of receipt by the Veterans' Administration of the application for reconsideration, or the date of receipt of the evidence which establishes entitlement, whichever is the later.

Paragraph (c) is added:

(c) (1) Initial original claims filed on or after July 13, 1943, including those in a pending status July 13, 1943, filed within one year from date of discharge:

(i) When payable only under Public No. 144, 78th Congress, the award of disability compensation will be effective as of the day following the date of discharge, date the evidence shows entitlement, or July 13, 1943, whichever is the later.

(ii) When payable under laws other than Public No. 144, 78th Congress, the award, disability, will be effective as of the date following date of discharge, date evidence shows entitlement, or July 13, 1943, whichever is the later, or if claim was pending as of July 13, 1943, from date of receipt of claim or date evidence shows entitlement, whichever is the later.

(2) Filed more than one year after date of discharge:

(i) When payable only under Public No. 144, 78th Congress, the award will be effective from date of receipt of claim, except when claim was in a pending status as of July 13, 1943, in which event award will be effective as of July 13, 1943.

(ii) When payable under laws other than Public No. 144, 78th Congress, the effective date of the award of disability compensation will be the date of receipt of claim, or date the evidence shows entitlement, whichever is the later.

(3) Reviewed or reopened disallowed claims:

(i) When reviewed on motion of the Veterans' Administration and compensation is payable only under Public No. 144, 78th Congress, the award will be effective the first day of the calendar month next succeeding the date of the approval of the award.

(ii) When payable only under Public No. 144, 78th Congress, and claim to reopen under Public No. 144, 78th Congress, was filed within a year from the date of discharge, the award will be effective from July 13, 1943, if otherwise in order. If claim to reopen was filed more than a year after date of discharge, the award will be effective from the date of receipt of claim to reopen.

(iii) When payable under laws other than Public No. 144, 78th Congress, the effective date of the award will be determined in accordance with paragraph (a) or (b) of this section. [Sec. 1, 48 Stat. 8, 38 U. S. C. 701; 57 Stat. 554–560; 38 U. S. C. Ch. 12, note]

§ 3.1214 *Effective dates of awards of increased disability compensation.* The effective date of an award of increased disability compensation will be in accordance with the provisions of § 35.021 (b) of this chapter.

(a) *By reason of dependents.* Increased disability compensation payable by reason of dependents under Title III, Public No. 141, 73d Congress, will be effective as of the date of the receipt of the claim or the date of receipt of the evidence which establishes entitlement, whichever is the later, subject to the provisions of § 3.1255 (c) of this chapter in cases of institutionalization, but in no event prior to March 28, 1934. The evidence necessary to complete the application for dependency allowance must be submitted within one year from the date of request for such evidence; otherwise the allowance for the dependents may not be paid by virtue of that application.

(b) *By reason of increased disability.* (1) The effective date of an award based upon an increased disability rating under an amendment to the rating schedule or governing regulation, as the case may require, will be the date of receipt of the claim (original, reopening or increased) by the Veterans' Administration, or the date of receipt of the evidence which establishes the existence of the increased disability, whichever is the later, but in no event prior to the date of the amendment or regulation involved: *Provided, however*, That where the claim was in a pending or appellate status as of that date the effective date of the award will be the date of administrative determination by the original or appellate rating agency.

(2) The effective date of an award based upon a total disability rating rendered solely by the application of § 2.1166 (c) of this chapter, will be the date of receipt of the claim (original, reopening or increased) by the Veterans' Administration, or the date of receipt of the evidence which establishes the existence of total disability, whichever is the later, but in no event prior to August 26, 1936: *Provided, however*, That where the claim was in a pending or appellate status as of August 26, 1936, the effective date of the award will be the date of administrative determination by the original or appellate rating agency.

No change in (c).

(Secs. 9, 20, 28, 48 Stat. 10, 309, 524; 38 U. S. C. 709, 722; 57 Stat. 554–560; 38 U. S. C. Ch. 12, note)

PART 35—VETERANS REGULATIONS

ADJUSTMENT OF SPECIAL MONTHLY COMPENSATION AND REDUCTIONS DURING HOSPITALIZATION

For the purpose of Public No. 182, 79th Congress, the following supplementary instructions are issued:

1. *Additional special monthly compensation of $35 (or $26.25).* Attention is directed to paragraph 6 of instructions under the cited Act, dated October 8, 1945, (a) When the special monthly compensation of $35 (or $26.25) is authorized in addition to the rates of §§ 35.011 and 35.012 (b) (1) to (10) only one allowance of $35 (or $26.25) in addition to the basic rate may be authorized; the additional allowance may be based upon an anatomical loss or loss of use included in the requirements for the basic rate.

(b) When the same special monthly compensation is authorized in addition to rates of §§ 35.011 and 35.012 (b) (12) to (14) the allowance is payable for each such anatomical loss or loss of use, or blindness of one eye having only light perception, provided, however, that the loss, loss of use, or blindness must exist in addition to the requirements for the basic rate under §§ 35.011 and 35.012 (b) (12), (13) or (14) (not to exceed $300 (or $225)) monthly.

2. *Helplessness.* The rate of $235 provided under §§ 35.011 and 35.012 (b) (13) on account of helplessness requiring regular aid and attendance applies only in cases entitled on account of blindness of both eyes. A veteran having suffered the loss; or loss of use of both hands, feet, or one hand and one foot, and having no other compensable disability, will be rated according to the level of amputation or loss of use; entitlement to a higher rate on account of helplessness requiring regular aid and attendance must be based on such need resulting from pathology other than the anatomical loss or loss of use of two extremities: when so based, i. e., upon pathology other than the anatomical loss or loss of use of two extremities, the rate will uniformly be $300 (or $225) monthly.

3. *Rating of transverse myelitis or paraplegic cases.* Transverse myelitis or paraplegia involving paralysis of both lower extremities, together with loss of anal and bladder sphincter control, as a result of severe traumatic lesions of the spinal cord, will entitle to a uniform rate of $300 (or $225) per month, without deduction on account of being furnished aid and attendance in kind.

4. *Rating of binocular blindness of different degrees.* (a) With blindness of one eye with 5/200 visual acuity or less, and blindness of the other eye having only light perception, the rate will be $217.50 (or $163.13).

(b) With blindness of one eye having only light perception, and anatomical loss, or blindness, having no light perception accompanied by phthisis bulbi, evisceration, or other obvious deformity or disfigurement, of the other eye, the rate will be $250 (or $187.50).

(c) With blindness of one eye having 5/200 visual acuity or less, and anatomical loss, or blindness, having no light-perception accompanied by phthisis bulbi, evisceration, or other obvious deformity or disfigurement, of the other eye, the rate will be $235 (or $176.25).

5. *Rating of blindness of both eyes having no light perception.* The rate under §§ 35.011 and 35.012 (b) (14), $265 (or $198.75) per month, will be assigned when there is a total blindness of both eyes having no light perception accompanied by phthisis bulbi, evisceration or other obvious deformity or disfigurement.

6. *Entitlement under §§ 35.011 and 35.012 (b) (15).* Entitlement to the maximum rate of $300 (or $225) per month on account of entitlement to two of the rates provided in one or more of §§ 35.011 and 35.012 (b) (12) to (14), inclusive, must be based upon separate and distinct disabilities so entitling.

If the loss, or loss of use of two extremities or being permanently bedridden renders the person helpless, increase to $300 (or $225) per month is not in order on account of this helplessness. Under no circumstances will the combination of "being permanently bedridden" and "being so helpless as to require regular aid and attendance" without separate and distinct anatomical loss, or loss of use of two extremities, or blindness, be taken as entitling to $300 (or $225) per month. The fact, however, that two separate and distinct entitling disabilities, such as anatomical loss or loss of use of both hands and of both feet result from a common etiological agent, for example, one injury, or rheumatoid arthritis, will not preclude entitlement to the maximum rate.

7. *Reductions during hospitalization.* (a) Due to the different additional amount to which veterans may be entitled under Public Law 182, 79th Congress, as amended, on account of helplessness requiring regular aid and attendance, and consequent different amounts of reductions when being furnished regular aid and attendance in kind, when institutionalized, married, and having dependents, it is necessary to give careful attention to the exact basis of entitlement.

(b) The general rule as to reductions of special monthly pension of $200 (or $112.50) per month or more based upon the need for regular aid and attendance when the veteran, married or having dependents, is being furnished nursing or attendant's service while receiving hospital treatment, institutional or domiciliary care by the United States or a political subdivision thereof, is that reduction will be in the additional amount based upon the need for regular aid or attendance.

(c) In determining the rate of special monthly pension first consideration will be given to anatomical loss or loss of use of extremities, blindness, having 5/200 visual acuity or less, anatomical loss of both eyes, or being permanently bedridden, and if, based on these considerations, there is entitlement to one of the rates under §§ 35.011 and 35.012 (b) (12) (13) or (14), or to two of these rates entitling under §§ 35.011 and 35.012 (b) (15), no reduction is in order on account of being furnished nursing or attendant's service. If there is such entitlement based on these enumerated conditions, it is immaterial whether the person is also so helpless as to be in need of regular aid and attendance, and no reduction is in order on this account.

(d) It is only when entitlement to the rate under §§ 35.011 and 35.012 (b) (12) of this chapter singly, or with another entitlement to the rate under §§ 35.011 and 35.012 (b) (12) (13) or (14) so as to qualify under §§ 35.011 and 35.012 (b) (15), is based solely upon being helpless as to be in need of regular aid and attendance, i. e., in the absence of other entitling conditions, that reduction on this account is in order.

(e) The reduction in the case of a veteran entitled only under §§ 35.011 and 35.012 (b) (12) on account of helplessness will be in the amount of $85 (or $63.75).

(f) When any veteran is entitled to one of the rates under §§ 35.011 and 35.012 (b) (12) (13) or (14) by reason of anatomical losses or losses of use of extremities, blindness, having 5/200 visual acuity or less, or anatomical loss of both eyes, and is also entitled to another rate under §§ 35.011 and 35.012 (b) (12) on account of being so helpless as to be in need of regular aid and attendance,

no condition being considered twice in the determination, the rate of pension while not being maintained and furnished aid and attendance in kind will be $300 (or $225) per month. This amount is subject to reduction to $235 (or $176.25) or $265 (or $198.75) per month according to which the veteran is entitled apart from helplessness. No case will arise in which reduction from $300 to $200 will be in order, for the reason that the condition entitling to the second rate on account of rendering the person helpless will nessarily be totally disabling, thus entitling, if the basic entitlement is under §§ 35.011 and 35.012 (b) (12) or (13), to one of the rates specified in the preceding sentence. Note that if the basic entitlement is under §§ 35.011 and 35.012 (b) (14) the additional disability rendering the person helpless is necessarily ratable at 100%; consequently the rate of pension will be $300 (or $225) per month whether or not being furnished aid and attendance in kind.

(g) In the special case of entitlement under §§ 35.011 and 35.012 (b) (13) only on account of blindness of both eyes, rendering him so helpless as to be in need of regular aid and attendance, the reduction will be $35 (or $26.25) per month.

(h) Additional pension of $35 (or $26.25) per month under §§ 35.011 and 35.012 (b) (11), or on account of 50% disability or 100% disability in excess of the conditions entitling under §§ 35.011 and 35.012 (b) (12) (13) or (14) is not subject to reduction on account of being furnished nursing or attendant's services.

8. *Complete citation of entitling disabilities.* Each rating sheet evidencing entitlement to special monthly pension will cite completely all the disabilities constituting the basis of entitlement with proper diagnosis.

9. *Review.* Appropriate action will be taken to correct awards of special monthly pension heretofore made under instructions issued on October 8, 1945, according to the preceding paragraphs. Increases in order under paragraphs 1, 2, 3, 4, except as to blindness, having no light perception, and 7, of this instruction will be effective October 1, 1945 or date of discharge or claims subsequent thereto, or according to the date of hospital treatment, institutional or domiciliary care. Increases in order under paragraphs 4 and 5, as to blindness having no light perception, will be effective from date of this instruction or date subsequent thereto otherwise in order. Reductions on account of previous improper application of the law corrected in accordance herewith will be effective as of the date of last payment.

10. *Increased rates.* All the rates specified above for wartime and peacetime service-connected disabilities are subject to increases authorized under Public Laws 662 and 659, approved August 8, 1946, respectively, in accordance with instructions pursuant to the cited Acts. (Public No. 182, 79th Cong.)

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

PART 14—ELECTRIC RAILWAYS: UNIFORM SYSTEM OF ACCOUNTS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 29th day of March A. D. 1946.

The matter of a uniform system of accounts for electric railways being under consideration,

And it appearing, that by order dated May 28, 1914, the "Uniform System of Accounts for Electric Railways, Issue of 1914," was prescribed;

And it further appearing, that since the effective date of said order of May 28, 1914, various supplemental orders have been issued in which changes were made in certain provisions thereof;

And it further appearing, that because of the many modifications and amendments it is desirable and appropriate to consolidate and publish the original order and the several amendments thereto in revised form;

It is ordered:

1. That the accounting regulations prescribed by the said order of May 28, 1914, as modified and amended by supplemental orders hereby referred to and made a part hereof,[1] be, and they are hereby, published in revised form to be known as the "Uniform System of Accounts for Electric Railways, Issue of 1947."

2. That all carriers by railroad independently operated as electric lines subject to the Interstate Commerce Act, and every trustee, receiver, executor, administrator, or assignee of any such carrier, be, and they are hereby, required to comply with the "Uniform System of Accounts for Electric Railways, Issue of 1947."

3. That notice of this order be given to all electric railways and to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

By the Commission, Division 1.

[SEAL] W. P. BARTEL,
Secretary.

CIVILIAN PRODUCTION ADMINISTRATION.

[C-431]

STAAB BATTERY MFG. CO.

CONSENT ORDER

Paul J. Staab, doing business as Staab Battery Manufacturing Company, Springfield, Illinois, is engaged in the manufacture of storage batteries of the automotive SLI type. He is charged with having during the first, third and fourth quarters of 1945 and the first quarter of 1946 used or caused to be used in the manufacture of batteries a substantial amount of lead in excess of his quota as established by General Preference Order M-38. Paul J. Staab has admitted such excess usage and consented to the issuance of this order.

Wherefore, upon the agreement and consent of Paul J. Staab, the Regional Compliance Manager and the Attorney and upon the approval of the Compliance Commissioner; *It is hereby ordered,* That:

(a) Paul J. Staab shall during the fourth quarter of 1946 and the first, second and third quarters of 1947 reduce his use of lead in the manufacture of automotive SLI Type storage batteries by 17% below the amount of lead he would otherwise be entitled to use during each of these quarters under the provisions of General Preference Order M-38.

(b) Nothing contained in this order shall be deemed to relieve Paul J. Staab from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration except insofar as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to Paul J. Staab, doing business as Staab Battery Manufacturing Company, or under any other name, his successors and assigns or persons acting on their behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

Issued this 24th day of September 1946.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

FEDERAL POWER COMMISSION.

[Docket Nos. G-210, G-661, G-688, G-693]

MICHIGAN CONSOLIDATED GAS CO., ET AL.

ORDER POSTPONING HEARING

SEPTEMBER 20, 1946.

Michigan Consolidated Gas Company v. Panhandle Eastern Pipe Line Company and Michigan Gas Transmission Corporation, Docket No. G-210; City of Detroit, a Municipal Corporation, and County of Wayne, a Municipal Corporation, both of the State of Michigan v. Panhandle Eastern Pipe Line Company and Michigan Consolidated Gas Company, Docket No. G-661; In the Matter of Panhandle Eastern Pipe Line Company and Michigan Consolidated Gas Company, Docket No. G-688; In the Matter of Panhandle Eastern Pipe Line Company, Docket No. G-693.

It appearing to the Commission that:

(a) On May 10, 1946, the Commission ordered that a public hearing in the above-entitled matters be held commencing on August 26, 1946, at 10:00 a. m. (EST), in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue, N. W., Washington, D. C.

(b) On August 2, 1946, the Commission postponed the hearing fixed for August 26, 1946, to September 30, 1946.

(c) On August 8, 1946, Michigan Consolidated Gas Company filed a withdrawal of its complaint in the proceeding in Docket No. G-210; on September 16, 1946, Panhandle Eastern Pipe Line Company filed a withdrawal of its application for a certificate of public convenience and necessity in Docket No. G-693, a motion to dismiss the joint petition of the City of Detroit, and County of Wayne, Michigan, in Docket No. G-661 and a motion requesting an order to discharge the order to show cause entered by the Commission on December 18, 1945, and to terminate the proceedings in Docket No. G-688.

(d) No response having been received with respect to the motions referred to in paragraph (c) above and the time for the filing of such responses not having expired, good cause exists for postponing the date of hearing as hereinafter provided.

The Commission orders that: The public hearing in the above-entitled matters is hereby postponed to November 25, 1946, commencing at 10:00 a. m. (EST), in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C.

By the Commission.

Issued September 23, 1946.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 46-17292; Filed, Sept. 25, 1946; 9:02 a. m.]

[Docket No. G-781]

COLORADO INTERSTATE GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 19, 1946.

Notice is hereby given that on September 11, 1946, an application was filed with the Federal Power Commission by Colorado Interstate Gas Company (Applicant, a Delaware corporation, having its principal place of business in Colorado Springs, Colorado, and authorized to do business in the States of New Mexico and Colorado, for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate certain natural gas facilities, all subject to the jurisdiction of the Federal Power Commission, as more particularly described hereafter.

The facilities which Applicant proposes to construct and operate are described as follows:

(a) A 6-inch welded pipe line commencing at a point in Fremont County, Colorado, at a point of connection with Applicant's existing 8-inch Portland lateral line (said Portland lateral extending from Applicant's 20-inch main transmission line in Pueblo County, Colorado, in a westerly direction to the plant of the Ideal Cement Company, located near Portland, Colorado), thence in a northwesterly direction for a distance of approximately fourteen (14) miles, to a point at or near the east city limits of Canon City, Colorado.

(b) A suitable metering and regulating station to be constructed at the terminus of the proposed 6-inch line, such metering and regulating station to be equipped with the necessary valves, piping, metering and regulating equipment to regulate, control and measure the volumes of natural gas to be delivered to The Canon Gas Service Company.

Applicant recites that the 6-inch pipe line and other construction described above will constitute an extension to Applicant's existing lateral lines which are a part of its natural gas transmission system. The service which will be rendered thereby will consist of delivering and supplying the entire natural gas requirements of The Canon Gas Service Company for resale to its domestic, commercial and industrial customers in Canon City, Colorado, and environs.

It is stated in the application that this will constitute a new customer for Applicant which heretofore has not utilized natural gas. This customer is located in the service territory of Applicant, and no

other natural gas pipe line is located so as to make the proposed service feasible from any other source.

Applicant states that the city of Canon City prior to August 1945, had been served manufactured gas. Following a reconditioning of the distribution system, The Canon Gas Service Company began the distribution of propane gas. Applicant was asked to supply natural gas for Canon City and its environs. Study of the situation resulted in Applicant making a proposal to the effect that it would construct the necessary lateral etc. if the distributing company secured the required franchise. The city of Canon City on April 1, 1946, granted the franchise which was then submitted to and approved by the voters at a referendum held on April 30, 1946.

Based on estimates furnished by The Canon Gas Service Company, Applicant estimates that for the first year of operation the total annual sales through the proposed facilities to The Canon Gas Service Company will be 80,700 Mcf, for the second year 228,300 Mcf, for the third year 255,500 Mcf, for the fourth year 279,200 Mcf, and for the fifth year 295,000 Mcf. The peak day sales for the first year of operation are estimated to be 330 Mcf; for the second year 710 Mcf; for the third year 990 Mcf; for the fourth year 1,170 Mcf; and for the fifth year 1,280 Mcf. All volumes are given on a 14.65# pressure base.

Applicant states that it desires to sell natural gas to The Canon Gas Service Company at the rates contained in its rate schedules G–1, I–1 and I–2 as filed with the Federal Power Commission in compliance with the Commission's order.

The estimated over-all cost of the project is approximately $152,000, and Applicant states the entire cost will be financed from Applicant's cash resources.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's Rules of Practice and Procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Colorado Interstate Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G–782]

NATURAL GAS PIPE LINE CO. OF AMERICA

NOTICE OF APPLICATION

SEPTEMBER 19, 1946.

Notice is hereby given that on September 12, 1946, an application was filed with the Federal Power Commission by Natural Gas Pipe Line Company of America (hereinafter referred to as "Applicant"), a Delaware Corporation having its principal offices in the City of Chicago, Illinois, and authorized to do business in the States of Oklahoma, Kansas, Nebraska, Iowa, and Illinois, for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate certain natural gas pipe-line facilities, subject to the jurisdiction of the Federal Power Commission, all of which said facilities are hereinafter more fully described.

Applicant seeks authorization to construct and operate the following facilities:

(a) A pipe line 2 inches in diameter extending from a connection with Applicant's present 18-inch pipe line at a point in the Southwest Quarter of the Northwest Quarter of Section 28, Township 72 North, Range 43 West, Mills County, Iowa, southwardly approximately 75 feet to a regulating and metering station to be there constructed, and including such station and all necessary appurtenances.

Applicant proposes, by means of the facilities described above, to sell natural gas to the Iowa Alfalfa Company, a corporation, to be utilized by said Iowa Alfalfa Company solely in the processing of alfalfa in its plant located in said Mills County, Iowa, and not to be resold by it. The application recites that the estimated annual sales of natural gas expected to be made through use of the proposed facilities for the first three years of operation will be 45,400, 77,800 and 77,800 Mcf, respectively. Applicant estimates the total over-all cost of construction of the facilities proposed will be $6,581, and expects to be in a position to commence deliveries of natural gas to said Iowa Alfalfa Company upon completion of construction of its alfalfa dehydration plant which it is contemplated will be ready for operation by March 1, 1947.

Any interested state commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Natural Gas Pipe Line Company of America should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of the publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

J. H. GUTRIDE,
Acting Secretary.

[Docket No. IT–6007]

FLORIDA POWER CORP.

NOTICE OF AMENDMENT TO APPLICATION FOR AUTHORIZATION OF THE ISSUANCE OF SECURITIES

September 23, 1946.

Notice is hereby given that on September 19, 1946, amendment No. 1 to the Application for Authorization of the Issuance of Securities, filed September 3, 1946, was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Florida Power Corp. ("Applicant"), a corporation organized under the laws of the State of Florida and doing business in said State, with its principal business office at St. Petersburg, Florida, seeking an order authorizing the issuance and sale of $4,000,000 of new First Mortgage Bonds, to be dated ----------, 1946 and to mature ----------, 1947 at an interest rate, redemption prices and other terms to be determined by the Board of Directors. The new First Mortgage Bonds will be issued under a supplement to, and will be secured by, the Indenture dated as of January 1, 1944, securing the outstanding $16,500,000 First Mortgage Bonds, 3¾% Series due 1974. The new First Mortgage Bonds will be sold privately to one or more insurance companies at competitive bidding and no under-writing fees will be involved; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 8th day of October 1946, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure.

INTERSTATE COMMERCE COMMISSION.

[S. O. 613]

UNLOADING OF PREFABRICATED HOUSES AT LOGANSPORT, IND.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 20th day of September A. D. 1946.

It appearing, that 3 cars containing prefabricated houses at Logansport, Indiana, on The Pennsylvania Railroad Company, shipped by Williamson, Inc., Peshtigo, Wisconsin, have been on hand for an unreasonable length of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action; It is ordered, that:

(a) *Prefabricated houses at Logansport, Indiana, be unloaded.* The Pennsylvania Railroad Company, its agents or employees, shall unload immediately the following cars, containing prefabricated houses, now on hand at Logansport, Indiana, consigned shippers order, notify J. J. Novak, 224 South Third Street, Logansport, Ind.

C&NW 32934
SP 30170
ACL 51885

(b) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where and by whom such unloading was performed. Upon receipt of that notice this order shall expire. (40 Stat. 101, sec. 402; 41 Stat. 476, sec. 4; 54 Stat. 901, 911; 49 U. S. C. 1 (10)–(17), 15 (2))

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

[S. O. 614]

BRUNSWICK-BALKE-COLLENDER COMPANY EMBARGOED

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 20th day of September A. D. 1946.

It appearing, that The Brunswick-Balke-Collender Company, Muskegon, Michigan, has persistently and is now indulging in the practice of holding loaded freight cars an unreasonable time before unloading them; that the railroads have placed Embargo CSD No. 499 against the said company but they have and are disregarding their own embargo; that such practices are impeding the use of freight cars, thus contributing to the existing general shortage of such cars; in opinion of the Commission an emergency requiring immediate action exists at Muskegon, Michigan; It is ordered, that:

(a) *Shipments to, or for The Brunswick-Balke-Collender Company be embargoed.* The Grand Trunk Western Railroad Company, the Muskegon Railway and Navigation Company, The Pennsylvania Railroad Company, and the Pere Marquette Railway Company shall not accept from shippers or connecting railroads a loaded freight car or cars consigned or reconsigned direct to, or advise The Brunswick-Balke-Collender Company; nor shall said named carriers deliver or place for delivery such car or cars consigned or reconsigned direct to, or advise The Brunswick-Balke-Collender Company, its agents or employees at any point or station within the switching limits of Muskegon or Muskegon Heights, Michigan.

(b) *Special and general permits.* This order shall be subject to any special or general permits issued by V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., authorizing a departure therefrom.

(c) *Effective date.* This order shall become effective at 12: 01 a. m., September 21, 1946.

(d) *Expiration date.* This order shall expire at 11: 59 p. m., October 31, 1946, unless modified, changed, suspended, or annulled by order of the Commission (40 Stat. 101, secs. 402, 418; 41 Stat. 475, 485, secs. 4, 10; 54 Stat. 901, 912; 49 U. S. C. 1 (10)–(17))

It is further ordered, That copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commision, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

OFFICE OF ALIEN PROPERTY CUSTODIAN.

[Vesting Order 7284]

HEINZ MOSER

In re: Stock owned by Heinz Moser. F–28–22247–D–1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Heinz Moser, whose last known address is Konigstadter Str. 103, Russelsheim/M, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: Eight (8) shares of $1.00 par value common capital stock of The Studebaker Corporation, South Bend, Indiana, a corporation organized under the laws of the State of Delaware, evidenced by certificate Number 0293, and registered in the name of Heinz Moser, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of any set-offs, charges or deductions nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 30, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

AUGUSTA ACKERMAN

In re: Bank account owned by Augusta Ackerman. F–28–23690–E–1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Augusta Ackerman, whose last known address is Alisen Street, 20½, Darmstadt, Hessen, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to Augusta Ackerman by Bank of America National Trust and Savings Association, 1 Powell Street, San

Francisco, California, arising out of a savings account, Account Number 12047, entitled Augusta Ackerman, maintained at the branch office of the aforesaid bank located at 350 Pine Avenue, Long Beach, California, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

E. BARNEY

In re: Debt owing to E. Barney. F-28-22805-A-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That E. Barney, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to E. Barney, by Anderson, Clayton & Co., P. O. Box 2538, Houston, Texas, in the amount of $188.00, as of December 31, 1945, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

CARL ALFRED BECKER

In re: Bank account and securities owned by Carl Alfred Becker. F-28-37, F-28-37A-1, F-28-37A-2, F-28-37D-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Carl Alfred Becker, whose last known address is 10 Freiherr von Steinstrasse, Berlin, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. That certain debt or other obligation owing to Carl Alfred Becker, by Hawaiian Trust Company, Ltd., Honolulu, T. H., arising out of an open account, entitled Carl Alfred Becker, and any and all rights to demand, enforce and collect the same, and

b. 350 shares of $18 par value common capital stock of Inter-Island Steam Navigation Company, Ltd., Fort and Merchant Streets, Honolulu, T. H., a corporation organized under the laws of the Territory of Hawaii, evidenced by Certificate Number 5791, and registered in the name of Carl Alfred Becker, together with all declared and unpaid dividends thereon.

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

ISAKU FUJIMOTO

In re: Bank account and claim owned by Isaku Fujimoto. D-39-200.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Isaku Fujimoto, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows:

a. That certain debt or other obligation owing to Isaku Fujimoto, by Bishop National Bank of Hawaii, Honolulu, T. H., arising out of a blocked savings account, Account Number 10889, entitled Isaku Fujimoto, maintained at the branch office of the aforesaid bank located at Hilo, Hawaii, T. H., and any and all rights to demand, enforce and collect the same, and

b. All those debts or other obligations owing to Isaku Fujimoto, by Pacific Soda Works, Limited, 890 South King Street, Honolulu, T. H., including particularly but not limited to a portion of the sum of money on deposit with Bishop National Bank of Hawaii, Honolulu, T. H., in a blocked savings account, Account Number 19286, entitled Pacific Soda Works, Limited, Special Account for Non Resident Stockholders, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

ADOLPH GOEBERT ET AL.

In re: Bank accounts owned by Adolph Goebert, Agnes Goebert, Granz Goebert, Rudolf Goebert, Hedwig Goebert, Heinrich Goebert, Josef Goebert, Max Goebert, Paul Goebert, Rudolph Goebert, Erika Kamenz, Wilhelm Kamenz, Charlotte Mann, and Helene Niefer.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That the persons listed in Exhibit A, attached hereto and by reference made a part hereof, whose last known addresses are Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to each individual whose name is set forth in the aforesaid Exhibit A, by The First National Bank of Chicago, Dearborn, Clark and Monroe Streets, Chicago, Illinois, arising out of savings accounts, the account numbers of which are set forth in the aforesaid Exhibit A, entitled in the manner set forth in the aforementioned Exhibit A, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

JOHANNA MARGARETHA HANSEN ET AL.

In re: Bank account owned by Johanna Margaretha Hansen, Gustav Thos. Reinhold Hansen, Hans Christian Emil Hansen and Wilhelm Hansen. F-28-23822-C-1, F-28-23822-E-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Johanna Margaretha Hansen, Gustav Thos. Reinhold Hansen, Hans Christian Emil Hansen and Wilhelm Hansen, whose last known addresses are Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of Bank of America National Trust and Savings Association, 300 Montgomery Street, San Francisco, California, arising out of a savings account, Account Number 632, entitled California Holding Company, as Trustee for Johanna Margaretha Hansen, maintained at the branch office of the aforesaid bank located at 1019 Fillmore Street, San Francisco, California, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Johanna Margaretha Hansen, Gustav Thos. Reinhold Hansen, Hans Christian Emil Hansen and Wilhelm Hansen, the aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[Vesting Order 7569]

YEISHO KIYAN ET AL.

In re: Debts owing to Yeisho Kiyan and Kisshin Kiyan and others.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Yeisho Kiyan and Kisshin Kiyan, whose last known addresses are Tokyo, Japan, are residents of Japan and nationals of a designated enemy country (Japan);

2. That each partnership, association, corporation or other business organization whose name and last known address is set forth in Exhibit A, attached hereto and by reference made a part hereof, is a partnership, association, corporation or other business organization organized under the laws of Japan, or which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

3. That the property described as follows: Those certain debts or other obligations owing to the individuals and organizations listed in Exhibit A, by the Superintendent of Banks of the State of New York, as Liquidator of the Business and Property in New York of Mitsui Bank, Ltd., 80 Spring Street, New York, New York, in the respective amounts appearing opposite the names of said individuals and organizations, as of December 31, 1945, arising out of collection after closing accounts, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 7577]

SHOSO NII

In re: Stock and bank account owned by Shoso Nii also known as Shozo Nii. F-39-3004-A1, F-39-3004-A2, F-39-3004-D-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Shoso Nii, also known as Shozo Nii, whose last known address is Hiroshima, Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows:

a. 311 shares of $10 par value common capital stock of Waipahu Garage, Limited, P. O. Box 162, Waipahu, Oahu, T. H., a corporation organized under the laws of the Territory of Hawaii, evidenced by Certificate Number 27, dated April 7, 1939, and registered in the name of Shoso Nii, together with all declared and unpaid dividends thereon, and

b. That certain debt or other obligation owing to Shoso Nii, also known as Shozo Nii, by Bank of Hawaii, Honolulu, T. H., arising out of a blocked account, entitled Shoso Nii, maintained at the branch office of the aforesaid bank located at Waipahu, Oahu, T. H., and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 7578]

KANJI NUNOME

In re: Bank account owned by Kanji Nunome. D-39-15593-E-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Kanji Nunome, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows: That certain debt or other obligation owing to Kanji Nunome, by The Northern Trust Company, 50 South La Salle Street, Chicago, Illinois, arising out of a savings account, Account Number 386485, entitled Kanji Nunome, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

SUKEYOSHI TAKEBE

In re: Bank account owned by Sukeyoshi Takebe, also known as S. Takebe. D-39-1415-E-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Sukeyoshi Takebe, also known as S. Takebe, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows: That certain debt or other obligation owing to Sukeyoshi Takebe, also known as S. Takebe, by Republic National Bank of Dallas, Dallas, Texas, arising out of a checking account entitled S. Takebe, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 7597]

TOYO BOEKI SHOKAI

In re: Debts owing to Toyo Boeki Shokai. F-39-5110-C-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Toyo Boeki Shokai, the last known address of which is Yokohama, Japan, is a corporation, partnership, association or other business organization, organized under the laws of Japan, and which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

2. That the property described as follows:

a. That certain debt or other obligation owing to Toyo Boeki Shokai, by Oriental Trading Co., Omaha, Nebraska, evidenced by various drafts drawn by Toyo Boeki Shokai on Oriental Trading Co., and presently in the custody of the Superintendent of Banks of the State of New York, as Liquidator of the Business and Property in New York of Bank of Taiwan, Ltd., 60 Spring Street, New York, New York, and any and all rights to demand, enforce and collect the aforesaid debt or other obligation and any and all accruals thereto, together with any and all rights in, to and under, including particularly the right to possession of, the aforesaid drafts, and

b. That certain debt or other obligation owing to Toyo Boeki Shokai, by the Superintendent of Banks of the State of New York, as Liquidator of the Business and Property in New York of Bank of Taiwan, Ltd., 80 Spring Street, New York, New York, in the amount of $2,296.40, as of December 31, 1945, arising out of a collection after closing account, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

TRUCHI TSUCHIYA

In re: Cash owned by Truchi Tsuchiya.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Truchi Tsuchiya, whose last known address is Yodobashiku Tsunohazu, Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows: Cash in the sum of $11.78, presently in the custody of the Alien Property Custodian in Collection Account, Symbol 896-027,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

TOKUTARO TSUMOTO

In re: Stock and claim owned by Tokutaro Tsumoto. F-39-5098-A-1, F-39-5098-D-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Tokutaro Tsumoto, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows: a. 51 shares of $10 par value common capital stock of Waipahu Garage, Limited, P. O. Box 162, Waipahu, Oahu, T. H., a corporation organized under the laws of the Territory of Hawaii, evidenced by Certificate Number 10, dated September 1, 1928, and registered in the name of Tokutaro Tsumoto, together with all declared and unpaid dividends thereon, and

b. That certain debt or other obligation owing to Tokutaro Tsumoto, by Waipahu Garage, Limited, P. O. Box 162, Waipahu, Oahu, T. H., in the amount of $145.94, as of December 31, 1945, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

ISAO YANO

In re: Cash and bank account owned by Isao Yano.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Isao Yano, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows:

a. Cash in the amount of $60.22, formerly held by The Second National Bank of Houston, Houston, Texas, and presently in the possession of the Alien Property Custodian, and

b. That certain debt or other obligation owing to Isao Yano, by The Second National Bank of Houston, Houston, Texas, arising out of a checking account entitled Isao Yano, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 25, 1946.

[Vesting Order CE 326]

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN ILLINOIS COURTS

Under the authority of the Trading with the Enemy Act, as amended, and

Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that as a result of such action or proceeding each of said persons obtained or was determined to have an interest in property, which interest is particularly described in Column 4 of said Exhibit A;

Finding that such property is in the possession, custody or control of the person described in Column 5 of said Exhibit A; and

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 6 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property in the possession, custody, or control of the persons described in said Column 5 of said Exhibit A, the sums stated in said Column 6 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 18, 1946.

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN CALIFORNIA COURTS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian:

Having found that each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or enemy-occupied territory appearing opposite such person's respective name in Column 2 of said Exhibit A;

Having determined that it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A, and having taken such measures;

Finding that the Alien Property Custodian has incurred, in each of such court or administrative actions or proceedings, costs and expenses in the amount stated in Column 4 of said Exhibit A,

hereby vests in the Alien Property Custodian, to be used or otherwise dealt with in the interest, and for the benefit, of the United States, from the property which each of the persons named in said Column 1 of said Exhibit A obtains or is determined to have as a result of the action or proceeding described in said Column 3 of said Exhibit A the sums stated in said Column 4 of said Exhibit A, such sums being the amounts of such property equal to the costs and expenses incurred by the Alien Property Custodian in such actions or proceedings.

This order shall not be deemed to limit the powers of the Alien Property Custodian to return such property if and when it should be determined that such return should be made.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 18, 1946.

[Vesting Order 5157, Amdt.]

ANNA ZETERBERG

In re: Estate of Anna Zeterberg, deceased. File D-28-9747; E. T. sec. 13660.

Vesting Order Number 5157, dated July 23, 1945, is hereby amended to read as follows:

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Fritz Pefers in and to the Estate of Anna Zeterberg, deceased, which includes but is not limited to:

(a) A mortgage executed on July 27, 1939, by W. H. Mervine to Rupert P. Nilis, testamentary trustee under the last will and testament of Anna Zeterberg, deceased, and recorded in the Recorder's Office of the County of Monroe, Pennsylvania in Mortgage Book, Vol. 65, Page 459, and any and all obligations secured by said mortgage, including but not lim-

ited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations and the right to enforce and collect such obligations and the right to possession of any and all notes, bonds and other instruments evidencing such obligations,

(b) The interest in and to a certain indenture of mortgage dated May 2, 1928, made by the S. R. H. Building Corporation to J. Lehrenkrauss and Sons, a co-partnership, and recorded on May 3, 1928, in the Register's Office, County of Kings, New York, in Liber 7006 of Mortgages, Page 520, Section 15, Block 4943, which interest was assigned by J. Lehrenkrauss and Sons to Anna Zeterberg by assignment dated January 2, 1932, and recorded on January 8, 1934, in the Register's Office, County of Kings, New York, in Liber 7861 of Mortgages, Page 376, Block 4943, and any and all obligations acquired pursuant to the above-described assignment, including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations and the right to enforce and collect such obligations and the right of possession of any and all notes, bonds and other instruments evidencing such obligations,

(c) A mortgage executed on July 28, 1925, by Russell Holmstrom and Mildred Holmstrom, his wife, to National Title Guaranty Company, a corporation organized under the laws of the State of New York, and recorded on July 29, 1925, in the Register's Office, County of Kings, New York, in Liber 6113 of Mortgages, Page 292, Block 4975, which was assigned, after various mesne assignments, by J. Lehrenkrauss and Sons, a co-partnership, to Anna Zeterberg, by assignment, dated December 8, 1931, and recorded on January 8, 1934, in the Register's Office, County of Kings, New York, in Liber 7861 of Mortgages, Page 376, Block 4975, and assigned by the said Anna Zeterberg by an unrecorded assignment dated ----------, 1936, to herself and Fritz Peters as joint tenants, and any and all obligations secured by said mortgage, including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations and the right to enforce and collect such obligations and the right of possession of any and all notes, bonds and other instruments evidencing such obligations, and

is property payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Fritz Peters, Germany.

That such property is in the process of administration by Rupert P. Nills, as trustee, acting under the judicial supervision of the Orphans' Court of Pike County, Milford, Pennsylvania;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 18, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-1363]

WORCESTER GAS LIGHT CO. ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of September 1946.

In the Matter of Worcester Gas Light Company, Cambridge Gas Light Company and New England Gas and Electric Association, File No. 70-1363.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by New England Gas and Electric Association (New England), a registered holding company, and its subsidiaries, Worcester Gas Light Company (Worcester) and Cambridge Gas Light Company (Cambridge);

All interested persons are referred to said application-declaration, which is on file in the offices of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Worcester proposes to issue to Cambridge 1,900,000 principal amount of 3½% first series unsecured serial notes due 1971 in exchange for a like principal amount of 4% demand notes now held by Cambridge and to issue to New England $1,000,000 principal amount of 3½% second series unsecured serial notes due 1971 and 45,824 shares of common stock at $25 par value amounting to $1,145,600 in exchange for presently outstanding indebtedness of $2,145,600, consisting of 4% demand notes amounting to $1,295,600 and open account indebtedness of $850,000, stated to be owed to New England.

The application by Worcester is filed pursuant to section 6 (b) of the act for exemption from the provisions of section 6 (a) of the act as to the issue and sale of the proposed securities, such issue and sale having been expressly authorized by the Department of Public Utilities of Massachusetts by order dated July 25, 1946. New England and Cambridge have joined in the filing under sections 9 (a), 10 and 12 (f) of the act in respect to their acquisition of the proposed securities.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matter and that said application shall not be granted nor said declaration permitted to become effective except pursuant to further order of this Commission:

It is hereby ordered, That a hearing on such matter under the applicable provisions of said act and rules of the Commission promulgated thereunder be held on October 7, 1946 at 11 a. m., E. S. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, at which time the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. At such hearing cause shall be shown why such application-declaration shall be granted or become effective. Any person desiring to be heard in such proceeding shall file with the Commission, on or before September 30, 1946, his request therefor as provided by Rule XVII of the rules of practice of this Commission.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a Trial Examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented by said application-declaration otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed sale by Worcester and the acquisition by Cambridge and New England of the securities of Worcester satisfies the applicable standards of sections 10 and 12 (f) of the act.

2. The propriety or necessity of the sale by Worcester of its securities to Cambridge and the acquisition thereof by Cambridge.

3. Whether the proposed consideration for the securities of Worcester is fair and reasonable.

4. Whether the proposed issue and sale of securities by Worcester are solely for the purpose of financing the business of Worcester and are entitled to exemption from the provisions of section 6 (a) of the act.

5. Whether, in the event the proposed issue and sale of securities by Worcester are not entitled to exemption from the provisions of section 6 (a) of the act, such issue and sale of securities satisfy the standards of section 7 of the act.

It is further ordered, That notice of such hearing be given to applicants-declarants and to all other interested persons; said notice to be given to applicants-declarants by registered mail, and to all other persons by general release of the Commission which shall be distributed to the press and mailed to persons on the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-1355]

CENTRAL NEW YORK POWER CORP. AND HAMMOND LIGHT & POWER CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of September 1946.

Central New York Power Corporation ("Central"), a subsidiary of Niagara Hudson Power Corporation, in turn, a subsidiary of The United Corporation, a registered holding company, and Hammond Light and Power Company ("Hammond"), a subsidiary of Central, having filed a joint application-declaration pursuant to sections 10 and 12 of the Public Utility Holding Company Act of 1935 and the Rules and Regulations promulgated thereunder with respect to the following transactions:

Central, which at present owns 54 shares (54%) of the common stock of Hammond, proposes to purchase from Oswegatchie Light and Power Company, a non-affiliate, for a cash consideration of $12,466 ($271 per share), the remaining outstanding 46 shares of Hammond common stock. Upon acquisition of these shares, it is proposed that Hammond be merged into Central.

Central presently provides electric service in the territory contiguous to that of Hammond and supplies Hammond with all of its energy requirements for distribution to the public.

The proposed transactions have been approved by the Public Service Commission of the State of New York.

Said joint application-declaration having been filed on August 22, 1946, and notice of said filing having been duly given in the form and manner provided by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said joint application-declaration within the period prescribed in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding that no adverse findings are necessary under sections 10 (b) or 10 (c) (1) of the act and that the transaction involved has the tendency required by section 10 (c) (2) of the Act, and that the requirements of sections 12 (c) and 12 (f) are satisfied;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said application and declaration be, and the same hereby are, granted and permitted to become effective, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File Nos. 54-149, 70-815, 59-12]

ELECTRIC BOND AND SHARE CO. ET AL.

NOTICE OF FILING PLAN AND NOTICE OF AND ORDER FOR HEARING AND ORDER FOR CONSOLIDATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of September A. D. 1946.

In the matter of Electric Bond and Share Company and American Power & Light Company, File No. 54-149; in the matter of American Power & Light Company, File No. 70-815; In the matter of Electric Bond and Share Company, American Power & Light Company, Pacific Power & Light Company, Electric Power & Light Corporation, Utah Power & Light Company, National Power & Light Company and Ebasco Services Incorporated, Respondents, File No. 59-12.

American Power & Light Company ("American") is a corporation organized under the laws of the State of Maine, having its principal business offices in New York, New York. American is a registered holding company under the Public Utility Holding Company Act of 1935 and is a subsidiary of Electric Bond and Share Company ("Bond and Share"), a corporation organized under the laws of the State of New York and a registered holding company, having its principal business offices in New York, New York.

At June 30, 1946, American's capitalization was as follows:

	Number of shares outstanding	Stated value
Preferred stock ($6) cumulative, no par	[1] 793,581.2	$79,300,926.00
$5 preferred stock, cumulative, no par	978,444	97,844,400.00
Common stock, no par	[2] 3,008,511.54	37,434,351.29

[1] Including scrip equivalent to 20.2 shares.
[2] Excluding 5,301 shares reacquired and including scrip equivalent to 1,548.54 shares.

NOTE: Retirement of American's funded debt was completed in 1945.

At June 30, 1946, unpaid accumulated dividends amounted to $34,579,377.00 ($43.575 a share) on the $6 preferred stock and $35,529,747.75 ($36.3125 a share) on the $5 preferred stock.

At June 30, 1946, Bond and Share owned 51,840 shares of American's $5 preferred stock (approximately 2.9% of all of the shares of American's preferred stock outstanding) and 937,221 shares of American's common stock (approximately 31% of such shares outstanding). These holdings give Bond and Share approximately 20.7% of the voting power of all of American's securities outstanding.

At June 30, 1946, American's holdings of stocks of its principal subsidiaries were as follows: (It is contemplated that the present shares will be reclassified prior to the carrying out of the proposed plan, described herein, into the number of shares indicated).

Subsidiary	Number of shares of common stock at June 30, 1946	Percent of outstanding common stock	Contemplated number of shares of common stock
Florida Power & Light Co	2,500,000	100	2,000,000
Kansas Gas and Electric Co	600,000	100	----------
Minnesota Power & Light Co	550,000	100	----------
Superior Water, Light & Power Co	[1] 11,000	100	----------
The Montana Power Co	[2] 2,475,605	99.7	----------
Northwestern Electric Co	100,000	100	----------
Pacific Power & Light Co	1,000,000	100	----------
Portland Gas & Coke Co	[3] 331,130	100	----------
Texas Public Utilities Corp	[1] 10,000	100	----------
Texas Utilities Co	2,001,000	100	4,000,000
Dallas Power & Light Co	249,169	91.3	----------
Texas Electric Service Co	1,705,000	100	----------
Texas Power & Light Co	2,500,000	100	----------
The Washington Water Power Co	[2] 2,537,305	99.8	----------

[1] Minnesota Power & Light Co. owns the common stock of this company.
[2] Including a few directors' qualifying shares which are under option to the parent company, at not more than $5 per share.
[3] Texas Utilities Co. owns the common stocks of these three companies in the amounts shown above.

This Commission on August 22, 1942 entered an order, pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935, requiring that the existence of American be terminated and the company be dissolved, and that American and Bond and Share proceed with due diligence to submit a plan or plans for the effectuation of said order. American appealed to the United States Circuit Court of Appeals for the First Circuit which affirmed the action of the Commission. Thereafter, American filed its petition for certiorari to the United

States Supreme Court which granted such petition. The matter was argued before the court in November 1945, but the court has not yet rendered its decision and has directed that a reargument of the case be made.

In November 1943, American filed with the Commission an application for approval of a proposed reclassification of its outstanding preferred and common stocks into a single class of capital stock. Hearings on that application were held but not completed. In connection with American's application to the Commission in 1945 for authority to organize Texas Utilities Company, a wholly-owned registered holding company subsidiary of American, American stipulated that within one year from the date of the order (October 24, 1945) granting the application (unless the Commission should extend such time) it would dispose of all its interest in Texas Utilities Company and all of the subsidiaries thereof, either by distribution thereof among American's stockholders, or by sale or otherwise, such disposition to be in a manner approved by this Commission.

II. Notice is hereby given that on September 6, 1946, Bond and Share and American filed a joint application with the Commission, pursuant to section 11 (e) of the act, for approval of a plan to provide for the retirement of all of American's outstanding preferred stocks either through an exchange offer of certain portfolio securities of American or for cash, and for the compromise and settlement of various claims as between American and certain of its subsidiaries and Bond and Share and its wholly-owned subsidiaries. The applicants state that the plan is further designed to result in the disposition by American of its interest in Texas Utilities Company and in the subsidiaries of Texas Utilities Company. It is proposed that when and if such plan shall have been approved by this Commission and an order shall have been entered by a United States District Court approving and enforcing such plan, the application filed in November 1943 by American for approval of a proposed reclassification of its outstanding preferred and common stocks into a single class of capital stock be withdrawn.

All interested persons are referred to said joint plan, which is on file in the office of this Commission, for a full statement of the transactions therein proposed which may be summarized as follows:

1. As of June 30, 1946 the plan designates the claim of the $6 Preferred Stock at $150.00 per share and of the $5 Preferred Stock at $137.00 per share. In addition to the discharge of these claims, the plan contemplates the payment of the following amounts (hereinafter called "Cash Adjustment") to American's preferred stockholders:

(a) With respect to those holders of preferred stocks who accept the exchange offer, herein described, amounts in cash at the rate per share of $6 or $5 per annum, from July 1, 1946 to the Exchange Date, fixed as described in paragraph 9 hereof less dividends declared during such period; or

(b) With respect to those holders of preferred stocks who do not accept the exchange offer, herein described, amounts in cash at the rate per share of $6 or $5 per annum, from July 1, 1946 to the Retirement Date, fixed as described in paragraph 18 hereof, less dividends declared during such period.

2. Promptly after the entry by a United States District Court of an order approving and enforcing the plan, American will offer for sale, at competitive bidding, 15% of its holdings of the common stock of each of Florida Power & Light Company, Kansas Gas and Electric Company, Minnesota Power & Light Company, The Montana Power Company and Texas Utilities Company ("Five Companies"). Each bid will be a separate bid for all the offered common stock of any one of the Five Companies. If 15% of the common stock of any one of the Five Companies is not sold as aforesaid, then the common stock of that company shall not be included in the exchange units, described in paragraph 3, hereof, and "Five Companies" as hereinafter referred to shall be deemed to exclude that company. American reserves the right to reject all bids and will not accept any of such bids unless it at the same time accepts bids for the sale of the common stocks of at least four of the said companies.

3. After the sales provided for in paragraph 2, American will make up exchange units of securities and cash to be offered to its preferred stockholders in exchange for their preferred stock. These exchange units will be made up of the common stocks of the Five Companies remaining in American's portfolio after the sales provided for in paragraph 2 ("Exchange Securities") and will be valued at the prices per share received by American for the respective common stocks on such sales, plus 5% of such prices (being an allowance to embrace the distribution spread between the bid price and the public offering price.)

4. The common stock of each of the Five Companies will be divided into two portions bearing the same relation to each other as the total $6 Preferred Stock claims bear to the total $5 Preferred Stock claims. Such portions will be allocated to the outstanding shares of $6 Preferred Stock and to the outstanding shares of $5 Preferred Stock, respectively.

5. Using the values determined as described in paragraph 3 above, the common stock of each of the Five Companies will be allocated ratably to $6 Preferred Stock exchange units and to $5 Preferred Stock exchange units in such percentage as will make the total value of the shares of common stock in each of such exchange units as nearly as possible equal to, without exceeding, the respective claims, as designated in the plan, of each share of $6 Preferred Stock and each share of $5 Preferred Stock. Such exchange units, plus the cash adjustment, will be offered in exchange for each of the shares of $6 Preferred Stock and for each of the shares of $5 Preferred Stock.

6. To the extent that the securities in the respective exchange units have a value less than the claims, as designated in the plan, of each share of preferred stock for which they are to be offered in exchange, cash will be allocated to each exchange unit in the amount of the difference. If the total value of the Exchange Securities exceeds the total preferred stock claims, as designated in the plan, then there will be withdrawn from the exchange units, first, shares of Minnesota Power & Light Company, second (if necessary), shares of Kansas Gas and Electric Company and third (if necessary), shares of The Montana Power Company.

7. Notice of the exchange offer will be given by publication and by mail to all holders of American's preferred stocks. The preferred stockholders will have 20 days from the date said notice is published to accept the exchange offer by deposit of any or all of the shares held by them as set forth below. It is provided that such period may be extended by American for an aggregate of not more than 30 additional days, any such extension to be subject to termination by American at any time after the exchange offer has become effective as specified in paragraph 8.

8. American will appoint an agent or agents to facilitate the making of exchanges under the plan. The exchange offer will become effective upon the deposit with the exchange agent of shares of preferred stock having claims aggregating not less than 65% of the total preferred stock claims, as designated in the plan. The exchange offer may be made effective by American, in its discretion, upon deposit of shares of preferred stock having less than 65% of the total of such claims; but, under the plan, American could not declare the exchange offer effective on deposit of shares of preferred stock having less than 50% of the total of such claims without the written consent of Bond and Share.

9. After the exchange offer had become effective and the 20-day exchange period, or any extensions thereof, had expired, American will fix an Exchange Date on and after which the exchange units and the cash adjustment, mentioned in paragraph 1, will be available for distribution upon the surrender to the exchange agent of deposit receipts described in paragraph 10.

10. To accept the exchange offer, a stockholder would sign a letter of transmittal evidencing such acceptance as to any or all shares of preferred stock held by him, and would deposit the certificate or certificates for such shares with the exchange agent at or before 3:00 p. m., New York City time, on the last day of the exchange period. Thereupon, the exchange agent will deliver to, or upon order of, the depositing stockholder a transferable deposit receipt evidencing such deposit.

11. In the event that the exchange offer becomes effective, such deposit receipt will entitle the holder thereof to receive in exchange therefor, as the equivalent of the full preferred stock claims and in full satisfaction thereof, the exchange units consisting of securities and cash, the cash adjustment, and dividends, if any, paid or payable on the exchange securities in the period after the exchange date and prior to the date of such distribution to the holder of the deposit receipt.

12. Deposited shares may not be withdrawn after the exchange offer has become effective nor at any time during the exchange period, or any extensions thereof. In the event that the exchange offer should fail to become effective within seven business days after the expiration of the exchange period, each deposit receipt will entitle the holder thereof to receive a certificate or certificates representing the number of shares of preferred stock shown by such deposit receipt to have been deposited.

13. In the event that the exchange units, consisting of securities and cash made up as described above, are oversubscribed through deposit of shares of preferred stock having total claims, as designated in the plan, in excess of the total value of the exchange units, the amount of each block of common stock in each exchange unit will be proportionately reduced and the amount of cash proportionately increased so as to increase the number of exchange units to the extent necessary.

14. Bond and Share agrees, in respect to those remaining shares of $5 Preferred Stock which it will own after the surrender of stock contemplated by paragraph 24 hereof, that, to the extent that the exchange units set aside for both classes of preferred stock would be oversubscribed through acceptance by it of the exchange offer, it will not accept the exchange offer; but that, if preferred stock having less than 65% of the total preferred stock claims, as designated in the plan, should accept the exchange offer within the exchange period, it will accept the exchange offer by depositing the said shares hereunder. Bond and Share for this reason will have seven business days after the expiration of the exchange period to deposit said shares in acceptance of the exchange offer.

15. In the event that the exchange offer becomes effective, all shares of preferred stock deposited under the plan will be retired and cancelled as of the exchange date.

16. No fractional shares or scrip certificates will be delivered in connection with the exchange offer. If deposit receipts are surrendered, the exchange agent will combine fractional interests in stock of each company included in the exchange units allotted to the holder of such receipts in order to eliminate the fractional interests so far as practicable. Such fractional interests in stock of any such company as thereafter remain will be combined by the exchange agent with fractional interests in the stock of that company remaining for other holders who have surrendered their deposit receipts, and the exchange agent will then sell the resulting full shares of stock of that company in the open market. The exchange agent will then deliver to the holders who surrendered such receipts their respective shares, as allocated by the exchange agent, of the average net proceeds of such sales.

17. Deposit receipts not presented for delivery of exchange units within six years after the exchange date (subject to certain exceptions arising under laws and regulations necessitated by World War II) will become void and the securities contained in such exchange units will be sold by the exchange agent, and the net proceeds of such sales and any cash that would have been payable against the surrender of such deposit receipts will be delivered to American and held as part of its general corporate funds, or, in the event of American's dissolution, such funds will be delivered to and retained by any person or persons appointed to administer its affairs in dissolution for eventual distribution prorata to the holders of record of American's common stock at the date of its dissolution.

18. When and if the exchange offer described above shall become effective, American will establish a retirement date for the purpose of completing the retirement of the $6 and $5 Preferred Stocks which have not been retired pursuant to the exchange offer. Such retirement date will not be later than 180 days after the exchange date, or such additional number of days as may be approved by the Commission upon application of American. American will then retire the remaining shares of preferred stock through the payment to the holders thereof of $150 in cash and $137 in cash for each share of the $6 and $5 Preferred Stocks, respectively, plus the cash adjustment.

19. Within two years after the retirement date, referred to in paragraph 18, presently outstanding scrip of American representing in the aggregate at least one share of $6 Preferred Stock may be surrendered to the exchange agent in exchange for (a) cash equal to the preferred stock claim, as designated in the plan, in respect of each full share of $6 Preferred Stock represented by such scrip, without interest thereon, and (b) scrip of American for any balance representing a fraction of a share. So much of American's scrip in respect of American's $6 Preferred Stock as shall remain outstanding at the expiration of two years following the retirement date shall then become void and of no effect.

20. Upon entry by a United States District Court of an order approving and enforcing the proposed plan, American proposes to apply to the United States Supreme Court for leave to withdraw the Dissolution Order Appeal.

21. Cash necessary for the carrying out of the plan will be provided from the cash and cash items now in American's treasury, and the cash proceeds of the sales of 15% of the common stocks of the Five Companies, and possibly from the proceeds of the sale of the common stocks of Pacific Power & Light Company and/or The Washington Water Power Company and other subsidiaries. In lieu of making any sales of its portfolio securities, other than 15% of the common stocks of the Five Companies, or while such sales are pending, American reserves the right to raise, upon application to the Commission, through bank loans any cash necessary for the retirement of the preferred stock.

22. If, after the sales made to provide for the retirement of the preferred stock or to pay off the bank loans mentioned in paragraph 21, there will remain in American's portfolio any shares of common stock of the Five Companies, American proposes within 240 days after the exchange date, or within such further time as the Commission may fix upon application of American, to file an application with the Commission for appropriate disposition of such remaining common stocks.

23. The plan provides that Bond and Share will sell, either at competitive bidding or in such other manner as this Commission may permit, all of the shares of common stock of the Five Companies received by it under the plan not later than one year (unless such period is extended by this Commission) after the exchange date.

24. The plan proposes the compromise, settlement and discharge of any and all claims against Bond and Share, and its wholly-owned subsidiaries, by or on behalf of American, and its subsidiaries and certain former subsidiaries, and by and on behalf of their various security holders, through the surrender by Bond and Share to American of 12,500 shares of American's $5 Preferred Stock held by Bond and Share, and the payment by Bond and Share to American of $787,167 in cash. Thereupon, American will make capital contributions to certain of its subsidiaries in the amounts enumerated in the plan. The plan also petitions, in the event the plan is approved, that the Commission approve the payment of an aggregate of $194,135 by American to certain plaintiffs, their attorneys, and their accountants, for the full settlement and satisfaction of claims on account of services rendered in connection with the claims proposed to be compromised and settled as described above.

The Commission is requested in the event it approves the plan to apply to an appropriate district court of the United States for its enforcement. The plan provides that the approval of the plan by the Commission and its confirmation by the court shall have the effect of a complete compromise, settlement and discharge of all claims of any of the parties thereto or their various security holders, as such, as against any of the other parties thereto in any way relative to, or arising out of, the matters as more particularly described in "subsection III–B" of the plan irrespective of whether the voluntary exchange offer described in the plan shall become effective.

The plan states that its consummation is subject to the receipt from the United States Treasury Department of a closing agreement or ruling as to the tax consequences to American, to the holders of its preferred stocks, and to Bond and Share of the transactions necessary to carry out the plan, which agreement or ruling shall be satisfactory to American and to Bond and Share. Bond and Share and American request that any order of the Commission approving the plan recite that the relevant transactions of the plan are necessary or appropriate to the integration or simplification of the holding company system of which American is a member and are necessary or appropriate to effectuate the provisions of section 11 (b) of the act within the meaning and requirements of the Internal Reve-

nue Code, as amended, including section 1808 (f) and Supplement R thereof.

III. It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that hearings be held with respect to said plan of Bond and Share and American, and with respect to any appropriate plan which might be filed during the course of the proceedings, and further with respect to what action should be taken by Bond and Share and American to meet the provisions of the Commission's order directing the dissolution of American, and that said plan or any plans that might be filed during the course of the proceeding should not be approved except pursuant to further order of the Commission; and

It further appearing to the Commission that the proceedings herein with respect to the pending plan (File No. 54–149), the proceedings with respect to the proposed reclassification of American's preferred and common stocks into one class of capital stock (File No. 70–815); and the proceedings directed to the dissolution of American (File No. 59–12), involve common questions of law and fact and should be consolidated, and that a hearing should be held in order that consideration may be given to an appropriate plan to effectuate compliance with the Commission's dissolution order regarding American:

It is ordered, That the proceedings entitled "Electric Bond and Share Company, et al., File No. 59–12", "American Power & Light Company, File No. 70–815", and "American Power & Light Company, File No. 54–149", be, and the same hereby are, consolidated, and that any relevant evidence adduced in said prior proceedings shall be incorporated, and be deemed part of, the record in the proceedings in File No. 54–149, without prejudice, however, to the right of the Commission upon its own motion or upon the motion of any interested party to strike such portions of the record in the prior proceedings as may be deemed irrelevant to the issues raised with respect to the proposed plan.

It is further ordered, That a hearing be held on October 22, 1946 at 10:00 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locusts Streets, Philadelphia, Pennsylvania. At such hearing consideration will be given to the plan herein, to such other plans which may be filed during the course of the proceedings, and to what action should be taken by American to meet the provisions of the Commission's order directing the dissolution of American. In the event that other plans are filed or proposed during the course of said proceedings, no notice of such plans will be given unless specifically ordered by the Commission.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the plan filed herein, or any plan hereafter proposed, as submitted or as hereafter modified, is necessary to effectuate the provisions of section 11 (b) and constitutes an appropriate step in compliance with the order of the Commission dated August 22, 1942 thereunder.

(2) Whether the plan filed herein or any plan hereafter proposed, as submitted or as hereafter modified, is fair and equitable to the persons affected thereby.

(3) Whether the amounts of $150.00 and $137.00 designated in the plan as the respective claims of each of the shares of $6 and $5 Preferred Stocks and the proposed exchange of securities and the valuation thereof are fair and equitable to security holders of American.

(4) Whether the amounts proposed to be paid by Bond and Share to American and by American to its subsidiaries by way of compromise and settlement of the claims described in the plan are fair and reasonable.

(5) Whether the plan, as filed or as modified, makes appropriate provision for the payment of expenses, fees and remuneration in connection therewith, in what amounts such expenses, fees and remuneration should be paid, and the fair and equitable allocation thereof.

(6) Whether the mechanics set up for the effectuation of the plan are feasible.

(7) Whether the accounting entries in connection with the proposed transactions are in conformity with the standards of the act and rules promulgated thereunder.

(8) Whether the acquisition by Bond and Share of securities of American's subsidiaries meets the requirements of the applicable provisions of the act, particularly sections 10 and 12 thereof.

(9) Whether the Commission shall, in accordance with the petition of the parties to the plan, approve the amounts of the proposed payments to be made by American to the plaintiffs, or their attorneys, or their accountants in the legal proceedings specifically enumerated in the plan, by way of reimbursement of disbursements or allowances for legal or professional services, and, generally, what action it should take in the exercise of its jurisdiction over this matter.

(10) Generally, whether the proposed transactions are in all respects in the public interest and in the interest of investors and consumers and consistent with all applicable requirements of the act and the rules thereunder, and, if not, what modifications should be required to be made therein and what terms and conditions should be imposed to satisfy the applicable statutory standards.

(11) Whether this plan or a plan proposed by the Commission or by any qualified person in accordance with the provisions of section 11 (d) of the act should be approved for the purpose of effectuating the order of the Commission of August 22, 1942, directing that the existence of American be terminated and that said company be dissolved, and, if proposed by the Commission, what the terms and provisions of such plan should be.

It is further ordered, That jurisdiction be reserved to separate, either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters herein set forth or which may arise in these proceedings or to consolidate with these proceedings other filings or matters pertaining to the subject matter of these proceedings, and to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

It is further ordered, That notice of this hearing be given to Bond and Share, American, and to all other persons, said notice to be given by registered mail to Bond and Share, American, Florida Power & Light Company, Kansas Gas and Electric Company, Minnesota Power & Light Company, The Montana Power Company, Northwestern Electric Company, Pacific Power & Light Company, Portland Gas & Coke Company, Superior Water, Light and Power Company, Texas Electric Service Company, Texas Power & Light Company, Texas Public Utilities Corporation, The Washington Water Power Company, to the attorneys of record in the legal proceedings specifically enumerated in the plan filed by Bond and Share and American involving claims of the kind sought to be compromised, settled, and discharged by said plan, and to all other persons by publication in the FEDERAL REGISTER; and

It is further ordered, That American shall give notice of this hearing to all its security holders (insofar as the identity of such security holders is known or available to it) by mailing to each of said persons a copy of this notice and order for hearing at least 15 days prior to the date of this hearing.

By the Commission.

[File No. 70–1290]

GENERAL PUBLIC UTILITIES CORP.

ORDER GRANTING REHEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 19th day of September 1946.

General Public Utilities Corporation ("GPU"), a registered holding company, having filed a declaration, as amended, as to which section 6 (a), 7 and 12 (c) of the Public Utility Holding Company Act of 1935 ("Act") are applicable, with respect to its issuance and sale of unsecured promissory notes in an aggregate principal amount not to exceed $6,250,000, and the redemption, from the proceeds of such notes, plus treasury cash, of its outstanding 4¼% convertible debentures due January 1, 1958 ("convertible debentures"); and

A hearing having been held with respect to the proposed transactions and the Commission having, on August 30, 1946, permitted the declaration, as amended, to become effective subject to the condition that the redemption by

GPU of its convertible debentures be effected in such a manner as to preserve for the holders of the Eight Year 8% Gold Bonds due 1940 of Associated Gas and Electric Corporation ("8's of 40") not exchanged for convertible debentures upon the close of business of the day upon which the conversion privilege terminates, the amount (less any expenses incurred in satisfying this condition) which they might have realized on said day by virtue of the conversion right to which they would have been entitled as holders of convertible debentures, or otherwise to assure to such holders of the 8's of 40 the benefits of said conversion rights; jurisdiction being reserved to entertain an appropriate amendment; and

Declarant having filed a petition for rehearing and an application for leave to adduce additional evidence with respect to:

1. The volume of the exchanges under the plan of reorganization of Associated Gas and Electric Company ("Ageco") and Associated Gas and Electric Corporation ("Agecorp") since July 17, 1946 by persons who, on that date, were holders of unsurrendered 8's of 40;

2. The number and analysis, as of a date more recent than July 17, 1946, of the returned letters which were mailed on June 4, 1946 to holders of the unsurrendered 8's of 40;

3. The fact that additional notices were sent by declarant to its security holders since the closing of the record in this proceeding;

4. The availability to declarant of an extension of the commitment of the proposed bank loan from the proposed lending banks;

5. The willingness of declarant to use registered mail to notify holders of unsurrendered 8's of 40 of their right to receive the new securities pursuant to the plan of reorganization;

6. The practical difficulties alleged to be involved in the event declarant would attempt to comply with the condition imposed by the Commission; and

7. The provisions of various orders of the Commission and the reorganization court prescribing the form of, and manner of giving, notices to holders of 8's of 40 during the course of the reorganization proceedings of Ageco and Agecorp; and

The Commission having considered the application for rehearing and deeming it advisable in the public interest and the interest of investors that a rehearing be granted:

It is hereby ordered, That a rehearing in the above entitled matter be, and hereby is, granted, under the applicable provisions of said act and the rules of the Commission thereunder, said hearing to be held on the 10th day of October 1946 at 10:00 a. m., E. S. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, before the same hearing officer as heretofore prescribed in said matter.

It is further ordered, That, at said rehearing, testimony may be introduced with respect to such matters as to which declarant desires to adduce additional evidence, and testimony may also be adduced as to any of the findings of fact contained in the Commission's findings and opinion.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 46–17272; Filed, Sept. 25, 1946; 9:01 a. m.]

[File No. 70–1366]

NY PA NJ UTILITIES CO. ET AL.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of September 1946.

In the matter of NY PA NJ Utilities Company, The Edison Illuminating Company of Easton and Metropolitan Edison Company, File No. 70–1366.

Notice is hereby given that a joint declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by NY PA NJ Utilities Company (NY PA NJ), a registered holding company, Metropolitan Edison Company (Met Ed), a subsidiary of NY PA NJ, and The Edison Illuminating Company of Easton (Edison), a subsidiary of Met Ed; and

Notice is further given that any person may not later than October 4, 1946, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reason for such request and the nature of his interest or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such joint declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said joint declaration, which is on file in the offices of said Commission, for a statement of the transactions therein proposed, which are summarized below:

Met Ed, having recently acquired all the issued and outstanding capital stock of Edison, proposes to merge Edison into itself and to surrender to Edison for cancellation all of the latter's issued and outstanding capital stock. As a result of such transaction Met Ed will acquire all of the franchises and all the property of Edison. Edison has a charter right or primary franchise from the Commonwealth of Pennsylvania to supply electricity to the public in the City of Easton, Pennsylvania, and adjacent territory. Edison's physical property, consisting of overhead and underground electric distribution facilities and a parcel of real estate in the City of Easton, and its franchises are leased to Met Ed under a ninety-nine year lease dated February 1, 1900, as amended. Met Ed is presently operating said property as a part of its own electric system and paying the annual rental provided in the said lease, which is presently at the rate of $29,244.67 per annum.

NY PA NJ, Met Ed and Edison consider that sections 12 (d) and 12 (f) of the Act and Rules U-42, U-43 and U-44 promulgated thereunder are applicable to the proposed transaction.

By the Commission.

OFFICE OF PRICE ADMINISTRATION.

[Order 168 Under 3 (e)]

KELLOGG SWITCHBOARD AND SUPPLY CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.3 (e) of the General Maximum Price Regulation, it is ordered:

(a) *Applicability of this order.* This order applies to all sales of rubber Koiled Dog Leash manufactured by the Kellogg Switchboard and Supply Company, 6650 South Cicero Avenue, Chicago, Illinois.

(b) *Maximum prices.* The maximum prices for sales of the commodity described in paragraph (a) of this order, are as follows:

Manufacturers' maximum prices

List	$7.20 each.
To wholesalers	50–10 percent off list.
To retailers	40–10 percent off list.

The above prices are subject to a cash discount of 2/10 days/net 30 and freight terms of f. o. b. plant.

Resellers' maximum net prices

	Each
To retailers	$3.89
At retail	7.20

(c) With or prior to the first delivery of the Koiled Dog Leash described in paragraph (a) of this order to a wholesaler or retailer, the seller shall give the purchaser a written notice of the maximum retail price applicable thereto. If the purchaser is a wholesaler, the notification shall include the maximum retail price and a statement that such wholesaler is required by this order to notify any retailer to whom he sells of the maximum retail price.

(d) All provisions of the General Maximum Price Regulation that are not inconsistent with this order shall apply to sales covered by this order.

(e) This order may be revoked or amended by the Office of Price Administration at any time.

This order shall become effective September 26, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER, *Administrator.*

OPINION ACCOMPANYING ORDER NO. 168 UNDER SECTION 1499.3 (e) OF THE GENERAL MAXIMUM PRICE REGULATION

This order, issued under § 1499.3 (e) of the General Maximum Price Regulation, establishes maximum prices at all levels for sales of rubber Koiled Dog Leash, manufactured by the Kellogg

Switchboard and Supply Company, 6650 South Cicero Avenue, Chicago, Illinois.

This rubber dog leash is not the same or similar to any commodity produced, or delivered, or offered for delivery during March 1942, nor is it comparable to any other products of this manufacturer within the meaning of § 1499.3 (b) (1) of the General Maximum Price Regulation. Therefore, the manufacturer's maximum prices for the rubber dog leash cannot be established under § 1499.2 or § 1499.3 (b) (1) of the General Maximum Price Regulation, but must be established by specific authorization of the Office of Price Administration.

It is desirable that uniform maximum prices be established for sales at the wholesale and retail levels (as well as for sales by the manufacturer). Otherwise, each wholesaler and retailer who sells this item will be required to establish his maximum price for each district in which he sells, under § 1499.3 of the General Maximum Price Regulation. If this procedure is followed, sellers of the same class would probably have varying prices, some of which might be inconsistent with the general level of maximum prices established under the regulation. Accordingly, this order establishes uniform maximum prices for sales at all levels.

It is desirable that each person who sells this rubber dog leash to resellers be required to notify each reseller in writing of the maximum price applicable to the reseller's sales, as established by this order. This is the most practical way of informing each seller at succeeding levels of sale of the applicable maximum price for his resale, and of securing effective price control. Accordingly, such notice is required by this order.

The maximum manufacturer's prices established by this order are consistent with the level of prices of similar commodities established by this regulation.

The maximum wholesale and retail prices established by this order will permit these sellers to obtain margins for this commodity which are enjoyed by such sellers on similar types of commodities.

In the opinion of the Administrator, the maximum prices established at all levels by this order are consistent with those established for comparable commodities, are generally fair and equitable, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive orders of the President.

[F. R. Doc. 46-17393; Filed, Sept. 25, 1946; 8:57 a. m.]

[MPR 120, Amdt. 4 to Order 1290]

Bituminous Coal in District 3

Consolidation of Adjustments for Individual Mines

For the reasons set forth in an opinion issued simultaneously herewith, and in accordance with § 1340.207 (a) of Maximum Price Regulation No. 120, *It is ordered:*

Order No. 1290 under Maximum Price Regulation No. 120 is hereby amended in the following respects:

The maximum prices established in paragraph (a) for Scott No. 2 Mine, Mine Index No. 136, and all references thereto, are deleted.

This amendment shall became effective September 30, 1946.

Issued this 25th day of September 1946.

Geoffrey Baker,
Acting Administrator.

Opinion Accompanying Amendment No. 4 to Order No. 1290 Under Maximum Price Regulation No. 120

The accompanying amendment revokes the maximum prices now applicable to Scott No. 2 Mine of the Bethlehem Fairmont Coal Company, Inc., Flemington, West Virginia. Such action has been taken in view of the fact that a recent review of the cost and realization data for this mine has disclosed that the representative cost of production no longer exceeds the potential realization from the sale of the applicant's coal. Since this is the only basis for the relief originally granted, the adjusted maximum prices must be revoked and the applicant's maximum prices shall hereafter be determined by the schedule of maximum prices for District No. 3 as set forth in Maximum Price Regulation No. 120.

[F. R. Doc. 46-17394; Filed, Sept. 25, 1946; 8:57 a. m.]

[MPR 120, Amdt. 7 to Rev. Order 1438]

Allegheny River Mining Co., et al.

Establishment of Maximum Prices and Price Classifications

For the reasons set forth in an opinion issued simultaneously herewith and in accordance with § 1340.212 (c) (2) of Maximum Price Regulation No. 120; *It is ordered:*

Revised Order No. 1438 under Maximum Price Regulation No. 120 is hereby amended in the following respects:

Paragraph (a) is amended by adding thereto the following in the manner indicated:

Producer and address	Mine index number	Location and name of preparation plant through which the coals are prepared
•	•	•
Rochester & Pittsburgh Coal Co., Indiana, Pa.	292	Lucerne Mine Preparation Plant of the Rochester & Pittsburgh Coal Co. at Homer City, Pa., on P. R. R. & B. & O.
The Nugent Mining Co., Du Bois, Pa.	1657	Nugent Mining Co, Preparation Plant, 2 miles south of Brockway Pa., on P. R. R.

This Amendment No. 7 to Revised Order No. 1438 under Maximum Price Regulation No. 120 shall become effective September 26, 1946.

Issued this 25th day of September, 1946.

Geoffrey Baker,
Acting Administrator.

Opinion Accompanying Amendment No. 7 to Revised Order No. 1438 Under Maximum Price Regulation No. 120

Rochester & Pittsburgh Coal Company, Indiana, Pennsylvania, and The Nugent Mining Company, Du Bois, Pennsylvania, both producing strip-mined coal from their Lucerne No. 5 and Nugent No. 3 Mines, respectively, Mine Index Nos. 5849 and 5278, respectively, filed applications pursuant to § 1340.212 (c) (2) of Maximum Price Regulation No. 120, requesting permission to charge deep-mine prices for strip-mined coal when blended with 25% or more of deep-mined coal, and prepared at their preparation plants at Homer City and Brockway, Pennsylvania, respectively, both in District No. 1.

It appears that applicants' strip-mined coal receives thorough cleaning and hand-picking at the said preparation plants and that it is such that it can be prepared to a standard of general acceptability in the coal-consuming market.

It further appears that applicants' strip-mined coal is blended in preparation with not less than 25% deep-mined coal at the said preparation plants.

The applicants qualify therefore for the requested relief under the provisions of said § 1340.212 (c) (2), since the above mentioned strip-mined coals produced in District No. 1 are cleaned and prepared in accordance with said § 1340.212 (c) (2) and blended in preparation with not less than 25% deep-mined coal at the above mentioned preparation plants, which are operated as adjuncts of Mine Index No. 292 in the case of Rochester & Pittsburgh Coal Company and Mine Index No. 1657 in the case of The Nugent Mining Company, both of which are in District No. 1. Accordingly, this revised order is being further amended to include applicants' blended mixture of prepared strip-mined and deep-mined coal.

[F. R. Doc. 46-17395: Filed, Sept 25, 1946; 8:57 a. m.]

[MPR 120, Order 1748]

Mitchel Combs et al.

Establishment of Maximum Prices and Price Classifications

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120; *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 8. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad fuel, are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.219 and all other provisions of Maximum Price Regulation No. 120.

Opinion Accompanying Order No. 1748 Under Maximum Price Regulation No. 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 8 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with § 1340.210 (a) (6) of the Regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classification he deems proper.

This application was then submitted to the industry advisory committee for District No. 8. The prices and classifications established are those recommended by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

[RMPR 122, Amdt. 6 to 2d Rev. Order 47]

Solid Fuels in Washington, D. C., Metropolitan Area

Adjustment of Maximum Prices

For the reasons set forth in an opinion issued simultaneously herewith, and in accordance with § 1340.260 of Revised Maximum Price Regulation No. 122, *It is ordered*, That 2d Revised Order No. 47 under Revised Maximum Price Regulation No. 122 be amended in the following respects:

1. Paragraph (C), *Price Schedule I—Sales on a "Direct Delivery" basis*, is amended to read as follows:

(C) *Price Schedule I—Sales on a "Direct Delivery" Basis.* (1) Price Schedule I sets forth maximum prices for retail sales of specified sizes, kinds and quantities of solid fuels delivered to consumers at any point in the Washington, D. C., Metropolitan Area. Deliveries of the fuels for which maximum prices for yard sales to consumers in 50 to 500 pound quantities are specified in paragraph (D) may be made at the maximum price specified for such quantities of the fuel plus 5 cents for each bag or basket containing not less than 50 pounds.

Kind and size	Per ton net, 2,000 pounds	Per ½ ton net, 1,000 pounds
Pennsylvania anthracite:		
Egg, stove, nut	$16.10	$8.55
Pea	14.10	7.55
Buckwheat No. 1	11.56	6.28
Rice (buckwheat No. 2)	10.40	5.80
Barley (buckwheat No. 3)	9.12	5.06
Virginia anthracite:		
Produced by Superior Anthracite Mines, Inc.:

Ambricoal	12.26	6.63
Cannel coal from district No. 8, lump	16.35	8.68
Splint coal from district No. 8, lump	13.67	7.34
Coke	15.73	8.57
Reclaimed coke:		
Nut	12.68	6.81
Pea	10.93	5.97

(2) *Maximum authorized service charges.* If the buyer requests such service of him, the dealer may, upon rendering such service, or where it is rendered by an independent serviceman to whom the dealer advances payment for the service, charge an amount not in excess of 90 cents per net ton for carry or wheel service, except that no service charge may be made on deliveries of less than one-quarter ton or of any quantity of bagged coal.

2. Paragraph (D), *Price Schedule II—"Yard Sales,"* is amended to read as follows:

(D) *Price Schedule II—"Yard Sales."* Price Schedule II sets forth maximum prices for sales of specified sizes, kinds and quantities of solid fuels delivered at the yard of any dealer in the Washington, D. C., Metropolitan Area. The first column of prices applies to yard sales to consumers and the last column of prices applies to yard sales to dealers. The second column of consumer prices applies to yard sales of fuels measured in bags or baskets containing not less than 50 pounds; but this column of prices shall not apply to sales of more than 500 pounds.

Kind and size	Consumer prices		Dealer prices, net ton, 2,000 pounds
	Net ton 2,000 pounds	Per 100 pounds	
Pennsylvania anthracite:			
Egg, stove, nut	$15.21	$1.00	$13.52

Ambricoal	11.37		
Cannel coal from district No. 8, lump	15.46		
Splint coal from district No. 8, lump	12.76		
Coke	14.73		13.43
Reclaimed coke:			
Nut	11.68		10.48
Pea	9.93	.80	8.73

3. Paragraph (E), *Price Schedule III—Bagged Coal,* is amended to read as follows:

(E) *Price Schedule III—Bagged Coal.* Price Schedule III sets forth maximum per bag prices for sales made at or to any point in the Washington, D. C., Metropolitan Area of coal in paper bags of 15 pounds each. These are prices for the nut size.

(1) *"Direct Delivery" sales to persons reselling bagged coal.*

Pennsylvania anthracite	$0.16
Virginia Anthracite	.13
Bituminous coal	.12

The prices for direct delivery sales to persons reselling bagged coal shall be reduced by one cent, respectively, when sales of the same bagged coals are made at the dealer's yard to persons reselling bagged coal.

(2) *"Sales to consumers not made at a yard".*

Pennsylvania anthracite	$0.19
Virginia anthracite	.16
Bituminous coal	.15

The prices for "sales to consumers not made at a yard" shall be reduced by one cent when sales of the same bagged coals are made to consumers at the dealer's yard.

4. Paragraph (F), *Price Schedule IV Alexandria, Virginia,* is amended to read as follows:

(F) *Price Schedule IV—Alexandria, Virginia.* Price Schedule IV sets forth maximum prices for "direct delivery" sales to consumers in Alexandria, Virginia and for sales made at the yard of any dealer in Alexandria, Virginia. These prices are for sales of net tons (2000 pounds) when payment is not made by the buyer within 15 days after receipt of the fuel.

If cash payment is made by the buyer within 15 days after receipt of the fuel, the maximum prices set forth shall be reduced by 50 cents per ton or by 25 cents per half-ton, which reduction is a "cash discount".

If delivery is made to a non-domestic buyer taking deliveries of 25 or more tons per annum at one point, the maximum prices set forth shall be reduced by 50 cents per ton or by 25 cents per half-ton and, if cash payment is made, also by the "cash discount".

If delivery is made at the dealer's yard, the maximum prices set forth shall be reduced by $1.00 per ton or by 50 cents per half-ton and, if cash payment is made, also by the "cash discount".

If the buyer requests such service of him, the dealer may charge no more than 50 cents per ton for "carry" or "wheel" service except that no service charge may be made on sales of less than one-quarter ton or of any quantity of bagged coal. This provision applies only when the dealer renders the service.

Kind and size	Quantity	
	Per ton	Per ½ ton
Pennsylvania anthracite:		
Egg, stove, nut	$16.58	$8.79
Pea	14.73	7.85
Buckwheat No. 1	12.08	6.94
Rice (buckwheat No. 2)	11.28	6.44
Low-volatile bituminous coal from district No. 7 (or Pocahontas or New River):		
Egg	12.69	6.85
Stove	12.54	6.77
Nut	11.34	6.17
Pea	10.24	5.62
Domestic run-of-mine	10.14	5.57
¾" slack	9.71	5.37
Low volatile bituminous coal from district No. 8, egg and stove	12.22	6.61
High-volatile bituminous coal from district No. 8:		
Block	12.32	6.66
Egg (larger than 5" by 2")	10.22	5.61
Stove	10.17	5.59
Nut	10.42	5.71
Screenings (larger than ⅜" by 0)	8.97	4.99
Cannel coal from district No. 8	16.86	8.94
Coke	16.24	8.82
Reclaimed coke:		
Nut	13.18	7.09
Pea	11.43	6.22

5. A new sentence is added to Paragraph (T) to read as follows: "The increases in maximum prices granted by Amendments Nos. 46 and 48 to Revised Maximum Price Regulation No. 122 are included in the maximum prices set forth in this order, and may not, therefore, be added to the maximum prices herein."

This amendment shall become effective September 26, 1946.

Issued this 25th day of September, 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 6 TO 2D REVISED ORDER NO. 47 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

On July 26, 1946, Amendment No. 46 to Revised Maximum Price Regulation No. 122 was issued, and became effective as of that date. The amendment granted permission to add to maximum prices the railroad freight rate increases incurred as a result of the Interstate Commerce Commission's interim order on Docket *Ex Parte* 162. As a result of this action, it is now necessary to increase the maximum prices set forth in certain area ceiling orders issued under Regulation 122, for the convenience of dealers subject to such orders. This is the case with second Revised Order No. 47, and for this reason the accompanying amendment is being issued.

In addition, Amendment No. 48 to Revised Maximum Price Regulation No. 122, issued and made effective August 22, 1946, granted certain increases in the maximum prices applicable to dealers. Section 2 (t) of the Price Control Extension Act of 1946 requires that the maximum prices established for wholesale or retail distributors "allow the average current cost of acquisition of any commodity, plus such average percentage discount or mark-up as was in effect on March 31, 1946." Thus, the said Amendment 48 effected the necessary increases, which are now being reflected in area Order No. 47 by the accompanying amendment. The action taken includes relief on sales of 100 lbs. lots at the yard.

The amendment also makes provision for yard sales of bagged coal to consumers; and since a primary wholesaler no longer bags for other wholesalers, the present maximum prices for "Yard Sales" to consumers are deleted from section III (1) of the order. In accordance with Amendment No. 4 to Order No. 47, a provision is now inserted for a reduction of one cent in the price on sales to consumers not made at a yard when sales of the same bagged coal are made to consumers at the dealer's yard.

In addition to the foregoing, the maximum prices for Berwind briquettes have been adjusted after examination and consideration of an application setting forth increased costs resulting from the increases made in the prices of coal. This action is taken pursuant to the adjustment § 1340.260 of Regulation 122.

[F. R. Doc. 46-17398; Filed, Sept. 25, 1946; 8:59 a. m.]

[MPR 120, Amdt. 8 to Order 1716]

EDWARD TOMAJKO ET AL.

ADJUSTMENT OF CEILING PRICES

For the reasons set for in an opinion issued simultaneously herewith and in accordance with § 1340.213 (d) of Maximum Price Regulation No. 120, *It is ordered:*

Order No. 1716 under Maximum Price Regulation No. 120 is hereby amended in the following respects:

Paragraph (a) is amended by adding thereto the following name of the producer, address, mine name and index number, and preparation plant as follows:

Producer and address	Mine name	Mine index number	Location and name of preparation plant through which the coals are prepared
• •	•	•	• • •
August Schlegel, Clinton, Pa.	Schlegel No. 2 and No. 3.	4025 and 4050	Schlegel Mine Preparation Plant at Eastern Border of Clinton, Pa.

This Amendment No. 8 to Order No. 1716 under Maximum Price Regulation No. 120 shall become effective September 26, 1946.

Issued this 25th day of September 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 8 TO ORDER NO. 1716 UNDER MAXIMUM PRICE REGULATION NO. 120

August Schlegel, Clinton, Pennsylvania, filed application pursuant to § 1340.213 (d) of Maximum Price Regulation No. 120, requesting that his maximus prices for strip-mined coal, produced at his Schlegel No. 2 and No. 3 Mines, Mine Index Numbers 4025 & 4050, respectively, and prepared at his preparation plant at Clinton, Pennsylvania, in District No. 2, be increased 61¢ per net ton for coals delivered by all methods of transportation except truck or wagon shipment and 36¢ per net ton for truck or wagon shipment.

It appears that the applicant's strip-mined coals receives thorough cleaning and hand-picking at his preparation plant and they are such that it can be prepared to a standard of general acceptability in the coal-consuming market.

The applicant qualifies, therefore for the requested relief under the provisions of said § 1340.213 (d). All mines of District No. 2, qualifying for an increase of 61¢ per net ton for prepared strip-mined coal delivered by all methods of transportation except truck or wagon shipment and 36¢ per net ton for truck or wagon shipment under the provisions of § 1340.213 (d) of Maximum Price Regulation No. 120, have been grouped together by Order No. 1716, as amended, under Maximum Price Regulation No. 120. Accordingly, this order is being further amended to include applicant's strip-mined coals.

[F. R. Doc. 46-17396; Filed, Sept. 25, 1946; 8:58 a. m.]

[MPR 188, Rev. Order 3917]

AJAX WOODWORK CO., INC.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles of furniture manufactured by Ajax Woodwork Co., Inc., 4455 Bronx Boulevard, Bronx, New York.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Manufacturer's maximum price to persons, other than retailers, who sell from their own stock	Manufacturer's maximum price to persons, other than retailers, who sell from the manufacturer's stock	Maximum price for sales to retailers by the manufacturer, and by persons, other than retailers, who sell from the manufacturer's stock
		Each	*Each*	*Each*
Bookcase	1	$4.06	$3.25	$3.82
	2	4.73	3.68	4.32
	3	3.86	4.10	4.82
	4	5.50	5.85	6.88
	5	3.43	3.65	4.28
	6	4.50	4.78	5.62
	7	5.19	5.62	6.40
	8	3.06	3.25	3.82
	24	3.18	3.33	3.92
	2836	5.41	5.75	6.76
Night table	400	3.67	3.90	4.59
	401	4.30	4.57	5.37
	402	4.30	4.57	5.37
	403	4.27	4.53	5.33
	404	5.61	5.96	7.01
	405	5.02	5.33	6.27

These prices are f. o. b. factory, and are subject to a cash discount of two percent for payment within ten days, net thirty days, and are for the articles described in the manufacturer's application dated February 21, 1945.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since the effective date of Maximum Price Regulation No. 188. For sales by persons, other than retailers, who sell from the manufacturer's stock, the maximum prices apply to all sales and deliveries after the effective date of this order.

(3) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) At the time of, or prior to, the first invoice to each purchaser, other than a retailer, who sells from the manufacturer's stock, the manufacturer shall notify the purchaser of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(c) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING REVISED ORDER NO. 3917 UNDER § 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

In a formal protest dated May 21, 1946, Ajax Woodwork Co., Inc., 4455 Bronx Boulevard, Bronx, New York, herein called the Applicant, requested the Office

of Price Administration to revise the prices established by Order No. 3917, dated June 5, 1945, for sales of certain articles of furniture which it manufactures. The prices established by that order were stated to be based on a comparison of the articles to be priced with comparable articles produced by other manufacturers.

It now appears that the articles used in the above comparison were not truly comparable. Accordingly, it has been necessary to reconsider the applicant's request under the Fourth Pricing Method, § 1499.158, and to establish new maximum prices, based upon a new comparison of the applicant's articles with more comparable articles produced by other manufacturers. The prices established by Revised Order No. 3917 are in line with the maximum prices of those more comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

[F. R. Doc. 46—17399; Filed, Sept. 25, 1946; 8:59 a. m.]

[MPR 188, Order 5195]

MORRIS GREENSPAN, SPECIAL

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Morris Greenspan, Special, 50 Howard Street, New York 13, New York.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sales by the manufacturer to—		For sales by any person to consumers
		Jobbers	Retailers	
Hand-sewn rayon table lamp shade with braid trim	(20D-15" (20I-15"	*Each* $3.40	*Each* $4.00	*Each* $7.20

These maximum prices are for the articles described in the manufacturer's application dated September 5, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. New York 13, New York, 2% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5195 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated September 5, 1946, Morris Greenspan, Special, 50 Howard Street, New York 13, New York, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamp shades which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers mark-ups normally enjoyed in the industry for their types of distributive operations.

[MPR 188, Order 5196]

WILLOW LAMP CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Willow Lamp Company, 105 East Houston Street, New York 2, New York.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sales by the manufacturers to—		For sales by any person to consumers
		Jobbers	Retailers	
Hand-cut crystal boudoir lamp with hand-tailored rayon shade	B-1011	*Each* $5.52	*Each* $6.50	*Each* $11.70
Hand-cut crystal table lamp with hand-tailored rayon shade	T-1012	7.22	8.50	15.30
Hand-cut crystal table lamp with plated-metal mounting and hand-tailored rayon shade	T-1013	9.14	10.75	19.35
Hand-cut crystal table lamp with silver-plated breaks and hand-tailored rayon shade	T-1025	12.75	15.00	27.00
Hand-cut and colored crystal table lamp with gold-plated metal mounting and hand-tailored rayon shade	T-1026	18.70	22.00	39.60
Hand-cut crystal table lamp with metal and crystal mounting and hand-tailored rayon shade	T-1027	24.65	29.00	52.20

These maximum prices are for the articles described in the manufacturer's application dated September 10, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. New York, New York, 2% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5196 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated September 10, 1946, Willow Lamp Company, 105 East Houston Street, New York 2, New York, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps and shades which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers mark-ups normally enjoyed in the industry for their types of distributive operations.

[MPR 188, Order 5197]

THE LIBERTY LIGHT CO. INC.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by The Liberty Light Company, Inc., 2300 Central Avenue, Union City, New Jersey.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sales by the manufacturer to—		For sales by any person to consumers
		Jobbers	Retailers	
Bronze crackle finish metal fluorescent bed lamp with ballast plug	L-765	*Each* $3.40	*Each* $4.00	*Each* $7.20
Bronze crackle finish metal fluorescent desk lamp	L-945	5.53	6.50	11.70

These maximum prices are for the articles described in the manufacturer's application dated July 30, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Union City, New Jersey, 2% for 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5197 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated July 30, 1946, The Liberty Light Company, Inc., 2300 Central Avenue, Union City, New Jersey, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the

sellers mark-ups normally enjoyed in the industry for their types of distributive operations.

[MPR 188, Order 5200]

HYDE PARK STUDIOS

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Hyde Park Studios, East Park Road, Hyde Park, New York.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sales by the manufacturer to—		For sales by any person to consumers
		Jobbers	Retailers	
		Each	*Each*	*Each*
Sculptured metal table lamp with mahogany base and metal shade.	1	$29.33	$34.50	$62.10

These maximum prices are for the articles described in the manufacturer's application dated August 5, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Hyde Park, New York, 2% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5200 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated August 5, 1946, Hyde Park Studios, East Park Road, Hyde Park, New York, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

These maximum prices are for the articles described in the manufacturer's application dated July 30, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Los Angeles 11, California, 2% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5201 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated July 30, 1946, Alameda Manufacturing Company, 4415 South Alameda Street, Los Angeles 11, California, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers mark-ups normally enjoyed in the industry for their types of distributive operations.

[F. R. Doc. 46-17406; Filed, Sept. 25, 1946; 8:53 a. m.]

[MPR 188, Order 5202]

ALDOR MANUFACTURING CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Aldor Manufacturing Co., 2013 Fulton Street, Brooklyn 33, New York.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sales by the manufacturer to—		For sales by any person to consumers
		Jobbers	Retailers	
Decorated opal glass colonial table lamp complete with globe	1	*Each* $5.31	*Each* $6.25	*Each* $11.25

These maximum prices are for the articles described in the manufacturer's application dated August 13, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Brooklyn 33, New York, 2% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5202 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated August 13, 1946, Alder Manufacturing Co., 2013 Fulton Street, Brooklyn 33, New York, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers mark-ups normally enjoyed in the industry for their types of distributive operations.

[MPR 188, Order 5203]

MERCURY LAMP CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Mercury Lamp Company, 1569 Nostrand Avenue, Brooklyn 26, New York.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5202 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated August 13, 1946, Alder Manufacturing Co., 2013 Fulton Street, Brooklyn 33, New York, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers mark-ups normally enjoyed in the industry for their types of distributive operations.

[F. R. Doc. 46-17408; Filed, Sept. 25, 1946; 8:53 a. m.]

Article	Model No.	For sales by the manufacturer to—		For sales by any person to consumers
		Jobbers	Retailers	
English Toby mug table lamp with hand made plated metal mounting	102, 103	*Each* $7.86	*Each* $9.25	*Each* $16.65
Pottery table lamp with hand made plated metal mounting	104	9.73	11.45	20.61
Pottery table lamp with hand made plated metal mounting	105	9.31	10.96	19.71

These maximum prices are for the articles described in the manufacturer's application dated July 8, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Brooklyn 26, New York, 2% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5203 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated July 8, 1946, Mercury Lamp Company, 1569 Nostrand Avenue, Brooklyn 26, New York, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

[F. R. Doc. 46-17408; Filed, Sept. 25, 1946; 8:53 a. m.]

[MPR 591, Amdt. 1 to Order 624]

KALAMAZOO STOVE AND FURNACE CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591, *It is ordered:*

Order No. 624 under section 9 of Maximum Price Regulation No. 591 is amended in the following respects:

1. Paragraph (a) is amended to read as follows:

The maximum net prices for sales by any person of the following cast iron coal fired furnaces, manufactured by the Kalamazoo Stove and Furnace Company and as described in its application shall be:

Model No.	Delivered on sales to dealers	Delivered on sales to consumer	F. o. b. on sales to the department store	F. o. b. on sales to distributors
F 40	$96.43	$132.05	$79.25	$66.03
44	98.26	135.88	81.53	67.94
48	105.43	147.46	88.45	73.73
52	108.99	155.70	93.42	77.85

This amendment shall become effective September 26, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER 624 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The purpose of this amendment is to establish two new classes of purchasers for the Kalamazoo Stove and Furnace Company of Kalamazoo, Michigan for their sales of this particular model. They already sell to these two classes of trade on their other models and the same discounts are used for this model furnace. The amendment also reflects the industry wide increases authorized by Section 5.1 of Order 1 under Maximum Price Regulation No. 591.

In view of the above consideration the Administrator finds that this amendment is necessary and consistent with the purposes and standards of the Emergency Price Control Act of 1942, as amended and Executive Orders of the President.

[MPR 188, Order 5204]

ATLANTIC ART LAMP & NOVELTY CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Atlantic Art Lamp & Novelty Co., 450 Adelphi Street, Brooklyn 17, New York.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sales by the manufacturer to—		For sales by any person to consumers
		Jobbers	Retailers	
		Each	*Each*	*Each*
Wrought iron floor lamp	1018	$4.67	$5.50	$9.90
Do	1063	6.50	7.75	13.95
Do	1089	4.25	5.00	9.00
Wrought iron pin-up lamp	1070	2.34	2.75	4.95
Wrought iron floor lamp	1088	3.19	3.75	6.75
Do	1131-TCA	7.22	8.50	15.30
Wrought iron table lamp and table frame combination	1183-X	4.67	5.50	9.90

These maximum prices are for the articles described in the manufacturer's application dated July 31, 1946, and August 7, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Brooklyn, New York, 2% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$ ------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER.
Administrator.

OPINION ACCOMPANYING ORDER NO. 5204 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated July 31, and August 7, 1946, Atlantic Art Lamp and Novelty Company, Brooklyn 17, New York, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

[MPR 188, Order 5205]

STELLAR LAMP CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Stellar Lamp Company, 1344 Myrtle Avenue, Brooklyn 21, New York.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sales by the manufacturer to—		For sales by any person to consumers
		Jobbers	Retailers	
		Each	*Each*	*Each*
Plated metal table lamp with embossed paper parchment shade	M-1	$4.25	$5.00	$9.00
Decorated china vanity lamp, plated metal mounting and silk shade	9	5.31	6.25	11.25
Decorated china vanity lamp, plated metal mounting and silk shade	15	5.74	6.75	12.15
Decorated china table lamp with silk shade	207	10.62	12.50	22.50

These maximum prices are for the articles described in the manufacturer's application dated August 6, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Brooklyn, New York, 2% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$ ------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5205 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated August 6, 1946, Stellar Lamp Company, 1344 Myrtle Avenue, Brooklyn 21, New York, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

[MPR 188, Order 5206]

REYNOLDS METALS CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Reynolds Metals Company, 2500 South Third Street, Louisville 1, Kentucky.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Jobber	Maximum prices for sales by any seller to—		
			Department stores	Other retailers	Consumers
		Each	*Each*	*Each*	*Each*
Stainless steel sauce pan, with plastic handle, 1 quart	Windsor	$0.72	$0.87	$0.96	$1.45

These maximum prices are for the articles described in the manufacturer's application dated September 4, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. They are f. o. b. factory and subject to a cash discount of 2% for payment within 10 days, net 30 days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

OPA Retail Ceiling Price—$1.45 each
Do Not Detach or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale at wholesale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 26th day of September 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER.
Administrator.

OPINION ACCOMPANYING ORDER NO. 5206 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

On September 6, 1946, Reynolds Metals Company, 2500 South Third Street, Louisville 1, Kentucky, applied to the Office of Price Administration for the establishment of maximum prices for sales of stainless steel sauce pans which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the

industry for their types of distributive operations.

[MPR 591, Order 834]

HALL-MACK CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 834 under section 16 of maximum price regulation No. 591, Docket No. 6123-591.16-290. Hall-Mack Company, Los Angeles, California.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 16 of Maximum Price Regulation No. 591, it is ordered:

(a) *Adjustment of maximum prices for the Hall-Mack Company of Los Angeles, California.* (1) This order permits the Hall-Mack Company of Los Angeles, California to increase by 17.0 percent its properly established maximum net prices in effect on June 30, 1946, to each class of purchaser for its line of chromium plated bathroom accessories.

(2) The maximum net prices set forth in (a) (1) above are subject to discounts, allowances including transportation allowances and the rendition of services which are at least as favorable as those which the Hall-Mack Company extended or rendered or would have extended or rendered to each class of purchasers during March 1942, on comparable sales of chromium plated bathroom accessories.

(b) *Maximum prices for resellers.* (1) All resellers of the commodities covered by this order (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their properly established maximum prices in effect on June 30, 1946, the percentage increase in cost to them resulting from the adjustment granted the manufacturer by this order.

(c) *Notification to all purchasers.* The Hall-Mack Company shall send the following notice to every purchaser of the commodities covered by the order at or before the first invoice after the effective date of this order.

Order No. 834 under section 16 of Maximum Price Regulation No. 591 provides for a 17.0 percent increase in maximum net prices in effect on June 30, 1946, for sales by the Hall-Mack Company for its line of chromium plated bathroom accessories.

Resellers (but not manufacturers who purchase these items for use in the manufacture of other products) may add to their existing maximum prices the percentage increase in cost to them resulting from the adjustment granted by Order No. 834.

(d) All requests of the application of the Hall-Mack Company of Los Angeles, California, not herein granted are denied.

(e) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective September 26, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 834 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION NO. 591

The Hall-Mack Company of Los Angeles, California, requested an upward adjustment of its maximum prices for its line of chromium plated bathroom accessories.

Section 16 of Maximum Price Regulation No. 591 provides that any manufacturer whose supply of a commodity could not be replaced if he discontinued production except at a price equal to or higher than his requested adjusted price is eligible for an adjustment within the limits indicated in this section. This permits an adjustment in an amount sufficient to make the adjusted price equal to total cost plus a reasonable net profit.

The Hall-Mack Company of Los Angeles, California, submitted cost and financial data. Such data indicate that its current over-all return on entire company operations is less than total cost. It has been determined that the supply of these products could not be replaced except at prices above these after the adjustment granted by this order.

Accordingly, this order authorizes an adjustment in the applicant's maximum prices which will return the applicant total cost plus a reasonable net profit on its line of chromium plated bathroom accessories.

Controls over the maximum prices of some of the products may have been, or may be suspended in the future by Supplementary Order 129 (Exemption and suspension from price control of machines, parts, industrial materials and services). In that event, the provisions of this order with respect to those items are also suspended during the period of the price control suspension, subject to reinstatement if the former price controls are restored.

Resellers are permitted to increase their existing maximum prices by the percentage increase in cost to them resulting from the increase granted the manufacturer. Thus, resellers will continue to realize the same percentage margin over acquisition cost that they realized previous to the issuance of the accompanying order.

After due consideration of the foregoing, the Price Administrator finds that this action is consistent with the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

[MPR 591, Order 835]

HEIL CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591; *It is ordered:*

(a) The maximum net prices, f. o. b. point of shipment, for sales by any person of the following forced air furnaces manufactured by The Heil Company of Milwaukee, Wisconsin and as described in its application dated August 12, 1946, shall be:

	On sales to dealers	On sales to distributors	On sales to mail-order houses
Model No. KF-1...	$306	$244.48	$211.35
Model No. KF-2...	323	258.34	224.56
Model No. KF-3...	362	289.25	258.92

(b) The prices in (a) above include all increases to date under section 5.1 of Order No. 1 under Maximum Price Regulation No. 591.

(c) The maximum net prices established by this order shall be subject to discounts and allowances including transportation allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of commodities in the same general category during March 1942.

(d) The maximum prices on an installed basis of the commodities covered by this order shall be determined in accordance with Revised Maximum Price Regulation No. 251.

(e) Each seller covered by this order, except a dealer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale.

(f) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 26, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 835 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 835 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for forced air furnaces, manufactured by The Heil Company of Milwaukee, Wisconsin.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 or 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. An analysis of the information submitted indicated that the prices requested are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars-and-cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the manufacturer shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices.

[MPR 610, Rev. Order 15]

DUPLEX TRUCK CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to sections 8 and 9 of Maximum Price Regulation 610, *It is ordered:*

Order No. 15 under Maximum Price Regulation 610 is redesignated Revised Order No. 15 and is amended and revised to read as follows:

(a) The Duplex Truck Company, Lansing, Michigan, hereinafter called the Company, is authorized to sell f. o. b. factory each new Duplex truck described in subparagraph (1) below, at a price not to exceed the total of the following charges:

(1) *Charge for the new truck.* A charge for the new truck not to exceed the applicable established price set forth in the following schedule:

Model	Description	Manufacturers price f. o. b. factory
T	Chassis, truck with 56" 2-man cab and one-piece windshield, 18,000 pounds gross vehicle weight, 160" wheelbase, Hercules JXD engine, Fuller 5B33 transmission with overdrive in 5th gear, Timken 32502H front axle, Timken 56410 bevel gear rear axle, Ross T26 steering gear, Hydrovac booster brakes, 8.25 x 20 synthetic tires, dual rear	
R	Chassis, truck with 56" cab, 25,000 pounds gross vehicle weight, 172" wheelbase, Hercules WXLC3 engine, Fuller 5F430 5-speed transmission, Timken 35500 front axle, Timken 98415 2-speed hydraulic shift rear axle, cast tank radiator, ⅜" x 12" fish plates, 9.00 x 20 synthetic tires, dual rear	$2,782
J	Chassis, truck and cab, 25,000 pounds gross vehicle weight, 178" wheelbase, 301 cubic inch engine, Fuller 6A620 transmission, Ross 271 steering gear, Timken 26450W front axle, Timken 8200P rear axle, cast tank radiator, ⅜" x 14" fish plates, 10.00 x 20 tires	4,180 4,975

(2) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment not to exceed the price to be computed as follows:

(i) The Company shall multiply its January 1, 1941 price for each item of extra or optional equipment by the increase factor approved by the Office of Price Administration for adjusting the Company's January 1, 1941 prices under section 8 of Maximum Price Regulation 610.

(ii) The Company shall compute the list price of each item of extra or optional equipment by multiplying the Company's adjusted price of 133.33⅓%.

(iii) The Company shall file its dollar and cents adjusted price and list price computed under (i) and (ii) above for each item of extra or optional equipment with the National Office of Price Administration, Automotive Branch, Washington, D. C. within 48 hours after such adjusted prices are established.

(3) *Charge for transportation.* A charge for transportation of the truck and extra or optional equipment not to exceed a charge computed in accordance with the method the Company had in effect on March 31, 1942 plus transportation tax at the current legal rate.

(4) *Charge for taxes.* A charge to cover Federal Excise Taxes at the current legal rate, computed in accordance with the method the Company had in effect on March 31, 1942, and also state and local taxes if any, directly imposed upon the sale or delivery of the truck, and extra or optional equipment.

(5) *Charge for factory handling and delivery.* A charge for factory handling and delivery computed by using the same rate and method the Company had in effect on March 31, 1942.

(b) *Sales below ceiling to domestic dealers.* In the event the Company sells to domestic dealers below the maximum net price authorized in this revised order for sales of trucks or extra or optional equipment, it shall so advise the National OPA Office, Automotive Branch, Washington, D. C., in writing within 48 hours and shall immediately comply with the provisions of section 8 (h) of Maximum Price Regulation 610.

NOTE: As required by section 12 of Maximum Price Regulation 610, the Company shall notify all resellers of list prices and discounts for the vehicle of base specifications and extra or optional equipment and shall notify resellers that they must use such list prices and discounts in determining maximum prices in accordance with section 10.

(c) A reseller is authorized to sell and deliver at his place of business each new Duplex truck described in paragraph (1) below, at a price not to exceed the total of the following charges:

(1) *Charge for the new truck.* A charge for the new truck not to exceed the applicable list price set forth in the following schedule. The company shall notify all resellers of list prices authorized in this revised order for the new trucks.

Model	Description	List price
T	Chassis, truck with 56" 2-man cab and one-piece windshield, 18,000 pounds gross vehicle weight, 160" wheelbase, Hercules JXD engine, Fuller 5B33 transmission with overdrive in 5th gear, Timken 32502H front axle, Timken 56410 bevel gear rear axle, Ross T26 steering gear, hydrovac booster brakes, 8.25 x 20 synthetic tires, dual rear	
R	Chassis, truck with 56" cab, 25,000 pounds gross vehicle weight, 172" wheelbase, Hercules WXLC3 cbrine, Fuller 5F430 5-speed transmission, Timken 35500 front axle, Timken 98415 2-speed hydraulic shift rear axle, cast tank radiator, ⅜" x 12" fish plates, 9.00 x 20 synthetic tires, dual rear	$8,709 9,773
J	Chassis, truck and cab, 25,000 pounds gross vehicle weight, 178" wheelbase, 301 cubic inch engine, Fuller 5A620 transmission, Ross 271 steering gear, Timken 26450W front axle, Timken 8200P rear axle, cast tank radiator, ⅜" x 14" fish plates, 10.00 x 20 synthetic tires, dual rear	7,107

(2) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment not to exceed the list price which the Company shall determine in accordance with paragraph (a) (2). The Company shall notify all resellers of list prices authorized in this revised order for extra or optional equipment.

(3) *Other charges.* Charges permitted by section 10 of Maximum Price Regulation 610 when applicable to the sale.

(d) *Sales by resellers in Porto Rico and the Territory of Alaska.* A reseller may sell and deliver in Porto Rico or Alaska each of the new Duplex trucks described in paragraph (a) (1) at a price not to exceed the maximum price it may charge under paragraph (c), to which it may add a sum equal to the expense incurred by or charged to it for: Payment of territorial and insular taxes on the purchase, sale or introduction of the new truck and extra or optional equipment in Porto Rico or Alaska, when not charged under paragraph (c); export premium; boxing and crating for export purposes; assembly costs, if any; marine and war risk insurance; landing, wharfage and terminal operations; ocean freight; freight to the port of embarkation when not charged under paragraph (c); and inland freight from the port of debarkation by the most direct route to the reseller's place of business.

(e) All requests not granted herein are denied.

(f) This revised order may be amended or revoked by the Administrator at any time.

(g) This revised order shall become effective September 26, 1946, for new Duplex trucks and extra or optional equipment sold by the Company on and after September 26, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING REVISED ORDER NO. 15 UNDER MAXIMUM PRICE REGULATION 610—MAXIMUM PRICES FOR NEW TRUCKS AND NEW MOTORCYCLES

Order 15 established for the Duplex Truck Company, Lansing, Michigan, maximum prices on its Models T, K, R and J trucks and extra or optional equipment. These prices were established under sections 8 and 9 of Maximum Price Regulation 610.

In the order as originally issued, net wholesale maximum prices for the Company were not included. The Company must have such prices instead of maximum retail list prices less a discount because it has customarily sold at net wholesale prices and not off retail list less a discount.

Order 15, therefore, is being reissued as a revised order to include maximum net wholesale prices for the Company. Maximum prices for Model K truck chassis are not included in the revised order since its ceilings are suspended from price control by Amendment 53 to Supplementary Order 129, effective September 10, 1946.

[F. R. Doc. 46-17500; Filed, Sept. 25, 1946; 11:25 a. m.]

[MPR 610, Order 22]

HUDSON MOTOR CAR CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 8 of Maximum Price Regulation 610, *It is ordered:*

(a) Hudson Motor Car Company, hereinafter called the Company, is authorized to sell and deliver f. o. b. factory Detroit, Michigan, to distributors for resale to master dealers under distributor-dealer agreements, the Hudson new commercial truck listed in paragraph (1) below at a price not to exceed the total of the following applicable charges:

(1) *Charge for the new truck.* A charge for the new truck not to exceed the applicable Company net price in the following schedule subject to a wholesale discount of 4.0% of the applicable amount set forth in subparagraph (2) of paragraph (c) to be paid or credited to distributors under the same terms and conditions as in effect on March 31, 1942.

SCHEDULE

Model	Description	Company net price	List price
58	Cab pick-up including mechanical clock, bumper guards (front only), extra windshield wiper, and 6.50 x 16 6-ply synthetic rubber tires in lieu of 6.00 x 16 4-ply natural rubber tires; also including advertising charge	$883.31	$1,154

(2) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment listed below affixed to the new truck which shall not exceed the respective company net price shown below:

Description	Company net price to distributor	Distributor net price to dealer	List price
Combination fuel and vacuum pump	$4.85	$5.19	$6.92
Drivemaster, except with RHD	58.50	60.88	79.05

Overdrive	59.31	62.60	82.37
Rubber cushion pad	5.82	6.23	8.31
Steering wheel, 17" with horn operating ring	4.07	4.37	5.82
Steering wheel, 18"	13.08	14.01	18.69
Twin Air Horns	6.78	7.27	9.69
Vacumotive drive	27.41	28.93	38.07
Vacuum antenna	6.30	6.75	9.00
Visor, fixed type, extra	2.18	2.34	3.12
Weathermaster	24.50	31.02	46.38
Wheel rim trim rings	8.48	9.09	12.11

(3) *Charge for factory handling.* A charge for handling of the new truck computed in accordance with the same method the Company had in effect on March 31, 1942.

(4) *Charge for Federal excise taxes.* A charge to cover expense of Federal excise taxes, at current legal rate, on the new truck and extra or optional equipment computed in accordance with the method the Company had in effect on March 31, 1942; except that in the case of extra or optional equipment the tax shall be computed on the basis of Company net prices for the extra or optional equipment sold with the truck.

(5) *Charge for transportation.* A charge to cover transportation cost which the Company may prepay for transporting the truck and extra or optional equipment from Detroit, Michigan, to the point at which delivery is made to the distributor, computed in accordance with the same method the Company had in effect on March 31, 1942, plus transportation tax at the current legal rate.

(6) *Charge for retail report card.* A charge for a retail report card not to exceed $5.00 which shall be refunded or credited under the same terms and conditions in effect on March 31, 1942.

(7) *Charge for manufacturer's statement of origin.* A charge not to exceed twenty-five cents ($0.25) for preparing and furnishing a manufacturer's statement of origin or similar document for the new truck when requested by the distributor.

(8) *Charge for anti-freeze.* A charge for anti-freeze supplied with the truck not to exceed the applicable maximum price.

(9) *Charge for advertising.* A charge for cooperative advertising not to exceed $10.00 when the distributor agrees to participate in the cooperative advertising program.

(b) The Company may sell and deliver f. o. b. factory Detroit, Michigan, to distributors for resale other than under distributor-dealer agreements, the Hudson new commercial truck listed in subparagraph (1) of paragraph (a) at a price not to exceed the total of the following charges:

(1) *Charge for the new truck.* The applicable Company net price in subparagraph (1) of paragraph (a) for the new truck less the additional volume discount in paragraph (c).

(2) *Charges for extra or optional equipment.* A charge for extra or optional equipment listed in subparagraph (2) of paragraph (a) affixed to the new truck which shall not exceed the applicable Company net price to distributor in that subparagraph.

(3) *Charge for delivery at factory to ultimate purchaser on distributor's order.* A charge not to exceed $10.00 for preparing and conditioning the new truck for delivery at the factory to an ultimate purchaser on distributor's order.

(4) *Charge for advertising.* A charge for cooperative advertising not to exceed $10.00 when the distributor agrees to participate in the cooperative advertising program.

(5) *Other charges.* Charges to cover factory handling, federal excise taxes, transportation expense, retail report card, manufacturer's statement of origin or similar document, and anti-freeze, determined in accordance with applicable methods provided for those charges in paragraph (a).

(c) *Volume discount.* If during a yearly period ending September 30th of the year 1946 and on September 30th of each year thereafter, a distributor shall have sold at retail, or a master dealer shall have purchased for resale at retail, a net quantity of thirty-six or more new Hudson commercial trucks, the Company shall pay or credit to the applicable distributor or master dealer as soon as practicable after September 30, 1946 and after September 30th of each year thereafter under the same terms and conditions in effect on March 31, 1942, an amount obtained by applying the applicable discount in subparagraph (1) to the applicable base amount in subparagraph (2).

(1) *Discounts.*

Volume schedule:	Discount (percent)
1 to 35 inclusive	None
36 to 75	½
76 to 100	¾
101 to 125	1
126 to 200	1½
201 to 300	2
301 to 450	2½
451 and over	3

(2) *Base amount.*

Description:	Base amount
Model 58 Cab pick-up	$1,125

(d) The Company may sell and deliver f. o. b. factory Detroit, Michigan, to users the Hudson new truck described in subparagraph (1) of paragraph (a) at a price not to exceed the total of the following charges:

(1) *Charge for new truck.* The applicable list price in subparagraph (1) of paragraph (a) for the new truck, less discounts in effect on March 31, 1942 to the applicable class of purchaser.

(2) *Charge for extra or optional equipment.* A charge for extra or optional equipment listed in subparagraph (2) of paragraph (a) affixed to the new truck which shall not exceed the applicable list price in that subparagraph, less discounts in effect on March 31, 1942 to the applicable class of purchaser.

(3) *Charges for State and local taxes.* A charge not to exceed its expense for State and local taxes on the sale or delivery of the new truck and extra or optional equipment.

(4) *Charge for preparing and conditioning.* A charge for preparing and conditioning the new truck for delivery to the user not to exceed $10.00.

(5) *Charges for gasoline, oil and anti-freeze.* A charge for gasoline, oil, and anti-freeze supplied with the truck not to exceed applicable maximum prices.

(6) *Other charges.* Charges to cover factory handling, Federal excise taxes, transportation expense, and statement of origin or similar document determined in accordance with the applicable methods provided in paragraph (a).

NOTE: As required by section 12 of Maximum Price Regulation 610, the Company shall notify resellers of resale prices for the vehicle of base specifications and extra or optional equipment and shall notify resellers that they must use such resale prices in determining maximum prices in accordance with section 10.

(e) A distributor when selling under a distributor-dealer arrangement may sell and deliver to master dealers the Hudson new truck described in subparagraph (1) of paragraph (a) at a price not to exceed the applicable Company net price in that subparagraph plus the following applicable charges.

(1) *Extra or optional equipment.* A charge for each item of extra or optional eulpment listed in subparagraph (2) of paragraph (a) affixed to the new truck which shall not exceed the applicable distributor net price to a dealer listed in that subparagraph.

(2) *Charge for transportation.* A charge to cover the distributor's transportation expense not to exceed a charge computed in accordance with the applicable provisions of paragraph 10 (c) of Maximum Price Regulation 610.

(3) *Charge for Federal excise taxes.* A charge not to exceed the charges made by the Company to cover Federal excise taxes on the new truck and extra or optional equipment.

(4) *Charge for factory handling.* A charge for factory handling not to exceed the charge the Company makes to the distributor.

(5) *Charge for unloading and warehousing.* When the new truck is stored in a warehouse by the distributor, a charge not to exceed $10.00 to cover warehousing expense and a charge not to exceed $3.50 to cover unloading and greasing expense.

(6) *Charge for retail report card.* A charge for a retail report card not to exceed $5.00 which shall be refunded or credited under the same terms and conditions in effect on March 31, 1942.

(7) *Charge for manufacturer's statement of origin.* A charge not to exceed twenty-five cents ($0.25) for preparing and furnishing a manufacturer's statement of origin or similar document for the new truck when requested by the master dealer.

(8) *Charge for gasoline, oil and anti-freeze.* A charge for gasoline, oil and anti-freeze supplied with the truck not to exceed applicable maximum prices.

(9) *Charge for advertising.* A charge for cooperative advertising not to exceed $10.00 when the master dealer agrees to participate in the cooperative advertising program.

(f) A distributor when not selling under a distributor-dealer arrangement and any other reseller at retail may sell and deliver the Hudson new truck listed in subparagraph (1) of paragraph (a) at a price not to exceed the respective list price in that subparagraph, plus the following applicable charges:

(1) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment listed in subparagraph (2) of paragraph (a) affixed to the new truck which shall not exceed the applicable list price in that subparagraph.

(2) *Charge for gasoline, oil and anti-freeze.* A charge for gasoline, oil and anti-freeze supplied with the truck upon delivery to the purchaser not to exceed applicable maximum prices.

(3) *Other charges.* Charges permitted by section 10 of Maximum Price Regulation 610 when applicable to the sale.

(g) *Resales in Porto Rico and Alaska.* A reseller is authoried to sell each new Hudson truck and extra or optional equipment listed in paragraph (a) in Porto Rico and Alaska at a price not to exceed the maximum price permitted by paragraph (e) or (f) whichever is applicable, to which he may add a sum not to exceed the expense incurred by or charged to him for: Payment of territorial and insular taxes on the purchase, sale, or introduction of the new vehicle in the territory or possession when not charged under paragraph (e) or (f); export premiums; boxing and crating for export purposes; assembly costs, if any; marine and war-risk insurance; landing, warfage, and terminal operations; ocean freight; freight to port of embarkation when not charged under paragraph (e) or (f); and inland territorial freight from the port of debarkation by the most direct route to the reseller's place of business.

(h) All requests not granted herein are denied.

(i) This order may be amended or revoked by the Administrator at any time.

This order shall become effective September 26, 1946 for all trucks sold by the Company on and after September 26, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 22 UNDER MAXIMUM PRICE REGULATION 610

The Hudson Motor Car Company of Detroit, Michigan has applied, pursuant to section 8 of Maximum Price Regulation 610, for maximum prices on its Model 58 Cab pick-up truck and extra or optional equipment. The maximum prices authorized in the order which this opinion accompanies supersede the adjusted maximum prices in effect under MPR 136. The vehicle priced in this action is in the commodity line of less than 16,000 pounds gross vehicle weight.

In general, section 8 of the regulation permits the establishment of maximum prices for a manufacturer by the calculation of a price increase factor for each commodity line reflecting legal increases since January 1, 1941 in materials prices and basic wage rate schedules and a profit margin over cost, the application of this increase factor to 1941 model prices and the adjusting of resulting prices to show increases or decreases in direct labor and direct materials costs due to changes in specifications, design, material and equipment over the 1941 models.

The increases in basic wage rate schedules and in the general level of materials prices, including increases consistent with Executive Order 9697, and the profit, which were reflected in the Hudson increase factor were in accordance with the provisions of section 8. Section 8 was adhered to in determining increases in direct labor and materials cost resulting from changes in specifications, design, material and equipment incorporated in the new truck and in determining the over-all increase price factor. The price increase factor and the increase resulting from specification changes were correctly applied to the 1941 model price. In these circumstances, the prices requested by the Hudson Motor Car Company for its sales have been authorized in the accompanying order.

The Company's maximum price for its sales consists of a net wholesale price for the truck and extra or optional equipment plus applicable charges for factory handling; Federal excise taxes; transportation; retail report card; manufacturer's statement of origin and advertising.

An adjusted maximum price for the new truck and extra or optional equipment is authorized for Company sales to users. This maximum price gives effect to the increase the manufacturer is entitled to receive under section 8 and preserves the Company practice for such sales on March 31, 1942.

In accordance with section 10 of Maximum Price Regulation 610 the order also includes an adjusted maximum price for resellers in the United States and for resellers in Porto Rico and Alaska. The resellers' adjusted maximum price reflects the increase in price given to the applicant and preserves the resellers' customary prewar margin on their increased cost.

The maximum price for sales at wholesale consists of a wholesale price for the new truck and extra or optional equipment plus the applicable charges for transportation; advertising; Federal excise taxes; state and local taxes, if any; preparing and conditioning when such operations are performed; and other miscellaneous charges permitted by Maximum Price Regulation 610.

The maximum price for sales at retail consists of a list price for new trucks and extra or optional equipment plus the applicable extra charges as set forth in section 10 of Maximum Price Regula-

tion 610. For resellers in Porto Rico and Alaska, provision is made for additional charges as set forth in section 11. As required by section 12, the Company must notify all resellers of list prices and applicable discounts for the new truck and extra or optional equipment.

Prices authorized in this order are in accordance with the provisions of Maximum Price Regulation 610 and the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17492; Filed, Sept. 25, 1946; 11:23 a. m.]

[MPR 580, Amdt. 6 to Order 260]

DUOFOLD, INC.

ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation 580, Amendment 6 to Order 260. *Establishing ceiling prices at retail for certain articles.* Docket No. 6063-580-13-784.

For the reasons set forth in the opinion issued simultaneously herewith, Order No. 260 issued under section 13 of Maximum Price Regulation 580 on application of Duofold Inc., Mohawk, New York, is amended in the following respect:

1. Paragraph (a) is amended to increase the uniform retail ceiling prices established by the order for the articles listed below, as follows:

OPINION ACCOMPANYING AMENDMENT 6 TO ORDER NO. 260 UNDER MAXIMUM PRICE REGULATION 580

The accompanying amendment to Order 260 issued to Duofold, Inc., Mohawk, New York, under Section 13 of Maximum Price Regulation 580, revises the retail ceiling prices of articles covered by the order for which the manufacturer has recalculated his ceiling prices pursuant to Amendment 3 to Revised Supplementary Order 154.

[MPR 591, Order 836]

HOFFMAN SPECIALTY CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 836 under Section 16 of Maximum Price Regulation No. 591, Docket No. 6123-591.16-318. Hoffman Specialty Company, Indianapolis, Indiana.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Section 16 of Maximum Price Regulation No. 591, it is ordered:

(a) *Adjustment of maximum prices for the Hoffman Specialty Company of Indianapolis, Indiana.* (1) This order permits the Hoffman Specialty Company of Indianapolis, Indiana to increase by 10.4 percent its properly established maximum net prices in effect on June 30, 1946, to each class of purchaser for its line of heating and hot water specialties and accessories and repair parts therefor.

(2) The maximum net prices set forth in (a) (1) above are subject to discounts, allowances including transportation allowances and the rendition of services which are at least as favorable as those which the Hoffman Specialty Company extended or rendered or would have extended or rendered to each class of purchaser during March 1942, on comparable sales of heating and hot water specialties and accessories and repair parts therefor.

(b) *Maximum prices for resellers.* (1) All resellers of the commodities covered by this order (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their properly established maximum prices in effect on June 30, 1946, the percentage increase in cost to them resulting from the adjustment granted the manufacturer by this order.

(c) *Notification to all purchasers.* The Hoffman Specialty Company shall send the following notice to every purchaser of the commodities covered by the order at or before the first invoice after the effective date of this order:

Order No. 836 under section 16 of Maximum Price Regulation No. 591 provides for a 10.4 percent increase in maximum net prices in effect on June 30, 1946, for sales by the Hoffman Specialty Company for its line of heating and hot water specialties and accessories and repair parts therefor.

Resellers (but not manufacturers who purchase these items for use in the manufacture of other products) may add to their existing maximum prices the percentage increase in cost to them resulting from the adjustment granted by Order No. 836.

(d) All requests of the application of the Hoffman Specialty Company of Indianapolis, Indiana, not herein granted are denied.

(e) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective September 26, 1946.

Issued this 25th day of September 1946.

[SEAL] GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 836 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION NO. 591

The Hoffman Specialty Company of Indianapolis, Indiana, requested an upward adjustment of its maximum prices for its line of heating and hot water specialties and accessories and repair parts therefor.

Section 16 of Maximum Price Regulation No. 591 provides that any manufacturer whose over-all operations have been conducted at a loss during his most recent representative accounting period, is eligible for an adjustment within the limits indicated in this section. This permits an adjustment in an amount sufficient to make the adjusted price equal to total cost for the commodity or line.

The Hoffman Specialty Company of Indianapolis, Indiana, submitted cost and financial data. Such data indicate that its current over-all return on entire company operations is less than total cost.

Accordingly, this order authorizes an adjustment in the applicant's maximum prices which will return the applicant total cost on its line of heating and hot water specialties and accessories and repair parts therefor.

Controls over the maximum prices of some of the products may have been, or may be suspended in the future by Supplementary Order 129 (Exemption and Suspension from price control of machines, parts, industrial materials and services). In that event, the provisions of this order with respect to those items are also suspended during the period of the price control suspension, subject to reinstatement if the former price controls are restored.

Resellers are permitted to increase their existing maximum prices by the percentage increase in cost to them resulting from the increase granted the manufacturer. Thus, resellers will continue to realize the same percentage margin over acquisition cost that they realized previous to the issuance of the accompanying order.

After due consideration of the foregoing, the Price Administrator finds that this action is consistent with the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

[F. R. Doc. 46-17415; Filed, Sept. 25, 1946; 8:49 a. m.]

[Order 375 Under 3 (b), Order 117]

D. L. CLARK CO.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 117 under Order No. 375 under § 1499.3 (b) of the General Maximum Price Regulation. The D. L. Clark Company. Docket No. 6036.1, Order 375 (5) 535.

For the reasons set forth in an opinion issued simultaneously herewith, *It is ordered:* That:

Authorization of maximum prices governing sales of "I. X. L. Chocolate Crispies", a confectionery item manufactured by The D. L. Clark Company, Martindale, Itasco, Reedsdale and Corry Streets, Pittsburgh, Pennsylvania.

(a) The maximum prices for the indicated sales below of a confectionery item to be known as "I. X. L. Chocolate Crispies", a packaged box, weighing 1.0 pounds net, of approximately 32 pieces of a chocolate covered candy manufactured by The D. L. Clark Company, Martindale, Itasco, Reedsdale and Corry Streets, Pittsburgh, Pennsylvania, in accordance with its formula contained in its price application dated June 18, 1946, shall be:

	Cents per pound box, delivered
1. From the D. L. Clark Co., to wholesalers	50
2. From wholesalers to retailers	62.5
	Cents per pound box
3. From retailers to consumers	87

(b) Maximum prices established in this order are the highest for which this "I. X. L. Chocolate Crispies" box of chocolate covered candy may be sold by the respective sellers. All sellers shall reduce the above appropriate maximum prices by applying their customary discounts, allowances and price differentials which have been applied to sales of other comparable items.

(c) The D. L. Clark Company shall mail or otherwise supply to its purchasers, at the time or prior to the first delivery to such purchaser, a written notice as follows:

The Office of Price Administration has authorized us to sell our "I. X. L. Chocolate Crispies" box of chocolate covered candy to wholesalers at a maximum price of 50¢ per box, delivered. Wholesalers are authorized to sell this item to retailers at a maximum price of 62.5¢ per box, delivered. Retailers are authorized to sell this item to consumers at a maximum price of 87¢ per box. On sales of this item, all sellers are required to reduce their prices by applying their customary discounts, allowances and price differentials which have been applied to sales of other comparable items.

(d) The D. L. Clark Company for a period of at least ninety days shall place in or on each box distributed through a wholesaler, a notice as follows:

The Office of Price Administration has authorized wholesalers to sell "I. X. L. Chocolate Crispies" box of candy to retailers at a maximum delivered price of 62.5¢ per box. Retailers are authorized to sell this item to consumers at a maximum price of 87¢ per box.

(e) This order may be revoked or amended at any time by the Price Administrator.

(f) This Order No. 117 shall become effective September 26, 1946.

NOTE: This action has the prior written approval of the Secretary of Agriculture (10 F. R. 8419, 9419, 10961, 12305).

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 117 UNDER ORDER NO. 375 UNDER SECTION 1499.3 (b) OF THE GENERAL MAXIMUM PRICE REGULATION

The D. L. Clark Company, Pittsburgh, Pennsylvania, a confectionery manufacturer, hereinafter called applicant, has filed an application pursuant to the provisions of paragraph (d) of Order 375 under § 1499.3 (b) of the General Maximum Price Regulation requesting authorization of maximum prices for sales to wholesalers for a new item to be known as "I. X. L. Chocolate Crispies". Applicant alleges that it did not sell this or a similar item during March 1942, nor can it ascertain the existence of a manufacturer meeting the definition of the most closely competitive seller of the same class, and therefore applicant cannot avail itself of the pricing methods contained in § 1499.2 of the General Maximum Price Regulation. Accordingly, upon the basis of the following information, the Price Administrator is issuing simultaneously herewith an order establishing the maximum prices for this item at the requested sales level.

The new item is a packaged box, weighing 1.0 pounds net, of approximately 32 pieces of a cholocate covered candy confection. Applicant has submitted a current cost breakdown showing the detailed costs of ingredients, packaging material and direct labor.

The Price Administrator has considered applicant's request for maximum prices, and has determined that the maximum prices established in the accompanying order are fair and equitable and in line with the prices established for

comparable items. The Price Administrator is likewise establishing maximum prices for sales of this item at the wholesale and retail levels in line with the prices established by comparable sellers of comparable items. The order further provides that upon the sale of this item all sellers shall reduce the specific maximum prices set out by applying their customary discounts, allowances and price differentials which have been applied to sales of other comparable confectionery items.

The order also provides a manner by which applicant shall notify wholesalers and retailers of the applicable maximum prices established therein.

[F. R. Doc. 46-17361; Filed, Sept. 25, 1946; 8:56 a. m.]

Name of item	Maximum prices f. o. b. plant for sales by National Licorice Company to wholesalers and retailers per carton of 24 8-ounce bags	Maximum delivered prices for sales by wholesalers to retailers per carton of 24 8-ounce bags	Maximum prices for sales to consumers by retailers who purchase direct from National Licorice Company per 8-ounce bag	Maximum prices for sales to consumers by retailers who purchase from wholesalers per 8-ounce bag
Y & S Licorice Bricks	$2.73	$3.27	$0.17	$0.19
Y & S Hodge Podge	3.77	4.52	.24	.26
Y & S Licorice Lozenges	2.98	3.58	.19	.21

(b) Maximum prices established in this order are the highest for which the above-named items may be sold by the respective sellers. All sellers shall reduce the above appropriate maximum prices by applying their customary discounts, allowances and price differentials which have been applied to sales of comparable confectionery items.

(c) National Licorice Company shall mail or otherwise supply to its purchasers at the time of or prior to, the first delivery of any of the above-named items to each purchaser, the following notice:

(Insert date)

The Office of Price Administration has authorized us to sell our (name of item) to wholesalers and retailers at a maximum price of (price of item), f. o. b. (location of plant) per carton of 24 8-ounce bags. Wholesalers are authorized to sell this item to retailers at a maximum price of (price of item) per carton of 24 8-ounce bags, delivered. Retailers who purchase this item from wholesalers are authorized to sell it to consumers at a maximum price of (price of item) per 8-ounce bag. Retailers who purchase this item direct from National Licorice Company are authorized to sell it at a maximum price of (price of item) per 8-ounce bag. On sales of this item, all sellers are required to reduce their prices by applying their customary discounts, allowances and price differentials which have been applied to sales of comparable items.

(d) National Licorice Company, for a period of at least ninety days, shall place in or on each carton distributed through a wholesaler a notice as follows:

The Office of Price Administration has authorized wholesalers to sell (name of item) at a maximum price of (price of item) per carton of 24 8-ounce bags, delivered. Retailers purchasing from wholesalers are authorized to sell this item at a maximum price of (price of item) per 8-ounce bag.

(e) This order may be revoked or amended at any time by the Price Administrator.

(f) This Order No. 118 shall become effective September 26, 1946.

NOTE: This action has the prior written approval of the Secretary of Agriculture (10 F. R. 8419, 9419, 10961, 12305).

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 118 UNDER ORDER NO. 375 OF SECTION 1499.3 (b) OF THE GENERAL MAXIMUM PRICE REGULATION

National Licorice Company, Brooklyn, New York, a confectionery manufacturer, hereinafter called applicant, has filed an application pursuant to the provisions of paragraph (d) of Order 375 under § 1499.3 (b) of the General Maximum Price Regulation requesting authorization of maximum prices for sales to wholesalers and certain retailers for three new confectionery items to be known as "Y & S Licorice Bricks", "Y & S Hodge Podge", and "Y & S Licorice Lozenges". Applicant alleges that neither it nor any competitor sold any of these items in March 1942. Applicant therefore cannot avail itself of the pricing methods contained in § 1499.2 of the General Maximum Price Regulation. Accordingly, upon the basis of the following information the Price Administrator is issuing simultaneously herewith an order establishing the maximum prices for this item at the requested sales levels.

The new items are different forms of licorice candy packed in lithographed cellophane bags, 8 ounces net, 24 bags to a carton. Applicant has submitted a current cost breakdown showing the detailed costs of ingredients, packaging material and direct labor.

The Price Administrator has considered applicant's request for maximum prices, and has determined that the maximum prices established by the accompanying order are fair and equitable and in line with the prices established for comparable items. The Price Administrator is likewise establishing maximum prices for sales of these items at the wholesale and retail levels in line with the prices established by comparable sellers of comparable items. The accompanying order provides that upon sales of these items all sellers shall reduce the applicable maximum prices by applying their customary discounts, allowances and price differentials on sales of comparable items.

The order further provides a manner by which applicant shall notify wholesalers and retailers of the applicable maximum prices established therein.

[F. R. Doc. 46-17391; Filed, Sept. 25, 1946; 8:56 a. m.]

[Rev. Order 157 Under 3 (e) (3)]

VETERANS' ALUMINUM PRODUCTS CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, Order No. 157 under section 3 (e) (3) of the General Maximum Price Regulation is revised to read as follows:

(a) The maximum price f. o. b., Louisville, Kentucky, for sales by any person of aluminum prefabricated non-dwelling structures, uninstalled, manufactured by Veterans' Aluminum Products Company, Louisville, Kentucky, as described in their application of August 16, 1946 on file in this Office shall be $603.00.

Sales may be made below the above maximum price.

(b) The maximum price as determined above shall be subject to cash discounts, transportation allowances and price differentials which are at least as favorable as those the manufacturer or resellers extended or rendered or would have extended or rendered to each class of purchaser on commodities in the same general category on March 31, 1946.

(c) To the maximum price established under (a) there may be added the actual cost of any State sales tax, provided the purchaser is notified in writing that the tax is included in the total sales price.

(d) To the maximum f. o. b. price there may be added actual transportation expense to the destination specified by the purchaser. If shipment is made direct from factory to purchaser, the charge for transportation expense shall be computed on that basis.

(e) This order may be amended or revoked by the Price Administrator at any time.

This revised order shall become effective September 26, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING REVISED ORDER NO. 157 UNDER SECTION 3 (e) (3) OF THE GENERAL MAXIMUM PRICE REGULATION

The accompanying Revised Order No. 157 under section 3 (e) (3) of the General Maximum Price Regulation establishes a maximum f. o. b. price for sales by any person of 12' x 20' prefabricated aluminum non-dwelling structures manufactured by Veterans' Aluminum Products Company of Louisville, Kentucky.

Order No. 157, issued to Veterans' Construction Company, a partnership, established a maximum f. o. b. price for sales of these prefabricated aluminum structures on the basis of estimated costs, submitted in advance of operating experience. Through inadvertence, that order did not provide for the reestablishment of a maximum price after a period of actual production.

Upon starting production, the company, now reorganized as the Veterans' Aluminum Products Company, found it necessary to make various structural changes, adding two studs and two rafters on each side, running siding horizontal instead of vertical and adding corner strips. These have caused a heavy increase in bolts, washers, and roof caulking material. These structural changes have materially increased labor cost of fabrication.

In view of the foregoing modifications in material and design, the maximum price is revised to bring it appropriately into line with the maximum prices of other manufacturers of products comparable to the applicant's modified product. Since the buildings have been changed materially, both in structure and design, the maximum price has been revised to allow the actual increase in labor and material costs necessitated by these changes. The maximum price now established is a price properly in line with the level of maximum prices under the General Maximum Price Regulation.

Regional and District Office Orders.

[Region VI Order G-16 Under RMPR 122, Amdt. 135]

SOLID FUELS IN SHEBOYGAN, WIS., AREA

An opinion accompanying this amendment has been issued simultaneously herewith. Order No. G-16 under Revised Maximum Price Regulation No. 122 is amended in the following respects:

In Appendix No. 31 to Order No. G-16, paragraph (b) Price schedule, subparagraph III is amended to read as follows:

III. Pennsylvania anthracite:

1. Egg	$17.95
2. Stove	17.95
3. Nut	17.95
4. Pea	16.10
5. Buckwheat	13.40

The maximum prices set forth above are for sales of Anthracite by C. Reiss Coal Company and others. They include a 75 cents per ton adjustment granted pursuant to an application filed by that company under § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and, in addition thereto, they reflect and supersede maximum prices for those sales granted by general orders applicable throughout Region VI of the Office of Price Administration reflecting increases granted by Amendments No. 45, 46, 47 and 48 to Revised Maximum Price Regulation No. 122.

This Amendment No. 135 to Order No. G-16 of Revised Maximum Price Regulation No. 122 shall become effective September 6, 1946.

Issued this 6th day of September 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 135 TO ORDER NO. G-16 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

Section 1340.260 of Revised Maximum Price Regulation No. 122 authorizes the regional administrator of the Office of Price Administration to establish by order, maximum prices in line with those established by that regulation for deliveries of solid fuels made, or the services rendered in connection therewith, or both, by a dealer or group of dealers in an area or locality. In connection with such prices, appropriate reporting, record-keeping or other requirements may be made of the dealer or dealers involved.

The Amendment No. 135 shall remain in effect with respect to sales of anthracite in the Sheboygan, Wisconsin, area, as defined in Appendix No. 31 to Order No. G-16, and until that order is further amended reflecting the increases in effect for all solid fuels sold in that area granted by the amendments to the regulation cited in Amendment No. 135.

[Region I Order G-42 Under 18 (c), Amdt. 1]

LUMP CHARCOAL AND CHARCOAL BRIQUETS IN NEW ENGLAND

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by § 1499.18 (c) of the General Maximum Price Regulation, *It is hereby ordered:*

Order No. G-42, Regional Office, Region I, under section 18 (c) of the General Maximum Price Regulation is amended in the following respects:

1. Paragraph (a) is hereby deleted and the following paragraph (a) substituted therefor:

(a) For sales at retail of charcoal and charcoal briquets, bagged in bags containing not more than twenty pounds and sold and delivered in New England, the maximum price shall be the price established by the General Maximum Price Regulation or $.065 per pound, whichever is higher.

This amendment to Order No. G-42 shall become effective September 9, 1946.

Issued this 9th day of September 1946.

ELDON C. SHOUP,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-42 UNDER SECTION 18 (c) OF THE GENERAL MAXIMUM PRICE REGULATION

Order G-42, effective October 9, 1944, was issued for the purpose of adjusting maximum prices for sales by dealers to retailers and for sales at retail of lump charcoal and charcoal briquets, in order to alleviate a shortage of these commodities in New England. Amendment 13 to Maximum Price Regulation No. 431 effective March 15, 1946 authorized increases in the maximum prices for sales by hardwood distillers of charcoal made from mixed hardwoods. Amendment 14 to Maximum Price Regulation No. 431, effective June 21, 1946, authorized dealers who price under the General Maximum Price Regulation to take advantage of full dollar-and-cent pass-through of cost increases resulting from Amendment 13. By reason of these two amendments, as well as of various individual adjustment orders, it appears that effective distribution of charcoal at the wholesale level will no longer be impeded and that continued supply in New England from dealers to retailers will be assured. The adjustments authorized to dealers, therefore, by Order G-42 under section 18 (c) of the General Maximum Price Regulation are being revoked by this amendment.

With respect, however, to retailers' maximum prices for lump charcoal and charcoal briquets, the increased costs to retailers have not been offset by the adjustments which have been authorized to retailers. In order to insure essential distribution of charcoal at the retail level, therefore, it has been determined that an adjustment of retailers' maximum prices may be authorized at this time pursuant to section 18 (c) of the General Maximum Price Regulation. The maximum price established by the accompanying order is limited to sales at retail of charcoal and charcoal briquets bagged in bags containing not more than twenty pounds.

[Region I Order G-8 Under Gen. Order G-70]

Shoe Cartons in New England

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by General Order No. 70, as amended, and the Emergency Price Control Act of 1942, as amended, *It is ordered:*

(a) On and after the effective date of this order, the maximum prices as established by Revised Maximum Price Regulation 187, for sales and deliveries by manufacturers of the standard shoe boxes or cartons (including flat blanks) listed below, are modified so that the maximum prices for such shoe cartons and blanks shall be as follows:

(1) *Manufacturers' maximum prices for shoe boxes (delivered basis).*

Size numbers	2	4-5-6-7-17	8	8½-9	10	11	13
White no label:							
M	$35.85	$31.75	$30.10	$34.50	$36.10	$40.00	$35.30

24 pair						1.42	
18 pair			.92	.96	1.01		.98
12 pair						.77	

(2) *Manufacturers' maximum prices for shoe box blanks (flats) (delivered basis).* The maximum prices for shoe boxes (listed in subparagraph (1) above) not set up shall be the maximum prices for set-up shoe boxes, per quantities listed for the particular size, set forth in subparagraph (1) above of this paragraph (a), reduced as follows:

	Percent
For plain white and plain colored blanks (no printing of any kind thereon)	25
For all other blanks; namely, tag ends, label ends, and completely designed blanks, or blanks upon which printing of any kind appears	22

(3) *Differentials and extras—(a) Small quantities.* The maximum prices per case (i. e., per 12 to 36 pair), listed above, apply only if delivery of cartons is made in set-up shipping cases or containers. For cartons which are merely tied for delivery, the maximum price shall be the applicable portion of the per-thousand maximum price.

Provided, however, where a manufacturer is entitled, under Revised Maximum Price Regulation No. 187, to apply a base-period differential for sales and deliveries in small quantities (i. e., in quantities of less than 1,000 or less than the unit lots listed in this order), the manufacturer may nevertheless continue to apply his said base-period differential on sales of the boxes covered by this order in such small quantities. (Note: Such differential must be substantiated by the manufacturer's base-period records.)

(b) *Extra printing.* The maximum prices listed in subparagraph (1), above, of this paragraph (a) for printed cartons shall apply to printed cartons with ink coverage in the design not in excess of 25% ink coverage. Where the coverage in the design is in excess of 25% ink coverage, the extras indicated below may be added:

	Per M
26 percent to 50 percent, add	$1.40
51 percent to 75 percent, add	$2.10
76 percent to 100 percent, add	$2.80

(c) *Delivery.* The maximum prices hereby established are for sales on a delivered basis within the manufacturer's free delivery zone in New England. For delivery made by the manufacturer beyond his free delivery zone, transportation shall not exceed the lowest available common carrier rate. For non-delivered sales (i. e., f. o. b. manufacturer's plant or warehouse), the manufacturer must deduct from the maximum prices established in subparagraph (1) or (2) of this paragraph (a) the manufacturer's customary delivery differentials.

(b) The seller must notify the buyer at the time of the first sale of the maximum prices established by this order for the items of such sale. The seller may comply with this requirement by furnishing each buyer with a copy of this order.

(c) Regardless of any contract or other obligation, this order applies to all sales or deliveries within Maine, New Hampshire, Vermont, Connecticut, Rhode Island, and Massachusetts of the shoe boxes, listed in paragraph (a), both of set-up boxes and flat shoe box blanks.

(d) (i) All shoe cartons or shoe carton blanks covered by this order shall be made of the following grades of paperboard, listed in Maximum Price Regulation No. 32; namely: "Plain Chip," "Filled News," "Solid News," "Semibending and Creasing Chip," and "Full Bending Chip" (more fully or specifically defined in Maximum Price Regulation No. 32, section 13 (d)-(2)-(4)-(5)-(13)-(14)).

(ii) For the purposes of this order, standard set-up shoe boxes for men's size (size #11) shall be made of paperboard of caliper .033 to .045, inclusive. Standard size shoe cartons, except size #11, shall be made of paperboard of caliper .029 to .034, inclusive.

(iii) The maximum prices in this order shall be applicable to the boxes specified herein when covered with cover paper costing not in excess of $2.60 per ream of size 20 x 26 of 500 count. Such paper shall be machine, super-calendered, plate or glazed finish. Labels and cover strips made from standard grades of label and stripping papers and not exceeding two-color printing up to $3.00 per thousand for these items shall be used. Shipping containers for the standard cartons shall be made from corrugated kraft up to 200 test.

(e) The maximum prices for new shoe boxes and flat blanks other than of standard size and the maximum prices of used shoe boxes are not affected by this order.

(f) Sellers subject to this order must deduct from the maximum prices in paragraph (a) their customary allowances, discounts or other price differentials, including the differential for non-delivered sales in effect during October 1941.

(g) No additional charges not provided for by this order shall be made. However, lower prices than those established by this order may be charged, demanded, offered or paid.

(h) New sellers and sellers without October 1941 experience shall use the customary allowances, discounts or other price differentials, including the differential for nondelivered sales, of their most closely competitive seller of the same class.

(i) (1) *Invoices and Records.* Every person making a sale of the shoe box cartons or blanks for which maximum prices are established by this order shall give the purchaser or his agent at the time of the sale an invoice or other memorandum of sale which shall show:

(a) The date of sale.

(b) The name and address of the buyer and seller.

(c) The quantity of shoe cartons or blanks sold.

(d) A description of the shoe cartons or blanks in the same manner as they are described in this order, and the prices charged therefor respectively.

(e) Any customary allowance, discount, or other price differential, including the differential for non-delivered sale.

(f) Total price of the shoe cartons and blanks.

(g) A description of the amount of the permitted charges for transportation.

(2) The seller shall keep an exact copy of each such invoice or memorandum (or a record of all the information required by subparagraph (1), above, of this paragraph (i), and such copy of record shall be made available for inspection by the Office of Price Administration.

(j) To the extent applicable, the provisions of this order supersede manufacturers' maximum prices as established in Revised Maximum Price Regulation No. 187. Except as otherwise provided herein, this order incorporates the following provisions of Revised Maximum Price Regulation No. 187, and the same are hereby made applicable hereunder: section 1 (c) (4), Charges for Delivery; section 5, Federal and State Taxes; section 6 (a), Base Period and other Records; section 7, Evasion; section 8, Enforcement; section 9, Adjustable Price in; section 13, Discounts and allowances.

(k) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed in the Boston Regional Office of the Office of Price Administration.

(l) *Power to amend, revoke or correct.* This order, or any provisions thereof, may be revoked, amended or corrected at any time.

This Order No. G-3 shall become effective September 20, 1946.

Issued this 20th day of September 1946.

ELDON C. SHOUP,
Regional Administrator.

Opinion accompanying Order No. G-3 under General Order No. 70

The accompanying Order No. G-3, issued pursuant to General Order No. 70, as amended, establishes maximum prices for manufacturers' sales in Region I of the standard shoe boxes and blanks specified therein.

Section (a) of General Order No. 70, as amended, delegates to the Regional Administrator authority to establish dollar-and-cent ceiling prices on certain paperboard commodities, including standard shoe boxes or cartons, and to grant adjustment thereof under certain conditions in any area or locality within his jurisdiction.

Section (c) provides that an order establishing maximum prices under General Order No. 70, after approval by the Office of Price Administration, Washington, D. C., shall supersede the maximum price regulation, schedule or order.

It appears that practically all of the shoe cartons used in this Region are produced here. Since prices of cartons produced outside the Region are higher than the adjusted prices, it is uneconomical to import from other sections of the country. Moreover, it is established that the bulk of shoe cartons produced in the country comes from this Region. Because price increases granted in paperboard together with other necessary supplies (such as glue, ink, cover paper, labels and corrugated packing cases) have become so large compared with March, 1943, costs, and since it has been necessary to grant numerous wage increases to workers in the industry, the financial conditions facing the companies making up the industry are such as to threaten continued supply of the cartons. In addition to cost increases in types of board and paper normally used, the shortage of these types has made it necessary very frequently to use more expensive substitutes. Since there would be no alternative lower-priced source of supply if local manufacturers were to discontinue production, it is considered that there is a serious threat of shortage to the supply of shoe cartons at the present time.

Upon the basis of the data submitted to this office, the present order effects an adjustment in maximum selling prices sufficient to compensate for prior increases in paperboard costs and to allow a return equal to the industry-wide profit factor previously ascertained as a result of surveys of the industry conducted on a national basis. The adjustment granted to New England manufacturers will not create a shortage or need for increases in prices in other localities. The present action is deemed advisable since the cartons have normally been sold at fairly uniform prices because of competitive nature of industry and because the bulk of the shoe cartons produced in this Region are sold here.

To the extent practicable, the Administrator has advised and consulted with representatives of the industry which will be effected by this order. The maximum prices have been established under existing criteria in an amount necessary to permit the maintenance of the manufacturer's production. These prices are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

All provisions of this order and their effect upon business practices, cost practices, or methods, or means or aids to distribution in the industry affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the Emergency Price Control Act of 1942, as amended. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17249; Filed, Sept. 24, 1946; 8:57 a. m.]

[Region III Order G-2 Under Gen. Order 68, Amdt. 4]

Hard Building Materials in Grand Rapids, Mich., Area

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B, *It is hereby ordered,* That:

(a) Table I of Order No. G-2 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 4 to Order No. G-2 shall become effective August 22, 1946.

Issued August 22, 1946.

JOHN F. KESSEL,
Regional Administrator.

TABLE I—MAXIMUM RETAIL DELIVERED [1] PRICES OF THE LISTED HARD BUILDING MATERIALS IN THE GRAND RAPIDS, MICHIGAN AREA [2]

Commodity and unit	Price
Plaster, hardwall, 100 lb	$0.80
Plaster, gauging, 100 lb	.80
Plaster, moulding, 100 lb	1.80
Plaster, bonding, 100 lb	.87
Keene's cement, 100 lb	1.85

[1] Delivery: (i) The maximum prices listed in Table I, above include free delivery of purchases of ten dollars' value or more to any point within the Grand Rapids, Michigan Area.

(ii) For delivery of purchases of less than ten dollars' value within the zone specified in subsection (i), above, the seller may charge not more than fifty cents per delivery.

(iii) No deduction need be made from the maximum prices listed in Table I, above, where the purchaser elects to make his own delivery.

Discounts: No seller covered hereby shall discontinue or reduce any of the allowances or discounts which he offered in March, 1942, to different classes of customers.

[2] As amended by Amendment No. 4.

TABLE I—MAXIMUM RETAIL DELIVERED PRICES OF THE LISTED HARD BUILDING MATERIALS IN THE GRAND RAPIDS, MICHIGAN AREA—Con.

Commodity and unit	*Price*
Finishing lime, 50 lb	.52
Gypsum lath, ⅜-inch, 1,000 sq. ft	21.00
Metal lath, 2.5 lb., painted diamond mesh, sq. yd	.2788
Metal lath, galvanized, sq. yd	.2732

Clay drain tile, 6 in., 1,000 lin. ft	152.97
Vitrified sewer pipe, 4 in., lin. ft	.212
Vitrified sewer pipe, 6 in., lin. ft	.318
Flue lining, 8½ in. x 8½ in., lin. ft	.4036
Flue lining, 9 in. x 13 in., lin. ft	.6053
Flue lining, 13 in. x 13 in., lin. ft	.7575
Gypsum board sheathing, ½ in., 1,000 sq. ft	39.00
Asphalt roofing mineral surface, 90 lbs., roll	2.65
Asphalt or tarred felt, 15 lb., 432 sq. ft., roll	2.89
Asphalt or tarred felt, 30 lb., 216 sq. ft., roll	2.89
Asphalt shingles (thickbutt), 3 in line, 12 in., square	6.03
Asphalt shingles, 2 tab hexagon, square	4.72
Fibre insulation board, ½ in., standard lath and board, 1,000 sq. ft	48.38
Fibre insulation board, 25/32 in., asphalt sheathing, 1,000 sq. ft	78.00
Asbestos cement siding, 12 in. x 24 in., 12 in. x 27 in., standard colors, 100 sq. ft	7.88
Asbestos cement siding, 12 in. x 24 in., 12 in. x 27 in., brilliant colors, 100 sq. ft	9.45
Asbestos cement roofing shingle, economy cut, 100 sq. ft	9.78
Asbestos cement roofing shingles, lapunder shingle, 100 sq. ft	9.78
Standard density synthetic fibre board, 3/16 in., 4 in. x 8 in., 1,000 sq. ft	90.00
Hard density synthetic fibre board, ⅛ in., tempered, standard size, 1,000 sq. ft	90.00
Thermal insulation blankets (paper backed), single, 1,000 sq. ft	45.00
Thermal insulation blankets (paper backed), medium, 1,000 sq. ft	62.00
Thermal insulation blankets (paper backed), thick, 1,000 sq. ft	77.75
Thermal insulation batts (paper backed), 2 in. thick, 1,000 sq. ft	49.50
Thermal insulation batts (paper backed), full thick, 1,000 sq. ft	60.00
Thermal insulation, loose in bags plain), 35 lb	.80
Thermal insulation, loose in bags (nodulated), 35 lb	1.35

OPINION ACCOMPANYING AMENDMENT NO. 4 TO ORDER NO. G–2 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[F. R. Doc. 46-17262; Filed, Sept. 24, 1946; 10:02 a. m.]

[Region III Order G–16, under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN PARKERSBURG, W. VA., AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1–B; *It is hereby ordered*, That:

(a) Table I of Order No. G–16 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G–16 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I TO ORDER NO. 16-G UNDER GENERAL ORDER NO. 68—MAXIMUM DELIVERED[1] PRICES FOR RETAIL SALES OF THE LISTED HARD BUILDING MATERIALS IN THE PARKERSBURG, WEST VIRGINIA, AREA

Commodity and unit	*Price*
Plaster, hardwall, 100 lb	$1.09
Plaster, gauging (white), 100 lb	2.20
Plaster, moulding, 100 lb	2.20
Plaster, bonding, 100 lb	2.25
Keene's cement, 100 lb	2.50
Finishing lime, 50 lb	.56
Gypsum lath, 3.8 in., 1000 sq. ft	26.00
Metal lath, 2.5 lb., painted diamond mesh, sq yd	.262
Metal lath, 3.4 lb., ⅜ in., high rib painted, sq yd	342
Metal lath, 3.4 lb., ⅜ in., high rib galvanized, sq. yd	.4071
Metal lath, corner bead, expanded type, lin. ft	.0535
Metal lath, corner bead, 2 in. (cornerite), lin. ft	.0326
Metal lath, corner bead, 3 in. (cornerite), lin. ft	.0323
Portland cement, standard (paper bags), 94 lb	.756
Portland cement, standard (cloth bags), 94 lb	.865
Masonry mortar (paper sack), 70 lb	.715
Mason's hydrated lime, 50 lb	.65
Waterproof cement (gray), 94 lb	1.015
Clay drain tile, 3 inch, lin. ft	.075
Clay drain tile, 4 inch, lin. ft	.085
Clay drain tile, 6 inch, lin. ft	.145
Vitrified clay sewer pipe, No. 1SS–4 inch, lin. ft	.1744
Vitrified clay sewer piper, No. 1SS–6 inch, lin. ft	.2588
Flue lining, 9 in. x 9 in., lin. ft	.3762
Flue lining, 9 in. x 13 in., lin ft	.57
Flue lining, 13 in. x 13 in., lin. ft	.855
Gypsum wallboard, ⅜ in., 1000 sq. ft	38.12
Asphalt roofing, 90 lb., mineral surface, roll (108 sq. ft.)	3.04
Asphalt or tarred felt, 15 lb., roll (432 sq. ft.)	2.78
Asphalt or tarred felt, 30 lb., roll (216 sq. ft)	2.78
Asphalt shingles, 210 lb., (3 in 1) thickbutt, 100 sq. ft	6.22
Asphalt shingles, 165–167 lb., 2 tab hexagon, 100 sq. ft	5.07
Fibre insulation board, ½ in., standard lath and board, 1000 sq. ft	53.75
Fibre insulation board, 25/32 in., asphalt sheathing, 1000 sq. ft	81.51
Asbestos cement siding, 12 in. x 24 in. or 27 in., standard colors, 100 sq. ft	8.01
Asbestos cement siding, 12 in. x 24 in. or 27 in., brilliant colors, 100 sq. ft	8.99
Thermal insulation batts (paper backed) full thick, 1000 sq. ft	60.00

Discounts: No seller covered hereby shall reduce or discontinue any allowances, discounts or differentials which he offered in March 1942.

[1] Delivery: The prices in Table I above, include free delivery within a radius of five miles of the seller's place of business. Delivery beyond such five-mile zone shall be at rates not exceeding the charges made by the seller in March 1942 for the same or similar delivery service.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–16 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[Region III Order G–43, Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN SPRINGFIELD, OHIO, AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1–B; *It is hereby ordered*, That

(a) Table I of Order No. G–43 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G–43 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I TO ORDER NO. G–43 UNDER GENERAL ORDER NO. 68 MAXIMUM DELIVERED[1] PRICE FOR LISTED HARD BUILDING MATERIALS WHEN SOLD AT RETAIL IN THE SPRINGFIELD, OHIO AREA

Commodity and Unit	*Maximum price*
Plaster, hardwall, 100 lb	$1.05
Plaster, gauging, ton	21.00

Portland cement, standard (paper bag), 94 lb	1.015
Masonry mortar, bbl. (280 lbs.)	2.75
Masonry mortar, 70 lb	.75
Mason's hydrated lime, ton	14.28
Mason's hydrated lime (less than ton), 50 lb	.56
Waterproof cement (gray), bbl. (376 lbs.)	4.26
Waterproof cement (gray), 94 lb	1.215
Clay drain tile, 3 in, lin. ft	.0742
Clay drain tile, 4 in,, lin. ft	.0972
Clay drain tile, 6 in., lin. ft	.1666
Vitrified clay sewer pipe, No. 1SS, 4 in., lin. ft	.228
Vitrified clay sewer pipe, No. 1SS, 6 in., lin. ft	.3534
Flue lining, 9 in. x 9 in., lin. ft	.4674
Flue lining, 9 in. x 13 in., lin. ft	.7068
Flue lining, 13 in. x 13 in., lin. ft	.9006

Discounts: All prices listed above subject to not less than 2% discount if paid by the tenth day of the month following the month of purchase.

[1] Delivery: (1) on sales of merchandise worth $10.00 or more, all sellers covered hereby whose places of business are located in the City of Springfield shall deliver free of charge to any point in the area described by extending the city limits of Springfield five miles.

(2) On sales of merchandise worth $10.00 or less by sellers covered hereby whose places of business are located in the City of Springfield, a charge of one dollar may be made for deliveries to any point in the free delivery zone described in (1) above.

(3) On all sales of merchandise covered hereby by sellers whose places of business are located in the City of Springfield, delivery to points beyond the free delivery zone described in (1) above, shall be made at rates not exceeding the rates charged by the seller for such delivery service in March, 1942.

(4) All sellers whose places of business are located outside the City of Springfield but within the County of Clark shall deliver items covered hereby free of charge.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–43 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[F. R. Doc. 46-17261; Filed, Sept. 24, 1946; 10:20 a. m.]

[Region III Order G–45 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN BLUEFIELD, W. VA., AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1–B, *It is hereby ordered*, That:

(a) Table I of Order No. G–45 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amend-

(modulated), 35 lb.	1.85	

ment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G–45 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I OF ORDER NO. G–45 UNDER GENERAL ORDER 68 MAXIMUM DELIVERED PRICES FOR RETAIL SALES OF LISTED HARD BUILDING MATERIALS IN THE BLUEFIELD, WEST VIRGINIA AREA

Commodity and Unit	*Maximum price*

Thermal insulation blankets (paper backed) medium, 1,000 sq. ft.	51.75
Thermal insulation blankets (paper backed), thick, 1,000 sq. ft.	65.00
Thermal insulation batts (paper backed) 2 in. thick, 1,000 sq. ft.	50.00

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–45 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[Region III Order G–47 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN MIDDLETOWN, OHIO, AREA

For the reasons set forth in an accompanying Opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1–B: *It is hereby ordered*, That:

(a) Table I of Order No. G–47 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G–47 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I—MAXIMUM RETAIL DELIVERED PRICES OF CERTAIN HARD BUILDING MATERIALS IN THE MIDDLETOWN, OHIO, AREA

Commodity and unit	*Price*
Plaster, hardwall, 100-lb. bag	$1.05

Asphalt or tarred felt, 15 lb., 432 sq. ft. roll	3.12
Asphalt or tarred felt, 30 lb., 216 sq. ft. roll	3.12
Asphalt shingles, 210 lb. (3 in 1) thickbutt, 100 sq. ft.	6.21
Asphalt shingles, 165 lb. 2 tab hexagon, 100 sq. ft.	5.14

Delivery: Free delivery within the area comprised of Butler and Warren Counties. Dealer may defer delivery for reasonable time until full load can be delivered on one trip.

Discounts: All sellers covered hereby shall grant a discount of not less than two percent on the prices set forth in Table I above, if payment is made before the tenth day of the month following the month in which the purchase was made.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–47 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[1] Delivery: (1) The maximum prices listed in Table I, above, include free delivery to any point within a radius of five miles of the seller's place of business.

(2) For delivery to points beyond the free delivery zones described in subsection (1), above, a seller shall charge no more than he did in March, 1942, for the same or similar delivery service.

(3) No deduction need be made from the prices listed in Table I, above, where the seller elects to make his own delivery.

Discounts: No seller covered hereby shall discontinue or reduce any of the allowances or discounts, which he offered in March, 1942, on sales of any of the items listed in Table I, above.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–74 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[F. R. Doc. 46-17257; Filed, Sept. 24, 1946; 10:04 a. m.]

[Region III Order G–74 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN LORAIN, OHIO, AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1–B: *It is hereby ordered*, That:

(a) Table I of Order No. G–74 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G–74 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. KESSEL,
Regional Administrator.

[Region III Order G–53 Under MPR 592]

LEWISTOWN PIPE CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation No. 592 and the Emergency Price Control Act of 1942, as amended, it is hereby ordered:

(a) *What this order does.* This Order No. G–53 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of concrete pipe produced by the Lewistown Pipe Company of Fort Wayne, Indiana, hereinafter referred to as the manufacturer. The maximum prices of the manufacturer and the maximum prices of the resellers of such commodity are adjusted herein.

(b) *Manufacturer's adjusted maximum prices.* The adjusted maximum prices for sales by the manufacturer of concrete pipe produced by it shall be its maximum net prices in effect on June 13, 1946, to each class of purchaser, increased by 8%.

(c) *Resellers' adjusted maximum prices.* Any reseller of the commodity for which an adjustment is granted the manufacturer in (b) above may add to his maximum prices in effect on June 13, 1946, to each class of purchaser, the percentage amount of increase in his net invoiced cost resulting from the increase granted the manufacturer by this order.

(d) *Discounts, allowances and special charges.* All sellers of the subject commodities must continue to maintain discounts, allowances and other price differentials to each class of purchaser at least as favorable as those which were in

effect on June 13, 1946, and are permitted to add to their maximum prices, as adjusted herein, such charges for extras as were customarily added on June 13, 1946.

(e) *Notification.* The manufacturer, at or prior to the first billing reflecting the adjustment herein granted, shall send to each purchaser who resells the commodity covered by this order, a notice of the price increases authorized by this order. Such notice shall contain substantially the following:

Order No. G-53 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of concrete pipe produced by the Lewistown Pipe Company. Resellers may add to their maximum prices in effect on June 13, 1946, to each class of purchaser the percentage amount of increase in their net invoiced cost resulting from the increase granted to the manufacturer by this order.

(f) *Revocation and amendment.* This order may be revoked or amended at any time by the Office of Price Administration.

This order shall become effective September 11, 1946.

Issued September 11, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G-53 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying Order No. G-53 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of the maximum prices of concrete pipe produced by the Lewistown Pipe Company of Fort Wayne, Indiana, (therein referred to as the manufacturer) and further provides for an adjustment of the maximum prices of resellers of such commodity.

Maximum Price Regulation No. 592 authorizes the Regional Administrator, upon application, to adjust the maximum prices of certain commodities, including concrete pipe, which are produced by a supplier whose supply of the commodities could not be replaced if the supplier discontinued production. Investigation has shown that the manufacturer is such a supplier.

The adjustment requested by the manufacturer is an over-all adjustment of its maximum prices of concrete pipe, by which, under the provisions of section 16 of Maximum Price Regulation No. 592, the Regional Administrator may authorize increases in the maximum prices of the manufacturer's commodity in an amount sufficient to permit the recovery of total costs plus a reasonable margin of profit.

Analysis of the financial data submitted by the manufacturer discloses that it is not realizing total costs plus a reasonable margin of profit. It is, therefore, concluded that an adjustment should be granted. It is considered that the adjustment granted, while constituting the minimum required, is sufficient to enable the manufacturer to maintain a continued supply of the subject commodity.

It has been determined that resellers of the subject commodity would be unable to absorb the increase granted to the manufacturer and, accordingly, it is provided in the order that any reseller may add to his maximum prices in effect on June 13, 1946, to each class of purchaser, the percentage amount of increase in his net invoiced cost resulting from the increases granted the manufacturer by such order.

The price increases established in the accompanying order are considered generally fair and equitable in accordance with the provisions of Maximum Price Regulation No. 592 and consistent with the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17250; Filed, Sept. 24, 1946; 8:57 a. m.]

[Region III Order G-67 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN COVINGTON, KY., AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B; *It is hereby ordered*, That:

(a) Table I of Order No. G-67 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This amendment No. 1 to Order No. G-67 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I TO ORDER NO. G-67 UNDER GENERAL ORDER NO. 68 MAXIMUM PRICES FOR SALES OF LISTED HARD BUILDING MATERIALS IN THE COVINGTON, KENTUCKY AREA

Commodity	Unit	Maximum retail price (to persons other than contractors)	Maximum price to contractors
Plaster:			
Hard wall	100-lb bag	$1.67	$1.67
Gauging	100-lb. bag	1.52	1.37
Moulding	100-lb. bag	1.52	1.37
Keene's cement	100-lb. bag	2.40	2.16
Finishing lime	50-lb. bag	.616	.56
Gypsum lath, ⅜ in	Sq. ft	.02½	.025
Metal lath:			
2.2-lb. painted diamond mesh	Sq. yd	.2787	.2341
2.5-lb. painted diamond mesh	Sq. yd	.2899	.2561
3.4-lb painted diamond mesh	Sq. yd	.3420	.289
2.75-lb. flat rib painted	Sq. yd	.3190	.2866
Corner bead expanded type	Lin. ft	.04615	.0425
Portland cement, standard (paper bag)	94-lb. bag	.855	.765
Masonry mortar (paper sack)	75-lb. bag	.665	.620
Mason's hydrated lime	50-lb. bag	.616	.56
Waterproof cement (gray)	94-lb. bag	1.165	1.055
Clay drain tile:			
3 in	Lin. ft	.06	.054
4 in	Lin. ft	.0808	.0747
6 in	Lin. ft	.1566	.1409
Vitrified clay sewer pipe No. 1SS:			
4 in	Lin. ft	.2428	.2166
6 in	Lin. ft	.3539	.3165
Flue lining:			
4½ in. x 8½ in	Lin. ft	.3526	.3174
9 in. x 9 in	Lin. ft	.4856	.4352
9 in. x 13 in	Lin. ft	.7284	.6569
13 in. x 13 in	Lin. ft	.9808	.8831
Gypsum wallboard, ⅜ in	Sq. ft	.04½	.04
Asphalt roofing, 90-lb. mineral surface	108 sq. ft. roll	2.65	2.52
Asphalt or tarred felt:			
15 lb	432 sq. ft. roll	2.61	2.49
30 lb	216 sq. ft. roll	2.61	2.61
Asphalt shingles:			
210 lb. (3 in 1) thick butt	100 sq. ft	5.92	5.34
165 lb. 2 tab hexagon	100 sq. ft	4.83	4.40
Fibre insulation board:			
½ in. standard, lath and board	Sq. ft	.0483	.0432
25/32 in. asphalt sheathing	Sq. ft	.078	.0702
Asbestos cement siding, 12 in. x 24 in. or 27 in. standard colors	100 sq. ft	8.19	7.72
Asbestos cement roofing shingles, economy cut	100 sq. ft	9.83	9.83
Standard density synthetic fibre board, ½ in. (4 x 8)	Sq. ft	.07½	.065
Hard density synthetic fibre board 1.8 in. tempered (standard size)	Sq. ft	.08	.07
Thermal insulation blankets (paper backed):			
Medium	Sq. ft	.041	.04
Thick	Sq. ft	.06	.053
Thermal insulation batts (paper backed):			
2 in. Thick	Sq. ft	.054	.045
Full-thick	Sq. ft	.05½	.05
Thermal insulation loose in bags:			
Plain	40-lb. bag	1.60	.80
Nodulated	40-lb. bag	1.20	1.08

Delivery: (1) The maximum prices listed in Table I, above, include free delivery.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-67 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[F. R. Doc. 46-17256; Filed, Sept. 24, 1946; 10:04 a. m.]

[Region III Order G-54 Under MPR 562]

STANDARD CONCRETE PIPE CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation No. 592 and the Emergency Price Control Act of 1942, as amended, it is hereby ordered:

(a) *What this order does.* This Order No. G-54 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of concrete pipe produced by the Standard Concrete Pipe Company of South Bend, Indiana, hereinafter referred to as the manufacturer. The maximum prices of the manufacturer and the maximum prices of the resellers of such commodity are adjusted herein.

(b) *Manufacturer's adjusted maximum prices.* The adjusted maximum prices for sales by the manufacturer of concrete pipe produced by it shall be its maximum prices in effect on June 13, 1946, to each class of purchaser, increased by 19%.

(c) *Reseller's adjusted maximum prices.* Any reseller of the commodity for which an adjustment is granted the manufacturer in (b) above may add to his maximum prices in effect on June 13, 1946, to each class of purchaser, the percentage amount of increase in his net invoiced cost resulting from the increase granted the manufacturer by this order.

(d) *Discounts, allowances and special charges.* All sellers of the subject commodity must continue to maintain discounts, allowances and other price differentials to each class of purchaser at least as favorable as those which were in effect on June 13, 1946, and are permitted to add to their maximum prices, as adjusted herein, such charges for extras as were customarily added on June 13, 1946.

(e) *Notification.* The manufacturer, at or prior to the first billing reflecting the adjustment herein granted, shall send to each purchaser who resells the commodities covered by this order, a notice of the price increases authorized by this order. Such notice shall contain substantially the following:

Order No. G-54 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of concrete pipe produced by the Standard Concrete Pipe Company. Resellers may add to their maximum prices in effect on June 13, 1946, to each class of purchaser the percentage amount of increase in their net invoiced cost resulting from the increase granted to the manufacturer by this order.

(f) *Revocation and amendment.* This order may be revoked or amended at any time by the Office of Price Administration.

This order shall become effective September 11, 1946.

Issued September 11, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G-54 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying Order No. G-54 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of the maximum prices of concrete pipe produced by the Standard Concrete Pipe Company of South Bend, Indiana (therein referred to as the manufacturer), and further provides for an adjustment of the maximum prices of resellers of such commodity.

Maximum Price Regulation No. 592 authorizes the Regional Administrator, upon application, to adjust the maximum prices of certain commodities, including concrete pipe, which are produced by a supplier whose supply of the commodities could not be replaced if the supplier discontinued production. Investigation has shown that the manufacturer is such a supplier.

The adjustment requested by the manufacturer is an over-all adjustment of its maximum prices of concrete pipe, by which, under the provisions of section 16 of Maximum Price Regulation No. 592, the Regional Administrator may authorize increases in the maximum prices of the manufacturer's commodity in an amount sufficient to permit the recovery of total costs plus a reasonable margin of profit.

Analysis of the financial data submitted by the manufacturer discloses that it is not realizing total costs plus a reasonable margin of profit. It is, therefore, concluded that an adjustment should be granted. It is considered that the adjustment granted, while constituting the minimum required, is sufficient to enable the manufacturer to maintain a continued supply of the subject commodity.

It has been determined that resellers of the subject commodity would be unable to absorb the increase granted to the manufacturer and, accordingly, it is provided in the order that any reseller may add to his maximum prices in effect on June 13, 1946, to each class of purchaser, the percentage amount of increase in his net invoiced cost resulting from the increases granted the manufacturer by such order.

The price increases established in the accompanying order are considered generally fair and equitable in accordance with the provisions of Maximum Price Regulation No. 592 and consistent with the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17251; Filed, Sept. 24, 1946; 8:58 a. m.]

[Region III, Order G-55 Under MPR 592]

INDEPENDENT CONCRETE PIPE CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation No. 592 and the Emergency Price Control Act of 1942, as amended, it is hereby ordered:

(a) *What this order does.* This Order No. G-55 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of concrete pipe produced by the Independent Concrete Pipe Company, Indianapolis, Indiana, hereinafter referred to as the manufacturer. The maximum prices of the manufacturer and the maximum prices of the resellers of such commodity are adjusted herein.

(b) *Manufacturer's adjusted maximum prices.* The adjusted maximum prices for sales by the manufacturer of concrete pipe produced by it shall be its maximum prices in effect on June 13, 1946, to each class of purchaser, increased by 4.5%.

(c) *Resellers' adjusted maximum prices.* Any reseller of the commodity for which an adjustment is granted the manufacturer in (b) above may add to his maximum prices in effect on June 13, 1946, to each class of purchaser, the percentage amount of increase in his net invoiced cost resulting from the increase granted the manufacturer by this order.

(d) *Discounts, allowances and special charges.* All sellers of the subject commodity must continue to maintain discounts, allowances and other price differentials, to each class of purchaser, at least as favorable as those which were in effect on June 13, 1946, and are permitted to add to their maximum prices, as adjusted herein, such charges for extras as were customarily added on June 13, 1946.

(e) *Notification.* The manufacturer, at or prior to the first billing reflecting

the adjustment herein granted, shall send to each purchaser who resells the commodity covered by this order, a notice of the price increases authorized by this order. Such notice shall contain substantially the following:

Order No. G–55 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of concrete pipe produced by the Independent Concrete Pipe Company. Resellers may add to their maximum prices in effect on June 13, 1946, to each class of purchaser the percentage amount of increase in their net invoiced cost resulting from the increase granted to the manufacturer by this order.

(f) *Revocation and amendment.* This order may be revoked or amended at any time by the Office of Price Administration.

This order shall become effective September 11, 1946.

Issued September 11, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G–55 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying Order No. G–55 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of the maximum prices of concrete pipe produced by the Independent Concrete Pipe Company of Indianapolis, Indiana (therein referred to as the manufacturer), and further provides for an adjustment of the maximum prices of resellers of such commodity.

Maximum Price Regulation No. 592 authorizes the Regional Administrator, upon application, to adjust the maximum prices of certain commodities, including concrete pipe, which are produced by a supplier whose supply of the commodities could not be replaced if the supplier discontinued production. Investigation has shown that the manufacturer is such a supplier.

The adjustment requested by the manufacturer is an over-all adjustment of its maximum prices of concrete pipe, by which, under the provisions of section 16 of Maximum Price Regulation No. 592, the Regional Administrator may authorize increases in the maximum prices of the manufacturer's commodity in an amount sufficient to permit the recovery of total costs plus a reasonable margin of profit.

Analysis of the financial data submitted by the manufacturer discloses that it is not realizing total costs plus a reasonable margin of profit. It is, therefore, concluded that an adjustment should be granted. It is considered that the adjustment granted, while constituting the minimum required, is sufficient to enable the manufacturer to maintain a continued supply of the subject commodity.

It has been determined that resellers of the subject commodity would be unable to absorb the increase granted to the manufacturer and, accordingly, it is provided in the order that any reseller may add to his maximum prices in effect on June 13, 1946, to each class of purchaser, the percentage amount of increase in his net invoiced cost resulting from the increases granted the manufacturer by such order.

The price increases established in the accompanying order are considered generally fair and equitable in accordance with the provisions of Maximum Price Regulation No. 592 and consistent with the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46–17252; Filed, Sept. 24, 1946; 8:59 a. m.]

[Region III, Order G–57 Under MPR 592]

BEREA TILE CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation No. 592 and the Emergency Price Control Act of 1942, as amended, it is hereby ordered:

(a) *What this order does.* This Order No. G–57 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of structural tile produced by the Berea Tile Company of Berea, Ohio, hereinafter referred to as the manufacturer. The maximum prices of the manufacturer and the maximum prices of the resellers of such commodity are adjusted herein.

(b) *Manufacturer's adjusted maximum prices.* The adjusted maximum prices for sales by the manufacturer of structural tile produced by it shall be its maximum prices in effect on August 29, 1946, to each class of purchaser, increased by $.225 per ton.

(c) *Resellers' adjusted maximum prices.* Any reseller of the commodity for which an adjustment is granted the manufacturer in (b) above may add to his maximum prices in effect on August 29, 1946, to each class of purchaser, the percentage amount of increase in his net invoiced cost resulting from the increase granted the manufacturer by this order provided that such reseller's maximum prices were not established under an area pricing order fixing specific maximum prices.

(d) *Discounts, allowances and special charges.* All sellers of the subject commodity must continue to maintain discounts, allowances and other price differentials to each class of purchaser at least as favorable as those which were in effect on August 29, 1946, and are permitted to add to their maximum prices, as adjusted herein, such charges for extras as were customarily added on August 29, 1946.

(e) *Notification.* The manufacturer, at or prior to the first billing reflecting the adjustment herein granted, shall send to each purchaser who resells the commodity covered by this order, a notice of the price increases authorized by this order. Such notice shall contain substantially the following:

Order No. G–57 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of structural tile produced by the Berea Tile Company. Resellers may add to their maximum prices in effect on August 29, 1946, to each class of purchaser, the percentage amount of increase in their net invoiced cost resulting from the increase granted to the manufacturer by this order: *Provided*, That such resellers' maximum prices were not established under an area pricing order fixing specific maximum prices.

(f) *Revocation and amendment.* This order may be revoked or amended at any time by the Office of Price Administration.

This order shall become effective September 11, 1946.

Issued September 11, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G–57 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying order No. G–57 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of the maximum prices of structural tile produced by the Berea Tile Company of Berea, Ohio, (therein referred to as the manufacturer) and further provides for an adjustment of the maximum prices of resellers of such commodity.

The facts in this case indicate that applicant has met the requirement of section 16 (b) (1) of Maximum Price Regulation No. 592. Under the circumstances applicant is eligible for relief within general limits set forth in section 16 (c) of the regulation. The latter section provides for various adjustments depending upon the applicant's over-all profitability. The Office of Price Administration in the interest of expedient action upon wage-price applications, has completed studies of this industry generally and is, in the instance of this and other similar applications, applying to individual applications determinations which generally accord with the tests set forth in section 16 (c) and are in conformance with the policy of the Office of Price Administration. The adjustment granted in the accompanying order will compensate the applicant only for the portion of the approved wage and/or salary increase which cannot be absorbed out of the adjustment of industry-wide applicability permitted under section 2.1 (k) of Order 1 under Maximum Price Regulation No. 592, originally issued by the Office of Price Administration National Office on September 18, 1945.

In accordance with the policy of the Office of Price Administration in individual cases where the proportion of an industry's total output affected by individual adjustments is relatively small, it is not considered feasible to make the test of absorption by resellers. Under the circumstances, it is considered appropriate to permit resellers of the subject commodity to increase their established maximum prices by the percentage amount of increase in their net invoiced costs resulting from the increase granted the manufacturer by such order. The accompanying order does not, however, permit resellers to increase their maximum prices where such prices are established under dollar-and-cents area pricing orders. In the latter case consideration will be given, by the appropriate issuing office, to the ability of resellers in each area to absorb the additional cost.

The price increases established in the accompanying order are considered generally fair and equitable in accordance with the provisions of Maximum Price Regulation No. 592 and consistent with the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46–17253; Filed, Sept. 24, 1946; 8:59 a. m.]

[Region VI Order G–3 Under Gen. Order 68, Amdt. 1]

CONCRETE MASONRY UNITS IN CHICAGO REGION

An opinion accompany this amendment has been issued simultaneously herewith. Regional Order No. G–3 under General Order No. 68 is amended in the following respect:

In Appendix A, *Manufacturers maximum prices on concrete masonry units*, Table V, line 12 is amended to read as follows:

Size (inches)	F. o. b. plant	Delivered
12 x 4 x 16	$228.00	$254.00

This Amendment No. 1 to Regional Order No. G–3 under General Order No. 68 shall become effective immediately.

Issued this 20th day of August 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO REGIONAL ORDER NO. G–3 UNDER GENERAL ORDER NO. 68

In line 12, Table V of Appendix A of Regional Order No. G–3 under General Order No. 68 issued on June 14, 1946, the delivered price of the 12" x 4" x 16" concrete block was incorrectly shown.

This present amendment is issued to make the correction. The price set forth does not exceed the general price level as fixed by the regulation which would otherwise be applicable.

The provision of this amendment to Regional Order No. G–3 under General Order No. 68 is deemed to be fair and equitable and in accordance with the provisions and purposes of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46–17160; Filed, Sept. 24, 1946; 8:55 a. m.]

[Twin Cities Rev. Order G–2 Under Gen. Order 68, Amdt. 2]

HARD BUILDING MATERIALS IN MINNEAPOLIS, MINN., AREA

For the reasons set forth in the accompanying opinion issued simultaneously herewith and pursuant to the provisions of General Order No. 68 and to the authority duly vested in the District Director of the Twin Cities District Office of the Office of Price Administration, *It is ordered:*

(a) Appendix A to Revised Order No. G–2 shall be amended to read as follows:

Commodity and unit	*Maximum price*
Plaster, hard wall, paper sack	$0.95
Plaster, moulding, paper sack	1.20
Plaster, gauging, White Star or similar (white), per ton	24.00
Plaster, gauging, Fort Dodge or similar (gray), per bag	.95
Keene's cement, paper sack	1.75
Portland cement, standard, cloth bag	.85
Portland, cement, white, paper sack	2.12½
Hi-Early cement, paper bag	.96¼
Finishing lime, paper sack	.65
Masonry mortar, cloth bag	.70
Metal lath, 2.5 lb., painted, diamond mesh, 26 gauge, sq. yd	.25
Metal lath, 3.4 lb., painted, diamond mesh, 24 gauge, sq. yd	.30
Metal lath, 3.4 lb., galvanized, 24 gauge, sq. yd	.34
Metal lath, 3.4 lb., copper bearing, sq. yd	.31
Metal lath, corner bead straight edges, per lin. ft	.037
Metal lath, expanded type, per lin. ft	.042
Mason's hydrated lime, 50 lb. paper sack	.40
Gypsum rock lath, 3/8", sq. yd	.23
Gypsum block-partitions, 3" hollow, sq. ft	.07
Gypsum block-partition, 4" hollow, sq. ft	.10
Clay drain tile, 4", lin. ft	.08
Clay drain tile, 6", lin. ft	.10
Vitrified clay sewer pipe, 4", lin. ft	.23
Vitrified clay sewer pipe, 6", lin. ft	.26
Flue lining, 8 x 8, lin. ft	.40
Flue lining, 8 x 12, lin. ft	.54
Flue lining, 12 x 12, lin. ft	.70
Hollow building tile, partition 4 x 12 x 12, per M	103.50
Hollow building tile, 5 x 8 x 12 load bearing, per M	103.50
Fire clay—paper bags, per bag	1.12

The above maximum prices are subject to all discounts, allowances, free deliveries or other price differentials in effect prior to the issuance of the order.

(b) This Amendment No. 2 to Revised Order No. G–2 under General Order No. 68 shall become effective June 22, 1946.

Issued this 20th day of June 1946.

CAREL C. KOCH,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO REVISED ORDER NO. G–2 UNDER GENERAL ORDER NO. 68

Pursuant to the provisions of General Order No. 68, under which authority Revised Order No. G–2 was issued, dollars and cents ceiling prices may be adjusted when such prices are no longer fair and equitable in the area covered by the order. On June 10, 1946, ceilings of manufacturers of metal lath and accessories were increased by a dollar and cent amount over their October 1, 1941 prices. Evidence submitted to this office by resellers of the items indicates that manufacturers have lawfully increased their maximum prices to such sellers. Consequently, the maximum prices set by the order are no longer fair and equitable and require adjustment which reflects such increased cost to the re-sellers. The accompanying amendment accomplishes that result.

[F. R. Doc. 46–17168; Filed, Sept. 24, 1946; 9:00 a. m.]

[Twin Cities Order G–5 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN CENTRAL MINNESOTA AREA

For the reasons set forth in the accompanying opinion issued simultaneously herewith, *It is ordered:*

1. The heading of Order No. 5 is hereby amended to read as set forth above.
2. The appendix is hereby amended to read as set forth below.
3. This amendment shall become effective July 31, 1946.
4. Issued this 29th day of July, 1946.

CAREL C. KOCH,
District Director.

APPENDIX

Commodity and unit	*Maximum prices*
Hardwall plaster, paper bag	$1.25
Plaster, gauging, paper bag	1.30
Plaster, moulding, paper bag	1.65
Keene's cement, 100-lb. paper bag	2.75
Finishing lime, 50-lb. paper bag	.85
Gypsum lath, 3/8", sq. ft	.03
Metal lath, 2.5 lb. pdm (26 ga), sq. yd	.31
Metal lath, 2.5 lb. galv. (26 ga), sq. yd	.36
Metal lath, 3.4 lb. pdm (24 ga), sq. yd	.38
Metal lath, 3.4 lb. galv. (24 ga), sq. yd	.42
Metal lath, corner bead, straight edge, lin. ft	.052
Portland cement, paper bag	.79
Masonry mortar, paper bag	.72
Mason's hydrated lime, 50-lb. paper bag	.65
Portland cement, white, paper bag	2.75
Fireclay, paper bag	2.00
Clay drain tile, 4", per ft	.06
Gypsum wallboard, 3/8", sq. ft	.045
Gypsum wallboard, 1/2", sq. ft	.05
Gypsum sheeting, 1/2", sq. ft	.045
Asphalt roofing, mineral surface, 90 lb. per roll	3.04
Asphalt or tarred felt, 15 lb., 442 sq. ft. roll, per roll	2.93
Asphalt or tarred felt, 30 lb., 216 sq. ft., per roll	2.93
Fibre insulation board, 1/2" std., lath and board, sq. ft	.055
Hard density synthetic fibre board, 1/8" tempered, std. size, sq. ft	.10
Thermal insulation blanket (paper backed) single (balsam wool), sq. ft	.05
Thermal insulation blanket (paper backed) medium (balsam wool), sq. ft	.055
Thermal insulation blanket (paper backed) thick (balsam wool), sq. ft	.07
Thermal insulation batts (paper backed) 2" thick, sq. ft	.05
Thermal insulation batts (paper backed) full, thick, sq. ft	.07
Thermal insulation (loose in bags) plain, 35 lb. bag	1.10

The above maximum prices are subject to all discounts, allowances, free deliveries or

other price differentials required to be maintained by the maximum price regulations covering the items listed above prior to the issuance of this order.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–5 UNDER GENERAL ORDER NO. 68

Pursuant to the provisions of General Order No. 68 under which authority Order No. 5 was issued, dollars and cents ceiling prices may be adjusted when such prices are no longer fair and equitable in the area covered by the order. On June 10, 1946, ceilings of manufacturers of metal lath and accessories were increased by a dollar and cent amount over their October 1, 1941 prices. Recently ceilings of manufacturers of asphalt roofing products were increased. Evidence submitted to this office by resellers of the items indicated that manufacturers have lawfully increased their maximum prices to such sellers. Although the amendment to Order No. 1 under Maximum Price Regulation 592 and that to Revised Price Schedule 45 permitted resellers to adjust their maximum prices by the actual dollars and cents amount by which their cost advanced by reason of the mentioned amendments, Order No. 5 under General Order No. 68 precludes such action. Consequently, the maximum prices set by the order are no longer fair and equitable and require adjustment which reflects such increased cost to the resellers. The accompanying amendment accomplishes that result.

Orders issued pursuant to general orders, such as General Order No. 68, are prefixed by the letter G. Inadvertently Order No. 5 failed to carry such designation. The accompanying amendment makes the necessary correction in the heading of the order.

[F. R. Doc. 46–17166; Filed, Sept. 24, 1946; 9:00 a. m.]

[Twin Cities Order G–6 Under Gen. Order 68]

HARD BUILDING MATERIALS IN WINONA, MINN., AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68 and to the authority duly vested in the District Director of the Twin Cities District Office of the Office of Price Administration, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales made by any seller, except the manufacturer, of commodities specified in Appendix A, attached hereto, delivered to the purchaser in the Winona, Minnesota Area. The Winona, Minnesota Area for the purpose of this order shall be and constitute the City of Winona, in the County of Winona, in the State of Minnesota.

SEC. 2. *Definitions*—(a) *Retail sales.* For the purpose of this order, a retail sale means a sale to an ultimate user, or to any contractor; provided that for the purpose of this order, a "retail sale" shall not include any sale to the United States Government or any of its political subdivisions.

(b) *Contractors.* Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

(c) *Applicators.* Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendix A. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the regulations applicable to the commodities listed in Appendix A prior to the issuance of this order shall continue to apply to sales covered by this order.

SEC. 4. *Maximum price, discounts and delivery practices.* On and after the date of this order, regardless of any contract, agreement or other obligation, no person covered by this order shall sell, offer to sell, or deliver at retail as herein defined, any of the items listed in Appendix A, attached hereto, at prices higher than the maximum prices set forth in this appendix. All prices are subject to all discounts, allowances, free deliveries, or other price differentials required to be maintained by the maximum price regulations covering the commodities listed in Appendix A prior to the issuance of this order.

SEC. 5. *Posting.* Every seller making sales covered by this order shall post a copy of the list of maximum prices for sales of the commodities contained in Appendix A of this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. In addition, he shall, if requested by any purchaser, make available to the purchaser for inspection his copy of this order including Appendix A containing the list of maximum prices. There is attached to this order for your convenience, two copies of its appendix containing the items covered with respective maximum prices applicable. One such copy of such list may be detached and used as a poster hereinbefore required to be posted.

SEC. 6. *Sales slips and records.* Every seller covered by this order must provide the purchaser, whether he requests it or not, with a sales slip, invoice, receipt, or other evidence of sale of which an exact and full copy shall be retained by the seller for the duration of the Emergency Price Control Act of 1942, as amended. The sales slip or other evidence of sale shall contain the following information with respect to items subject to this order.

1. Name and address of seller.
2. Date of sale.
3. Name and address of purchaser (necessary only on sales of items totaling $7.50 or more).
4. Description of the item sold, including quantity, grade, and any other matter insofar as any of these matters may effect the price, in full detail necessary to permit the exact calculation of the applicable maximum price.
5. Charge, if any, for delivery beyond the free delivery zone (to be separately listed from the price of the item).
6. The total price.

Each such seller shall also keep such records of each sale as he customarily kept.

SEC. 7. On and after the effective date of this order any person covered by this order who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions, of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended.

No person subject to this order may evade any of the provisions of the order by any stratagem, scheme, or device. No person subject to this order, may as a condition of selling any particular building material, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. *Appendix A.* Appendix A, Maximum Prices for Retail Sales of Hard Building Materials in the Winona, Minnesota Area, is attached hereto and made a part hereof.

This order may be modified, amended, or revoked at any time.

This order shall become effective July 29, 1946.

Issued this 26th day of July 1946.

CAREL C. KOCH,
District Director.

APPENDIX A

MAXIMUM DELIVERED OR F. O. B. YARD PRICES TO CONSUMERS AND CONTRACTORS

Item and unit	*Maximum prices*
Hardwall plaster, paper bag	$1 00
Plaster, gauging, paper bag	1 70
Keene's cement, 100 lb. bag	2 00
Finishing lime, 50 lb. paper bag	.70
Gypsum lath, $\frac{3}{8}$", per sq. yd	.26
Portland cement, paper bag	85
Portland cement, cloth bag	.90
Masonry mortar, paper bag	.75
Mason's hydrated lime, 50 lb. paper bag	.50
Portland cement, white, paper bag	2 25
Hi-Early cement, 50 lb. paper bag	1 00
Vitrified clay sewer pipe, 4", lin. ft	.205
Vitrified clay sewer pipe, 6", lin. ft	.37
Flue lining, 9" x 9", lin. ft	.53
Flue lining, 9" x 13", lin. ft	.72
Flue lining, 13" x 13", lin. ft	.95
Gypsum wall board, $\frac{3}{8}$", per. sq. ft	.045
Gypsum wall board, $\frac{1}{2}$", per. sq. ft	.05
Asphalt roofing, mineral surface, 90 lb. roll, per roll	3 04
Asphalt or tarred felt, 15 lb., 432 sq. ft., per roll	2 88
Asphalt or tarred felt, 30 lb., 216 sq. ft., per roll	2 88
Asphalt shingles, 210 lb. (3 in 1), thick butt, per 100 sq. ft	7 07

APPENDIX A—Continued

MAXIMUM DELIVERED OR F. O. B. YARD PRICES TO CONSUMERS AND CONTRACTORS—continued

Item and unit	*Maximum prices*
Asphalt shingles, 165 lb., 2-tax hex., per 100 sq. ft	$5.50
Fibre insulation board, $\frac{1}{2}$", lath and board, per sq. ft	.055
Fibre insulation board, $\frac{25}{32}$", asphalt sheathing, per sq. ft	.079
Asphalt cement siding—standard colors, 12" x 24" or 27", per sq. ft	.10
Hard density synthetic fibre board, $\frac{1}{8}$ lb., tempered (standard size), per sq. ft	.10
Thermal insulation batts, paper backed, 2" thick, per sq. ft	.055
Therman insulation batts, paper backed, full thick, per sq. ft	.08
Thermal insulation, plain, loose in bags, per bag	1.15

OPINION ACCOMPANYING ORDER NO. G–6 UNDER GENERAL ORDER NO. 68

General Order No. 68, issued by the Price Administrator, as amended by Amendment 3 effective January 30, 1946, authorizes each Regional Administrator of the Office of Price Administration and any District Director who may be authorized by the Regional Administrator to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area for sales by all persons of commodities under the jurisdiction of the Building Materials and Construction Price Branch.

Maximum prices for the commodities in question are, at the manufacturing level, established by specific regulations. Maximum prices for resellers are generally established under the General Maximum Price Regulation or on the basis of such prices. The General Maximum Price Regulation freezes the prices charged during March, 1942, and provides an alternative formula pricing method for items not sold during March, 1942. The techniques of freezing prices or pricing formulae create difficulties with respect to proper compliance and enforcement which can be eliminated through the use of specific dollar-and-cents prices. In view of the lack of uniformity in prices throughout the country for the same kind of building materials, it is not always possible or desirable to spell out uniform prices for the entire country at the distribution levels. Each District Director is best fitted to appraise the needs of the communities in his area and to take appropriate action. For this reason, it has been deemed advisable for the Regional Administrator to delegate to each District Director the authority to issue and put into effect orders establishing maximum prices for areas within the bounds of his district.

This Order No. G–6 under General Order No. 68 establishes dollar-and-cents prices at retail for the commodities specified in Appendix A of the order in the Winona, Minnesota Area. Such dollar-and-cents prices will facilitate proper pricing enabling both buyers and sellers to know specific maximum prices for the listed essential building materials. The maximum prices established by the order do not exceed the general level of prices established under the applicable regulations and have been set after full consultation with representative sellers in the area and consideration of their recommendations.

All provisions of this order and their effect upon business practices, cost practices or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46–17165; Filed, Sept. 24, 1946; 8:58 a. m.]

[Omaha Order G–12 Under Gen. Order 68]

HARD BUILDING MATERIALS IN NORTHWESTERN NEBRASKA AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68; it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales of commodities specified in Appendix A below made by any seller, except a manufacturer, delivered to the purchaser in the northwestern Nebraska Area. The Northwestern Nebraska Area, for the purposes of this order, consists of the following named counties in Nebraska: Sioux, Dawes, Box Butte, Sheridan, Cherry, Scottsbluff, Banner, Kimball, Morrill, Cheyenne, Garden, Deuel, Keyapaha, Brown, Rock.

SEC. 2. *Definitions.*—(a) *Retail sale.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to any contractor; *Provided*, That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political sub-divisions.

(b) *Contractor.* Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

(c) *Applicators.* Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendix A. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the regulation applicable to the commodities listed in Appendix A prior to the issuance of this order shall continue to apply to sales covered by this order.

SEC. 4. *Discounts, allowances and delivery practices.* The provisions relating to discounts, allowances and delivery practices shall be as set forth in Appendix A (Table of prices).

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Appendix A to this order (Table of prices) and any amendments thereto, in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. There is attached to this order for your convenience two copies of Appendix A containing the items covered with the respective maximum prices applicable. One such copy of such list may be detached and used as a poster hereinbefore required to be posted.

SEC. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order: *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

APPENDIX A

PROVISIONS REGARDING DISCOUNTS, ALLOWANCES AND DELIVERY PRACTICES

1. The ceiling prices set out below shall apply to sales at retail, by all sellers except manufacturers, of the listed building materials, delivered in the area covered by this order, regardless of whether the sale is on an "f. o. b. seller's premises" basis, commonly referred to as a "yard sale" or on a "delivered" basis; *provided, however*, That any seller who has an established and customary practice of making an additional charge for deliveries where the total amount of the order delivered is less than a certain minimum amount, either monetary or by weight, may add such established delivery charge to the prices otherwise established by this order where the total value or weight delivered is less than such established minimum amount; *And provided further*, That such seller shall indicate on the price list he is required to post under the provisions of this order, both his "established delivery charge" and also the "minimum amount" either monetary or by weight, to which delivery charges are applicable.

2. Each seller shall maintain his customary discounts and allowances, including cash discounts and quantity discounts to such classes of purchasers as were customarily given such discounts by the seller.

3. Any new seller who after the effective date of this order commences to sell commodities covered by the order shall adopt and use the customary discounts, allowances and applicable delivery additions of his "most closely competitive seller of the same class" as that phrase is defined in the GMPR. In such case the new seller shall keep in his place of business records showing the name and address of such competitor and the amount of such competitor's discounts, allowances and applicable delivery additions, if any, and shall otherwise observe the posting requirements of this order.

MAXIMUM DELIVERED OR F. O. B. YARD PRICES TO CONSUMERS AND CONTRACTORS

Item and unit	*Ceiling price*
Plaster, hard wall, 100-lb. bag	$1.20
Keene cement, 100-lb. bag	3.00
Metal lath:	
2.5 lb. copper bearing, per sq. yd	.38
2.5 lb. diamond mesh, per sq. yd	.38
Expanded corner bead, per lin. ft	.064
Scalloped corner bead, per lin. ft	.053
Corner right, 3 x 3, per lin. ft	.032
Gypsum lath, 3/8 inch, 1,000 sq. ft	31.50
Gypsum wall board, 1/4 inch, 1,000 sq. ft	40.00
Gypsum wall board, 3/8 inch, 1,000 sq. ft	49.00
Gypsum wall board, 1/2 inch, 1,000 sq. ft	55.00
Gypsum sheathing, 1/2 inch, 1,000 sq. ft	45.00
Portland cement in paper bags, 94-lb. bag	.915
Quick-Dry cement, 94-lb. bag	1.115
Masonry cement, 67-lb. bag	.865
Atlas or medusa grade cement, 94-lb. bag	3.015
Mortar mix, 50-lb. bag	.85
Finishing lime, 50-lb. bag	1.40
Masons hydrated lime, 50-lb. bag	1.01
Masons hydrated lime, 10-lb. bag	.28
Lump quick lime, 190-lb. bbl	4.76
Pulverized quick lime, 190-lb. bbl	5.15
Clay drain tile, 4 inch, per lin. ft	.10
Clay sewer pipe:	
Vitrified No. 1SS 4", per lin. ft	.283
Vitrified No. 1SS 6", per lin. ft	.396
Vitrified No. 1SS 8", per lin. ft	.566
Flue lining, 9 x 9, per lin. ft	.543
Flue lining, 9 x 13, per lin. ft	.792
Flue lining, 13 x 13, per lin. ft	.962
Asphalt roofing:	
Grade C label, 35 lbs., 100 sq. ft	1.73
Grade C label, 45 lbs., 100 sq. ft	2.36
Grade C label, 55 lbs., 100 sq. ft	2.84
Grade C label, 65 lbs., 100 sq. ft	3.36
90 lbs. mineral surface, 100 sq. ft	3.70
Asphalt or tarred felt, 15 lbs. per roll, 432 sq. ft	3.57
Asphalt or tarred felt, 30 lbs. per roll, 216 sq. ft	3.57
Asphalt shingles, 210 lbs., 100 sq. ft	7.77
Asphalt shingles, 165 lbs., 100 sq. ft	6.35
Fibre insulation board, 3/8 inch, 1,000 sq. ft	45.80
Fibre insulation board, 1/2 inch, 1,000 sq. ft	58.58
Fibre insulation board—Asphalt coated, 25/32", 1,000 sq. ft	91.00
Standard density—Synthetic fibre board, 1/8", 1,000 sq. ft	75.00
Hard density—Synthetic fibre board, 1/8", 1,000 sq. ft	100.00
Thermal insulation blankets:	
Balsam wood type, 1", 1,000 sq. ft	55.00
Balsam wood type 2", 1,000 sq. ft	70.00
Balsam wood type, 3 to 4", 1,000 sq. ft	75.00
Thermal insulation bays mica base, per bag (approximately 4 cu. ft.)	1.20

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No persons subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. This order may be modified, amended or revoked at any time.

This order shall become effective September 16, 1946.

Issued this 10th day of September 1946.

EDWIN F. MORAN,
District Director.

OPINIONS ACCOMPANYING ORDER NOS. G–12, G–13, G–14, ALL ISSUED UNDER GENERAL ORDER NO. 68

General Order No. 68, issued by the Price Administrator, as amended by Amendment 3 effective January 30, 1946, authorizes each Regional Administrator of the Office of Price Administration, and any District Director who may be authorized by the Regional Administrator, to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area, for sales by all persons of commodities under the jurisdiction of the Building Materials and Construction Price Branch. It was felt that the use of specific dollars-and-cents prices for the sale of building materials would be preferable to the "base period" pricing technique or the "pricing formulae" technique previously used and would lead to improved compliance with and enforcement of such orders and ceiling prices.

In view of the lack of uniformity in prices throughout the country for the same kinds of building materials, it is not always possible or desirable to spell out uniform prices for the entire country at the distributive levels. Each District Director is best fitted to appraise the needs of the community in his area and to take appropriate action. For this reason it has been deemed advisable for the Regional Administrator to delegate to each District Director the authority to issue and put into effect orders establishing maximum prices for areas within the bounds of this district.

The above Orders, G–12, G–13 and G–14 under General Order No. 68, establish dollars-and-cents prices at retail for the commodities listed in the appendices of such orders for sales in the Northwestern, Central and Southwestern Areas, respectively. These areas are more specifically described in the orders themselves. Such dollars-and-cents prices will facilitate proper pricing, enabling both buyers and sellers to know specific maximum prices for the listed essential building materials. The maximum prices established by the orders do not exceed the general level of prices established under the applicable regulations, and such prices reflect recent increases given to manufacturers of certain commodities by Amendments 44, 51, 53 and 54 to Order No. 1 under MPR 592, Amendment 17 to MPR 224 and Amendment 8 to RPS 45.

All provisions of this order and their effect upon business practices, cost practices or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17163; Filed, Sept. 24, 1946; 8:56 a. m.]

[Omaha Order G-13 Under Gen. Order 68]

HARD BUILDING MATERIALS IN CENTRAL NEBRASKA AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales of commodities specified in Appendix A below made by any seller, except a manufacturer, delivered to the purchaser in the Central Nebraska Area. The Central Nebraska Area, for the purposes of this order, consists of the following named counties in Nebraska: Grant, Hooker, Thomas, Arthur, McPherson, Logan, Keith, Lincoln, Perkins, Hall (except the City of Grand Island), Blaine, Loup, Garfield, Custer, Valley, Sherman, Dawson, Buffalo (except the City of Kearney).

SEC. 2. *Definitions.*—(a) *Retail sale.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to any contractor: *Provided*, That for the purposes of this order, a "retail Sale" shall not include any sale to the United States Government or any of its political subdivisions.

(b) *Contractor.* Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

(c) *Applicators.* Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendix A. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the regulation applicable to the commodities listed in Appendix A prior to the issuance of this order shall continue to apply to sales covered by this order.

SEC. 4. *Discounts, allowances and delivery practices.* The provisions relating to discounts, allowances and delivery practices shall be as set forth in Appendix A (Table of prices).

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Appendix A to this order (Table of prices) and any amendments thereto, in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. There is attached to this order for your convenience two copies of Appendix A containing the items covered with the respective maximum prices applicable. One such copy of such list may be detached and used as a poster hereinbefore required to be posted.

SEC. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name, and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No persons subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. This order may be modified, amended or revoked at any time.

This order shall become effective September 16, 1946.

Issued this 10th day of September 1946.

EDWIN F. MORAN,
District Director.

APPENDIX A

PROVISIONS REGARDING DISCOUNTS, ALLOWANCES AND DELIVERY PRACTICES

1. The ceiling prices set out below shall apply to sales at retail, by all sellers, except manufacturers, of the listed building materials, delivered in the area covered by this order, regardless of whether the sale is on an "f. o. b. seller's premises" basis, commonly referred to as a "yard sale" or on a "delivered" basis; *Provided, however*, That any seller who has an established and customary practice of making an additional charge for deliveries where the total amount of the order delivered is less than a certain minimum amount, either monetary or by weight, may add such established delivery charge to the prices otherwise established by this order where the total value or weight delivered is less than such established minimum amount; *And provided further*, That such seller shall indicate on the price list he is required to post under the provisions of this order, both his "established delivery charge" and also the "minimum amount, either monetary or by weight, to which delivery charges are applicable.

2. Each seller shall maintain his customary discounts and allowances, including cash discounts and quantity discounts to such classes of purchasers as were customarily given such discounts by the seller.

3. Any new seller who after the effective date of this order commences to sell commodities covered by the order shall adopt and use the customary discounts, allowances and applicable delivery additions of his "most closely competitive seller of the same class", as that phrase is defined in the GMPR. In such case the new seller shall keep in his place of business records showing the name and address of such competitor and the amount of such competitor's discounts, allowances and applicable delivery additions, if any, and shall otherwise observe the posting requirements of this order.

MAXIMUM DELIVERED OR F. O. B. YARD PRICES TO CONSUMERS AND CONTRACTORS

Item and unit	*Ceiling price*
Plaster, hard wall, 100-lb. bag	$1.20
Plaster, gauging, 100-lb. bag	1.40
Keene cement, 100-lb. bag	3.00
Finishing lime, 50-lb. bag	1.17

Standard density—Synthetic fibre board, 1/8", 1,000 sq. ft	75.00
Hard density—Synthetic fibre board, 1/8", 1,000 sq. ft	100.00
Thermal insulation blankets:	
Balsam wood type, 1", 1,000 sq. ft	55.00
Balsam wood type, 2", 1,000 sq. ft	70.00
Balsam wood type, 3 to 4", 1,000 sq. ft	78.00
Thermal insulation loose mica base, 1,000 sq. ft	1.20

OPINIONS ACCOMPANYING ORDER NOS. G–12, G–13, G–14, ALL ISSUED UNDER GENERAL ORDER NO. 68

General Order No. 68, issued by the Price Administrator, as amended by Amendment 3 effective January 30, 1946, authorizes each Regional Administrator of the Office of Price Administration, and any District Director who may be authorized by the Regional Administrator, to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area, for sales by all persons of commodities under the jurisdiction of the Building Materials and Construction Price Branch. It was felt that the use of specific dollars-and-cents prices for the sale of building materials would be preferable to the "base period" pricing technique or the "pricing formulae" technique previously used and would lead to improved compliance with and enforcement of such orders and ceiling prices.

In view of the lack of uniformity in prices throughout the country for the same kinds of building materials, it is not always possible or desirable to spell out uniform prices for the entire country at the distributive levels. Each District Director is best fitted to appraise the needs of the community in his area and to take appropriate action. For this reason it has been deemed advisable for the Regional Administrator to delegate to each District Director the authority to issue and put into effect orders establishing maximum prices for areas within the bounds of this district.

The above Orders, G–12, G–13 and G–14 under General Order No. 68, establish dollars-and-cents prices at retail for the commodities listed in the appendices of such orders for sales in the Northwestern, Central and Southwestern Areas, respectively. These areas are more specifically described in the orders themselves. Such dollars-and-cents prices will facilitate proper pricing, enabling both buyers and sellers to know specific maximum prices for the listed essential building materials. The maximum prices

established by the orders do not exceed the general level of prices established under the applicable regulations, and such prices reflect recent increases given to manufacturers of certain commodities by Amendments 44, 51, 53 and 54 to Order No. 1 under MPR 592, Amendment 17 to MPR 224 and Amendment 8 to RPS 45.

All provisions of this order and their effect upon business practices, cost practices or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

[Region VI, Order G-2 Under Rev. Gen. Order 65, Amdt. 1]

Softwood Lumber, Shingles and Hardwood Flooring in Chicago Region

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register, *It is ordered:*

This amendment specifically revokes in its entirety Regional Order G-2, including Appendices attached thereto, issued under the authority of Revised General Order 65 on June 3, 1946.

This Amendment 1 shall become effective immediately.

Issued this 24th day of August, 1946.

EARL W. CLARK,
Regional Administrator.

Opinion accompanying Amendment 1 to Regional Order G-2 under Revised General Order 65

In view of the tremendous number of softwood lumber, shingles, and hardwood flooring covered by the standard lists and the variance in these items from area to area, it was not possible for this office to calculate the percentage increases for individual items covered by Regional Order G-2 required under section 2 (t) of the Emergency Price Control Act of 1942, as amended, within the time limit required under this section. This amendment, accordingly, revokes in its entirety Regional Order G-2, including Appendices attached thereto, issued under the authority of Revised General Order 65 on June 3, 1946, until such time as the percentage increases required by section 2 (t) of the Emergency Price Control Act of 1942, as amended, can be calculated and converted into dollar-and-cents prices.

[F. R. Doc. 46-17158; Filed, Sept. 24, 1946; 8:55 a. m.]

[Omaha Order G-14 Under Gen. Order 68]

Hard Building Materials in Southwestern Nebraska Area

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68, *it is ordered:*

Section 1. *What this order covers.* This order covers all retail sales of commodities specified in Appendix A below made by any seller, except a manufacturer, delivered to the purchaser in the Southwestern Nebraska Area. The Southwestern Nebraska Area, for the purposes of this order, consists of the following named counties in Nebraska: Chase, Hayes, Frontier, Gosper, Phelps, Kearney, Adams (except the City of Hastings), Dundy Hitchcock, Red Willow, Furnas, Harlan, Franklin, Webster.

Sec. 2. *Definitions.*—(a) *Retail sale.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to any contractor; *Provided*, That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political sub-divisions.

(b) *Contractor.* Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

(c) *Applicators.* Purchases by applicators, as herein defined of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

Sec. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendix A. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the regulation applicable to the commodities listed in Appendix A prior to the issuance of this order shall continue to apply to sales covered by this order.

Sec. 4. *Discounts, allowances and delivery practices.* The provisions relating to discounts, allowances and delivery practices shall be as set forth in Appendix A (Table of prices).

Sec. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Appendix A to this order (Table of prices) and any amendments thereto, in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. There is attached to this order for your convenience two copies of Appendix A containing the items covered with the respective maximum prices applicable. One such copy of such list may be detached and used as a poster hereinbefore required to be posted.

Sec. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; provided that for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

Sec. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No persons subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order, may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

Sec. 8. This order may be modified, amended or revoked at any time.

This order shall become effective September 16, 1946.

Issued this 10th day of September 1946.

EDWIN F. MORAN,
District Director.

Appendix A

Provisions regarding discounts, allowances and delivery practices

1. The ceiling prices set out below shall apply to sales at retail, by all sellers except manufacturers, of the listed building materials, delivered in the area covered by this Order, regardless of whether the sale is on an "f. o. b. seller's premises" basis, commonly referred to as a "yard sale" or on a "delivered" basis; *Provided, however*, That any seller who has an established and customary practice of making an additional charge for deliveries where the actual amount of the order delivered is less than a certain minimum amount, either monetary or by weight, may add such established delivery charge to the prices otherwise established by this Order where the total value or weight delivered is less than such established minimum amount; *And provided further*, That such seller shall indicate on the price list he is required to post under the provisions of this Order, both his "established delivery charge" and also the "minimum amount", either monetary or by weight, to which delivery charges are applicable.

2. Each seller shall maintain his customary discounts and allowances, including cash discounts and quantity discounts to such classes of purchasers as were customarily given such discounts by the seller.

3. Any new seller who after the effective date of this Order commences to sell commodities covered by the Order shall adopt and use the customary discounts, allowances and applicable delivery additions of his "most closely competitive seller of the same class", as that phrase is defined in the GMPR. In such case the new seller shall keep in his place of business records showing the name and address of such competitor and the amount of such competitor's discounts, allowances and applicable delivery additions, if any, and shall otherwise observe the posting requirements of this Order.

Maximum delivered or f. o. b. yard prices to consumers and contractors

Item and unit	Ceiling price
Plaster, hard wall, 100-lb. bag	$1.10
Keene cement, 100-lb. bag	2.52
Finishing lime, 50-lb. bag	1.12
Metal lath:	
2.5 lb., copper bearing, per sq. yrd	.34
2.5 lb., diamond mesh, per sq. yd	.38

Balsam wood type 2", 1,000 sq. ft	75.00
Balsam wood type 3 to 4", 1,000 sq. ft	80.00
Thermal insulation, loose mica base, per bag (approximately 4 cu. ft.)	1.25

Opinions accompanying Orders Nos. G-12, G-13, G-14, all issued under General Order No. 68

General Order No. 68, issued by the Price Administrator, as amended by Amendment 3 effective January 30, 1946, authorizes each Regional Administrator of the Office of Price Administration, and any District Director who may be authorized by the Regional Administrator, to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area, for sales by all persons of commodities under the jurisdiction of the Building Materials and Construction Price Branch. It was felt that the use of specific dollars-and-cents prices for the sale of building materials would be preferable to the "base period" pricing technique or the "pricing formulae" technique previously used and would lead to improved compliance with and enforcement of such orders and ceiling prices.

In view of the lack of uniformity in prices throughout the country for the same kinds of building materials, it is not always possible or desirable to spell out uniform prices for the entire country at the distributive levels. Each District Director is best fitted to appraise the needs of the community in his area and to take appropriate action. For this reason it has been deemed advisable for the Regional Administrator to delegate to each District Director the authority to issue and put into effect orders establishing maximum prices for areas within the bounds of this district.

The above Orders, G-12, G-13 and G-14 under General Order No. 68, establish dollars-and-cents prices at retail for the commodities listed in the appendices of such orders for sales in the Northwestern, Central and Southwestern Areas, respectively. These areas are more specifically described in the orders themselves. Such dollars-and-cents prices will facilitate proper pricing, enabling both buyers and sellers to know specific maximum prices for the listed essential building materials. The maximum prices established by the orders do not exceed the general level of prices established under the applicable regulations, and such prices reflect recent increases given to manufacturers of certain commodities by Amendments 44, 51, 53 and 54 to Order No. 1 under MPR 592, Amendment 17 to MPR 224 and Amendment 8 to RPS 45.

All provisions of this order and their effect upon business practices, cost practices or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

[Twin Cities Order G-14 Under Gen. Order 68]

Hard Building Materials in North Central Minnesota Area

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to the provisions of General Order 68 and to the authority duly vested in the District Director of the Twin Cities District Office of the Office of Price Administration, it is ordered:

Section 1. *What this order covers.* This order covers all retail sales made by any seller, except the manufacturer, of commodities specified in Appendix A, attached hereto, delivered to the purchaser in the North Central Minnesota Area. The North Central Minnesota Area, for the purpose of this order, shall be and constitute the Counties of Beltrami, Crow Wing, Aitkin, Pine, Cass and Kanabec, all in the State of Minnesota.

Sec. 2. *Definitions*—(a) *Retail sales.* For the purpose of this order, a retail sale means a sale to an ultimate user, or to any contractor: *Provided that*, For the purpose of this order, a "retail sale" shall not include any sale to the United States Government or any of its political subdivisions.

(b) *Contractor.* Any person who sells materials or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

(c) *Applicators.* Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

Sec. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendix A. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the regulations applicable to the commodities listed in Appendix A prior to the issuance of this order shall continue to apply to sales covered by this order.

Sec. 4. *Maximum price, discounts and delivery practices.* On and after the date of this order, regardless of any contract, agreement or other obligation, no person covered by this order shall sell, offer to sell, or deliver at retail as herein defined, any of the items listed in Appendix

A, attached hereto, at prices higher than the maximum prices set forth in this appendix. All prices are subject to all discounts, allowances, free deliveries, or other price differentials required to be maintained by the maximum price regulations covering the commodities listed in Appendix A prior to the issuance of this order.

SEC. 5. *Posting.* Every seller making sales covered by this order shall post a copy of the list of maximum prices for sales of the commodities contained in Appendix A of this order in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. In addition, he shall, if requested by any purchaser, make available to the purchaser for inspection his copy of this order including Appendix A containing the list of maximum prices. There is attached to this order for your convenience, two copies of its appendix containing the items covered with respective maximum prices applicable. One such copy of such list may be detached and used as a poster hereinbefore required to be posted.

SEC. 6. *Sales slips and records.* Every seller covered by this order must provide the purchaser, whether he requests it or not, with a sales slip, invoice, receipt, or other evidence of sale of which an exact and full copy shall be retained by the seller for the duration of the Emergency Price Control Act of 1942, as amended. The sales slip or other evidence of sale shall contain the following information with respect to items subject to this order:

1. Name and address of seller.
2. Date of sale.
3. Name and address of purchaser (necessary only on sales of items totaling $7.50 or more).
4. Description of the item sold, including quantity, grade, and any other matter insofar as any of these matters may effect the price, in full detail necessary to permit the exact calculation of the applicable maximum price.
5. Charge, if any, for delivery beyond the free delivery zone (to be separately listed from the price of the item).
6. The total price.

Each such seller shall also keep such records of such sale as he customarily kept.

SEC. 7. On and after the effective date of this order any person covered by this order who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceeding and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended.

No person subject to this order may evade any of the provisions of the order by any stratagem, scheme, or device. No person subject to this order, may as a condition of selling any particular building material, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. *Appendix A.* Appendix A, Maximum Prices for Retail Sales of Hard Building Materials in the North Central, Minnesota Area, is attached hereto and made a part hereof.

This order may be modified, amended or revoked at any time. It shall become effective July 29, 1946.

Issued this 26th day of July 1946.

CAREL C. KOCH,
District Director.

APPENDIX A

MAXIMUM DELIVERED OR F. O. B. YARD PRICES TO CONSUMERS AND CONTRACTORS

Item and unit	*Maximum prices*
Cement plaster, unfibred (neat hardwall), per bag	$1.30
Cement plaster, wood fibre, per bag	1.28
White trowel finish plaster, per bag	2.00
Moulding plaster, gray, per bag	1.60
Gauging plaster, gray, per bag	1.80
Keene's cement, per bag	2.75
Finishing lime, per 50-lb. sack	.80
Mason's hydrated lime, 50 lb. sack	.70
Plaster lath, 3/8" thick (rock lath), per M. ft	30.00
Wallboard gypsum, 1/4", per M. ft	35.00
Wallboard gypsum, 3/8", per M. ft	45.00
Wallboard gypsum, 1/2", per M. ft	50.00
Portland cement, paper, per bag	.82
Portland waterproof cement, white paper, 94 lb. bag	2.75
Masonry cement, paper bags, cu. ft. bag	.70
2.5 lb. painted diamond mesh, copper bearing metal, sq. yd	.32
3.4 lb. painted diamond mesh, copper bearing metal, sq. yd	.38
3.4 lb. galvanized diamond mesh, sq. yd	.42
Expanded wide flange corner bead, lin. ft	.052
3" corner rite, copper bearing, painted, lin. ft	.032
Vitrified clay sewer pipe, No. 1 standard, single strength 4", per lin. ft	.25
Vitrified clay sewer pipe, No. 1 standard, single strength 6", per lin. ft	.36
Vitrified clay sewer pipe, No. 1 standard, single strength 8", per lin. ft	.50
Vitrified clay sewer pipe, No. 1 standard, single strength 10", per lin. ft	.67
Sewer pipe fittings, curves and elbows 4", each	1.06
Sewer pipe fittings, R. P. and H. H. traps 4", each	1.06
Sewer pipe fittings, increasers and reducers—4", each	1.06
Sewer pipe fittings, curves and elbows 6", each	1.45
Sewer pipe fittings, Y's or T's—6 x 4" and 6 x 6", each	1.45
Sewer pipe fittings, increasers and reducers—6", each	1.53
Sewer pipe curves and elbows—8", each	2.25
Sewer pipe fittings, Y's or T's—8 x 4" and 8 x 6", each	2.25
Sewer pipe fittings, increasers and reducers—8", each	2.25
Fire clay flue lining, outside dimensions, 8 1/2 x 3 1/2", lin. ft	.47
Fire clay flue lining, outside dimensions, 8 1/2 x 13", lin. ft	.70
Fire clay flue lining, outside dimensions, 13 x 13", lin. ft	.87
Clay drain tile 4", surface clay, per ft	.07
Clay drain tile 6", surface clay, per ft	.12
Clay drain tile 8", surface clay, per ft	.20

APPENDIX A—Continued

MAXIMUM DELIVERED OR F. O. B. YARD PRICES TO CONSUMERS AND CONTRACTORS—Continued

Item and unit	*Maximum prices*
Fibre insulation standard lath and board—1/2", 1,000 sq. ft	$50.00
Fibre insulation asphalt treated sheathing—25/32", 1,000 sq. ft	67.25
Fibre insulation tile board, 12 x 12" and 16 x 16"—1/2", 1,000 sq. ft	68.00
Fibre insulation tile board, 16 x 32—1/2", 1,000 sq. ft	64.00
Fibre insulation board—plank 1/2", 1,000 sq. ft	65.00
Wallboard adhesive, per gallon	1.90
Hardboard—untempered—1/8", 1,000 sq. ft	80.00
Hardboard—untempered—3/16", 1,000 sq. ft	100.00
Hardboard—tempered—1/8", 1,000 sq. ft	100.00
Hardboard—tempered—7/16", 1,000 sq. ft	120.00
Asphalt roofing, smooth—35 lb., w/nails, and cement, class C label, per roll	1.41
Asphalt roofing, smooth—45 lb., w/nails, and cement, class C label, per roll	1.77
Asphalt roofing, smooth—55 lb., w/nails, and cement, class C label, per roll	2.18
Asphalt roofing, mineral—75 lb., w/nails, and cement, class C label, per roll	2.72
Asphalt roofing, mineral surface—90 lb., w/nails, and cement, class C label, per roll	3.04
Asphalt mineral surfaced, split roll, diamond point, block edge, shadow or similar roofing (class C label), 105 lb.—110 lb., per roll	3.66
Asphalt or tarred felt—15 lb., per roll	2.93
Asphalt or tarred felt—30 lb., per roll	2.93
Deadening felt—1 lb., per roll	3.40
Deadening felt—1 1/2 lb., per roll	5.20
Asphalt roof coating—5 gal. pail, per gallon	.50
Plastic cement—5 lb. can, per can	.47
Plastic cement—10 lb. can, per can	.80
Asphalt shingles, 210 lb., thick butt (3 in 1), standard quality, per sq	6.82
Asphalt shingles, 165 lb., hexagon, 2 or 3 tab., standard quality, per sq	5.65
Asphestos cement siding, 12 x 24 or 27, standard colors, per sq	10.78
Asphalt roll brick siding, per sq	4.19
Asphalt roll brick soldier course, 10 x 36", per roll	4.00
Medium blanket type insulation 1,000 sq. ft	50.00
Thick blanket type insulation, 1,000 sq. ft	74.00
Loose mineral wool, nodulated or granulated, per bag	1.10

OPINION ACCOMPANYING ORDER NO. G-14 UNDER GENERAL ORDER NO. 68

General Order No. 68, issued by the Price Administrator, as amended by Amendment 3 effective January 30, 1946, authorizes each Regional Administrator of the Office of Price Administration and any District Director who may be authorized by the Regional Administrator to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area for, sales by all persons of commodities under the jurisdiction of the Building Materials and Construction Price Branch.

Maximum prices for the commodities in question are, at the manufacturing level, established by specific regulations. Maximum prices for resellers are generally established under the General Maximum Price Regulation or on the basis of such prices. The General Maximum Price Regulation freezes the prices charged during March 1942 and provides an alternative formula pricing method for items not sold during March 1942. The techniques of freezing prices or pricing formulae create difficulties with respect to proper compliance and enforcement which can be eliminated through the use of specific dollar-and-cents prices. In view of the lack of uniformity in prices throughout the country for the same kind of building materials, it is not always possible or desirable to spell out uniform prices for the entire country at the distribution levels. Each District Director is best fitted to appraise the needs of the communities in his area and to take appropriate action. For this reason, it has been deemed advisable for the Regional Administrator to delegate to each District Director the authority to issue and put into effect orders establishing maximum prices for areas within the bounds of his district.

This Order No. G-14 under General Order No. 68 establishees dollar-and-cents prices at retail for the commodities specified in Appendix A of the order in the North Central Minnesota Area. Such dollar-and-cents prices will facilitate proper pricing enabling both buyers and sellers to know specific maximum prices for the listed essential building materials. The maximum prices established by the order do not exceed the general level of prices established under the applicable regulations and have been set after full consultation with representative sellers in the area and consideration of their recommendations.

All provisions of this order and their effect upon business practices, cost practices or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17164; Filed, Sept. 24, 1946; 8:58 a. m.]

[Omaha Order G-15 Under Gen. Order 68]

HARD BUILDING MATERIALS IN KEARNEY, NEBR., AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales of commodities specified in Appendix A below made by any seller, except a manufacturer, delivered to the purchaser in the Kearney, Nebraska, Area. The Kearney, Nebraska, Area, for the purposes of this order, consists of the incorporated limits of the City of Kearney, Nebraska.

SEC. 2. *Definitions.*—(a) *Retail sale.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to any contractor; *Provided* That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political subdivisions.

(b) *Contractor.* Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

(c) *Applicators.* Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendix A. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the regulation applicable to the commodities listed in Appendix A prior to the issuance of this order shall continue to apply to sales covered by this order.

SEC. 4. *Discounts, allowances and delivery practices.* The provisions relating to discounts, allowances and delivery practices shall be as set forth in Appendix A (Table of prices).

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Appendix A to this order (Table of prices) and any amendments thereto, in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. There is attached to this order for your convenience two copies of Appendix A containing the items covered with the respective maximum prices applicable. One such copy of such list may be detached and used as a poster hereinbefore required to be posted.

SEC. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Place of delivery.
(3) Date of transaction.
(4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No persons subject to this order may evade any of the provisions of the order by any stratagem, scheme, or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. This order may be modified, amended or revoked at any time. This order shall become effective September 16, 1946.

Issued this 10th day of September 1946.

EDWIN F. MORAN,
District Director.

APPENDIX A

PROVISIONS REGARDING DISCOUNTS, ALLOWANCES AND DELIVERY PRACTICES

1. The ceiling prices set out below shall apply to sales at retail by all sellers except manufacturers, of the listed building materials, delivered in the area covered by this order, regardless of whether the sale is on an "f. o. b. seller's premises" basis, commonly referred to as a "yard sale" or on a "delivered" basis: *Provided, however*, That any seller who has an established and customary practice of making an additional charge for deliveries where the total amount of the order delivered is less than a certain minimum amount, either monetary or by weight, may add such established delivery charge to the prices otherwise established by this order where the total value or weight delivered is less than such established minimum amount; *And Provided further*, That such seller shall indicate on the price list he is required to post under the provisions of this order, both his "established delivery charge" and also the "minimum amount", either monetary or by weight, to which delivery charges are applicable.

2. Each seller shall maintain his customary discounts and allowances including cash discounts and quantity discounts to such classes of purchasers as were customarily given such discounts by the seller.

3. Any new seller who after the effective date of this order commences to sell commodities covered by the order shall adopt and use the customary discounts, allowances and applicable delivery additions of his "most closely competitive seller of the same class", as that phrase is defined in the GMPR. In such case the new seller shall keep in his place of business records showing the name and address of such competitor and the amount of such competitor's discounts, allowances and applicable delivery

additions, if any, and shall otherwise observe the posting requirements of this order.

MAXIMUM DELIVERED OR F. O. B. YARD PRICES TO CONSUMERS AND CONTRACTORS

Item and unit	*Ceiling price*
Plaster, hard wall, 100-lb. bag	$1.10

OPINION ACCOMPANYING ORDER NO. G–15
OPINION ACCOMPANYING ORDER NO. G–16
OPINION ACCOMPANYING ORDER NO. G–17
ALL ISSUED UNDER GENERAL ORDER NO. 68

On June 24, 1946 this office issued Orders 9, 10 and 11, under General Order No. 68 establishing maximum prices for retail sales of hard building materials in the Kearney, Grand Island and Hastings, Nebraska Areas, respectively. These orders were issued for the reasons set forth in an opinion issued simultaneously therewith and filed with the Division of the Federal Register, which opinions are herewith adopted and incorporated herein. Each of the orders referred to were to become effective on July 1, 1946, as was also Amendment No. 1 to each of such orders issued on June 28, 1946. Before the above orders, and amendments became effective, the Emergency Price Control Act of 1942, as amended, and all regulations and orders issued thereunder terminated as of midnight June 30, 1946, as specifically provided in the act itself, by reason of President Truman's veto of the first act to extend OPA which was passed by Congress. The "Price Control Extension Act of 1946" was not finally enacted until July 25, 1946, and therefore during the interim period July 1 to July 25, 1946 there was no authority to control prices. Section 18 of the "Price Control Extension Act of 1946" provides that all regulations, orders, price schedules and requirements under the Emergency Price Control Act of 1942 and Stabilization Act of 1942, as amended which were in effect on June 30, 1946, shall be in effect in the same manner and to the same extent as if the extension act had been enacted on June 30, 1946. This provision had the effect of reviving or revitalizing all OPA regulations, orders, etc. which were "in effect" on June 30, 1946. Since Orders 9, 10 and 11, as previously stated, were not "in effect" on June 30, 1946, they were not affected by the above quoted provision of the new act and hence never became effective.

After due consideration it has been deemed advisable and expedient to issue new pricing orders for the areas covered by Orders 9, 10 and 11 rather than to amend the effective date of those orders and to issue new appendixes (Tables of prices) for them. It was felt that less confusion would result to resellers by issuing new orders.

Today's orders, issued under General Order No. 68, effective September 16, 1946, establish maximum prices for retail sales of hard building materials in the Kearney, Grand Island and Hastings, Nebraska Areas, respectively, and to that extent, supersede and replace Orders 9, 10 and 11, which, though legally issued, were never effective for the reasons stated above.

The maximum prices established by today's orders do not exceed the general level of prices established under applicable regulations. In addition, the prices so established reflect recent increases to manufacturers of certain commodities by amendments 44, 51, 53 and 54 to Order No. 1 under MPR 592, amendment 17 to MPR 224 and amendment 8 to RPS 45.

All provisions of this order and their effect upon business practices, cost practices, or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46–17162; Filed, Sept. 24, 1946; 8:56 a. m.]

[Omaha Order G–16 Under Gen. Order 68]

HARD BUILDING MATERIALS IN GRAND ISLAND, NEBR., AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales of commodities specified in Appendix A below made by any seller, except a manufacturer, delivered to the purchaser in the Grand Island, Nebraska Area. The Grand Island, Nebraska Area, for the purposes of this order, consists of the incorporated limits of the City of Grand Island, Nebraska.

SEC. 2. *Definitions.*—(a) *Retail sale.* For the purposes of this order a retail sale means a sale to an ultimate user, or to any contractor; *Provided*, That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political subdivisions.

(b) *Contractor.* Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

(c) *Applicator.* Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

SEC. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendix A. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the regulation applicable to the commodities listed in Appendix A prior to the issuance of this order shall continue to apply to sales covered by this order.

SEC. 4. *Discounts, allowances and delivery practices.* The provisions relating to discounts, allowances and delivery practices shall be as set forth in Appendix A (Table of prices).

SEC. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Appendix A to this order (Table of prices) and any amendments thereto, in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. There is attached to this order for your convenience two copies of Appendix A containing the items covered with the respective maximum prices applicable. One such copy of such list may be detached and used as a poster hereinbefore required to be posted.

SEC. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt, or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order: *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

SEC. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No persons subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

SEC. 8. This order may be modified, amended or revoked at any time. This order shall become effective September 16, 1946.

Issued this 10th day of September 1946.

EDWIN F. MORAN,
District Director.

APPENDIX A

PROVISIONS REGARDING DISCOUNTS, ALLOWANCES AND DELIVERY PRICES

1. The ceiling prices set out below shall apply to sales at retail by all sellers except manufacturers, of the listed building materials, delivered in the area covered by this order, regardless of whether the sale is on an "f. o. b. seller's premises" basis, commonly referred to as a "yard sale" or on a "delivered" basis. *Provided, however*, That any seller who has an established and customary practice of making an additional charge for deliveries where the total amount of the order delivered is less than a certain minimum amount, either monetary or by weight, may add such established delivery charge to the prices otherwise established by this order where the total value or weight delivered is less than such established minimum amount: *And provided further* That such seller shall indicate on the price list he is required to post under the provisions of this order, both his "established delivery charge" and also the "minimum amount", either monetary or by weight, to which delivery charges are applicable.

2. Each seller shall maintain his customary discounts and allowances, including cash discounts and quantity discounts to such classes of purchasers as were customarily given such discounts by the seller.

3. Any new seller who after the effective date of this order commences to sell commodities covered by the order shall adopt and use the customary discounts, allowances and applicable delivery additions of his "most closely competitive seller of the same class", as that phrase is defined in the GMPR. In such case the new seller shall keep in his place of business records showing the name and address of such competitor and the amount of such competitor's discounts, allowances and applicable delivery additions, if any, and shall otherwise observe the posting requirements of this order.

Thermal insulation blankets:	
Wood base single thickness, 1,000 sq. ft	47.00
Wood base medium thickness, 1,000 sq. ft	64.00
Thermal insulation loose in bags (granulated), bag, 4 cu. ft	1.20

[1] In addition to the above price, the reseller may charge a reasonable deposit for cloth bag, subject to refund when the bag is returned.

OPINIONS ACCOMPANYING ORDERS NOS. G–15, G–16, G–17, ALL ISSUED UNDER GENERAL ORDER NO. 68

On June 24, 1946 this office issued Orders 9, 10, 11, under General Order No. 68 establishing maximum prices for retail sales of hard building materials in the Kearney, Grand Island and Hastings, Nebraska Areas, respectively. These orders were issued for the reasons set forth in an opinion issued simultaneously therewith and filed with the Division of the Federal Register, which opinions are herewith adopted and incorporated herein. Each of the orders referred to were to become effective on July 1, 1946, as was also Amendment No. 1 to each of such orders issued on June 28, 1946. Before the above orders and amendments became effective, the Emergency Price Control Act of 1942, as amended, and all regulations and orders issued thereunder terminated as of midnight June 30, 1946, as specifically provided in the act itself, by reason of President Truman's vote of the first act to extend OPA which was passed by Congress. The "Price Control Extension Act of 1946" was not finally enacted until July 25, 1946, and therefore during the interim period July 1 to July 25, 1946 there was no authority to control prices. Section 18 of the "Price Control Extension Act of 1946" provides that all regulations, orders, price schedules and requirements under the Emergency Price Control Act of 1942 and Stabilization Act of 1942, as amended, which were in effect on June 30, 1946, shall be in effect in the same manner and to the same extent as if the extension act had been enacted on June 30, 1946. This provision had the effect of reviving or revitalizing all OPA regulations, orders, etc., which were "in effect" on June 30, 1946. Since Orders 9, 10 and 11, as previously stated, were not "in effect" on June 30, 1946, they were not affected by the above quoted provision of the new act and hence never became effective.

After due consideration it has been deemed advisable and expedient to issue new pricing orders for the areas covered by Orders 9, 10 and 11 rather than to amend the effective date of those orders and to issue new appendices (Tables of prices) for them. It was felt that less confusion would result to resellers by issuing new orders.

Today's orders, issued under General Order No. 68, effective September 16, 1946, establish maximum prices for retail sales of hard building materials in the Kearney, Grand Island and Hastings, Nebraska Areas, respectively, and to that extent, supersede and replace Orders 9, 10 and 11, which, though legally issued, were never effective for the reasons stated above.

The maximum prices established by today's orders do not exceed the general level of prices established under applicable regulations. In addition, the prices so established reflect recent increases to manufacturers of certain commodities by Amendments 44, 51, 53 and 54 to Order No. 1 under MPR 592, Amendment 17 to MPR 224 and Amendment 8 to RPS 45.

All provisions of this order and their effect upon business practices, cost practices, or methods, or means or aids to distribution in the industry or industries

affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17161; Filed, Sept. 24, 1946; 8:55 a. m.]

[Omaha Order G-17 Under Gen. Order 68]

Hard Building Materials in Hastings, Nebr., Area

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 69, it is ordered:

Section 1. *What this order covers.* This order covers all retail sales of commodities specified in Appendix A below made by any seller, except a manufacturer delivered to the purchaser in the Hastings, Nebraska Area. The Hastings, Nebraska Area, for the purposes of this order, consists of the incorporated limits of the City of Hastings, Nebraska.

Sec. 2. *Definitions*—(a) *Retail sale.* For the purpose of this order, a retail sale means a sale to an ultimate user, or to any contractor: *Provided*, That for the purposes of this order, a "retail sale" shall not include any sale to the United States Government or any of its political subdivisions.

(b) *Contractor.* Any person who sells material or equipment, and in connection therewith, assumes responsibility for its incorporation into a building, structure, or construction project at a fixed site, by charging a single price for the commodity installed, by guaranteeing performance and use, or by other objective evidence, shall be considered a contractor.

(c) *Applicators.* Purchases by applicators, as herein defined, of asphalt and tarred roofing products and insulation are excluded from the coverage of this order. Applicators are herein defined as contractors engaged exclusively in the business of applying roofing and/or siding and/or insulation to buildings.

Sec. 3. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order covering the commodities specified in Appendix A. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the regulation applicable to the commodities listed in Appendix A prior to the issuance of this order shall continue to apply to sales covered by this order,

Sec. 4. *Discounts, allowances and delivery practices.* The provisions relating to discounts, allowances and delivery practices shall be as set forth in Appendix A (Table of prices).

Sec. 5. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of Appendix A to this order (Table of prices) and any amendments thereto, in each of his places of business in the area covered by this order in a manner plainly visible to all purchasers. There is attached to this order for your convenience two copies of Appendix A containing the items covered with the respective maximum prices applicable. One such copy of such list may be detached and used as a poster hereinbefore required to be posted.

Sec. 6. *Sales slips and records.* Every seller covered by this order shall give to the purchaser a sales slip, receipt or other evidence of purchase which shall show the date, name and address of the seller, the description, quantity, and the price of each item sold, said description to be in detail sufficient to determine whether the price charged has been properly computed under this order; *Provided*, That for sales of less than a total of $7.50 only the name and address of the seller and the amount of the sale need be shown. The seller shall prepare such sales slips, receipts, or other evidence of purchase in duplicate and must keep for at least 6 months after delivery such duplicate copy delivered pursuant to this section. For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

Sec. 7. On and after the effective date of this order, any person covered by this order, who sells or offers to sell at a price higher than the ceiling price permitted by this order, or otherwise violates any of the provisions of this order, shall be subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages as provided for by the Emergency Price Control Act of 1942, as amended. No persons subject to this order may evade any of the provisions of the order by any stratagem, scheme or device. No person subject to this order may, as a condition of selling any particular building material item, require a customer to buy anything else. Any such evasion is punishable as a violation of this order.

Sec. 8. This order may be modified, amended or revoked at any time.

This order shall become effective September 16, 1946.

Issued this 10th day of September 1946.

Edwin F. Moran,
District Director.

Appendix A

PROVISIONS REGARDING DISCOUNTS, ALLOWANCES AND DELIVERY PRACTICES

1. The ceiling prices set out below shall apply to sales at retail by all sellers except manufacturers, of the listed building materials, delivered in the area covered by this order, regardless of whether the sale is on an "f. o. b. seller's premises" basis, commonly referred to as a "yard sale" or on a "delivered" basis; *Provided, however*, That any seller who has an established and customary practice of making an additional charge for deliveries where the total amount of the order delivered is less than a certain minimum amount, either monetary or by weight, may add such established delivery charge to the prices otherwise established by this order where the total value or weight delivered is less than such established minimum amount, and; *Provided further*, That such seller shall indicate on the price list he is required to post under the provisions of this order, both his "established delivery charge" and also the "minimum amount", either monetary or by weight to which delivery charges are applicable.

2. Each seller shall maintain his customary discounts and allowances, including cash discounts and quantity discounts to such classes of purchasers as were customarily given such discounts by the seller.

3. Any new seller who after the effective date of this order commences to sell commodities covered by the order shall adopt and use the customary discounts, allowances and applicable delivery additions of his "most closely competitive seller of the same class", as that phrase is defined in the GMPR. In such case the new seller shall keep in his place of business records showing the name and address of such competitor and the amount of such competitor's discounts, allowances and applicable delivery additions, if any, and shall otherwise observe the posting requirements of this order.

MAXIMUM DELIVERED OR F. O. B. YARD PRICES TO CONSUMERS AND CONTRACTORS

Item and unit	*Ceiling price*
Plaster, hard wall, 100-lb. bag	$1.00
Plaster, gauging, 100-lb. bag	1.25
Plaster, moulding, 100-lb. bag	1.75

OPINION ACCOMPANYING ORDER NO. G-15
OPINION ACCOMPANYING ORDER NO. G-16
OPINION ACCOMPANYING ORDER NO. G-17
ALL ISSUED UNDER GENERAL ORDER NO. 68

On June 24, 1946 this office issued Orders 9, 10 and 11, under General Order No. 68 establishing maximum prices for retail sales of hard building materials in the Kearney, Grand Island and Hastings, Nebraska Areas, respectively. These orders were issued for the reasons set forth in an opinion issued simultaneously therewith and filed with the Division of the Federal Register, which opinions are herewith adopted and incorporated herein. Each of the orders referred to were to become effective on July 1, 1946, as was also Amendment No. 1 to each of such orders issued on June 28, 1946. Before the above orders and amendments became effective, the Emergency Price Control Act of 1942, as amended, and all regulations and orders issued thereunder terminated as of midnight June 30, 1946, as specifically provided in the act itself, by reason of President Truman's veto of the first act to extend OPA which was passed by Congress. The "Price Control Extension Act of 1946" was not finally enacted until July 25, 1946, and therefore during the interim period July 1 to July 25, 1946 there was no authority to control prices. Section 18 of the "Price Control Extension Act of 1946" provides that all regulations, orders, price schedules and requirements under the Emergency Price Control Act of 1942 and Stabilization Act of 1942, as amended, which were in effect on June 30, 1946, shall be in effect in the same manner and to the same extent as if the extension act had been enacted on June 30, 1946. This provision had the effect of reviving or revitalizing all OPA regulations, orders, etc. which were "in effect" on June 30, 1946. Since Orders 9, 10 and 11, as previously stated, were not "in effect" on June 30, 1946, they were not affected by the above quoted provision of the new Act and hence never became effective.

After due consideration it has been deemed advisable and expedient to issue new pricing orders for the areas covered by Orders 9, 10 and 11 rather than to amend the effective date of those orders and to issue new appendices (Tables of prices) for them. It was felt that less confusion would result to resellers by issuing new orders.

Today's orders, issued under General Order No. 68, effective September 16, 1946, establish maximum prices for retail sales of hard building materials in the Kearney, Grand Island and Hastings, Nebraska, areas, respectively, and to that extent, supersede and replace Orders 9, 10 and 11, which, though legally issued, were never effective for the reasons stated above.

The maximum prices established by today's orders do not exceed the general level of prices established under applicable regulations. In addition, the prices so established reflect recent increases to manufacturers of certain commodities by Amendments 44, 51, 53 and 54 to Order No. 1 under MPR 592, Amendment 17 to MPA 224 and Amendment 8 to RPS 45.

All provisions of this order and their effect upon business practices, cost practices, or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17178; Filed, Sept. 24, 1946; 9:08 a. m.]

[Region VI Order G-1 Under Gen. Order 68, Amdt. 2]

Specified Stock Millwork in Chicago Region

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register. *It is ordered:*

This amendment specifically revokes in their entirety Regional Order G-1, including appendices attached thereto, and Amendment 1 to Regional Order G-1 issued under the authority of General Order 68 on March 5, 1946, and May 9, 1946, respectively.

This amendment shall become effective immediately.

Issued this 24th day of August 1946.

Earl W. Clark,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT 2 TO REGIONAL ORDER G-1 UNDER GENERAL ORDER 68

In view of the tremendous number of stock millwork items covered by the standard lists and the variance in stock millwork items, it was not possible for this office to calculate the percentage increases for individual millwork items required under section 2 (t) of the Emergency Price Control Act of 1942, as amended, within the time limit required under this section. This amendment, accordingly, revokes in their entirety Regional Order G-1, including appendices attached thereto, and Amendment 1 to Regional Order G-1 issued under the authority of General Order 68 on March 1, 1946, and May 9, 1946, respectively, until such time as the percentage increases required by section 2 (t) of the Emergency Price Control Act of 1942, as amended, can be calculated and converted into dollars-and-cents prices.

[F. R. Doc. 46-17159; Filed, Sept. 24, 1946; 8:55 a. m.]

[Region VI Order G-16 Under RMPR 122, Amdt. 120]

Solid Fuels in Macomb, Ill., Area

An opinion accompanying this amendment has been issued simultaneously herewith. Order No. G-16 under Revised Maximum Price Regulation No. 122 is amended in the following respects:

In Appendix No. 37 to Order No. G-16, paragraph (b), Price schedule, sub-paragraphs I to IV are amended to read as follows:

Price Schedule

	Domestic delivered
I. High volatile bituminous coal from district No. 8 (eastern Kentucky, southwestern West Virginia, western Virginia, northern Tennessee, and North Carolina):	
1. Lump, size group Nos. 1 and 2, all single screened lump coal, bottom size larger than 3", price classification E through J inclusive	$11.87
II. High volatile bituminous coal from district No. 9 (western Kentucky):	
1. Lump and egg size group Nos. 1-6 inclusive, all single screened lump coals and all double screened raw, washed or air cleaned egg coals, top size larger than 2":	
(a) No. 14 and stray seams	7.56
(b) Nos. 9 and 11 seams	7.31
2. Washed or air-cleaned screenings, size group Nos. 23 and 24, all washed or air-cleaned screenings larger than 3/8" x 0 but not exceeding 2" x 0, (a) Nos. 9 and 11 seams	7.41
III. High volatile bituminous coal from district No. 10 (Illinois):	
A. Southern subdistrict, deep machine mines, price group Nos. 1, 2 and 8.	
1. Lump, egg and stove, size group Nos. 1, 2, 3, 4, 5, 6, and 8, all lump and egg coals bottom size larger than 2" washed or raw, all lump, egg and stove coals bottom size 2" and smaller, washed or raw, including 6" lump 6" x 3" egg, 3" x 2" nut and 2" x 1¼" stove	8.16

PRICE SCHEDULE—Continued

	Domestic delivered
III. High volatile bituminous coal from district No. 10—Continued.	
A. Southern subdistrict, etc.—Con.	
2. Special stoker size group Nos. 21, 22, and 28, all washed or air-cleaned nut and pea coal bottom size larger than 1 millimeter and top size not exceeding 2"; and all dry dedusted special stoker bottom size larger than 28 mesh and top size not exceeding 3/8", including G-14, air flow, par fuel, super V, supertherm, deluxe, S. P. stoker	$7.96
3. Washed and dedusted screening size group Nos. 23, 24, 26, and 27, all washed, air-cleaned and dry dedusted screenings top size not exceeding 2", including universal, commercial and S. P. stoker	7.31
B. Southern subdistrict, strip mines. Price Group No. 7:	
1. Lump and egg, size group Nos. 1, 2 and 3, all lump and egg coal bottom size larger than 2" washed or raw	7.26
C. Belleville subdistrict price group Nos. 16-22, inclusive:	
1. Lump and egg, size group Nos. 1, 2 and 3, all lump and egg coals bottom size larger than 2" washed or raw.	
(a) Deep machine mines	7.41
(b) Strip mines	7.21
2. Washed nut and pea, size group Nos. 17 to 20, inclusive, all washed or air cleaned nut and pea coal bottom size larger than 10 mesh or 3/32" and top size not exceeding 2"; (a) strip mines	7.16
D. Fulton Peoria subdistrict strip mines:	
1. Lump and egg, size group Nos. 1, 2, and 3, all lump and egg coals bottom size larger than 2" washed or raw:	
(a) Price group Nos. 27 and 28	6.04
(b) Price group Nos. 24, 25 and 26	5.99
2. Egg and stove, size group Nos. 4, 5, 6, and 8, all egg and stove coals bottom size 2" and smaller washed or raw: (a) Price group Nos. 24, 25, and 26	5.99
3. Washed screenings, size group Nos. 23 and 24, all washed or air cleaned screenings top size not exceeding 2"; (a) Price group Nos. 27 and 28	6.04
IV. Pennsylvania anthracite:	
1. Egg, stove, and nut; ash content not in excess of OPA quality standards	20.43

This Amendment No. 120 to Order No. G-16 under Revised Maximum Price Regulation No. 122 shall become effective September 16, 1946.

Issued this 5th day of September 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 120 TO ORDER G-16 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

Section 1340.260 of Revised Maximum Regulation No. 122 authorizes the Regional Administrator for Region VI of the Office of Price Administration may by order establish specific maximum prices in line with those established by that regulation for deliveries of solid fuels made, or for services rendered in connection therewith, or both, by a dealer or group of dealers in an area or locality. In connection with such prices, appropriate reporting, record keeping or other requirements may be made of the dealer or dealers involved. If, after such specific maximum prices are established by order, the maximum prices of the dealers' suppliers are increased or decreased by the Price Administrator, the order may be amended to reflect such increase or decrease.

The maximum prices in the accompanying amendment superseded and reflect price increases granted by the following documents or actions:

1. Regional Order G-35 under Revised Maximum Price Regulation No. 122, reflecting increases to producers of certain solid fuels, granted by Amendment No. 158 to Maximum Price Regulation No. 120.

2. Regional Order G-37 under Revised Maximum Price Regulation No. 122, reflecting increases to producers of Anthracite, granted by Amendment No. 23 to Maximum Price Regulation No. 112.

3. Amendments Nos. 46, 47 and 48 to Revised Maximum Price Regulation No. 122.

[F. R. Doc. 46-17173; Filed, Sept. 24, 1946; 9:05 a. m.]

[Region III, Order G-26 Under MPR 592, Amdt. 1]

SAND AND GRAVEL IN LOUISVILLE, KY., AREA

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 17 of Maximum Price Regulation No. 592 and the Emergency Price Control Act of 1942, as amended; *It is ordered*, That Order No. G-26 under section 17 of Maximum Price Regulation No. 592 be and hereby is amended in the following respects:

Paragraph (b) is amended to read as follows:

(b) *Area covered.* The Louisville, Kentucky Area as used herein contains all that territory located within Jefferson County, Kentucky, and Floyd and Clark Counties, Indiana.

This Amendment No. 1 to Order No. G-26 shall become effective September 11, 1946.

Issued September 11, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-26 UNDER SECTION 17 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying amendment to Order No. G-26 under section 17 of Maximum Price Regulation No. 592 provides for an extension of the area covered by Order No. G-26.

It has been determined that Clark County, Indiana is a part of the Louisville, Kentucky trading area and the order has, therefore, been amended to include Clark County.

The change established in the accompanying amendment is considered generally fair and equitable in accordance with the provisions of Maximum Price Regulation No. 592 and consistent with the purposes of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17255; Filed, Sept. 24, 1946; 8:59 a. m.]

[Region VI Order G-40 Under RMPR 122]

SOLID FUELS IN CHICAGO REGION

Pursuant to the authority vested in the Regional Administrator of Region VI of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, as amended, and for reasons stated in an opinion issued herewith, it is ordered:

(a) *Effect of this order.* This order adjusts the maximum prices for the sale of certain solid fuels by all dealers whose solid fuels covered by this order are obtained or distributed at or from docks on the west bank of Lake Michigan at Waukegan, Illinois or north thereof of the United States side of Lake Superior and whose maximum prices for the sale of such solid fuels are now established under area pricing orders of Region VI of the Office of Price Administration.

(b) *Geographical applicability.* This order applies to all sales subject to this order where the buyer receives physical delivery within the areas covered by each area pricing order in Region VI, which includes the States of Illinois, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, Wisconsin, and Lake County, Indiana.

(c) *Price adjustments.* On sales of solid fuels from docks, as provided in paragraph (a) above and governed by maximum prices established by Region VI Orders G-1 to G-16 under Revised Maximum Price Regulation No. 122 inclusive, and appendices thereto, and any other Region VI area pricing orders issued under that regulation, dealers are hereby permitted to increase their maximum prices as follows:

	Per ton
(1) Bituminous coal	$0.15
(2) Pennsylvania anthracite	.16
(3) Coke	.10

(d) *Effective period of this order.* This Order No. G-40 shall remain in effect in each area covered by a Region VI area pricing order until such area order is amended to reflect the price increase permitted herein and to supersede this Order No. G-40.

(e) *Effect of order on Revised Maximum Price Regulation No. 122.* Insofar as any provision of this order may be inconsistent with any provision of Revised Maximum Price Regulation No. 122, as amended, the provisions contained in this order shall be controlling. Except as herein otherwise provided, the provisions of Revised Maximum Price Regulation No. 122, as amended, shall remain in full force and effect.

This order may be amended, revised or revoked at any time.

This Order No. G-40 shall be effective as of August 22, 1946.

Issued this 27th day of August 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G-40 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122, AS AMENDED

Section 1340.260 of Revised Maximum Price Regulation No. 122 authorizes the Regional Administrator of the Office of Price Administration to establish by order maximum prices in line with those established by that regulation for deliveries of solid fuels made by a dealer or a group of dealers in an area or locality. In accordance with this authorization, the Regional Administrator issued area pricing orders covering specific areas within Region VI.

Amendment No. 47 to Maximum Price Regulation No. 122, issued and effective August 19, 1946 authorizes an increase of 6 cents per ton for bituminous coal and Pennsylvania Anthracite to compensate for increased water freight rates. Amendment No. 48 to Revised Maximum Price Regulation No. 122, issued and effective August 22, 1946, authorizes an increase of 9 cents per ton for sales of bituminous coal, and 10 cents per ton for Pennsylvania Anthracite and coke, by dealers subject to that regulation. However, dealers operating under area pricing orders covering specific areas within Region VI may not avail themselves automatically of these increases. It is necessary therefore that a supplementary area order be issued permitting dealers operating under area pricing orders to increase their retail sales prices by the above amounts. This order does not apply to dealers who are not covered by area pricing orders because they continue to price under Maximum Price Regulation No. 122, under which they are able to obtain adequate relief.

This Order No. G-40 is a blanket order designed to permit dealers covered by the various area pricing orders to increase their prices immediately so as not to be subjected to a squeeze pending the issuance of amendments to the respective area pricing orders. Amendments to the specific area pricing orders establishing adjusted prices to reflect the increases are now being prepared. As amendments take effect to the respective area pricing orders, this order will no longer be applicable to them.

[F. R. Doc. 46-17174; Filed, Sept. 24, 1946; 9:05 a. m.]

[Region VI Order G-16 Under RMPR 122, Amdt. 121]

SOLID FUELS IN URBANA, ILL., AREA

An opinion accompanying this amendment has been issued simultaneously herewith. Order No. G-16 under Revised Maximum Price Regulation No. 122 is amended in the following respects:

In Appendix No. 34 to Order No. G-16, paragraph (b), subparagraphs I to V and paragraph (d) are amended to read as follows:

PRICE SCHEDULE

	Domestic delivered per ton
I. Low volatile bituminous coal from district No. 7 (southern West Virginia and northwestern and central Virginia):	
1. Stove size group No. 3, all stove coal, top size larger than 1¼" but not exceeding 3", bottom size smaller than 3", in price classification A, except mine index No. 728	$11.74
2. Nut size group No. 4, all nut coal top size larger than ¾" but not exceeding 1¼", bottom size smaller than 1¼", in price classification A, except mine index No. 728	11.04
II. High volatile bituminous coal from district No. 8 (eastern Kentucky, southwestern West Virginia, western Virginia, northern Tennessee, and North Carolina):	
1. Lump, size group Nos. 1 and 2, all single screened lump coal bottom size larger than 3":	
(a) In price classification C through H inclusive	11.12
(b) In price classification J through N inclusive	10.82
2. Egg, size group No. 6, all double screened egg coals, top size larger than 5" but not exceeding 6" and bottom size 2" and smaller; also top size 3" and larger but not exceeding 5" and bottom size larger than 2" but not exceeding 3":	
(a) In price classification B through K inclusive	10.72
(b) In price classification L through O inclusive	10.27
3. Stoker, size group No. 10, all double screened stoker coals, top size not exceeding 1¼" and bottom size less than 1¼":	
(a) Price classification A, mine index Nos. 49 and 50 only	11.26
(b) Price classification B through E inclusive	10.42
III. High volatile bituminous coal from district No. 10 (Illinois):	
A. Southern subdistrict, deep machine mines price group Nos. 1, 2 and 8:	
1. Lump and egg, size group Nos. 1, 2, and 3, all lump and egg coals bottom size larger than 2" washed or raw	8.71
2. Egg, nut and stove, size group Nos. 4, 5, 6 and 8, all egg and stove coals bottom size 2" and smaller, washed or raw	8.36
3. Special stoker, size group Nos. 21, 22 and 28, all washed or air-cleaned nut and pea coal bottom size larger than 1 millimeter and top size not exceeding 2"; all dry dedusted special stoker bottom size larger than 28 mesh and top size not exceeding 3/8" (including such trade names as G 14, par fuel, super V, airflow, supertherm and de luxe S. P. stoker)	8.21
4. Raw nut and pea coal size group Nos. 9-12 inclusive, all raw nut and pea coal bottom size larger than 10 mesh or 3/32" and top size not exceeding 2"	7.91
5. Washed or dedusted screenings, size group Nos. 23, 24, 26 and 27, all washed, air cleaned or dry dedusted screenings top size not exceeding 2", including such trade names as universal stoker, commercial stoker and S. P. stoker	7.76

PRICE SCHEDULE—Continued

	Domestic delivered per ton
III. High volatile bituminous coal from district No. 10—Continued.	
B. Central subdistrict, deep machine mines:	
1. Lump and egg size group Nos. 1, 2 and 3, all lump and egg coals bottom size larger than 2" washed or raw, price group Nos. 12 and 13	$7.31
2. Washed screenings, size group Nos. 23 and 24, all lump washed or air cleaned screenings top size not exceeding 2", mine index No. 186 only	6.54
8. Stoker size group Nos. 21, 22 and 28, all washed or air cleaned nut and pea coal bottom size larger than 1 millimeter and top size not exceeding 2"; also all dry dedusted special stoker bottom size larger than 28 mesh and top size not exceeding 3/8", price group Nos. 12 and 13	6.81
4. Lump and egg size group Nos. 1, 2 and 3, all lump and egg coals bottom size larger than 2" washed or raw, mine index No. 21 only	7.24
IV. High volatile bituminous coal from district No. 11 (Indiana):	
1. Lump and egg size group Nos. 1, 2 and 3, all lump and egg coals bottom size larger than 2" washed or raw:	
(a) Price group No. 14	9.09
(b) Price group No. 6, mine index No. 40 only	8.99
(c) Price group No. 6, mine index No. 107 only	9.56
(d) Price group No. 7 and 18 only	7.79
(e) Price group No. 10, mine index No. 115 only	8.04
(f) Price group No. 5	8.19
(g) Price group No. 15 and 16	8.41
2. Nut size group No. 5, all nut coals bottom size larger than 1½" but not exceeding 2" and top size larger than 2" but not exceeding 4" washed or raw:	
(a) Price group No. 14	8.39
(b) Price group No. 5	7.79
8. Stoker size group Nos. 9-12 inclusive, all raw nut and pea coal bottom size larger than 10 mesh or 3/32" and top size not exceeding 2":	
(a) Price group No. 6, mine index No. 40 only	8.19
(b) Price group No. 10, mine index No. 115 only	7.62
(c) Price group No. 5	7.44
(d) Price group No. 15	7.39
4. Washed screenings size group Nos. 23 and 24, all washed or air-cleaned screenings top size not exceeding 2" (a) Price group No. 9 only	6.95
V. Pennsylvania anthracite: 1. Egg, stove and nut	18.83

(d) *Discounts.* The maximum price set forth in section (b) above shall be subject to the following discount:

	Per ton
(i) If payment is made by a purchaser on or before 10 days from delivery of the solid fuel	$0.25
(ii) On "domestic sales" of coal picked up at the dealer's yard by consumers	.50
(iii) On sales to other dealers of coal picked up at the seller's yard	1.69
(iv) On "domestic sales" to users of 50 tons or more annually	.25

This Amendment No. 121 to Order No. G–16 under Revised Maximum Price Regulation No. 122 shall become effective September 16, 1946.

Issued this 5th day of September 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 121 TO ORDER G–16 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

Section 1340.260 of Revised Maximum Price Regulation No. 122 authorizes the Regional Administrator for Region VI of the Office of Price Administration may by order establish specific maximum prices in line with those established by that regulation for deliveries of solid fuels made, or for services rendered in connection therewith, or both, by a dealer or group of dealers in an area or locality. In connection with such prices, appropriate reporting, record keeping or other requirements may be made of the dealer or dealers involved. If, after such specific maximum prices are established by order, the maximum prices of the dealers' suppliers are increased or decreased by the Price Administrator, the order may be amended to reflect such increase or decrease.

The maximum prices in the accompanying amendment supersede and reflect price increases granted by the following documents or actions:

1. Regional Order No. G–32 under Revised Maximum Price Regulation No. 122, reflecting an increase granted by Amendment 40, and provisions of Amendment 42 to that regulation.

2. Regional Order No. G–35, under Revised Maximum Price Regulation No. 122, reflecting increases to producers of certain solid fuels, granted by Amendment No. 158 to Maximum Price Regulation No. 120.

3. Regional Order G–37 under Revised Maximum Price Regulation No. 122, reflecting increases to producers of Anthracite, granted by Amendment No. 23 to Maximum Price Regulation No. 122.

4. Amendments Nos. 46, 47 and 48 to Revised Maximum Price Regulation No. 122.

[F. R. Doc. 46–17172; Filed, Sept. 24, 1946; 9:05 a. m.]

[Region I SO 25 Under RMPR 122]

SOLID FUELS IN BOSTON REGION

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by §§ 1340.259 (a) (1) and 1340.260 of Revised Maximum Price Regulation No. 122 and the Emergency Price Control Act of 1942, as amended, *It is hereby ordered*, That:

(a) The specific maximum per-net-ton prices for bituminous coals which are established by the Region I Area Price Orders under Revised Maximum Price Regulation No. 122 listed in paragraph (d) of this order shall be reduced as follows; unless the condition set forth in paragraph (b) hereof has been met:

(1) *Direct mine receivers.* On all sales of bituminous coal which the seller has received directly from the mines, or of which he is the producer: Deduct 8¢ per net ton.

(2) *All other sales.* On all other sales, the seller must deduct from the otherwise applicable maximum price the exact amount of the reduction required to be made to him by his supplier pursuant to the provisions of this supplementary order.

(b) The reduction provided for by paragraph (a) hereof shall be inapplicable, if the railroad freight rate increase on solid fuel received in whole or in part by rail has been incurred as a result of the order of the Interstate Commerce Commission on Docket Ex Parte 162 (as provided in § 1340.257 (a) of Revised Maximum Price Regulation No. 122, as amended).

(c) Subject to the provisions of paragraph (b) hereof, all dealers shall, by appropriate notation on the invoice, indicate clearly that the railroad freight rate increase (referred to in paragraph (b) above) has not been incurred.

(d) *Orders affected.* This supplementary order shall apply to the following Region I orders under Revised Maximum Price Regulation No. 122:

Subparagraphs of paragraph (o) of Revised Order No. G–70	*Area*
Appendix 6	Hartford, Connecticut.
Appendix 7	Metropolitan Boston.
Appendix 11	Springfield, Massachusetts.
Appendix 16	Lowell, Massachusetts.
Appendix 17	Lawrence, Massachusetts.
Appendix 18	Haverhill, Massachusetts.
Appendix 20	Worcester, Massachusetts.
Appendix 21	North Shore, Massachusetts.

This Supplementary Order No. 25 shall become effective August 21, 1946.

Issued this 21st day of August 1946.

ELDON C. SHOUP,
Regional Administrator.

OPINION ACCOMPANYING SUPPLEMENTARY ORDER NO. 25 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

The provisions of the accompany supplementary order will serve for a temporary period as a general footnote to the specific revisions (issued and effective simultaneously herewith) of the bituminous area price orders affected thereby. In substance, it provides for a conditional modification of those bituminous price schedules, as presently revised, to require elimination of the amount of the general increase in railroad freight rates included therein, if said increased rail freight charges have not been incurred. It will, thus, prevent a windfall to dealers on sales on which they are not entitled under the applicable provisions of Revised Maximum Price Regulation No. 122, as amended (to collect the amount of the rail freight increase), and also will preclude increased costs to consumers for which there would be no justification.

The interim increases, so-called, in general rail freight rates granted by the Interstate Commerce Commission became effective on July 1, 1946. The increase applicable on solid fuels from the mines coming to New England in whole or in part by rail amounts to 8¢ per net ton. The exact amount of that increase has been reflected in the current revisions of the bituminous price schedules now involved. However, reports to this office clearly disclose that dealers' stocks now on hand still include substantial amounts of coal on which the July 1st rail freight rate increase was not incurred. The proportions of such stocks as presently held vary widely among different dealers. The presence, at this date, of any sizable amounts of such coal has been due to the heavy accumulations of bituminous coals at the intransit docks located at Hampton Roads, Virginia, prior to July 1, the effective date of the general rail freight rate increases.

While, therefore, coals which had not incurred the freight increase would naturally be expected to be found now in heaviest concentration in the hands of dealers located in areas in this region receiving coals by tidewater, the accompanying supplementary order is made applicable to all of the bituminous area price orders for which current revisions become effective herewith. It is contemplated that shortly, when the accompanying supplementary order has served its purpose, it will be revoked. Although it would have been preferable to defer the issuance of the specific revisions of the bituminous area orders until the conditions necessitating the issuance of the present supplementary order had ceased to exist, such postponement was not feasible for a variety of reasons under present circumstances.

[F. R. Doc. 46–17301; Filed, Sept. 25, 1946; 9:08 a. m.]

[Region III Rev. Order G–6 Under RMPR 122, Amdt. 2]

SOLID FUELS IN LIMA, OHIO AREA

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, *It is hereby ordered:*

(1) Paragraph (e) (1), Schedule I, Part III, of Revised Order No. G–6 under Revised Maximum Price Regulation No. 122 (Solid Fuels Sold and Delivered by Dealers, Maximum Prices for Specified Solid Fuels in the Lima, Ohio Area) be and the same is hereby amended to read as follows:

SCHEDULE I

SOLID FUEL RECEIVED BY RAIL

	Column I	*Column II*
III. High volatile bituminous coals from Producing District 3 (northern West Virginia, excluding Panhandle):		
A. Lump and egg, size group 1 (bottom size larger than 2"):		
1. Mine Price Classification A		$10.26
2. All other		8.88
B. Lump and egg, size group 2 (bottom size 2" and smaller):		
1. Mine Price Classification A		9.58
2. All other		8.60

This Amendment No. 2 shall become effective September 4, 1946.

Issued September 4, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO REVISED ORDER NO. G–6 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

At the time of issuance of Revised Order No. G–6 under Revised Maximum Price Regulation No. 122, the dealers in the area covered by this order were receiving coal of classifications with similar mine costs. Consequently, no mine price classifications were designated in Schedule I.

Recently dealers in this area have been receiving coal of Mine Price Classification A which costs as much as one dollar ($1.00) per ton more than the next lower class. It is, therefore, considered necessary that the higher priced coal be separately priced from other coal, so that the higher mine costs may properly be reflected in the dealers' selling price. The accompanying amendment to Revised Order No. G–6 is designed to accomplish that purpose.

It is the opinion of the Regional Administrator that the provisions of the accompanying order are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46–17295; Filed, Sept. 25, 1946; 9:09 a. m.]

[Adopting Order 1 Under Basic Order 1 Under Rev. Gen. Order 65, Amdt. 1]

SOUTHERN SHORTLEAF YELLOW PINE LUMBER IN NEW YORK DISTRICT

For reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, Adopting Order No. 1 under Basic Order No. 1, as amended, under Revised General Order No. 65, is hereby amended in the following respects:

1. Sheet No. 6 in Schedule A–3, Price Table for Drop Siding, Ceiling and Partition, Shortleaf Yellow Pine is hereby amended as per the annexed schedule.

This amendment shall become effective immediately.

Issued this 23d day of September 1946.

DAVID J. WILLIAMS,
Assistant to the Regional Administrator.

DROP SIDING, CEILING, AND PARTITION

Shortleaf Yellow Pine

PRICE TABLE

[Per 1,000 board feet]

Applies to kiln-dried lumber worked to pattern, with plain ends, when sold in random lengths of 4 to 20 feet with standard grading rule restrictions on short lengths, or when sold in specific lengths of 7 to 20 feet. No addition to these prices may be made for grade marking.

Nominal thickness and nominal width	Pattern	Sales totaling over 1,000 ft.			Sales totaling 1,000 ft. or less		
		Grade B and better	Grade C	Grade D or No. 2	Grade B and better	Grade C	Grade D or No. 2
		Drop siding					
1" x 6"	115, 117, 118, 119	$89.00	$87.00	$78.00	$96.00	$94.00	$90.00
1" x 6"	All other	104.00	100.00	79.00	111.00	107.00	91.00
1" x 8"	All	105.00	100.00	79.00	112.00	107.00	91.00
1" x 10"	All	117.00	107.00	83.00	124.00	114.00	95.00
		Ceiling—Standard Bead or "V," surfaced 1 or 2 sides					
5/16" and 3/8" x 3" and 4"		$71.00	$66.00	$55.00	$77.00	$72.00	$65.00
5/16" and 3/8" x 6"		74.00	69.00	57.00	80.00	75.00	67.00
9/16" x 3" and 4"		77.00	75.00	62.00	83.00	81.00	72.00
9/16" x 5" and 6"		80.00	78.00	68.00	86.00	84.00	75.00
11/16" to 29/32" x 3" and 4"		95.00	91.00	73.00	101.00	97.00	83.00
11/16" to 29/32" x 5" and 6"		97.00	92.00	74.00	103.00	98.00	84.00
		Partition					
11/16" x 4"		$94.00	$90.00	$72.00	$101.00	$97.00	$83.00
3/4" x 4"		103.00	98.00	75.00	110.00	105.00	86.00
11/16" x 6"		97.00	93.00	75.00	104.00	100.00	86.00
3/4" x 6"		106.00	101.00	78.00	113.00	108.00	89.00

Additions and deductions per 1,000 board feet:

1. AIR DRIED.—From the kiln-dried price for size, grade, and pattern ..... deduct.. $1.00
2. 4, 5, AND 6 FT. LENGTHS SOLD ON SPECIFIC LENGTH—From the random length price for the size, grade, pattern, and condition:
   For B and better and C ..... deduct.... $12.00
   For D and No. 2 ..... deduct.... $8.00
3. SALES LESS THAN $7.50—When the total sale is less than $7.50 the prices as determined above may be increased 10%.
4. WORKINGS AND DELIVERY.—For permitted additions for workings to customer's order, and for delivery, see 2nd RMPR 215.
5. OTHER DROP SIDING, CEILING, AND PARTITION.—Continue to compute maximum prices under 2nd RMPR 215 on shortleaf yellow pine drop siding, ceiling, and partition not priced above.

These prices apply to all retail type sales and deliveries by yards located in all that part of Suffolk County lying East of the 73rd degree meridian including East Patchogue, Medford, Coram and Millers Place, regardless of the place to which delivery is made. Size of sale is based on the total of all softwood lumber and hardwood flooring sold in one sale.

[Twin Cities Order G–1 Under Gen. Order 68, Amdt. 3]

HARD BUILDING MATERIALS IN THE ST. PAUL, MINN., AREA

For the reasons set forth in the accompanying opinion issued simultaneously herewith, *It is ordered:*

1. The heading of the order is amended to read as set forth above.

2. The appendix is hereby amended to read as set forth below.

3. This amendment shall become effective July 31, 1946.

4. Issued this 29th day of July 1946.

CAREL C. KOCH,
District Director.

12 x 12	Per ft	.70

OPINION ACCOMPANYING ADOPTING ORDER NO. 1 UNDER BASIC ORDER NO. 1, AS AMENDED, UNDER REVISED GENERAL ORDER NO. 65

On August 28, 1946, Adopting Order No. 1 under Basic Order No. 1, as amended, under Revised General Order No. 65, was issued effective September 3, 1946. Inadvertently, and by reason of errors in transcription, sheet No. 6 of Schedule A–3 in said Order, Price Table for Drop Siding, Ceiling and Partition, Shortleaf Yellow Pine contained incorrect prices. This amendment rectifies said errors by amending the said sheet No. 6 to set out the correct prices. In all other respects, Schedule A–3 remains the same.

[F. R. Doc. 46–17304; Filed, Sept. 25, 1946; 9:06 a. m.]

OPINION ACCOMPANYING AMENDMENT NO. 3 TO ORDER NO. 1 UNDER GENERAL ORDER NO. 68

Pursuant to the provisions of General Order No. 68, under which authority Order No. 1 was issued, maximum prices set by the order may be adjusted when they are no longer fair and equitable.

Recently, manufacturers' ceilings for metal lath and accessories, asphalt roofing products and Portland cement in paper bags were increased. Evidence submitted to this office indicates that manufacturers have lawfully increased their prices to resellers on such items. Consequently, resellers' ceilings under the order are no longer fair and equitable and require adjustment to reflect the increase in cost. The accompanying amendment accomplishes that result.

Orders issued pursuant to General Orders, such as General Order No. 68, are prefixed by the letter G. Inadvertently, Order No. 1 failed to carry such designation. The accompanying amendment makes the necessary correction.

[F. R. Doc. 46-17296; Filed, Sept. 25, 1946; 9:09 a. m.]

[Region III Order G-24 Under MPR 592, Amdt. 2]

READY MIX CONCRETE IN LOUISVILLE, KY., AREA

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 17 of Maximum Price Regulation No. 592 and the Emergency Price Control Act of 1942, as amended, *It is ordered*, That Order No. G-24 under section 17 of Maximum Price Regulation No. 592 be and hereby is amended in the following respects:

Paragraph (b) is amended to read as follows:

(b) *Area covered.* The Louisville, Kentucky, area as used herein contains all that territory located within Jefferson County, Kentucky, and Floyd and Clark Counties, Indiana.

This Amendment No. 2 to Order No. G-24 shall become effective September 11, 1946.

Issued September 11, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. G-24 UNDER SECTION 17 OF MAXIMUM PRICE REGULATION 592

The accompanying amendment to Order No. G-24 under section 17 of Maximum Price Regulation No. 592 provides for an extension of the area covered by Order No. G-24.

It has been determined that Clark and Floyd Counties, Indiana are a part of the Louisville, Kentucky trading area and the order has, therefore, been amended to include Clark and Floyd Counties.

The change established in the accompanying amendment is considered generally fair and equitable in accordance with the provisions of Maximum Price Regulation No. 592 and consistent with the purposes of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17254; Filed, Sept. 24, 1946; 8:59 a. m.]

[Region VI Order G-16 Under RMPR 122, Amdt. 123]

SOLID FUELS IN DUBUQUE, IOWA, AREA

An opinion accompanying this amendment has been issued simultaneously herewith. Order No. G-16 under Revised Maximum Price Regulation No. 122 is amended in the following respects:

1. In Appendix No. 14 to Order No. G-16, paragraph (b), sub-paragraphs I to VIII are amended to read as follows:

PRICE SCHEDULE

	Delivered per ton
I. Low volatile bituminous coal from district No. 7 (southern West Virginia and northwestern and central Virginia):	
1. Lump—egg and stove (all lump coal, bottom size 3/8"; all egg coal, top size larger than 3", bottom size no limit; all stove coal top size larger than 1½" but not exceeding 3", bottom size smaller than 3") in price classifications A and B	$15.09
II. High volatile bituminous coal from district No. 8 (eastern Kentucky, southwestern West Virginia, western Virginia, northern Tennessee and North Carolina):	
1. Lump—size group Nos. 1 and 2 (all single screened lump coals bottom size larger than 3") in price classification A	14.52
In price classifications F through K	14.07
In price classifications F through K (from southern Appalachian subdistrict No. 6)	14.22
2. Egg—size group No. 3 (all double screened egg coal top size larger than 3" but not exceeding 6" and bottom size larger than 3" but not exceeding 4") mine index No. 370 only	14.27
3 Stoker—size group No. 10 (all double screened stoker coals, top size not exceeding 1¼" and bottom size less than 1¼") in price classifications B through E, inc.	14.02
III. High volatile bituminous coal from district No. 9 (western Kentucky):	
1. Lump and egg—size group Nos. 1, 2 and 3 (all single screened lump coals and all double screened egg coals bottom size larger than 2"):	
a. No. 6 seam	10.91
b. No. 14 seam	10.16
c. No. 9 seam	9.91
2. Stoker—size group No. 8–12 inc. (all raw double screened nut, stoker and pea coal, top size not exceeding 2" and bottom size larger than 10 mesh or 3/32" No. 6 seam	10.11
3. Screenings, size group Nos. 13 and 14 (all raw screenings larger than 3/4" by 0 but not exceeding 2" x 0). No. 6 seam	8.86
IV. High volatile bituminous coal from district No. 10 (Illinois):	
A. Southern subdistrict—price group Nos. 1, 2 and 8 (deep machine mines):	
1. Lump—size group No. 1 (all lump coal, bottom size larger than 4" washed or raw)	11.86
2. Egg—size group No. 3 (all lump and egg coals, bottom size larger than 2" but not exceeding 5", washed or raw)	11.16
3. Egg—size group No. 5 (all egg coals, bottom size larger than 1½" but not exceeding 2" and top size larger than 2" but not exceeding 4", washed or raw)	10.81
4. Stoker—size group Nos. 21, 22 and 28 (washed or air-cleaned nut and pea coal, bottom size larger than 1 millimeter and top size not exceeding 2"; and dry dedusted special stoker, bottom size larger than 28 mesh and top size not exceeding 3/8")	9.41
IV. High volatile bituminous coal from district No. 10—Continued.	
A. Southern subdistrict, etc.—Con.	
5. Washed or dedusted screenings, size group Nos. 23, 24, 26 and 27 (washed, air-cleaned or dry dedusted screenings top size not exceeding 2")	$8.91
B. Belleville and DuQuoin subdistricts, price group Nos. 10 and 16–22 inclusive:	
1. Lump and egg—size group Nos. 1, 2 and 3 (all lump and egg coals, bottom size larger than 2" washed or raw):	
a. Strip mines	9.51
b. Deep machine mines	9.71
2. Washed stoker—size group Nos. 17–20 inclusive (all washed or air-cleaned nut and pea coal bottom size larger than 10 mesh or 3/32" and top size not exceeding 2"):	
a. Strip mines	8.56
b. Deep machine mines	8.76
C. Fulton-Peoria subdistrict, price group Nos. 24, 25 and 26 (strip mines):	
1. Egg—size group Nos. 2 and 3 (all egg coals, bottom size larger than 2" but not exceeding 4" washed or raw)	8.01
2. Egg and stove—size group Nos. 4, 5, 6 and 8 (all egg and stove coals bottom size 2" and smaller washed or raw)	8.06
D. Central subdistrict, price group Nos. 12 and 13 (deep machine mines):	
1. Lump and egg—size groups Nos. 1, 2 and 3 (all lump or egg coals, bottom size larger than 2" washed or raw)	9.66
V. High volatile bituminous coal from district No. 11 (Indiana):	
1. Lump and egg—size group Nos. 1, 2 and 3 (all lump and egg coals, bottom size larger than 2" washed or raw) price group Nos. 6 and 14	11.09
2. Lump and egg—size group Nos. 1 and 2 (all lump and egg coals, bottom size larger than 3" washed or raw) price group Nos. 15 and 16	11.29
3. Lump—size group No. 1 (all lump coal, bottom size larger than 4" washed or raw) price group Nos. 5 and 13	10.84
4. Egg—size group Nos. 2 and 3 (all egg coal, bottom size larger than 2" but not larger than 4" washed or raw) price group Nos. 5 and 13	10.09
5. Egg—size group No. 4 (all egg coal, bottom size larger than 1½" but not exceeding 2" and top size larger than 2" washed or raw) price group Nos. 15 and 16	10.14
6. Stove—size group No. 8 (all stove coal, bottom size larger than 3/8" and top size larger than 1½" but not exceeding 2" washed or raw) price group Nos. 6 and 14	9.84
7. Raw or washed stoker 0 size group Nos. 9–12 inc. and 17 and 22 inc. (raw nut and pea coal, bottom size larger than 10 mesh or 3/32" and top size not exceeding 2"; and nut and pea coal washed or air-cleaned bottom size larger than 1 millimeter top size not exceeding 2") price group Nos. 6 and 14	9.85
VI. Briquettes—Berwind	15.01
VII. Anthracite—stove and nut	22.23

PRICE SCHEDULE—Continued

	Delivered per ton
VII. Coke byproduct:	
1. A, B, C, or Chicago Solvay or Koppers	$18.83
2. Terre Haute	18.08
3. Racine	17.33

2. In Appendix No. 14 to Order No. G-16, paragraph (e) is amended to read as follows:

(e) *Discounts.* The maximum prices set forth in section (b) shall be subject to the following discounts:

	Per ton
1. On sales paid for on delivery or within 15 days thereafter	$0.50
2. On sales of stoker coal in lots of 2 tons or more and less than 20 tons	.25
3. On sales of all types of coal in lots of 20 tons or more, except stoker and screenings sizes	1.50
4. On yard sales to domestic consumers	1.00
5. On yard sales to other dealers of:	
(a) Coal priced at $10 or more per ton	1.69
(b) All other coal	1.19

The maximum prices set forth above for sales of the solid fuels subject to this amendment reflect all increases in maximum prices for such sales granted in the past by the Office of Price Administration. Therefore, the above prices may not be increased except pursuant to future adjustments made by this office.

This Amendment No. 123 to Order No. G-16 under Revised Maximum Price Regulation No. 122 shall become effective September 16, 1946.

Issued this 9th day of September 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 123 TO ORDER NO. G-16 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

Under § 1340.260 of Revised Maximum Price Regulation No. 122 the Regional Administrator for Region VI of the Office of Price Administration may by order establish specific maximum prices in line with those established by that regulation for deliveries of solid fuels made, or for services rendered in connection therewith, or both, by a dealer or group of dealers in an area or locality. In connection with such prices, appropriate reporting, record-keeping or other requirements may be made of the dealer or dealers involved. If, after such specific maximum prices are established by order, the maximum prices of the dealers' suppliers are increased or decreased by the Price Administrator, the order may be amended to reflect such increase or decrease.

The maximum prices in the accompanying amendment supersede and reflect price increases granted by the following documents or actions:

1. Regional Order No. G-32 under Revised Maximum Price Regulation No. 122, reflecting an increase granted by Amendment 40, and provisions of Amendment 42 to that regulation.

2. Regional Order No. G-35 under Revised Maximum Price Regulation No. 122, reflecting increases to producers of certain solid fuels, granted by Amendment 158 to Maximum Price Regulation No. 120.

3. Regional Order G-37 under Revised Maximum Price Regulation No. 122 reflecting increases to producers of anthracite, granted by Amendment No. 23 to Maximum Price Regulation No. 112.

4. Regional Order No. G-39 under Revised Maximum Price Regulation No. 122, reflecting increases granted by Amendment No. 5 to Maximum Price Regulation No. 29.

5. Amendments Nos. 46 and 48 to Revised Maximum Price Regulation No. 122.

6. A report filed with the National Office of the Office of Price Administration relating to briquettes.

[F. R. Doc. 46-17177; Filed, Sept. 24, 1946; 9:07 a. m.]

[Region VI Order G-16 Under RMPR 122, Amdt. 134]

SOLID FUELS IN GREEN BAY, WIS., AREA

An opinion accompanying this amendment has been issued simultaneously herewith. Order No. G-16 under Revised Maximum Price Regulation No. 122 is amended in the following respects:

In Appendix No. 25 to Order No. G-16, paragraph (b), Price schedule, subparagraph III is amended to read as follows:

III. Pennsylvania anthracite:	
1. Egg	$17.95
2. Stove	17.95
3. Nut	17.95
4. Pea	16.10
5. Buckwheat	13.40

The maximum prices set forth above are for sales of anthracite by C. Reiss Coal Company and others. They include a 75 cents per ton adjustment granted pursuant to an application filed by that company under § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and, in addition thereto, they reflect and supersede maximum prices for those sales granted by general orders applicable throughout Region VI of the Office of Price Administration reflecting increases granted by Amendments 45, 46, 47 and 48 to Revised Maximum Price Regulation No. 122.

This Amendment No. 134 to Order No. G-16 of Revised Maximum Price Regulation No. 122 shall become effective September 6, 1946.

Issued this 6th day of September 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 134 TO ORDER NO. G-16 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

Section 1340.260 of Revised Maximum Price Regulation No. 122 authorizes the Regional Administrator of the Office of Price Administration to establish by order, maximum prices in line with those established by that regulation for deliveries of solid fuels made, or the services rendered in connection therewith, or both, by a dealer or group of dealers in an area or locality. In connection with such prices, appropriate reporting record-keeping or other requirements may be made of the dealer or dealers involved.

The Amendment No. 134 shall remain in effect with respect to sales of anthracite in the Green Bay Area as defined in Appendix No. 25 to Order No. G-16, and until that order is further amended reflecting the increases in effect for all solid fuels sold in that area granted by the amendments to the regulation cited in Amendment No. 134.

[Chicago Order G-1 Under Gen. Order 68, Amdt. 6]

HARD BUILDING MATERIALS IN COOK COUNTY, ILL., AREA

The price of Masonry Mortar (paper sacks), listed as Item 13, Appendix A, in Amendment No. 5, at $2.20 per barrel, be and is hereby corrected to read $2.26 per barrel.

The price of Masonry Mortar (paper sacks), listed as Item 13, Appendix B, in Amendment 5, at 65 cents a bag, be and hereby is corrected to read 66½ cents a bag.

This Amendment No. 6 to District Order No. G-1 under General Order No. 68 shall become effective August 24, 1946.

Issued this 12th day of September 1946.

JAMES F. RILEY,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 6 TO DISTRICT ORDER G-1 UNDER GENERAL ORDER 68

This amendment is issued to correct an error of mathematical computation in the price of Masonry Mortar (paper sacks).

[F. R. Doc. 46-17307; Filed, Sept. 25, 1946; 9:05 a. m.]

[Omaha Order G-1 Under RMPR 251, Amdt. 1]

RE-ROOFING AND RE-SIDING IN OMAHA DISTRICT

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G-1 under section 9 of Revised Maximum Price Regulation No. 251 is amended in the following respects:

(1) The effective date of the order is changed from July 8, 1946 to September 25, 1946.

(2) The maximum prices as set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A which is incorporated into and made a part of this order.

This Amendment No. 1 to Order No. G-1 under section 9 of Revised Maximum Price Regulation No. 251 shall become effective September 25, 1946.

Issued this 16th day of September 1946.

EDWIN F. MORAN,
District Director.

REVISED APPENDIX A

GENERAL

1. *Geographical applicability.* The prices and provisions of this Appendix and Order

PRICE SCHEDULE—Continued

VII. Coke byproduct:	*Delivered per ton*
1. A, B, C, or Chicago Solvay or Koppers	$18.83
2. Terre Haute	18.08
3. Racine	17.33

2. In Appendix No. 14 to Order No. G–16, paragraph (e) is amended to read as follows:

(e) *Discounts.* The maximum prices set forth in section (b) shall be subject to the following discounts:

	Per ton
1. On sales paid for on delivery or within 15 days thereafter	$0.50
2. On sales of stoker coal in lots of 2 tons or more and less than 20 tons	.25
3. On sales of all types of coal in lots of 20 tons or more, except stoker and screenings sizes	1.50
4. On yard sales to domestic consumers	1.00
5. On yard sales to other dealers of:	
(a) Coal priced at $10 or more per ton	1.69
(b) All other coal	1.19

The maximum prices set forth above for sales of the solid fuels subject to this amendment reflect all increases in maximum prices for such sales granted in the past by the Office of Price Administration. Therefore, the above prices may not be increased except pursuant to future adjustments made by this office.

This Amendment No. 123 to Order No. G–16 under Revised Maximum Price Regulation No. 122 shall become effective September 16, 1946.

Issued this 9th day of September 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 123 TO ORDER NO. G–16 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

Under § 1340.260 of Revised Maximum Price Regulation No. 122 the Regional Office has issued simultaneously herewith Amendment No. 123 to Order No. G–16 under Revised Maximum Price Regulation No. 122. Amendment No. 123 to Order No. G–16 under Revised Maximum Price Regulation No. 122 is issued for the following reasons:

1. Amendment No. 123 to Order No. G–16 under Revised Maximum Price Regulation No. 122 reflects increases granted by Amendment No. 158 to Maximum Price Regulation No. 120.

3. Regional Order G–37 under Revised Maximum Price Regulation No. 122 reflecting increases to producers of anthracite, granted by Amendment No. 23 to Maximum Price Regulation No. 112.

4. Regional Order No. G–39 under Revised Maximum Price Regulation No. 122, reflecting increases granted by Amendment No. 5 to Maximum Price Regulation No. 29.

5. Amendments Nos. 46 and 48 to Revised Maximum Price Regulation No. 122.

6. A report filed with the National Office of the Office of Price Administration relating to briquettes.

[F. R. Doc. 46–17177; Filed, Sept. 24, 1946; 9:07 a. m.]

[Region VI Order G–16 Under RMPR 122, Amdt. 134]

SOLID FUELS IN GREEN BAY, WIS., AREA

An opinion accompanying this amendment has been issued simultaneously herewith. Order No. G–16 under Revised Maximum Price Regulation No. 122 is amended in the following respects:

In Appendix No. 25 to Order No. G–16, paragraph (b), Price schedule, subparagraph III is amended to read as follows:

III. Pennsylvania anthracite:	
1. Egg	$17.95
2. Stove	17.95
3. Nut	17.95
4. Pea	16.10
5. Buckwheat	13.40

The maximum prices set forth above are for sales of anthracite by C. Reiss Coal Company and others. They include a 75 cents per ton adjustment granted pursuant to an application filed by that company under § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and, in addition thereto, they reflect and supersede maximum prices for those sales granted by general orders applicable

The Amendment No. 134 shall remain in effect with respect to sales of anthracite in the Green Bay Area as defined in Appendix No. 25 to Order No. G–16, and until that order is further amended reflecting the increases in effect for all solid fuels sold in that area granted by the amendments to the regulation cited in Amendment No. 134.

[F. R. Doc. 46–17171; Filed, Sept. 24, 1946; 9:04 a. m.]

[Chicago Order G–1 Under Gen. Order 68, Amdt. 6]

HARD BUILDING MATERIALS IN COOK COUNTY, ILL., AREA

The price of Masonry Mortar (paper sacks), listed as Item 13, Appendix A, in Amendment No. 5, at $2.20 per barrel, be and is hereby corrected to read $2.26 per barrel.

The price of Masonry Mortar (paper sacks), listed as Item 13, Appendix B, in Amendment 5, at 65 cents a bag, be and hereby is corrected to read 66½ cents a bag.

This Amendment No. 6 to District Order No. G–1 under General Order No. 68 shall become effective August 24, 1946.

Issued this 12th day of September 1946.

JAMES F. RILEY,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 6 TO DISTRICT ORDER G–1 UNDER GENERAL ORDER 68

This amendment is issued to correct an error of mathematical computation in the price of Masonry Mortar (paper sacks).

[F. R. Doc. 46–17307; Filed, Sept. 25, 1946; 9:05 a. m.]

[Omaha Order G–1 Under RMPR 251, Amdt. 1]

G–1 shall apply to the sales of composition re-siding and re-roofing materials on an installed basis for which prices are established in this appendix, where such work is performed on existing residential structures located within the "Omaha Area". For the purposes of this order, the "Omaha Area" shall consist of the unincorporated village of Fort Crook, Nebraska, the incorporated limits of the Cities of Ralston and Bellevue, Nebraska and the City of Omaha, Nebraska. For work performed on structures located outside of the Omaha Area, the seller shall determine his maximum prices under the provisions of RMPR 251 or such other regulations or orders as may be applicable.

2. *Quality of materials.* The roofing and siding materials for which prices are set out below shall be "standard quality" materials.

3. *Guaranty of work and materials.* Each seller may guarantee the construction work covered by this order, including quality of materials and workmanship, but may not make any additional charge because of such guaranty.

4. *Measurements.* The measurements for each job shall be calculated on an "overall" basis and no allowance may be made nor additions in price permitted for soldier course, bay windows or dormer gables.

MAXIMUM PRICES FOR INSTALLED RE-SIDING

Rolled brick siding

	Per square
All prices on all brick siding include the following accessories and services: Either zinc or brick siding strip corners; necessary moulding; refacing of sills; necessary lath up to one bundle per square; nails, caulking and joint strips.	
Rolled brick siding with black backerboard or weatherpad	$17.50
Rolled brick siding without black backerboard or weatherpad	14.25
Rolled brick siding without black backerboard or weatherpad but with 15-pound asphalt felt	15.85
Rolled brick siding without black backerboard or weatherpad but with 30-pound asphalt felt	16.65

Insulated brick and stone siding

14¾" x 43⅞", 13⅞" x 43⅛", 14" x 43"	$26.50

The above price includes either insulated brick or stone corner pieces; necessary moulding and refacing of sills; necessary lath up to one bundle per square; nails, caulking and joint strips.

Asbestos cement siding—Standard surface

White or standard colors, 12" x 24" or 12" x 27", 8½", 9" or 9½" x 22" or 24".

All prices on asbestos cement siding include the following accessories and services: Either zinc or mitred corners; necessary moulding and refacing of sills; necessary lath up to one bundle per square; nails, caulking and joint strips.	
Asbestos cement siding with 15-pound asphalt felt	$21.00
Asbestos cement siding without 15-pound asphalt felt	19.80
Asbestos cement siding with 30-pound asphalt felt instead of 15-pound asphalt felt	21.80
Asbestos cement siding with black backerboard or weatherpad instead of 15-pound asphalt felt	22.80

MAXIMUM PRICES FOR INSTALLED RE-SIDING—continued

Re-siding accessories and items of additional charges

Lath:	*Per square*
Extra charge per bundle (after first bundle per square)	$1.85
All re-siding above second floor ceiling, extra charge per square	2.15
Applying re-siding to second floor when first floor is not covered, extra charge per square	2.15
Small quantity differential: For any re-siding installation of two squares or less, the seller may make an additional charge per square	2.00
Stucco: Removing old stucco per square	2.15

MAXIMUM PRICES FOR INSTALLED RE-ROOFING

12" thick butt (3 in 1) 210 pound shingles	$12.30
11⅓" hexagon strip—167-pound shingles	10.40
Diamond point—105-pound shingles	8.20
Staggered edge—105-pound shingles	8.20
Rolled roofing—Mineral surface—90 pound	6.00

The above prices include flashing around chimneys and vents; 90 pound rolled roofing for valleys; necessary rake strips; necessary hip and ridge shingles or roofing, nails and mastic.

Additional charges applicable to re-roofing

Small quantity differential: For any re-roofing installation of four squares or less, the seller may make an additional charge per square	$2.00

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–1 UNDER SECTION 9 OF REVISED MAXIMUM PRICE REGULATION NO. 251

On June 24, 1946, for the reasons set forth in an opinion issued simultaneously therewith, this office issued Order No. G–1 under section 9 of Revised Maximum Price Regulation No. 251, which order established maximum prices for installed re-roofing and re-siding and related construction work in the "Omaha Area" which consists of the unincorporated village of Fort Crook, Nebraska, the incorporated limits of the cities of Ralston and Bellevue, Nebraska, and the City of Omaha, Nebraska. This order was by its terms to become effective on June 8, 1946, but prior to that time, to wit, at midnight on June 30, 1946, the Emergency Price Control Act of 1942, as amended, and all regulations and orders issued thereunder terminated, as specifically provided in the Act itself. The new act which extended OPA was not finally enacted until July 25, 1946, and therefore during the interim period July 1 to July 25, 1946, there was no authority to control prices.

Section 18 of the "Price Control Extension Act of 1946" provides that all regulations, orders, price schedules and requirements under the Emergency Price Control Act of 1942 and the Stabilization Act of 1942, as amended, which were in effect on June 30, 1946, shall be in effect in the same manner and to the same extent as if the Extension Act had been enacted on June 30, 1946. This provision had the effect of reviving or revitalizing all OPA regulations, orders, etc., which were "in effect" on June 30, 1946. Since, as previously stated, Order No. G–1 under section 9 of Revised Maximum Price Regulation No. 251 was not "in effect" on June 30, 1946, it was not affected by the above quoted provision of the new act and hence never became effective.

Today's amendment, effective September 25, 1946, makes provision for putting the order above referred to in effect as of September 26, 1946, by amending the effective date of the order as originally issued. The amendment provides that the effective date of the order shall be September 25, 1946.

In addition, today's amendment substitutes a new "Revised Appendix A" for "Appendix A" as set out in the order as originally issued. Prices established in the new "Revised Appendix A" are higher than those originally established in the order and reflect recent increases in material costs under Amendment 8 to RPS 45 and Amendment 6 to MPR 466, increases in the labor costs resulting from approved labor increases for re-roofers and re-siders, and increases in miscellaneous expenses accompanying such wage increases.

It is the opinion of the District Director that the accompanying amendment to the above named order establishes prices that are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, Executive Order No. 9250, Executive Order No. 9328 and Executive Order No. 9599.

[F. R. Doc. 46-17169; Filed, Sept. 24, 1946; 9:02 a. m.]

[Newark Rev. Order G–1 Under MPR 426]

FRESH FRUITS AND VEGETABLES IN NEW JERSEY AREA

For the reasons stated in an accompanying opinion, this order is issued.

SECTION 1. *What this order does.* This order establishes the amount of freight from "basing point" to "wholesale receiving point" which may be added to the maximum f. o. b. shipping point price to determine the maximum selling prices for certain fresh fruits and vegetables at all "wholesale receiving points" in the area described in section 2 below.

SEC. 2. *Area covered.* This order applies in Counties of Bergen, Essex, Hudson, Morris, Passaic, Sussex and Union, New Jersey.

SEC. 3. *Amount of freight allowance.* The amount of freight from basing point to wholesale receiving point which may be added to the maximum basing point price for the purpose of determining maximum selling prices of the items covered by this regulation at all wholesale receiving points in the area described above, and in the markets they serve, shall be the amounts set forth in the Appendices hereunto annexed. This amount includes all allowances, if any, for protective and other accessorial services and all taxes on transportation costs. The amount of freight from basing point to the City of Newark, and all wholesale receiving points in the Counties of Bergen, Essex, Hudson, Morris, Passaic, Sussex and Union, New Jersey, is hereinafter set forth in Appendix A. Appendix B establishes additional transportation allowances (cartage) to all wholesale points in the seven counties as enumerated, when the commodities listed in Appendix B are transported from New York or Newark, New Jersey.

SEC. 4. *Meaning of terms.* The terms "basing point" and "wholesale receiving point" are to be understood as defined in Maximum Price Regulation No. 426.

SEC. 5. This Revised Order G–1 revises and supersedes Order G–1 issued by the Newark District Office, August 16, 1944.

SEC. 6. *Effective date.* This revised order shall become effective on August 13, 1946 at 12:01 a. m.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E. O. 9250, 7 F. R. 7871; E. O. 9328, 8 F. R. 4687; MPR 426, 8 F. R. 16409)

RICHARD J. TARRANT,
District Director.

Issued AUGUST 13, 1946.

Tangerines, all States except California and Arizona	1⅗ bushels	Homestead, Fla.	do	.93

APPENDIX B

FREIGHT ALLOWANCE TO ALL WHOLESALE RECEIVING POINTS IN THE COUNTIES OF ESSEX, BERGEN, HUDSON, PASSAIC, SUSSEX, MORRIS AND UNION

Commodity in standard containers and minimum contents as in appendix A	To all wholesale receiving points in counties of—	
	Essex, Hudson, and Union	Bergen, Passaic, Sussex, and Morris
Apples, bushel		$0.15
Carrots, bunched		.20
Citrus fruits, all (1⅗ or 1⅗ bushels)	$0.15	.20
Lettuce, iceberg		.30
Melons:		
Jumbo cantaloup, crate		.20
All others		.15
Peaches, bushel		.15
lug		.10
Snap beans (green or wax)		.10
Spinach		.10
Sweetpotatoes		.15

NOTE: Above transportation allowance not permitted on carlot or trucklot receipts in wholesale markets direct from shipping point.

OPINION ACCOMPANYING REVISED ORDER NO. G–1 UNDER MAXIMUM PRICE REGULATION NO. 426

Maximum selling prices of fresh fruits and vegetables and citrus fruits (under price control) for all sales except at retail at all wholesale receiving points in the Counties of Bergen, Essex, Hudson, Morris, Passaic, Sussex and Union, New Jersey, and in the markets they serve, are determined under Maximum Price Regulation No. 426. Prices are established by adding markups to the "delivered price" at the receiving point. The delivered price is established by adding to the maximum basing point price the cost of freight from the basing point to the wholesale receiving point. Section 8 (a) (7) of Maximum Price Regulation No. 426 authorizes and directs the Regional Administrators, and such District Directors as may be authorized by the appropriate Regional Administrator, to determine for each item covered by that regulation, the cheapest customary and generally available method of transportation from the basing point to each wholesale receiving point within their jurisdiction, and to establish the amount of freight cost which may be added to the basing point price for the purpose of establishing maximum selling prices at each wholesale receiving point and in the markets they serve. This authority was delegated by order to the District Director of the Newark District by the Regional Administrator for Region II.

An examination of the facts discloses that there is only one wholesale receiving point of any consequence within the Northern New Jersey area, namely, at Newark, New Jersey. If there be any other produce wholesalers within this area such wholesalers are within the free delivery area of Newark, with the exception of Bergen, Passaic, Sussex and Union Counties. As to the latter counties, Appendix B of the accompanying order establishes additional cartage allowances. Since Newark is not a pri-

mary receiving market for citrus fruits, cartage allowances for citrus fruits are established for Newark and all seven counties.

An examination of the facts and consultation with produce dealers whose places of business are located at Newark, New Jersey, discloses that these commodities are customarily transported to Newark, New Jersey, in some instances by rail in direct carlots from basing points, and in other instances in carlots by rail to wholesale receiving points in New York City, and thence by truck from New York City to Newark, New Jersey, with the exceptions noted above.

The cheapest method generally available for obtaining fresh fruits and vegetables in the Newark, New Jersey market and all wholesale receiving points in the Counties of Essex, Hudson, and Union is by direct rail freight in carlot quantities from basing point cities (with the exception of citrus fruits). As to Bergen, Passaic, Sussex and Morris, there are no primary receivers in these counties. Consequently, cartage is allowed by Appendix B.

On the basis of the foregoing information, the District Director has determined, and the accompanying order establishes, that the amount of freight and cartage from basing point to receiving point, inclusive of transportation tax, protective and accessorial services which may be allowed in determining maximum selling prices of the above referred to fresh fruits and vegetables at all wholesale receiving points in the counties set forth described in the order, shall be the amounts as stated in Appendices A and B of the order.

The action taken by the accompanying order and the freight and cartage allowances established are generally fair and equitable, and are not contrary to the purposes of Executive Orders Nos. 9250 and 9328 and the provisions of Maximum Price Regulation No. 426.

[F. R. Doc. 46-17302; Filed, Sept. 25, 1946; 9:07 a. m.]

[Region III Order G-66 Under Gen. Order 68]

HARD BUILDING MATERIALS IN ASHLAND, KY., AREA

For the reasons set forth in an opinion which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B under General Order 68, this order is issued:

SECTION 1. *What this order does.* This adopting order establishes dollars-and-cents maximum prices for the hard building materials listed in Table I, hereof, when sold at retail at or from any point within the Ashland, Kentucky, Area.

SEC. 2. *Area covered.* For the purposes of this order, the "Ashland, Kentucky, Area" consists of the Counties of Boyd, Carter, Elliott, Floyd, Greenup, Johnson, Lawrence, Magoffin, Martin and Pike in the State of Kentucky.

SEC. 3. *Applicability of Basic Order No. 1-B.* All the provisions of Basic Order No. 1-B, consistent with this Adopting Order No. G-66, are hereby adopted by, and incorporated by reference into, this order as though fully rewritten herein. If Basic Order No. 1-B is amended in any respect, all of the provisions of that order, as amended, shall likewise, without other action, be a part of this order.

All persons subject to this adopting order are also subject to, and should read and be familiar with, the provisions of Basic Order No. 1-B.

SEC. 4. *Maximum prices*—(a) *Price list.* The maximum prices for hard building materials covered by this order shall be those set forth in Table I which is annexed to, and made a part of, this order. Prices lower than the listed maximum prices may, of course, be charged or paid.

(b) *Delivery.* (i) The maximum prices listed in Table I hereof include free delivery,

(1) Of purchases of ten dollars value or more to any point within the corporate limits of the city or town wherein the seller's place of business is located, and,

(2) Of purchases in quantities of five tons or more, to any point within a radius of ten miles of the seller's place of business.

(ii) For delivery of purchases of quantities of five tons or more, of any hard building materials covered hereby to points beyond the free delivery zones described in subsection (i) (2) above, or, of purchases of ten dollars' value or more, but in quantities less than five tons, beyond the free delivery zones described in subsection (i) (1) above, the seller may make a delivery charge of not more than twenty cents for each mile, or fraction thereof, by which the point of delivery is located beyond said free delivery zones.

(iii) (1) For delivery of purchases of less than ten dollars' value within the zones specified in subsection (i) (1) above, the seller may make a charge of not more than fifty cents.

(2) For delivery of purchases of less than ten dollars' value beyond the zones specified in subsection (i) (1) above, the seller may charge not more than the amount permitted under subsection (ii) above, for sales of ten dollars' value, plus fifty cents.

(iv) No deduction need be made from the maximum prices listed in Table I, hereof, where the purchaser elects to make his own delivery.

(c) *Discounts and additions.* (i) No seller covered hereby shall discontinue or reduce any of the discounts which he offered in March, 1942 to different classes of customers.

(ii) Any seller covered hereby may make additional charges for sales of commodities listed in Table I, hereof, in broken packages of less than one unit, *Provided*, Such additional charges do not exceed those made by the seller in March 1942 for such sales.

This Order No. G-66 shall become effective June 25, 1946.

Issued June 11, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I OF ORDER NO. G-66 UNDER GENERAL ORDER NO. 68 MAXIMUM PRICES FOR SALES OF LISTED HARD BUILDING MATERIALS IN THE ASHLAND, KY., AREA

Commodity	Unit	Maximum price
Plaster:		
Hardwall	50 lb. bag	$0.65
Hardwall	100 lb. bag	1.10
Gauging	100 lb. bag	1.80

Hard density synthetic fibre board, ⅛ in., tempered (standard size).	Sq. ft	.12

Delivery charges: (i) The maximum prices listed in Table I hereof include free delivery.

(1) Of purchases of ten dollars' value or more to any point within the corporate limits of the city or town wherein the seller's place of business is located, and,

(2) Of purchases in quantities of five tons or more, to any point within a radius of ten miles of the seller's place of business.

(ii) For delivery of purchases of quantities of five tons or more, of any hard building materials covered hereby to points beyond the free delivery zones described in subsection (i) (2) above, or of purchases of ten dollars' value or more, but in quantities less than five tons, beyond the free delivery zones described in subsection (i) (1) above, the seller may make a delivery charge of not more than twenty cents for each mile, or fraction thereof, by which the point of delivery is located beyond said free delivery zones.

(iii) (1) For delivery of purchases of less than ten dollars' value within the zones specified in subsection (i) (1) above, the seller may make a charge of not more than fifty cents.

(2) For delivery of purchases of less than ten dollars' value beyond the zones specified in subsection (i) (1) above, the seller may charge not more than the amount permitted under subsection (ii) above, for sales of ten dollars' value, plus fifty cents.

(iv) No deduction need be made from the maximum prices listed in Table I, hereof, where the purchaser elects to make his own delivery.

Discounts: (i) No seller covered hereby shall discontinue or reduce any of the discounts which he offered in March, 1942, to different classes of customers.

(ii) Any seller covered hereby may make additional charges for sales of commodities listed in Table I, hereof, in broken packages of less than one unit: *Provided*, Such additional charges do not exceed those made by the seller in March 1942 for such sales.

NOTE: The maximum price set forth above for Portland Cement-Cloth Sacks includes a 25¢ deposit. This deposit shall be refunded to the purchaser when the sack is returned.

(3) This amendment shall become effective September 5, 1946.

Issued this 5th day of September 1946.

PAUL D. SHRIVER,
Acting Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 3 TO ORDERS G-2 AND G-6 THROUGH G-28 UNDER GENERAL ORDER NO. 68

This Amendment No. 3 to each of Orders No. G-2 and G-6 through G-28 under General Order No. 68, increases the maximum price of Portland Cement sold in 100 lb. cloth sacks by 5¢. This increase is made in order to comply with a directive from the National Office of the Office of Price Administration permitting sellers to charge a 25¢ deposit for the cloth sack. The customary deposit in Region VII has been 20¢ per sack, which was included in the maximum price and was refunded when the sack was returned. The increase of 5¢ in the maximum price and the requirement that 25¢ be refunded continues the price of the cement at the same level. This action is taken because of the higher cost of cloth sacks, and to insure the return of the sacks.

In view of the facts set forth herein, the Regional Administrator is of the opinion that the accompanying Amendment No. 3 to each of Orders No. G-2 and G-6 through G-28 under General Order 68 is proper and consistent with the purposes and standards of the Emergency Price Control Act of 1942, as amended, and the provisions of General Order 68 under which Orders No. G-2 and G-6 through G-28 were issued.

[F. R. Doc. 46-17310; Filed, Sept. 25, 1946; 9:04 a. m.]

[Twin Cities Order G-3 Under Gen. Order 68, Amdt. 3]

HARD BUILDING MATERIALS IN DULUTH, MINN., AREA

For the reasons set forth in the accompanying opinion issued simultaneously herewith, *It is ordered:*

1. The heading of the order is amended to read as set forth above.

2. The following items and maximum prices specified in the appendix are amended to read:

Commodity and unit	*Maximum price*
Metal lath, 2.5 lb., P. D. M., 26 gauge; sq. yd	$0.28
Metal lath, 2.5 lb., galv., 26 gauge; sq. yd	.31
Metal lath, 3.4 lb., galv., 24 gauge; sq. yd	.365
Corner bead, expanded type, per 1,000 lin. ft	43.00
Asphalt roofing, 90 lb., M. S., per roll	2.75
Asphalt or tarred felt roofing, 15 lb., per roll	2.55
Asphalt or tarred felt roofing, 30 lb., per roll	2.55
Asphalt shingles, 210 lb. (3 in 1) thick butt, per sq	6.20
Asphalt shingles, 165 lb., 2 tab., hex., per sq	5.00
Fibre insulation board, 25/32" asphalt sheathing, per 1,000 sq. ft	60.00

3. This amendment shall become effective July 31, 1946.

4. Issued this 29th day of July 1946.

CAREL C. KOCH,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 3 TO ORDER NO. G-3 UNDER GENERAL ORDER NO. 68

Pursuant to the provisions of General Order No. 68, maximum prices established by order thereunder may be adjusted when they are no longer fair and equitable in the area designated by such order. Recently, manufacturers of certain types of roofing material and all metal lath and accessories were granted increases in their maximum prices. Such lawful increases have increased costs of resellers of the items to an extent which makes the maxmum prices of such sellers under this order no longer fair and equitable and require adjustment. The accompanying amendment accomplishes that result.

Inadvertently, the order was designated Order No. 3 Under General Order No. 68 instead of Order No. G-3 Under General Order No. 68. Since orders issued under general order are designated with a G before the numeral, the amendment makes the necessary correction.

CAREL C. KOCH,
District Director.

[F. R. Doc. 46-17167; Filed, Sept. 24, 1946; 9:00 a. m.]

[Region VII Orders G-2 and G-6 through G-28 Under Gen. Order 68, Amdt. 3]

BUILDING AND CONSTRUCTION MATERIALS IN DENVER REGION

Orders No. G-2 and G-6 through G-28 under General Order No. 68, Amendment No. 3. Maximum Prices for Retail Sales of Certain Building and Construction Materials in Region VII. Docket No. 7-GO 68-2 and 6 through 28 (c).

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator of Region VII pursuant to the provisions of General Order 68, Orders No. G-2 and G-6 through G-28 are each amended in the following respects:

(1) The maximum price set forth in Table I for Portland Cement-Cloth Sacks shall be increased 5¢ per sack.

(2) A note is added to the bottom of Table I to read as follows:

[Newark Rev. Order G-2 Under MPR 426]

FRESH FRUITS AND VEGETABLES IN NEW JERSEY AREA

For the reasons stated in an accompanying opinion, this order is issued.

SECTION 1. *What this order does.* This order establishes the amount of freight from "basing point" to "wholesale receiving point" which may be added to the maximum f. o. b. shipping point price to determine the maximum selling prices for certain fresh fruits and vegetables at all "wholesale receiving points" in the area described in section 2 below.

SEC. 2. *Area covered.* This order applies in Counties of Camden, Burlington, Atlantic, Cape May, Gloucester, Salem, Cumberland, Hunterdon, Mercer, Middlesex, Monmouth, Ocean, Warren and Somerset, New Jersey.

SEC. 3. *Amount of freight allowance.* The amount of freight from basing point to wholesale receiving point which may be added to the maximum basing point price for the purpose of determining maximum selling prices of the items covered by this regulation at all wholesale receiving points in the area described above, and in the markets they serve, shall be the amounts set forth in the Appendices hereunto annexed. This amount includes all allowances, if any, for protective and other accessorial services and all taxes on transportation costs. The amount of freight from basing point to the City of Newark, and all wholesale receiving points in the Counties of Camden, Burlington, Atlantic, Cape May,

Gloucester, Salem, Cumberland, Hunterdon, Mercer, Middlesex, Monmouth, Ocean, Warren and Somerset, New Jersey, is hereinafter set forth in Appendix A. Appendix B establishes additional transportation allowances (cartage) to all wholesale points in the fourteen counties as enumerated, when the commodities listed in Appendix B are transported from New York, Newark, New Jersey or Philadelphia, Pennsylvania.

SEC. 4. *Meaning of terms.* The terms "basing point" and "wholesale receiving point" are to be understood as defined in Maximum Price Regulation No. 426.

SEC. 5. This Revised Order G–2 revises and supersedes Order G–2 issued by the Newark District Office, June 14, 1946.

SEC. 6. *Effective date.* This revised order shall become effective on August 13, 1946 at 12:01 a. m.

Snap beans (green or wax)	Bushel, 28 pounds	.18
Spinach	Bushel, 18 pounds	.18
Sweetpotatoes	45–50 pounds	.25

NOTE: Above transportation allowance not permitted on carlot or trucklot receipts in wholesale markets direct from shipping point.

OPINION ACCOMPANYING REVISED ORDER NO. G–2 UNDER SECTION 8 (A) (7) OF MAXIMUM PRICE REGULATION NO. 426

Maximum selling prices of fresh fruits and vegetables and citrus fruits (under price control) for all sales except at retail at all wholesale receiving points in the Counties of Camden, Burlington, Atlantic, Cape May, Gloucester, Salem, Cumberland, Hunterdon, Mercer, Middlesex, Monmouth, Ocean, Warren and Somerset, New Jersey, and in the markets they serve, are determined under Maximum Price Regulation No. 426. Prices are established by adding markups to the "delivered price" at the receiving point. The delivered price is established by adding to the maximum basing point price the cost of freight from the basing point to the wholesale receiving point. Section 8 (a) (7) of Maximum Price Regulation No. 426 authorizes and directs the Regional Administrators, and such District Directors as may be authorized by the appropriate Regional Administrator, to determine for each item covered by that regulation, the cheapest customary and generally available method of transportation from the basing point to each wholesale receiving point within their jurisdiction, and to establish the amount of freight cost which may be added to the basing point price for the purpose of establishing maximum selling prices at each wholesale receiving point and in the markets they serve. This authority was delegated by order to the District Director of the Newark District by the Regional Administrator for Region II.

An examination of the facts discloses that there is no wholesale receiving point of any consequence within the Southern New Jersey area. Wholesalers located in the fourteen counties comprising the southern area of New Jersey are supplied directly from the primary receiving markets which are located in New York, New York, Newark, New Jersey and Philadelphia, Pennsylvania. Appendix A which is a part of the accompanying order accordingly establishes the delivered price at such primary receiving point which includes transportation, protective and accessorial services and taxes thereon. Appendix B of the accompanying order establishes additional transportation (cartage) allowances from the primary receiving market to the wholesalers' establishment.

An examination of the facts and consultation with produce dealers whose places of business are located in the southern area of the State of New Jersey, discloses that the commodities covered by the accompanying order are customarily transported to the three primary receiving markets indicated above by rail in direct carlots from the basing points and thence by truck from such primary receiving points to the various wholesalers' places of business in the southern area.

The cheapest method generally available for obtaining fresh fruits and vegetables in the fourteen southern counties is by direct rail freight in carload quantities from basing point cities to the primary receiving markets mentioned above and thence by truck to the respective wholesale establishment.

On the basis of the foregoing information, the District Director has determined, and the accompanying order establishes, that the amount of freight and cartage from basing point to receiving point, inclusive of transportation tax, protective and accessorial services which may be allowed in determining maximum selling prices of the above referred to fresh fruits and vegetables at all wholesale receiving points in the counties set forth described in the order, shall be the amounts as stated in Appendices A and B of the order.

The action taken by the accompanying order and the freight and cartage allowances established are generally fair and equitable, and are not contrary to the purposes of Executive Orders Nos. 9250 and 9328 and the provisions of Maximum Price Regulation No. 426.

[F. R. Doc. 46–17303; Filed, Sept. 25, 1946; 9:07 a. m.]

[Green Bay Order 7 Under Gen. Order 68, Amdt. 2]

HARD BUILDING MATERIALS IN MANITOWOC, KEWAUNEE AND DOOR COUNTIES, WIS.

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Green Bay District Order No. 7 issued under the authority of General Order No. 68 is amended in the following respect:

The following item is amended to read:

Metal lath 3.4 lb. painted diamond mesh, sq. yd	$0.36

This Amendment No. 2 to Green Bay District Order No. 7 under General Order No. 68 shall become effective August 30, 1946.

Issued this 30th day of August 1946.

F. L. EARP,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. 7 UNDER GENERAL ORDER NO. 68

Pursuant to General Order No. 68, Green Bay District Order No. 7 was issued the 22d day of May 1946 and was amended to comply with section 2 (t) of the Emergency Price Control Act of 1942 on August 24, 1946.

Amendment No. 2 to Green Bay District Order No. 7, which this opinion accompanies, corrects an error in typography which was made in Amendment No. 1. It is the opinion of the District Director that this amendment is generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46–17309; Filed, Sept. 25, 1946; 9:04 a. m.]

[Region V Revocation of Order G–2 Under Gen. Order 68]

STOCK SCREEN GOODS SOLD IN ARKANSAS AND LOUISIANA AREA

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to the authority vested in the Regional Administrator of Region V, of the Office of Price Administration by General Order No. 68,

It is hereby ordered, That:

Order No. G–2 issued under General Order No. 68 establishing maximum prices at the retail level for stock screen goods when sold in the area comprising the States of Arkansas and Louisiana, issued at Dallas, Texas, on the 21st day of February, 1946, by W. A. Orth, Regional Administrator, Region V, be and the same is hereby revoked.

This order shall become effective this 29th day of August 1946.

Issued at Dallas, Texas, this 23d day of August 1946.

W. A. ORTH,
Regional Administrator.

OPINION ACCOMPANYING ORDER REVOKING ORDER NO. G–2 ISSUED UNDER GENERAL ORDER NO. 68

The accompanying order revokes Order No. G–2 issued under General Order No. 68 which established maximum prices for the sale at the retail level of stock screen goods when sold in the States of Arkansas and Louisiana.

Prior to the issuance of said Order No. G–2, all sales covered by it were covered by Maximum Price Regulation No. 381.

Pursuant to the Emergency Price Control Act of 1942, as amended, and the Price Control Extension Act of 1946, Maximum Price Regulation No. 381 is being amended which will have the effect of increasing prices established by Order No. G–2 issued under the General Order No. 68. Maximum Price Regulation No. 381, as amended, will also provide the same simplified specific item pricing of stock screen goods as was formerly accomplished by Order No. G–2.

For these reasons said Order No. G–2 is being revoked, and all sales formerly covered by the terms of said order will automatically, at the effective date of the accompanying order, be covered by Maximum Price Regulation 381.

[F. R. Doc. 46–17130; Filed, Sept. 23, 1946; 8:45 a. m.]

[Little Rock Order 8 Under Gen. Order 68, Amdt. 1]

BUILDING MATERIALS IN PHILLIPS AND LEE COUNTIES, ARK.

Pursuant to the Emergency Price Control Act of 1942, as amended, General Order No. 68, and Delegation of Authority Order No. 126, and in accordance with Order No. 8 issued under General Order No. 68 by the Little Rock District Director of the OPA, and for the reasons set forth in the accompanying opinion, this amendment is issued. The statement of considerations involved in the issuance of this Amendment No. 1 to Order No. 8 under General Order No. 68, has been issued simultaneously herewith and filed with the Division of the Federal Register.

It is ordered, That the title and contents of section VII of Order No. 8, under General Order No. 68, is amended to read as follows:

SEC. VII. *Adjustment to reflect increase in supplier's price.*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum prices provides that all resellers, including those subject to area orders, issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order.

It is also ordered, That Appendix A to Order No. 8, under General Order No. 68, is amended in the following respects:

(1) The dollars-and-cents prices for specific items of hard building materials contained in Order No. 8, issued under General Order No. 68, are revised to the extent set forth in Appendix A attached hereto and dated August 23, 1946.

(2) The original Appendix A to Order No. 8, under General Order No. 68, is hereby by reference dated August 23, 1946.

(3) The hard building material item fire clay powder, originally set forth in Appendix A of Order No. 8, under General Order No. 68, is deleted from said appendix.

(4) The hard building material item masonry mortar, originally set forth in the Order as 65# bag, is corrected to read 70# bag.

(5) The hard building material item Keene's Cement, priced in the Original Order at $3.50 per 100# sack, is corrected to show a price of $2.55 per 100# sack.

This Amendment No. 1 shall become effective August 23, 1946.

Issued at Little Rock, Arkansas, this 23d day of August 1946.

ROBERT P. HALL,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 8 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Little Rock District Office by General Order No. 68 and Order of Delegation No. 126 issued by the Regional Administrator of Region V, and and in accordance with the provisions of Order No. 8, under General Order No. 68, Amendment No. 1 to the above order has been issued.

Order No. 8, under General Order No. 68, was issued by the Little Rock District Director of the OPA on June 28, 1946, and became effective July 1, 1946. This order established dollars-and-cents ceiling prices for various items of hard building materials set forth in Appendix A thereof when sold at retail in the geographical area comprising Phillips and Lee Counties, Arkansas.

Subsequent to March 31, 1946, various industry-wide adjustments have been granted manufacturers of hard building materials; and under the provisions of the Emergency Price Control Act as amended, the retail industry is entitled to its March, 1946 mark-up on those items on which the manufacturer has received adjustments. Therefore, in view of increases granted the producer of hard building materials, it has been necessary, under the provisions of the Emergency Price Control Act of 1942, as amended, to amend and revise the retail price list of hard building material items (as of August 23, 1946) to the extent set forth in the accompanying Amendment. Such action by the District Director has been found necessary under the act and will remove all inequities now existing in the original order.

Section VII of Order No. 8 provides that retailers subject to the order are required to absorb all price increases granted the producer of hard building materials. However, under the provisions of the Emergency Price Control Act, as amended, the retail industry is entitled to its March, 1946 mark-up on items on which the manufacturer has received price increases. Because of this provision of the act as amended, it has been necessary to amendment Order No. 8 to conform to the new provisions of the Act. It is also for this reason that this amendment is being issued.

Since the issuance of the above order, it has been found that certain items of building materials have been either suspended from price control or covered by other regulations, and also that items set forth in the order have been inaccurately described because of typographical errors. Therefore, this Amendment is also being issued to delete items exempt from control or covered by other regulations, as well as to correct typographical errors which appeared in the description of items of hard building materials in the original order.

[F. R. Doc. 46-17123; Filed, Sept. 23, 1946; 8:47 a. m.]

[Region III Order G-4 Under SSR 47 Under RMPR 165, Amdt. 1]

RETAIL SHOE REPAIR SERVICES IN CLEVELAND REGION

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator by § 1499.680 (a) of Supplementary Service Regulation No. 47 to Revised Maximum Price Regulation No. 165, *It is ordered:*

Order No. G-4 under Supplementary Service Regulation No. 47 to Revised Maximum Price Regulation No. 165 is amended by inserting West Virginia immediately after Kentucky in the phrase, "retail shoe repair services in the States of Ohio, Kentucky, Indiana (except in the County of Lake), and Michigan (except in the Detroit Area which is limited to Wayne, Oakland and Macomb Counties, Michigan)", wherever said phrase appears in said order.

This Amendment No. 1 shall become effective August 26, 1946.

Issued August 26, 1946.

J. F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-4 UNDER SUPPLEMENTARY SERVICE REGULATION NO. 47 TO REVISED MAXIMUM PRICE REGULATION NO. 165

The accompanying Amendment No. 1 to Order No. G-4 under Supplementary Service Regulation No. 47 to Revised Maximum Price Regulation No. 165, establishes maximum prices for the service of furnishing shoe repair services in the State of West Virginia.

West Virginia was not included in the original order No. G-4 under Supplementary Service Regulation No. 47 to Revised Maximum Price Regulation No. 165, although a study was made of shoe repair prices in this Region which included representative sellers in the State of West Virginia prior to the issuance of said order. However, at the time said order was issued, the Charleston District Office of the Office of Price Administration requested that the State of West Virginia be excluded from the Regional Order.

Since the study of shoe repair prices in this Region included representative sellers in the State of West Virginia and since the conditions upon which the Regional Order was determined existed generally in the State of West Virginia, it has been determined for the same reasons given in the Opinion accompanying Order No. G-4 under Supplemenetary Service Regulation No. 47 to Revised Maximum Price Regulation No. 165, that the maximum prices established in such order should also be established for such services in the State of West Virginia.

[F. R. Doc. 46-17297; Filed, Sept. 25, 1946; 9:09 a. m.]

[Region VI Order G-12 Under Rev. SO 119, Amdt. 1]

HARDWOOD PRODUCTS CORP.

FLUSH AND PANEL TYPE DOORS IN NEENAH, WISC., AREA

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, *It is ordered:*

Order No. G-12 under Revised Supplementary Order No. 119 is amended in the following respects: By striking out the words "flush doors" wherever they appear and substituting in lieu thereof the words "flush and panel type doors."

This amendment shall become effective immediately.

Issued this 28th day of August 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-12 UNDER REVISED SUPPLEMENTARY ORDER NO. 119

On August 1, 1946, this Office issued Order No. G-12 under the authority of Revised Supplementary Order No. 119 establishing maximum prices for sales of doors manufactured by the Hardwood Products Corporation, Neenah, Wisconsin (hereinafter referred to as the "manufacturer").

The manufacturer had applied for adjustment in its maximum prices of both flush and panel type doors in accordance with the provisions of Revised Supplementary Order No. 119. The coverage of Order No. G-12, however, was incorrectly shown.

This present amendment is issued to make the correction to include panel type doors in the coverage of the order. The provisions of this amendment to Order No. G-12 under Revised Supplementary Order No. 119 are deemed to be fair and equitable and in accordance with the provisions of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17298; Filed, Sept. 25, 1946; 9:09 a. m.]

[Region 1 Rev. Order G-70 Under RMPR 122, Corr. to Amdt. 5]

SOLID FUELS IN BOSTON REGION

In Price Schedule I, the prices for Pennsylvania Bituminous which are set forth as "$7.93", "$8.15" and "$8.37" are corrected to read as follows: "$7.83", "$8.05" and "$8.27".

Issued this 28th day of August 1946.

ELDON C. SHOUP,
Regional Administrator.

[F. R. Doc. 46-17300; Filed, Sept. 25, 1946; 9:08 a. m.]

[Raleigh Order G-3 Under Gen. Order 50, Amdt. 4]

MALT AND CEREAL BEVERAGES IN CHARLOTTE, N. C., AREA

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Raleigh, North Carolina District Office of Region IV of the Office of Price Administration by General Order No. 50, issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17, issued May 5, 1944, the Appendices A and B in Order G-3 under General Order No. 50 are amended as follows:

APPENDIX A

PART 1—BOTTLED BEERS AND ALES

Commodity and brand or trade name	Maximum price per bottle					
	Group 1B		Group 2B		Group 3B	
	12 oz.	32 oz.	12 oz.	32 oz.	12 oz.	32 oz.
BEER						
Add Heirloom Premium Beer	$0.26	$0.52	$0.21	$0.47	$0.19	$0.44
Add Special Beer Van Wych Beer	.31	.....	.26	.....	.23	.....
ALE						
Add Pabst Blue Ribbon Ale	.26	.52	.21	.47	.19	.44
Red Lion Ale	.26	.52	.21	.47	.19	.44

APPENDIX B

BEER						
Add Yankee-Pilsner Beer	$0.21	$0.47	$0.19	$0.44	$0.17	$0.42
Danborg Beer	.21	.47	.19	.44	.17	.42
Old New England Beer	.21	.47	.19	.44	.17	.42

This Amendment 4 shall become effective September 10, 1946.

Issued this 9th day of September 1946.

THEODORE S. JOHNSON,
District Director.

OPINION ACCOMPANYING AMENDMENT 4 TO ORDER G-3 UNDER GENERAL ORDER NO. 50

Order G-3 under General Order No. 50 was issued by the District Director of the Charlotte, North Carolina, District Office of the Office of Price Administration on the 13th day of July, 1945, and established specific maximum prices for malt and cereal beverages sold at retail for consumption on or about the premises. Since the order was issued, several new brands of beer have been sold in the area covered by the order. Upon the usual basis for pricing beers at retail the cost at wholesale of such beers required that the order be amended to list such beers. Amendment 4 makes the necessary changes.

The prices fixed by Order G-3, as amended by Amendment 4, are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, Executive Order No. 9250 and Executive Order No. 9328.

[F. R. Doc. 46-17306; Filed, Sept. 25, 1946; 9:05 a. m.]

[Raleigh 2d Rev. Order G-1 Under Gen. Order 50, Amdt. 4]

MALT AND CEREAL BEVERAGES IN RALEIGH, N. C., AREA

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Raleigh, North Carolina District Office of Region IV of the Office of Price Administration by General Order No. 50, issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17 issued May 5, 1944, the Appendix A in 2d Revised Order No. G-1 under General Order No. 50 is amended as follows:

APPENDIX A

PART 1—BOTTLED BEERS AND ALES

Commodity and brand or trade name	Maximum prices per bottle					
	Group 1B		Group 2B		Group 3B	
	12 oz.	32 oz.	12 oz.	32 oz.	12 oz.	32 oz.
Add Special beer Van Wyck beer	$0.31	.....	$0.26	.....	$0.23	.....

This Amendment 4 shall become effective September 10, 1946.

Issued this 9th day of September 1946.

THEODORE S. JOHNSON,
District Director.

OPINION ACCOMPANYING AMENDMENT 4 TO 2D REVISED ORDER NO. G-1 UNDER GENERAL ORDER NO. 50

Second Revised Order No. G-1 under General Order No. 50 was issued by the District Director of the Raleigh, North Carolina District Office of the Office of Price Administration on the 14th day of May 1945, and established specific maximum prices for malt and cereal beverages sold at retail for consumption on or about the premises. Since the order was issued, several new brands of beer have been sold in the area covered by the order. Upon the usual basis for pricing beers at retail the cost at wholesale of such beers required that the order be amended to list such beers. Amendment 4 makes the necessary changes.

The prices fixed by Second Revised Order No. G-1, as amended by Amendment 4, are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, Executive Order No. 9250 and Executive Order No. 9328.

VOLUME 11 NUMBER 189

Washington, Friday, September 27, 1946

The President

PROCLAMATION 2704

GENERAL PULASKI'S MEMORIAL DAY, 1946

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS Count Casimir Pulaski, Polish patriot who came from overseas to fight for the freedom of America, gave his life on October 11, 1779, as a result of wounds received while making a gallant cavalry charge at the siege of Savannah; and

WHEREAS the memory of General Pulaski's supreme contribution to the cause of American liberty has profoundly inspired many thousands of devoted citizens of this land who look to Poland as their ancestral home; and

WHEREAS by a joint resolution approved June 21, 1946 (Public Law 418, 79th Congress), the Congress has authorized me to issue a proclamation designating October 11, 1946, as General Pulaski's Memorial Day for the observance and commemoration of the death of General Pulaski:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby proclaim October 11, 1946, the one hundred and sixty-seventh anniversary of the death of that gallant warrior, as General Pulaski's Memorial Day; and I invite the people of the United States to observe the day in appropriate ceremonies in schools and churches or other suitable places, and I call upon officials of the Government to have the flag of the United States displayed on all Government buildings on that day.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 25th day of September in the year of our Lord nineteeen hundred and forty-six, and of the Independence of the United States of America the one hundred and seventy-first.

[SEAL]

HARRY S. TRUMAN

By the President:

W. L. CLAYTON,
Acting Secretary of State.

PROCLAMATION 2705

COLUMBUS DAY, 1946

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS Christopher Columbus is to be remembered as a man who "• • • found a world, and had no chart, Save one that faith deciphered in the skies;" and

WHEREAS we who are even now engaged in searching out a new world of peace and justice and respect for human rights should endeavor in a thousand and one ways to emulate that magnificent faith which brought Columbus to the Western World; and

WHEREAS by a joint resolution of Congress approved April 30, 1934 (48 Stat. 657), the President is authorized and requested to issue a proclamation designating October 12 of each year as Columbus Day:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby designate Saturday, October 12, 1946, as Columbus Day. I direct, also, that on that day the flag of the United States be displayed on all Government buildings; and I invite the people of the United States to observe the day in schools and churches, or other suitable places, with appropriate ceremonies expressive of the public sentiment befitting the anniversary of the discovery of America.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 25th day of September in the year of

EXECUTIVE ORDER 9784

PROVIDING FOR THE MORE EFFICIENT USE AND FOR THE TRANSFER AND OTHER DISPOSITION OF GOVERNMENT RECORDS

By virtue of the authority conferred on me by the Constitution and statutes, in order to provide that Government records may be utilized to maximum advantage and disposed of expeditiously when no longer needed and in the interest of more efficient internal management of the Government, it is hereby ordered as follows:

1. The head of each agency shall establish and maintain an active continuing program for the effective management and disposition of its records. Agencies shall retain in their custody only those records that are needed in the conduct of their current business, and except as herein otherwise provided, shall promptly cause all other records to be offered for transfer to the National Archives or proposed for other disposition in accordance with law.

2. No records shall be transferred by one agency to the custody of another agency without the approval of the Director of the Bureau of the Budget except for their retirement to the National Archives, as a temporary loan for official use, or as may be otherwise required by statute or Executive order. Any records in the custody of any agency which, in the judgment of the Director of the Bureau of the Budget, are not needed in the conduct of its current business and are needed in the current business of another agency shall be transferred to the latter agency if, in the opinion of the Director, the public interest will be best served by such transfer, provided that any portion of such records deemed to have enduring value may be accessioned by the National Archives and placed on loan to the agency to which the records are physically transferred. In making determinations concerning the transfer of records the Director shall give due regard to the importance of having Government records which are not confidential made generally available to Government agencies and to the public.

3. The Civil Service Commission, with the approval of the Director of the Bureau of the Budget, is authorized to promulgate regulations, not inconsistent with law and regulations of the National Archives Council, requiring and governing the establishment, content, transfer among agencies, and other disposition of personnel records, provided that no agency shall be required to release or transfer confidential material affecting any of its employees.

4. Except as provided in the preceding paragraph 3, the Director of the Bureau of the Budget with the advice and assistance of the National Archives shall conduct such inspections, require such reports, and issue such directives and regulations as he may deem necessary to carry out the provisions of this order.

5. No transfer of records (except in connection with a termination or transfer of functions) shall be made hereunder when the head of the agency having custody of the records shall certify that such records contain confidential information, a disclosure of which would endanger the national interest or the lives of individuals. Whenever any records are transferred which contain information procured under conditions restricting its use, the use of such records shall continue to be limited by such conditions. The provisions of this order shall not be deemed to require the transfer or other disposition of records or authorize access to records in contravention of law or of regulations of the National Archives Council.

6. Definitions

(a) The term "agency" as used herein shall be deemed to mean any executive department or independent establishment, including any government corporation that is operated as an instrumentality of the Federal Government.

(b) The term "records" as used herein shall apply to all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics, made or received by any agency of the United States Government in pursuance of Federal law or in connection with the transaction of public or organizational business and preserved or appropriate for preservation by that agency as evidence of or because of its informational value in relation to its organization, functions, policies, personnel, operations, decisions, procedures, financial transactions, and all other activities of an administrative, management, or program nature.

HARRY S. TRUMAN

THE WHITE HOUSE,
September 25, 1946.

Regulations

TITLE 7—AGRICULTURE

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[War Food Order 141-1]

PART 1468—GRAIN

DISTILLERS' GRAIN QUOTAS

Pursuant to the authority vested in me by War Food Order No. 141 (11 F. R. 2217, 3997), it is hereby ordered as follows:

§ 1468.15 *Grain quotas for distillers of beverage spirits*—(a) *Definitions.* (1) "Daily mashing capacity" means the quantity of grain mashed in a particular plant during any five consecutive calendar days from January 1, 1945, to the effective date of this order, divided by 5.

(2) Any term not specifically defined herein shall have the meaning set forth for such term in War Fpod Order No. 141.

(b) *Quotas for September 1946.* Except as hereinafter otherwise provided:

(1) Every distiller may, in each plant operated by him during the month of September 1946, use grain or grain products for the manufacture of distilled spirits for beverage purposes in a quantity not in excess of the following quantity:

(i) Three times the daily mashing capacity of such plant plus

(ii) Three thousand bushels;

Grain already used in September is chargeable against this quota; *Provided, however,* That any distiller whose total allocation of grain and grain products under this order for all plants operated by him is less than 6,000 bushels may use not in excess of 6,000 bushels.

(2) No distiller shall use corn grading No. 1, 2, or 3, when purchased, or wheat or wheat products.

(3) No distiller shall during the month of September 1946, use rye in the manufacture of distilled spirits for beverage purposes in a quantity in excess of 6 percent of the total quantity of grain and grain products authorized to be used by him during such month, or in excess of 2,000 bushels, whichever quantity is the greater; *Provided, however,* That in no case shall the quantity of rye used by any distiller exceed 15 percent of the total quantity of grain and grain products authorized to be used by him during such month under the terms of this order.

(c) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using grain, grain products, alcohol, alcoholic beverages or spirits. Any person who willfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, and provision of this order.

(d) *Territorial scope.* This order shall apply within the 48 States and the District of Columbia.

(e) *Effective date.* This order shall become effective at 12:01 a. m., e. s. t., September 26, 1946.

(E. O. 9280, 7 F. R. 10179; E. O. 9577, 10 F. R. 8087; W. F. O. 141, 11 F. R. 2217, 3997)

Issued this 26th day of September, 1946.

[SEAL] C. C. FARRINGTON,
Assistant Administrator.

TABLE OF CHANGES IN MATERIAL HERETOFORE PUBLISHED IN FEDERAL REGISTER

Correction

In the table in Federal Register Document 46-15339, appearing on page 9988 of the issue for Wednesday, September 11, 1946, the tenth section under the column headed "Original sec. No." should read: "503.6-1".

TITLE 10—ARMY: WAR DEPARTMENT

Chapter I—Aid of Civil Authorities and Public Relations

PART 104—RELATIONS WITH AGENCIES OF PUBLIC CONTACT

PUBLIC RELATIONS

In revision of AR 600-700, August 16, 1946, §§ 104.1 through 104.6 inclusive, are superseded by the following:

Sec.
104.1 General.
104.2 Definition.
104.3 Responsibility for public relations.
104.4 Public relations operations in the field.
104.5 War Department Public Relations Division.
104.6 Public activities by military personnel.

AUTHORITY: §§ 104.1 to 104.6, inclusive, issued under R. S. 161; 5 U. S. C. 22.

§ 104.1 *General.* (a) Because of the importance of the Military Establishment in the defense and welfare of the Nation and its traditional role of a public servant, it is the responsibility of the Army to insure that the American public is fully and accurately informed concerning the purpose and activities of the Army as well as its place in the American community.

(b) The broad mission of public relations is to maintain close and friendly understanding between the Army and the public through the dissemination of information, the attainment of public recognition, and the maintenance of public confidence in the Military Establishment, to insure efficient and adequate military security for the United States.

§ 104.2 *Definition.* Public relations is defined as any planned program or procedure which will elicit public understanding and good will. It includes continuous dissemination of information to the public, participation in community life, and a line of conduct by uniformed personnel which will contribute to public understanding and appreciation of the military service.

§ 104.3 *Responsibility for public relations.* (a) The fostering of proper public relations is a responsibility of command, extending through all echelons and ranks. All members of the Army are representatives of the service before the public and share that responsibility in their conduct.

(b) Commanders of all echelons, units, and military installations are charged with the conduct of public relations within their jurisdiction.

(c) The Signal Corps and the Army Air Forces will maintain the official pictorial files of the War Department appropriate to their respective activities.

(d) The War Department Public Relations Division is the agency designated to deal with the public on matters of concern to the War Department and the Army as a whole. The Army Air Forces is authorized to deal with the public in purely air matters in accordance with the broad over-all policies established by the War Department. Subject to established policies and regulations governing the security of military information as promulgated by the Director of Intelligence, War Department General Staff, the Public Relations Division initiates policies which, upon approval, will guide the conduct of public relations with lower echelons and in the field.

§ 104.4 *Public relations operations in the field.* (a) A public relations officer will be appointed to the staff of each post, camp, or station and to the staffs of regiments, air force groups, and equivalent units or higher commands. Public relations officers of posts, camps, stations, and units larger than regiments will have the status of special staff officers. Wherever conditions permit this should be their principal duty. Appointments will be made by unit and installation commanders.

(b) Subject to the supervision of the commanding officer, and in consonance with approved security policy, the duties of a public relations officer include the following:

(1) Advice to the commanding officer on public relations matters, particularly on relations between the command and the nearby communities, but excluding functions of representatives of the Civil Affairs Division and other military Government agencies.

(2) Liaison with civilian groups, including the dissemination of information pertaining to the command to local information media.

(3) Review, under established policies, of material for dissemination to the public and of material for publication in unit and post newspapers.

(4) Reception of all representatives of local and national information media and assistance to them in obtaining desired material relating to the command.

(c) On posts where two or more military units or activities are situated, public relations responsibility will rest with the senior permanent commander stationed there. All public relations activities under his jurisdiction will be coordinated as he may direct.

(d) Direct communication between public relations offices regardless of command channels is authorized to expedite the exchange of information. Such communication, for the purpose of coordination and mutual assistance, in no way infringes upon the responsibility and authority of commanders.

§ 104.5 *War Department Public Relations Division.* (a) The War Department Public Relations Division will initiate policies to govern the conduct of public relations within lower echelons and in the field. All agencies dealing with public relations and related activities will operate under the policies laid down by the War Department.

(b) The Public Relations Division, consisting of the Chief, Public Relations Division, and assigned personnel, will function under the supervision of the Chief of Public Information, War Department. Policies initiated by the division will be approved by the Chief of Public Information prior to publication as War Department policies.

(c) Material of general interest to the public emanating from the War Department will be released through the Public Relations Division unless other provision is made by the division.

(d) To accomplish its mission the Public Relations Division must have timely knowledge of War Department plans and actions. To this end each staff division, service, and major command will, as a general rule, make available all information desired by the Chief, Public Relations Division. When, in the opinion of the head of the division, chief of service, or major commander, information should be withheld in the national interest, decision by higher authority will be obtained. Release of information obtained from any War Department agency upon request will be released only after coordination with originating agency.

(e) Direct communication is authorized between the Public Relations Division and commanders of posts, camps, stations, installations, field and oversea commands on matters pertaining to public relations.

§ 104.6 *Public activities by military personnel.* (a) Members of the Army of the United States usually appear before the public in an official or semiofficial capacity and so contribute to the impression formed by the public. Consequently, care will be taken to differentiate between personal ideas and opinions, and official plans and purposes. Furthermore, their military status limits the extent to which members of the Army may, with propriety, make public pronouncements on political, diplomatic, legislative, administrative measures, and on matters the treatment of which tends to prejudice discipline, to involve superior officers in controversy, to interpret official publications, or to define military procedure.

(b) Within the bounds of security and propriety the writing of articles, books, and other related material intended for publication, and the engaging in public and private discussions on appropriate occasions, by officers and enlisted men, on topics of military, professional, or general interest concerning the Army, or in the interest of the national defense, are authorized and desirable.

(c) Literary activities of military personnel not covered by (a) and (b) of this section are limited only by the dictates of propriety and good taste. For additional references dealing with public activities of military personnel see AR 600-10. [AR 600-700, 10 Jan. 46]

[SEAL] H. B. LEWIS,
Brigadier General,
Acting The Adjutant General.

Chapter VII—Personnel

PART 701—RECRUITING AND INDUCTION FOR THE ARMY OF THE UNITED STATES

ENLISTMENTS AND REENLISTMENTS IN THE REGULAR ARMY

Pending the revision of Part 701, pertaining to enlistments and reenlistments in the Regular Army, paragraph 10b (11 FR 4649) is rescinded and the following substituted therefor:

10. *Periods of enlistment.* • • •

b. In addition, any qualified and acceptable member of the Army of the United States (including members of the Regular Army, members of the Enlisted Reserve Corps on active duty, and members of the National Guard of the United States), currently serving on active duty, is authorized, upon completion of at least 6 months in his current term of such active service, to enlist for a period of 1 year plus the period of any reenlistment furlough granted at the beginning of such enlistment, except that, a member of the Regular Army, serving in an enlistment contracted on or after 1 June 1945, will not be discharged prior to the expiration of such current enlistment period for the purpose of reenlisting in the Regular Army. Enlistments or reenlistments contracted in accordance with the provisions of this subparagraph must be accomplished on the day following the date of discharge.

(41 Stat. 765; 10 U. S. C. 42) [WD Cir 110, 17 Apr 1946 as amended by Cir 267, 5 Sep 1946]

[SEAL] H. B. LEWIS,
Brigadier General,
Acting The Adjutant General.

TITLE 24—HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Premium Payments Reg. 8, Amdt. 2]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

CAST IRON SOIL PIPE

Section 805.8 (Premium Payments Regulation 8) (11 F. R. 8523, 9674) is amended as follows:

1. By inserting a paragraph numbered (c) (5), following paragraph (c) (4), which new paragraph shall read as follows:

§ 805.8 *Cast iron soil pipe.* • • •

(c) *Establishment of quota.* • • •

(5) (i) The quota for each operating plant, as established under paragraph (c) (1) of this section, shall be reduced by the excess, if any, of the total amount of 5" and larger pipe sizes produced by such plant during the month of August, 1946 over 7% of its total production during that month. Such reduction in quota shall apply only with respect to claims filed for the months determined as follows:

(*a*) For an operating plant whose August 1946 production of 5" and larger pipe sizes represented more than 7%, but less than 10%, of its total production for that month, the reduced quota for such plant shall be applied only with respect to claims filed for the month of September 1946 and for no other month.

(*b*) For an operating plant whose August 1946 production of 5" and larger pipe sizes represented 10% or more, but less than 20%, of its total production for that month, the reduced quota for such plant shall be applied only with respect to claims filed for each of the months of September and October 1946 and for no other month.

(*c*) For an operating plant whose August 1946 production of 5" and larger pipe sizes represented 20% or more of its total production for that month, the reduced quota for such plant shall be applied only with respect to claims filed for each of the months of September, October and November 1946 and for no other month.

(ii) In the case of any producer with two or more plants, none of the plants of such producer will be eligible for the reduction in quota provided for in this subparagraph (c) (5) unless the total combined production in all the plants of such producer of 5" and larger pipe sizes during the month of August, 1946 exceeded 7% of the total combined production in all such plants during that month.

2. This amendment is effective as of September 1, 1946.

3. Issued this 27th day of September 1946.

WILSON W. WYATT,
Housing Expediter.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 211—INTERPRETATIVE RELEASES RELATING TO ACCOUNTING MATTERS (ACCOUNTING SERIES RELEASES)[1]

Sec.

211.0 Treatment of Federal income and excess profits taxes and surtax on undistributed profits.
211.1 Treatment of losses resulting from revaluation of assets.
211.2 Independence of accountants—relationship to registrent.
211.3 Treatment of investments in subsidiaries in consolidated statements.
211.4 Administrative policy on financial statements.
211.5 Treatment of dividends on corporation's own capital stock held in sinking-fund.
211.6 Treatment of excess of proceeds from sale of treasury stock over cost thereof.
211.7 Commonly cited deficiencies in financial statements filed under the Securities Act of 1933 and the Securities Exchange Act of 1934.
211.8 Creation by promotional companies of surplus by appraisal.
211.9 Presentation of stock having preferences on involuntary liquidation in excess of par or stated value.
211.10 Treatment of unamortized bond discount and expense applicable to bonds retired prior to maturity with proceeds from sale of capital stock.
211.11 Consolidation of Foreign Subsidiaries of Domestic Corporations.
211.12 Adoption of Regulation S–X (17 CFR, Part 210); Amendments to Form 15 and Form 17.
211.13 Form of accountants' certificate.
211.15 Description of surplus accruing subsequent to effective date of quasi-reorganization.
211.16 Disclosure of charge of deficit to capital surplus without approval of stockholders.
211.17 Use of natural business year as basis for corporate reporting.
211.19 In the Matter of McKesson & Robbins, Inc.; summary of findings and conclusions.
211.21 Amendment of Rules 2–02 and 3–07 of Regulation S–X (17 CFR, 210.2–02, 210.3–07).
211.22 Independence of Accountants-Indemnification by Registrant.
211.23 Treatment of Federal Income and Excess Profits Taxes.
211.25 Procedure in Quasi-Reorganization.
211.26 Interpretation of Rule 5–02 of Regulation S–X (17 CFR, 210.5–02) regarding the omission of an analysis of registrant's surplus accounts.
211.30 Auditing of Inventories under Wartime Conditions.
211.32 Accountants' certificates—Application of Rules 2–02, 3–07, 4–02, and 4–04 of Regulation S–X (17 CFR, 210.2–02, 210.3–07, 210.4–02, 210.4–04) regarding requirements as to disclosure by independent public accountants of the principle followed in including or excluding subsidiaries in consolidated statement.
211.35 Disclosure to be given to certain types of provisions and conditions that limit the availability of surplus for dividend purposes.
211.36 Treatment by an investment company of interest collected on defaulted bonds applicable to a period prior to the date on which such bonds and defaulted interest were purchased.
211.37 Amendment of Rule 2–01 of Regulation S–X (17 CFR, 210.2–01); qualifications of accountants certifying to financial statements required to be filed with the Commission. Superseded by Release No. 44 (17 CFR, 211.44).
211.38 Treatment in financial statements of post-war refunds of Federal excess profits taxes.
211.41 Conditions under which companies reporting on Forms 10–K and N–30A–1 may file copies of their regular annual reports to stockholders in place of certain of the financial statements required to be filed by such forms.
211.42 Disclosure to be made in financial statements with respect to reserves established to provide for possible losses and other contingencies arising out of existing war conditions.
211.44 Amendments to Rule 2–01 of Regulation S–X (17 CFR, 210.2–01) regarding qualifications of accountants certifying to financial statements required to be filed with the Commission.
211.45 Treatment of premiums paid upon the redemption of preferred stock.
211.47 Independence of certifying accountants—Summary of past releases of the Commission and a compilation of hitherto unpublished cases or inquiries arising under several of the Acts administered by the Commission.
211.50 The propriety of writing down goodwill by means of charges to capital surplus.
211.51 Disposition of Rule II (e) proceedings against certifying accountant failing to observe appropriate audit requirements as to financial statements of broker-dealer under Rule X–17A–5 (17 CFR, 240.17a–5).
211.52 Presentation in financial statements of Federal income and excess profits taxes in cases where a company for which individual statements are filed pays its tax as a member of a consolidated group of companies.
211.53 Statement of the Commission's opinion regarding "Charges in Lieu of Income Taxes" and "Provisions for Income Taxes" in the Profit and Loss Statement.
211.54 Statement upon adoption of Amendment of Rule 5–03 of Regulation S–X (17 CFR, 210.5–03).
211.55 Proposed revision of Article 6 of Regulations S–X (17 CFR, Part 210).

[1] The interpretative opinions included herein are opinions issued in the past for the guidance of the public by members of the Commission's staff (or in a few instances by the Commission) and heretofore made public pursuant to Commission authorization. The opinions are to be read as of the date of original publication and in the context of the rules, statutes and circumstances then existing. However, opinions or portions of opinions which are clearly obsolete have been omitted. While it is not clear that publication of interpretative opinions of this kind in the FEDERAL REGISTER is required, it is believed that such publication may be helpful to the public and that it falls within the spirit of the Administrative Procedure Act. Where rules referring to an opinion have been renumbered since the issuance of the opinion, the new designations are indicated in brackets.

§ 211.0 *Treatment of Federal income and excess profits taxes and surtax on undistributed profits.* Recently you requested my[1] opinion with respect to the treatment of Federal income and excess profits taxes and surtax on undistributed profits in financial data included in registration statements filed with this Commission.

In my opinion, provision should be made in the profit and loss or income statement for each of these taxes, whether the period covered by such statements is a full year or only a part thereof. If such provision is based, of necessity, substantially on factors the certainty of which is in doubt, this fact should be indicated and footnotes should be appended to the financial statements explaining such qualification.

It may, however, be impracticable, if not impossible, because of uncertainty with respect to the registrant's dividend policy or the status of contract provisions restricting dividend payments, to determine or accurately estimate the liability for surtax on undistributed profits. In this event, no provision for this tax need be made but the omission thereof should be explained by footnote to the financial statements indicating therein the approximate maximum amount involved.

The surtax on undistributed profits should be shown in the profit and loss or income statement separately from other Federal income taxes and if no such tax is incurred by the company, that fact should be indicated. [Securities Act Release No. 1210, January 6, 1937]

§ 211.1 *Treatment of losses resulting from revaluation of assets.* The question under discussion concerns the propriety of a charge (representing a reduction from net cost values of plant and equipment to a valuation established by the executive officers of your company) to capital surplus instead of to earned surplus. The capital surplus to which this charge was made was created pursuant to resolutions of the stockholders and directors providing for the reduction of the par value of the issued and outstanding common stock for the specific purpose of taking care of this revaluation of plant and equipment.

It is my[1] understanding that the plant and equipment were originally built for, and have until a few years ago been operated in, the manufacture of a class of goods the production of which has been discontinued. Under these conditions, some of the buildings and equipment became useless or obsolete, several of the buildings having been razed prior to the write-off and others subsequently. Other portions of the plant were of unduly large capacity for planned future requirements. The write-downs in question were made in accordance with the instructions of the directors and stockholders as stated in their respective resolutions; namely, "to the degree considered proportionate to the condition of each such asset with respect to the state

[1] Chief Accountant.

of being partially or wholly obsolete, of over-capacity, of lessened utility value, of too high book value in comparison with replacement cost, or unduly costly in operation."

To my mind, the revaluation of the assets involved was simply a recognition by the company, as of the date of the write-down, of an accumulation of depreciation in values incidental to the risks involved in the ordinary operation of its business. This depreciation did not occur as of a given date; it took place gradually over a period of years coincident with the evolution of the industry. Thus it was an element of production costs applicable to an indefinite period prior to the write-down and as such would have been charged against income had it been discerned and provided for currently.

It is my conviction that capital surplus should under no circumstances be used to write off losses which, if currently recognized, would have been chargeable against income. In case a deficit is thereby created, I see no objection to writing off such a deficit against capital surplus, provided appropriate stockholder approval has been obtained. In this event, subsequent statements of earned surplus should designate the point of time from which the new surplus dates.

Accordingly, in my opinion, the charge here in question should have been made against earned surplus. In view of the stockholder action that has been taken, I see no objection to the deficit in earned surplus resulting from this write-off being eliminated by a charge to the capital surplus created by the restatement of capital stock. [Accounting Series Release No. 1, April 1, 1937]

§ 211.2 *Independence of accountants; relationship to registrant.* The Securities and Exchange Commission from time to time has been called upon to determine whether, in a particular case, the relationship existing between a registrant and an accountant was of such a nature as to prevent him from being considered independent for the purpose of certifying financial statements to be filed in connection with the registration of securities under the Securities Act of 1933 and the Securities Exchange Act of 1934.

In response to such requests, the Commission has taken the position that an accountant cannot be deemed to be independent if he is, or has been during the period under review, an officer or director of the registrant or if he holds an interest in the registrant that is significant with respect to its total capital or his own personal fortune.

In a recent case involving a firm of public accountants, one member of which owned stock in a corporation contemplating registration, the Commission refused to hold that the firm could be considered independent for the purpose of certifying the financial statements of such corporation and based its refusal upon the fact that the value of such holdings was substantial and constituted more than 1 percent of the partner's personal fortune. [Accounting Series Release No. 2, May 6, 1937]

§ 211.3 *Treatment of investments in subsidiaries in consolidated statements.* You have requested my[1] opinion concerning the propriety of the practice whereby the subject company, in consolidating its accounts with those of its subsidiaries, eliminated from its investment account only the par or stated value of the stocks of subsidiaries.

It is my understanding that:

(a) The aggregate cost of these investments to the parent company was in excess of its proportionate interest in the equities in the net assets of the subsidiaries as shown on the books of the latter.

(b) The parent's equities in the surpluses of the subsidiaries at the dates their stocks were acquired by the parent were included as part of consolidated surplus.

(c) The amount of the parent's investment account not eliminated was shown as an asset on the consolidated balance sheet, designated "excess of cost over par or stated value of the securities of subsidiaries eliminated in consolidation."

The acquisition by one company of the controlling stock interest in another constitutes, in effect, the acquisition of the assets of the acquired company subject to its liabilities and the interests of minority stockholders. The values of such assets, after deducting the liabilities and minority interests, constitute the equity of the parent in the subsidiary and the book value of such equity is equal to the par or stated value of the stock(s) owned by the acquiring company plus the portion of the surplus(es) of the subsidiary applicable thereto.

The purpose of a consolidated balance sheet is to reflect the financial condition of a parent company and its subsidiaries as if they were a single organization. Thus, in such a balance sheet, the parent company's equities in net assets of subsidiaries are substitued for its investments therein. This substitution is effected by eliminating from the parent company's investment account an amount equal to the par or stated value of the subsidiaries' stocks owned by the parent and its proportionate share of their surpluses at acquisition. Any part of the parent's investment account remaining (representing the excess cost thereof over the equities in the net assets represented thereby) may properly be retained among the consolidated assets.

The foregoing consolidation procedure, which, in my[1] opinion, conforms to sound and generally accepted accounting practice, has not been followed by the subject company. Instead, by eliminating only an amount equal to the par or stated value of the subsidiaries' stocks from the parent company's investment account, consolidated assets and surplus are overstated in an amount equal to the parent's proportionate share of the surpluses of the subsidiaries as at the respective dates of the acquisition of their stocks. [Accounting Series Release No. 3, September 13, 1937]

§ 211.4 *Administrative policy on financial statements.* In cases where financial statements filed with this Commission pursuant to its rules and regulations under the Securities Act of 1933 or the Securities Exchange Act of 1934 are prepared in accordance with accounting principles for which there is no substantial authoritative support, such financial statements will be presumed to be misleading or inaccurate despite disclosures contained in the certificate of the accountant or in footnotes to the statements provided the matters involved are material. In cases where there is a difference of opinion between the Commission and the registrant as to the proper principles of accounting to be followed, disclosure will be accepted in lieu of correction of the financial statements themselves only if the points involved are such that there is substantial authoritative support for the practices followed by the registrant and the position of the Commission has not previously been expressed in rules, regulations, or other official releases of the Commission, including the published opinions of its chief accountant. [Account Series Release No. 4, April 25, 1938]

[1] Chief Accountant.

§ 211.5 *Treatment of dividends on corporation's own capital stock held in sinking-fund.* You have asked whether it is proper for a corporation to treat as income dividends applicable to shares of its own stock held in a sinking-fund.

In my[1] opinion dividends on a corporation's own stock held in its treasury or in sinking or other special funds should not be included in income. The treatment of such dividends as income results in an inflated showing of earnings inasmuch as the earnings from which dividends are paid have already been included in income or surplus either during the current or prior accounting periods.

When a corporation's own stock is held in a sinking or other special fund, the requirements in respect of which are such that earnings accruing to the securities held therein must be added to the fund, dividends applicable to the corporation's own stock so held should, nevertheless, not be treated as income. [Accounting Series Release No. 5, May 10, 1938]

§ 211.6 *Treatment of excess of proceeds from sale of treasury stock over cost thereof.* Question has been raised with respect to the proper treatment of an item of $488,211.83 representing "excess of proceeds from sale of 12,200 reacquired shares of the company's capital stock over the cost thereof." These shares represent part of 41,400 shares of the capital stock of the registrant, a manufacturing company, reacquired by it prior to the year 1934 "for the purpose of resale when market conditions improved."

Under the laws of most states there are certain legal restraints upon the issuance of new shares that do not apply to the sale of treasury shares. However, from an accounting standpoint, there appears to be no significant difference in the final effect upon the company between (1) the reacquisition and resale of a company's own common stock and (2) the reacquisition and retirement of such stock together with the subsequent issuance of stock of the same class.

It is recognized that when capital stock is reacquired and retired any surplus arising therefrom is capital and should be accounted for as such and that the full proceeds of any subsequent issue should also be treated as capital. Transactions of this nature do not result in corporate profits or in earned surplus. There would seem to be no logical reason why surplus arising from the reacquisition of the company's capital stock and its subsequent resale should not also be treated as capital.

In my [1] opinion the $488,211.83 excess of proceeds from the sale of 12,200 reacquired shares of this registrant's capital stock over the cost thereof should be treated as capital stock or capital surplus as the circumstances require. [Accounting Series Release No. 6, May 10, 1938]

§ 211.7 *Commonly cited deficiencies in financial statements filed under the Securities Act of 1933 and the Securities Exchange Act of 1934.* As an aid to registrants and their accountants in the preparation of financial statements to be filed with this Commission pursuant to the Securities Act of 1933 and the Securities Exchange Act of 1934 there is submitted herewith a list of the more common deficiencies which it has been found necessary to cite in connection with financial data included in registration statements filed with this Commission.

It will be noted that many of the deficiencies cited do not involve any important problem in accounting and that some involve simply the failure to follow the express regulations and instructions of the Commission.

It is thought that if particular attention is given to the items comprising this list and to the instructions pertaining thereto, contained in the Commission's forms and regulations, considerable inconvenience and expense to registrants will be avoided and the work of the Commission's staff in reviewing the statements filed will be greatly facilitated.[2]

(a) *Accountants' certificates.* (1) Accountant's opinion in respect of (1) the financial statements of, and (2) the accounting principles and procedures followed by the registrant, not clearly stated.

(2) Use of equivocal phrases such as "subject to the foregoing," "subject to the above comments," "subject to comments and explanations in exhibits," "subject to the accompanying comments," etc.

(3) A reasonably comprehensive statement as to scope of the audit made not included in the certificate.

(4) Adequate audit not made by certifying accountant. In this connection attention is directed to the regulation that accountants shall not omit "any procedure which independent public accountants would ordinarily employ in the course of a regular annual audit."

(5) Failure to certify all financial statements required to be submitted, e. g., failure to certify profit and loss statement as well as balance sheet, and failure to certify statements of registrant as well as statements of registrant and subsidiaries consolidated.

(6) Financial statements and supporting schedules covered by the certificate not clearly identified.

(7) Certifying that the accounting principles followed by the registrant are in accordance with the system of accounts prescribed by a State regulatory body, or in a particular industry, but without indicating whether the practice of the registrant is in accordance with generally accepted accounting principles and procedures.

(8) Effect upon the financial statements of substantial changes in accounting policies of the registrant not commented upon and explained by the certifying accountants.

(9) Effect upon the financial statements of the registrant's failure to follow generally accepted accounting principles and procedures not commented upon and explained by the certifying accountants.

(10) Disclaimer of responsibility on the part of the certifying accountants with respect to matters clearly within their province.

(11) Reservations on the part of the certifying accountants with respect to matters not within their province which might indicate that apparently the accountants were not satisfied that such matters as legal titles, outstanding liabilities, etc., were properly reflected in the financial statements.

(12) Certificate undated, or not manually signed.

(b) *Consolidated financial statements*—(1) *Balance sheets.* (i) Failure to include footnote indicating the method followed in dealing with the difference between the investment in subsidiaries, as shown in the parent's books, and the parent's equity in net assets of the subsidiaries, as shown in the books of the latter and to state the amount of such difference.

(ii) Amount of the minority interest in the capital and in the surplus of the subsidiaries consolidated not stated separately in the consolidated balance sheet.

(iii) Failure to state, as required, the principle adopted in determining the inclusion and exclusion of subsidiaries in each consolidated balance sheet.

(iv) Improper treatment, in consolidation, of surpluses of subsidiary companies existing at date of acquisition by parent company. (See Accounting Series Release No. 3) (17 CFR, 211.3)

(2) *Profit and loss statements.* (i) Preparation of consolidated profit and loss statement on a different basis than the consolidated balance sheet, e. g., inclusion in the consolidated profit and loss statement income and expenses of subsidiaries whose assets and liabilities are not reflected in the consolidated balance sheet but for which separate balance sheets are submitted.

(ii) Failure to eliminate intercompany items, or to explain satisfactorily the reasons for not eliminating such items.

(c) *Balance sheet*—(1) *Assets.* (i) Failure to state total of current assets and to designate the total.

(ii) Inclusion among current assets of assets not realizable within 1 year, excepting where recognized trade practices, which are stated, permit otherwise.

(iii) Classification, in the parent company's balance sheet, of receivables from subsidiaries as current assets, in cases where the subsidiaries classify their obligations to the parent company as noncurrent.

(iv) Failure to indicate, where required, assets hypothecated or pledged.

(v) Failure to disclose, with adequate explanation, assets held conditionally.

(vi) Classification as marketable securities, securities not having a ready market.

(vii) Failure to state, where required, the basis of determining the balance sheet amounts of investment or marketable securities. In this connection the term "book value" is unacceptable.

(viii) Failure to state parenthetically the aggregate quoted value of investment and marketable securities when not shown on basis of current market.

(ix) Failure to reduce the carrying value of investments in subsidiaries to the extent of any dividends received thereon out of surplus of such sibsidiaries existing at date of acquisition.

(x) Inclusion in trade accounts receivable of accounts not properly within such category.

(xi) Failure to state separately in the balance sheet, or in a schedule therein referred to, major classes of inventory such as (a) raw materials; (b) work in process; (c) finished goods; and (d) supplies, or to use any other classification reasonably informative.

(xii) Basis of determining the amounts of the inventories as shown in the balance sheet not stated.

(xiii) Reserve for depreciation on appreciated value of fixed assets not provided.

(xiv) Inclusion in carrying values of fixed assets, expenditures not properly includible therein, such as discount or commissions or capital stock and promotion expenses.

(xv) Method used in amortizing debt discount and expense not stated.

(xvi) Failure to explain what provisions have been made for writing off discounts and commissions on capital stock.

(xvii) Where treasury stock is carried as an asset, failure to state reasons for such practice.

(xviii) Failure to state separately the amount of reacquired long-term debt of the registrant.

(xix) Absence of a reserve for doubtful accounts not explained.

(d) *Liabilities.* (1) Failure to state total of current liabilities and to designate the total.

(2) Inclusion, with general reserves, of accruals for taxes which are actual liabilities.

(3) Failure to state separately by years, where required, the total amounts of the respective maturities of long-term debt.

(4) Accounts and notes payable, and accruals, not segregated as required.

(5) Deferred income not set out separately.

(6) Failure to disclose, with full particulars, all contingent liabilities.

(e) *Capital stock.* (1) Aggregate capital stock liability of each class of stock not stated separately.

(2) Failure to show the number of shares authorized, in treasury, and outstanding.

(3) Assigned or stated value of no par value stock not indicated.

(f) *Surplus.* (1) Failure to show in balance sheet the division of surplus into various classes, in cases where registrant has differentiated in its accounting for surplus.

(2) Use of capital surplus to absorb write-down in plant and equipment which should have been charged to earned surplus. (See Accounting Series Release No. 1 (17 CFR. 211.1))

(3) Failure to date earned surplus account after deficit has been eliminated (with stockholders' approval) by a charge to capital surplus.

(4) Failure to state amount of surplus restricted (a) because of acquisition of company's own stock and (b) to the extent of the difference between par, assigned or stated value of preferred stock and the liquidating value of such stock.

(5) Deficit not clearly designated in the balance sheet.

(6) Treatment of surplus of subsidiary at date of acquisition as earned surplus.

(g) *Profit and loss statement.* (1) Charges made to surplus rather than profit and loss for expenses or losses properly attributable to current operations.

(2) Crediting profit and loss rather than surplus for sale of assets previously written off by a charge to surplus.

(3) When opening and closing inventories are used in determining cost of goods sold, failure to state basis of determining the amount of such inventories.

(4) Where no depletion or depreciation has been provided, failure to indicate that fact and the effect upon current operations in the profit and loss statement.

(5) Failure to state basis of conversion of all items in foreign currencies, and the amount and disposition of resulting unrealized profit and loss when significant.

(6) Gross sales net of discounts, returns, and allowances not shown in profit and loss statement.

(7) Failure to state separately, as required by instructions, gross sales and operating revenues when the lesser amount is more than 10 percent of the sum of the two items.

(8) Selling, general, and administrative expenses not segregated in profit and loss statement.

(9) Failure to explain in footnote to profit and loss statement, effect of change in significant accounting principle or practice.

(10) Failure to show separately from other taxes surtax on undistributed profits or failure to state expressly that no liability existed for such tax. (See Securities Act of 1935 Release No. 1210.)

(11) Principle followed in determining the cost of securities sold not stated, e. g., "average costs," "first-in, first-out," "specific certificate or bond."

(12) Failure to state basis of taking profits into income when sales are made on an installment or other deferred basis.

(13) Failure to refer in profit and loss statement to supporting schedule when analysis of certain expenses is presented in such schedule.

(h) *Schedule of property, plant, and equipment.* (1) Failure to show property by major classifications such as land, buildings, equipment, leaseholds, etc., where required.

(2) Nature of changes in property, plant, and equipment during the year not explained clearly, and accounts affected not indicated.

(3) Failure to explain fully policy of amortization and/or depreciation of property, plant, and equipment credited directly to asset accounts.

(i) *Schedule of reserves for depreciation, depletion, and amortization of fixed assets.* (1) Failure to follow instructions: "State the company's policy with respect to the provisions for depreciation, depletion, and amortization or reserves created in lieu thereof during the fiscal year."

(2) Failure to comply with the instructions: "Where practicable, reserves shall be shown to correspond with the classifications of property in [property schedule] separating especially depreciation, depletion, and amortization."

(3) Charges to reserves other than retirements, renewals, and replacements, not adequately described as required by instructions.

(j) *Schedule of intangible assets.* (1) Intangible assets not listed by major classes as required by instructions.

(2) Failure to state policy with respect to provisions for depreciation and amortization of intangible assets in cases where a separate schedule for such reserves is not provided.

(k) *Schedule of reserve for depreciation and/or amortization of intangible assets.* (1) Failure to comply with instructions: "State the company's policy with respect to the provisions for depreciation and amortization of intangible assets, or reserves created in lieu thereof."

(l) *Schedule of funded debt.* (1) Each issue of funded debt not designated fully as required by instructions.

(m) *Schedule of reserves.* (1) Failure to reflect all changes in reserves during the year and to properly describe major charges thereto.

(n) *Schedule of capital stock.* (1) Failure to list each issue of capital stock of all corporations in a consolidated group, whether eliminated in consolidation or not.

(2) Treatment of unissued stock as treasury stock.

(o) *Schedule of surplus.* (1) Failure to show division of surplus into classes when required by instructions.

(2) Analysis of surplus account not included either in balance sheet or as a continuation of the profit and loss statement, or in a schedule referred to in the balance sheet.

(3) Failure to describe in detail miscellaneous additions to and deductions from surplus.

(p) *Schedule of analysis of certain expenses in profit and loss statement.* (1) Amounts charged to costs and those charged to other profit and loss items not segregated.

(2) Failure to report in this schedule all expenses pertaining to maintenance and repairs.

(3) Items in this schedule at variance with other statements or schedules.

(q) *Schedule of income from dividends.* (1) Failure to show as required in column C of this schedule the "amount of equity in net profit and loss for the fiscal year" of affiliates, notwithstanding the fact that no dividends were received during the year from affiliates.

(2) Failure to show separately for each affiliate the "amount of dividends" and the "amount of equity in net profit and loss for the fiscal year" when registrant does not meet requirements that these items may be reported in total only when substantially all the stock and funded debt of the subsidiaries are held within the affiliated group. [Accounting Series Release No. 7, May 16, 1938]

§ 211.8 *Creation by promotional companies of surplus by appraisal.* In connection with a registration statement, an industrial company in its promotional stages with no record of business or earning capacity, filed a balance sheet in which property, plant, and equipment, acquired in an arm's length transaction at a cost of $200,000, was carried at $720,042.81 which represented its "sound value" derived from an independent appraisal of the estimated "replacement value new less (observed) depreciation." Thus the balance sheet figure exceeded cost by $520,042.81, which excess was carried as "surplus arising from revaluation of property."

In the appraisal report filed, the term "sound value" was qualified by the appraiser as being "The value for use by a going concern having prospects for the profitable use, at normal plant capacity, of the properties appraised."

The registrant was required to amend its balance sheet to eliminate the surplus and to show the fixed assets at cost. [Accounting Series, Release No. 8, May 20, 1938]

§ 211.9 *Presentation of stock having preferences on involuntary liquidation in excess of par or stated value.* Inquiry has been made with respect to the proper presentation in statements filed with the Commission of preferred or other senior classes of capital stock having preferences on involuntary liquidation in excess of the par or stated value. In such cases the method of presentation is of importance in order to reflect fully and adequately the equities of the various classes of stockholders, and to indicate the status of surplus particularly from a dividend standpoint.

As required by the regulations of the Commission there should be set forth in the balance sheet for each class of stock (1) the number of shares (a) authorized and (b) outstanding; (2) the par value per share or, if no par value, the stated or assigned value per share, if any; and (3) the aggregate capital stock liability thereof. In addition, it is my [1] opinion that in the case of preferred stock the preferences on involuntary liquidation

[1] Chief Accountant.

[2] Letter from Chief Accountant, to accountants practicing before the Securities and Exchange Commission.

if other than the par or stated value, and the dividends in arrears, if any, should be shown (preferably in the balance sheet) both per share and in the aggregate for each class of such stock.

As a means of further disclosure when the excess involved is significant there should be shown in the balance sheet or in footnotes thereto (1) the difference between the aggregate preference on involuntary liquidation and the aggregate par or stated value; (2) a statement that this difference, plus any arrears in dividends, exceeds the sum of the par or stated value of the junior capital and the surplus, if such is the case; and (3) a statement as to the existence of any restrictions upon surplus growing out of the fact that upon involuntary liquidation the preference of the preferred stock exceeds its par or stated value.

The Securities and Exchange Commission also issued today the following statement of administrative policy in connection with the problem discussed in the above opinion.

In addition to requiring disclosure of the pertinent facts outlined in the above opinion, it is the administrative policy of the Commission when the excess involved is significant to require as a means of further disclosure that there be filed as an exhibit an opinion of counsel as to whether there are any restrictions upon surplus by reason of the difference between the preference of the preferred stock on involuntary liquidation and its par or stated value and also as to any remedies available to security holders before or after the payment of any dividend that would reduce surplus to an amount less than the amount by which the aggregate preference of such stock on involuntary liquidation exceeds its aggregate par or stated value. Such opinion of counsel should set forth any applicable constitutional and statutory provisions and should refer to any decisions which, in the opinion of counsel, are controlling. [Accounting Series Release No. 9, December 23, 1938]

§ 211.10 *Treatment of unamortized bond discount and expense applicable to bonds retired prior to maturity with proceeds from sale of capital stock.* Question has frequently been raised as to the proper treatment to be accorded unamortized debt discount and expense applicable to bonds which, prior to maturity, have been retired by the use of funds derived from the sale of capital stock. As generally presented, the inquiry relates to the propriety of carrying such unamortized debt discount and expense as a deferred charge and amortizing it over the remaining portion of the original life of the retired bonds.

While it may be permissible to retain on the books and amortize any balance of discount and expense applicable to bonds refunded by other evidences of indebtedness, similar treatment is not ordinarily acceptable, in my[1] opinion, when funds used to retire the existing bonds are derived from the sale of capital stock. In such cases it is my opinion that, as a general rule, sound and generally accepted accounting principles and practice require that the unamortized balance of the debt discount and expense applicable to the retired bonds should be written off by a charge to earnings or earned surplus, as appropriate, in the accounting period within which the bonds were retired. [Accounting Series, Release No. 10, December 23, 1938].

§ 211.11 *Consolidation of foreign subsidiaries of domestic corporations.* Inquiry has been made as to the propriety of including in consolidation with domestic corporations foreign subsidiaries whose operations are effected in terms of restricted foreign currencies, or whose assets and operations are endangered by the war conditions prevailing abroad.

Foreign currency restrictions and war conditions are of such significance with respect to subsidiaries operating in affected territories as to require, in my[1] opinion, that registrants consider carefully their policy with respect to the inclusion of such subsidiaries in consolidated financial statements. It is my opinion in general that the consolidation of such foreign subsidiaries with the domestic parent and other domestic or foreign subsidiaries may be misleading. However, if, notwithstanding the existence of exchange restrictions and war conditions affecting certain foreign subsidiaries at the time the financial statements are prepared, the inclusion of such foreign subsidiaries in the consolidated statements is considered desirable and in the particular case will not prevent a clear and fair presentation of the financial condition and the results of operations of the registrant and its subsidiaries, their inclusion is ordinarily permissible. If included, however, disclosure should be made as to the effect, insofar as this can be reasonably determined, of foreign exchange restrictions and war conditions upon the consolidated financial position and operating results of the registrant and its subsidiaries.

In any case, the existence of currency restrictions and war conditions requires that careful consideration should also be given to the question of providing, and, if provision appears necessary, the extent of such provision, for impairment of the registrant's investment in such foreign subsidiaries by reason of the prevailing conditions and losses suffered by such subsidiaries. [Accounting Series Release No. 11, January 10, 1940]

§ 211.12 *Adoption of Regulation S–X (17 CFR, Part 210)—Amendments to Form 15*[2] *and Form 17 (17 CFR, 249.15, 217).* In connection with the adoption of Regulation S–X (17 CFR, Part 210), the following statement was made.

> The new single accounting regulation will be substituted for the several existing sets of accounting instructions which have heretofore applied to the various forms. Moreover, the new regulation will have the effect of simplifying amendments and interpretations of accounting rules, inasmuch as such amendments and interpretations will apply to a single regulation instead of to a variety of requirements.

In general, the new regulation constitutes a codification of existing instructions as to the form and contents of financial statements as now contained in each of the several forms listed. Instructions as to the dates and periods for which financial statements are required to be filed, however, will be found in the respective forms.

As now organized, the regulation is subdivided into 12 articles. The first 4 articles contain rules of general application. The next 6 articles prescribe, respectively, the form and content of financial statements for commercial and industrial companies, investment companies, insurance companies, committees issuing certificates of deposit, bank holding companies, and natural persons. The remaining articles deal with the form and content of surplus statements and supplementary schedules. A comprehensive table of contents is included.

Some new requirements have been added in the new regulation, principally with a view to obtaining more informative disclosure as to such accounting policies as depreciation, depletion, and maintenance and as to such matters as advances to and from affiliates, directors, and officers. Additional flexibility to the requirements has been given through extension of the rules permitting the elimination of schedules and special information when the amounts involved are not material.

The new regulation incorporates a considerable number of the many well-considered and helpful suggestions received from the large group of accountants, registrants, and others, including representatives of the professional societies, to whom a tentative revision of the instructions was made available.

In view of the pending proceedings in the matter of *McKesson and Robbins, Incorporated*, and several other cases, the rules governing certification by accountants, although altered and clarified in some respects, have been retained in substantially the form now found in the General Rules and Regulations under the Securities Act of 1933 (17 CFR, Part 239) and the several major forms under the 1933 and 1934 Acts. Upon completion of these proceedings, however, such rules are to be reconsidered with a view to revisions deemed necessary as a result of these cases.

The amendment to Form 15 and Form 17 and to the related instruction books is not reproduced here. [Accounting Series Release No. 12, February 21, 1940]

§ 211.13 *Form of accountants' certificate.* In a recent case a registrant had not maintained cash books, journals, other books of original entry or ledgers during the period covered by the financial statements filed by it with the Commission. Its files, however, contained original underlying data such as canceled checks, check stubs, bank statements, purchase orders, vendors' invoices, sales orders, and duplicate sales invoices.

In order to prepare financial statements it was deemed necessary by the independent accountants who certified the statements that the cash transactions and sales be recorded in books of original entry and in turn posted to a general ledger and that the books then be adjusted to an accrual basis. The entry and analysis of the transactions in formal books of account were carried out by one of the firm's junior accountants, loaned on a per diem basis, and by an officer of the company. The accountants maintained that this preliminary work consisted merely of classifying and summarizing records of transactions prepared by employees of the company at the time of the transaction. However, in many cases notations as to the purpose of disbursements had not been made on the check stubs contemporaneously with the transaction and accordingly it was necessary to rely in such cases upon the memory of an officer of the registrant in classifying and recording disbursements.

Upon the completion of this preliminary work the certifying accountants found that satisfactory determination had not been made of the balances in certain of the registrant's asset, liability and income and expense accounts. In the second or audit phase of the engagement the accountants therefore deemed it necessary to undertake work of a special nature and in some instances to make original determinations as to the amounts of such accounts.

As an illustration of the condition of the accounts, it may be pointed out that in making their examination the accountants determined that certain payments by customers had not been reflected in the accounts. Upon inquiry the accountants learned that the amounts unaccounted for had been received for the account of the registrant by a company affiliated with the registrant, or by an officer of the registrant, or by the registrant's principal vendor. These amounts were thereafter taken into consideration by the accountants in determining the balances due to the affiliate, the officer, and the supplier, as well as in accounting for the proceeds of sales and the balances due from customers. It thus appears that the accountants rather than employees of the registrant made the only realistic determination of these particular balances and that such determination was not based solely on underlying records of the registrant made by its employees, contemporaneously with the transaction.

After thus ascertaining that a balance of $54,000 was owing by the registrant to its affiliate as of December 31, 1938, the accountants requested a written confirmation of this amount from the affiliate. After a confirmation of the amount had been received, the accountants in the course of other necessary work learned of transactions which appeared to reduce the amount owing by the registrant to its affiliate to $39,000. Confirmation of this new amount, $15,000 less than the original balance, was also requested and obtained from the affiliate in due course. This difference was in large part accounted for by a deposit by the registrant with a vendor in connection with a purchase order. Subsequently, the vendor paid over to the registrant's affiliate the amount of the deposit as a refund. However, the officer responsible for the accounts of both the registrant and its affiliate apparently had no knowledge of this transaction until discovered by the accountants and called to his attention. Thus it appears that at no time had either of these companies independently determined, the status of the account between them. Similar confusion existed in the registrant's accounts with its officers and with its principal vendor.

Such circumstances as these led the accountants to extend their investigations to such an extent as to approach the character of a detailed audit. Upon the completion of the audit entries were prepared by the accountants for the purpose of adjusting the registrant's accounts to reflect the proper assets and liabilities and to place the accounts on an accrual basis. In my[1] opinion, these entries were of a character and extent that would not ordinarily be effected in the course of an audit such as is contemplated by the form of certificate furnished by these accountants.

Notwithstanding these unusual circumstances the certificate furnished by the accountants to accompany the financial statements filed with the Commission stated that:

> In connection therewith we examined or tested accounting records of the corporation and other supporting evidence and obtained information and explanations from its officers and employees and made subtantial tests of the income and expense accounts for the period under review.

The certificate also stated that the financial statements:

> • • • fairly present, in accordance with accepted principles of accounting consistently maintained by the corporation during the period under review its position • • • and the results of its operations • • •.

Disclosure of certain of the procedures followed by the accountants was made in notes to the registrant's statement of profit and loss. In addition various notes to the registrant's balance sheet contained partial disclosure as to the scope of the accountants' audit with respect to particular balance sheet accounts.

In my opinion when a registrant during the period under review has not maintained records adequate for the purpose of preparing comprehensive and dependable financial statements, that fact should be disclosed. If, because of the absence or gross inadequacy of accounting records maintained by a registrant, it is necessary to have essential books of account prepared retroactively and for the accountant to enlarge the scope of the audit to the extent indicated in order to be able to express his opinion, these facts also should be disclosed, and I[1] believe it is misleading, notwithstanding partial disclosure by footnotes as in the instant case, to furnish a certificate which implies that the accountant was satisfied to express an opinion based on a test-check audit.[4] Moreover, it is misleading, in my opinion, to state or imply that accepted principles of accounting have been consistently followed by a registrant during the period under review if in fact during such period books of account were not maintained by a registrant or were grossly inadequate, or if it has been necessary for the accountant to make pervasive and extraordinary adjustments of the character under consideration. [Accounting Series Release No. 13, February 20, 1940]

§ 211.15 *Description of surplus accruing subsequent to effective date of quasi-reorganization.* Question has frequently been raised as to the proper description of the earned surplus account subsequent to the effective date of a quasi-reorganization" I[1] refer to the corporate procedure in the course of which a deficit is charged to capital surplus previously existing or arising in the course of the quasi-reorganization.

It is my opinion that sound accounting practice ordinarily requires that a clear report be made to stockholders of the proposed restatements and that their formal consent thereto be obtained. In such a situation it is also essential, in my opinion, that full disclosure of the procedure be made in the financial statements for the fiscal year involved and that any subsequent statements of surplus should designate the point of time from which the new earned surplus dates.

Furthermore, in view of the importance of such proceedings, I am of the opinion that until such time as the results of operations of the company on the new basis are available for an appropriate period of years (at least 3) any statement or showing of earned surplus should, in order to provide additional disclosure of the occurrence and the significance of the quasi-reorganization, indicate the total amount of the deficit and any charges that were made to capital surplus in the course of the quasi-reorganization which would otherwise have been required to be made against income or earned surplus.

Reference is also made to the provisions of Accounting Series Release No. 16 (17 CFR, 211.16) which indicates the further disclosures that in my opinion are necessary when the transfer of a deficit to capital surplus has been effected by resolution of the board of directors but without approval of the stockholders, such action being permissible under the applicable state law. [Accounting Series Release No. 15, March 16, 1940]

§ 211.16 *Disclosure of charge of deficit to capital surplus without approval of stockholders.* Inquiry has frequently been made as to the disclosure necessary in financial statements filed with the Commission under the Securities Act of

[1] Chief Accountant.

[2] Rescinded August 28, 1942.

[3] Chief Accountant.

[4] In this connection it should be noted that under somewhat similar circumstances the Commission in stop-order opinions has previously held that an accountant certifying financial data is under a duty to disclose the existence of areas of information about which there is considerable doubt. See *Livingston Mining Company*, 2 S. E. C. 141, 148; *Platoro Gold Mines, Inc.*, 3 S. E. C. 872 (1938).

[5] Although not in question here, the status of accountants as independent experts may be jeopardized when employees of the certifying accountants prepare the registrant's ledgers and books of original entry or when the accountants' work becomes a substitute for management's accounting of its stewardship rather than a check upon that accounting. *Cf. Interstate Hosiery Mills, Inc.*, 4 S. E. C. 706 (1939).

1933 or the Securities Exchange Act of 1934 when a company has charged a deficit to capital surplus without approval of the stockholders. In a typical case it was indicated that a company on January 1, 1939, had a deficit of $800,000 and a capital surplus of $1,500,000 arising out of the excess of the amount paid in for its stock over the par value thereof and that earned surplus since January 1, 1939, amounted to $100,000. By resolution of the board of directors, dated January 16, 1939, but without approval of the stockholders, the deficit had been charged off to capital surplus. I[1] am informed that under the applicable state law it was permissible to effect this restatement without approval of the stockholders.

From the facts of this case it appeared that the company sought to effect a quasi-reorganization such as is referred to in Accounting Series Release No. 15 (17 CFR, 211.15). However, as there stated, it is my opinion that in such cases sound accounting practice ordinarily requires that a clear report be made to stockholders of the proposed restatement and that their formal consent thereto be obtained. If, however, under the applicable State law it is permissible to eliminate a deficit without obtaining the formal consent of stockholders and if such consent of stockholders is not obtained, it is necessary in my opinion to make a complete disclosure of all the attendant facts and circumstances and their effect on the company's financial position in each balance sheet and surplus statement filed with the Commission thereafter.

Under the circumstances of the case cited, it is my opinion that, to effect the minimum appropriate disclosure in the surplus accounts, information should be given in respect of subsequent earned surplus in approximately the following fashion:

Total deficit to Dec. 31, 1939	$700,000
Less deficit at Jan. 1, 1939, charged to capital surplus by resolution of the board of directors and without approval of stockholders, such action being permissible under the applicable State law	800,000
Earned surplus since Jan. 1 1939	100,000

As an additional disclosure in situations to which the provisions of this release are applicable it has been the administrative policy of the Commission to require that in the registration statement or other filing containing financial statements first reflecting such action by the directors there be included an explanation of the action taken and an indication of its possible effect on the character of future dividends. As an example of an appropriate disclosure, there may be cited the following paragraph:

> It should be noted that on ------ by action of the board of directors, without action by the stockholders, the company charged off a $------ deficit in earned surplus against its capital surplus. This proceedure will permit the company in the future to reflect undistributed earnings subsequent to ------ as earned surplus, instead of as a reduction of the deficit charged off to capital surplus. One result of this procedure is to permit the distribution, as ordinary dividends, of earned surplus accruing subsequent to ------, without regard to the deficit charged off to capital surplus. Furthermore, if earnings subsequent to ------ are less than the deficit written off, distributions thereof may in effect represent distributions of capital or capital surplus.

In view of the fact that no statement of policy in such cases has previously been announced, the policy has been adopted of not insisting upon the additional disclosures outlined in the preceding paragraphs if the restatement involved occurred prior to December 31, 1938, or the beginning of the period for which financial statements are required in the particular filing, whichever is earlier. [Accounting Series Release No. 16, March 16, 1940]

§ 211.17 *Use of natural business year as basis for corporate reporting.* You have inquired as to the possibility, under the rules administered by the Commission, of changing from the calendar-year basis currently employed to a fiscal-year basis for your financial statements. You have also inquired as to the method of reflecting the changed fiscal year in the financial reports to be filed with this Commission. In this connection I[1] may point out that the rules of the Commission do not prescribe the use of any particular fiscal year for the financial statements required. However, the advantages to be obtained from the adoption of a fiscal-year-end date which coincides with the lowest point in the annual cycle of operations are clear and to my mind have never been shown to be outweighed by related disadvantages. Among the more important advantages there may be mentioned the probability of obtaining more complete and reliable financial statements since at the close of the natural business year incomplete transactions, and such items as inventories, would ordinarily be at a minimum. Mention may also be made of the fact that the general adoption of the natural business year would facilitate the work of public accountants by permitting them to spread much of their work throughout the calendar year, and thus aid them in rendering the most effective service to their clients.

In this connection, I call your attention to Rule X–13A–4 (17 CFR, 240.13a–4) of the General Rules and Regulations under the Securities Exchange Act of 1934 which includes, among other things, the following specific provisions as to the character of reports to be filed with the Commission after a change in the fiscal year. In the case of an interim period of less than 3 months no separate report is required. However, in such case, the next annual report is to cover the period up to the close of the following full fiscal year and is to show separate schedules and profits and loss statements for the interim period, as well as for such fiscal year. If the interim period is more than 3 months, a separate report comparable to the annual report is required to be filed. If the interim period is less than 6 months, the financial statements in such report need not be certified. However, if the statements are not certified, the next annual report shall include separate certified financial statements covering the interim period. You will also note that if the fiscal date is changed it is necessary, under the rule, to notify the Commission within 10 days thereafter. [Accounting Series, Release No. 17, March 18, 1940]

§ 211.19 *In the Matter of McKesson & Robbins, Inc.; Summary of findings and conclusions.* File No. 1–1435—Securities Exchange Act of 1934, section 21 (a).

This is a summary of our report on the McKesson & Robbins hearings held pursuant to our order of December 29, 1938, under Section 21 (a) of the Securities Exchange Act of 1934.

The order for the hearings was based upon evidence that the information set forth in the registration statement and annual reports of McKesson & Robbins, Incorporated, especially the financial statements and schedules included therein which were prepared and certified by Price, Waterhouse & Co., was materially false and misleading. We stated our purpose to be to determine:

(1) The character, detail and scope of the audit procedure followed by Price, Waterhouse & Co. in the preparation of the financial statements included in the said registration statement and reports;

(2) The extent to which prevailing and generally accepted standards and requirements of audit procedure were adhered to and applied by Price, Waterhouse & Co. in the preparation of the said financial statements; and

(3) The adequacy of the safeguards inhering in the said generally accepted practices and principles of audit procedure to assure reliability and accuracy of financial statements.

As directed, hearings commenced on January 5, 1939, and continued, with some necessary adjournments, through April 25, 1939. Throughout the hearings Price, Waterhouse & Co. were represented by counsel, as were all witnesses who desired counsel. Opportunity was accorded such counsel to examine witnesses called by the Commission and to call their own witnesses. In all, 46 witnesses were examined. Of these, 9 were partners and employees of Price, Waterhouse & Co.; 12 were accountants of other firms called to testify as experts; 1 represented the Controllers Institute of America and 1 the American Institute of Consulting Engineers; 2 were from S. D. Leidesdorf & Co., accountants for the Trustee of McKesson & Robbins; 1 was a person who prepared many of the fictitious documents; 8 were employees of McKesson & Robbins; 11 were McKesson directors; and the last was a Commission investigator, who was called to identify certain documents. Throughout, Price, Waterhouse & Co., the witnesses, and their counsel extended the fullest cooperation in facilitating the conduct of the proceedings. The record of the public hearings is contained in 4,587 pages of testimony and 285 exhibits comprising in excess of 3,000 pages. Copies of the draft of the full report were submitted to Price, Waterhouse & Co. and their counsel, and their criticism and brief thereon were considered by the Commission before issuing this report.

[1] Chief Accountant.

The full report based upon the testimony and the exhibits and our study of recognized authoritative works on auditing consists of five sections in the text and five appendices as follows:

Section I. A summary of our findings and conclusions;

Section II. A brief statement reciting the manner in which the fraud came to the attention of the public and this Commission;

Section III. A description of the manner in which the manipulation of the accounts of McKesson & Robbins was carried out by Coster-Musica and his associates;

Section IV. A description of the audit conducted by Price, Waterhouse & Co.;

Section V. Our conclusions as to the Price, Waterhouse & Co. audit of McKesson & Robbins, Incorporated, and as to the adequacy of the safeguards inhering in generally accepted auditing practices;

Appendix A. A brief summary of action taken subsequent to the discovery of the fraud by accounting organizations and others interested in the work of independent public accountants;

Appendix B. A comparison of those sections of the English Companies Act of 1929 dealing with appointment of auditors and Horace B. Samuel's suggested amendments to those sections of that Act;

Appendix C. Our order for public hearings in this matter;

Appendix D. A list of all witnesses who testified, with the page numbers of their testimony;

Appendix E. A description of all exhibits introduced in the hearings.

(a) *Summary of prinicipal facts.* The securities of McKesson & Robbins, Incorporated (Maryland) were listed and traded on the New York Stock Exchange and registered under the Securities Exchange Act of 1934. Financial statements of the Corporation and its subsidiaries for the year ended December 31, 1937 (the last before the disclosure of the fraud hereinafter described), certified by Price, Waterhouse & Co., filed with this Commission and the New York Stock Exchange, and issued to stockholders reported total consolidated assets in excess of $87,000,000. Approximately $19,000,000 of these assets are now known to have been entirely fictitious. The fictitious items consisted of inventories, $10,000,000; accounts receivable, $9,000,000; and cash in bank, $75,000; and arose out of the operation at the Bridgeport offices of a wholly fictitious foreign crude drug business shown on the books of the Connecticut Division of McKesson & Robbins, Incorporated (Maryland) and McKesson & Robbins, Limited (Canada), one of its subsidiaries. For the year 1937, fictitious sales in these units amounted to $18,247,020.60 on which fictitious gross profit of $1,801,390.60 was recorded. At the time of the exposure of the fraud on or about December 5, 1938, the fictitious assets had increased to approximately $21,000,000.

The fraud was engineered by Frank Donald Coster, president of McKesson & Robbins since its merger with Girard & Co., Inc., in November 1926. In reality Coster was Philip M. Musica who, under the latter name, had been convicted of commercial frauds. In carrying out the fraud Coster, in the later years, was assisted principally by his three brothers: George E. Dietrich, assistant treasurer of the Corporation, who was in reality George Musica; Robert J. Dietrich, head of the shipping, receiving, and warehousing department of McKesson & Robbins at Bridgeport, Conn., who was in reality Robert Musica; and George Vernard, who was in reality Arthur Musica and who managed the offices, mailing addresses, bank accounts and other activities of the dummy concerns with whom the McKesson companies supposedly conducted the fictitious business.

To accomplish the deception, purchases were pretended to have been made by the McKesson companies from five Canadian vendors, who thereafter purportedly retained the merchandise at their warehouses for the account of McKesson. Sales were pretended to have been made for McKesson's account by W. W. Smith & Company, Inc., and the goods shipped directly by the latter from the Canadian vendors to the customers. Payments for goods purchased and collections from customers for goods sold were pretended to have been made by the Montreal banking firm of Manning & Company also for the account of McKesson. W. W. Smith & Company, Inc., Manning & Company, and the five Canadian vendors are now known to have been either entirely fictitious or merely blinds used by Coster for the purpose of supporting the fictitious transactions.

Invoices, advices, and other documents prepared on printed forms in the names of these firms were used to give an appearance of reality to the factitious transactions. In addition to this manufacture of documents, a series of contracts and guaranties with Smith and Manning and forged credit reports on Smith were also utilized. The foreign firms to whom the goods were supposed to have been sold were real but had done no business of the type indicated with McKesson.

The fictitious transactions originated early in the life of Girard & Co., Inc., Coster's predecessor concern, incorporated on January 31, 1923, and increased until they reached the proportions mentioned above. The manner of handling the transactions described above was the one in vogue since the middle of 1935. Prior to that time the fictitious goods were supposed to have been physically received at and reshipped from the Bridgeport plants of McKesson. And prior to 1931 McKesson made actual cash payments directly for the fictitious purchases, which at that time were supposed to have been made from a group of domestic vendors, but recovered a large part of this cash purportedly as collections on the fictitious sales. The change from using actual cash to the supposed clearance through Manning & Company was not effected abruptly but for some time after 1931 both systems were used. The Canadian vendors, however, were used only in connection with the Manning clearance system. From the report of the accountant for the trustee in reorganization of McKesson & Robbins, Incorporated, it appears that out of an actual cash outgo from the McKesson companies in connection with these fictitious transactions of $24,777,851.90 all but $2,869,482.95 came back to the McKesson companies in collection of fictitious receivables or as cash transfers from the pretended bank of Manning & Company.

(b) *Summary of conclusions as to individual auditing procedures.* Our conclusions as to the individual auditing procedures are developed in detail in Section V of our report. The full discussion of each topic should be consulted for the basis and complete statement of the conclusions which we here summarize.

(1) *Appointment and responsibility of auditors; determination of the scope of the engagement.* All appointments of Price, Waterhouse & Co. as auditors for Girard & Co., Inc., and the successor McKesson companies were made by letter from Coster or the comptroller, McGloon, near the close of the year to be audited. The testimony of the directors is that with rare exceptions members of the board had no part in arranging for the audit and did not know the content either of the letters of engagement or of the long form report addressed to Coster, in which the character of the work was set forth.

While the appointment of Price, Waterhouse & Co. and the method of determining the scope of the engagement in this case was in accord with generally accepted practice, we do not feel that it insures to the auditor, in all cases, that degree of independence which we deem necessary for the protection of investors. Adoption of the following program, we feel, would aid materially in correcting present conditions:

(i) Election of the auditors for the current year by a vote of the stockholders at the annual meeting followed immediately by notice to the auditors of their appointment.

(ii) Establishment of a committee to be selected from nonofficer members of the board of directors which shall make all company or management nominations of auditors and shall be charged with the duty of arranging the details of the engagement.

(iii) The certificate (sometimes called short-form report or opinion) should be addressed to the stockholders. All other reports should be addressed to the board of directors, and copies delivered by the auditors to each member of the board.

(iv) The auditors should be required to attend meetings of the stockholders at which their report is presented to answer questions thereon, to state whether or not they have been given all the information and access to all the books and records which they have required, and to have the right to make any statement or explanation they desire with respect to the accounts.

(v) If for any reason the auditors do not complete the engagement and render a report thereon, they shall, nevertheless, render a report on the amount of work they have done and the reasons for noncompletion, which report should be sent by the company to all stockholders.

In approaching his work with respect to companies which file with us or in which there is a large public interest, the auditor must realize that, regardless of what his position and obligations might have been when reporting to

managers or to owner-managers, he must now recognize fully his responsibility to public investors by including the activities of the management itself within the scope of his work and by reporting thereon to investors. The adoption of a program such as that outlined above should serve to secure recognition of these newly emphasized obligations of the auditor to public investors.

(2) *Organization and training of staff.* We have found that there is great similarity among accounting firms in the organization of the staff and assignments to engagements. We deplore, as do accounting firms, the necessity for recruiting large numbers of temporary employees during a very short busy season. This condition and the lack of training in the firm's methods which it ordinarily entails are inimical to attaining the best results from the auditors' services. A major improvement in this condition could be made by the general adoption by corporations of the natural business year for accounting purposes. The recruiting of temporary employees was more aggravated in Price, Waterhouse & Co. than in other comparable firms whose representatives testified as experts. This situation, coupled with the fact that Price, Waterhouse & Co. had a higher ratio of both permanent and peak staff per partner than other firms, leads us to the conclusion that Price, Waterhouse & Co. partners could not have given adequate attention to the training, development, and supervision of their staff.

(3) *Investigation of new clients.* The facts of this case suggest that for new and unknown clients some independent investigation should be made of the company and of its principal officers prior to undertaking the work. Such an inquiry should provide a valuable background for interpreting conditions revealed during the audit or, in extreme cases, might lead to a refusal of the engagement.

(4) *Review of the client's system of internal check and control.* We are convinced by the record that the review of the system of internal check and control at the Bridgeport offices of McKesson & Robbins was carried out in an unsatisfactory manner. The testimony of the experts leads us to the further conclusion that this vital and basic problem of all audits for the purpose of certifying financial statements has been treated in entirely too casual a manner by many accountants. Since in examinations of financial statements of corporations whose securities are publicly owned the procedures of testing and sampling are employed in most cases, it appears to us that the necessity for a comprehensive knowledge of the client's system of internal check and control cannot be overemphasized.

(5) *Cash.* The record is clear that the cash work performed on this engagement by Price, Waterhouse & Co. conformed in scope to the then generally accepted standards of the profession. It is equally clear to us that prior to this case many independent public accountants depended entirely too much upon the verification of cash as the basis for the whole auditing program and hence as underlying proof of the authenticity of all transactions. Where, as here, during the final three years of the audit, physical contact with the operations of a major portion of the business was limited to examination of supposed documentary evidence of transactions carried on completely offstage through agents unknown to the auditors save in connection with the one engagement, it appears to us that the reliability of these agents must be established by completely independent methods. Confirmation of the bank balance under these circumstances was proven in this case to be an inadequate basis for concluding that all the transactions were authentic.

(6) *Accounts receivable.* Viewed as a whole the audit program for accounts receivable as used by Price, Waterhouse & Co. conformed to then generally accepted procedures for an examination of financial statements although confirmation of the accounts was not included in the program. The facts of this case, however, demonstrate the utility of circularization and the wisdom of the profession in subsequently adopting confirmation of accounts and notes receivable as a required procedure "* * * wherever practicable and reasonable, and where the aggregate amount of notes and accounts receivable represents a significant proportion of the current assets or of the total assets of a concern * * *."

(7) *Intercompany accounts.* The record indicates that it is not enough for auditors to reconcile intercompany balances and that valuable insight into the company's manner of doing business may be gained by a review of the transactions passed through such accounts during the year. Best practice we believe requires the latter procedure. In this case the recommended procedure, although employed to some extent, was not applied in a thoroughgoing and penetrating manner.

(8) *Inventories.* Price, Waterhouse & Co.'s audit program for the verification of inventories was essentially that which was prescribed by generally accepted auditing practice for the period. However, we find that a substantial difference of opinion existed among accountants during this time as to the extent of the auditors' duties and responsibilities in connection with physical verification of quantities, quality, and condition. Price, Waterhouse & Co., in common with a substantial portion of the profession, took the position that the verification of quantities, quality, and condition of inventories should be confined to the records. There was, however, a substantial body of equally authoritative opinion which supported the view, which we endorse, that auditors should gain physical contact with the inventory either by test counts, by observation of the inventory taking, or by a combination of these methods. Meticulous verification of the inventory was not needed in this case to discover the fraud. We are not satisfied, therefore, that even under Price, Waterhouse & Co.'s views other accountants would condone their failure to make inquiries of the employees who actually took the inventory and to determine by inspection whether there was an inventory as represented by the client. We commend the action of the profession in subsequently adopting, as normal, procedures requiring physical contact with clients' inventories.

(9) *Other balance sheet accounts.* (i) The testimony in respect to the auditing of plant accounts suggests that some accountants, including Price, Waterhouse & Co., could, with advantage, devote more attention to physical inspection than has been general practice with them in the past.

(ii) The work in respect to liabilities was in accord with generally accepted practice but suggests the desirability of independent inquiry when large purchases are made from a very few otherwise unknown suppliers.

(iii) The record demonstrates the necessity of a thorough understanding of the client's tax situation which apparently was not obtained by Price, Waterhouse & Co. in regard to the application of the Canadian law.

(10) *Profit and loss accounts.* We are of the opinion that such analyses of profit and loss accounts as were made were applied to improper combinations of departments with the result that significant relationships were concealed. It is our conclusion that the independent accountant is derelict in his duty if he does not insist upon having proper analyses available for his review. It is our opinion that best practice supports this view.

(11) *The wholesale houses.* It must be emphasized again that although the bulk of this report deals with the two units in which the fraud occurred, which were under the direct charge of the Company's principal officer, some material bearing on the work in the other units, mostly wholesale houses, was introduced at the hearings. As to this portion of the audit, which constituted the larger part of the Price, Waterhouse & Co. engagement, covering for 1937 approximately 70 percent of the reported assets and 85 percent of the net sales, and which occupied approximately 97 percent of the auditors' time, it appears that the work in these other units was carried out in a thorough fashion in accordance with generally accepted auditing practice prevailing during the periods involved, including limited inspections of inventories but no confirmation of accounts and notes receivable.

(12) *Review procedure.* The mechanics of the review procedure as carried out by Price, Waterhouse & Co. on this engagement were substantially the same as those of the majority of accounting firms. However, it is our opinion that the partner in charge in this case was not sufficiently familiar with the business practices of the industry in question and was not sufficiently concerned with the basic problems of internal check and control to make the searching review which an engagement requires.

(13) *The certificate.* The form of certificate used by Price, Waterhouse & Co. conformed to generally accepted practice during the period of the Girard-McKesson engagement. We are of the opinion that the form of the accountant's certificate should be amended to include in addition to the description of the scope of the audit a clear certification that the audit performed was, or was not, adequate for the purpose of expressing an independent opinion in respect to the financial statements. If any generally accepted procedures are omitted these should be named together with the reasons for their omission. Exceptions to the scope of the audit or to the accounts must be clearly designated as "exceptions."

(14) *Circumstances available for the auditors' observation in the procedures and records of the Girard-McKesson companies which might have led to the discovery of the fraud.* The firm of Price, Waterhouse & Co. for 14 years served as independent public accountants for F. Donald Coster's enterprises. Within range of the procedures which they followed there were numerous circumstances which, if they had been recognized and carefully investigated by resourceful auditors, should have revealed the gross inflation in the accounts.

We can not and do not say that every one of the items should have been recognized by the auditors as significant and, if investigated, would have led to the exposure of the gross falsification of the financial statements. It is also quite conceivable that for a time many could have been and perhaps were explained away. We do believe, however, that the number of items and the period of time over which some of them repeated themselves gave ample opportunity for detection by alert and inquisitive auditors.

(c) *Conclusion.* In conclusion we reproduce the summary from the last section of our report:

> Our conclusion based upon the facts revealed by the record, the testimony of the expert witnesses, and the writings of recognized authorities is that the audits performed by Price, Waterhouse & Co. substantially conformed, in form, as to the scope and procedures employed, to what was generally considered mandatory during the period of the Girard-McKesson engagements. Their failure to discover the gross overstatement of assets and of earnings is attributable to the manner in which the audit work was done. In carrying out the work they failed to employ th. degree of vigilance, inquisitiveness, and analysis of the evidence available that is necessary in a professional undertaking and is recommended in all well-known and authoritative works on auditing. In addition, the overstatement should have been disclosed if the auditors had corroborated the Company's records by actual observation and independent confirmation through procedures involving regular inspection of inventories and confirmation of accounts receivable, audit steps which, although considered better practice and used by many accountants, were not considered mandatory by the profession prior to our hearings.
>
> Price, Waterhouse & Co. maintain that a balance sheet examination is not intended and cannot be expected to detect a falsification of records concealing an inflation of assets and of earnings if accomplished by a widespread conspiracy carried on by the president of a corporation, aided by others within and without the recognized ranks of a corporation's operating personnel, and that no practical system of internal check can be devised the effectiveness of which cannot be nullified by criminal collusion on the part of a chief executive and key employees. Such cases are so rare, in their opinion, that there is no economic justification for the amount of auditing work which would be required to increase materially the protection against it.
>
> The inference to be drawn from this position and from statements made by others in connection with this case is that a detailed audit of all transactions as distinguished from an examination based on tests and samples would have been necessary to reveal the falsification. However, as we view the situation in this case, a detailed audit of all transactions carried out by the same staff would merely have covered a larger volume of the same kinds of fictitious documents and transactions. While this might have brought under review more instances of what we have listed as circumstances suggesting further investigation, there is little ground for believing that this alone would have raised any greater question as to the authenticity of the transactions.
>
> Moreover, we believe that, even in balance sheet examinations for corporations whose securities are held by the public, accountants can be expected to detect gross overstatements of assets and profits whether resulting from collusive fraud or otherwise. We believe that alertness on the part of the entire staff, coupled with intelligent analysis by experienced accountants of the manner of doing business, should detect overstatements in the accounts, regardless of their cause, long before they assume the magnitude reached in this case. Furthermore, an examination of this kind should not, in our opinion, exclude the highest officers of the corporation from its appraisal of the manner in which the business under review is conducted. Without underestimating the important service rendered by independent public accountants in their review of the accounting principles employed in the preparation of financial statements filed with us and issued to stockholders, we feel that the discovery of gross overstatements in the accounts is a major purpose of such an audit even though it be conceded that it might not disclose every minor defalcation. In short, Price, Waterhouse & Co.'s failure to uncover the gross overstatement of assets and of earnings in this case should not, in our opinion, lead to general condemnation of recognized procedures for the examination of financial statements by means of tests and samples.
>
> We do feel, however, that there should be a material advance in the development of auditing procedures whereby the facts disclosed by the records and documents of the firm being examined are to a greater extent checked by the auditors through physical inspection or independent confirmation. The time has long passed, if it ever existed, when the basis of an audit was restricted to the material appearing in the books and records. For many years accountants have in regularly applied procedures gone outside the records to establish the actual existence of assets and liabilities by physical inspection or independent confirmation. As pointed out repeatedly in this report, there are many ways in which this can be extended. Particularly, it is our opinion that auditing procedures relating to the inspection of inventories and confirmation of receivables, which, prior to our hearings, had been considered optional steps, should, in accordance with the resolutions already adopted by the various accounting societies, be accepted as normal auditing procedures in connection with the presentation of comprehensive and dependable financial statements to investors.
>
> We have carefully considered the desirability of specific rules and regulations governing the auditing steps to be performed by accountants in certifying financial statements to be filed with us. Action has already been taken by the accounting profession adopting certain of the auditing procedures considered in this case. We have no reason to believe at this time that these extensions will not be maintained or that further extensions of auditing procedures along the lines suggested in this report will not be made. Further, the adoption of the specific recommendations made in this report as to the type of disclosure to be made in the accountant's certificate and as to the election of accountants by stockholders should insure that acceptable standards of auditing procedure will be observed, that specific deviations therefrom may be considered in the particular instances in which they arise, and that accountants will be more independent of management. Until experience should prove the contrary, we feel that this program is preferable to its alternative—the detailed prescription of the scope of and procedures to be followed in the audit for the various types of issuers of securities who file statements with us—and will allow for further consideration of varying audit procedures and for the development of different treatment for specific types of issuers.

[Accounting Series Release No. 19, December 5, 1940]

§ 211.21 *Amendment of Rules 2–02 and 3–07 of Regulation S–X (17 CFR, 210.2–02, 210.3–07).* The text of this amendment is reflected in Regulation S–X (17 CFR, Part 210) as amended to and including October 18, 1944.

The following statement was made at the time these rules were amended:

> At the time of the adoption of Regulation S–X it was stated that "In view of the pending proceedings in the matter of McKesson and Robbins, Incorporated, and several other cases, the rules governing certification by accountants, although altered and clarified in some respects, have been retained in substantially the form now found in the General Rules and Regulations under the Securities Act of 1933 and the several major forms under the 1933 and 1934 Acts. Upon completion of these proceedings, however, such rules are to be considered with a view to revisions deemed necessary as a result of these cases."
>
> The form of the accountant's certificate was considered at some length in the Report of Investigation, In the matter of McKesson & Robbins, Inc. The following conclusions reached on this subject are quoted from pages 434–435 of the report.
>
> "* * * it appears to us* that the following principles should be adopted respecting the form and content of accountants' certificates in order to avoid possibility of confusion in the future."
>
> The work done should be described as the auditor sees fit and any desired information concerning the accounts may be stated. While we do not think that each audit step should necessarily be set forth, it is to be hoped that really descriptive language will be used as distinguished from a standard form based upon procedures set forth in a bulletin neither of which is referred to in the certificate. While the road is left clear to the auditor to describe in his own language what he has done and what he has found, we suggest one positive requirement in this connection. The certificate should state as part of the description of the scope of examination every generally recognized normal auditing procedure which has been omitted and the reasons for the omission.
>
> We believe that, in addition to the present expression of opinion that the company's position and results of operations are fairly presented by the accounts, the accountant should certify that the examination conducted was not less than that necessary in order to form the foregoing opinion. This statement may well replace the one gen-

*The Commission.

erally in use in certificates prior to the present bearings in which the only reference to the examination in the opinion paragraph was in the words "based upon such examination" or "subject to the foregoing" following "In our opinion." Besides not definitely stating whether the examination was sufficient in scope, these words would seem to incorporate all prior references to the examination in the preceding paragraphs of the certificate and base the auditor's opinion thereupon without specifically stating whether those references were purely descriptive or in the nature of exceptions. Exceptions to the scope of the audit or to the accounts should be expressly so stated in the same sentence as the certification as to the scope of the audit and the opinion as to the accounts, respectively. Exceptions may be incorporated by reference in such sentences but must be specifically designated as "exceptions." If any required information has been withheld by the client or access to records denied these facts should, of course, be treated as exceptions.

We said above that the auditor should certify that the examination was not less than the required minimum of accepted practice both as to procedures and the manner of their application. While accountants may not be able to certify as to the correctness of the figures appearing on the financial statements in the sense of guaranteeing or warranting their correctness but can merely express their opinion with respect to them, we do think they can and should certify that the examination, on which their opinion as to the financial statements was based, was at least equal to professional requirements.

Amendments of the rules as to accountants' certificates have for some time been the subject of correspondence and discussion between committees representing the American Institute of Accountants, the Controllers Institute of America, and the American Accounting Association, and numerous individual accountants and members of the Commission's staff. During this time the suggestions made by individuals as well as by the committees have been given careful consideration and a number of them embodied in drafts of the rules which have been made available to the cooperating committees and individuals for further criticism. Successive revisions and criticism have resulted in the revised rules now adopted by the Commission.

The revised Rule 2–02 (17 CFR, 210.2–02) sets forth requirements as to the contents of the accountant's certificate and is divided into four sections.

Section (a) states certain technical requirements and involves no change from previously existing rules.

Section (b) contains the requirements for the accountant's representations as to the nature of the audit which he has made. Under subsection (i) the accountant must give a reasonably comprehensive description of the scope of the audit which he has performed. In accordance with the opinion of the Commission in the McKesson report, the subdivision also requires that, if any generally recognized normal auditing procedures have been omitted with respect to significant items in the financial statements, such omissions shall be stated with a clear explanation of the reasons for such omission. It is contemplated that designation of procedures omitted would be confined to the primary auditing requirements which have been recognized as normal auditing procedure, as for example, the circularization of receivables, and would not extend to detailed or mechanical steps. Since in particular circumstances such omissions may be proper, the specification of such omissions and the reasons therefor in connection with the description of the audit would not be considered as exceptions or qualifications unless specifically so noted in connection with subsection (ii) which requires that the accountant shall state whether the audit was made in accordance with generally accepted auditing standards applicable in the circumstances. In referring to generally recognized normal auditing procedures the Commission has in mind those ordinarily employed by skilled accountants and those prescribed by authoritative bodies dealing with this subject, as for example, the various accounting societies and governmental bodies having jurisdiction. In referring to generally accepted auditing standards the Commission has in mind, in addition to the employment of generally recognized normal auditing procedures, their application with professional competence by properly trained persons. The Commission further recognizes that the individual character of each auditing engagement and the facts disclosed through a vigilant, inquisitive, and analytical approach by the auditor may call for the extension of normal procedures or the employment of additional procedures. Therefore, subsection (iii) requires that the accountant also state whether he omitted any procedure deemed necessary by him under the circumstances of the particular case.

Paragraphs 2 and 3 of section (b) incorporate provisions of previous rules and add the requirement that "appropriate consideration shall be given to the adequacy of the system of internal check and control," thus emphasizing the importance of this basic element.

Section (c) concerning the opinion of the accountant as to the financial statements covered by the certificate and the accounting principles followed is for the most part a restatement and clarification of previous rules.

Section (d) includes an important change from previous rules, in that it requires in addition to a clear identification of all exceptions that, to the extent practicable, the effect of each exception on the related financial statements be given. A clear explanation of the effect on the financial statements of the use of accounting principles to which exception is taken is deemed necessary if the statements are not to be misleading to investors.

Rule 3–07 (17 CFR, 210.3–07) incorporates the new requirement that if "any significant retroactive adjustment of the accounts of prior years has been made at the beginning of or during any period covered by the profit and loss statements filed, a statement thereof shall be given in a note to the appropriate statement, and if the * * * adjustment substantially affects proper comparison with the preceding fiscal period, the necessary explanation." [Accounting Series Release No. 21, February 5, 1941]

§ 211.22 *Independence of accountants; Indemnification by registrant.* Inquiry has been made as to whether an accountant who certifies financial statements included in a registration statement or annual report filed with the Commission under the Securities Act of 1933 or the Securities Exchange Act of 1934 may be considered to be independent if he has entered into an indemnity agreement with the registrant. In the particular illustration cited, the board of directors of the registrant formally approved the filing of a registration statement with the Commission and agreed to indemnify and save harmless each and every accountant who certified any part of such statement, "from any and all losses, claims, damages or liabilities arising out of such act or acts to which they or any of them may become subject under the Securities Act of 1933, as amended, or at 'common law,' other than for their willful misstatements or omissions."

The Securities Act of 1933 requires statements to be certified by independent accountants and the Securities Exchange Act of 1934 gives the Commission power to require that the certifying accountants be independent. The requirement of independence is incorporated in the several froms promulgated by the Commission and is partially defined in Rule 2–01 (b) of Regulation S–X (17 CFR, 210.2–01 (b)) which reads: "The Commission will not recognize any certified public accountant or public accountant as independent who is not in fact independent. An accountant will not be considered independent with respect to any person in whom he has any substantial interest, direct or indirect, or with whom he is, or was during the period of report, connected as a promoter, underwriter, voting trustee, director, officer or employee."

This concept of independence has also been interpreted in Accounting Series Release No. 2 (17 CFR, 211.2) and in several stop-order opinions. In the matter of Cornucopia Gold Mines, 1 S. E. C. 364 (1936), the Commission held that the certification of a balance sheet prepared by an employee of the certifying accountants, who was also serving as the unsalaried but principal financial and accounting officer of the registrant, and who was a shareholder of the registrant, was not a certification by an independent accountant. In the matter of Rickard Ramore Gold Mines, Ltd., 2 S. E. C. 377 (1937), an accountant was held to be not independent by reason of the fact that he was an employee or partner of another accountant who owned a large block of stock issued to him by the registrant for services in connection with its organization. In the matter of American Terminals and Transit Company, 1 S. E. C. 701 (1936), conscious falsification of the facts by the certifying accountant was held to rebut the presumption of independence arising from an absence of direct interest or employment. In the matter of Metropolitan Personal Loan Company, 2 S. E. C. 803 (1937), it was held that accountants who completely subordinate their judgment to the desires of their client are not independent.

In the matter of *A. Hollander & Son, Inc.*, 8 S. E. C. 586 (1941), the Commission held that an accountant could not be considered independent when the combined holdings of himself, one of his partners, and their wives in the stock of the registrant had a substantial aggregate market value and constituted over a period of 4 years from 1½ percent to 9 percent of the combined personal fortunes of these persons. It was also held to be evidence of lack of independence, with respect to the registrant, that the accountant had made loans to, and received loans from, the registrant's officers and directors. In the same case, the evidence showed that registrant's president, over a period of years, had used the accountant's name as a false caption for an account on the books of an affiliate not audited by such accountant and that upon learning of these facts the accountant protested and procured a letter of indemnification in connection with such use. It was held that this continued use of the accountant's name, after his protest, and the overriding attitude apparently assumed by the registrant's president in this matter, constituted additional evidence of lack of independence.

I[1] think the purpose of requiring the certifying accountant to be independent is clear. Independence tends to assure the objective and impartial consideration which is needed for the fair solution of the complex and often controversial matters that arise in the ordinary course of audit work. On the other hand, bias due to the presence of an entangling affiliation or interest, inconsistent with proper professional relations of accountant and client, may cause loss of objectivity and impartiality and tends to cast doubt upon the reliability and fairness of the accountant's opinion and of the financial statements themselves. Lack of independence, moreover, may be established otherwise than solely by proof of misstatements and omissions in the financial statements. As was said in a recent opinion of the Commission:[2]

> We cannot, however, accept the theory advanced by counsel for the intervenors that lack of independence is established only by the actual coloring or falsification of the financial statements or actual fraud or deceit. To adopt such an interpretation would be to ignore the fact that one of the purposes of requiring a certificate by an independent public accountant is to remove the possibility of impalpable and unprovable biases which an accountant may unconsciously acquire because of his intimate nonprofessional contacts with his client. The requirement for certification by an independent public accountant is not so much a guarantee against conscious falsification or intentional deception as it is a measure to insure complete objectivity. It is in part to protect the accounting profession from the implication that slight carelessness or the choice of a debatable accounting procedure is the result of bias or lack of independence that this Commission has in its prior decisions adopted objective standards. Viewing our requirements in this light, any inferences of a personal nature that may be directed against specific members of the accounting profession depend on the facts of a particular case and do not flow from the undifferentiated application of uniform objective standards.

While Rule 2–01 (b) (17 CFR, (210.2–01 (b)) quoted above designates certain relationships that will be considered to negative independence, it is clear from the opinions cited that other situations and relationships may also so impair the objectivity and impartiality of an accountant as to prevent him from being considered independent for the purpose of certifying statements required to be filed by a particular registrant.

In the particular case cited the accountant was indemnified and held harmless from all losses and liabilities arising out of his certification, other than those flowing from his own willful misstatements or omissions. When an accountant and his client, directly or through an affiliate, have entered into an agreement of indemnity which seeks to assure to the accountant immunity from liability for his own negligent acts, whether of omission or commission, it is my opinion that one of the major stimuli to objective and unbiased consideration of the problems encountered in a particular engagement is removed or greatly weakened.[3] Such condition must frequently induce a departure from the standards of objectivity and impartiality which the concept of independence implies. In such difficult matters, for example, as the determination of the scope of audit necessary, existence of such an agreement may easily lead to the use of less extensive or thorough procedures than would otherwise be followed. In other cases it may result in a failure to appraise with professional acumen the information disclosed by the examination. Consequently, on the basis of the facts set forth in your inquiry, it is my opinion that the accountant cannot be recognized as independent for the purpose of certifying the financial statements of the corporation. [Accounting Series Release No. 22, March 14, 1941]

§ 211.23 *Treatment of Federal income and excess profits taxes.* Several inquiries have been received with respect to the manner in which the normal income tax, defense tax, declared value excess profits tax, and the excess profits tax levied pursuant to the Second Revenue Act of 1940 should be reflected in profit and loss or income statements which are filed with this Commission and to which Regulation S–X (17 CFR, Part 210) is applicable.

It is my[1] opinion that in such statements Section 15 of Rule 5–03 (17 CFR, 210.5–3) contemplates that the normal income, defense, and declared value excess profits taxes should be included under subsection (a) and the excess profits tax prescribed by the Second Revenue Act of 1940 should be included under subsection (b). A similar segregation is contemplated by the comparable provisions of Rules 6-03 and 7-05 (17 CFR, 210.6–03, 210.7–05). [Accounting series Release No. 23, April 9, 1941]

§ 211.25 *Procedure in quasi-reorganization.* Inquiry has been made from time to time as to the conditions under which a quasi-reorganization may be said to have been effected. The term quasi-reorganization has come to be applied in accounting to the corporate procedure in the course of which a company, without the creation of a new corporate entity and without the intervention of formal court proceedings, is enabled to eliminate a deficit whether resulting from operations or the recognition of other losses or both and to establish a new earned surplus account for the accumulation of earnings subsequent to the date selected as the effective date of the quasi-reorganization. Certain aspects of the problem have previously been discussed in published opinions of the Commission[4] and in three published opinions of the chief accountant.[10] In the amendments to Rules 6-02, 12-19, 12-20, 12-21, and 12-22 of Regulation S–X (17 CFR, 210.6–02, 210.12–19, 210.12–20, 210.12–21, 210.12–22) which were recently adopted in conjunction with the promulgation of a form for registration of investment companies under the Investment Company Act of 1940, the term is used in definition of circumstances under which there may be shown in lieu of the cost of securities the written-down amounts resulting from quasi-reorganization.

It has been the Commission's view for some time that a quasi-reorganization may not be considered to have been effected unless at least all of the following conditions exist:

(1) Earned surplus as of the date selected is exhausted;

(2) Upon consummation of the quasi-reorganization no deficit exists in any surplus account;

(3) The entire procedure is made known to all persons entitled to vote on matters of general corporate policy and the appropriate consents to the particular transactions are obtained in advance in accordance with the applicable law and charter provisions;

(4) The procedure accomplishes with respect to the accounts substantially what might be accomplished in a reorganization by legal proceedings—namely, the restatement of assets in terms of present conditions as well as appropriate modifications of capital

[1] Chief Accountant.

[2] In the matter of A. Hollander & Son, Inc., *supra*.

[3] It may be noted that sec. 152 of the English Companies Act (1929) makes comparable indemnity agreements void:

"152. Subject as hereinafter provided, any provision, whether contained in the article of a company or in any contract with a company or otherwise, for exempting any director, manager or officer of the company, or any person (whether an officer of the company or not) employed by the company as auditor from, or indemnifying him against, any liability which by virtue of any rule of law would otherwise attach to him in respect of any negligence, default, breach of duty or breach of trust of which he may be guilty in relation to the company shall be void."

[4] See particularly Associated Gas and Electric Corporation, 6 S. E. C. 605 (1940).

[10] Accounting Series Releases Nos. 1 (17 CFR, 211.1), discussing the propriety of charging losses to capital surplus rather than earned surplus; 15 (17 CFR, 211.15), discussing the nature of the disclosure to be made in subsequent statements; and 16 (17 CFR, 211.16), discussing the disclosure necessary where consent of stockholders was not obtained, such action being permissible under the applicable State law.

and capital surplus, in order to obviate so far as possible the necessity of future reorganizations of like nature.

It is implicit in such a procedure that reductions in the carrying value of assets at the effective date may not be made beyond a point which gives appropriate recognition to conditions which appear to have resulted in relative permanent reductions in asset values; as for example, complete or partial obsolescence, lessened utility value, reduction in investment value due to changed economic conditions, or, in the case of current assets, declines in indicated realization value. It is also implicit in a procedure of this kind that it is not to be employed recurrently but only under circumstances which would justify an actual reorganization or formation of a new corporation, particularly if the sole or principal purpose of the quasi-reorganization is the elimination of a deficit in earned surplus resulting from operating losses.

In the case of the quasi-reorganization of a parent company it is an implicit result of such procedure that the effective date should be recognized as having the significance of a date of acquisition of control of subsidiaries. Hence, dividends subsequently received from subsidiaries should be treated as income only to the extent that they are declared by subsidiaries out of earnings subsequent to the effective date. Likewise, in consolidated statements, earned surplus of subsidiaries at the effective date should be excluded from earned surplus on the consolidated balance sheet [Accounting Series Relief No. 25, May 29, 1941]

§ 211.26 *Interpretation of Rule 5–02 of Regulation S–X (17 CFR, 210.5–02) regarding the omission of an analysis of registrant's surplus accounts.* You inquire whether the instruction relative to an analysis of surplus set forth in paragraph 34 (b) of Rule 5–02 of Regulation S–X (17 CFR, 210.5–02) implies that an analysis of the registrant's surplus accounts may be omitted when, pursuant to instructions such as those set forth under Item 8–I–A (2) (a) in the instruction book for Form 10–K, there may be filed in lieu of an individual profit and loss statement of the registrant, a consolidated statement of the registrant and certain totally held subsidiaries. The portion of the above instruction here pertinent reads as follows:

Provided, however, That in lieu of such profit and loss statement there may be filed a profit and loss statement consolidating the accounts of the registrant and one or more of its subsidiaries (hereinafter called "included subsidiaries"), if all the following conditions exist:

(i) The registrant is primarily an operating company;

(ii) Other than directors' qualifying shares, all classes of outstanding securities, other than those evidencing long-term or funded debt, of the included subsidiaries are owned in their entirety by the registrant and/or the included subsidaries;

(iii) No one of the included subsidiaries owes to any person other than the registrant any long-term or funded debt of an amount which is significant in relation to the particular subsidiary;

(iv) The included subsidiaries are, in practical effect, operating divisions of the registrant; • • •

The above permission, you will note, extends only to the registrant's profit and loss statement and does not permit the omission of the registrant's balance sheet. Therefore, pursuant to such instructions, it would be permissible to omit supplementary schedules required to be filed in support of detailed items in profit and loss statements; but it would not be permissable to omit schedules required to be filed in support of particular balance sheet items, nor to omit analyses of the surplus accounts appearing on such balance sheet. Such balance sheet schedules and analyses should be filed for each period covered by the substituted consolidated profit and loss statements.

Item 34 (b) of Rule 5–02 of Regulation S–X (17 CFR, 210.5–02) to which you specifically refer reads in part as follows: "An analysis of each surplus account setting forth the information prescribed in Rule 11–02 (17 CFR, 210.11–02) shall be given for each period for which a profit and loss statement is filed • • •." As indicated in its preface, Regulation S–X (17 CFR, Part 210) relates to the form and content of financial statements, while the instructions to the applicable forms determine what financial statements are to be filed. The cited portion of Item 34 (b) of Regulation S–X (17 CFR, 210.5–02) must therefore be read in the light of the pertinent instructions, in the applicable form, as for example those quoted from Item 8 of Form 10–K (17 CFR, 249.310).

Accordingly, it is my[1] opinion that the language of Item 34 (b) should be considered as indicating the period or periods for which the required information must set forth and may not be construed as permitting the omission of an analysis of the registrant's surplus accounts. [Accounting Series, Release No. 26, July 1, 1941]

§ 211.27 *The nature of the examination and certificate required by paragraph (4) of Rule N–17F–1 and paragraph (7) of Rule N–17F–2 (17 CFR, 270.17f–1, 270.17f–2) under the Investment Company Act of 1940.* Inquiry has been made as to the nature of the examination and certificate required by paragraph (4) of Rule N17F–1 and paragraph (7) of Rule N–17F–2 (17 CFR, 270.17f–1, 270.17f–2) promulgated under the Investment Company Act of 1940.

Rule N–17F–2 (17 CFR, 270.17f–2) sets up certain standards to be followed by management investment companies registered under the Investment Company Act of 1940 which maintain in their own custody their portfolio securities and similar investments. Paragraph (7) of that rule is as follows:

Such securities and investments shall be verified by complete examination by an independent public accountant retained by such registered company at least three times during the fiscal year, at least two of which shall be chosen by such accountant without prior notice to such company. A certificate of such accountant, stating that he has made an examination of such securities and investments and describing the nature and extent of the examination, shall be transmitted to the Commission promptly after each such examination.

The securities and investments referred to in the quoted paragraph are identified by paragraphs (1) and (2) of the rule as (a) securities on deposit in a vault or other depository maintained by a bank or other company whose function and physical facilities are supervised by Federal or State authority; (b) securities which are collateralized to the extent of their full market value; (c) securities hypothecated, pledged, or placed in escrow for the account of such registered company; and (d) securities in transit. The examination and certificate required by the quoted paragraphs should therefore cover all of the securities listed in paragraphs (1) and (2).

In order to make a complete examination of the securities, it is, in my[1] opinion, necessary for the accountant not only to make a physical examination of the securities themselves, or in certain cases to obtain confirmation, but also to reconcile the physical count or confirmation with the book records. Furthermore, in my opinion it is a necessary prerequisite to such a reconciliation that there have been made an appropriate examination of the investment accounts and supporting records, including an adequate check or analysis of the security transactions since the last examination and the entries pertaining thereto. While the certificate filed must describe the nature and extent of the examination made, it is not necessary that each step taken be set out; instead, there should be included in the certificate in general terms an appropriate description of the scope of the examination of the accounts and the physical examination or confirmation of the securities.

Finally, in order to meet the requirements of paragraph (7) of Rule N–17F–2 (17 CFR, 270.17f–2) the certificate should comply with the usual technical requirements as to dating, salutation and manual signature and, in addition to the description of the examination made, should set forth:

(a) The date of the physical count and verification, and the period for which the investment accounts and transactions were examined;

(b) A clear designation of the depository;

(c) Whether the examination was made without prior notice to the company; and

(d) The results of the examination.

Rule N–17F–1 (17 CFR, 270.17f–1) specifies the conditions under which a registered management investment company may place or maintain its securities and investments in the custody of a company which is a member of a national securities exchange. Paragraph (4) of that rule calls for periodic examinations of the securities and investments so placed or maintained and for certificates as to the verification thereof. In my opinion the requirements of such paragraph (4) involve substantially the same considerations as those of paragraph (7) of Rule N–17F–2 and the above discussion is therefore likewise applicable to the examination and certificate required by such paragraph (4). [Accounting Release Series No. 27, December 11, 1941]

§ 211.30 *Auditing of inventories under wartime conditions.* To avoid any possible interruption in the production or delivery of war materials, the Securities and Exchange Commission today announced the establishment of a liberalized policy with respect to its requirements regarding physical inventory verification by independent public accountants.

Where the customary taking of inventory (including observance or test-checking by auditors) would curtail production of war materials, such procedures may be omitted so long as all reasonable and practical alternative measures are taken by the company and its independent public accountants to assure the substantial fairness of inventory amounts stated in the financial statements and proper disclosure is made.

Whenever inquiries on this point have been received from registrants engaged in the production of war materials, it has been the policy to discuss with the registrant and its accountants the extent to which normal procedures may be followed without curtailment of production, and the extent to which it is reasonable and practicable to employ alternative procedures or to extend other normal procedures with a view to obtaining the most satisfactory possible determination and review of inventory amounts. Through the use of extended or substitute procedures, it has ordinarily been possible in these cases, for the independent public accountants to satisfy themselves as to the substantial fairness of the inventory amounts and thus to express their opinion without taking exception to the substantial fairness of the representations as to inventories, although their certificate indicated the extent to which the normal auditing procedures of observation or test-checking of the inventory had not been employed.

On the basis of such conferences and correspondence where full disclosure of the circumstances has been made in the financial statements and certificates, no objections have been raised to the omission of normal procedures with respect to statements for the current reporting period of companies engaged in the production of war materials.

The following statement of procedure, prepared by William W. Werntz, chief accountant, will be of assistance to registrants and their accountants faced with circumstances which make it necessary to curtail or omit certain normal auditing procedures as to inventories in order to avoid delay in production and delivery of war materials:

The taking of an inventory has always been considered an important part of the accounting of a corporation in reporting its position and the results of its operations. Observation of the taking of inventory or the test-checking of the inventory has for some time been recognized as a normal procedure to be followed by independent public accountants in audits made for the purpose of expressing their professional opinion as to whether the financial statements fairly reflect the financial position of a company and the results of its operations in accordance with generally accepted accounting principles and practices applied on a basis consistent with that of the preceding year.[11] Under paragraph (b) (1) of Rule 2–02 of Regulation S–X (17 CFR, 210.2–02), failure to employ any procedure generally recognized as normal must be disclosed and the reasons for such omission given. Paragraph (b) (11) of such rule further calls for a representation as to whether the audit was made in accordance with generally accepted auditing standards applicable in the circumstances. Failure to employ the procedure under discussion would, where inventories were of material amount, necessitate an exception to any positive statement that such standards had been observed.[12] The existence of such an exception, moreover, would make the certificate subject to the citation of a deficiency in respect thereto. It may also be noted that it is generally recognized that where an exception is sufficiently material to negative the expression of an opinion as to the fairness of the presentation made by the financial statements, the auditor should refrain from giving any opinion at all.[13]

Under present circumstances, however, it may in particular cases be impossible to take a satisfactory physical inventory without interruption of the production and delivery of war materials. It may also be impossible for the independent accountants to have such physical contact with the inventory as normal auditing procedure calls for. Where the book inventory records provide sufficient control over inventories, a temporary cessation of the periodic comparison with the physical stocktakings would ordinarily be less serious than where book records are inadequate or lacking. However, it is clearly in the public interest that as positive and effective substantiation of the inventory amounts be made as circumstances permit. The auditor by devising supplemental procedures based on the circumstances of the particular case and by extending the scope of normal procedures which do not require cessation of production should endeavor wherever possible so to satisfy himself as to the substantial fairness of the inventory amounts that his certificate, while indicating the omission of the normal procedure of observation or test-checking, need not contain an exception to the substantial fairness of the presentation of inventories.

Where circumstances show that the observance of normal procedures with respect to inventories would result in interruption of production or delivery of war materials, it is t' e administrative policy of the Commission not to object to the omission, provided all reasonable and practical alternative and additional measures are taken by the company and its accountants to support the substantial fairness of the amounts at which inventories are included in the financial statements and provided further that by means of a letter the company indicates the necessity for omitting such procedures, and the financial statements and accountants' certificate contain appropriate disclosures and representations. In the letter to the Commission accompanying or preceding the annual or other report, but not as a part thereof, the company should give the following information:

(1) Its priority ratings and the extent to which the company is engaged in production of war materials, in terms for example of the proportion of inventories, production or other appropriate basis.

(2) A statement as to whether normal procedures in the taking of inventories are to be followed except where interruption to the production of war materials would result.

(3) The delay that would be caused by shutting down to take inventory.

(4) A statement as to whether it is feasible or practicable for the particular company to take reasonably accurate physical inventories while the plants are in operation or at times when the plants are shut down for other purposes. Such evidence would ordinarily include an indication of the number of shifts per day, the number of days worked per week or other standard period, and whether shut-downs as for repairs or rearrangements may be utilized for inventory taking.

(5) If at the time of the last physical inventory it was necessary ta make significant adjustments in order to reconcile book and physical inventories, a summarized statement of the general nature and amounts of such adjustments.

Under the circumstances of cases of this kind Rule 2-02 of Regulation S-X requires, in my opinion, that the accountants' certificate contain at least the following information:

(a) A specific statement of the extent to which normal procedures as to physical inventories were omitted, indicating if such information is not given in the statements themselves, the amount of inventories involved.

(b) A specific statement of the reason why normal physical inventory procedures were omitted, that is, because their observance would result in a material interruption in the production of war materials.

(c) A specific statement as to the extent of the accounting records and controls as to inventories and as to whether the accountants consider them adequate.

(d) A description of the supplementary or extended procedures undertaken by the accountants in view of the absence of a physical inventory and the omission of normal auditing procedures in connection therewith. Such description need not be detailed beyond the point necessary to indicate the general nature and extent of the supplementary or extended procedures undertaken.

In many cases, it is probable that by means of their alternative and extended procedures the independent public accountants will have satisfied themselves as to the substantial fairness of the amounts at which inventories are stated, and in such case a positive statement to that effect should be made. In some cases it may be that, while the scope of procedures followed will not be such as to have so satisfied the accountants, they will be able to take the position that on the basis of the work done they have no reason to believe that the inventories reflected in the statements are unfairly stated.

Of course, if the scope of the work done or the results obtained from the procedures followed or the data on which to base an opinion are so unsatisfactory to the accountants as to preclude any expression of opinion, or to require an adverse opinion, that situation must be disclosed not only by an exception running to the scope of the audit, but also by means of an exception in the opinion paragraph as to the fairness of the presentation made by the financial statements. However, in such case, the company and its certifying accountants will be asked to furnish the Commission a statement showing that unusual circumstances exist which prevent the accountants from undertaking such additional procedures as would in the accountants' judgment enable them to satisfy themselves as to the substantial fairness of the inventory amounts. Ordinarily, such state-

[1] Chief Accountant.

The above permission, you will note, extends only to the registrant's profit and

[1] Chief Accountant.

ferred to in the quoted paragraph are

wartime conditions. To avoid any possible interruption in the production or de-

ment should be transmitted to the Commission in advance of filing.

The disclosure made in the financial statements and certificate will of course be subject to the usual review in the light of the Commission's requirements and the circumstances of the particular case. It is implicit that, at the earliest opportunity, every reasonable effort will be made to take physical inventory, with normal observation and test-checking by the certifying accountants, and that any practicable improvements in the accounting records and controls of inventory will be undertaken. Finally, it should be understood that waiver of objections with respect to the current annual report will not necessarily constitute a basis for similar action in respect of annual reports for subsequent years or statements filed in registrations for the sale of securities.

[Accounting Series Release No. 30, January 22, 1942]

§ 211.32 *Accountants' certificates. Application of Rules 2–02, 3–07, 4–02, and 4–04 of Regulation S–X (17 CFR 210.2–02, 210.3–07, 210.4–02, 210.4–04) regarding requirements as to disclosure by independent public accountants of the principle followed in including or excluding subsidiaries in consolidated statements.* Inquiry has been made whether, under the rules of the Commission, it is necessary for an independent public accountant to indicate in his certificate that generally accepted accounting principles and practices have not been applied on a basis consistent with that of the preceding year where a wholly owned subsidiary consolidated in the preceding year is not to be consolidated in the year under review. The inquiry assumed that the registrant's policy in the past had been to consolidate all wholly owned subsidiaries and that the current exclusion of the subsidiary from consolidation was due to changed conditions and was made with a view to more fairly presenting the financial condition and results of operations of the registrant and its subsidiaries.

The portions of Regulation S–X which seem directly involved are Rules 4–02, 4–04, 3–07, and 2–02 (c) (17 CFR 210.4–02, 210.4–04, 210.3–07, 210.2–02 (c)). Rule 4–02 provides, in part, that:

> The registrant shall follow in the consolidated statements principles of inclusion or exclusion which will clearly exhibit the financial condition and results of operations of the registrant and its subsidiaries.

Rule 4–04 (a) requires that:

> The principle adopted in determining the inclusion and exclusion of subsidiaries in each consolidated balance sheet and in each group balance sheet of unconsolidated subsidiaries shall be stated in a note to the respective balance sheet.

Rule 3–07 requires disclosure of any significant change in accounting principle or practice and, if the change substantially affects proper comparison with the preceding fiscal period, the necessary explanation. Finally, subdivision (ii) of Rule 2–02 (c) requires the accountant's certificate to state clearly "the opinion of the accountant as to any changes in accounting principles or practices required to be set forth by Rule 3–07."

To my[1] mind it would be necessary under the rules of the Commission, unless the subsidiary involved was so small as to be immaterial, for the accountant to indicate in his certificate that generally accepted accounting principles and practices had not been applied on a basis consistent with that of the preceding year. In stating the principles of inclusion or exclusion followed in a particular consolidation it is not sufficient under Rules 4–02 and 4–04 (a) merely to indicate that the registrant is following in the consolidated statements principles of inclusion or exclusion which will clearly reflect the financial condition and results of operations of the registrant and its subsidiaries. A statement such as this would give no satisfactory information to the reader and, indeed, would permit the use of widely different and shifting consolidations without constituting a change in the principles followed. Instead, the language of Rule 4–02 should be considered as setting a test which the specific principles adopted in a given case must meet.

The specific principles followed should be objective and definite, such as, for example, that the registrant includes in consolidation all wholly owned subsidiaries, or all domestic wholly owned subsidiaries or all wholly owned manufacturing subsidiaries. Any such principles would, of course, have to meet the general test prescribed in Rule 4–02. Furthermore, unless all subsidiaries which fall within the class designated by the specific principles of consolidation are, in fact, consolidated, the specific statement is clearly inaccurate and misleading. It is therefore my opinion that the exclusion of the subsidiary in the case under discussion constitutes a change in the principles of consolidation followed.

I think the operation of the rules referred to can best be indicated by the following illustration. Let us assume that a given registrant in its 1940 statements consolidated all of its wholly owned subsidiaries. In the 1941 statements one significant wholly owned foreign subsidiary was excluded by reason of the registrant's inability to obtain statements therefor. Under such circumstances Rule 4–04 (b) would require that the name of the excluded subsidiary be given. The statement of the principles of consolidation required by Rule 4–04 (a) would have to be appropriately modified to indicate that the wholly owned subsidiary was not consolidated. Rule 3–07 would require, if the change substantially affected comparison with prior years, an appropriate explanation. Rule 2–02 (c) (ii) would require a statement in the certificate of the accountant's opinion as to the change in the principles of consolidation employed.

Thus, it would not be proper, in my opinion, for the accountant to represent that the statements presented fairly the financial condition of the company and its consolidated subsidiaries and the results of their operations for the fiscal year, in conformity with generally accepted accounting principles and practices applied on a basis consistent with that of the preceding year. Instead, it would, in my opinion, be necessary to indicate that the principles of consolidation had been changed. If the new basis met with the approval of the accountant, as it presumably would, a positive statement to that effect should be made. If it did not, it would seem necessary to take an exception which would run to the fairness of the presentation.

The above conclusion may be contrasted with a case similar in all respects except that the subsidiary is dropped from consolidation because of sale of the investment therein. In cases such as this no change in the principles of consolidation results, since all subsidiaries wholly owned at the date of the statement are included in the consolidation. Disclosure that the former subsidiary is not included would, however, be required by Rule 4–04 (b) and, under certain circumstances, Rule 3–06 might require that additional information, such as the reason for the change, be included either in the financial statements or in the accountant's certificate. [Accounting Series Release No. 32, March 10, 1942]

§ 211.35 *Disclosure to be given to certain types of provisions and conditions that limit the availability of surplus for dividend purposes.* Inquiry has been made from time to time as to the necessity of disclosing, in financial statements filed with the Commission, provisions and conditions which in the particular case materially limit the availability of surplus for dividend purposes. The following are characteristic situations:

1. Treasury stock has been acquired.
2. Dividend arrearages exist on cumulative preferred stock.
3. The preference of preferred shares upon involuntary liquidation exceeds the par or stated value[14] of such shares.
4. The provisions of a trust indenture or loan agreement permit dividends on common or preferred stock to be paid only from earnings accumulated subsequent to a specified date or if surplus exceeds a certain amount.
5. The provisions of a trust indenture or loan agreement prohibit the payment of dividends when such payment would reduce the margin of current assets over current liabilities below a stated minimum.
6. The articles of incorporation require that an amount equivalent to a certain percentage of the par value of the greatest number of preferred shares outstanding at any one time is to be set aside semiannually out of surplus or net profit before dividends may be paid on common stock.
7. A loan agreement provides that dividends may only be paid after securing the consent of the lender.
8. An order or requirement of a regulatory agency having jurisdiction limits the right to declare or pay dividends.

In my[1] opinion, generally accepted and sound accounting practice requires the disclosure of these and similar re-

[1] Chief Accountant.

[14] *Cf.* Rule 3–18 (d) (3) of Regulation S–X, and also Accounting Series Release No. 9 which requires that in most cases an opinion of counsel be given as to whether this condition constitutes a restriction on surplus.

strictions on surplus.[15] Otherwise, an erroneous impression is likely to be given the reader of the financial statements. Since Rule 3–06 of Regulation S–X (17 CFR, 210.3–06) provides that:

> The information required with respect to any statement shall be furnished as a minimum requirement to which shall be added such further material information as is necessary to make the required statements, in light of the circumstances under which they are made, not misleading,

it is clear that in all statements filed with the Commission appropriate disclosure of material restrictions on surplus should be made.

Minimum disclosure, in my opinion, would consist of a description of the restriction, indicating briefly its source, its pertinent provisions, and, where appropriate and determinable, the amount of the surplus so restricted. Such disclosure should be made either in a note to the balance sheet or in an appropriate place in the surplus section of the balance sheet. Also, any statement of surplus, such as is prescribed in Rule 11–02 of Regulation S–X (17 CFR, 210.11–02), should contain similar information or should refer to the disclosure made in the balance sheet. Since the declaration and payment of dividends depends on many factors, other than the mere absence of restrictions of the type under discussion, disclosure pursuant to the above requirement should not be made in such a way as improperly to leave an inference that dividends will or may necessarily be declared from surplus in excess of the restrictions noted. [Accounting Series Release No. 35, September 3, 1942]

§ 211.36 *Treatment by an investment company of interest collected on defaulted bonds applicable to a period prior to the date on which such bonds and defaulted interest were purchased.* Question has been raised as to the treatment by an investment company of interest collected on defaulted bonds applicable to a period prior to the date on which such bonds and defaulted interest were acquired. In the particular case an investment company purchased, at a "flat" price of $260,000, $1,000,000 principal amount of bonds with attached defaulted interest coupons amounting to $250,000. The company subsequent to the purchase received an interest payment of $40,000 on account of defaulted interest coupons for periods prior to the purchase.

Where a purchase is made of defaulted bonds with defaulted interest coupons attached, it is clear that the purchase price covers not only the right to receive the principal of the bond itself, but also the right to receive any payments made on the defaulted interest coupons purchased. Under these circumstances the price paid cannot be deemed to reflect only the cost of acquisition of the issuer's obligation to pay the principal sum, but must instead be considered to reflect as well the cost of acquisition of the issuer's existing obligation to pay the interest coupons already matured. In the usual case, moreover, there is no satisfactory basis on which to allocate the total price between the bond on the one hand and the defaulted interest coupons on the other. Under such circumstances the bond and defaulted coupons should be treated as a unit for accounting purposes, and collections on account of the defaulted interest coupons should be treated not as interest on the sum invested, but rather as repayments thereof. Moreover, in view of the uncertainty of eventually receiving payments in excess of the purchase price, it is my[1] opinion that ordinarily no part of any payment, whether on account of principal or the defaulted interest, should be considered as profit until the full purchase price has been recovered.

In the instant case, therefore, the receipt of the $40,000 interest payment should, in my opinion, be treated as a reduction of the cost of the investment and not as interest income, or as a profit on the investment. After payments are received on account of the principal and defaulted interest in an amount equal to the purchase price, any further collections thereon should be treated, in my opinion, not as interest, but as profit on securities purchased. On the other hand, it seems clear that collection of interest coupons covering periods subsequent to the purchase may be treated as interest income unless the circumstances of a particular case are such as to indicate that, despite the apparent nature of the payment, recovery of the cost of the investment through sale or redemption is so uncertain as to make it necessary to treat the payment as a reduction of the investment. [Accounting Series Release No. 36, November 6, 1942]

§ 211.37 *Amendment of Rule 2-01 of Regulation S-X (17 CFR, 210.2–01)—qualifications of accountants certifying to financial statements required to be filed with the Commission. Superseded by Release No. 44 (17 CFR, 211.44).* Paragraph (c), which was added to Rule 2-01 by this amendment, was amended on May 24, 1943, and accordingly is not reproduced here.

At the time the amendment was adopted the following statement was made:

> The amendment makes it clear that, in determining whether certifying accountants are in fact independent as to a particular company, there should be taken into account the circumstances surrounding not only the work done in certifying statements filed with the Commission, but also other work done for the particular company by such accountants, including the certification of any financial statements which have been published or otherwise made generally available to security holders, creditors, or the public.
>
> The new rule codifies principles to be applied by the Commission in considering questions of independence. It appears desirable to incorporate these principles in the published rules and regulations, in view of cases in which substantial amounts due from officers and directors were shown separately in balance sheets filed with the Commission but, in the balance sheet contained in the annual report to stockholders, were included without disclosure under the caption "Accounts and notes receivable, less reserves."
>
> Underlying the Commission's requirement that clear disclosure be made of the amounts due from officers, directors, and principal stockholders[16] is the principle that such persons have obligations and responsibilities comparable to those of a fiduciary, and that therefore the financial statements should clearly reveal amounts due from such persons, accompanied, where the amounts involved are substantial, by appropriate supporting details. Where an indebtedness results from a transaction between the company and one or more of the management, as individuals, the certifying accountants should employ every means at their disposal to insist upon full disclosure by the company and, failing persuasion of the company, should as a minimum qualify their certificate or disclose therein the information not set forth in the statements. Perhaps the most critical test of the actuality of an accountant's independence is the strength of his insistence upon full disclosure of transactions between the company and members of its management as individuals; accession to the wishes of the management in such cases must inevitably raise a serious question as to whether the accountant is in fact independent. Moreover, in considering whether an accountant is in fact independent, such accession to the wishes of the management is no less significant when it occurs with respect to the financial statements included in an annual report to security holders or otherwise made public than when it occurs with respect to statements required to be filed with the Commission.

[Accounting Series Release No. 37, November 7, 1942]

§ 211.38 *Treatment in financial statements of post-war refunds of Federal excess profits taxes.* You have inquired with respect to the propriety of the manner in which the company proposes to reflect in its financial statements the post-war refunds of Federal excess profits taxes which are provided for by Section 250 of the Revenue Act of 1942.[17] You state that the corporation's tax return will indicate that the corporation will be subject to an excess profits tax of $1,000,000, that the company will therefore be entitled under the statute to a post-war refund credit amounting to $100,000, and that within 3 months after the payment of the tax the company will be entitled to receive bonds of the United States in an aggregate face amount equal to the credit so established. You note that the Act provides that such bonds shall bear no interest, and only after, and not before, cessation of hostilities in the present war may the bonds be transferred by sale, exchange, assignment, pledge, hypothecation, or otherwise.

As I[1] understand it, you propose to deduct in your profit and loss statement excess profits taxes in the amount of $900,000, the net amount of such taxes ultimately payable. However, disclosure will be made of the gross amount of the tax and of the net credit thereagainst.

[15] *Cf.* American Institute of Accountants, Examination of Financial Statements (1936), p. 29.

[1] Chief Accountant.

[16] The requirements of Rule 5–02 (7) and Schedule II of Rule 5–04 of Regulation S–X (17 CFR, 210.5–02 (7), 210.5–04) except trade accounts subject to the usual trade terms, ordinary travel and expense advances, and other such items arising in the ordinary course of business.

[17] New Part III, comprising sections 780–783, Subchapter E of Chapter 2, Internal Revenue Code.

Concurrently, you propose to set up an asset account in the amount of $100,000 to reflect the amount receivable as a post-war refund and to reflect $1,000,000 as a current liability. When bonds are received the caption of the account will be altered to indicate that fact. You thus proposed to treat the total amount payable as, in effect, partially a payment of taxes and partially, to the extent of the post-war credit, as an investment in a special type of Government bonds.

Upon the basis of the facts stated, the treatment you propose is, in my opinion, in accordance with sound and generally accepted accounting principles and practice and should be followed. However, in view of its special characteristics, the amount receivable as a post-war refund should not, in my opinion, be presently classified as current assets or investments, but should rather be shown among "other assets." [Accounting Series Release No. 38, December 19, 1942]

§ 211.41 *Conditions under which companies reporting on Forms 10–K (17 CFR, 249.310) and N–30A–1 (17 CFR, 274.101) may file copies of their regular annual reports to stockholders in place of certain of the financial statements required to be filed by such forms.* A recent amendment of Form 10–K (17 CFR, 249.310) provides that in partial response to the requirements for filing financial statements a registrant may if it wishes file a copy of its regular annual report to stockholders and incorporate by reference the financial statements contained in such report. This procedure may be followed, however, only if the financial statements included in the report to stockholders substantially conform to the requirements of Regulation S–X (17 CFR, Part 210). Of course, any financial statements or schedules required by the instructions that are not included in the stockholders' report must also be furnished.

A review of numerous stockholders' reports covering the year 1941 indicates that in many cases the financial statements included are identical with those filed subsequently as part of the annual report on Form 10–K except that a number of relatively minor items shown separately in the report on Form 10–K are grouped, or combined with closely similar items in the report to stockholders. Inquiries have been received as to whether, where condensation of this type exists, the statements may nevertheless be considered to conform substantially to the requirements of Regulation S–X (17 CFR, Part 210).

The provisions of Article 5 of Regulation S–X (17 CFR, Part 210) contain a general statement of the details to be shown in balance sheets and income statements filed by commercial and industrial companies. Such requirements are, however, supplemented by and subject to the general rules contained in Article 3. Rule 3–06 (17 CFR, 210.3–06) thereof provides, on the one hand, that, in applying the requirements to the circumstances of an individual case, there shall be given, in addition to the required information, such further information as is necessary to make the required statements, in the light of the circumstances under which they are made, not misleading. On the other hand, Rule 3–02 provides that, if the amount to be shown under any particular caption is not significant, the caption need not be separately set forth. The effect of these two general requirements is to require the disclosure of significant information not specifically called for, but to permit the omission of information, even though covered by a specific requirement, if the item involved is not significant. It should be pointed out, however, that in some cases the significance of an item may be independent of the amount involved. For example, amounts due to and from officers and directors, because of their special nature and origin, ought generally to bet forth separately even though the dollar amounts involved are relatively small. Likewise, disclosure of the various types of surplus, the important reserve accounts, and, under present conditions, the accrued liability for taxes is of importance. In the same way, in the corporate income statement of a company having large investments in subsidiaries or in the securities of unaffiliated companies, the disclosure of income from dividends and interest is necessary irrespective of the amount, since the absence or smallness of dividend and interest income is of as great importance as the exact amount thereof. In the income statement generally, it is important that the major elements such as sales and cost of sales, substantial items of other income and income deductions, and the provision for income and excess profits taxes be separately disclosed, unless to do so would violate the provisions of the Code of Wartime Practices. Finally, care should be taken that the necessary descriptive and explanatory footnotes applicable to the particular statements are set forth.

On the other hand, the combination under a miscellaneous caption of minor items among the current assets or liabilities resulting from the ordinary course of business, or their combination with closely similar items that are large in amount, is, in my opinion, permissible and, where minor items are numerous, would tend to improve the legibility of the statements. Similar combinations appear to be permissible within the other major categories of items customarily appearing in the financial statements, such as deferred charges, prepaid expenses, and fixed assets. Generally, however, condensation in the balance sheet would not appear appropriate with respect to an item amounting to more than 10 percent of its immediate category, such as deferred charges, or more than 5 percent of total assets. Where, however, the immediate category is less than 5 percent of total assets, it would generally appear permissible to combine all components of the category under a suitable caption.

If such condensation as may exist in the financial statements included in the regular annual report to stockholders has been made along the lines indicated, such financial statements would in my opinion substantially conform to the requirements of Regulation S–X and could, therefore, under the recent amendment to Form 10–K, be incorporated by reference in annual reports on that form. Of course, care should be taken that the captions used are not such as to be misleading.

Form N–30A–1, the annual report form for investment companies subject to the Investment Company Act of 1940, has been amended in the same manner as Form 10–K. While the discussion above relates to the financial statements of commercial, industrial, and utility companies using Form 10–K, comparable principles are applicable to investment companies using this form. [Accounting Series Release No. 41, December 22, 1942]

§ 211.42 *Disclosure to be made in financial statements with respect to reserves established to provide for possible losses and other contingencies arising out of existing war conditions.* In view of the material effects which war conditions may have on the results of operations and the financial condition of corporations, careful consideration must be given to the need for establishing appropriate reserves intended to provide for final settlement of war production contracts, for post-war readjustments, and for other possible losses or adjustments resulting from present conditions. Where such reserves are established a full and accurate disclosure of the reserves established and the purposes thereof is required by Regulation S–X (17 CFR, Part 210) in financial statements filed with the Commission.[1]

Since reserves such as those mentioned will differ in character, depending on the purpose underlying their establishment, the provisions of Regulation S–X (17 CFR, Part 210) that will be applicable depend to some extent upon the nature of the particular reserves. Reserves in the nature of valuation or qualifying reserves are required to be deducted from the assets to which they apply in conformity to Rule 3–11 of Regulation S–X (17 CFR, 210.3–11). Others not relating to specific assets should properly be shown under Caption 32 of Rule 5–02 (17 CFR, 210.5–02)—Reserves, not elsewhere shown. In still other cases the contingency or condition against which the reserve is provided may be so indefinite and problematical that the reserve is in effect no more than earmarked earned surplus and can best be shown as a subdivision thereof. Finally, in certain cases the reserve may reflect the estimated amount of an actual liability and should be shown as such. In any case the caption of each reserve or major class of reserves should be clearly descriptive of the purpose for which the reserve has been established. It should further be noted that Rule 12–13 (17 CFR, 210.12–19), which asks for supporting data as to all reserves not included in specific schedules, requires that the reserves be grouped and listed according to major classes under properly descriptive titles. While the instructions permit the grouping of special contingency reserves it would be improper, in my[1] opinion, so to group reserves of the character under discussion or to combine them with other reserves as to fail to disclose clearly the various types of war contingencies and conditions for which reserves have been established.

Classification and description of the charges made in establishing such reserves should likewise be given careful attention. In this connection it should be noted that Rule 3–19 (c) (17 CFR, § 210.3–19 (c)) requires disclosure of the policy followed as to providing for depreciation, depletion, obsolescence, and amortization. Where establishment of a reserve of the type under discussion involves a modification of any of such policies, a clear statement is called for by the rule. Where the offsetting charges are not made to the profit and loss or income statement it will be noted that the schedules required in support of reserves call for a clear description of the circumstances. Where the offsetting charges are made to the income statement, it will be noted that Rule 5–03 requires the amounts if significant, to be stated separately and clearly described, unless properly includible under the caption "Cost of sales," which caption the rule does not require to be subdivided.

Particular attention is also directed to the fact that the requirements of Regulation S–X (17 CFR, part 210) are to be considered to be minimum requirements and that Rule 3–06 (17 CFR, 210.3–06) specifically requires that there "shall be added such further material information as is necessary to make the required statements, in the light of the circumstances under which they are made, not misleading." However, care should be taken that no disclosure of information is made which would contravene the Code of Wartime Practices.

Reserves of the character under discussion may in some cases indicate a future need of cash, as for example in the case of reserves for separation allowances. While the provision of funds to meet necessary expenditures is not a matter of accounting policy, it may be appropriate to point out that the mere establishment of a reserve will not of itself ensure the accumulation and availability of such liquid funds as may be required. Where such future cash requirements exist, independent consideration should be given, as a matter of financial policy, to the desirability of taking additional steps toward providing such funds, as by "funding" the reserve through accumulation and possibly segregation of cash or liquid assets equivalent to the reserves established. [Accounting Series Release No. 42, January 8, 1943]

§ 211.44 *Amendments to Rule 2–01 of Regulation S–X (17 CFR 210.2–01) regarding qualifications of accountants certifying to financial statements required to be filed with the Commission.* Subsequent to the adoption, on November 7, 1942, of the present subsection (c) of Rule 2–01 (17 CFR, 210.2–01), representatives of the accounting profession made inquiry as to whether the language "in determining whether an accountant is in fact independent with respect to a particular company, appropriate consideration shall be given to the propriety of the relationships and practices involved in all services performed for the company by such accountant" implied that the Commission would seek to determine the "propriety" of all such relationships in and of themselves. In discussions and conferences arising out of such inquiries, the Commisison made it clear that it was interested in relationships between a certifying accountant and a registrant only insofar as the existence of particular relationships might be relevant to its determination whether the accountant was in fact independent. In order to avoid any possible misinterpretation of its policy in this respect, the Commission has amended Rule 2–01 (c) (17 CFR, 210.2–01) so as to restate its objectives in more general terms, thus avoiding the misunderstanding apparently resulting from the use of more particularized language in the original rule.

At the same time Rule 2–01 (b) (17 CFR, 210.2–01) has been amended to make it clear that the relationships listed therein are not the only relationships which would prevent an accountant from being independent in fact. In this connection, attention is directed to Accounting Series Releases Nos. 2, 22, 28, and 37 (17 CFR, 211.2, 211.22, 211.28, 211.37), which contain statements of administrative policy and opinions of the Chief Accountant on the question of independence. Release 22 (17 CFR 211.22), moreover, includes a summary of the principal Commission decisions involving independence of accountants. A summary of informal decisions on the question will be issued at a later date. [Accounting Series Release No. 44, May 24, 1943]

§ 211.45 *Treatment of premiums paid upon the redemption of preferred stock.* Inquiry has frequently been made as to whether a premium paid on the redemption of preferred stock in excess of the amounts paid in thereon may properly be charged against capital contributed by another class of shareholders or whether, when earned surplus is present, the excess premium should be charged thereagainst. The following case is typical. The A Corporation has outstanding 10,000 shares of $100 par value 6 percent cumulative preferred stock which was sold at 105 and is redeemable at the option of the company on any dividend date at 110. There are also outstanding 40,000 shares of $50 par value common stock which were sold at $60 per share. At the time the corporation proposes to call the preferred shares for redemption, the balance sheet reflects earned surplus of $300,000 and capital surplus of $450,000. The capital surplus consists of $50,000 paid in by preferred shareholders and $400,000 paid in by common shareholders.

The case presented involves a fundamental principle of accounting maintenance of the distinction between capital and income. In recognition of this principle, it has long been agreed that paid-in capital may not be used to absorb expenses or charges that should be deducted from gross income or revenue to determine net income.[2] While the charge involved in the instant case is not relevant to a determination of the amount of net income, it does raise the cognate question of whether payment of redemption premiums in excess of the amount paid in on the shares being retired should first be considered to be distributions of available earned surplus, rather than of amounts paid in on shares still outstanding.

In order to maintain a proper distinction between capital and income, it is my[1] opinion that it is necessary to consider the entire amount contributed by shareholders as capital regardless of whether reflected in the accounts as capital stock or as capital or paid-in surplus. When a corporation by appropriate legal action classifies its share capital, with resulting distinctions in dividend rights, assets priorities, voting powers, and other matters, adherence to the principles mentioned, in my opinion, requires appropriate accounting recognition of the classification of shares not only in respect of the legal or stated capital but also in respect of the related contributions in excess of legal or stated capital. In my opinion, reflection of a redemption premium paid to one class of shareholders as a diminution or utilization of amounts contributed by another class, or by shares of the same class still outstanding, would ordinarily be inconsistent with recognition of these principles in that the capital contribution shown for outstanding shares would thenceforth be less than the amount actually paid in on such shares although (1) no amounts were in fact repaid in respect of the outstanding shares; (2) at the time of the disbursement there existed accumulated earned surplus; and (3) such earned surplus would therefore be available for distribution as apparently earned dividends, although in fact capital contributed in respect of the outstanding shares had not been maintained intact.

It is, therefore, my opinion that in the case cited the amount paid preferred shareholders in excess of the amounts contributed by them should be charged to earned surplus. Also, if at the time of redemption any amounts are paid on account of accumulated unpaid dividends, such amounts should likewise be charged to earned surplus.

In the above example an entire issue of preferred shares was assumed to have been redeemed. If less than an entire issue were redeemed it would not, in my opinion, ordinarily be proper, in the light of the above discussion, to charge against capital surplus contributed by the preferred stock an amount per share in excess of the pro-rata portion of such capital surplus applicable to each share of preferred stock outstanding prior to the redemption in question.

In the case cited, all of the capital surplus represented amounts paid in on shares still outstanding. In some cases a part of capital surplus may have resulted from the prior reacquisition and retirement of preferred or common shares at

[1] Chief Accountant.

[2] *Cf.* American Institute of Accountants, Accounting Research Bulletin No. 13, "Accounting for Special Reserves Arising Out of the War," dated January 1942.

[1] Chief Accountant.

[2] In the course of a formal reorganization, or a quasi-reorganization, a deficit in earned surplus may be charged to capital surplus. See Accounting Series Releases Nos. 1, 15, 16, and 25.

less than the amounts paid in thereon." Such capital surplus does not therefore represent any amounts paid in on shares still outstanding. Where this condition exists, I would ordinarily see no objection to utilizing such capital surplus for the purpose of absorbing the excess of the redemption price over the amounts paid in on the shares being retired.

There remain to be considered cases in which outstanding preferred stock is retired and replaced by new preferred stock, usually bearing a lower dividend rate. In such case, of course, a saving to junior security holders is accomplished which will be reflected in increased earnings applicable to junior securities, and unless distributed, in increased balances of earned surplus. In a number of such cases arising under the Public Utility Holding Company Act of 1935, where earned surplus was absent or inadequate, the Commission has as a matter of administrative policy raised no objection to a procedure designed to offset the redemption premiums against subsequent earnings. However, in such cases it has ordinarily been required that the annual offset be not less than the savings effected by the lower dividend rate on the new stock and that in any case the premiums be fully offset within a reasonably short period. [Accounting Series Release No. 45, June 21, 1943].

§ 211.47 *Independence of certifying accountants; Summary of past releases of the Commission and a compilation of hitherto unpublished cases or inquiries arising under several of the Acts administered by the Commission.* Various statutes administered by the Securities and Exchange Commission recognize the necessity of independence on the part of an accountant who certifies financial statements. In administering these Acts the Commission has consistently held that the question of independence is one of fact, to be determined in the light of all the pertinent circumstances in a particular case. For this reason it has not been practicable, and the Commission has made no attempt, to catalog all of the relationships or situations that might prevent an accountant from being independent. However, in Rule 2–01 (b) of Regulation S–X (17 CFR, 210.2–01 (b)) the Commission has indicated certain relationships such as those of officer, director, or employee which it believes are so likely to prevent a completely objective review of the financial statements of a registrant as to preclude its recognizing an accountant occupying such a position as independent.

In addition to summarizing past releases of the Commission on the question of independence, the new release includes a compilation of hitherto unpublished rulings in cases or inquiries arising under the Securities Act of 1933, the Securities Exchange Act of 1934, or the Investment Company Act of 1940. Preparation of this compilation, announced in Accounting Series Release No. 44 (17 CFR, 211.44), was undertaken as a result of a suggestion by representatives of professional accounting societies that knowledge of informal rulings would be of particular assistance to accountants and others interested in determining the circumstances under which a certifying accountant is likely to be considered to be not in fact independent.

The release, prepared by the Chief Accountant,[1] follows:

The requirements of the Securities and Exchange Commission that an accountant be in fact independent with respect to a company whose financial statements he certifies is grounded on the conviction that the existence of certain types of relationships between a company and its certifying accountant might bias the accountant's judgment on accounting and auditing matters. Certain relationships between an accountant and his client appear so apt to prevent the accountant from reviewing the financial statements and accounting procedures of a registrant with complete objectivity that the Commission has taken the position that existence of these relationships will preclude its finding that the accountant is, in fact, independent. Accordingly, Rule 2–01 (b) of Regulation S–X (17 CFR, 210.2–01 (b) provides that "The Commission will not recognize any certified public accountant or public accountant as independent who is not in fact independent. For example, an accountant will not be considered independent with respect to any person in whom he has any substantial interest, direct or indirect, or with whom he is, or was during the period of report, connected as a promoter, underwriter, voting trustee, director, officer, or employee." In addition, Accounting Series Release No. 2 (17 CFR, 211.2) indicated that an accountant was not to be considered independent with respect to a particular company when his holdings of the capital stock of that company were substantial in amount and were significant with respect to the company's total capital or the accountant's personal fortune. A test of 1 percent was suggested in the latter connection. Also, Accounting Series Release No. 22 (17 CFR, 211.22) indicated that an accountant would not be considered to be independent if the company whose financial statements he certified had indemnified him against all losses, claims, and damages arising out of such certification other than as a result of the accountant's willful misstatements or omissions.

In a number of its Findings and Opinions the Commission had occasion to discuss the question of independence in the light of the facts of a particular case. The earlier Commission decisions and releases have been summarized in Accounting Series Release No. 22 (17 CFR, 211.22). Subsequent to the issuance of this release several other decisions involving the question of independence have been issued. In In the matter of Southeastern Industrial Loan Company (Securities Act of 1933, Release No. 2726) it was held that the nature of the business relationships between the accounting on the one hand and the registrant, its parents, and its affiliates on the other were such as to destroy the accountant's independence. In In the matter of Kenneth N. Logan (Securities Exchange Act of 1934, Release No. 3111; Accounting Series Release No. 28) (17 CFR, 211.28) the Commission held an accountant to be not independent where he had a substantial investment in the registrant, the cost of which amounted to about 8 percent of his net worth, and where he had approved or acquiesced in procedures that were designed to conceal a speculative use to which funds of the registrant had been put. While in In the matter of Associated Gas and Electric Company (Securities Exchange Act of 1934, Release No. 3285A) the question of the independence of the certifying accounts was not raised in the order for hearing and so no finding was made on this point, yet the Commission did state in the course of its discussion that "• • • an accountant who consistently submerges his preferences or convictions as to accounting principles to the wishes of his client is not in fact independent." Finally, in adopting Rule 2–01 (c) of Regulations S–X (17 CFR, 210.2–01 (c)), the Commission said in Accounting Series Release No. 37 (17 CFR 211.37): "Perhaps the most critical test of the actuality of an accountant's independence is the strength of his insistence upon full disclosure of transactions between the company and members of its management as individuals • • •"

In the case of the great majority of financial statements filed with the Commission no question has been raised as to the independence of the certifying accountant. However, in addition to the formal decisions referred to above there have been many informal rulings in cases arising under the Securities Act of 1933, the Securities Exchange Act of 1934, or the Investment Company Act of 1940. It is not feasible to present adequately in summarized form the circumstances existing in particular cases in which it was determined not to question an accountant's independence. The following compilation therefore includes only representative examples of cases in which an accountant was considered not to be independent with respect to a particular company.

1. An accountant held an investment of about $200,000 in the capital stock of a registrant. This investment constituted about 25 percent of the accountant's personal fortune and was about 2 percent of the company's total outstanding capital stock. Held, the accountant could not be considered independent for the purpose of certifying the financial statements of this registrant.

2. An accountant's wife held a trust certificate issued by an investment trust on which had been paid an amount equal to 3 percent of the combined personal fortunes of the accountant and his wife. The withdrawal value of the trust certificate was less than $1,000 and was about 1½ percent of their personal fortunes. The accountant certified the financial statements of the investment trust as well as the financial statements of the corporation that sponsored the trust. The sponsor had no equity in the assets of the trust, but derived virtually all of its income from its activities as sponsor. Held, the accountant could not be considered independent with respect to the investment trust. Held, the facts given tended to indicate that the accountant was not independent with respect to the sponsoring corporation.

3. An accountant had some years earlier invested a substantial amount of money in securities of a registrant. The fair current value of this investment exceeded 50 percent of the accountant's personal fortune. Held, the accountant could not be considered independent for the purpose of certifying the financial statements of this registrant.

4. An accountant had loaned $5,000 to a registrant. A business associate of the accountant had loaned an additional $15,000 to the registrant. These loans bore interest and were secured by a 2½-percent share in the net profits of the registrant. A son of the accountant was an officer of the registrant. Held, the accountant could not be considered independent for the purpose of certifying the financial statements of the registrant.

5. An accountant had for some time endeavored to persuade a department store that was his client to add a new department to its business. The registrant finally agreed to set up the department provided the accountant would finance the cost thereof. The accountant advanced the necessary funds and the department proved successful. The new department contributed less than 5 percent of the total revenues of the registrant. Held, the accountant could not be considered independent for the purpose of certifying the financial statements of the registrant.

6. An accounting firm had rendered services to a registrant for which the registrant had not been able to pay. To guarantee payment of the account the registrant had pledged shares of its own stock. In addition it had given the accountants an option to purchase the pledged securities at the market price existing at the date the option was given. Held, the accounting firm could no longer be considered independent for the purpose of certifying the financial statements of the registrant.

7. A registrant owned a small percentage of the stock of a sales company that sold some of the registrant's products. The accountant who certified the financial statements of the registrant was the treasurer and one of the stockholders of the sales company. Held, if the shares held by the registrant and the nature of the sales relationship were such as to give the registrant a significant element of indirect control over the sales company, the accountant could not be considered independent for the purpose of certifying the financial statements of the registrant.

8. A partner in an accounting firm was serving as a member of the board of directors of a registrant. This accountant did not participate in any way in the accounting firm's audit of the registrant. Held, the accounting firm could not be considered independent for the purpose of certifying the financial statements of the registrant.

9. A partner in an accounting firm was serving as a member of the board of directors of a registrant. Another partner in the same accounting firm conducted the audit of the registrant and certified the financial statements in his own name, not the firm name. Held, the certifying accountant could not be considered independent for the purpose of certifying the financial statements of the registrant.

10. A partner in an accounting firm had served on the board of directors of a registrant but had resigned from that position prior to the close of the most recent fiscal year. This accountant had not participated in any way in the accounting firm's audits of the registrant. Held, that the accounting firm could not be considered independent for the purpose of certifying financial statements of the registrant covering any period during which a partner of the accounting firm was a director of the registrant.

11. A partner in an accounting firm was serving as a member of the board of directors of a registrant, having been appointed to that position by a Federal court following a reorganization. Held, the accounting firm of which this individual was a member could not be considered independent for the purpose of certifying the financial statements of the registrant.

12. A partner in an accounting firm was a member of the board of directors of a registrant and was also one of the voting trustees of the registrant's stock. The voting trust had been established at the request of a lending bank that desired thereby to assure continuity of the registrant's management. Held, the accounting firm of which this accountant was a member could not be considered independent for the purpose of certifying the financial statements of this registrant.

13. A partner in an accounting firm was one of three trustees of a voting trust in which shares of preferred stock of a registrant had been deposited. Dividends had not been paid on the preferred stock and it had become entitled to elect a majority of the board of directors. The voting trust had been set up to assure continuity of the existing management, and was in a position to exercise ultimate control over the registrant. Held, the accounting firm, of which one of the voting trustees was a member, could not be considered independent for the purpose of certifying the financial statements of the registrant.

14. The board of directors of a registrant had established an "operating committee" in which had been vested all powers necessary and appropriate to the supervision of the management of the business. It was intended that the principal duty of the committee would be the making of recommendations to the board of directors. The committee consisted of two members of the board of directors and a member of the accounting firm that regularly certified the financial statements of the registrant. Held, neither the individual accountant nor his firm could be considered independent for the purpose of certifying the financial statements of the registrant.

15. A registrant filed certified financial statements of two subsidiary companies. The financial statements of one subsidiary had been certified by a member of an accounting firm who also served as assistant secretary of the subsidiary. The financial statements of the other subsidiary had been certified by a member of another accounting firm who served as assistant secretary and assistant treasurer of that subsidiary. Neither accountant received any remuneration for serving as officers of these subsidiaries. Held, the accounting firms involved could not be considered independent for the purpose of certifying the financial statements of the company in which one of their members served as an officer.

16. An individual serving as assistant treasurer and chief accountant of a registrant was the son of a partner in the accounting firm that certified the financial statements of the registrant. The son was living with his father at the time. The son served the registrant under the direction and supervision of the treasurer of the company. Held, the accounting firm could not be considered independent for the purpose of certifying the financial statements of the registrant.

17. A senior staff member of an accounting firm was appointed controller of a registrant as successor to a controller who had entered the armed forces of the United States during the war emergency. This employee, who had formerly been in charge of the audit of the registrant, remained on the staff of the accounting firm but relinquished all responsibility for the audit of the registrant, and did no work for the accounting firm in connection therewith. Held, the accounting firm could not be considered independent for the purpose of certifying the financial statements of this registrant. Held, further, the accounting firm could not be considered independent for the purpose of certifying the financial statements of the registrant if the senior staff member were to leave the employ of the accounting firm and be paid by the registrant, but this arrangement was subject to the understanding among the several parties that upon the termination of the war emergency he would return to the staff of the accounting firm.

18. The accountant who audited the financial statements of an investment trust had been given office space in the office of the sponsor of the investment trust. The accountant regularly gave advice concerning the internal accounting policies of the trust. The sponsor of the trust had agreed to pay the accountant a stipulated amount per year less whatever the accountant was able to earn from the investment trust and his other clients. Held, that accountant could not be considered independent for the purpose of certifying the financial statements of the investment trust.

19. The accounting firm that certified the financial statements of a particular registrant had in the past followed the practice of drawing up the monthly journal records of the company from underlying documents that had been prepared by the registrant's staff. These journal records were posted to the appropriate ledgers by the certifying accountants. At the end of the year the audit engagement was undertaken by personnel of the certifying accountant that was not connected with the original recording of the accounting data. Held, the accounting firm could not be considered independent for the purpose of certifying the financial statements of this registrant.

20. A small loan company kept its accounting records on a cash basis. The primary records of the company consisted of daily cash reports that were prepared by the cashier and signed by the manager. The accountant who certified the financial statement of this company took no part in the preparation of these basic records. However, he did audit these cash reports each month and then proceeded to enter the totals in a summary record which he in turn posted to the general ledger. The certifying accountant also made adjusting journal entries each month with respect to insurance, taxes, depreciation, and similar items. The company was small and did not require the services of a full-time bookkeeper. The certifying accountant devoted about one day a month to the clerical or bookkeeping tasks described above. Held, the accountant could not be considered independent for the purpose of certifying the financial statements of this registrant.

[Accounting Series Release No. 47, January 25, 1944]

§ 211.50 *The propriety of writing down goodwill by means of charges to capital surplus.* Inquiry has been made as to whether in a financial statement required to be filed with the Commission goodwill may be written down or written off by means of charges to capital surplus. The goodwill in question resulted from the acquisition during the year of the assets and business of a going concern at a price of $2,000,000, payable in cash or its equivalent. It was determined that $1,750,000 was paid for the physical assets acquired and $250,000 for goodwill. It is now proposed to write off this goodwill by a charge to capital surplus.

In my opinion[1] the proposed charge to capital surplus is contrary to sound accounting principles. It is clear that if the goodwill here involved is, or were to become, worthless, it would be necessary to write it off. Preferably such write-off should have been accomplished through timely charges to income, but in no event would it be permissible, under sound accounting principles, to charge the loss to capital surplus. The procedure being proposed would, however, evade such charges to income or earned surplus and would consequently result in an overstatement of income and earned surplus and an understatement of capital.

This position was expressly taken in the following paragraph of the Commis-

[1] Chief Accountant.

[20] When capital stock is reacquired and retired, it is recognized that any surplus arising therefrom is capital and should be accounted for as such. See Accounting Series Release No. 6 (1938 (17 CFR, 211.6)); American Institute of Accountants, Accounting Research Bulletin No. 1 (1939).

[21] The language of Rule 2–01 (c) was subsequently clarified by an amendment announced in Accounting Series Release No. 44 (1943).

sion's opinion in In the Matter of Associated Gas and Electric Company, 11 S. E. C. 1025:

[the] position [taken] with respect to intangibles not subject to amortization assumes that as long as the write-off is made because of conservatism before actual realization of the loss, the write-off may be made to capital surplus. This practice would permit a corporation to circumvent charges which should be made against income or earned surplus by recognizing them in advance as a charge against capital surplus and, in our opinion, it is not consistent with the fundamental principle that a distinction should be maintained between capital and income.

[Accounting Series Release No. 50, January 20, 1945]

§ 211.51 *Disposition of Rule II (e) (17 CFR 201.2) proceedings against certifying accountant failing to observe appropriate audit requirements as to financial statements of broker-dealer under Rule X–17A–5 (17 CFR, 240.17a–5).* The Securities and Exchange Commission today made public the following information concerning private proceedings involving a certified public accountant. The accountant in question had certified the financial statements of a registered broker-dealer filed as part of a report pursuant to the requirements of Rule X–17A–5 (17 CFR, 240.17a–5), adopted under Section 17 (a) of the Securities Exchange Act of 1934. The proceedings were instituted to determine whether, pursuant to Rule II (e) (17 CFR, 201.2) of the Commission's Rules of Practice, the accountant in question should be temporarily or permanently denied the privilege of practicing before the Commission.

The statement of the broker-dealer in question, a corporation, was required to include financial statements certified by an independent certified public accountant or independent public accountant. The certificate of the respondent in these proceedings read, in part, as follows:

I have reviewed your accounting records and procedures, analyzed and verified all accounts with debit as well as credit balances and examined or verified all securities and cash items, underlying customers, brokers, officers, and inventory or trading accounts in accordance with the generally accepted audit standards applicable to brokers.

I hereby certify that the Balance Sheet headed Exhibit A together with the supporting schedules and details corresponding to the questions contained in S. E. C. Form X–17A–5 (17 CFR, 249.617) entered in on the Table of Contents attached to my report herewith, in my opinion correctly reflects the financial status of your corporation as at • • •.

Subsequent examination of the records of the broker-dealer by the Commission's staff indicated that as of the date the above report was filed the corporation was insolvent; that customers' free securities had been wrongfully hypothecated in connection with notes payable to banks; other customers' free securities had been treated as securities of officers pledged to secure such officers' debit balances due to the corporation; and that certain notes payable to banks, secured by customers' free securities, and the collateral thereto were not recorded on the books of the broker-dealer and were not included in the liabilities shown in the certified statement of financial condition filed with the Commission.

The certifying accountant stipulated that his testimony given during the course of the Commission's investigation of the broker-dealer involved could be made a part of the record in these proceedings. From his testimony, the following facts were established as to the circumstances of his engagement and the scope and nature of his audit:

The auditor was a certified public accountant of some thirty years' experience, but was actually engaged mostly in income and other tax work; only twice before had he made audits of a broker-dealer;

He had met the broker-dealer's president through another client some months before he obtained the present engagement but had done no work for the broker-dealer previously; arrangements for the engagement were made by an officer of the broker-dealer who was also the firm's bookkeeper;

Prior to his audit in connection with the Form X–17A–5 filed by the broker-dealer he had read the instructions applicable to the form including the minimum audit requirements prescribed therein;

His "audit" consisted primarily of (1) the preparation of a trial balance of the general ledger, (2) the examination of securities on hand at a date several days subsequent to the date of statement, (3) comparison of such securities with a purported inventory of securities handed him by the bookkeeper, (4) reconciliation, as of the date of the audit, of two bank statements which were given to him, together with the applicable cancelled checks, by the firm's president; and (5) examination of some correspondence in the firm's files and of certain "confirmations" of bank loans and the underlying collateral obtained by the president.

The audit made thus failed to include a number of procedures and safeguards which are prescribed in the instructions to Form X–17A–5 as minimum audit requirements for the proper substantiation of a statement of the financial condition of a broker-dealer. The more important procedures omitted in this case were:

(*a*) Verification of securities in transit or transfer;

(*b*) Obtaining of written confirmations by direct correspondence in respect of bank balances, money borrowed and collateral pledged thereagainst, accounts and securities carried for others, securities borrowed and loaned, securities failed to deliver and failed to receive, and accounts with customers, officers and directors; and

(*c*) Review of the methods of internal accounting control of the broker-dealer and its procedures for safeguarding securities.

In the course of his testimony the accountant stated that he "didn't complete the thing, perhaps, the way I should have • • • perhaps not as thoroughly as I should • • • I was anxious to get away. I went down to Florida and this engagement was the last one I had prior to going, and I was more or less in a hurry • • • We agreed on a price of $125 to do the work in connection with the balance sheet audit and I believe I did $125 worth of work. That is about the size of it • • • I did what I would ordinarily do unless there was something that came up that was peculiar or different or I suspected anything, but in this case I didn't and actually I had only this short experience in connection with brokers • • • If I suspected there was anything wrong one thousand dollars wouldn't have covered the thing. I mean, whatever you have to go through I—in other words, I wouldn't have taken the engagement at all because I was in a hurry to get away • • •

It does not appear that the failure of the certified public accountant to perform a satisfactory audit contributed to the fraud perpetrated by the broker-dealer involved, nor apparently did his extreme laxity occasion losses to investors of the brokerage firm. For these reasons and since the accountant has filed a stipulation in which he has admitted that he was familiar with the Commission's Rule X–17A–5 (17 CFR, 240.17a–5) and with Form X–17A–5 (17 CFR, 249.617); that he had not observed the minimum audit requirements prescribed by that form; and that he would never again practice before this Commission as an accountant, the proceedings with respect to him were discontinued. [Accounting Series Release No. 51, January 26, 1945]

§ 241.52 *Presentation in financial statements of Federal income and excess profits taxes in cases where a company for which individual statements are filed pays its tax as a member of a consolidated group of companies.* Inquiry has been made as to the method to be followed in reporting Federal income and excess profits taxes pursuant to the provisions of caption 15 of Rule 5–03 of Regulation S–X (17 CFR, 210.5–03). In the case cited the company files for tax purposes as a member of a consolidated group but files with the Commission its individual financial statements. It is stated that on an individual basis the company would have been liable for $1,000,000 of Federal normal income and excess profits taxes; and that $400,000 of this amount represented excess profits taxes. As a member of a consolidated group its share of the consolidated income and excess profits taxes was $700,000.

Caption 15 of Rule 5–03 of Regulation S–X (17 CFR, 210.5–03) requires that there be stated separately "(*a*) Federal normal income and excess profits taxes; (*b*) other Federal income taxes; and (*c*) other income taxes.[2] Where a company is filing individual financial statements and reports on the same basis, for tax purposes, the above breakdown of the total provision for Federal income and excess profits taxes should be made. Likewise, where consolidated financial statements are being filed, the above breakdown should be made.

[2] In Accounting Series Release No. 23 (April 9, 1941) (17 CFR, 211.23) it was indicated that caption 15 contemplated "that the normal income, defense, and declared value excess profits taxes should be included under subsection (a) and the excess profits tax prescribed by the Second Revenue Act of 1940 should be included under subsection (b)." The excess profits taxes presently in effect should therefore be shown under (b).

In the case cited, however, the provision made by the individual reporting company for income and excess profits taxes represents merely a provision for its share of the income and excess profits taxes of the consolidated group of companies. In the instant case, the share of the aggregate consolidated tax apportioned to an individual member of the group was, I[1] understand, determined on the basis of the ratio of the total tax that would have been paid by a particular company to the combined tax that would have been paid had all members of the group filed on an individual basis. Under such circumstances, I am of the opinion that an allocation of an individual company's share of the aggregate tax as between excess profits taxes on the one hand and normal and surtax on the other hand would be arbitrary and of little significance. For this reason I feel it would be appropriate for a member of the group to combine in its individual statements subdivisions (*a*) and (*b*) of caption 15 and to show its provision for Federal income and excess profits taxes as a single item. By means of footnotes, however, there should be shown the estimated amount of Federal income and excess profits taxes applicable to the company had it filed on an individual basis, with an indication of the estimated amount of excess profits taxes involved. [Accounting Series Release No. 52, May 10, 1945]

§ 211.53 *Statement of the Commission's opinion regarding "charges in lieu of income taxes" and "Provisions for income taxes" in the profit and loss statement.* The purpose of this statement is to outline the Commission's views in the matter of so-called "Charges in lieu of income taxes" and of "Provisions for income taxes" which are intentionally in excess of those actually expected to be payable; to give the reasons for that opinion; and to state its views on the points which certain accounting firms have made in connection with the principles discussed herein.

For some time there has been growing up a practice, tolerated by some accountants and sincerely advocated by others, pursuant to which the current income account is charged under the heading of income taxes or charges in lieu of income taxes, not only with the income taxes expected to be paid by the company but also with an additional sum equivalent to the reduction in taxes brought about by unusual circumstances in a particular year.[1a] Certain public utility companies have included such charges and excessive income tax provisions among their Operating Expenses. This additional charge against income is, in most cases, offset either by a credit to surplus or by utilizing the reduction for some special purpose such as eliminating a portion of unamortized discount on bonds. The amount of the estimated reduction has been colloquially termed a "tax saving" and the general problem is loosely referred to as the "treatment of tax savings."[2]

This practice with its variants has caused the Commission some concern and it seems desirable now to state our views as to the accounting procedures appropriate in such situations and to give the reasons for them. In summary, our conclusions are as follows:

(1) The amount shown as provision for taxes should reflect only actual taxes believed to be payable under the applicable tax laws.

(2) It may be appropriate, and under some circumstances such as a cash refunding operation it is ordinarily necessary, to accelerate the amortization of deferred items by charges against income when such items have been treated as deductions for tax purposes.[3]

(3) The use of the caption "Charges or provisions in lieu of taxes" is not acceptable.

(4) If it is determined, in view of the tax effect now attributable to certain transactions, to accelerate the amortization of deferred charges or to write off losses by means of charges to the income account, the charge made should be so captioned as to indicate clearly the expenses or losses being written off.

(5) The location within the income statement of any such special charge should depend on the nature of the item being written off. In the case of a public utility, for example, a special amortization of bond discount and expense should not be shown as an operating expense but should be classified as a special item along with other interest and debt service charges in the "other deductions" section.

(6) It is appropriate to call attention to the existence of the special charge by the use of appropriate explanatory language in connection with intermediate balances and totals.

(7) In the preparation of statements reflecting estimates of future earnings, it is ordinarily permissible to reflect as income taxes the amount which it is expected will be payable if such earnings are realized, provided, of course, the assumptions as to the tax rates are disclosed.

(8) In the preparation of statements which are designed to "give effect" to specified transactions, the provision for taxes may, depending on all the facts and circumstances, properly represent either (a) the actual taxes paid during the period adjusted to give effect to the specified transactions, or, (b) an estimate of the taxes that it is expected will be payable should the income of future years be equal in amount to the adjusted income shown in the statement. The statement should, of course, clearly show what the provision for taxes purports to represent.

The reasons for our views can best be developed by using the facts relating to a registration statement recently filed by the Virginia Electric and Power Company (VEPCO) under the Securities Act of 1933 in which we took a position in the matter. This case is chosen not only because its facts are typical of most cases in which this problem arises but also because the public accountants who certified the financial statements in that case have since appeared before us and presented in detail their views in the matter.[4] The discussion of this case and of the general problem which it typifies will be presented under the following main headings:

(a) *The background of the Vepco Case.* A brief description of the registration and of the transactions giving rise to the problem.

(b) *The certified financial statements originally filed.* A description of the certified financial statements originally filed, pointing out briefly our difficulties with the way in which the so-called "tax saving" was handled.

(c) *Amendments to the certified statements.* A description of the certified income statements after each of the amendments, pointing out briefly in each case our objections to the treatment accorded tax provisions and "tax savings."

(d) *The pro forma income statements.* A brief description of the pro forma statements

[1] Chief Accountant.

[1a] In general, the unusual circumstances are based on differences in the accounting treatment of certain items for income tax purposes and for general financial purposes. For example, losses and expenses which had to be taken as income tax deductions in a given period were not also taken as deductions in the profit and loss statement for the same period. Instead, because of differences in accounting methods, such items had already been charged off against income in previous years, or were being charged off directly to surplus or reserves, or were to be deferred and charged off against income in future years.

[2] We think this terminology is undesirable in principle and possibly misleading. Our preference is to call them "tax reductions." See footnote 23, *infra*.

[3] Under the controlling decisions of the Federal courts (*Helvering* v. *California Oregon Power Co.*, 75 F. (2d) 644 (1935), D. of C., *Helvering* v. *Union Public Service Co.*, 75 F. (2d) 723 (1935), Eighth Circuit), unamortized bond discount and expense applicable to bonds being refunded through the issuance of new bonds for cash are deductible for purposes of the Federal income tax in the year in which the refunding takes place. Not all accountants, however, are in accord that such items must as a matter of sound accounting be immediately written off. Many believe that such items should preferably be amortized against income over the life of the refunding issue if a correct statement of the cost of money is to be obtained. (Cf., Healy, *Treatment of Debt, Discount and Premium Upon Refunding*, 73 Journal of Accountancy, 199 (March 1942).)

[4] In the summer of 1944, we caused to be circulated for comment a proposed Accounting Series release containing a tentative statement of our conclusions in this matter. Comments were received from accountants, registrants and others interested in the problem and a number of informal conferences were arranged with the staff and the Commission. Of the twenty-eight letters and comments received, five individuals or firms and a committee of the American Institute of Accountants objected to the general position taken in the draft. Subsequently, in December 1944, the Committee on Accounting Procedure of the American Institute of Accountants issued a bulletin "Accounting for Income Taxes" which in a number of important respects is inconsistent with the conclusions we have reached. In January 1945, the Committee on Accounting Principles and Practice of the New Jersey Society of Certified Public Accountants issued a statement with respect to the A. I. A. bulletin, taking some exception to the proposals made as to the treatment of "tax savings." In coming to a final conclusion in this matter, we have given extensive consideration to the views expressed and the points made by those commenting on the tentative statement of our views, as well as to the contrary position taken in the bulletin mentioned.

filed, pointing out our objections to the treatment of taxes in the statements originally filed.

(e) *The findings and opinion of the Commission in the related case, in the Matter of Virginia Electric and Power Company (H. C. A. Release 5741).* A description of the financial statements and ratios set forth in that opinion which were criticized in some respects by the certifying accountants in their discussion of this problem.

(f) *The treatment of "Tax Savings" in financial statements filed with this Commission.* A detailed discussion of the considerations underlying our views as to the treatment of income taxes and of so-called "tax savings."

(a) *The background of the Vepco Case.* On March 23, 1945 the Virginia Electric and Power Company (VEPCO) filed with this Commission under the Securities Act of 1933 a registration statement covering its First and Refunding Mortgage Bonds, Series E. The statement after being amended several times became effective on April 20, 1945 as to $59,000,000 of such bonds. Certain financial statements of VEPCO included in the registration statement were certified by Lybrand, Ross Brothers & Montgomery. Those of Virginia Public Service Company, a company recently merged with VEPCO, were certified by Arthur Anderson & Co. Several days after the amended statement became effective, representatives of both firms of certifying accountants appeared before the Commission to discuss certain accounting questions as to the treatment of income taxes and of the so-called "tax savings."

In the registration statement filed by VEPCO, certified financial statements for the years 1942, 1943 and 1944 were filed for VEPCO, for Virginia Public Service Company which had been merged with VEPCO on May 26, 1944, and for the two companies combined. In addition, there were filed "adjusted" balance sheets and income statements designed to give effect to the merger with Virginia Public Service Company, the sale of certain transportation properties, the proposed refinancing and certain related adjustments.

The accounting and "tax savings" issues centered on the treatment to be accorded the following three items which arose out of transactions that had occurred in 1944:

(1) Premiums and expenses incurred in refunding VEPCO's bonds, amounting to $2,383,096.46.[3]

(2) A loss of $3,418,715.16 sustained upon the sale by VEPCO of certain transportation properties.

(3) An item of $600,949 said to arise out of the asserted fact that the normal depreciation on certain plant facilities was substantially less than the amortization of such facilities taken for tax purposes at 20% per annum under Section 124 of the Internal Revenue Code.[4]

In the original registration statement, and in all of the amendments, the registrant and its accountants took the position that the income statements should be prepared in such a way as to reflect therein charges equal to what it was estimated Federal excess profits taxes would have been had not the special transactions occurred. In the original filing the provision for excess profits taxes was shown as an operating expense not in the amount expected to be paid but in the amount that would have been payable had not the three special items existed. After the second amendment, the provision for excess profits taxes was shown at what was actually estimated to be payable for the current year under the applicable tax law, but a separate additional charge, specially described, was also included among the operating expenses in an amount equal to the difference between the provision for actual taxes and the estimated provision that would have been needed had not the three items existed. The third and fourth amendments altered the description of these special charges, and their position in the income account. The wording of some of the other related captions was also modified. As finally amended, special charges representing portions of the premium and expenses on redemption of the bonds and of loss on sale of properties were wholly excluded from the operating expenses and set out as a separate item of "deductions from income." The adjustment within the income account based on the treatment of emergency facilities was eliminated. The extent to which this presentation reflects the views expressed in this opinion will be pointed out later.

In Exhibits A, B, C and D there are presented the relevant portions of the 1944 income statement as originally filed and after each amendment.

(b) *The certified financial statements originally filed.* The Commission's directly applicable accounting requirements are found in Rules 3-01 (a), 3-06, 5-03 and 11-02 of Regulation S-X. (17 CFR, 210.3, 210.3-06, 210.5-03, 210.11-02). The pertinent portions of the rules are reprinted in the margin:[5]

It is apparent that these rules called for the careful segregation and clear description of any nonrecurring or unusual items charged or credited to the income account or to earned surplus. The plain import of caption 15 of Rule 5-03 is that there shall be shown thereunder only amounts actually provided for income taxes.

With those requirements in mind we turn to the income statement originally filed by the registrant, and certified by its accountants, purportedly in conformity to the requirements of the Securities Act and the rules and regulations issued thereunder.

As will be seen from Exhibit A, there was set forth in the 1944 income statement, as an operating expense, an amount for excess profits taxes equal to what the registrant computed would have been the amount of such taxes had none of the three special items existed. This excess profits tax figure appeared under the caption, "Taxes, excluding reductions shown separately below or applied against items charged directly to surplus."

The reduction in taxes attributed by the registrant to the excess of the tax amortization of emergency facilities over the normal depreciation thereon was added back to net income at the very bottom of the statement under this caption:

Reduction in Federal income and excess profits taxes resulting from the amortization of facilities allowable as emergency facilities under the Internal Revenue Code, which facilities are expected to be employed through their normal life and not to replace existing facilities	$609,949

The sum of this item and of a figure labelled "Net Income" was described as "Balance transferred to earned surplus ——"

In the related surplus statements, charges were set forth in respect of the refunding costs and the loss on sale of transportation properties as follows:

Loss arising in connection with sale in 1944 of transportation property, less resulting reduction in Federal taxes on income	$1,361,842.16
Redemption premiums and expenses in connection with refunding of bonds, less resulting reduction in Federal taxes on income	291,919.46

There were no notes to the certified income or surplus statements in further explanation of these items.[6]

The 1944 income statement as originally filed by the registrant and certified by its public accountants, did not comply with the applicable requirements and in our opinion was clearly misleading in the following important respects:

1. The total loss on sale of transportation properties was not shown.
2. The amount of refunding expenses in 1944 could not be determined.
3. The amount provided for the estimated tax liability for 1944 could not be determined.
4. The treatment and disclosure of similar transactions was different. In 1942 the amount of the estimated reduction in taxes due to the refunding was stated; this was not done as to the 1944 refunding. Also the treatment accorded tax deductible losses charged to surplus was different in 1942 than in 1944.

An investor could thus determine from the certified financial statements only that the sum of the tax liability plus loss on transportation properties plus the refunding expenses amounted to a certain figure as follows:

Provision for taxes as shown in the income statement):		
Federal Income Tax	$2,139,496.30	
Federal Excess Profits	8,164,870.79	
Post-War Credit	(351,081.99)	
Total tax provision		9,953,285.19
Surplus charges, less resulting reduction in Federal taxes on income:		
Loss on transportation properties	1,361,842.16	
Refunding expenses	291,919.46	
		11,607,046.81
Less: Reduction due to amortization of emergency facilities (as shown in the income statement)		609,949.00
Balance		10,997,097.81

It is true that by reference to the uncertified pro forma or adjusted income statements it can be determined that the reduction in taxes due to the items charged to surplus was $4,148,050. It is obviously unsound, however, to expect that a collateral disclosure in one set of statements will be inevitably and clearly connected by the reader with the information given in another and certified set of statements, at least without a clear cut cross reference.[9] This was apparently recognized since in the first amendment a paragraph was added to Note C to the income statement disclosing the $4,148,050 figure.[10] However, even with this figure before him the reader could determine only the aggregate reduction attributed to two wholly disparate items. It seems self-evident that the actual total loss on transaction properties sold and the total amount of refunding expenses are material facts. We think it equally apparent that the estimated amount of actual taxes is an important fact.[11]

There is another, though less patent difficulty. The amount shown for excess profits taxes was $8,164,870.79. The postwar credit against excess profits taxes was shown as $351,081.99, or at the rate of about 4.3%. Since the postwar credit is normally 10% of the excess profits tax, the disparate relationship of these two figures should raise a question to even the average reader of the statement. There was, however, no explanation directed to this point. When the figure shown for excess profits taxes was reduced to the actual amount believed to be payable ($3,496,871.79) no change was made in the amount shown for the postwar credit. Apparently the amount by which the excess profits tax provision was increased on account of the charges to surplus was net of the statutory 10% credit. In other words, the figure shown as a provision for excess profits taxes was doubly a hybrid. First it combined actual taxes with "tax savings." Second to the extent of the estimated actual liability it was computed at the rate of 95%, but as to amounts in excess of actual liability, the rate used appears to have been 85.5%—that is, the full 95% less the 10% postwar credit.

There remains a final point—the caption under which the tax provision was set forth. The language "Taxes—excluding reductions shown separately below or applied against items charged directly to surplus" in our opinion scarcely lends itself to ready understanding but instead is apt very easily to convey exactly the opposite of its intended meaning through its use of "exclude me in" language. In our opinion such a description of this hybrid item represents a distinct barrier rather than an aid to understanding.[12]

In addition to all of the above difficulties, two much more basic questions are presented by the registrant's accounts: (1) whether there may or should be included in the operating expenses of a regulated public utility, under the cap-

[3] In 1942 Virginia Public Service Company called for redemption certain of its outstanding bonds. Unamortized debt discount and expense, call premium and expenses applicable to the redeemed bonds amounted to $2,021,708.13. Solely in order to simplify the present discussion, this item is not discussed in detail although its treatment involved much the same problems as the 1944 refunding.

[4] Section 124 of the Internal Revenue Code provides for the deduction by taxpayers, at their election, of accelerated amortization of property (including land) constituting an "emergency facility" by reason of certification by designated Government authorities that the property was necessary in the interest of national defense. Such amortization, which is in lieu of a deduction for ordinary depreciation usually at a much lower annual rate, is based on an arbitrary five-year life period but this may be amended to such shorter period as will end with the date officially declared as the end of the emergency war period. The President, by Proclamation, terminated the emergency period referred to in § 124 as of September 29, 1945. The VEPCO statements do not indicate the dollar amounts of such facilities, the normal depreciation taken, or the amortization taken for tax purposes. The figure of $609,949 represents the company's estimate of the amount by which Federal taxes would have been increased had only the normal depreciation been taken for tax purposes.

[5] a. Rule 5-03 (17 CFR, 210.5-03 (Profit and Loss or Income Statements) Caption 15 *Provision for income and excess profits taxes.* State separately (a) Federal normal income and excess profits taxes; (b) other Federal income taxes; and (c) other income taxes.

b. Rule 5-03, (17 CFR, 210.5-03) Caption 12; *Miscellaneous income deductions.* State separately, with explanations, any significant amounts, designating clearly the nature of the transactions out of which the items arose.

c. Rule 11-02 (17 CFR, 210.11-02) (Statement of Surplus) Captions 3 and 4. 3. *Other additions to surplus.* Specify. If two or more of the classes of surplus specified in the rule as to the form and content of the particular balance sheet are stated in one amount, the nature of other additions to surplus (caption 3) and of other deductions from surplus (caption 4) shall nevertheless be so designated as to indicate clearly their classification in accordance with such applicable rule. 4. *Deductions from surplus other than dividends.* Specify. See caption 3.

d. The second sentence of Caption 2B of Rule 5-03 (17 CFR, 210.5-03): A public utility company using a uniform system of accounts or a form for annual report prescribed by Federal or State authorities, or a similar system or report, may follow the general segregation of operating expenses prescribed by such system or report.

e. Rule 3-01 (a) (17 CFR, 210.3-01 (a)). Financial statements may be filed in such form and order, and may use such generally accepted terminology, as will best indicate their significance and character in the light of the provisions applicable thereto.

f. Rule 3-06. The information required with respect to any statement shall be furnished as a minimum requirement to which shall be added such further material information as is necessary to make the required statements, in the light of the circumstances under which they are made not misleading. This rule shall be applicable to all statements required to be filed, including copies of statements required to be filed in the first instance with other governmental agencies.

[6] In the 1942 income statements of Virginia Public Service Company a similar transaction was explained by means of a footnote which if read in conjunction with the surplus statement disclosed the total refunding expenses. The note read as follows:

(C) Federal Income and Excess Profits Taxes:

Virginia Public Service Company and subsidiaries—The statements of income for the year 1942 include provision for Federal normal income and excess profits taxes computed on the basis of taxable net income after deducting amortized debt discount and expense, call premiums and duplicate interest on long-term debt called for redemption in 1942. The reduction resulting from the availability of these nonrecurring deductions in computing the amount of 1942 taxes payable amounts to $1,571,158 and an equal amount has been deducted in the accompanying statements of income for 1942 as special amortization of debt discount and expense. The balance of unamortized debt discount and expense, call premiums and duplicate interest on long-term debt called for redemption in 1942 was charged against earned surplus.

However, the taxable net income as computed did not reflect the deduction, for tax purposes, of losses upon sales of ice and railway property, and certain other items charged to surplus. As a result, provisions charged to income in 1942 were approximately $330,000 in excess of the company's liability for Federal income taxes as shown in its tax return for that year. Pending review of the returns, this excess provision is included in accrued Federal income and excess profits taxes at December 31, 1943.

In 1943 the company filed a claim for refund of 1941 Federal taxes in the net amount of approximately $297,000 under the carry-back provisions of the 1942 Revenue Act. However, this amount is subject to such adjustments as may result from review by the U. S. Treasury Department and the claim has not been recorded upon the books of the company. * * * See also Exhibit A.

The total refunding expenses can be computed by adding the disclosed reduction of $1,571,158 to the $450,549.98 which is shown as a net direct debit to earned surplus.

[9] As we said in our opinion in the matter of *Universal Camera Corporation* (Securities Act Release 3076, June 29, 1945): "A disclosure which makes the facts available in such form that their significance is apparent only upon searching analysis by experts does not meet the standards imposed by the Securities Act of 1933 as we understand that Act."

[10] The first amendment was filed before the staff issued its letter of deficiencies.

[11] The treatment in this case is particularly unsatisfactory since the aggregate "reduction" is not divided proportionately between the two items. From the amended statements, it appears that the *total* loss on transportation properties was $3,418,715.16 of which $1,361,842.16 or about 40% appeared as a charge to surplus. In the case of the refunding expenses the total amount was $2,383,096.46 of which, however, only $291,919.46 or about 12% was charged to surplus. Inquiry developed that these differences were due first to the fact that in computing the estimated actual tax for the year, the amount recognized as an allowable tax deduction was about $1,000,000 less than the $3,418,715 recorded as a loss on the books; and second, to the fact that the refunding expenses used as a tax deduction amounted to about $68,000 more than those written off in the accounts. The amount of the reduction in taxes due to each of these two items was computed by applying a rate of 35.5%, that is, the 95% excess profits tax rate less the 10% postwar credit. Without knowledge of these important facts, even an expert could do no more than guess at what had been done with the accounts.

[12] See footnote 9, *supra*.

tion of taxes, any amount in excess of the amount estimated to be actually payable under the applicable provisions of the tax laws; and (2) whether any amount should be included in or with such operating expenses to compensate for the reduction in taxes due to items like those in question here. These issues are raised more clearly by the statements in their amended form and discussion of them will be deferred until the amendments have been described.

(c) *Amendments to the certified financial statements.* In view of objections on the part of the Commission's staff to the income statements as originally filed, a formal letter of deficiencies was sent on April 14, 1945 specifically criticizing the presentation of the items under discussion as follows:

Financial Statements

Income Statements

It is noted that the earned surplus statement for the year 1942 reflects charges aggregating $497,288.10 representing "Unamortized debt discount and expense, call premiums and duplicate interest on long-term debt called for redemption, less resulting reduction in Federal taxes on income." It is also noted that the earned surplus statement for the year 1944 reflects charges of $1,361,842.16 and $291,919.46 representing "Loss arising in connection with sale in 1944 of transportation property" and "Redemption premium and expenses in connection with refunding of bonds" respectively, less, in each instance, "resulting reduction in Federal taxes on income." Further, it is noted that the 1944 income statements reflect "tax savings" aggregating $609,949.00 resulting from special amortization of emergency facilities.

It appears that the total effective charges to savings in Federal income and excess profits taxes resulting from the above redemption of bonds, sale of property and special amortization of emergency facilities should be reflected separately in the income account under an appropriate descriptive title. In this connection, the title "charge in lieu of taxes" will not meet such requirement. Such amounts should be shown immediately below the total of "Operating Expenses and Taxes." [12]

Following the filing of the first amendment on April 2, there occurred several discussions with the staff based generally on the position taken in the letter of deficiencies dated April 14. In these discussions it was made clear that the staff took the position that the tax provision should not exceed the estimated amount believed to be payable and that charges to the income account "in lieu of taxes" could not be considered operating expenses. The staff also took the position that it would not object to charging the income account with so much of the two items charged to surplus (loss on sale of transportation properties and refunding expenses) as was equal to the company's estimate of the reduction in taxes caused by such items.

[12] We do not construe this paragraph to mean that charges may be made to income for the so-called "tax savings," provided only they are separately set forth. If it does, we disagree. We construe the language to mean rather that where taxes are reduced due to special circumstances special charges of an equivalent amount may be made to the income account, if the particular item involved is one that may properly be made to income and if the special charge is clearly described for what it is, for example, "Special charge-off of unamortized bond discount."

The second amendment was filed on April 16, 1945, substantially revising the certified income statement for 1944. In the amended statement, the provision for excess profits taxes was shown at the amount estimated to be actually payable. The following new item, equal to the reduction in the amount shown as excess profits taxes, was inserted under the general heading "Operating Expenses and Taxes."

Special charges equivalent to reduction in Federal excess profits taxes resulting from special amortization of emergency facilities (reduction shown separately below) and from redemption of bonds and sale of property (reductions applied against related items charged to surplus)	$4,757,999

The item was inserted immediately after a total captioned "Total Operating expenses and taxes before special charges." The sum of the special charges and the above caption was labelled: "Total operating expenses and taxes including special charges" and this item was then deducted from the total of operating revenues to arrive at a figure labelled: "Net operating revenues." The remainder of the income statement, and the surplus accounts were the same as in the original filing except that a paragraph added by amendment #1 to Note C to the income statement was dropped, presumably because the $4,148,050 figure it disclosed could now be derived from data given in the income statement.[14] It will be recalled that this figure was the total amount by which taxes were estimated to have been reduced because of the loss on transportation properties and the refunding expenses.

The changes made are summarized in the following table:

	As originally filed	After 2d amendment
Operating revenues	$51,681,778	$51,681,778
Operating expenses and taxes:		
Other than taxes	28,237,367	28,237,367
Taxes, excluding reductions shown separately below or applied against items charged directly to surplus [15]		
Taxes:		
Federal income	2,139,496	2,139,496
Federal excess profits	8,164,872	3,406,871
Post-war credit	(351,082)	(351,082)
Other	4,131,408	4,131,408
Total	42,322,060	
Total operating expenses and taxes before special charges		37,564,061
Special charges, etc		4,757,999
Total operating expenses and taxes, including special charges		42,322,060
Net operating revenues	9,359,718	9,359,718

[14] See Exhibit B. The $4,148,050 figure can be derived as follows:

Special charges	$4,757,999
Reduction due to amortization of emergency facilities (shown as last item of income statement)	609,949
Remainder applicable to the two surplus items	$4,148,050

[15] This caption was deleted by the second amendment and the caption "Taxes" substituted therefor.

The amended presentation was further questioned by the staff on these points:

1. The continued failure to disclose either the total loss on sale of transportation properties or the total refunding expense.

2. The impropriety of adding the special charges to operating expenses.

3. The propriety of the adjustment within the income account in respect of the amortization of emergency facilities.

The second of these points to some extent may conflict with the last sentence of the deficiency letter, quoted earlier, which read:

Such amounts (i. e., special charges) should be shown immediately below the total of "Operating Expenses and Taxes."

Physically, of course, registrant's amended statement conforms to the deficiency letter by placing the special charges immediately after the total mentioned. It was the staff's position, however, that the deficiency called for their inclusion at that point as a separate, distinct and different item, rather than in such a way as to imply that the special charges were true operating expenses, though perhaps nonrecurring in nature. We feel that the language of the deficiency letter might well have been more explicit and so more in conformity with the oral statements made by staff members. In any event, however, the point is now moot since when the case was presented to us for directions, it was determined not to permit inclusion of such charges in or with operating expenses.

After some further discussion of the matter with the registrant and its accountants, the staff brought the case to the Commission for directions, presenting for consideration the history of the case and the views of the registrant and its accountants both in this and other similar cases. We thereupon directed the staff to advise the registrant to the following effect:

1. That no adjustment should be made within the income statement based on the estimated reduction of income taxes due to the amortization of emergency facilities.[16]

2. That no objection would be raised to the inclusion in the income statement of an item of $4,148,650 representing so much of the refunding expenses [17] and of the loss on disposition of property as was equal to the estimated reduction in income taxes attributable thereto, the remainder of both these items being charged directly to surplus: *Provided, however,* (a) That the caption for the item indicates clearly the nature and amount of the item being charged off and (b) that the special charge be excluded from operating expenses and shown as a deduction from gross income.

After being advised as to our views, the registrant on April 19, 1945 filed a third amendment. In the revised income statement, the $609,949 adjustment based on the amortization of emergency facilities was omitted and taxes were shown at the actual estimated amount thereof. The $4,148,050 of Special Charges was set forth as a separate item in the following manner:

[16] Our views as to this particular variant of the general problem are outlined in footnote 35.

[17] According to the registration statement these costs consisted of redemption premiums and expenses in connection with the refunding of the bonds.

Gross income (before special charges below)	$14,072,358.24
Special charges equivalent to reduction in Federal excess profits taxes resulting from redemption of bonds ($2,091,177) and sale of property ($2,056,873) (reductions applied against related items charged to surplus)	4,148,050.00
Gross income (after special charges)	9,924,308.24
Deductions from income	3,719,526.80
Net income	6,204,781.44

The qualification "before special charges below" was also added to two prior captions so that they read as follows:

Total operating expenses and taxes (before special charges below).

Net operating revenues (before special charges below).

In addition Note C to the tax item was amended to disclose that no adjustment had been made in the income statement on account of the difference between depreciation taken therein on emergency facilities and the amount claimed therefor as amortization under Section 124 of the Revenue Code. The amount by which taxes were affected through this difference was given.

The staff brought the revised statements to our attention and we indicated that in our view the special charges should be classified as "other deductions" inasmuch as they represented items which, if charged to income, should, under the classifications of accounts to which the registrant was subject, be charged as an item of other deductions.

Upon being advised of these views the registrant filed its fourth amendment on April 20 in which the special charges were classified as an item of other deductions and Note C was expanded somewhat to set forth specifically the amounts charged to income in respect of the refunding expenses and the loss on transportation properties. As revised, the note no longer stated the amount of the tax reduction attributed by the registrant to the difference between the amount of depreciation and amortization taken on the emergency facilities. However, this amount can be derived from the other figures shown.

In transmitting to the registrant our views on the income statement as set forth in the third amendment, the staff indicated that the use of the words "before special charges below" in the several captions mentioned above was objectionable. We do not believe this position to be wholly sound. We feel that the existence of large special and unusual transactions ought properly to be forcefully brought to the attention of the reader of the statement. We feel also that the use of appropriate qualifying words such as "see special charges" in connection with the pertinent captions is an appropriate means of warning the reader of the existence of such items as were present in this case.

(d) *The pro forma income statements.* In addition to the certified income statements for the years 1942–44, the registrant filed uncertified pro forma income statements under the following general title:

Virginia Electric and Power Company Pro Forma Income Statement for 12 months ended December 31, 1944, Giving estimated effect as at January 1, 1944 to Merger, Sale of Transportation Properties and Proposed Refinancing.

The actual 1944 income statements of VEPCO, and of Virginia Public Service prior to its merger with VEPCO on May 26, 1944, were shown in two separate columns. In five additional columns there were shown (1) adjustments to give effect to the merger, (2) adjustments reflecting the sale of transportation properties, (3) adjusted statements prior to the proposed refinancing, (4) the refinancing adjustments, and (5) adjusted statements after the refinancing. We are here concerned primarily with the treatment accorded the tax items although some reference to other adjustments may be necessary.

In general, the presentation followed quite closely that used in the certified statements. As originally filed the total of income tax items shown in the two "actual" columns was the same as that shown in the certified statements, $9,953,285. This figure and the adjusted figure were both described as "Taxes—Federal income and excess profits (excluding reductions (1) as shown separately below and (2) of $4,148,050 related to and applied against items charged directly to surplus.") As pointed out earlier, these uncertified statements disclosed that which the original certified statements did not—the aggregate tax reduction resulting from the two items charged to surplus. In the statements filed adjustments of the "actual" tax figure were as follows: [18]

Tax provision as shown in the certified statements	$9,953,285
Add:	
Increase due to 1944 merger and refinancing	362,473
Increase due to redemption of series B, C and D bonds and issuance of series E bonds	294,552
	10,610,310
Less: Reduction resulting from sale of transportation properties	2,793,565
Adjusted or "pro forma" tax provision	7,816,745

A note keyed to the adjusted tax figure read:

The amount shown above for Federal income taxes includes provision for estimated excess profits taxes of $5,661,205 before reductions (1) as shown separately in the income statement and (2) of $4,148,050 related to and applied against items charged directly to surplus, and after deducting estimated post war credit of $328,900.

Finally, the $609,949 adjustment relating to the emergency facilities was added back at the foot of the income statement just as was done in the certified statements.

The form of this pro forma statement of income was not criticized in the letter of deficiencies dated April 14 and no change was made by the second amendment. However, when the case was brought to us for directions, as noted above, we indicated that the same treatment should be accorded the pro forma statements as in the case of the certified statements.

In the third amendment, therefore, the pro forma statement was revised by eliminating the adjustment related to the emergency facilities, by reducing the initial and adjusted tax figures to the estimated amount of actual liability therefor, and by segregating the "special charges" so as to show them, in conformity with the certified statements after the third amendment, as a deduction from "Gross income (before special charges below)." The balance was entitled "Gross income (after special charges)." Note C was also revised to read:

The amount shown above for Federal income taxes includes provision for estimated excess profits taxes (after deducting estimated post-war credit of $100,356) of $903,206 which is after reductions (1) of $609,949 resulting from amortization of emergency facilities and (2) of $4,148,050 related to and applied against items charged directly to surplus.

In the fourth amendment the form of the pro forma statement was again changed. A figure was now shown labelled "gross income" after which were shown three items; namely, the "special charges" of $4,148,050; interest and amortization, $2,409,075, and amortization of plant acquisition adjustments, $693,168. These were deducted as a group from the gross income figure to give a balance labelled "Net Income." Note C was amended to add the following, "but does not give effect to tax savings of $2,379,096 which are expected to result from the proposed refinancing." [19]

In our opinion, it would be most difficult to prescribe a rigid rule for the handling in "pro forma" statements of items such as are here in issue. The difficulty is due very largely to the variety of situations dealt with under the name of "pro forma" statements. For example, that term has been used to describe estimates of future earnings when cast in the form of an income statement. It is also used, as here, to describe a statement in which the actual operations of some past period are altered or adjusted either to "give effect" retroactively to certain specific transactions which have since taken place, or to "give effect" to

[18] The first amendment raised the amount of bonds being registered from $33,000,000 to $59,000,000. This change required alteration of the amounts of some of the adjustments. However, the form of presentation was not changed from the original filing.

[19] This change is not germane to the present discussion which relates to the costs of a previous refunding.

certain proposed transactions.[20] Where a pro forma statement reflects a straightforward estimate of future earnings, it would seem that the problem under discussion does not exist, since clearly any amount shown therein as taxes would be based on estimates of future tax rates and future taxable income. In such circumstances there would rarely, if ever, be any occasion for "charges in lieu of taxes" or "tax savings." Here the situation is different. The VEPCO "pro forma" statements are based on the actual statements for the year 1944. A limited number of adjustments to the actual figures are made to illustrate how certain specified events might reasonably be expected to have altered 1944 reports had such events occurred at the beginning of 1944. In this case these events are (1) the merger with Virginia Public Service on May 26, 1944 and the 1944 refinancing; (2) the sale of certain transportation properties during the year and (3) the proposed refinancing. On the other hand no retroactive adjustment was made as to a rate reduction which took effect on April 1, 1945. Such adjusted statements are, of course, useful to the extent they shed light on the future by illustrating the probable scope of the changes now being carried out. They are, accordingly, a hybrid form, being neither statements of actual operations nor thoroughgoing estimates of future earnings. In the present case, the changes made are relatively few so that, on balance, the adjusted statements are much closer in nature to an actual statement than an estimate of earnings. For that reason, we feel that our views as to the certified statements are applicable to the adjusted statement under discussion. We point out again, however, that here as in the certified statements it is proper to add an appropriate qualifying phrase to such captions as "gross income."

(e) *The findings and opinion of the Commission in the related case under the Public Utility Holding Company Act of 1935.* In their appearance before us the certifying accountants criticized certain data as to VEPCO that was included in our opinion in this case under the Holding Company Act.[21] Under the caption "Earnings" we set forth the following:

> Attached hereto as Exhibit B is an income statement of VEPCO for the twelve months ended December 31, 1944 adjusted to reflect the merger of Virginia Public Service Company and the recent sale of transportation properties and pro forma to reflect the proposed refinancing.
>
> Gross income, interest and amortization, and pertinent ratios are as follows:

TABLE IV

	Adjusted	Effect of refinancing	Pro forma
Gross income before Federal taxes on income	16,234,038		16,234,038
Federal taxes on income [1]	2,764,194	294,552	[2] 3,058,746
Gross income	13,469,844	294,552	13,175,292
Interest and amortization	2,740,710	331,635	2,409,075
Ratio of gross income before Federal taxes on income to interest and amortization	5.92		6.74
Ratio of gross income to interest and amortization [2]	4.91		5.47

[1] Reflects reduction in 1944 taxes of $2,091,177 resulting from redemption of bonds and $2,056,873 resulting from loss on sale of property.

[2] Does not reflect additional reduction in taxes of $2,379,096 to arise from payment of call premium in connection with the instant refunding.

The accountants pointed out that the ratios of gross income to interest and amortization were not at all representative of what might be expected for the future, since the provision for taxes was $4,148,050 less and gross income $4,148,050 more than they would have been had the refunding and sale of transportation properties not taken place. They further pointed out that under their proposal either to increase the amount shown for taxes by $4,148,050 or to deduct a special charge of that amount before arriving at gross income the resulting ratios would be 3.40 and 3.75 before and after adjustment for the proposed refinancing. These ratios they believed were far more reliable indications of what might be expected for the future.

The materials included in our opinion show on their face the basis on which the ratios in question were computed. They are, in our opinion, a correct reflection of what occurred in the period. On the other hand, we agree with the certifying accountants that the current period was unusual to the extent at least of the three transactions under discussion.[22] For that reason neither the current period nor ratios based on current results are fairly indicative of future possibilities. However, as will be pointed out in more detail later, we do not think the method of handling such a situation should be to alter or obscure the actual results of operation. Instead, we feel such a situation calls for a clear explanation of the circumstances. In this case, we feel that our opinion should have more graphically explained the situation by giving an additional set of clearly described ratios derived from the adjusted gross income figure referred to by the certifying accountants.

(f) *The treatment of "tax savings" in financial statements filed with this commission.* Cases involving the treatment of so-called "tax savings"[23] in financial statements have arisen with increasing frequency in recent months. For that reason, as stated earlier, we feel it desirable to state our views as to the treatment to be accorded such items in statements filed with us and to point out the reasons which have led us to those conclusions.

It is first necessary to state briefly certain of our general views as to the functions of financial accounting and the purpose of the income statement. In our opinion financial accounting is essentially historical in nature—it consists of an accounting for costs that have actually been incurred by the business and for the revenues that have been actually derived from the business. From a balance sheet point of view, the question is what part of past expenditures may still be treated as valuable assets, of benefit to future operations, and what part of such expenditures must be considered as having been used up or expired. In order to prepare an income statement, it is necessary to decide what part of the costs that have been incurred should be treated as expenses, and what part of the revenues obtained may be treated as income. Technically this process is sometimes spoken of as matching costs against revenues, the difference being, of course, profit or loss. The principal statement reflecting this matching up process for a particular period is the income statement.

In order to arrive at a more precise matching of revenues and costs, accountancy has developed many procedures for handling particular transactions where the cost is incurred at one time and the benefit is received at another time, either earlier or later.

Much the same treatment is accorded cases in which a company receives revenue either before or after it delivers the goods or services contemplated. Ordinarily, such receipts will be treated as realized income, not necessarily in the year in which the cash is received, but rather in the year in which goods are delivered or in which the service is rendered or the costs of rendering that service are incurred.

It is also necessary as a part of this process of matching costs and revenues, for the purpose of determining income, to consider at appropriate intervals whether any amounts presently reflected as assets in the accounts should in the light of present conditions be written off or reserved against. Finally, consideration must be given to whether there exist contingencies for which provision should be presently made either by recognizing an actual, though perhaps estimated, liability, or by providing an appropriate reserve.

We have elaborated these underlying accounting assumptions in order to demonstrate further that financial accounting is in our opinion concerned with what did happen, not with what might have happened had conditions been different. And it does not attempt to forecast the future even though it supplies much of the material used in making such a forecast.[24]

There is, on the other hand, another field of financial statistics in which statements are used which in form and language are closely similar to the financial statements used in presenting actual balance sheets and income statements. This is the field of financial analysis and forecasting. In essence, the analyst begins with reports of actual operations and conditions and adjusts them to give effect to expected future changes and events in order to arrive at his estimate of future earnings. In one form of analysis and forecasting the analyst is content to comment upon the actual past results, to point out what parts of the past results are due to factors which are not expected to continue and how the existence of new factors and conditions is expected to alter past results. At times, however, the analyst goes further and attempts to prepare an "adjusted" statement which purports to show how past operations would have worked out had certain specified subsequent events taken place earlier. Finally, the analyst may seek to forecast as accurately as may be what he expects will be the results of future operations. Frequently, in such cases, his forecast takes a form very like that used in portraying the results of past operations.

The validity of such analyses and forecasts, whether in the form of comments, of adjusted statements, or of estimated future income statements, is clearly no greater than the soundness of the prophecies and estimates upon which they are based. The results shown, however, are meaningful to a reader only to the extent he is aware of and agrees with or understands the nature of assumptions and estimates made. In contrast to such forecasts, a statement of past operations, even though it is based in important part on opinion and judgment is primarily an historical record of actual events, not of prophesied future events.

The two types of financial statements are obviously in wholly different categories and have different uses in examining the investment merits of a security. Particularly because of the similarity in form, great care must be taken to ensure that the reader will be aware of the nature of the particular statement. Nothing, in our opinion, would be more misleading than to present, in the guise of an actual earnings statement, data which, in fact, was an estimate either of expected future earnings or of the effects of subsequent conditions and transactions on prior operations. The dangers inherent in the situation led us some years ago to adopt rules under the 1933 and 1934 Acts forbidding the use of "pro forma" statements unless a clear indication is given of the assumptions on which they are based.[25] Also under the 1933 Act we have by rule prohibited altogether the use of "pro forma" statements in certain cases. Apparently with a similar appreciation of the danger of confusing actual and pro forma income statements the American Institute of Accountants has for many years included in its Rules of Professional Conduct the following:

> 12. A member or an associate shall not permit his name to be used in conjunction with an estimate of earnings contingent upon future transactions in a manner which may lead to the belief that the member or associate vouches for the accuracy of the forecast.

Notwithstanding the uncertainty inherent in estimates of future earnings, it is apparent that the formation of a considered investment judgment ordinarily involves a conclusion as to the future prospects of the company. It is necessary in the administration of the Public utility Holding Company Act in arriving at a decision as to the propriety of a particular security in relation to the capitalization and earnings, or as to the fairness of the price at which securities or assets are proposed to be sold. Under the Chandler Act it is a necessary step in arriving at a conclusion as to whether a proposed reorganization is fair and equitable and feasible.

In reaching a judgment as to the future prospects of a company it is customary to begin with a statement of actual operations for an appropriate past period. Because of this use of actual statements of operations, an effort is ordinarily made to present the results of prior years' operations in a form that is as readily usable as possible for that purpose. In general, what is done is to segregate and ear-mark what are considered to be unusual and non-recurring items of income, expense and loss so that the reader will be warned of them and so may arrive at a conclusion as to whether such items can be expected to recur. In addition, special treatment is accorded items of income or loss or expense that have been reported in the financial statements of one year, say 1943, but which by reason of later events or knowledge, are now known to have been actually part of the costs or revenues applicable to another year, say 1942. In such cases, it is customary in filing comparative statements for the two years to include such items in the year to which they are now known to be related. Such adjustments are in our opinion entirely proper and ordinarily desirable provided, of course, that appropriate disclosure is made so that the comparative statements can be reconciled with the 1942 and 1943 statements as originally issued. Finally, disclosure should be made as to significant, known factors that might render past earnings statements, or particular items therein, not indicative of probable future operations.[26] With such information at hand the reader of the statement is informed

> In the registrant had disposed of a large investment portfolio the income from which had of course been included in past earnings statements, had used the proceeds of this sale and of a $2,000,000 bank loan to pay an extraordinary cash dividend of $7,000,000 and now proposed to issue some $3,000,000 of new 4% debentures. It had entered into new agreements for lines of bank credit at a much higher interest rate. Finally it had materially increased the rate of management compensation and had determined to extend its insurance coverage at a material increase in the amount of insurance premiums payable. In view of these significant changes in financial and operating factors and their material effect on the future earnings of the company we said:
>
> The net effect of the foregoing will be to diminish the net income available for dividends. Profit and loss statements are required in the registration statement as an indication to prospective investors of the registrant's earning power. The nine-years' profit and loss statement contained in this registration statement reflected the results of operations during a period when the registrant had maintained continuously a financial status substantially equivalent to that existing immediately prior to this financing. By reason of the changes effected since May 22, that financial status bears little resemblance to that which obtains presently. Where such changes will have a material effect on prospective earnings, the omission to disclose those changes and their effect with relation to the profit and loss statements is as misleading as if the registrant's past earnings had been misrepresented.

[20] Rule 170 of the General Rules and Regulations under the Securities Act of 1933 prohibits the use of pro forma statements which purport to give effect to the receipt and application of any part of the proceeds from the sale of securities for cash unless the sale of securities is underwritten and the underwriters are to be irrevocably bound, on or before the date of the public offering, to take the issue. *Cf.* Rule X-15C1-9 under the Securities Exchange Act of 1934.

[21] In the Matter of Virginia Electric and Power Company, H. C. A. Release No. 5741, April 20, 1945.

[22] It should be noted, however, that three of the four years from 1942 through 1945 are "unusual" by this test. In 1942 there were "Special charges" of $1,571,158 in connection with a refunding in that year. In 1944, there were the $4,148,050 "Special charges" in issue here. In 1945, it is estimated there will be $2,379,096 "Special charges" due to the proposed refunding. Only in 1943 were there no "Special charges." For the four years average gross income was $10,808,313 and average "Special charges" were $2,024,576.

[23] We think it undesirable in principle and possibly misleading to refer to this problem as involving "tax savings" although due to the general use of the term in this sense we have adopted that nomenclature here. It seems to us that the term "tax saving" is apt to connote some sort of standard or normal tax law and a standard or normal earnings year to which that law applies. The facts are, of course, that there has not been a static or standard or "normal" tax law or tax status; nor has it been possible except in most unusual cases to characterize any particular fiscal year of a company as a "normal earnings" year, from which all others are to be regarded as a departure. Under such conditions, each year's tax is whatever happens to result from the application of the computation formula, provided by the tax law of that year, to the sum total of taxable transactions and tax deductions resulting from whatever business may have been done in that particular year. Moreover, the past few years during which the term and the problem of "tax savings" appeared have clearly been unusual in nearly every respect. Finally, if the phenomenon in question is to be described as a "tax saving" it would seem necessary to describe as a "tax loss" the failure to carry through a transaction which it can be said would have resulted in a "tax saving." And if taxes in one year are higher should not that increase itself be considered to be a "tax loss." Our strong preference is to describe the problem as involving "tax reductions."

[24] Although we here emphasize the essentially historical character of financial accounting, it is by no means to be inferred that we feel the work done by the financial accountant is therefore mechanical or routine in nature. On the contrary, proper discharge of his duties and responsibilities presupposes that the financial accountant possesses and exercises an extremely high degree of professional skill, experience and judgment.

[25] *Supra*, footnote 20.

[26] In our opinion In the Matter of The Colorado Milling & Elevator Company (S. A. Release No. 2964, December 20, 1943) we had occasion to emphasize the need for disclosure of major changes in financial and operating factors that rendered statements of past earnings not fairly indicative of what might be expected for the future. In that case the

of what the past operations were, and of the conditions or transaction, which in the draftsman's judgment, are apt to be unusual and not apt to recur. In our opinion, this is the boundary line of financial accounting. It is the place at which the financial accountant in his capacity as such should stop. He is, we feel, essentially a historian, not a prophet.

This desire to prepare statements in a form more readily usable in estimating the future has led some to attempt to present what can be called a "normal" income statement, the inference being that the statement shows about what can be expected to happen year after year. The broad justification alleged for the practice is that if the actual results of the year's operations are unusual a reader may be misled into thinking the abnormalities will recur and that the best, if not the only way, to avoid such misconceptions is to "normalize" the statement—that is, to exclude therefrom the effects of some or all of the conditions which in the opinion of the draftsman are deemed to be unusual.

The dangers inherent in such a practice are numerous. In the first place, the draftsman's judgment as to what is abnormal can scarcely be considered infallible. In the second place, there is certainly as much danger that the reader will fail to understand what has been done by the draftsman as that he will fail to recognize that the unadjusted statements are abnormal. Finally, the method is extremely susceptible of misuse through conscious or unconscious bias in making decisions as to what is unusual or abnormal about the current year. To a degree, of course, the care with which disclosure is made of the extent of normalization may serve to minimize the possibility of misleading the reader. But in general we are satisfied that a statement purporting to reflect the actual results of operations is far less likely to be misleading if abnormalities are explained than if they are eliminated by adjustment in the statement even with an explanation of the elimination set forth in a note.[2] If, of course, a clear and full explanation of the adjustments made is not given, the practice is highly deceptive and may be fraudulent. It may be noted in passing that accountants have long condemned such undisclosed "adjustments" terming them at times a device akin to "equalizing earnings."

We conclude, then, that the proper function of an income statement presenting the results of operations is to present an accurate historical record. On this basis, it is evident that the items included therein should clearly and accurately reflect only actual operations. It is accordingly our view that the amounts shown should be in accordance with the historical facts and should not be altered to reflect amounts that the draftsman considers to be more "normal" or likely to recur in future years."

We return now to the particular problems presented by the facts in the VEPCO case. In their appearance before us the certifying accountants objected to our position and defended their proposal on three principal grounds:

(1) That as an accounting matter it is necessary to "allocate" the actual taxes as between charges to surplus and income from operations even if that practice results in the inclusion in the income statement of a charge (described as taxes or as charges in lieu of taxes) in excess of the actual taxes payable, with an offsetting "credit" or "negative tax" being carried to surplus in amount sufficient to reduce the charge on account of taxes to the amount actually payable.

(2) That the adjustment of the tax figure, or the inclusion of a charge in lieu of taxes in or on a parity with operating expenses, results in the income statement being more useful to investors since it is more clearly indicative of "normal" conditions and probable results in the future.

(3) That in the setting of rates for regulated public utilities it is proper to base future rates on expected future taxes hence the adjustment method tends to conform the income statement to the basis on which the rates of the company will be set.

For convenience, we shall first discuss the latter two points leaving the allocation argument until last. The second contention we believe to be unsound for the reasons stated in our general discussion of the functions of financial accounting and of income statements reflecting the results of past operations. We think such statements should be historical records of the results of whatever financial events actually took place. It is not the role of the financial accountant to adjust them so as to eliminate the effect of unusual circumstances which actually occurred. Accordingly, we can not agree with this contention. To include under operating expenses as taxes an amount which is not taxes because the substituted amount is considered by the draftsman to be "normal" is precisely the type of adjustment which we believe unsound in a statement of actual operations. And if the amount of the adjustment is undisclosed the statements are deceptive to a point that may border on fraud. If the fact of adjustment be disclosed but not the amount, the statements are still misleading in our opinion and, at the very best, are useless as reports of actual operations.

There is a related difficulty. If the "credit" to surplus or "negative tax" figure offsetting the enlarged charge to income is netted without disclosure against the loss or expense charged to surplus, the reader will be unable to determine the actual amount of the loss or expense in question. In our opinion such an event as the sale of corporate property at a substantial loss is an important fact. It is no less important because, fortuitously or intentionally, one of these events occurs in a year of high tax rates and high income, so as to effect a substantial reduction in the income tax payable. There are in these cases two facts to be disclosed—the loss on the property, and its tax consequence. Such a transaction ought to be reported in such a manner as not to conceal either the fact that a loss was suffered or the amount of the loss. To report this kind of loss net of its tax consequences is no more supportable in our judgment than to report on a similar net basis an expense such as advertising, depreciation, interest or any other item in the income account.[3]

The third argument advanced in support of the enlarged charge to taxes, or of the charge in lieu of taxes, is that the income tax figure which is a significant factor in respect of the rates of a regulated public utility is not the actual amount of taxes paid but the amount that would have been payable but for the loss or expense carried to surplus. This argument is, of course, limited in its application to public utilities whose rates are subject to governmental regulation. Such companies are ordinarily required to follow a uniform system of accounts and, in most jurisdictions, the prescribed form of income statement shows income taxes as an element of operating expenses, or as is sometimes said "above the line." Generally speaking, items included "above the line" are recognized as expenses allowable in computing the gross income for rate purposes while deductions made "below the line," such as interest, and items carried to surplus are not chargeable in this way."

[2] Where the tax provision is presented as in the original VEPCO statements or a charge in lieu of taxes shown, we doubt whether any but the most experienced reader of financial statements would be apt or perhaps able to make the calculations necessary to arrive at the amount of net earnings or of net earnings per share based on the actual tax payable.

[3] We do not at this time propose to discuss the practice of treating certain types of losses and income as corrections of surplus rather than as elements of profit and loss to be reflected in the year's income statement. That question is involved in certain proposed amendments to Rule 5-03 of Regulation S-X which have been distributed for comment to interested persons. The comments received have not yet been fully analyzed, and it is likely that further steps will be taken to develop the nature of the problem and any conflict of opinion as to its proper solution. We feel it inappropriate in this statement to seek to anticipate the outcome of that investigation.

[4] It will be noted that an income statement which is charged only with the estimated amount of taxes actually payable thereby reflects the tax reduction due to special items. Moreover, the benefit of the tax reduction will be reflected in earned surplus, the amount of which will ultimately be the same whichever of the several suggested treatments of these tax reductions is followed.

[5] The deductibility of income taxes in computing return for rate purposes was an issue in Galveston Electric Company v. Galveston, 258 U. S. 388, 42 Sup. Ct. 361 (1922). There the Supreme Court speaking through Mr. Justice Brandeis said "All taxes which would be payable if a fair return were earned are appropriate deductions. There is no difference in this respect between State and Federal taxes or between income taxes and others." This position was reaffirmed in Georgia Railway & Power Co. v. Georgia Railroad Commission, 262 U. S. 625, 43 Sup. Ct. 680 (1923). These decisions dealt only with the normal income tax then in effect. Therefore, because of certain observations by Justice Brandeis there are those who argue that these decisions may not be controlling as to the present Federal tax, particularly the present excess profits tax. Thus, in the Galveston case the court took care to point out that under the tax law then in effect the stockholder did not have to include

The short answer to this contention is that in most, if not all cases, the required systems of accounts do not permit a charge to operating expense accounts except for expenses actually incurred.[11] We note that the Committee on Statistics and Accounts of the National Association of Railroad and Utilities Commissioners has, in Case E-80, so interpreted the N. A. R. U. C. classification.[12]

We think, moreover, that this contention of the accountants in this case is unsound on its face. The costs and expenses, including interest, that arise from the borrowing of capital are almost universally excluded from the computation of gross income for rate making purposes. To include in operating expenses by indirection an item which is specifically excluded therefrom is obviously improper. Yet this is what is here proposed. The credits, in this case, that offset the charge in lieu of taxes have been deducted from the refunding expenses and the loss on sale of transportation properties, respectively, so that the charge to surplus is a net charge. To include in operating expenses part of the refunding expenses either directly or in the guise of a special charge in lieu of taxes is a violation of the premise that the costs of borrowing money are not a deduction in computing return for rate purposes. It would be as logical to say that the interest paid in a given period reduces the income tax payable and that therefore a charge in lieu of taxes should be included above the line with an offsetting reduction in interest expense below the line.

Finally, this contention seems to us to misconceive the relation of past results to the process of rate making. Where rates are being set for a future period, it is obvious that the actual results of past operations are only indications of what may be expected to be forth-coming in the future. The problem is, broadly, to determine what future earnings may be expected to result from particular rate structures. Consequently, it is customary to "adjust" many of the past operating expenses to bring them into line with present or anticipated conditions. Among such conditions are, of course, in-

dends received from the corporation in question subject to the normal Federal income tax and that this tax exemption was therefore, in effect, part of the return on his investment. Under the current tax law such dividends are taxable to the recipient. The court also said: "But the fact that it is the general corporate income tax for which deduction is made, must be taken into consideration in determining what rate of return shall be deemed fair."

The Supreme Court has not yet had before it a case involving the deductibility for rate purposes of an excess profits tax actually paid by the company. Some question as to its deductibility is, however, raised by the language used by Mr. Justice Douglas in his dissenting opinion in Vinson v. Washington Gas Light Co., 321 U. S. 414, 64 Sup. Ct. 731 (1944). He there said, in discussing a provision of the Stabilization Act of 1942 which prohibits any "utility" from making "any general increase in its rates or charges which were in effect on September 15, 1942" without giving the Director of Economic Stabilization the right to intervene in the proceedings:

> I believe, moreover, that when Congress authorized general rate increases and gave the Director a right to intervene, it did not envision rate increases regardless of need and regardless of inflationary effect. I think it meant to make utility commissions at least partial participants in the war against inflation and gave them a measure of the front to control. Though it did not remove the established standards for rate-making, I do not think it intended utility commissions to proceed in disregard of the requirements of emergency price control and unmindful of the dangers of general rate increases. To the contrary, I think Congress intended that there should be as great an accommodation as possible between the old standards and the new wartime necessities. The failure of the Commission to make that accommodation is best illustrated perhaps by its treatment of taxes. The Commission allowed the company to deduct as operating expenses all income taxes up to and including 31%. That this amount includes wartime taxes is evident from the fact that the highest corporate tax rate which prevailed from 1936 to 1939 was 19%. We all know that the extraordinary expenditures incurred for the defense of the nation started with the Revenue Act of 1940. It has been accepted practice to deduct income taxes as well as other taxes from operating expenses in determining rates for public utilities. Galveston Electric Co. v. Galveston, 258 U. S. 388, 399. But this is war, not business-as-usual. When income taxes are passed on to consumers, the inflationary effect is obvious. And it is self-evident that the ability to pass present wartime income taxes on to others is a remarkable privilege indeed.

In Detroit v. Michigan Public Service Commission, —— Mich. ——, 14 N. W. (2d) 784 (1944), the Michigan Supreme Court held, with three Justices dissenting, that the Galveston case did not control the treatment in rate cases of the present Federal excess profits taxes. Writing for the majority, Justice Bushnell said, "As I read Galveston Electric Co. v Galveston, 258 U. S. 388, 399, 66 L. ed. 678, PUR 1922 D 159, 42 S. Ct. 351, which is intimated by my brother as controlling, its authority is limited to normal taxes and not to abnormal and avoidable taxes on 'excess profits' even though it must be conceded that the term by which such tax is designated is a misnomer. Excess profits are a question of fact for determination by the Commission."

A similar result was reached by the West Virginia Supreme Court in denying the deductibility of the excess profits taxes levied during the first World War. Charleston v. Public Service Commission, 95 W. Va. 91, 120 S. E. 598 (1923).

In its decision in City of Detroit v. Panhandle Eastern Pipe Line Co., 3 F. P. C. 273 (1942), the Federal Power Commission, at p. 291, expressed its objection to the allowance of excess profits taxes in computing returns as follows:

> Thus it appears that the doctrine of unjust enrichment as well as equity and good conscience compel the conclusion that a utility should not be permitted to thwart the purpose and spirit of the war price control legislation and the revenue laws by passing such abnormal tax requirements along to its consumers as an operating expense to be collected in increased rates. Indeed, we feel increased rates on such a basis would be unjustifiable. To allow them would in effect impose upon the consumers a sales tax.
>
> So that there may be no confusion concerning the tax situation in connection with the companies subject to our jurisdiction, where necessary to stabilize utility rates at reasonable levels during the war emergency period, we propose to allow as proper operating expenses only such taxes as may be termed ordinary or normal. For the purpose of distinguishing between ordinary or normal and war emergency or abnormal taxes, we conclude that the basis prescribed in the 1940 Revenue Act establishes the highest possible level of Federal taxes which may be allowed as an element of operating expense for such purpose. The 1941 Revenue Act and the pending 1942 proposal certainly reflect abnormal tax requirements for war purposes.

The Federal Communications Commission in Re Investigation of Rates and Charges, 50 PUR (NS) 468, 489 (1943) also disallowed a deduction for excess profits taxes. The trend of a number of state utility commission decisions seems to be to limit or deny the deductibility of excess profits taxes. See In Re Los Angeles Gas & Electric Corporation, P. U. R. 1922 A. 263 (California); Re Western States Gas and Electric Co., P. U. R. 1919 B, 485, 493 (California); Re Vallejo Electric Light & Power Co., 55 P. U. R. (N. S.) 435, 443, 454 (1944) (California); Re United Fuel Gas Co., P. U. R. 1920 C, 583, 606 (W. Va.); P. U. C. v. Springfield Gas & Elec Co, 53 P. U. R. (N. S.) 95, 105 (1944) (Missouri); Re Washington Gas Light Company, 53 P. U. R. (N. S.) 321, 327, 336 (1943) (District of Columbia); Re Northern States Power Co., 55 P. U. R. (N. S.) 257, 273 (1944) (North Dakota). cf. Re British Columbia Electric Railway Company, Ltd., et al., 53 P. U. R. (N. S.) 438, 464 (1943) (British Columbia). An excess profits tax which had been neither reported to the government nor paid was not allowed as a deduction in P. S. C. v. Utah P. & L. Co., 50 P. U. R. (N. S.) 133, 167 (1943) (Utah). But see Pfeifle v. Pennsylvania Power Light Co., 57 P. U. R. (N. S.) 1, 32 (1915) (Pennsylvania); San Antonio Pub. Service Co. v. San Antonio, P. U. R. 1924 A. 259, 263 (Texas); Detroit v. Detroit Edison Company, 50 P. U. R. (N. S.) 1, 3 (1943) (Michigan).

In the instant VEPCO case it will be noted that the registrant's computations as to the tax effect of the special items resulted in an adjustment of excess profits taxes only; no adjustment of normal taxes is indicated. See Exhibits A-D.

[11] Under our Rule U-28, moreover, a registered holding company or subsidiary company thereof is forbidden to "distribute to its security holders, or publish, financial statements which are inconsistent with the books of account of such company or financial statements filed with this Commission by or on behalf of, such company."

[12] Case E-80 reads as follows:

Question: Several utilities which have refunded bond issues, have had substantial tax savings in the year the refunding occurred, because the unamortized debt discount, expense and call premium associated with the refunded securities is permitted as an income tax deduction during the year redeemed. Instead of showing the actual taxes paid or accrued in the tax account, the utilities in question have also included therein the amount of the tax saving due to the refunding operation with an offsetting credit usually to Account 140, Unamortized Debt Discount and Expense. Is this permissible?

Answer: No.

The tax account (507) should include only provision for actual taxes and the account should not be increased by the amount which would have been paid had the refunding transaction not occurred. In other words, there was an actual saving in taxes and this saving should be reflected in the income statement because it is a fact. It is believed, too, that the text of Account 507 does not permit the accounting practice resorted to by the utilities in the illustration cited.

ture taxes and tax rates. Accordingly, in the approximations made of future expenses there would be included not the actual taxes of the past year, or even what the taxes would have been had there been no unusual transactions such as a bond refunding, but instead an amount equivalent to what the income tax will be in the future in view of the assumptions made as to future income and future tax rates.[34] The amount of past taxes would be used only if, after examination, it was concluded that tax rates and future income were not expected to change.[34]

The rate making process is thus not unlike the formulation by the investor of his judgment as to the future prospects of the company. In both cases, reports of actual past operations are used as a starting point. In both cases, these actual statements are analyzed to determine the extent to which they may be relied on as indicative of the future and, where necessary, appropriate adjustments are then made. Except that the possibility of misleading the reader is very largely absent when the user is a rate making body, the comments we have made earlier as to pro forma statements are applicable here—and with this addition that the judgment of the draftsman as to what is the normal or proper amount of taxes is less important, since for rate purposes the judgment of the rate making body on this point will generally be conclusive.

We come next to the remaining contention urged by the certifying accountants, that as a matter of correct accounting it is necessary to "allocate" income taxes to income and other accounts. This theory is also advocated and developed in detail in a bulletin "Accounting for income taxes" issued in December, 1944, by the Committee on Accounting Procedure of the American Institute of Accountants.

There is no doubt that allocation is a basic accounting procedure. In fact the whole process of preparing income statements is a species of allocation—of determining what revenues are allocable to the current income account and what expenditures are properly to be treated as costs allocable to the current income account. It is not therefore a demonstration of the merit of the proposed device to describe it as an allocation or to say that income taxes should be allocated. Whenever an item is charged to income or indeed when it is excluded and carried as an asset, "allocation" in the accounting sense has taken place. The issue here is not whether income taxes should be allocated but whether the treatment of income suggested by the accountant's third contention is preferable to the method of allocation heretofore followed—that is, to show as a deduction from income of the current year the income and excess profits taxes which are believed to be actually payable, under the applicable tax law, as taxes of the current year.

In the argument before us and in the bulletin mentioned it has been urged that income taxes are an expense that should be allocated as other expenses are allocated. In neither case, however, was there any effort made to state the reasons why Federal income taxes must be considered as an expense in the same category as, let us say, wages. It is obvious, of course, that the net profit applicable to stockholders cannot be determined without first making an appropriate allowance for the amount that must be paid as income taxes. However, this fact does not dispose of the question. It is readily apparent that normal and excess profits taxes are computed as a part of taxable net income. Unlike most expenses they exist if, and only if, there is net taxable income before any deduction for such taxes. There is much to be said therefore for the position that true income taxes are in the nature of a share of profits taken by the government. If it is desired to place emphasis on the necessity of deducting them in order to arrive at net profit available to shareholders, they may perhaps be called an expense—but in such case they represent a very special class of expense, one that is incurred only by the making of a net taxable income.

Accordingly, to the extent that the propriety of the proposed treatment of income taxes depends on their classification as an expense rather than a share in profits we feel that the case remains unproven. Even if they be so classified, we feel that in view of their unusual and distinctive characteristics the propriety of the proposed treatment is not demonstrated merely by classifying them as an expense and then concluding that for that reason they should be allocated as other expenses are allocated.

We now examine the contention that income taxes should be allocated "as other expenses are allocated." The accountants who appeared before us cited to us no other expense which, for general accounting purposes, is allocated in the manner proposed for income taxes, nor have any such instances otherwise come to our attention. We note, moreover, that in a dissent to the bulletin mentioned earlier it was stated:

> No expense other than federal income and profits taxes is allocated on the basis of applying to a given transaction so much of the expense as would not have occurred if the transaction to which the expense is attributed had not taken place. The usual method is to allocate a total expense ratably to given accounts or transactions on a consistent basis.

The illustrations of expense allocation cited to us by the certifying accountants in this case appear to us to support the above statement. In each case cited there was an expense actually incurred that was first allocated to the period under the usual accrual principles and then distributed over a number of accounts. In no case was there an estimate made of what the expense would have been under other conditions. In no case cited, was there a distribution of an expense to several accounts by means of what can be termed an algebraic formula in which a negative sum is credited against one item to offset the positive charge to another item of an amount in excess of the actual expense. We do not regard such a treatment as an appropriate means of allocating income taxes in financial statements which purport to reflect the actual results of operations. We have doubt indeed that such a method can properly be termed an allocation at all, as that term is customarily used.

We note, in passing, moreover, that in the examples of expense allocation cited to us there existed a direct, almost physical association between the item being allocated and the item to which it was charged. For example, in the case of real estate taxes allocated to construction the tax item is directly and closely related to the construction. Likewise, in the case of brokerage fees, and stamp or transfer taxes, the tax item is closely and directly related to the specific transaction. In both cases, moreover, the tax is independent of any other transactions of the company. Nor is there any attempt made to increase in the course of the allocation the amount of such taxes to an estimated sum. We feel therefore that such illustrations can not properly be cited in support of the proposed treatment for income taxes.

It is also sometimes pointed out that "cost" in the case of securities or property acquired is generally considered to be the sum of the purchase price plus incidental costs such as brokerage and any specific taxes paid by the buyer and that on sale the proceeds are computed as the selling price less incidental deductions such as commissions or any specific taxes paid by the seller. By analogy and in justification of the proposed treatment of income taxes it is frequently urged that a so-called "tax saving" must be allocated or attributed to or ultimately associated with particular losses or expenses because the tax consequence of the transaction involving the loss or expense were a motivating factor in arriving at the decision to consummate it. Thus, it is claimed that a property would not have been sold but for the "tax saving" thereby effected and that for this reason it is proper to consider that the true "loss" on the sale is not the excess of cost over selling price but is equal instead to the difference between cost on the one hand and selling price *plus* "tax saving" on the other. We do not believe such an analogy is sound and we cannot accept that analysis as a basis for reporting the results of actual operations. It is undoubtedly true that the tax consequences of selling a property often are an important consideration in arriving at the decision to sell, and may in some cases have been a deciding factor. However, tax consequences undoubtedly play an important role in the making of a great variety of decisions involving the incurrence and amounts of purely operating expenses such as advertising, wage rates and bonus plans. Yet it can hardly be argued that wages or bonuses or advertising are to be reported as less in amount because income taxes would have been higher if the amounts spent on such items were less. We see no basis for adopting a different approach in figuring the "loss" involved in a sale of property. We feel instead that there has been a loss of the full difference between cost and selling price coupled with a tax benefit which is properly reflected in the lower taxes actually paid. We feel that the proposed treatment of income taxes tends to obscure these facts and that the treatment of income taxes required by our rules and heretofore almost universally followed clearly discloses what has taken place. Where the tax paid for the year is unusual in amount because of unusual conditions, an appropriate explanation would be called for as is now required in the case of other unusual events.

As to this last principal contention urged by the certifying accountants (that income taxes are an expense that should be allocated as other expenses are allocated) we feel, first, that there is grave doubt whether income taxes can properly be considered as an expense in the same category as the cost of materials or wages, and, second, that the treatment proposed does not result in the allocation of income taxes "as other expenses are allocated." We feel instead that the proposed treatment is purely an effort to have items shown in the income statement at what is considered to be a "normal" amount. We note that this objective is clearly expressed as a prime purpose of the method in the bulletin referred to earlier, which states at p. 185:

> As a result of such [unusual] transactions the income tax legally payable may not bear a *normal* relationship to the income shown in the income statement and the accounts therefore may not meet a *normal* standard of significance. [Italics supplied.]

There are, finally, a number of difficulties involved in the proposed treatment of income taxes that deserve mention even though they are not directly related to the specific contentions put forward by the certifying accountants in the case.

The first involves the preparation of general statistical data from financial reports. Under the method proposed, it is permissible to show, as taxes, an amount in excess of the taxes payable. If such items are totalled for a period of years or for groups of companies, they may well be used as evidence of the aggregate amount of taxes paid by the company or by the industry. Obviously any such representation is erroneous and will misstate, often very materially, the underlying facts. We feel that we should not permit the filing with us of income statements which readily permit, if they do not actually invite, such misuse. Even a "charge in lieu of taxes" may result in distorted overall statistics since it operates to reduce net income after taxes and so affects the ratio of actual taxes to net income. If the offsetting credit is netted against a surplus charge the distortion may be permanent.[35]

The second and somewhat technical problem is the difficulty of the computation. It is usual in contemplating the tax consequences of a proposed transaction to treat it as an incremental or marginal item. Where tax rates are graduated, this results in associating the marginal income or expense with the highest tax bracket. It is questionable, whether such a principle is realistic when applied to the results of operations for a completed year. Next taxable income is a composite of all taxable income and all deductible items applicable to the period. The propriety of singling out any specific item as the item which is taxed in the highest tax bracket, is doubtful. Moreover, in applying the theory to losses and expenses it would appear that the existence of a reduction in taxes is due not only to the expense but is equally dependent on the existence of taxable income to offset the expense. It would appear possible that some part of the benefit from the "reduction" ought to be attributed to the existence of income.[36] Even if this point be waived, however, there has been no satisfactory analysis presented of the effect to be given to the carry-back, carry-forward provisions of the present income tax law. Without exploring all of the possible difficulties, one case may be cited. Suppose that a loss has been charged to surplus but is deductible for taxes. Suppose further that in accordance with the present proposal there is charged to income, as provision for taxes, the amount of $200,000 although the actual tax amounts to only $50,000. If in the next year the company suffers an operating loss of $500,000, then in view of the carry-back provisions the reader of the two income statements would reasonably expect to find a carry-back refund of $200,000—the amount shown as taxes in the first year. However, obviously no more than $50,000 would actually be refundable. The question arises whether having overstated taxes in the first year it is not necessary, to be consistent, to overstate the refund in the second year. Finally, there are the permutations in the computation where a company pays taxes as a member of a consolidated group. In addition to the allocation of the actual tax paid among the several companies in the group, the proposed treatment raises the difficult question of whether the amount of the so-called "saving" is to be computed on the basis of a company's individual status or on that of the consolidated group and, once this is decided, of whether to allocate this "saving" as between the several companies or attribute it solely to the company having the deduction, even though perhaps it itself contributed no taxable income!

The third difficulty is the propriety of singling out the income tax items for adjustment on the ground that it does not bear a "normal" relationship to the income reported. Particularly, under conditions like the present, many if not most of the income and expense items bear unusual relationships to each other. Under the influence of the war sales volumes are often very high. Maintenance may be very high due to continuous operation of the plant, or very low because of the inability to obtain materials and labor, or very high because of the use of inexperienced labor and the inability to get new machinery, or very low because operations cannot be stopped long enough to make thorough-going maintenance possible. Selling costs may be very low because of the volume of war

---

[34] In State v Public Service Commission, 336 Mo. 860, 81 S. W. (2d) 628 (1935) the court held that only taxes actually payable need be considered: "The ninth and last point urged in appellant's brief is that 'the Commission's action in refusing to allow the inclusion of Federal income taxes as operating expenses was error The undisputed evidence is that the company did not pay income taxes. We are not aware of any authority holding that in such case an allowance of this kind should be made, and counsel for appellant cite none." See also Re East Ohio Gas Company, 17 P. U. R. (N. S.) 433, 445 (1937). In Public Service Commission of Utah v. Utah Power & Light Company, 50 P. U. R. (N. S.) 133, 167 (1943) the company had sought to justify the reasonableness of certain rates by including $1,480,000 of "computed" excess profits taxes in operating expenses. In fact the company neither reported on its tax returns nor paid any excess profits tax. This "computed tax" item thus resembles very closely the so-called "tax savings" in question here. The Utah Commission disallowed the claimed deduction saying: "The injustice to Utah rate payers is obvious when excessive rates and earnings are made to appear to be reasonable by means of computed excess profits taxes which have not been paid or reported to the government. We reject the company's claim that its computed (but not reported or paid) excess profits taxes should be included in the cost of service and thus passed on to the rate payers." • • •

[34] Where a "sliding scale" formula is in operation the actual results of current operations, including taxes, are determinative of future rates. In such a case there would, it seems to us, be danger of grave injustice in applying the formula to the results of actual operations for the year which, however, reflected a deduction based on income taxes that were neither paid nor payable by the company.

[35] Under one variant of the practice no change is made in final net income. In the statements originally filed in the instant case, for example, part of the amount included as a charge among the operating expenses represented a $609,949 reduction in income taxes due to the taking for tax purposes of accelerated amortization of emergency facilities at the rate of 20% a year while in the financial statements only normal depreciation was being accrued. See Exhibit A. In the original statements this $609,949 was added back as the last item in the account. This internal in-and-out treatment appears to us to suffer from all of the difficulties we have discussed even though no change results in the amount of "net income." In our opinion, an overstatement of operating expenses is not corrected by "adding back" the amount of the overstatement at a later point in the income statement. Such treatment is in our view artificial and deceptive to all but the most experienced reader. While there may be some grounds for crediting such reductions in taxes to a special amortization reserve there is none for the equivocal practice here followed.

[36] We note the customary solution of a somewhat similar problem that arises when a group of companies files a consolidated tax return. In assigning to each constituent its fair share of the consolidated tax paid by the group it is usual to divide the actual tax among the companies who would have had to pay a tax on an individual basis. If one of the included companies operated at a loss, the consolidated tax is of course reduced, but no part of the "saving" is ordinarily paid over to the loss company by the other members of the group. Instead, only those contributing income to the consolidated return share directly in the benefit of the current reduction. This principle is incorporated in our Rule U-45 under the Public Utility Holding Company Act.

business or very high because of the use of advertising to keep restricted products in the public's mind. With many items of income and expense apt to be out of line, there appears to be little justification and a good deal of danger in singling out one item for adjustment.

EXHIBIT A

VIRGINIA ELECTRIC AND POWER COMPANY AND SUBSIDIARY AND VIRGINIA PUBLIC SERVICE COMPANY AND SUBSIDIARIES, COMBINED

Condensed certified statement of income for 1944 as shown in original registration statement and after amendment No. 1 [1]

Item	*Amount*
Operating revenues	$51,681,778
Operating expenses and taxes:	
Other than taxes	28,237,367
Taxes, excluding reductions shown separately below or applied against items charged directly to surplus:	
Federal income (note C) [1]	2,139,496
Federal excess profits (note C) [1]	8,164,872
Postwar credit	(351,082)
Other	4,131,408
Total	42,322,060
Net operating revenues	9,359,718
Other income	(45,359)
Gross income	9,314,359
Deductions from income: Interest and amortization, etc.	3,719,527
Net income	5,594,832
Reduction in Federal income and excess profits taxes resulting from the amortization of facilities allowable as emergency facilities under the Internal Revenue Code, which facilities are expected to be employed throughout their nomal life and not to replace existing facilities	609,949
Balance transferred to earned surplus	6,204,781

[1] Note C to the income account as set forth in the registration as originally filed read as follows:

C. *Federal income and excess profits taxes. Virginia Public Service Company and subsidiaries.* The statements of income for the year 1942 include provision for Federal normal income and excess profits taxes computed on the basis of taxable net income after deducting unamortized debt discount and expense, call premium and duplicate interest on long-term debt called for redemption in 1942. The reduction resulting from the availability of these nonrecurring deductions in computing the amount of 1942 taxes payable amounts to $1,571,158 and an equal amount has been deducted in the accompanying statements of income for 1942 as special amortization of debt discount and expense. The balance of unamortized debt discount and expense, call premium and duplicate interest on long-term debt called for redemption in 1942 was charged against earned surplus.

However, the taxable net income as computed did not reflect the deduction, for tax purposes, of losses upon sales of ice and railway property, and certain other items charged to surplus. As a result, provisions charged to income in 1942 were approximately $330,000 in excess of the company's liability for Federal income taxes as shown in its tax return for that year. Pending review of the returns, this excess provision is included in accrued Federal income and excess profits taxes at December 31, 1943.

In 1943 the company filed a claim for refund of 1941 Federal taxes in the net amount of approximately $297,000 under the carryback provisions of the 1942 Revenue Act. However, this amount is subject to such adjustments as may result from review by the U. S. Treasury Department and the claim has not been recorded upon the books of the company.

Federal income and excess profits tax returns for the company and its subsidiaries for years prior to 1942 have been examined by the Treasury Department and those for the years prior to 1941 have been closed, except for the year 1937 in respect of which a claim for refund is pending.

First Amendment. The following paragraph was added to Note C:

Virginia Electric and Power Company. In addition to the reduction in Federal taxes on income shown in the income statement for 1944, reductions in excess profits taxes aggregating $4,148,050 have been applied against items charged directly to earned surplus.

The first paragraph of Note C as above quoted was also modified to reflect an amendment to the form of the profit and loss statement for Virginia Public Service Company. As amended the paragraph reads as follows:

Virginia Public Service Company and subsidiaries. The statements of income for the year 1942 include provision for Federal normal income and excess profits taxes computed without the benefit of the deduction of unamortized debt discount and expense, call premium and duplicate interest on long-term debt called for redemption in 1942. The reduction resulting from the availability of these non-recurring deductions in computing the amount of 1942 taxes payable amounts to $1,571,158 and an equal amount has been deducted in the accompanying statements of earned surplus for 1942 from the balance of unamortized debt discount and expense, call premium and duplicate interest on long-term debt called for redemption in 1942.

EXHIBIT B

VIRGINIA ELECTRIC AND POWER COMPANY AND SUBSIDIARY AND VIRGINIA PUBLIC SERVICE COMPANY AND SUBSIDIARIES, COMBINED

Condensed certified statement of income for 1944 as shown in amendment No. 2

Item	*Amount*
Operating revenues	$51,681,778
Operating expenses and taxes:	
Other than taxes	28,237,367
Taxes: [1]	
Federal income [2]	2,139,496
Federal excess profits [2]	3,406,871
Post-war credit	(351,082)
Other	4,131,408
Total operating expenses and taxes before especial charges	37,564,061
Special charges equivalent to reduction in Federal excess profits taxes resulting from special amortization of emergency facilities (reduction shown separately below) and from redemption of bonds and sale of property (reductions applied against related items charged to surplus)	4,757,999
Total operating expenses and taxes including special charges	42,322,060
Net operating revenues	9,359,718
Other income	(45,359)
Gross income	9,314,359
Deductions from income:	
Interest and amortization, etc	3,719,527
Net income	5,594,832
Reduction in Federal income and excess profits taxes resulting from the amortization of facilities allowable as emergency facilities under the Internal Revenue Code, which facilities are expected to be employed throughout their normal life and not to replace existing facilities	609,949
Balance transferred to earned surplus	6,204,781

[1] The language "excluding reductions shown separately below or applied against items charged directly to surplus" included in original registration and Amendment No. 1 was deleted from this caption by Amendment No. 2.

[2] *Federal income and excess profits taxes.* Notes C to the income account as shown in the registration as originally filed after Amendment No. 1 was changed by Amendment No. 2 as follows:

The paragraph added by the first amendment was deleted. Also the first paragraph of the original Note C was deleted.

EXHIBIT C

VIRGINIA ELECTRIC AND POWER COMPANY AND SUBSIDIARY AND VIRGINIA PUBLIC SERVICE COMPANY AND SUBSIDIARIES, COMBINED

Condensed certified statement of income for 1944 as shown in amendment No. 3

Item	*Amount*
Operating revenues	$51,681,778
Operating expenses and taxes:	
Other than taxes	28,237,367
Taxes:	
Federal income (note C) [1]	2,139,496

Special charges equivalent to reduction in Federal excess profits taxes resulting from redemption of bonds ($2,091,117) and sale of property ($2,056,873) (reductions applied against related items charged to surplus)	4,148,050
Gross income (after special charges)	9,924,308
Deductions from income:	
Interest and amortization, etc	3,719,527
Net income	6,204,781

[1] Federal income and excess profits taxes.

Note C to the income account as shown in the registration as originally filed and after Amendments 1 and 2 was changed by Amendment No. 3 by adding the following two paragraphs:

Virginia Electric and Power Company. In addition to the reductions of Federal excess profits taxes payable for the year 1944 which resulted from costs and losses charged to surplus and for which special charges of equivalent amounts have been made in the income statement for that year, such taxes were further reduced $537,496 by reason of the deduction for tax purposes of amounts, in excess of depreciation provided for at usual rates, allowable as amortization of emergency facilities under Section 124 of the Internal Revenue Code. No provision has been made in the Company's accounts or income statement for such additional amortization, since it is expected that the related facilities will be employed throughout their normal life and will not replace existing facilities.

Virginia Public Service Company and subsidiaries. Federal excess profits taxes payable for the period from January 1 through May 25, 1944 were reduced $72,453 by reason of a deduction for tax purposes of amounts, in excess of depreciation provided for at usual rates, allowable as amortization of emergency facilities under Section 124 of the Internal Revenue Code. No provision has been made in the companies' accounts or income statement for such additional amortization, since it is expected that the related facilities will be employed throughout their normal life and will not replace existing facilities.

EXHIBIT D

VIRGINIA ELECTRIC AND POWER COMPANY AND SUBSIDIARY AND VIRGINIA PUBLIC SERVICE COMPANY AND SUBSIDIARIES, COMBINED

Condensed certified statement of income for 1944 as shown in amendment No. 4

Item	*Amount*
Operating revenues	$51,681,778
Operating expenses and taxes:	
Other than taxes	28,237,367
Taxes:	
Federal income (note C) [1]	2,139,496
Federal excess profits (note C) [1]	3,406,872
Post-war credit	(351,082)
Other	4,131,408
Total operating expenses and taxes	37,564,061
Net operating revenues	14,117,717
Other income	(45,359)
Gross income	14,072,358
Deductions from income:	
Interest and amortization, etc	3,719,527
Special charges of those portions of premium and expenses on redemption of bonds ($2,091,177) and of loss on sale of property ($2,056,873) which are equivalent to resulting reduction in Federal excess profits taxes	4,149,050
Net income	6,204,781

[1] *Federal income and excess profits taxes.* Note C to the income account as finally amended comprised 6 paragraphs. Three were identical with paragraphs 2, 3, and 4 of the originate note. The other three read as follows:

Virginia Electric and Power Company. Federal excess profits taxes payable for the year 1944 were reduced $4,685,546 by reason of deductions for tax purposes of redemption premiums and expenses incurred in refunding of bonds, of a loss sustained on the sale of transportation property and of amounts, in excess of depreciation provided for at usual rates, allowable as amortization of emergency facilities under Section 124 of the Internal Revenue Code. There have been included in the income statement for 1944 as special charges those portions of the refunding costs ($2,091,177) and of the loss on sale of property ($2,056,873) which are equivalent to the reductions in taxes resulting from these particular transactions, the remainder of such costs and loss being charged against earned surplus. No provision has been made in the company's accounts or income statement for the additional amortization allowable in respect of emergency facilities, since it is expected that the related facilities will be employed throughout their normal life and will not replace existing facilities.

Virginia Public Service Company and subsidiaries. The statements of income for the year 1942 include provision for Federal normal income and excess profits taxes computed on the basis of taxable net income after deducting unamortized debt discount, call premium and expense on long-term debt called for redemption in 1942. The reduction resulting from the availability of these nonrecurring reductions in computing the amount of 1942 taxes payable amounts to $1,571,158 and an equal amount has been deducted in the accompanying statements of income for 1942 as a special charge of debt discount, call premium and expense. The balance of unamortized debt discount, call premium and expense on long-term debt called for redemption in 1942 was charged against earned surplus.

Federal excess profits taxes payable for the period from January 1 through May 25, 1944 were reduced $72,453 by reason of a deduction for tax purposes of amounts, in excess of depreciation provided for at usual rates, allowable as amortization of emergency facilities under Section 124 of the Internal Revenue Code. No provision has been made in the companies' accounts or income statement for such additional amortization, since it is expected that the related facilities will be employed throughout their normal life and will not replace existing facilities.

[Accounting Series Release No. 53, November 16, 1945]

§ 211.54 *Statement upon adoption of amendment of Rule 5–03 of Regulation S–X (17 CFR, 210.5–03).* The Securities and Exchange Commission today announced the adoption of an amendment to Regulation S–X (17 CFR, part 210) designed to provide for special disclosure of war costs, losses, and expenses currently being recognized. The amendment adds a new subparagraph (d) to Caption 16 of Rule 5–03 of the Commission's Regulation S–X (17 CFR, 210.5–03) which governs the form and content of most financial statements required to be filed under the Securities Act of 1933 or the Securities Exchange Act of 1934.

Where war items are excluded from the income account and carried directly to surplus or reserve accounts, the new rule calls for the net aggregate amount so excluded to be set forth following the net income for the period. The nature, amount and treatment of excluded items is to be shown in an appropriate manner. If the excluded items were deductible for tax purposes, a brief explanation of their tax effect should be included. In addition the new sub-paragraph (d) requires appropriate disclosure of any substantial amounts of war items included in the income statement. If exact amounts cannot be given, the rule permits a company to explain the circumstances with an estimate of the amounts involved. Finally, a statement is required of the principle followed in classifying particular items as attributable to conditions arising out of the war or its termination.

The proposed amendments were drafted as a result of a staff survey of the practices being followed in the creation and utilization of so-called war reserves and of the character of items which were considered by various companies to be attributable to conditions arising out of the war or its termination. It appeared from the studies made that during the last five years or more many business corporations had set aside substantial amounts as reserves against anticipated, though usually indeterminate, costs and losses broadly characterized as attributable to operations during the war period. In most instances such reserves were set up by means of charges reflected in the annual income statements either before or after the determination of net income. In other instances reserves of an apparently similar character had been set up by charges against earned surplus. Finally, it appeared from collateral disclosures made in financial statements that some companies, although recognizing the possibility of such costs and losses, had set up no reserves but had instead regarded earned surplus as available to absorb any such charges.

In cases arising in recent months there has also been evidence of a correlative diversity in the accounting treatment proposed for war costs and losses consequent to the termination of war operations and conversion to peacetime business. In some instances it appeared that companies proposed to charge any such items directly to reserves. In some of these cases, moreover, the items involved were only in a general sense within the categories of items for which the reserves had been described as having been set up. In other cases, companies proposed to charge war items directly to earned surplus or to income, without regard to whether war reserves had been provided. It also appeared that little uniformity of opinion existed as to what constituted a war cost as opposed to items fairly attributable to postwar operations.

The problems of the treatment to be accorded war items may, of course, be expected to be of relatively short duration. Many companies have already indicated that they do not anticipate any further, unforeseen war items of a substantial amount. In general, moreover, it appears that by the close of the current year nearly all companies will be in a position to estimate with reasonable accuracy their further need for war reserves. As soon as this condition exists, it may be expected that companies will dispose finally of any remaining and unneeded balances of war reserves.

Under these circumstances it was determined not to adopt rules prescribing the particular treatment to be followed with respect to war items, but to require instead the special disclosures called for by the new rule.

Drafts of the amendment were sent for comment to a large and representative group of registrants, as well as to professional and technical associations, financial services, attorneys, accountants and other interested persons. A substantial majority of those from whom comments were received approved the new rule in principle although suggest-

ing a variety of technical changes. Effect has been given in the final draft to many of the technical suggestions received.

The text of the Commission's action follows:

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Securities Act of 1933, particularly Sections 7 and 19 (a) thereof, and the Securities Exchange Act of 1934, particularly Sections 12, 13, 15 (d), and 23 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary for the execution of the functions vested in it by said Acts, hereby amends Caption 16 of Rule 5-03 of Regulation S-X to add the following new sub-paragraph (d):

(d) *Disclosure of War costs, losses, expenses and income*—(1) *Items excluded from the profit and loss or income statement.* If any substantial amounts of costs, losses, expenses or income attributable to conditions arising out of the war or its termination have been excluded from the profit and loss or income statement and charged or credited directly to surplus or reserve accounts on the ground that such items are not considered applicable to operations during the period of report, show the net aggregate amount of all such excluded items under an appropriate separate caption set forth following caption 16 but neither added to, nor deducted from, caption 16. The following information as to such excluded items shall be given, preferably in tabular form, either under this caption or by means of a footnote or schedule referred to under this caption:

(i) The nature and amount of each major category of the excluded items.

(ii) The account or accounts to which such items were charged or credited and the amounts involved.

(2) *Items Included within the profit and loss or income statement.* If the profit and loss or income statement for the period of report includes substantial amounts of costs, losses, expenses or income (including transfers from war reserves) which in the registrant's opinion are attributable to conditions arising out of the war or its termination but are not applicable to production and sale of goods or services during the period of report, the amounts so included shall, if practicable, be segregated under appropriate captions. If segregation is not practicable, a brief statement of the circumstances shall be made as a part of the statement required by paragraph (3), together with an estimate of the amounts involved.

(3) *Statement of policy.* A concise statement shall be made in a footnote of the principle followed in determining that items of costs, losses, expenses or income were attributable to conditions arising out of the war or its termination and were not applicable to the production and sale of goods and services during the period of report.

[Accounting Series Release No. 54, March 30, 1946]

§ 211.55 *Proposed revision of Article 6 of Regulation S-X (17 CFR, Part 210).* The Securities and Exchange Commission announced today that a public conference will be held on July 9, 1946 to consider a proposal made by its staff for the revision of Article 6 of Regulation S-X (17 CFR, part 210) which governs the form and content of financial statements of management investment companies other than those which are issuers of periodic payment plan certificates.

During the past several years the staff of the Commission has reviewed critically the financial statements and schedules being filed by management investment companies under the Investment Company Act of 1940, the Securities act of 1933 and the Securities Exchange Act of 1934. During the same period, the staff has from time to time discussed the issues involved in investment company accounting with representatives of various investment companies and their accountants, and with committees representing the National Association of Investment Companies and the American Institute of Accountants.

On May 31, 1944 the Commission authorized the staff to circulate for comment and criticism a proposed revision of Article 6 of Regulation S-X which governs the form and content of financial statements filed by management investment companies under the three Acts mentioned. The proposed draft was sent to all management investment companies, to several professional accounting societies, to the National Association of Investment Companies, and to a considerable number of public accountants and other interested persons. Thereafter, extended discussions were held between the staff and committees representing the National Association of Investment Companies and the American Institute of Accountants.

The restatement of Article 6 now proposed represents a material departure in many respects from the existing requirements of Article 6 and, if adopted, would call for important modifications in the financial reporting practices of many management investment companies. As now revised, the staff proposal gives effect to many of the suggestions and criticisms received. However, there are a number of respects in which the proposed rules are not in accord with the recommendations of those from whom comments were obtained, particularly the National Association of Investment Companies.

In view of the importance and significance of the changes proposed by the staff, the Commission has determined to hold a public conference for the purpose of ascertaining the views of all interested persons with respect to the staff proposal. For the convenience of those interested, the staff has prepared a report on the revision of Article 6 which describes in detail the changes proposed to be made and the more important considerations which it believes require these changes.

Copies of the proposed revision of Article 6 and of the staff report are available upon request. However, copies of the materials have already been mailed to all management investment companies, and to those persons to whom the draft dated May 31, 1944 was sent for comment.

The conference will open at 10:30 a. m. on July 9, 1946 at the Commission's offices in Philadelphia, 18th and Locust Streets. Written comments as to the staff proposal and report should be filed by July 1. Persons desiring to attend the conference or to be heard at that time should notify the Commission not later than June 25, indicating the amount of time desired to present their views at the conference.

All communications regarding the conference, including requests for copies of the staff report, written comments as to the proposals, and notifications by those wishing to appear or be heard, should be addressed to William W. Werntz, Chief Accountant. [Accounting Series Release No. 55, May 22, 1946.]

PART 231—INTERPRETATIVE RELEASE RELATING TO THE SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS[1] THEREUNDER

Sec.
231.45 Partial text of letter of Chief of Securities Division of Federal Trade Commission relating to (e) (2).
231.70 Letter of Federal Trade Commission relating to offers of sale prior to the effective date of registration statement.
231.86 Opinion of Federal Trade Commission relating to registration of stock issued by certain mortgage loan companies.
231.97 Letter of Federal Trade Commission relating to application of sections 2 (1), and 2 (3) and 2 (4).
231.131 Extract from letter of Federal Trade Commission discussing availability of a broker's exemption to the customer of the broker.
231.185 Statement by Federal Trade Commission discussing application of the Securities Act of 1933 to Oil and Gas Royalty Interests.
231.201 Statement by Federal Trade Commission relating to availability of an exemption from registration where a secondary distribution involves sales outside the state of incorporation.
231.285 Letter of General Counsel discussing factors to be considered in determining the availability of the exemption from registration provided by the second clause of section 4 (1).
231.312 Letter of General Counsel discussing the availability of an exemption from registration for securities issued in exchange for other securities where terms of the issuance and exchange are subject to approval by a state public utility commission.
231.401 Letter of General Counsel discussing availability of an exemption from registration of Collateral Trust Notes.
231.464 Letter of General Counsel discussing distribution by statistical services of bulletins of and circulars describing securities for which registration statements have been filed.

[1] The interpretative opinions included herein are opinions issued in the past for the guidance of the public by members of the Commission's staff (or in a few instances by the Commission) and heretofore made public pursuant to Commission authorization. The opinions are to be read as of the date of original publication and in the context of the rules, statutes and circumstances then existing. However, opinions or portions of opinions which are clearly obsolete have been omitted. While it is not clear that publication of interpretative opinions of this kind in the Federal Register is required, it is believed that such publication may be helpful to the public and that it falls within the spirit of the Administrative Procedure Act.

Where rules referring to an opinion have been renumbered since the issuance of the opinion, the new designations are indicated in brackets.

Sec.
231.493 The context of certain instructions to the use of Form E-1 relating to registration statements.
231.538 Letter of General Counsel discussing the availability of an exemption from registration for issuance of securities under deposit agreements where solicitations under the agreement were begun prior to the effective date of the registration requirements of the Securities Act.
231.603 Letter of General Counsel discussing the availability of exemption from registration of the second clause of section 4 (1).
231.646 Letter of General Counsel discussing application of section 3 (a) (9).
231.802 Letter by General Counsel discussing circulation by underwriters and dealers of summaries of information contained in registration statements prior to the effective date of such statements.
231.828 Letter of General Counsel discussing the application of section 5 (b) (2).
231.874 Opinion of the Director of the Division of Forms and Regulations relating to Rule 821 (a) (17 CFR, 230.821a).
231.929 Letter of General Counsel discussing whether a sale of a security is involved in the payment of a dividend.
231.1258 Letter of General Counsel discussing solicitation by financial and security houses of brokerage orders for the purchase of securities prior to the effective date of a registration statement for such securities.
231.1376 Opinion of the Director of the Division of Forms and Regulations discussing the definition of "parent" as used in various forms under Securities Act of 1933 and Securities Exchange Act of 1934.
231.1459 Letter of General Counsel discussing nature of exemption from registration provided by section 3 (a) (11).
231.1503 Opinion of the Director of the Division of Forms and Regulations relating to Rule 821 (a) (17 CFR, 230.821a).
231.1580 Letter of the Director of the Division of Forms and Regulations relating to Rule 821 (a) (17 CFR, 230.821a).
231.1862 Opinion of General Counsel relating to Rule 142 (17 CFR, 230.142).
231.1934 Letter of General Counsel concerning services of former employees of the Commission in connection with matters with which such employees became familiar during their course of employment with the Commission.
231.2029 Letter of General Counsel relating to sections 3 (a) (9) and 4 (1).
231.2340 Statement of Commission policy with respect to the acceleration of the effective date of registration statements.
231.2623 Opinion of the General Counsel concerning the application of the third clause of section 4 (1) in various situations.
231.2899 Extract from letter of the Director of the Corporation Finance Division relating to sections 20 and 34 (b).
231.2955 Opinion of the Director of the Trading and Exchange Division relating to the violation of the anti-fraud provisions of the Securities Act by manipulation of prices of securities not registered on a national securities exchange.
231.2956 Opinion of the Director of the Trading and Exchange Division relating to the violation of the anti-fraud provisions of the Securities Act in cases of a "syndicate account" while members of the syndicate or selling group are engaged in the retail distribution of such security.
231.2997 Statement of the Commission relating to the anti-fraud provisions of section 17 (a) of the Securities Act of 1933 and sections 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934.
231.3000 Opinion of the Chief Counsel to the Corporation Finance Division relating to section 3 (a) (10).
231.3011 Opinion of the Chief Counsel to the Corporation Finance Division relating to section 3 (a) (10).
231.3038 Statement by the Commission relating to section 3 (a) (10).
231.3043 Opinion of the Director of the Trading and Exchange Division relating to section 206 of the Investment Advisers Act of 1940 and section 17 (a) of the Securities Act of 1933, sections 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934.
231.3055 Statement of Commission policy as to acceleration of the effective date of registration statement where a selling stockholder does not bear his equitable proportion of the expense of registration.
231.3061 Statement of Commission policy as to the acceleration of the effective date of a registration statement in cases where an inadequate "red herring" prospectus has been issued.
231.3115 Statement by Commission with respect to representation that the Commission has approved the price of security offered to the public under a registration statement.
231.3899 Letter to the Director of the Corporation Finance Division relating to sections 14 and 18.

§ 231.45 *Partial text of letter of Chief of Securities Division of Federal Trade Commission relating to section 11 (e) (2).*

I beg to acknowledge receipt of your letter of August 31st, enclosing a copy of an opinion rendered by ------, making certain observations with reference to liabilities imposed by the Securities Act of 1933.

Allow me to make the following observations upon their conclusions with reference to each of the numbered questions:

1. The contention is advanced that 11 (e) of the Securities Act may permit a person who sues under paragraph (2) thereof to recover damages in cases where he may have sold his stock at a price in excess of the offering price. This contention neglects the relationship of paragraph (2) of this section to paragraph (1). Paragraph (2) gives an alternative remedy for damages only where the person suing no longer owns the security. Where he owns the security, he can recover back the consideration paid for it, but under section 11 (g) this cannot exceed the price at which it was offered to the public. But an alternative remedy is provided, in order not to compel the holder of a security in order to have a remedy to hold that security until he is enabled to bring suit.

Instead he may seek to cut his losses, so far as he is able, by disposing of the security. This obviously should not deprive him of a right which he would possess if he continued to hold the security. Viewed in this light the alternative right given by paragraph (2) is really derivative from (1), and consequently the damages recoverable under that paragraph must be computed on the basis of cost to the plaintiff not exceeding the price at which the security was offered to the public. In other words, if the plaintiff had disposed of the security at a price in excess of the offering price, no damages would be recoverable.

The other view neglects both the relationship of the one paragraph to the other and the practicalities of the situation.

2. The question as to whether it is at all possible for an underwriter's liability to exceed the total amount raised from the public plus interest thereon, must be approached with one caveat. Our legal system, adequate or inadequate as it may be, on occasions does bring about the conviction and execution of the innocent despite the safeguards with which we surround the accused. Your question must then be reduced to the more reasonable one as to whether such a legal happening is at all likely.

Such an occasion could happen only as the result of a series of suits occurring under paragraph (2) of section 11 (e) upon the same security by different plaintiffs, because, as I indicated above, the individual recovery granted to any one plaintiff could not exceed the price at which the security was originally offered to the public by the underwriter. Examination of the basis for liability under section 11—a matter which finds no consideration in the opinion submitted—shows that liability is rested upon damage consequent to material misstatements or misleading or inadequate statements of a material character in the registration statement. "Material" in this connection, as is abundantly illustrated by the cases under the English Companies Act, has a relationship to the purported value of the security as reflected in the offering price. Of course, everything that is required to be stated in the registration statement is prima facie material, but it takes little ingenuity to find matters required to be stated in that statement which, even though misstated, could not be deemed as material misstatements. Pursuing this thought further, one sees immediately that trading losses as distinguished from losses due to material, misleading or inadequate statements as of the time of offering the security, afford no ground for action. Totalling the former type of losses in the hands of successive holders of the same security may very well bring a sum in excess of the offering price of the security. But totalling the latter type of losses as a maximum can theoretically never exceed the price at which the security was offered to the public. Thus traders whose successive transactions have liquidated prior to the market's discovery of any fault in the registration statement would have no claim for market losses. Theoretically there may, indeed, be successive actions for "faulty registration losses", but practically one doubts whether the first such action will not in almost every case absorb the entire amount of such loss. Thus both theoretically and practically there is no probability of an underwriter's liability exceeding the aggregate amount at which the securities were offered to the public.

3. The third contention advanced is that there is no standard set by the act as to what facts must be disclosed by an issuer, for it is stated that the failure to disclose any material fact may involve the persons designated in section 11 in liability.

Frankly it is difficult to see just how such a conclusion can even be seriously advanced in view of the explicit statements in section 11 especially when contrasted with the difference in language used in section 12. Section 11 places liability for omission where a person has "omitted to state a material fact required to be stated therein (i. e. in the registration statement) or necessary to make the statements therein not misleading." Section 12 makes no such qualification inasmuch as it is not necessarily tied to the registration statement in the manner that section 11 is.

This conclusion is obvious on the face of the language but it gets even further emphasis from a sentence in that important interpretative document, the Statement of the Managers on the Part of the House. I quote from page 26 of that document:

"The House bill made the liability depend upon the making of untrue statements or omissions to state material facts. This phrase has been clarified in the substitute (i. e. the bill as enacted) to make the omission relate to the statements made in order that these statements shall not be misleading, rather than making mere omission (unless the act expressly requires such a fact to be stated) a ground for liability where no circumstances exist to make the omission in itself misleading."

In other words an omission of a material fact in order to create liability under Section 11 must be one of two types. It must either be an omission of a fact required to be stated in the registration statement or it must be an omission of a fact which renders the statements made in the registration statement misleading, and, in both of these instances the omission must be of material facts. To say in the light of this that the "practical effect" of the Act is substantially to make an underwriter a "guarantor against failure to disclose every material fact", neglects the express qualifications in Section 11 (a) itself, to say nothing of the provisions of that section which absolve a person of liability, if such person be not the issuer, if in any case he can prove that he exercised reasonable diligence such as that common to persons occupying fiduciary relationships.

[Securities Act Release No. 45, September 22, 1933]

§ 231.70 *Text of letter of Federal Trade Commission relating to offers of sale prior to the effective date of the registration statement.*

Your letter raises the general question as to whether an underwriter concerned in the distribution of securities registerable under the provisions of the Securities Act of 1933, may, subsequent to the filing of a registration statement but prior to its effective date, circulate literature among dealers giving them information of the character of the proposed offering.

The theory of the waiting period of twenty days—the time between the filing and the effective date of a registration statement—is fully outlined in the House Report on H. R. 5480 (the House draft of the Securities Act), and in the Statement of the Managers on the Part of the House in connection with the Conference Report on the Securities Act.

This period, says the House Report, contemplates a change from methods of distribution lately in vogue which attempted complete sale of an issue sometimes within one or at most a few days. Such methods practically compelled distributors, dealers and even salesmen as the price of participation in future issues of the underwriting house involved, to make commitments blindly.

During the waiting period, as well as prior thereto, Section 5 of the Securities Act makes it unlawful for the issuers, underwriters and dealers (to whose transactions the Act is generally applicable) to make an offer to buy or to sell a security—always remembering that "sell" carries within it the conception expressed in section 2 (3) of an offer to sell or a solicitation to buy. The same section also makes it unlawful to transmit any prospectus (the central feature of which under section 2 (10) is the fact that it offers a security for sale) relating to a security during this period prior to the effective date of a registration statement. The purposes of these sections as related to this particular problem are obvious. Dealers are not to be solicited to buy the security until a registration statement is in effect; nor are they to offer to buy such security—an injunction made necessary by the fact that otherwise priority of application during the waiting period might be made the basis for priority of allotment.

The Act, however, as you state has the purpose of hoping that public and professional scrutiny of the proposed issue will take place during this waiting period, so that, as distinguished from former days, neither the public nor the dealers will be taken unaware. Obviously this purpose cannot be accomplished merely by the filing of a registration statement with the Federal Trade Commission, even though a copy of such statement is open to public inspection, for only a limited number of the public could possibly have the opportunity to inspect this statement. To that end, the Act expressly provides that copies of this statement at a reasonable price shall be furnished by the Commission on request to those who wish them. But portions of the registration may also be furnished on similar terms. Surely, it would be odd, if what the Commission is under a duty to do, the issuer himself would be prevented from doing. In other words, the purpose of promoting general knowledge of the facts required to be stated in the registration statement is clearly set forth in the Act, and nothing in the Act restricts circulation of that knowledge to the Commission alone.

On the other hand, the Act is equally definite that no offers to sell shall be made until the expiration of the waiting period. It therefore contemplates, beyond peradventure of doubt, the circulation of knowledge concerning the matters called for in the registration statment as a preliminary to the formation of an intelligent opinion as to the desirability of a particular security prior to the arrival of the time when it permits that now ripened opinion to express itself in an offer to purchase the security. It also looks forward to this ripened opinion proving either a barrier or a harbor for such seductive arts as may still be used after the expiration of the waiting period to sell the security.

You ask whether offers to sell can be made and accepted and offers to buy made and accepted prior to the effective date of a registration statement with the full understanding that they are conditioned upon the occurrence of the effective date. Such a procedure would obviously fly in the face of the general purposes of the Act. Freedom from decision is demanded during the waiting period, and such offers induce the parties to whom they are addressed to divest themselves of a liberty of action which the Act insists that they shall have.

You ask further, however, whether circulars, describing a security in the method in which a prospectus conforming to section 10 describes a security but clearly and unmistakably marked to indicate that they are informative only, negativing without equivocation either impliedly or expressly an intent to solicit offers to buy or to make an offer to sell, can be circulated with impunity during the waiting period by an issuer or an underwriter. You assume, as I assume, that both the letter and the spirit of these markings are strictly adhered to. Such conduct seems not only allowable but one that carries out the general purposes of the Act. Prospective purchasers, whether they be dealers or the general public, should during this waiting period be educated up to the nature of an issue, which it is expected that they will shortly be asked to buy, always reminding them that no determination to buy is requested of them until the expiration of the waiting period.

Such a procedure hardly needs any expression from this Division to indicate that it is permissible under the Act. The House Report expressly states, pp. 12-13:

"The bill, apart from section 16 (b), is not concerned with communications which merely describe a security. It is, therefore, possible for underwriters who wish to inform a selling group or dealers generally of the nature of a security that will be offered for sale after the effective date of the registration statement, to circulate among them full information respecting such a security. This could easily and effectively be done by circulating the offering circular itself, if clearly marked in such a manner as to indicate that no offers to buy should be sent or would be accepted until the effective date of the registration statement."

[Securities Act Release No. 70, November 6, 1933.]

§ 231.86 *Opinion of Federal Trade Commission relating to the registration of stock issued by certain mortgage loan companies.*

Shares of stock of certain mortgage-loan companies which are obtaining loans from the Reconstruction Finance Corporation in order to re-lend the proceeds to local industries and mercantile businesses, are exempt from registration under the Securities Act according to an opinion of the Federal Trade Commission made public today.

The Commission indicated that in its view the securities would be exempt (1) where the mortgage-loan company was incorporated in the state in which it was to operate and sold its stock only to residents of that state, and (2) where the mortgage-loan company was to operate in and sell its stock outside the state of its incorporation, if the stock of the company were issued only to borrowers or if the stock issued to borrowers carried voting rights in the same proportion to their investment as that issued to others.

This statement was made in response to a letter signed by Jesse H. Jones, Chairman of the Reconstruction Finance Corporation, and addressed to the Federal Trade Commission requesting an expression of the views of the Commission as to the application of the Securities Act to various situations arising in all parts of the country in connection with the operation of mortgage-loan companies. According to his letter, such companies are being organized in many localities to participate in the Reconstruction Finance Corporation's program of extending credit facilities and assisting business and industry in cooperation with the National Recovery Administration program.

The opinion of the Federal Trade Commission was set forth in a letter dated December 11, 1933, signed by Charles H. March, Chairman. A company which confines its business to the state of its incorporation and offers its stock only to residents of that state, the opinion stated, "may make use of the mails or of any other means of communication within the state without first registering its securities with the Federal Trade Commission." As to the companies which intend to operate and sell their stock in states other than the state of incorporation, the Commission took the view that "many mortgage-loan companies may be considered institutions similar to those specifically named in Section 3 (a) (5) of the Act." This section exempts "any security issued by a building and loan association, homestead association, savings and loan association, or similar institution substantially all the business of which is confined to the making of loans to members." In the opinion of the Commission, an essential similarity exists between a building and loan association as the term is used in the Act and a mortgage-loan company "where the stock issued to borrowers carries voting rights adequate to assure mutuality between the members of a mortgage-loan company." In expressing the opinion that the securities would be exempt under the circumstances named, Mr. March indicated that one of the reasons for the exemption contained in Section 3 (a) (5) of the Act was "a belief that persons joining in such cooperative projects were less likely to need the protection from each other afforded by registration than persons dealing with issuers of the usual type."

The following summary of the opinion is taken from the Chairman's letter:

1. If a mortgage loan company, incorporated in the state in which it is to operate, sells its stock and/or other securities only to residents of that state, it may under section 5 (c), make use of the mails or of any other means of communication within the state without first registering the securities with the Federal Trade Commission.

2. If the company is incorporated in another state from that in which it will operate or if it intends to do business in more than one state, its securities will be exempt from registration by reason of section 3 (a) (5) of the Securities Act, if the stock of the company is issued only to borrowers, or if the stock issued to borrowers carries voting rights in the same proportion to their investment as that issued to the organizers.

3. In the case of a company intending to lend funds in any but the state of its incorporation, certificates issued to its borrowers by a voting trust formed to hold their stock in the company will have to be registered so far as sections 5 (c) and 3 (a) (5) are concerned.

[Securities Act Release No. 86, December 13, 1933]

§ 231.97 *Extracts from letters of the Federal Trade Commission relating to the application of various sections of the Act*—(a) *Sections 2 (1), 2 (3) and 2 (4).* The facts are indicated in the following quotation:

There can be no question but that voting trust certificates are subject to the provisions of the Securities Act of 1933. The definition of the term "security" contained in section 2 (1) of the Act, expressly includes a section 2 (4), which again specifically mentions voting trust certificates, the term "issuer" means the person or persons performing the acts and assuming the duties of manager pursuant to the provisions of a trust agreement. This can mean no one other than the voting trustees themselves. It, as seems clear from these two sections, the issue of voting trust certificates was intended to be subject to the Act, the ordinary transaction in which the certificates are delivered against the deposit of securities under the trust must have been intended to be included within the concept of a sale.

(b) *Section 2 (3).* The facts are indicated in the following quotation:

The issuance of bonds carrying a conversion privilege, under Section 2 (3) of the Act, does not constitute a "sale" of or "offer to sell" the stock into which the bond is convertible only if the conversion "right cannot be exercised until some future date." According to your letter the conversion privilege attached to the proposed bonds may be exercised at any time after the bonds are issued. For this reason, the issue of the bonds will involve an offer of the stock which will require immediate registration of the latter.

(c) *Section 2 (11).* The facts are indicated in the following quotations:

In the typical reorganization procedure, the protective committee, after approval of its plan or reorganization by the bondholders, arranges the organization of the new corporation and procures the issuance of the securities of the new corporation in connection with the acquisition of the property of the old corporation. In taking these steps, the committee is representing the depositing bondholders as their agent, trustee or otherwise. It is difficult to regard such committee as falling within the definition of an underwriter (section 2 (11)) since it is neither selling the new securities for the new corporation nor purchasing them with a view to their distribution. The issuance is a "sale" of the securities to the depositing bondholders, represented by the committee, and inasmuch as this is the case, no "distribution," as the term is used in Section 2 (11) of the Act, can be deemed to take place by the committee. The "distribution" within the meaning of the Act occurs when the securities are issued to the committee as such representative.

Under certain peculiar circumstances, of course, where the committee performs services not commonly performed by such committees but of the character that would ordinarily attend the distribution of new securities by an underwriter, the committee might well be an underwriter. But this is not ordinarily the case.

(d) *Sections 2 (11) and 3 (a) (1).* A corporation made an issue of 500,000 shares on June 20, 1933. 400,000 shares were issued to former stockholders, 100,000 shares were sold outright to an underwriter and offered to the public on the same day. At about the same time the underwriter entered into contracts with certain individual stockholders in the corporation by which the underwriter agreed to purchase from the stockholders within a limited time additional stock of which the individuals were owners. The underwriter is continuing to offer shares from the 100,000 share block purchased from the company. It will later offer to sell the shares which it has agreed to purchase from the individual stockholders. Section 2 (11) provides: "The term 'underwriter' means any person who has purchased from an issuer with a view to . . . the distribution of any security . . . As used in this paragraph the term 'issuer' shall include, in addition to an issuer, any person directly or indirectly controlling . . . the issuer . . ." Section 3 (a) provides: ". . . The provisions of this title shall not apply to . . .: (1) Any security which, prior to or within sixty days after the enactment of this title, has been sold or disposed of by the issuer or bona fide offered to the public, but this exemption shall not apply to any new offering of any such security by an issuer or underwriter subsequent to such sixty days;". The following questions are presented:

(1) In order to continue the offering of shares from the 100,000 share block, must the underwriter cause a registration of the securities?

(2) If the shares in this block are exempt from registration, will an offering of any other stock of this issue by the underwriter require registration?

(3) Specifically, will the offering at this time of the shares which the underwriter in June, 1933, contracted to purchase from the stockholders require registration?

Section 3 (a) (1) would provide an exemption for the securities in this case unless there is involved a "new offering . . . by an underwriter". So far as the 100,000 additional shares are concerned, it appears that the continuation of their sale to the public by the underwriter would not constitute a new offering, since it was commenced before July 27, 1933. The question, therefore, is narrowed to a consideration of the shares owned by various stockholders in the corporation, which they have contracted to sell to the underwriter.

In applying the phrase "a new offering . . . by an underwriter", it is the relationship between the person alleged to be an underwriter and the securities which he offers that is to be examined. If, with reference to the block which he now offers, he is not an underwriter, the exemption to which he was entitled under Section 3 (a) (1) is not lost thereby. So the fact that the underwriter of the 100,000 shares issued by the corporation in June will now for the first time offer shares of the same stock from another block, will not necessarily cause a loss of that exemption.

It is important to notice, however, that under section 2 (11) a person may be an underwriter within the meaning of the Act if he purchases from the controlling interests in a corporation with a view to further distribution. In this case, therefore, it would be necessary to consider the position, within the corporation, of the persons who have contracted with the underwriter for the sale of some of their holdings, except for the fact that the contract of sale was made before July 27.

Even if the sellers hold the controlling interest in the corporation so that prima facie the purchaser would be considered an underwriter under section 2 (11), if such sellers had sold or disposed of the stock to the underwriter before July 27, 1933, an offer by the latter made after that date would not cause the loss of an exemption otherwise available under section 3 (a) (1). The purpose of section 3 (a) (1) was to exempt from the necessity for registration, securities belonging to a person who had purchased before the effective date of the Act, and who could not compel the issuer to register the security. An opposite conclusion would lead to a result—certainly contrary to that contemplated by the Act—that might make it impossible for an underwriter, who became such before July 27, to dispose of an issue which he had purchased if it were assumed that an offering of the issue by him after July 27 was a "new offering . . . by an underwriter," within the meaning of section 3 (a) (1).

(e) *Section 4 (1).* A corporation in default in the payment of interest on its 6% bonds outstanding proposes to the bondholders to exchange new bonds bearing lower interest. The corporation proposes to pay certain fees to brokers and investment bankers for their services in promoting the exchange.

Section 4 provides: "The provisions of section 5 shall not apply to any of the following transactions: (1) * * * Transactions by an issuer not involving any public offering * * *[1]"

Section 3 (a) of the Securities Act of 1933 provides that "* * * the provisions of this title shall not apply to any of the following classes of securities:

(9) Any security exchanged by the issuer with its security holders exclusively where no commission or other remuneration is paid or given directly or indirectly for soliciting such exchange. * * *[2]

[1] At the time of this opinion, section 4 (1) read: "Transactions by an issuer not with or through an underwriter and not involving any public offering."

[2] At the time of this opinion, section 3 (a) (9) was the first clause of section 4 (3) and read: "(3) The issuance of a security of a person exchanged by it with its existing security holders exclusively, where no commission or other remuneration is paid or given directly or indirectly in connection with such exchange * * *" Subsequent references in the opinion to the first clause of section 4 (3) have been changed to refer to section 3 (a) (9).

The question is whether there will be a "public offering" of the new bonds within the meaning of section 4 (1).

It seems clear that offerings addressed only to security holders of a single issuer may nevertheless be "public offerings" within the meaning of section 4 (1). Otherwise the inclusion of the first clause of section 4 (3) [section 3 (a) (9)] would have been unnecessary. If the group of security holders includes a substantial number of persons, the offering should be considered a "public" one. This interpretation has the support of the Statement of the Managers on the Part of the House, at page 25 of the Conference Report:

"Sales of stock to stockholders become subject to the act unless the stockholders are so small in number that the sale to them does not constitute a public offering."

It receives added support from the consideration that while the Uniform Sale of Securities Act and many of the State Blue Sky Laws contain specific exemptions relating to the issue of securities by a company to its own security holders, no such specific exemption was included by Congress.

(f) *Section 4 (1).* The facts are indicated in the following quotation:

It is difficult to regard the contemplated offering of stock to 2,450 employees of the X corporation as not being a "public offering" within the meaning of section 4 (1) of the Securities Act. It is clear that the word "public" as used in this provision is not limited to offers which are made indiscriminately and open to anyone. For example, an offering confined to the security holders of a corporation may nevertheless be a "public offering" within the meaning of section 4 (1). Otherwise the first clause of section 4 (9) [section 3 (a) (9)] would be superfluous. Where a substantial number of persons is involved, it would seem imprudent to rely upon the second clause of section 4 (1) to give an exemption.

(g) *Section 4 (1).* The facts are indicated in the following quotation:

Securities, issued in exchange for securities of the same issuer to existing security holders in such a way that the exchange is exempt under section 4 (9) [section 3 (a) (9)] of the Securities Act, may be traded in by dealers within a year of their last public offering, although no registration statement is in effect and no prospectus complying with section 10 is furnished.

Although section 4, as distinguished from section 3, exempts transactions and not the securities themselves, where the transaction exempted is an otherwise non-exempted offering of an issue by an issuer and consequently the issuer is relieved of the duty of filing the registration statement, the dealer may sell through the mail and in interstate commerce without a registration statement, unless, of course, there is a new offering of the security by the issuer or an underwriter. A study of the Act indicates that in every instance the duty of filing a registration statement is placed upon either the issuer or a person who can control the issuer and thus compel the issuer to file the necessary statement. This being so, an exemption as to this group of persons would carry throughout the line of distribution to the dealer. True, in the ordinary case a dealer may not sell within one year after the public offering unless a registration statement is in effect. But the ordinary case presupposes that the issuer or someone in control of the issuer must file a registration statement as a condition precedent to making the offering. This basic presupposition upon which the dealer requirement of section 4 (1) rests, being removed the dealer limitations in section 4 (1) have no applicability.

(h) *Section 4 (3) [3 (a) (9)].* The facts are indicated in the following quotation:

Your letter raises the question whether certificates of deposit representing bonds exempt under section 3 (a) (2), which are deposited under an agreement with a protective committee, enjoy any exemption under the provisions of the Act referred to. It is difficult to see how the exemption there provided could possibly be applied to such certificates. Under section 2 (4) it is clear that the Committee is the "issuer" of the certificates. Certainly the committee cannot be considered as falling within any of the classes of issuers named in section 3 (a) (2). So far as this provision of the Act is concerned, registration of the certificates appears necessary.

(i) *Section 5 (c) [3 (a) (11)].*[*] Section 5 (c) [3 (a) (11)] provides:

[Section 3 (a) provides: "• • • the provisions of this title shall not apply to any of the following classes of securities: (11) Any security which is part of an issue sold only to persons resident within a single State or Territory, where the issuer or such security is a person resident and doing business within, or, if a corporation, incorporated by and doing business within, such State or Territory."]

The holders of certain bonds of a corporation resided outside of the State in which the issuer was incorporated and doing business. In order to carry out a reorganization without registration under the Act it was proposed to have the non-resident bondholders represented by an attorney resident within the State of the issuer's incorporation.

Your inquiry is whether the exemption provided by section 5 (c) [3 (a) (11)] can be secured by having the non-resident bondholders represented by a resident attorney. The conditions of section 5 (c) [3 (a) (11)] must be met in substance, not merely in form. The submission of the plan of reorganization to an attorney for non-residents is really a submission to the non-resident principals. In such an instance, section 5 (c) [3 (a) (11)] would seem inapplicable.

(j) *Section 5 (c) [3 (a) (11)].* A company incorporated and doing business in X filed a registration statement covering a new issue of its securities. Pending the effectiveness of this statement it proposed to sell securities from this issue to residents of X by the use of the mails within that State. After the statement should become effective, it contemplated the sale of the remaining portion of its issue to non-residents.

The Securities Act will not permit you to use the mails inside the state of X for the sale of your securities until a registration statement is effective unless, in accordance with the provisions of section 5 (c) [3 (a) (11)] the entire issue is to be sold to residents of that state. It is understood that you plan to sell part of the issue to non-residents of X as soon as the registration statement becomes effective. If this is done, the conditions of section 5 (c) [3 (a) (11)] will not be met, and any use of the mails for sales within the state pending an effective registration will be a violation of the Act.

(k) *Section 5 (c) [3 (a) (11)].* The facts are indicated in the following quotation:

The conditions which must be met in order to secure the exemption provided in section 5 (c) [3 (a) (11)] of the Securities Act relate only to the original issue of the securities. The fact, therefore, that residents of the state subsequently resell to persons outside of the state does not have the effect of destroying this exemption. Of course, the conditions must be met in substance as well as in form. Sales cannot be made by the corporation to residents with a view to their distribution in other jurisdictions. If later, however, the purchaser resells outside of the state, the corporation will not be liable, as has been indicated, and the purchaser himself will not violate the Act in view of the exemption provided in the first clause of section 4 (1).

(l) *Section 5 (c) [3 (a) (11)].* The facts are indicated in the following quotation:

The forwarding of an offer of a security addressed to a person within the state to a point outside the state would not involve the loss of an exemption otherwise available under section 5 (c) [3 (a) (11)]. A subscription received from a non-resident as a result, however, should not be accepted.

(m) *Section 5 (c) [3 (a) (11)].* A company incorporated and doing business in X proposed to insert an advertisement of its new issue of securities in a newspaper published within the state, part of the circulation of which extended into other states. It proposed to insert in its advertisement the following clause: "This offer is open only to residents of the State of X."

(n) *Section 8.* After the effective date of issuer's registration statement, certain changes in the condition of the issuer occurred of which the issuer wished to give prospective investors notice. Two questions were presented—whether it was necessary to amend the registration statement and how the information should be published in any prospectus of the issuer.

Under section 11 the accuracy of the registration statement is to be judged by the date upon which it becomes effective. It is, therefore, unnecessary, and probably impossible, to amend it to include facts which occur after its effective date. It may, of course, be necessary to supplement the information contained in the prospectus in order that it may not be misleading within the meaning of sections 12 (2) and 17.

The use of supplementary information, however, does not require an amendment of the prospectus, and no further papers need therefore, be filed with the Commission. On the other hand, if it is proposed to substitute new information for that contained in the prospectus, since under the rules of the Commission the prospectus must not omit certain items contained in the registration statement, such changes can be effected only by a regular amendment to the statement filed with the Commission. In any case in which it could properly be made, such an amendment, being filed after the effective date of the registration statement, would become effective itself, under section 8 (c) of the Act, "on such date as the Commission may determine, having due regard to the public interest and the protection of investors."

(o) *Section 17 (b).* A security statistical service company, which publishes periodically a pamphlet containing ratings for securities and advice as to their purchase, sale, or retention, was employed to assist in the preparation of a reorganization plan. For this work it was to receive a flat fee not contingent upon the success of the reorganization. The company proposed to recommend in its periodical pamphlet that bondholders of the corporation being reorganized adhere to the plan by depositing with the committee. The question was raised by the company whether it should disclose the amount of the fee which it was to receive for its work in preparation of the plan thus recommended:

The question raised requires a consideration of section 17 (b) of the Securities Act. The provisions of that section are clear. Whether it will be necessary to state the amount of the fee received by the X Company for its services depends entirely upon whether any part of the fee was actually contracted for in the expectation or with the understanding that the reorganization plan would be recommended by the Company. Such an expectation may result from the ordinary course of business of the company. If this expectation or understanding was consideration in retaining the X Company, it seems clear that the fee paid to it will be one the receipt and amount of which must be disclosed under the Act.

[Securities Act Release No. 97, December 28, 1933]

§ 231.131 *Extract from letter of Federal Trade Commission discussing the availability of a "broker's exemption" to the customer of the broker.* The Federal Trade Commission today made public an extract from a letter in response to an inquiry concerning the application of section 4 (2) of the Securities Act. This release supplements Release No. 97 (17 CFR, 231.97), published December 28, 1933, containing extracts from other letters discussing the application of the act to various situations.

16. *Section 4 (2).* Certain corporations having unissued stock and others having treasury stock which was originally issued before the effective date of the Securities Act proposed to sell such stock through brokers on the stock exchange. The question was raised whether section 4 (2) of the Securities Act made it unnecessary for the issuing corporations to register such stock before ordering its sale. The following is the comment contained in the letter:

Apparently the exemption provided by Section 4 (2) of the Securities Act applies only to the broker's part of a broker's transaction. It does not extend to the customer. Whether the customer is excused from complying with the requirements of Section 5 depends upon his own status or upon the character of the transaction in which he, himself is engaged. In other words, therefore, an issuer selling through a broker on the stock exchange would be subject to Section 5 of the Act. This would be true whether the securities sold by the issuer were unissued or treasury stock.

The House Report on the Securities Act (H. R. No. 85, 73rd Congress, 1st Session), at page 16, contains comment on this section of the Act which involves the interpretation which I have outlined above. Under this exemption, it is stated, "Purchasers, provided they are not dealers, may thus in the event that a stop order has been entered, cut their losses immediately, if there are losses, by disposing of the securities. On the other hand, the entry of a stop order prevents any further distribution of the security." This statement indicates that dealers (in the period of one year after date of public offering) would be unable to sell through brokers, securities for which no registration statement was in effect in accordance with the provisions of section 5 (a). The same restriction must, of course, apply to issuers and underwriters. Obviously, the committee did not conceive that the exemption extended to the broker's customer.

Under this ruling, treasury stock, originally issued before the effective date of the Securities Act of 1933, must be registered under that act before it may be sold. [Securities Act Release No. 131, March 13, 1934]

§ 231.185 *Statement by Federal Trade Commission discussing the amendment of the Securities Act to include fractional undivided interests in oil, gas or other mineral rights in the definition of security.*

Application of The Securities Act of 1933 to oil and gas royalty interests. Title II of the Securities Exchange Act of 1934, effective July 1, 1934, amends section 2 (1) of the Securities Act of 1933 to read in part as follows:

"The term 'security' means any • • • fractional undivided interest in oil, gas, or other mineral rights • • •".

It also amends section 2 (4) of the Securities Act to read in part as follows: "• • • with respect to fractional undivided interest in oil, gas, or other mineral rights, the term 'issuer' means the owner of any such right or of any interest in such right (whether whole or fractional) who creates fractional interests therein for the purpose of public offering".

The amendment to the definition of the term "security" makes clear that the provisions of the Securities Act apply to the sale of certain oil or gas interests. The ordinary royalty interest which entitles the holder to share in the oil or gas produced from a particular tract of land clearly comes within this definition. Whether such interests are transfered by deed or contract and whether under the law of the particular state in which the tract is located such interests are regarded as real estate or as personal property makes no difference in the application of the Act. The word "rights" is broad enough to make the definition applicable to interests which are regarded as giving ownership of the oil or gas in place as well as to interests which merely afford the owner the right to produce oil or gas. The Act applies, however, only to "fractional" interests. The transfer of the whole royalty interest in any tract of land, though under the terms of the lease the holder may be entitled only to a portion of the production, is not considered the transfer of a security under the Act.

In determining who is the "issuer" of the royalty interest for the purpose of the Act three points must be considered. An issuer must be the owner of the royalty interest in question. He must create fractional interests therein. And the subdivision must be made for the purpose of public offering. The application of the definition will be best understood from the consideration of illustrative cases. Suppose that a dealer purchases the entire royalty interest in a particular tract and proceeds to offer to the public 1/32 interests therein. The dealer will be an issuer and as such would have to sign a registration statement for such royalties, unless he brings himself within the exemptions provided by the Act or by the regulations of the Commission. Suppose, however, that he sold one-half of his royalty interest to another dealer and that this latter dealer in turn proposed to offer 1/64 interests in the royalty to the public. The latter dealer also would then be an issuer and registration by him of the interests offered by him would be necessary.

The ordinary offering of a royalty by a person engaged in dealing in royalty interests would come within the concept of a public offering. Such an offering may perhaps be actively made to only a few persons but the interest is for sale to any member of the public who wishes to buy. In this connection it is important to note that it is the number of persons to whom the offering is open which is determinative rather than the number of persons to whom sales are actually made.

It is unnecessary that the public offering be made directly by the person claimed to be the issuer, so long as he is responsible for the distribution of the interests among the public. Thus if a "wholesale" dealer in oil royalties confines his offering to, say, ten or fifteen "retail" dealers, nevertheless his subdivision of the interest for sale to those dealers in connection with their offering to a group which aggregates any substantial number will make him an issuer.

Sales to such "retail" dealers are made with a view to resale by them, and the seller, therefore, is to that extent responsible for the distribution among the public. On the other hand, the original owner of the royalty interest, owner of the fee of the tract to which it applies, would usually not be considered an issuer. He is ordinarily not engaged in the process of distribution of royalties. His sale to the dealer ends his participation in the transaction. He is not responsible for the eventual offering to members of the public.

In the case outlined above, where interests purchased from a "wholesale" dealer are further subdivided by the "retail" dealer, the latter will occupy a double position. He will not only be an issuer, as previously stated, but he will also be an underwriter. And insofar as the retail, as well as the wholesale dealer, is an issuer, two and perhaps more registrations for the same interest might be necessary.

In order to avoid the necessity of multiple registration, it would seem advisable for the original owner of the interest who proposes to subdivide it for the purpose of a direct or an indirect public offering, to register the fractional interests in as small fractions as he may deem necessary to assure their ultimate placement with investors. Instead of registering, for example, a one-quarter royalty interest, he may register 32/128. If he considers that it will be unnecessary to divide the interest into portions smaller than 1/128. It will also be possible in some cases to alter the fractions in which the interest is registered by an amendment to the registration statement made even after the statement has become effective. This may avoid further subdivision by the purchaser from the registrant, and thus, as no new issuer will be involved, a second registration will be rendered unnecessary.

Apart from the exemptions provided by the regulations of the Commission, several exemptions provided by the Act have application to royalty interests. Section 3 (a) (1) exempts from registration securities "sold or disposed of by the issuer or bona fide offered to the public" before July 27, 1933 (though this exemption does not apply to new offerings of such securities by the issuer or an underwriter after that date). Therefore royalty interests sold before July 27, 1933, or offered publicly before that date, may be offered, without registration, by persons who are neither issuers within the definition of section 2 (4) nor underwriters within section 2 (11) of the Act. Even if the offeror is an issuer or underwriter, because he proposes to subdivide his holdings or because he acts as broker or agent for an issuer, he may continue to offer the particular interests offered before July 27, 1933, if no material change is made in the terms or con-

[*] Section 3 (a) (11) was formerly section 5 (c) as follows: "(c) The provisions of this section relating to the use of the mails shall not apply to the sale of any security where the issue of which it is a part is sold only to persons resident within a single State or Territory, where the issuer of such securities is a person resident and doing business within, or, if a corporation, incorporated by and doing business within, such State or Territory." Subsequent references in the opinion to section 5 (c) have been changed to refer to section 3 (a) (11).

ditions of the offering sufficient to constitute it a new one.

Section 3 (a) (11) exempts securities which are part of an issue "sold only to persons resident within a single State or Territory, where the issuer of such security is a person resident and doing business within * * * such State or Territory". The availability of this exemption depends, among other things, upon the residence of the issuer. It must be remembered, as pointed out above, that there may be more than one issuer for the same royalty interest where there have been successive subdivisions. To secure this exemption, all the issuers must be residents of the State or Territory where the offering is made. In addition, the original distribution of the interests must be confined to that particular State or Territory or the exemption will be destroyed.

Finally section 4 (1) exempts "transactions by any person other than an issuer, underwriter, or dealer; transactions by an issuer not involving any public offering". Under the provisions of this section it will be unnecessary to register royalties if the seller intends to make no public offering of the interests directly or through any dealer. Ordinary transfers between private persons will be exempt from the registration requirements. It is also important to note that since the definition of the term "issuer" in section 2 (4) was added by an amendment effective July 1, 1934, only the subdivision of an interest after that date will subject the owner of a royalty to classification as an issuer for the purposes of the Act.

[Securities Act Release No. 185, June 20, 1934]

§ 231.201 *Statement by Federal Trade Commission relating to the availability of an exemption from registration where a secondary distribution involves sales outside the state of incorporation. Inasmuch as the name of the corporation involved is not deemed material at this time, it has been deleted.*

As a result of statements appearing in newspapers last week with respect to the listing on the New York Stock Exchange of an issue of $8,000,000 ------ fifteen-year secured 6 per cent sinking fund bonds, Series A, due June 1, 1949, to the effect that the issue was listed on the stock exchange after full clearance had been received from the Federal Trade Commission, the Commission today announced that it had not in any way approved or disapproved the listing of the bonds on the New York Stock Exchange.

The Federal Trade Commission statement said the Commission understood that in the first instance the issuer and the underwriters of the ------ bond issue intended to completely distribute the bonds entirely outside of the scope of the Securities Act of 1933 by avoiding the use of any means or instruments of transportation or communication in interstate commerce or of the mails. The issuance of the securities in this manner would itself raise no question of registration or exemption. But any subsequent sale through the use of the mails or of means or instruments of communication or transportation in interstate commerce would immediately necessitate consideration of the availability of an exemption under section 3 of the Act unless the particular transaction was exempt under section 4. In the absence of an exemption applicable under section 3, the Commission expressed the opinion that without registration, a listing on an exchange such as the New York Stock Exchange might result, sooner or later, in a violation of the Securities Act.

The Federal Trade Commission statement also said it had recently been advised that counsel for ------ now consider the bonds exempted under section 3 (a) (11) of the Securities Act as being part of an issue sold only to residents of New York State where the issuer was a New York corporation doing business within the State of New York. The Commission pointed out that in order that the exemption of section 3 (a) (11) may be available for securities of any issue, it is clearly required that the securities at the time of completion of ultimate distribution shall be found only in the hands of investors resident within the State. Ultimate distribution, in the opinion of the Commission, was declared to consist not only in the delivery of the bonds from the issuer to the underwriters, and the delivery of the bonds from the underwriters to sub-underwriters and to dealers, but also in the disposition of the bonds in the hands of investors in any secondary distribution which might take place pursuant to arrangements by the issuer or underwriters. An early listing of the bonds by the issuer on an exchange such as the New York Stock Exchange might contemplate further distribution of the bonds prior to the completion of their ultimate distribution.

[Securities Act Release No. 201, July 20, 1934]

§ 231.285 *Letter of General Counsel discussing the factors to be considered in determining the availability of the exemption from registration provided by the second clause of Section 4 (1).*

The opinion has been previously expressed by this office that an offering of securities to an insubstantial number of persons is a transaction by the issuer not involving any public offering, and hence an exempted transaction under the provisions of section 4 (1) of the Securities Act. Furthermore, the opinion has been expressed that under ordinary circumstances an offering to not more than approximately twenty-five persons is not an offering to a substantial number and presumably does not involve a public offering.

As a result of such opinions there appears to be developing a general practice on the part of issuers desiring to avoid registration of their securities to seek to dispose of the same to insurance companies or other institutions, which, at the time of purchase, state that they are acquiring such securities for investment and not with a view to distribution.

I would call your attention to the fact that in previous opinions it has been expressly recognized that the determination of what constitutes a public offering is essentially a question of fact, in which all surrounding circumstances are of moment. In no sense is the question to be determined exclusively by the number of prospective offerees. I conceive that the following factors in particular should be considered in determining whether a public offering is involved in a given transaction:

1. *The number of offerees and their relationship to each other and to the issuer.* You will note that this does not mean the number of actual purchasers, but the number of persons to who the security in question is offered for sale. The word "offering" in this sense should not be limited to those cases wherein a formal proposal for a firm commitment is submitted. Any attempt to dispose of a security should be regarded as an offer. I have very serious doubt as to whether in many of those cases where it is stated that an offering is to be made only to an insubstantial number of persons, there may not be preliminary conversations for the purpose of ascertaining which of various possible purchasers would be willing to accept an offer of the security in question if it were made to them. Any such preliminary negotiations or conversations with a substantial number of prospective purchasers would, in my opinion, cause the offering in question to be a public offering, thereby necessitating prior registration of the security in question.

Again, in determining what constitutes a substantial number of offerees the basis on which the offerees are selected is of the greatest importance. Thus, an offering to a given number of persons chosen from the general public on the ground that they are possible purchasers may be a public offering even though an offering to a larger number of persons who are all the members of a particular class, membership in which may be determined by the application of some pre-existing standard, would be a non-public offering. However, I have no doubt but that an offering restricted to a particular group or class may nevertheless be a public offering if it is open to a sufficient number of persons.

I also regard as significant the relationship between the issuer and the offerees. Thus, an offering to the members of a class who should have special knowledge of the issuer is less likely to be a public offering than is an offering to the members of a class of the same size who do not have this advantage. This factor would be particularly important in offerings to employees, where a class of high executive officers would have a special relationship to the issuer which subordinate employees would not enjoy.

2. *The number of units offered.* If the denominations of the units are such that only an insubstantial number of units is offered, presumably no public offering would be involved. But where many units are offered in small denominations, or are convertible into small denominations, there is some indication that the issuer recognizes the possibility, if not the probability, of a distribution of the security to the public generally. The purpose of the exemption of non-public offerings would appear to have been to make registration unnecessary in these relatively few cases where an issuer desires to consummate a transaction or a few transactions and where the transaction or transactions are of such a nature that the securities in question are not likely to come into the hands of the general public.

In connection with a consideration of the number of units offered, I would also consider whether the same or other securities of the same issuer are being offered at the same time. I feel that this circumstance has a bearing on the character of the offering.

3. *The size of the offering.* It should be noted that the exemption of section 4 (1) is of transactions by an issuer *not involving* any public offering. In view of this language, it would appear to be proper to consider not merely the specific transaction or transactions between the issuer and the initial purchasers, but also the extent to which a later public offering of all or part of the securities sold by the issuer is likely. Hence I feel that this exemption was intended to be applied chiefly to small offerings, which in their nature are less likely to be publicly offered even if redistributed.

For the same reason I feel that a material consideration is whether the security in question is part of an issue already dealt in by the public, either on a national securities exchange or on the over-the-counter market, or, within the reasonable contemplation of the parties, is likely thus to be dealt in shortly after its issuance. This factor again may indicate whether public distribution of the security in question is likely within a reasonable time.

4. *The manner of offering.* I have already indicated my opinion that the purpose of the exemption of non-public offerings is largely limited to those cases wherein the issuer desires to consummate a few transactions with particular persons. Consequently, I feel that transactions which are effected by direct negotiation by the issuer are much more likely to be non-public than those effected through the use of the machinery of public distribution.

I have gone into this matter at length in order that you may be apprised of the many elements which in my opinion go into the determination of what constitutes a transaction not involving any public offering. There may be some situations where all the factors are so clear that it would be possible to express a definite opinion. In a situation such as you present, however, I feel that the offering would be carefully scrutinized by any court before which it may come and that any letter which purported to describe the situation, and on which my opinion would necessarily be based, could not, adequately advise as to the various factors which are involved.

I call your attention to the fact that any dealer who might subsequently purchase from an initial purchaser the securities which you propose to offer, would be required to satisfy himself that the initial purchaser had not purchased with a view to distribution. If the initial purchaser had purchased with this intent, he would be an underwriter, and sales by a dealer of securities bought by him from such an initial purchaser would, as a general rule, not be exempt until at least a year after the purchase of the securities by the dealer. The sale of unregistered securities to a limited number of initial purchasers, therefore, leads to a practical situation in which such initial purchasers may have difficulty in disposing of the securities purchased by them. Any opinion which I might render in connection with the proposed offering might, I fear, be availed of by the issuer or by an initial purchaser as a means of satisfying a dealer, at a later date, that he might purchase the securities in question and market them without risk of violating the Act. You will appreciate that my opinion would not actually have this effect, since in the case of each transaction there would be involved various matters of fact on which I am not in a position to express an opinion. * * *

[Securities Act Release No. 285, January 24, 1935]

§ 231.312 *Letter of General Counsel discussing the availability of an exemption from registration for securities issued in exchange for other securities where the terms of the issuance and exchange are subject to approval by a state public utility commission.*

Section 3 (a) (10) exempts from registration:

Any security which is issued in exchange for one or more bona fide outstanding securities, claims or property interests, or partly in such exchange and partly for cash, where the terms and conditions of such issuance and exchange are approved, after a hearing upon the fairness of such terms and conditions at which all persons to whom it is proposed to issue securities in such exchange shall have the right to appear, by any court, or by any official or agency of the United States, or by any State or Territorial banking or insurance commission or other governmental authority expressly authorized by law to grant such approval.

I shall take up in order the three questions you have raised as to the interpretation of this section.

1. Is adequate notice to all persons to whom it is proposed to issue securities of the hearing on the fairness of their issuance necessary for an exemption under section 3 (a) (10)?

Although the wording of section 3 (a) (10) does not demand such notice, in my opinion this requirement is to be implied from the necessity for a "hearing * * * at which all persons to whom it is proposed to issue securities * * * shall have the right to appear". To give substance to this express requirement, some adequate form of notice seems necessary. The usual practice of giving notice to persons who will receive securities in reorganizations, mergers and consolidations supports this view. Of course, the question of what mode of notice is adequate cannot be answered in the abstract but may vary with the facts and circumstances in each case.

2. Is a grant of express authorization of law to a state governmental authority to approve the fairness of the terms and conditions of the issuance and exchange of securities necessary for an exemption under section 3 (a) (10), or is express authorization merely to approve the terms and conditions sufficient?

The punctuation and grammatical construction of the last clause of section 3 (a) (10) indicate that the words "expressly authorized * * * by law" were not intended to modify "courts or officials or agencies of the United States". In my opinion a State governmental authority (with the possible exception of a banking or insurance commission) must possess express authority of law to approve the fairness of the terms and conditions of the issuance and exchange of the securities in question. This interpretation seems necessary to give meaning to the express requirement of a hearing upon the fairness of such terms and conditions, which must subsume authority in the supervisory body to pass upon the fairness from the standpoint of the investor, as well as the issuer and consumer, and to disapprove terms and conditions because unfair either to those who are to receive the securities or to other security holders of the issuer, or to the public. This requirement seems the more essential in that the whole justification for the exemption afforded by section 3 (a) (10) is that the examination and approval by the body in question of the fairness of the issue in question is a substitute for the protection afforded to the investor by the information which would otherwise be made available to him through registration. The requisite express authorization of law to approve the fairness of such terms and conditions, however, probably need not necessarily be in haec verba but, to give effect to the words "express" and "by law", must be granted clearly and explicitly.

3. Does a hearing by an authority expressly authorized by law to hold such a hearing satisfy the requirement of a hearing in section 3 (a) (10), if the state law does not require a hearing?

I believe that, as a corollary to the view expressed in my answer to the second question, *supra*, and in order that a hearing have legal sanction, the approving authority must be expressly authorized by law to hold the hearing; but in my opinion it is unnecessary that the hearing be mandatory under applicable state law. Therefore, if state law expressly authorizes the approving authority to hold a hearing on the fairness of the terms and conditions of the issuance and exchange of securities, and such a hearing is in fact held, this requirement of section 3 (a) (10) is satisfied. As stated before, the express authority need not be in any particular language, but a clear and explicit grant of statutory power is essential.

You will appreciate that the General Counsel's office cannot attempt to interpret the relevant statutes of each state to find whether they grant state authorities the powers necessary to satisfy the requirements of section 3 (a) (10). Obviously, these are questions of local law and must be for the determination of local attorneys. For these reasons, I am not in a position to render any opinion as to whether specific legislation grants to a state authority the powers necessary for an exemption under section 3 (a) (10).

[Securities Act Release No. 312, March 15, 1935]

§ 231.401 *Letter of General Counsel discussing the availability of an exemption from registration to Collateral Trust Notes.*

Section 3 (a) (3) of the Securities Act of 1933 exempts from the registration requirements of the Act "Any note, draft, bill of exchange, or banker's acceptance which arises out of a current transaction or the proceeds or which have been or are to be used for current transactions, and which has a maturity at the time of issuance of not exceeding nine months, exclusive of days of grace, or any renewal thereof the maturity of which is likewise limited".

The question of what is a "current transaction" is one which must be considered in the light of the particular facts and business practices surrounding individual cases. In general, it would seem that the proceeds of notes having a maturity of not more than nine months, of the type normally issued by finance companies, may be regarded as used for current transactions if the following conditions are satisfied:

1. The issuer of the notes for which exemption is claimed is in the business of making loans on or purchasing notes, instalment contracts, or other evidences of indebtedness.

2. The proceeds of the notes for which exemption is claimed are used for current transactions, which may properly include either (a) the making of loans upon or the purchasing of such notes, instalment contracts, or other evidences of indebtedness in the usual course of business, or (b) the payment of outstanding notes exempt under section 3 (a) (3).

[Securities Act Release No. 401, June 18, 1935]

§ 231.464 *Letter of General Counsel discussing distribution by statistical services of bulletins of and circulars describing securities for which registration statements have been filed.*

I understand that certain bulletins compiled by your company include in summarized form information concerning particular securities. This information is taken from your files and from the registration statements and prospectuses filed in respect of such securities under the Securities Act of 1933. Although these bulletins consist primarily of statements of facts they also contain your ratings of the securities involved, together with expressions of your opinion as to their investment value. It is proposed that these bulletins be circulated by your company to its subscribers and clients prior to the effective date of the registration statements for the securities which they describe, but subsequent to the filing of such statements. It is my further understanding that your subscribers may purchase these bulletins in any quantity desired. You inquire as to the effect of the Securities Act of 1933, as amended, upon the circulation of a preliminary bulletin by your company prior to the effective date of the registration statement covering the security described therein, and as to the legality of the use of the bulletin by your subscribers both prior and subsequent to registration becoming effective.

It is my understanding that your company receives no consideration, either directly or indirectly, from any issuer, underwriter or dealer, for describing the securities in your bulletins, and is in no way interested in the sale of the described securities. Accordingly, it seems clear that the circulation by you of these bulletins, even though effected through the use of the mails or instrumentalities of interstate commerce, prior to the effective date of a registration statement

covering the described security, does not constitute a violation of the Securities Act of 1933, as amended. It seems equally clear that the circulation by you of such bulletins would not be affected by section 17 (b) of the act, since that section is applicable only if the person circulating such literature describes the security in question for a consideration received from an issuer, underwriter or dealer.

With respect to the use which underwriters or dealers (including banks) may make of such bulletins, I call your attention to Release No. 70 of the Federal Trade Commission, (17 CFR, 231.70) dated November 6, 1933, which reads in part as follows:

In response to inquiries concerning how far an underwriter may go in discussing and advertising a proposed new offering of securities prior to the effective date of a registration statement filed under the Securities Act, the Federal Trade Commission today makes public the following letter transmitted to an inquirer: • • •

You ask further, however, whether circulars, describing a security in the method in which a prospectus conforming to Section 10 describes a security but clearly and unmistakably marked to indicate that they are informative only, negativing without equivocation either impliedly or expressly an intent to solicit offers to buy or to make an offer to sell, can be circulated with impunity during the waiting period by an issuer or an underwriter. You assume, as I assume, that both the letter and the spirit of these markings are strictly adhered to. Such conduct seems not only allowable but one that carries out the general purposes of the Act. Prospective purchasers, whether they be dealers or the general public, should during this waiting period be educated up to the nature of an issue, which it is expected that they will shortly be asked to buy, always reminding them that no determination to buy is requested of them until the expiration of the waiting period.

Such a procedure hardly needs any expression from this Division to indicate that it is permissible under the Act. The House Report expressly states, pp. 12–13:

"The bill, apart from section 16 (b) [now section 17 (b)] is not concerned with communications which merely describe a security. It is, therefore, possible for underwriters who wish to inform a selling group or dealers generally of the nature of a security that will be offered for sale after the effective date of the registration statement, to circulate among them full information respecting such a security. This could easily and effectively be done by circulating the offering circular itself, if clearly marked in such a manner as to indicate that no offers to buy should be sent or would be accepted until the effective date of the registration statement."

I concur fully with the opinion expressed by the Federal Trade Commission in Release No. 70, and believe that the principles which are embodied therein are determinative in considering the use which may be made of your bulletins by those of your subscribers who are underwriters or dealers. Although that opinion was primarily concerned with the circulation of information by underwriters to dealers, the views therein expressed seem equally applicable to any information based on the registration statement filed with the Commission, even though furnished by issuers, underwriters, or dealers to potential investors since the legality of the submission of preliminary information under section 5 is dependent upon whether or not it is used in connection with, or it itself constitutes, an "offer to sell," as that term is defined in the Act. Consequently, it is immaterial whether the bulletin is sent to dealers or potential investors. However, as is pointed out in the Release, the making of any attempts to dispose of a security or to solicit offers to buy a security, fall within the prohibition of section 5 of the Act during the twenty-day period preceding the effective date of registration, as well as prior to the filing of the registration statement. Accordingly, any circulation by underwriters or dealers of a bulletin descriptive of a particular security, which is in furtherance of an offering of such security for sale prior to the effective date of registration, or of a solicitation during that period of an offer to buy the security, would fall within the prohibitions of section 5 of the Act.

On the other hand, even though your subscribers transmit these bulletins to their clientele through the mails or interstate commerce, such transmittal is not a violation of the Act if the subscriber does not in fact use the bulletins as selling literature. Whether or not a subscriber is using a bulletin as selling literature is, of course, a question of fact in each case as to which no generalization can be made. The intent with which the bulletins are used, as determined from all surrounding circumstances, would control the legality of circulation thereof by underwriters or dealers.

If an underwriter or dealer were to supplement a bulletin with selling literature or with a recommendation to the recipient as to the desirability of purchase, or were to attempt to obtain from the recipient some indication of interest however tentative, in purchasing the described security, such action, in my opinion, would almost conclusively establish that the bulletin was being used in an attempt to dispose of or to solicit an order for the purchase of the security.

In this connection I call your attention to the problem created by the insertion in the bulletins of your ratings of the described securities and of your opinion as to their investment value. As has been pointed out above, an underwriter or dealer who circulates with a bulletin or other purely descriptive matter his recommendation as to the desirability of the investor's purchase of the security would in all probability be held to have offered the security for sale. In my opinion, the insertion of such material by the statistical service creates a substantial risk that underwriters or dealers, in circulating the bulletins, would, where such opinion material is favorable, be held to have violated the Act through their participation in a recommendation of the security for purchase.

The legality of the circulation of a bulletin subsequent to the effective date of registration would be governed by those provisions of the Act which forbid the transmission through the mails or interstate commerce of selling literature unless such literature is a prospectus meeting the requirements of the Act or is accompanied or has been preceded by such a prospectus. Whether a bulletin constitutes selling literature would, as has been pointed out above, depend in large measure on the use to which it is put. If it were used by underwriters or dealers as selling literature, its circulation would be lawful only if it were accompanied or preceded by a copy of a prospectus meeting the requirements of the Act.

The General Counsel of the Commission supplemented his opinion with a suggestion that, in order to prevent any unwitting misuse by underwriters or dealers of bulletins such as those under consideration, it would be advisable to print on all bulletins a statement calling the attention of dealers to the effect of pertinent sections of the Securities Act. A statement such as the following was suggested:

Attention of underwriters and dealers is called to the fact that no attempt or offer to dispose of this security, or to solicit an offer to buy this security, may lawfully be made through the use of any agency of interstate commerce, or of the mails, until a registration statement covering this security has become effective.

In connection with any such attempt or offer to dispose of this security, or to solicit an offer to buy this security, even though made after registration is effective, this bulletin may lawfully be used by underwriters or dealers only if accompanied or preceded by a prospectus meeting the requirements of the Federal Securities Act.

[Securities Act Release No. 464, August 19, 1935]

§ 231.493 *The context of certain instructions to the use of Form E–1 (17 CFR, 239.8) for registration statements relating to the necessity of registration of securities involved in a consolidation, merger or reorganization.*

Rules as to the use of Form E–1 (17 CFR, 239.8) 1. Subject to the provisions of Rule 6 below, Form E–1 (17 CFR, 239.8) is to be used to register securities (including contracts of guaranty but excepting voting trust certificates, certificates of deposit, and certificates of interest or shares in unincorporated investment trusts of the fixed or restricted management type not having a board of directors or a board of persons performing similar functions, but having a depositor or sponsor) sold or modified in the course of a reorganization, as defined in Rule 5 below.

2. A separate registration statement shall be filed by each separate issuer, whether it be a primary issuer or a guarantor.

3. A registration statement for securities requiring registration on Form E–1 shall be effective before their "sale" by the issuer thereof or an underwriter or dealer.

A "sale" of such securities by the issuer thereof is involved in the submission of a plan or agreement for reorganization:

(a) When a opportunity to assent to or to dissent or withdraw from a plan or agreement for reorganization is given on such terms that a person so assenting or failing to dissent or withdraw within a limited time will be bound, so far as he personally is concerned, to accept such securities, unless at the same time he retains or is given a right subsequently to withdraw which is conditioned, if at all, only upon his payment of not more than his proportionate part of the expenses of reorganization, and

(b) If the plan or agreement referred to is submitted by, or with the authority of, the issuer of such securities.

A registration statement for such securities shall, therefore, be effective before such "sale" is made.

If the condition stated under (b) in the preceding paragraph is absent, either because the proposed issuer is not in existence or for any other reason, no registration of such securities is then necessary, in view of the provisions of the first clause of section 4 (1) of the Act. A registration statement for such securities shall be in effect in any event, however, before their "sale" (including their issue or modification) by their issuer or an underwriter or dealer.

4. Since the "sale" of securities registered on this form may be made under circumstances different from those subsequently existing at the date of commencement of their delivery to the ultimate holders thereof, it is required, as a condition to the continued effectiveness of a statement on this form after the latter date, that:

(1) Any document which is required as an exhibit and which becomes effective or which is put into final form subsequent to the effective date of the registration statement and prior to the commencement of the delivery of the securities to the ultimate holders thereof, and

(2) Any amendment to a document which is required under Exhibit A or D and which becomes effective in such period, shall be filed as an amendment to the registration statement.

5. As used in these rules and the accompanying instructions:

(1) The term "reorganization" includes any transaction involving:

(a) A readjustment by modification of the terms of securities by agreement; or

(b) A readjustment by the exchange of securities by the issuer thereof for others of its securities; or

(c) The exchange of securities by the issuer thereof for securities of another issuer; or

(d) The acquisition of assets of a person, directly or indirectly, partly or wholly, in consideration of securities distributed or to be distributed as part of the same transaction directly or indirectly to holders of securities issued by such person or secured by assets of such person; [1] or

(e) A merger or consolidation.[1]

(2) The term "sale" has the meaning given in Section 2 (3) of the Act: "Any contract of sale or disposition of, attempt or offer to dispose of, or solicitation of an offer to buy."

(3) The term "security holder" includes a person holding a certificate issued against the deposit of the security referred to, whether or not he is entitled to return of the security upon surrender of the certificate.

NOTE: The Commission deems no sales to stockholders of a corporation to be involved, within the meaning of the definition quoted in Rule 5 (2), where, pursuant to statutory provisions or provisions contained in the certificate of incorporation, there is submitted to the vote of such stockholders a proposal for the transfer of assets of such corporation to another person in consideration of the issuance of securities of such other person, or a plan or agreement for a statutory merger or consolidation, provided the vote of a required favorable majority:

(a) Will operate, so far as the corporation the stockholders of which are voting is concerned, to authorize the transfer or to effectuate the merger or consolidation (except for the taking of action by the directors of the corporations involved and for compliance with such statutory provisions as the filing of such plan or agreement with the appropriate state authorities), and

(b) Will bind all stockholders of such corporation, except to the extent that dissenting stockholders may, under statutory provisions or provisions contained in the certificate of incorporation, be entitled to receive the appraised or fair value of their holdings.

The Commission deems it immaterial in these circumstances whether the person the securities of which are to be issued is in existence or not; whether, if such person in existence, the plan, agreement or proposal is submitted by or with its authority; or whether, in the case of transfer of assets, such securities are to be issued to stockholders directly, or are to be distributed to them as a liquidating dividend or otherwise.

When, in accordance with this Note, submission of a plan, agreement, or proposal to the vote of stockholders involves no sale to them, the Commission deems no sales to be involved in the delivery of securities to such stockholders.

Accordingly, neither the submission to the vote of stockholders of a plan, agreement or proposal of the character specified in this Note, nor the delivery of securities thereunder to such stockholders, requires the registration of such securities or the delivery of a prospectus meeting the requirements of section 10 of the Act.

6. (a) If, in the course of a reorganization involving no sales of securities to stockholders as such (see Note above under Rule 5), other securities requiring registration are issued (as, for example, securities issued to a transferring corporation which are to be distributed by it for cash), such other securities may be registered on the form which would be appropriate if only such other securities were being issued.

(b) In accordance with Special Rule 1 as to the use of Form A–2 (17 CFR, 239.2) for Corporations, Form A–2 (17 CFR, 239.2) may be used in lieu of Form E–1 (17 CFR, 239.8) under the circumstances there described, notwithstanding the provisions of Rules 1 and 5 (1) above.

(c) In the case of any guarantee of, or assumption of liability on, securities heretofore registered on Form D–2, registration of such guaranty or assumption of liability may, at the option of the issuer, be effected on Form D–2 or Form E–1 (17 CFR, 239.8)

This amendment shall become effective September 19, 1935.

[Securities Act Release No. 493, September 20, 1935]

§ 231.538 *Letter of General Counsel discussing the availability of an exemption from registration for the issuance of securities under deposit agreements where solicitations under the agreements were begun prior to the effective date of the registration requirements of the Securities Act.*

My attention has been directed to a type of deposit agreement under which mortgage bonds or other securities have been deposited, which agreement authorizes the Committee appointed thereunder, in its discretion, to cause title to the mortgaged property to be vested in a trustee, or trustees, or in a corporation. Under such type of deposit agreement the Committee is further authorized, in its discretion, to cause the issuance and delivery to holders of certificates of deposit, of certificates of interest in, or other securities of, the trust, or certificates for shares of stock or other securities of the corporation, in which the title to the property becomes vested. The scope of the Committee's discretion is such that the transfer of title to the property and the issuance and delivery of the securities referred to above may be effected by the Committee without further authorization on the part of the holders of certificates of deposit, and without affording such holders an opportunity to withdraw deposited securities.

It is understood that the solicitation of the deposit of bonds or other securities under such type of deposit agreement was commenced prior to July 27, 1933, and has been continued subsequent to that date in such manner as not to constitute a new offering of certificates of deposit, and that the trust or corporation which is to issue the new securities has been or is to be formed at the direction of the Committee acting pursuant to authority conferred by the deposit agreement.

The effect of section 3 (a) (1) of the Securities Act of 1933, as amended, is to exempt from the registration requirements of the Act any security which, prior to July 27, 1933, was bona fide offered to the public, except that such exemption does not apply to any new offering of such security by an issuer or underwriter occurring on or after that date. The certificates of deposit issued under such type of deposit agreement, even though issued and delivered on or after July 27, 1933, are, under the circumstances outlined above, exempt from registration, since the offering of such securities was initiated by the issuer thereof prior to July 27, 1933. The further question is presented as to whether the securities ultimately deliverable to the holders of certificates of deposit after the transfer of title contemplated by the deposit agreement are exempt from registration. There may be some question whether there is any offering of such securities for sale. But it seems clear that such offering as may have been made was made prior to July 27, 1933, since the issuance of such securities was contemplated at the time of the solicitation of deposits, and, under the provisions of the deposit agreement, was authorized without further submission to holders of certificates of deposit of the terms and conditions under which the transfer of title was to be effected and the new securities issued. Such securities therefore seem likewise exempt from the registration requirements of the Act.

As has been pointed out above, the certificates of deposit and the new securities are exempt only if there has been no "new offering" thereof on or after July 27, 1933. What constitutes a "new offering" is a question of fact necessitating in each instance consideration of all of the surrounding circumstances. However, it seems that at least the following factors should be taken into account in determining whether a "new offering" is involved. If the deposit agreement specified a date beyond which deposits were not to be accepted, any amendment of the agreement, after July 27, 1933, extending such date, would seem to involve a new offering. If, however, there was no time limit originally specified in the deposit agreement, or if the time limit originally specified has not yet expired, and if deposits have been continuously acceptable, it would seem equally clear that no "new offering" has been involved.

[Securities Act Release No. 538, October 26, 1935]

§ 231.603 *Letter of General Counsel discussing the availability of the exemption from registration of the second clause of section 4 (1) where a dealer resells to the public without registration a block of securities bought from an initial purchaser who had acquired the securities in connection with a so-called "private" offering.*

I call your attention to my opinion set out in the next to the last paragraph of Release No. 295, which states in substance that the answer to your question depends upon whether the initial purchaser acquired the securities with a view to distribution, and further points out that if his acquisition was with such intent, he would be an underwriter, so that in general sales by dealers of securities bought from him would not be exempt from registration.

You will appreciate that the intent of the initial purchaser at the time of acquisition is a question of fact upon which you must satisfy yourself, and upon which I can express no opinion.

I wish to make clear, however, that I do not believe the fact that the initial purchaser has stated that his original purchase was for investment and not for resale is necessarily conclusive on this question. In my opinion there should be considered such other factors as: (1) the relation between the issuer and the initial purchaser; (2) the business of the latter, as for example, whether such purchaser is an underwriter or dealer in securities, and, if not, whether the purchase of such a block of securities for investment is consistent with its general operations; and (3) the length of time elapsing between the acquisition of the securities by the initial purchaser and the date of their proposed resale.

Of course, if the securities in question were in fact purchased by the initial purchaser for investment rather than for resale, dealers' sales thereof to the public would not necessitate registration under the Securities Act.

In conclusion, I feel that I should point out that even though a dealer is satisfied that

[1] Although a "reorganization" is involved in a given situation, consideration should be given to the Note following Rule 5 (3) in determining whether it is necessary to register securities issuable to existing stockholders in connection with such reorganization.

a particular block of unregistered securities was bought by an initial purchaser for investment, he nevertheless takes the risk that, if his determination is incorrect, sales by him of such securities will be in violation of the registration requirements of the Act.

[Securities Act Release No. 603, December 16, 1935]

§ 231.646 *Letters of General Counsel discussing the application of section 3 (a) (9).* The General Counsel's opinion indicating the inapplicability of section 3 (a) (9) to other than bona fide exchanges of securities, which was given in answer to a query concerning a proposed exchange of bonds with three noteholders, is as follows:

Section 3 (a) (9) exempts: Any security exchanged by the issuer with its existing security holders exclusively where no commission or other remuneration is paid or given directly or indirectly for soliciting such exchange.

I assume that no commission or other remuneration will be paid in connection with this exchange, and that the bonds will be issued only to the above-mentioned noteholders in exchange for the notes of the corporation. In such case, on the further assumption that none of the bondholders is or will be in control of your company, it seems to me likely that registration of the bonds in question will be unnecessary. However, I feel that I should point out possible limitations which I believe are inherent in section 3 (a) (9), and which might operate to prevent the applicability of the exemption of that section despite formal compliance with its conditions.

I believe section 3 (a) (9) is applicable only to exchanges which are bona fide, in the sense that they are not effected merely as a step in a plan to evade the registration requirements of the Act. For example, Corporation A, as part of such a plan, might issue a large block of its securities to Corporation B, and might then issue new securities to Corporation B in exchange for the first-issued securities, with the understanding that such new securities are to be offered to the public by Corporation B. In my opinion the mere fact that the exchange in such case might comply with the literal conditions of section 3 (a) (9) would not avail to defeat the necessity for registration of the securities issued in such exchange. Cf. Gregory v. Helvering, 293 U. S. 465.

In determining whether a particular exchange had been effected merely as a step in a plan to evade the registration requirements of the Act, I believe that a court would take into account various factors such as the length of time during which the securities received by the issuer were outstanding prior to their surrender in exchange, the number of holders of the securities originally outstanding, the marketability of such securities, and also the question whether the exchange is one which was dictated by financial considerations of the issuer and not primarily in order to enable one or a few security holders to distribute their holdings to the public. In any event, I call your attention to the fact that in the case of Borland v. Federal Electric Company, now pending in the Federal District Court for the Northern District of Illinois, the question has been presented under the Federal Declaratory Judgment Act, as to the application of section 3 (a) (9) to a situation similar to the one which you describe. In view of this proceeding, I believe that it would be inadvisable for me to express any opinion other than that indicated above.

The second opinion of the General Counsel was in reply to an inquiry whether securities previously received by a controlling stockholder in a bona fide exchange except under section 3 (a) (9) should be registered before being offered to the public through an underwriter. The relevant portion of the opinion follows:

In order to make clear my position on this question, I must briefly review the legislative histories of the present section 3 (a) (9) and of section 2 (11) of the Securities Act of 1933.

The last sentence of section 2 (11) reads as follows: "As used in this paragraph the term 'issuer' shall include, in addition to an issuer, any person directly or indirectly controlling or controlled by the issuer, or any person under direct or indirect common control with the issuer."

This sentence, by defining an underwriter to include a person purchasing from one in a control relation with the issuer, makes the exemption afforded by section 4 (1) inapplicable to transactions by such a person and thus necessitates registration before distribution to the public of securities acquired from a person in a control relation. The report of the House Committee, which considered the identical language in the bill then before the Committee (H. R. 5480), leaves no doubt as to the reason for this requirement:

"The last sentence of this definition, defining 'issuer' to include not only the issuer but also affiliates or subsidiaries of the issuer and persons controlling the issuer, has two functions . . . Its second function is to bring within the provisions of the bill redistribution whether of outstanding issues or issues sold subsequently to the enactment of the bill. All the outstanding stock of a particular corporation may be owned by one individual or a select group of individuals. At some future date they may wish to dispose of their holdings and to make an offer of this stock to the public. Such a public offering may possess all the dangers attendant upon a new offering of securities. Wherever such a redistribution reaches significant proportions, the distributor would be in a position of controlling the issuer and thus able to furnish the information demanded by the bill. This being so, the distributor is treated as equivalent to the original issuer and, if he seeks to dispose of the issue through a public offering, he becomes subject to the act." H. R. 85, 73d Cong., 1st Sess., pp. 13–14.

Section 2 (11) thus gives expression to the clear intent of Congress to subject to the registration requirements of the Act any redistribution of securities purchased from persons in a control relation with the issuer.

Turning to the present section 3 (a) (9), I call your attention to the fact that, although this Section in terms excepts *securities* issued in certain transactions of exchange, its predecessor, section 4 (3) exempted only such transactions of exchange. Consequently, before the 1934 amendments, distribution by a controlling person through an underwriter of stock previously issued in a transaction exempt under form Section 4 (3), was subject to the registration requirements. The reasons for the relevant amendment therefore become important.

The question early arose whether dealers' transactions in securities exchanged in a section 4 (3) transaction were exempt from the registration requirements of the Securities Act. Section 4 (1) specifically excepts from the dealers' exemption: "transactions within one year after the first date upon which a security was bona fide offered to the public";

but in order to effectuate the evident purpose of the act, the Federal Trade Commission took the position that dealers' transactions in securities originally issued in a transaction exempt under section 4 (3) were exempt, even though such dealers' transactions were effected within a year of the first offering of such securities.

That the purpose of the amendment changing section 4 (3) to sections 3 (a) (9) and 3 (a) (10) was to incorporate in the act this opinion of the Commission appears from the statement of the report of the Conference Committee which considered these amendments.

"The amendments adding new sections 3 (a) (9), 3 (a) (10), and 3 (a) (11) are based upon sections 4 (3) and 5 (c) of the original act, which are proposed to be repealed. By placing these exemptions under section 3 it is made clear that securities entitled to exemption on original issuance retain their exemption; if the issuer is not obliged to register in order to make the original distribution, dealers within a year are subject to no restriction against dealing in the securities. The result is in line with the Commission's interpretation of the act as it stood before, but the amendment removes all doubt as to its correctness." H. R. 1838, 73d Cong., 2d Sess., p. 40.

This language clearly evidences that the congressional intent was merely to offer a more adequate statutory basis for the Commission's previous interpretation, and not to alter the fundamental requirement of section 2 (11).

Moreover, the fact that the securities in question fall within Section 3 (a) does not necessarily preclude consideration of the necessity of their registration before certain transactions therein can be effected. Sections 3 (a) (2) to 3 (a) (8) inclusive describe classes of securities which are of such an intrinsic nature that it is evident that Congress felt that, regardless of the character of the transaction in which they have been or are to be issued or publicly offered, their registration was not necessary for the protection of investors. On the other hand, your letter calls attention to the fact that Section 3 (a) (1), the exemption of which is predicated upon the time of issuance or offering of securities, regardless of their intrinsic nature, excepts from this exemption "new offerings • • • by underwriters". As your letter further states, the basis of the exemption of section 3 (a) (9) is only "the circumstances surrounding the • • • issue". This view of section 3 (a) (9) is further borne out by the report of the Committee which considered the predecessor section 4 (3). H. R. 152, 73d Cong., 1st Sess., p. 25. The anology seems to me compelling; there is nothing in the intrinsic nature of securities falling within section 3 (a) (1) or section 2 (a) (9) which justifies their permanent exemption from registration. In the language of House Report No. 85, quoted *supra*, a large public offering of such securities possesses all the dangers attendant upon a new offering by their issuer.

It seems clear that a construction of section 3 (a) (9) as permanently exempting securities offered in a transaction falling within that section, even though such securities were subsequently newly offered by persons controlling the issuer, finds no rational basis. Furthermore, the language of House Report No. 85, quoted earlier in this letter, definitely indicates that the amendment which changed section 4 (3) to section 3 (a) (9) was intended only to clarify the application of the registration requirement to dealers' transactions, and was not intended to cut into the fundamental principle embodied in section 2 (11)—that persons in control of an issuer be treated as the equivalent of the issuer.

In view of the Congressional purpose in enacting the last sentence of Section 2 (11), the legislative history of the present section 3 (a) (9), and the lack of any rational basis for the continuance of the exemption provided by section 3 (a) (9) to a later offering of securities by an underwriter, it is my opinion that securities received in a section 3 (a) (9) exchange should be registered before their public distribution through an underwriter by a person in control of their issuer.

[Securities Act Release No. 646, February 3, 1936]

§ 231.802 *Letter by General Counsel discussing the circulation by underwriters and dealers of summaries of information contained in registration statements prior to the effective date of such statements.*

It is my understanding that your firm is a prospective underwriter of a security for which a registration statement already filed has not yet become effective under the Securities Act, and that you propose to prepare a summary of certain information contained in such statement for circulation among your clientele prior to the effective date of the statement. I note that the summary, which apparently contains no expression of opinion relative to the securities described, will contain a superimposed legend in red ink stating in substance that the summary is furnished for informative purposes only and that it is not to constitute an offer to sell or a solicitation of an offer to buy the securities described. A further statement will be made in the red ink legend across the face of the summary that orders will not be considered prior to the effective date, and will be considered thereafter only if given by a person who has previously received a copy of the prospectus. The summary will also contain a statement calling the attention of underwriters and dealers to the fact that any use of the summary in connection with any offering for sale of the described securities prior to the effective date of the registration statement will be unlawful, and that subsequent to the effective date the summary of information may be so used if accompanied or preceded by the prospectus.

The clientele to whom the summary will be sent may include other underwriters, dealers, brokers, corporations, institutional and individual investors. The summary is not to be used subsequent to the effective date of the registration statement unless accompanied or preceded by a copy of the prospectus. You request an expression of my opinion as to whether the form, content and proposed use of this summary comply with the requirements of section 5 of the Securities Act of 1933, as amended.

As was pointed out in the opinion of the General Counsel set forth in Securities Act Release No. 464 (17 CFR, 231.464), this and similar summaries of information contained in a registration statement may, without violation of section 5 of the Act, be circulated through the mails and in interstate commerce prior to the effective date of the registration statement covering the described securities, provided that the summary does not itself constitute an offer of the securities described and is not circulated or used under such circumstances as might in fact involve its use in connection with any sale of the described securities. You will appreciate, of course, that, pursuant to section 2 (3) of the Act, any solicitation of any offer to buy, and any attempt to dispose of, a security, are, for purposes of the Securities Act, included within the definition of the term "sale". As is indicated in Release No. 464, it is a question of fact in each case whether or not any such summary is being utilized in an attempt to sell or to offer for sale the security described. The factors which would be of weight in determining whether or not the use of an informative summary involves a sale are discussed in considerable detail in that release, and I cannot give any general opinion as to whether the use which may be made by brokers, salesmen, dealers, etc., of the summaries to be prepared by your company, will involve a violation of section 5. Where, however, the summary is in fact not used in connection with any "sale" of the described securities, within the meaning of that term as defined in the Act, its transmittal through the mails or in interstate commerce would not involve a violation of the Act.

You will appreciate that I cannot undertake to examine and make the necessary analysis of all summaries of information which may be circulated by underwriters or other persons interested in the eventual sale of the securities. I may, however, say that if a summary contains no recommendation or opinion as to the merits of the security, is a fair summarization of the salient information contained in the registration statement, and does not stress or in any way emphasize the favorable as against the unfavorable aspects of such security, and if the use of such a summary is in form and substance confined within the limits indicated above and more fully set forth in Release 464 (17 CFR, 231.464), it is my opinion that such a summary may be circulated in the manner which you suggest. Of course, any such emphasis of favorable factors or any recommendation or expression of opinion as to the merits of the security would characterize the summary as an attempt to dispose of the security, and therefore, as an offering of the security for sale, within the meaning of the Act. In this connection, I must again refer to the opinion expressed in Release No. 464 (17 CFR, 231.464), which contains a more complete analysis of this problem and to which the views herein expressed are subject.

I should be very glad to receive from you a final copy of any summary of the character considered in this letter.

[Securities Act Release No. 802, May 23, 1936]

§ 231.828 *Letter of General Counsel discussing the application of section 5 (b) (2) where a purchaser has received a copy of a prospectus from a source other than the seller.*

It is my opinion that the words, "preceded by a prospectus", in section 5 (b) (2) of the Securities Act of 1933, as amended, do not require that the prescribed prospectus must have been sent by the same person who causes the securities to be sent through the mails for the purpose of sale, or for delivery after sale. Such person would, of course, take the risk of the lack of prior transmittal of a prospectus, but, assuming that the purchaser had, in fact, received a copy thereof, it would not be necessary for the seller of the security to transmit additional copies of such prospectus at the time of transmittal of the security.

The above opinion, of course, relates only to the requirements of section 5 (b) (2) and not to section 5 (b) (1). It should be noted that the latter section provides that any prospectus which is sent through the mails or in interstate commerce must comply with the requirements of Section 10, and that any literature offering a security for sale (other than a notice meeting the requirements of section 2 (10) (b)) falls within the definition of "prospectus" contained in Section 2 (10), unless the sender thereof or his principal has previously sent or given the prospective purchaser a copy of the prescribed prospectus. Consequently, the receipt by the prospective purchaser of the prescribed prospectus from another source would not relieve a person who is subsequently circulating selling literature from the duty of seeing that such literature, in accordance with the provisions of section 5 (b) (1), meets the requirements of section 10 of the Act.

[Securities Act Release No. 828, June 4, 1936]

§ 231.874 *Opinion of the Director of the Division of Forms and Regulations relating to Rule 821 (a) (17 CFR, 230.821a).*

The rules as to the prospectus for Form A–2 (17 CFR, 239.2) provide as follows: "The information set forth in the prospectus, except as to financial statements required to be furnished, may be expressed in condensed or summarized form."

The question has been raised as to what is the effect of this permission to condense or summarize.

There must be first borne in mind the fact that the registration statement is a public document, open to inspection by any person, and that copies can be obtained by any interested person at little expense and small effort. The prospectus, on the other hand, is designed for general distribution. Plainly, the prospectus is intended to be a shorter and briefer document than the registration statement. This is further shown by the fact that, under authority granted by the Act, whole items may be omitted from the prospectus. The prospectus is meant to be an epitome or summary, and, obviously, cannot be as discursive as the longer registration statement. The rule clearly indicates that the prospectus is not to contain the same degree of particularity as the registration statement.

It is patent, therefore, that condensation or summarization involves omission; for it is not to be assumed that surplusage is contained in the registration statement itself. Indeed, in most places in the registration statement, answers are required to be stated briefly. A summarization or condensation of matter which has already been stated briefly must, of necessity, involve a greater brevity and an increased terseness, which can be attained only by a reduction in word content. To repeat, this reduction can be achieved only by the omission of material.

As an example of the proper method of condensing information for use in the prospectus, there may be cited the case where facts stated in the registration statement are reducible to a more general statement. In such case, all that is required in the prospectus is such general statement. In other words, a series of related facts may be set forth in the prospectus in terms of their net result. An instance of this principle may be given. Item 45 in Form A–2 (17 CFR, 239.2) calls for revaluations of property since 1922. In the registration statement the actual revaluations should be set forth. In the prospectus, however, it is not only permissible, but desirable, if such can be done in the specific case, to set forth the net result of the revaluations which were made. If, for example, there have been numerous write-ups and write-downs with a final return to original cost, it would suffice to state in the prospectus that numerous revaluations had been made with the net result of finally returning the property to original cost. If a particular person should desire to obtain more precise information, that is, the times, nature, and amounts of the respective revaluations, he should consult the registration statement.

[Securities Act Release No. 874, July 2, 1936]

§ 231.929 *Letter of General Counsel discussing the question of whether a sale of a security is involved in the payment of a dividend.*

As I understand the situation, the company proposes to declare a dividend upon its common stock in the amount of one dollar in cash or one-tenth of a share of common stock for each share of common stock held. Each stockholder will be entitled to elect whether to accept the dividend in cash or in stock. Your letter is silent as to the mechanics of the declaration and distribution, and as to the nature of the rights of stockholders who fail to take affirmative action to express their election. In the absence of information regarding these important details, I can answer your question only in a general manner.

Whether or not registration is required in such a case is of course primarily dependent

upon whether the offering is of such a character as to constitute it a "sale", as that term is defined in section 2 (3) of the Securities Act. As you are aware, this definition is extremely broad in its scope, and includes "every "attempt or offer to dispose of • • • a security • • • for value". The term "value" is not defined in the Act, but should in my opinion be regarded as including not only such ordinary forms of consideration as the transfer of cash or property, but also the waiver or surrender of a right or claim.

However, even though under ordinary circumstances the waiver of a right would in my opinion constitute "value", I do not believe that that term should be regarded as comprehending within its meaning the action of a stockholder, to whom alternative rights have been granted without consideration, in electing to exercise one such right, even though, under the terms of the grant, such election will have the effect of causing the lapse of the right not exercised. Consequently, if a corporation, by simultaneous action of its board of directors, declares a dividend payable at the election of the stockholder in cash or in securities, neither the declaration of the dividend, nor the distribution of securities to stockholders who elect to take the dividend in that form, would in my opinion constitute a sale within the meaning of the Securities Act, and no registration of the securities so distributed would be required under that Act.

However, according to my understanding it is well settled in general law that upon the public declaration of a cash dividend out of surplus, the holders of the stock in respect of which the dividend is declared acquire immediately the rights of creditors of the corporation, and cannot be divested of these rights by subsequent action of the board of directors. If, therefore, there is declared a cash dividend payable to all stockholders, and if the board thereafter determines to grant to stockholders the opportunity to waive their pre-existing and vested right to payment of the dividend in cash, and to receive the dividend in the form of securities, the stockholders electing to take securities would in my opinion be regarded as giving value for the securities so received. Under these circumstances I believe that the securities might well be held to be the subject of a sale.

[Securities Act Release No. 929, July 29, 1936]

§ 231.1256 *Letter of General Counsel discussing the solicitation by financial and security houses of brokerage orders for the purchase of securities prior to the effective date of a registration statement for such securities:*

As I understand the situation, in cases where corporate bonds have been called for redemption and a registration statement for new debentures of the same issuer has been filed with this Commission but is not yet effective, certain financial and securities houses propose to circularize holders of the called bonds with a view to securing orders for the purchase of the new debentures. The circular letters will contain a notification of the call of the bonds for redemption and a suggestion that the securities be presented for payment. They will further advise the bondholder that a registration statement for a new issue of debentures of the same company, bearing a specified interest rate, has been filed with this Commission, and that the new debentures are expected to be offered for subscription within a short period, and will proffer the services of the circularizing house as "buying agent" to purchase new debentures to replace the called bonds. The proposed communications will also state that these services will be confined to the execution of orders solely for the account of customers, and that no representations or recommendations are made with respect to the new debentures.

In my opinion, a circular letter of this type would obviously be a "solicitation of an offer to buy" the new debentures, and would therefore involve a "sale" of such debentures within the meaning of the term "sale" as defined in section 2 (3) of the Securities Act of 1933, as amended. Any use of the mails or means of interstate commerce by a dealer (which term, as defined in section 2 (12) of the Act, includes a broker) in circulating such a letter prior to the effective date of the registration statement covering the new debentures would consequently be in violation of section 5 (a) (1) of the Securities Act unless some exemption from the provisions of that section were available.

In view of the emphasis which the proposed circular letter places upon the fact that the senders thereof would act only in a brokerage capacity in executing orders, it is possible that you believe an exemption to be available under section 4 (2), which exempts from the operation of section 5: "Brokers' transactions, executed upon customers' orders on any exchange or in the open or counter market, but not the solicitation of such orders."

The last clause of this section clearly renders the exemption afforded thereby unavailable to a solicitation, by means of a letter of the type above described, of an order to purchase securities. Consequently, unless some other exemption is applicable, the circulation of such a letter through the mails or in interstate commerce would consttitute a violation of section 5 (a) (1) of the Securities Act.

[Securities Act Release No. 1256, February 9, 1937]

§ 231.1376 *Opinion of the Director of the Division of Forms and Regulations discussing the definition of parent as used in various forms under the Securities Act of 1933 and the Securities Exchange Act of 1934.*

The term "parent" is defined in the Instruction Book to Form A-2 (17 CFR, 239.21) as "an affiliate controlling the registrant directly, or indirectly through one or more intermediaries." Several inquiries have been made as to whether an individual person may be a parent within the meaning of this definition.

These inquiries may be answered by reference to other definitions appearing in the Instruction Book to Form A-2 (17 CFR, 239.2) and in the Securities Act of 1933.

Under the definition of "affiliate" given in the Instruction Book, the term means "a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the registrant." In consequence, any "person" controlling the registrant directly or indirectly is to be regarded as a "parent" of the registrant.

By the definition contained in Section 2 (2) of the Securities Act of 1933, the term "person" is defined to include "an individual" as well as corporations and other legal persons. This definition applies to the term "person" as used in the Instruction Book for Form A-2 (17 CFR, 239.2). In view of the provision in the Instruction Book under the caption "Definitions" that "all terms used in these instructions and the Form have the same meaning as in the Securities Act of 1933, as amended."

It follows, therefore, that any individual person directly or indirectly controlling the registrant is a parent of the registrant for the purposes of any item or instruction in Form A-2 (17 CFR, 239.2).

should be noted that the definitions of "parent" and "affiliate" given in Rule 455 of the General Rules and Regulations under the Securities Act and in the various forms under that Act and the Securities Exchange Act of 1934 are identical for the present purpose with the definitions in the Instruction Book to Form A-2 (17 CFR, 239.2) quoted herein. Likewise, the definition of "person" given in section 3 (a) (9) of the Securities Exchange Act of 1934 is identical for the present purpose with the definition in the Securities Act of 1933. Accordingly, the above conclusion, that the term "parent" includes individual persons, applies to all other forms and rules adopted under the Securities Act of 1933 and the Securities Exchange Act of 1934, as well as to Form A-2 (17 CFR, 239.2).

[Securities Act Release No. 1376, April 7 1937]

§ 231.1459 *Letter of General Counsel discussing nature of the exemption from registration provided by section 3 (a) (11)*

This is with reference to your recent letter in which you raise a number of questions as to the meaning and application of the exemption from registration provided by section 2 (a) (11) of the Securities Act of 1933 as amended.

Answer to your inquiries may, I think, be facilitated by brief discussion of the general scope of application of section 3 (a) (11) to so-called intra-state offerings of new issues of securities. Specifically, that section exempts from the registration and prospectus requirements of the Act: "Any security which is a part of an issue sold only to persons resident within a single State or Territory, where the issuer of such security is a person resident and doing business within, or, if a corporation, incorporated by and doing business within, such State or Territory."

The legislative history of the Securities Act clearly shows that this exemption was designated to apply only to local financing of such a nature that it may practicably be consummated in its entirety within the single state in which the issuer is both incorporated and doing business. Accordingly this exemption, formerly contained in section 5 (c) of the Securities Act and now reenacted in section 3 (a) (11) of the Act, as amended, is so worded as to be available only to a security "which is a part of an issue sold only to persons resident within" the state in question. In any consideration of the exemption it is essential to appreciate that its application is thus expressly limited to cases in which the entire issue of securities is offered and sold exclusively to residents of the state in question.

Moreover, since the exemption is designed to cover only those security distributions which, as a whole, are essentially local in character, it is clear that the phrase "sold only to persons resident" as used in section 3 (a) (11) cannot refer merely to the initial sales by the issuing corporation to its underwriters, or even the subsequent re-sales by the underwriters to distributing dealers. To give effect to the fundamental purpose of the exemption it is necessary to take the view expressed by the Federal Trade Commission during its administration of the Securities Act, that if the exemption is to be available "it is clearly required that the securities at the time of completion of ultimate distribution shall be found only in the hands of investors resident within the state (Securities Act Release No. 201 (17 CFR, 231.201)). This position was adhered to by the Securities and Exchange Commission in its decision in the Brooklyn Manhattan Transit Corporation case, 1 S. E. C. 147 (1935), that an issue of $8,000,000 principal amount of bonds approximately 15% of which, during the course of their distribution, were offered and sold to persons resident outside the State of New York could not be exempt under the former section 5 (c) or the present section 3 (a) (11), despite the fact that the issuer, a New York corporation, had in the first instance sold the entire issue to underwriting houses resident in New York State. The bonds could not be considered

to have been "sold" until they had reached the hands of purchasers buying for investment and not with a view to further distribution or for purposes of resale.

From these general principles it follows that if during the course of distribution any underwriter, any distributing dealer (whether or not a member of the formal selling or distributing group), or any dealer or other person purchasing securities form a distributing dealer for resale were to sell such securities to a non-resident, the exemption would be defeated. Moreover, since under section 3 (a) (11) the exemption is applicable only if the entire issue is distributed under the circumstances specified, any such sales to a non-resident in connection with the distribution of the new issue would destroy the exemption as to all securities which are a part of that issue. This is true regardless of whether such sales are made directly to non-residents or indirectly through residents who purchased with a view to resale and thereafter sold to non-resident; and it would furthermore be immaterial that the sales might be made without use of the mails or instruments of interstate commerce, or by persons themselves exempt from the registration and prospectus requirements, and might therefore, as isolated transactions, involve no violation of the Securities Act. Any such sales to non-residents, however few, and even though legal in themselves, would preclude compliance with the conditions of section 3 (a) (11), and would render the exemption unavailable for that portion of the issue sold to residents through use of the mails.

On the other hand, securities which have actually come to rest in the hands of resident investors—persons purchasing for investment and not with a view to further distribution or for purposes of resale—may be resold by such persons, whether directly or through dealers or brokers, to non-residents without in any way affecting the exemption of the issue. The relevance of any such resales to the existence or non-existence of the exemption would consist only in the evidentiary light which such resales might cast upon the question whether the securities had in fact come to rest in the hands of resident investors. If the securities were resold but a short time after their acquisition, this fact, although not conclusive, would strengthen the inference that their original purchase had not been for investment, and that the resale therefore constituted a part of the process of primary distribution; and a similar inference would naturally be created if the seller were a security dealer rather than a non-professional.

The foregoing general outline will indicate that, as many people fail to appreciate, the so-called "intrastate exemption" is not in any way dependent upon absence of use of the mails or instruments of transportation or communication in interstate commerce in the distribution, section 3 (a) (11) provides in effect that if the residence of the purchasers, the residence or place of incorporation of the issuer, and the place in which the issuer does business are all confined to a single state, the securities are exempt from the operation of Section 5 of the Act. Securities thus exempt may without registration be offered and sold through the mails, may be made the subject of general newspaper advertisement (provided the advertisement is appropriately limited to indicate that offers to purchase are solicited only from, and sales will be made only to, residents of the particular state involved), and may even be delivered in interstate commerce to the purchasers, if such purchasers, though resident, are temporarily out of the state or should direct delivery to some non-resident agent or custodian. Similarly, subject to the general prohibitions of the Act against the use of false or misleading statements or omission in selling literature, securities exempt under section 3 (a) (11) may be offered without compliance with the formal prospectus requirements applicable to registered securities. Exemption under section 3 (a) (11), if in fact available, removes the securities from the operation of all provisions of the Act except those of sections 12 (2) and 17.

In conclusion, I should like to stress once more the fact that section 3 (a) (11) is designed to apply only to such types of distributions as are genuinely local in character. From a practical point of view, the provisions of that section can exempt only issues which in reality represent local financing by local industries, carried out purely through local purchasing. In distributions not of this type the requirements of section 3 (a) (11) will be extremely difficult, if not impossible, to fulfill. Consequently, any dealer proposing to participate in the distribution of an issue claimed to be exempt under section 3 (a) (11), or to deal in such an issue within a year after its first public offering, should examine the character of the issue and the proposed or actual manner of its offering with the greatest care in order to satisfy himself that the distribution will not, or did not, involve the making of any sales to non-residents. Otherwise the dealer, even though his own sales may be carefully confined to resident purchasers, may subject himself to serious risk of civil liability under section 12 (1) of the Act for selling without prior registration a security not in fact entitled to exemption from registration.

[Securities Act Release No. 1459, May 29, 1937]

§ 231.1503 *Opinion of the Director of the Division of Forms and Regulations relating to Rule 821 (a) (17 CFR, 230.821 (a))*

This is in answer to your inquiry as to the extent to which the technical description of securities may be condensed in a prospectus for securities registered on Form A-2 (17 CFR, 239.2) under the Securities Act.

There is no doubt that in many instances prospectuses have been so long and cumbersome as partially to destroy their usefulness. The technical description of securities has often contributed to this undue length.

The prospectus is designed to be read by people making business judgments. Meticulousness, which lawyers use in such documents as corporate indentures, is out of place in a prospectus. The resulting verbiage is without meaning except to those skilled in legalistic language. Notwithstanding, the description of securities in prospectuses has at times consisted of virtual extracts taken from the underlying documents.

Such a presentation would seem to serve little purpose even for lawyers and technicians, since they would undoubtedly prefer to consult the original instruments, which are on file, for details in which they may be interested.

At any event, the Securities Act, and the rules adopted thereunder, do not require the amount of detail often furnished.

The answers to the items in question are required to be stated briefly, and the following general instruction, contained in the Instruction Book accompanying Form A-2 (17 CFR, 239.2) is applicable:

"6. Where 'brief' answers are required, brevity is essential. It is not intended, in such case, that a statement shall be made as to all the provisions of any document, but only, in succinct and condensed form, as to the most important thereof. In addition, the answer may incorporate by reference particular items, sections or paragraphs of any Exhibit, and may be qualified in its entirety by such reference."

In addition, there is a special instruction applicable to the items in question, reading as follows:

Items 14, 15, 16, 17, 18 and 19. The outline required by these items is to relate only to such matters as have bearing on the investment value of the security registered and as to which an average prudent investor ought reasonably to be informed before purchasing the security registered. Details which are mere mechanics are not to be set forth. What is required is such information as will reasonably inform the investor from an investment standpoint, and not from the standpoint of obtaining a full and complete legal description of the rights and duties involved. For example, in the case of conversion rights, only the general character of dilution provisions need be set forth; and in the case of sinking fund provisions only the general method of operating the sinking fund, but not the mechanical details thereof.

The outline need relate only to the provisions of the respective governing instruments, exclusive of statutes.

Furthermore, the material in the prospectus should be in even more simplified form than the answers set forth in the registration statement. Particular authorization to this effect is contained in the Instruction Book accompanying Form A-2 (17 CFR, 239.2). Paragraphs 1 and 2 under the caption "Instructions as to prospectuses other than newspaper prospectuses", read as follows:

1. The information set forth in the prospectus, except as to financial statements required to be furnished, may be expressed in condensed or summarized form. • • •

2. Where the incorporation by reference in the registration statement proper of matter contained in exhibits is permitted, a similar incorporation by reference may be made in the prospectus.

The cited rules make clear that what is required in a registration statement and particularly in a prospectus is a brief statement of the business elements involved. Compliance therewith could afford no ground for liability under the statute for section 19 (a) of the Act provides: "• • • No provision of this title imposing any liability shall apply to any act done or omitted in good faith in conformity with any rule or regulation of the Commission, notwithstanding that such rule or regulation may, after such act or omission, be amended or rescinded or be determined by judicial or other authority to be invalid for any reason."

An example from a prospectus on file illustrates the failure to follow the above-mentioned rules. The prospectus covered a $27,500,000 issue of first mortgage bonds of an operating public utility company, showing property plant and equipment of over $48,000,000, to which there was applicable a property retirement reserve of about $8,000,000. In the opinion of counsel, the mortgage when duly recorded was to constitute a first lien, with certain minor exceptions, upon all such property.

There is required to be stated in the prospectus, as to bonds being offered, a brief outline of the provisions concerning the issuance of further securities under indenture. The purpose of the information is to show to what extent the bonds being offered may be affected by the issuance of further securities.

In that regard, the prospectus in question contained the following statement and definitions. The definitions were also applicable to other parts of the description of securities.

Definitions. The term "property additions" is defined in Section 4 of the Mortgage to mean plants, lines, pipes, mains, cables, machinery, transmission lines, pipe lines, distribution systems, service systems and supply systems, vehicles, automobiles, property, real or personal, and improvements, extensions or additions, renewals or replacements acquired by purchase, consolidation, merger, donation or in any other way whatsoever, subsequent to November 30, 1936, or made or constructed subsequent to November 30, 1936, or in the process of construction or erection in so far as actually constructed or erected subsequent to November 30, 1936, and

used or useful or to be used in the business of generating, manufacturing, gathering, transporting, transmitting, distributing or supplying electricity or gas for light, heat, power or other purposes, or steam or hot water for power or heat or other purposes.

The term "property additions" shall not, however, include (1) any securities or contracts, leases or choses in action, or (2) except as in the Mortgage otherwise specifically provided, going value, good will, franchises or governmental permits granted to or acquired by the Company, as such, separate and distinct from the property operated thereunder or in connection therewith or incident thereto, or (3) any goods, wares, merchandise, equipment, materials or supplies acquired for the purpose of sale or resale in the usual course of business or for the purpose of consumption, or (4) any natural gas wells or natural gas leases or natural gas transmission lines or pipes or other works or property used in the production of natural gas or its transmission up to the point of connection with any distribution system, or (5) any property acquired, made or constructed by the Company in keeping or maintaining the mortgaged property in good repair, working order and condition.

In section 4 of the Mortgage, it is provided that the term "net property additions" shall at any particular time mean the aggregate of all property additions up to that time at the cost thereof to the Company (to the extent not theretofore made the basis of the authentication and delivery of bonds or the withdrawal of cash deposited under section 20 or section 32 of the Mortgage or a credit under section 20 or section 40 of the Mortgage) after (A) deducting the cost of all of the mortgaged and pledged property owned by the Company on November 30, 1936, which, and of all property additions which, in either case, shall prior to the date of the particular computation, have been either retired subsequent to November 30, 1936 or released from the lien of the Mortgage and (B) adding to such balance an amount equal to the aggregate of (a) the cash and the principal amount of any purchase money obligations then held by the Trustee hereunder or by the trustee or other holder of a prior lien, as hereinafter defined, and representing the proceeds of insurance on or the release of or the taking by eminent domain of any property referred to in clause (A) above; (b) the amount of any cash which shall have been received by the Trustee as the proceeds of insurance on or the release of or the taking by eminent domain of any property referred to in clause (A) above and which shall theretofore have been used by the Trustee for the purpose of purchasing and/or redeeming bonds in accordance with the provisions of subdivisions 2 and 3 of section 63 of the Mortgage and the amount of any such cash received by the trustee or other holder of a prior lien and applied by it for the purpose of purchasing and/or redeeming prior lien bonds; and (c) an amount equal to 142⅞% of the bonds or fraction of a bond the right to the authentication of which on a basis other than cash or property additions shall have been waived in order to obtain the release of any property referred to in clause (A) above. The term "cost" as used in this definition shall mean the cost as shown on the books of the Company or if not so separately shown then the cost as estimated by the Company.

The term "funded property" is defined in Section 5 of the Mortgage to mean (a) all property owned by the Company on November 30, 1936, (b) all "property additions" to the extent that the same shall have been made the basis of the authentication and delivery of Bonds, the release of "funded property", the withdrawal of "funded cash", or a credit under section 20 of the Mortgage referred to below or a credit under section 40 of the Mortgage relating to maintenance of the mortgaged properties, or have been substituted for funded property, and (c) all property constituting repairs, renewals or replacements of or substitutions for funded property except to the extent of the excess cost thereof, such costs to be determined as provided in connection with the definition of "net property additions".

The term "funded cash" is defined in section 5 of the Mortgage to mean (a) cash (held by the Trustee under the Mortgage or by the trustee or other holder of a "prior lien") to the extent that it represents the proceeds of insurance on or the release of or the taking by eminent domain of "funded property"; (b) cash held at any time in any sinking fund or other similar device for the retirement of Bonds of one or more series issued under the Mortgage; but when all Bonds of such one or more series shall have ceased to be outstanding under the Mortgage, such cash shall no longer be deemed to be or to have been "funded cash"; and (c) any cash deposited with the Trustee under Section 32 of the Mortgage in connection with the issuance of Bonds, or under Section 48 of the Mortgage on the cancellation of "prior liens", or pursuant to section 20 of the Mortgage referred to below or pursuant to Section 40 of the Mortgage relating to maintenance of the mortgaged properties.

The term "prior lien" is defined in Section 6 of the Mortgage to mean mortgage or other lien (not including "excepted encumbrances") prior to the lien of the Mortgage, existing at any particular time upon any "property additions" (so long as such "property additions" remain subject to the lien of the Mortgage), then or theretofore, made the basis under any of the provisions of the Mortgage for the authentication and delivery of Bonds or the withdrawal of cash or the release of property or the basis of a credit under the provisions of section 20 of the Mortgage referred to below or a credit under the provisions of section 40 of the Mortgage relating to maintenance of the mortgaged properties.

The term "excepted encumbrances" as defined in section 6 of the Mortgage includes liens for taxes, assessments, governmental charges not due and delinquent; liens neither assumed by the Company nor on which it customarily pays interest existing upon real estate or rights in or relating to real estate acquired by the Company for substation, measuring station, regulating station, gathering line, transmission line, gas transportation line, distribution line or right-of-way purposes; rights in public authorities to revoke franchises, permits, etc., or to purchase or recapture property; easements or reservations in property of the Company created at or before the acquisition thereof by the Company for the purpose of roads, pipe lines, gas transportation lines, transmission lines and other like purposes.

Issuance of additional bonds. The Mortgage provides for the immediate issue upon order of the Company of $27,500,000 principal amount of 1966 Series Bonds. Additional Bonds of any one or more series in an aggregate principal amount of not exceeding $2,500,000 may be issued from time to time upon the request of the Company, provided only that the net earnings of the Company are such as would be required in the case of the issuance of additional Bonds upon the basis of property additions as referred to below.

In addition to the $27,500,000 1966 Series Bonds registered hereunder and the $2,500,000 additional Bonds referred to above, Bonds of one or more series, ranking (except insofar as any sinking fund established in accordance with the Mortgage may afford additional security for the Bonds of any particular series) pari passu with the 1966 Series Bonds as to lien, may be issued without limit subject to the restrictions contained in the Mortgage, the Bonds of other series to mature on such date and to bear such interest rate and to be in certain other respects as the Board of Directors of the Company may determine by resolution. Certain of these restrictions are as follows:

Bonds may be authenticated and delivered by the Trustee to the Company upon the basis of property additions, which are included in net property additions and which are not at the time funded property, in a principal amount not exceeding 70% of the cost or then fair value (whichever shall be less), determined as provided in the Mortgage, of such property additions. (See sections 26 and 27). If any of such property additions are subject to outstanding prior liens, the principal amount thereof (unless previously deducted) is to be deducted from the principal amount of Bonds otherwise issuable. (See section 28.) No Bonds may be authenticated and delivered on the basis of property additions subject to prior liens if the outstanding prior lien bonds (unless previously deducted) exceed 50% of the cost or the then fair value (whichever shall be less) of such property additions. No Bonds may be authenticated and delivered on the basis of property additions subject to prior liens if and so long as the principal amount of all Bonds theretofore authenticated and delivered by the Trustee upon the basis of such property additions subject to prior liens as shall have continued to be subject to prior liens exceeds 15% of the aggregate principal amount of all Bonds theretofore authenticated and delivered under the Mortgage including any Bonds then applied for. (See section 28.) The Mortgage also contains other restrictions on the authentication and delivery of Bonds in respect of property additions subject to prior liens.

Bonds may be authenticated and delivered upon the payment, retirement, redemption or cancellation of any Bonds theretofore authenticated and delivered under the Mortgage or upon the reduction of outstanding prior liens or the deposit of prior lien bonds with the Trustee or upon the deposit of money in the amount necessary for the payment, redemption or retirement of prior lien bonds or of Bonds authenticated and delivered under the Mortgage, to a principal amount equivalent to the principal amount of the Bonds authenticated and delivered under the Mortgage so paid, retired, redeemed or cancelled or for the payment or redemption of which such money has been so deposited or prior lien bonds so deposited or the amount by which outstanding prior liens have been reduced. (See sections 28 and 31.)

Bonds may be authenticated and delivered upon the deposit with the Trustee of cash equal to the principal amount of such Bonds. (See section 32.) The cash so deposited may be withdrawn in lieu of Bonds which the Company may be entitled to have authenticated and delivered to it under any of the provisions of the Mortgage, subject to the same restrictions as are imposed on the issue of Bonds for such purposes, except the restrictions as to net earnings hereinafter referred to, or, at the election of the Company, may be applied to the purchase or redemption of Bonds of any series, any such purchase to be at a price not in excess of the current redemption price of the Bonds purchased, or, in case of Bonds not redeemable, not in excess of 105% of the principal amount of such Bonds plus accrued interest: *Provided, however*, That, except to the extent of any balance of cash resulting from the purchase of any Bonds at less than the principal amount thereof, none of such cash shall be applied to the payment of more than the principal amount of any Bonds so purchased or redeemed. (See sections 33 and 34.)

No Bonds may be issued upon the basis of property additions or against the deposit of cash unless the net earnings of the Company, computed as provided in section 7 of the Mortgage (which computation does not require the deduction as an expense of, among other things, expenses or provisions for renewals, replacements, depreciation, depletion, retirement or amortization of property or for income taxes, profits taxes and other taxes measured by net income), together with the net earnings of any property to be acquired through the issue of such Bonds, for a period of twelve consecutive calendar months selected by the Company in the fifteen calendar months immediately preceding the first day of the month in which the application is made for the authentication and delivery of such additional Bonds, shall be at least equal to two times the annual interest requirements on (1) Bonds outstanding under the Mortgage; (2) additional Bonds so to be authenticated and delivered; (3) prior lien bonds to be then outstanding; and (4) other outstanding indebtedness of the company secured by lien prior to the Mortgage. (See sections 7, 29 and 32.)

In the foregoing answer, the important statements do not stand out. They are obscured in a mass of detail.

It is clear that the instructions cited above not only permit but invite the omission of such detail.

An answer in the following form would have conveyed the information which an average prudent investor would desire and would have been in full compliance with the Securities Act and the rules and regulations thereunder:

Issuance of additional bonds. Unlimited amounts of additional bonds which will be of equal rank as to lien with the bonds presently offered may be issued: (1) If net earnings applicable to interest charges are at least twice the annual interest requirements on all outstanding indebtedness of equal or prior rank, including the additional issue; and

(2) If the principal amount of such bonds does not exceed 70% of the net additions made to the utility plant after November 30, 1936.

However, an aggregate principal amount of $2,500,000 of such bonds may be issued subject only to the above earnings requirement.

Net earnings are computed before deduction of property retirement expense, depreciation, depletion or amortization of debt discount and expense, and may include net earnings of property to be acquired through the additional issue. Any consecutive 12 months in the 15 months preceding the additional issue may be selected for the computation.

For the purpose of (2) above, properties acquired for the production and transmission of natural gas shall not be deemed additions to utility plant.

Additional bonds may be issued on the basis of property additions subject to prior liens. Among other limitations, it is provided that the aggregate amount of such bonds cannot exceed 15% of the total bonds issued.

Detailed provisions more precisely defining the foregoing matters are contained in sections 4 to 7 and 23 to 34, each inclusive, of the Indenture. Such sections also include provisions as to the issuance of bonds in special circumstances.

[Securities Act Release No. 1503, July 12, 1937]

§ 231.1580 *Letter of the Director of the Division of Forms and Regulations relating to Rule 821 (a) (17 CFR, 230,821 (a)).*

You recently inquired concerning the extent to which the technical description of securities may be condensed in a prospectus for securities registered on Form A-2 under the Securities Act (17 CFR, 239.2).

In considering the question of the contents of prospectuses, it must be borne in mind that the prospectus is a selling medium. The Securities Act was not designed to change this characteristic, but to insure that it would contain reliable information necessary for investment judgment. If the intricacy of an indenture is carried to the prospectus, the latter necessarily fails its purpose.

On July 12 of this year, I discussed this question as regards provisions concerning the issuance of additional securities. That opinion indicated that prospectuses are often excessively cumbersome. There were cited the instructions which require that answers to items in registration statements be brief, particularly with respect to summarization of documents. It was emphasized that the instructions authorize an even more condensed presentation in prospectuses. Section 19 (a) of the statute was cited to show that the instructions afforded protection under the Act. Independently thereof, the statute imposes liabilities only in regard to matters which are material.

The previous opinion discussed one instance of undue technicality. A further example may be cited, dealing with provisions as to release and substitution of property securing an issue of bonds.

This example is taken from a prospectus covering a $10,500,000 issue of first mortgage bonds. The issuer was an operating public utility company, showing property and plant of over $27,000,000 to which there was applicable a retirement and depreciation reserve of about $5,700,000. The company was essentially an electric and gas utility, but about 3% of its gross operating revenues were derived from transportation activities. With certain exceptions, the mortgage was to constitute a first lien upon the operating fixed property of the registrant other than transportation properties. Additional bonds to the amount of $2,000,000 were issuable without the necessity of property additions.

The prospectus in question contained the following statement with regard to release and substitution of property, the definitions preceding the statement being applicable to this and other parts of the prospectus:

"Property additions", (as is more full defined in Article I of the Mortgage) consist of additional property acquired after March 31, 1936, located in the State of ————— or in any other state, if connected with the properties in the State of ————, properly chargeable to fixed property accounts and useful in the electric, gas or heating business of the Company.

"Net bondable value of property additions" (as is more fully defined in Article I of the Mortgage), consists, when used with respect to property additions not subject to an unfunded prior lien, of the lesser of cost or (as to property additions not previously retired) fair value of all gross property additions not subject to an unfunded prior lien, less (i) all retirements of property of such character, other than property released by the Trustee, (ii) the excess, if any, of the bonded cost of property of such character released by the Trustee over the fair value thereof at the time of release, (iii) an amount equal to the amount of cash deposited upon release of property of such character, withdrawn on the basis of property additions of such character or applied to sinking fund payments, if any, and (iv) an amount equal to ten-sevenths (10/7ths) of the amount of additional Bonds theretofore authenticated on the basis of property additions, and ten-sevenths (10/7ths) of the amount of cash deposited against the issue of additional Bonds, theretofore withdrawn on the basis of property additions.

"Bonded Cost" when used in respect of retirements consists of (i) in the case of property owned on April 1, 1936, the book value thereof on that date, and (ii) in the case of property additions, the amount at which previously certified to the Trustee for the purpose of the issue of additional Bonds under the Mortgage or of additional unfunded prior lien bonds under the mortgage securing such prior lien bonds or for the purpose of withdrawal of cash.

An "unfunded prior lien", (as is more fully defined in Article I of the Mortgage) is a prior lien not constituting a "funded prior lien", or a "permitted lien" or a judgment lien. The First Mortgage of X Company[1] is a permitted lien.

A "funded prior lien", (as is more fully defined in Article I of the Mortgage) comprises any prior lien with respect to which cash and prior lien bonds in an amount sufficient to retire all prior lien bonds secured by such prior lien have been deposited with the Trustee under the Mortgage or with the trustee or other holder of such prior lien; and bonds secured by such prior liens are regarded as having ceased to be "outstanding" as that term is used in the Mortgage and under this caption.

Release of property. The Company is permitted, as is more fully provided in the Mortgage, to obtain the release of property (other than prior lien bonds or of X Company bonds) (a) upon depositing an amount of cash, purchase money obligations or obligations of any municipality or other governmental subdivision which may be the purchaser, equivalent to the fair value of the property to be released (less the principal amount of any outstanding prior lien bonds, if all property of the company subject to the prior lien securing them is being released), which deposit shall be made with the Trustee (or with the trustee of any prior lien to which such property released may be subject, except when all the property subject to the prior lien is being released), and (b) upon filing a certificate of an engineer, who may be employed by or affiliated with the Company, stating the fair value of the property to be released and that the release is desirable in the proper conduct of the business, or is otherwise in the best interests of the Company, which certificate is to be supplemented as to the desirability of the release by an independent engineer's certificate if the fair value of the property to be released is over $500,000, and (c) upon filing certain other certificates and opinions as provided in the Mortgage with respect to the property to be released and obligations to be acquired. The Company is permitted, as is more fully provided in the Mortgage, to obtain the release of prior lien bonds, secured by a funded prior lien, or of bonds secured by the First Mortgage of X Company, only if all property subject to such lien has been released from the lien of the Mortgage, upon deposit with the Trustee of an amount of cash equal to the principal amount of such bonds being released. All bonds held by the Trustee and secured by a funded prior lien or by the X Company mortgage shall, at the request of the Company, be surrendered for the purposes specified, if all indebtedness secured thereby is discharged. The Company may require prior lien bonds, secured by a funded prior lien, to be cancelled or to be surrendered for the purpose of any sinking fund or analogous fund, with respect to such prior lien bonds, and may require the tender of X Company bonds for purchase by the trustee under the mortgage securing such bonds out of the proceeds of property released from that mortgage, but any money received therefore are to be held by the Trustee as part of the trust estate. Except in the case of default, no payment by way of interest or principal or otherwise, upon funded prior lien bonds or upon such X Company bonds held by the Trustee, shall be required unless the Company so elects, in which event the Company is to receive the payments.

The Trustee is permitted to release any property taken by eminent domain or purchased by a municipality or other governmental subdivision, pursuant to right of pur-

[1] "X Company" refers throughout this opinion to a company the property of which had been acquired by the registrant. Bonds of X Company in a principal amount of $500,000 were secured by a first lien on such property. A principal amount of $231,000 of such bonds were pledged as security for the present issue.

chase, and the proceeds of such property shall be paid to the Trustee to be held as a part of the trust estate or to any trustee of a prior lien as their interests may appear.

The proceeds of released property deposited with the Trustee may be withdrawn:

(a) In an amount equal to the "net release value of the property additions" acquired on or subsequent to the date of the release application, but no cash deposited upon the release of property not subject to an unfunded prior lien may be withdrawn upon the basis of property additions subject to an unfunded prior lien.

(b) In an amount equal to ten-sevenths (10/7ths) of the amount of Bonds issued under the Mortgage and thereafter retired (except out of the trust estate) and surrendered to the Trustee, and not theretofore made the basis for the issue of additional Bonds,

(c) In an amount equal to three-sevenths (3/7ths) of the amount of Bonds theretofore redeemed out of moneys held in the trust estate other than out of moneys deposited upon the issue of additional Bonds, and

(d) In an amount equal to ten-sevenths (10/7ths) of the amount of any of the $2,000,000 of Bonds, referred to above under "Issuance of Additional Bonds", with respect to which the Company shall have surrendered its right to have Bonds issued.

Such proceeds may also be credited to the Company on account of any sinking fund payments in cash required to be made by the Company and for the purchase by the Trustee of Bonds for any sinking fund.

Any proceeds of insurance deposited with the Trustee may be withdrawn on the same basis outlined above under (a) and (b), and also upon the basis of replacements of the property lost or destroyed.

"Net release value of property additions" (as is more fully defined in Article I of the Mortgage) means the lesser of cost or fair value of gross property additions acquired on or subsequent to the date of the release application, less or destruction of the property on account of which the cash withdrawn was deposited, less the amount of such cash theretofore withdrawn on the basis of such property additions, and, in case such property additions are subject to an unfunded prior lien, less ten-sevenths (10/7ths) of the principal amount of the outstanding prior lien bonds secured thereby.

Cash deposited upon the release of fixed property not of the nature of property additions may be withdrawn in an amount equal to the lesser of the cost or fair value of other fixed property not of the nature of property additions acquired on or subsequent to the date of the application for such release.

Cash deposited with the Trustee upon the issue of additional Bonds may be withdrawn:

(a) In an amount equal to seventy percent (70%) of the net bondable value of property additions not subject to any unfunded prior lien, or

(b) In an amount equal to the amount of Bonds retired (except out of the trust estate) and surrendered to the Trustee and not theretofore made the basis for the issue of additional Bonds.

Cash deposited against any prior lien bonds may be paid over to the trustee or other holder of the mortgage securing such prior lien bonds at maturity or upon redemption thereof, and cash deposited on account of any prior lien bonds or X Company bonds or any judgment lien may be paid over to the Company (a) whenever the instrument securing such bonds is released or the judgment lien shall have been discharged, upon receipt by the Trustee of the resolution, certificate and opinion provided in the Mortgage, and (b) in the case of cash deposited on account of prior lien bonds (plus any cash deposited on account of interest and premium on such prior lien bonds), to the extent that any such bonds shall have been paid, reduced, or ascertained by judicial determination to be invalid or additional prior lien bonds of the same issue are deposited with the Trustee, upon receipt by the Trustee of the resolution and certificate provided in the Mortgage.

The Trustee is required, upon request by the Company, to apply any moneys held by it (other than on account of prior lien bonds or judgment liens) to the purchase or redemption of Bonds outstanding under the Mortgage.

"Trust estate" means the property subject to the lien of the Mortgage, including cash deposited upon the issue of additional Bonds or upon the release of property or as the proceeds of insurance.

No notice to bondholders required. No notice to Bondholders is required in connection with any substitution or release of property under the terms of the Mortgage.

For the purposes of a prospectus, the foregoing is manifestly too meticulous. Reduction to a readable summary involves chiefly the omission of immaterial detail.

The basic principles of the indenture concerning release are relatively simple. A statement in clear terms of those principles is all that is requisite. The prospectus in question, however, goes beyond such essentials, in that it contains details which are of a mechanical nature or relate to property of minor importance.

For example, considerable space is devoted to the withdrawal of cash deposited under various circumstances. It may be assumed that cash will not ordinarily constitute, for any appreciable length of time, a significant part of the underlying security. There are, however, numerous provisions concerning the deposit and withdrawal of cash, which are to facilitate the administration of the mortgage. Thus, cash may be deposited upon the release of property and later withdrawn when additional property is acquired. Similarly, in case of refunding, cash may be deposited upon the issuance of additional bonds and later withdrawn upon the retirement of bonds previously outstanding. The basic principle applicable is that, upon the withdrawal of deposited cash, the same ratio between bonds and property shall exist as if there had been no such intermediate deposit. The details of the intermediate operations would seem immaterial; they tend to confuse rather than enlighten.

A further instance is the statement concerning prior lien bonds. At the time of the issue there were no prior lien bonds, as the term is used in the indenture. As is usual the mortgage provides that, on the basis of property additions, additional bonds may be issued or property released. If the property addition is subject to a prior lien, it is nevertheless to be treated as not so subject, provided prior lien bonds and cash are deposited equal to the full amount of the prior lien. Under the indenture, prior lien bonds are to become a part of the trust estate only in this manner, which assures the means of discharge of the lien. The release provisions concerning the prior lien bonds so made a part of the trust estate are merely to assure the discharge thus initially provided for. They are mechanics of operation, and, as such, should be sought in the indenture rather than in the prospectus.

An answer in the following form contains the essential provisions set forth in the above quotation and complies fully with the requirement of the Securities Act and the Rules and Regulations:

Property may be released from the lien of the mortgage in an amount equivalent to:

(a) Additions made to the Company's utility plant on or after the date of the application for release;

(b) Cash, purchase money obligations on released property, or obligations of governmental purchasers of such property, deposited upon such release;

(c) 10/7ths of any of the $2,000,000 of additional bonds which are issuable without property additions and as to which the right of issuance is surrendered.

The value of the released property is determined by an engineer who may be employed by or affiliated with the company.

For the above purposes, additions to the utility plant do not include transportation properties, nor do they include property subject to a prior lien unless provision is made for satisfaction of such lien or the released property was subject to a prior lien.

No notice to bondholders is required in connection with any substitution or release of property.

Detailed provisions more precisely defining the foregoing matters, and provisions concerning releases of an incidental nature, such as those concerning prior lien bonds, cash, and proceeds of insurance, are contained in Articles I, IV, VI, VII and VIII of the Mortgage.

[Securities Act Release No. 1580, October 19, 1937]

§ 231.1862 *Opinion of General Counsel relating to Rule 142 (17 CFR, 230.142).*

Rule 142 was adopted in recognition of the value of secondary capital in facilitating the flow of investment funds into industry, and of the fact that the owners of such secondary capital cannot practicably perform the duty of thorough investigation and analysis imposed by the act of the underwriter proper. The rule in no way limits the responsibility of the underwriter who actually serves as a conduit for the distribution of securities to the public, or of the underwriter who for a commission agrees with the issuer to purchase what the issuer is unable to sell to the public—thereby furnishing to the issuer the insurance without which the distribution would probably not be undertaken. The purpose of the rule is merely to make clear, what has admittedly been the subject of some debate in the past, that a person who does no more than agree with an underwriter to take over some or all of the undistributed portion of the issue, and who purchases for investment any securities which his commitment thus obliges him to take up, does not thereby subject himself to liability as an underwriter of the securities of the issue actually distributed to the public.

In considering the application of the rule to particular situations, it should be appreciated that it applies only to persons whose connection with a distribution is essentially non-distributive in character. Any person enjoying substantial relationships with the issuer or underwriter, or engaging in the performance of any substantial functions in the organization or management of the distribution, would be outside the scope of the rule. Basically, the rule is designed to cover the conditional purchaser who, in spite of the conditional nature of his contract, is primarily interested in securing a portion of the issue for investment, and finds his incentive not in a commission based on the size of the issue or other similar factors, but in the investment advantage afforded by a discount from the public offering price. Disproportionate commissions or service fees would raise a serious doubt whether the functions of the person concerned were in fact confined as prescribed in the rule, for such disproportionate commissions or fees would tend strongly to show that such person was primarily interested as an "underwriter" in the distribution.

Some question will undoubtedly be raised as to the meaning of the term "purchases * * * for investment", as used in the rule. The application of this term is of course to be ascertained in any given case by reference to the intention of the purchaser at the time of purchase. What his intention was at that time is a question of fact.

Although it is not impossible to conceive of a situation in which a person who had purchased securities for investment changed his mind in good faith on the next day, and proceeded to dispose of the securities, it must nevertheless be remembered that a state of mind can ordinarily be ascertained only by weighing evidentiary factors, and that a person's actions may be of far greater evidentiary significance than his statements as throwing light on what his state of mind was at a given time. Thus, self-serving statements that a particular purchase was made for investment would carry very little weight in the face of more concrete facts and circumstances inconsistent with such an intention.

Most prominent among the relevant evidentiary factors would undoubtedly be the length of time elapsing between the acquisition of the securities and their proposed resale. Although retention of the securities for any given length of time would in no event be conclusive, it is obvious that the longer they were held the easier it would be to maintain that they had originally been purchased for investment; and it is my opinion that if they were retained for a period as long as a year that fact would be sufficient, if not contradicted by other evidence, to create a strong inference that they had been purchased for investment. However, such an inference would be rebuttable; for example, it would fail in the face of evidence of a pre-arranged scheme to effect a distribution at the end of the year.

Another factor which may be of considerable importance is the character of the regular business of the person who seeks to come within the rule. Thus, I have little doubt that insurance and investment companies not ordinarily engaged in the business of dealing in securities or underwriting distributions could quite readily sustain the burden of proof that they had purchased for investment. On the other hand, in the case of a securities dealer or an investment banking house, the nature of the business ordinarily carried on would create an extremely strong presumption of purchase for resale. It is perhaps possible that a person engaged in the investment banking business or in the securities business might, under some circumstances, come within the provisions of the rule; but in order to reach this result it would be necessary to establish by the clearest kind of evidence that the scope and character of the person's business were consistent with the purchase of large blocks of securities for investment rather than with a view to distribution.

[Securities Act Release No. 1862, December 14, 1938]

§ 231.1934 *Letter of General Counsel concerning the services of former employees of the Commission in connection with matters with which such employees became familiar during their course of employment with the Commission.*

I have your recent letter, in which you inquire whether you may properly make use of the advice and assistance of an attorney formerly employed by this Commission in a matter with which he became familiar while on the Commission's staff.

Before taking up the specific situation described in your letter, I should like to express my general opinion, that any use of the services of a former employee of the Commission in a matter with which he was connected during his employment by the Commission, even though such former employee does not himself appear before the Commission, or take any part in discussions with its staff, would constitute grounds to disqualify from practice before the Commission not only the former employee but also his employer. The Commission is fully conscious of the serious consequences which may be caused by any deviation on the part of former employees from the most rigid standards of professional ethics in matters of this character, and intends to deal vigorously with any such cases that come to its attention.

In your letter you direct my attention to the fact that the Commission recently issued a stop order under Section 8 (d) of the Securities Act of 1933, suspending the effectiveness of a registration statement filed under that Act by the X. Y. Corporation, for which you are counsel. The company desires to amend the registration statement in accordance with the stop order, and you have requested a conference with members of the Commission's staff for the purpose of discussing the form and substance of these amendments. In preparing for this conference, you desire to make use of the services of Mr. A. B., a former employee of this Commission, and now an associate of your law firm. Mr. A. B. himself will neither be present at the conference nor otherwise "practice before" the Commission, within the meaning of the Commission's Rules of Practice.

The Commission's files indicate that, when he was employed by the Commission, Mr. A. B. was assigned to the Registration Division and acted as attorney for the examining group which considered the registration statement of the X. Y. Corporation to which I have referred.

The question presented is the application of Rule II (e) of the Commission's amended Rules of Practice (17 CFR § 201.2 (e), which reads as follows:

(e) The Commission may disqualify, and deny, temporarily or permanently, the privilege of appearing or practicing before it in any way to, any person who is found by the Commission after hearing in the matter

(1) Not to possess the requisite qualifications to represent others; or

(2) To be lacking in character or integrity or to have engaged in unethical or improper professional conduct.

At the time it announced the amended Rules of Practice the Commission made the following statement concerning practice by former employees of the Commission and the present employers of such former employees (Securities Act Release No. 1761):

"Under the amended Rules of Practice any former member of the staff of the Commission who shall appear in a representative capacity in any matter, including an investigation conducted by the Commission, which was pending before the Commission, during the period of his employment and with which matter he has, by virtue of his employment with the Commission, such familiarity as to be prejudicial to the proper conduct of the case, or in which matter he acted for the Commission in such a way as to make unethical his subsequent connection therewith, and any person employing the services of any such former member of the staff in such matters, without first obtaining the consent of the Commission, may be held to be lacking in proper professional conduct."

This statement of policy is based upon the principle enunciated in Canons 36 and 37 of the Canons of Professional Ethics of the American Bar Association.

Inasmuch as the registration statement of the X. Y. Corporation was pending before the Commission at the time Mr. A. B. was in the Commission's employ, your availing yourself of his services in this matter without having obtained the consent of the Commission would in my opinion justify the institution of disqualification proceedings, pursuant to Rule II (e) (2), against both Mr. A. B. and yourself.

Although you did not expressly request it, I have, in accordance with our practice, considered your letter as an application for consent to make use of Mr. A. B.'s services in this matter and have discussed the circumstances with the Commission. The Commission has instructed me to advise you that, in view of Mr. A. B.'s close connection with the registration statement of the X. Y. Corporation during his service with the Commission in a responsible position, consent to your using his services in this matter must be denied.

Permit me to thank you for so promptly calling this situation to our attention and to assure you that none of the statements I have made in this letter is intended as a personal reflection upon either Mr. A. B. or yourself.

[Securities Act Release No. 1934, April 5, 1939]

§ 231.2029 *Letter of General Counsel relating to sections 3 (a) (9) and 4 (1).*

You have requested an opinion as to the applicability of section 3 (a) (9) and the second clause of section 4 (1) of the Securities Act of 1933 in the following circumstances:

The subject company has an "open end" mortgage upon its properties, the only issue of bonds now outstanding thereunder being denoted as Series A bonds. It is proposed to create two new series of bonds under the mortgage, to be called Series B and Series C bonds respectively, for the purpose of refunding the outstanding bonds. The Series B and Series C bonds will differ substantially from each other in respect of maturity date, interest rate, redemption prices and default provisions.

The Series B bonds will be offered in exchange to the holders of the outstanding Series A bonds on the basis of an equal principal amount of Series B bonds for those of Series A, with interest adjustment. No commission or other remuneration will be paid or given, directly or indirectly, for soliciting such exchange.

The necessary funds to redeem any unexchanged Series A bonds will be raised by the sale for cash of Series C bonds. The Series C bonds will be offered and sold to not more than twelve insurance companies, which will agree to purchase for investment and without a view to distribution.

If the proposed exchange offer and the proposed cash offer were isolated transactions, it would be clear that no registration under the Securities Act would be required. The Series B bonds would be exempted as securities "exchanged by the issuer with its existing security holders exclusively where no commission or other remuneration is paid or given directly or indirectly for soliciting such exchange;" and the offering and sale of the Series C bonds would be exempted by the second clause of section 4 (1), as "transactions by an issuer not involving any public offering." The interdependence of the two offerings, however, requires a more comprehensive analysis of the Act.

Section 3 (a) (9) contains no language expressly limiting the exemption to securities forming part of an issue the whole of which is sold as specified in the exempting provision. At first reading, therefore, section 3 (a) (9) appears to confer exemption upon any security exchanged with the issuer's existing security holders, even though other securities of the same class, as a part of the same plan of financing, are sold to others than existing security holders, or to existing security holders otherwise than by way of exchange. Such a construction, however, gives insufficient weight to the use of the word "exclusively," as employed both in section 3 (a) (9) and in its predecessor, former section 4 (3). In neither section is the grammatical function of the word entirely clear; but in order to avoid an interpretation which would reject the word as pure surplusage, it is necessary to adopt the view that the exemption is available only to securities constituting part of an issue which, as a whole, is exchanged in conformity with the requirements of the section.

This conclusion appears to be supported by the legislative history of section 3 (a) (9). At the time of the amendment of the Securities Act of 1933 by Title II of the Securities Exchange Act of 1934, the new section 3 (a) (9) proposed in H. R. 9323 as a substitute for the first clause of Section 4 (3), provided an exemption from registration for

"any security issued by a person where the issue of which it is a part is exchanged by it with its own security holders exclusively." The proposed amendment was altered in conference so as to eliminate any reference to the "issue" of which a security is a part; but it appears from the Statement of the Managers on the Part of the House in the Conference Report that the changes in the proposed section 3 (a) (9) made in conference were "intended only to clarify its meaning" (H. R. (Conf.) Rep. No. 1838, 73rd Cong., 2nd Sess., p. 40).

Interpretation of the so-called "private offering" exemption provided by the second clause of section 4 (1) presents similar considerations. You will note that the clause in question does not exempt every transaction which is not itself a public offering, but only transactions "not involving any public offering." Accordingly, I am of the opinion that the exemption is not available to securities privately offered if any other securities comprised within the same issue are made the subject of a public offering.

It appears, therefore, that both with respect to section 3 (a) (9) and with respect to section 4 (1) the necessity of registering the Series B and Series C bonds depends upon whether they should be deemed separate issues or merely parts of a single issue: I believe it unnecessary at this time to enter into any extended discussion of what constitutes an "issue" for the purposes of the Act. The opinion of the Commission in In the Matter of Unity Gold Corporation (Securities Act Release No. 1776) discusses this question as it arises under section 3 (b) of the Act. The point is also touched upon, at least inferentially, in the discussion of section 3 (a) (11) contained in Securities Act Release No. 1459. Whatever may be the precise limits of the concept of "issue" when all securities involved are of the same class, I do not believe that securities of different classes can fairly be deemed parts of a single "issue." Since on the facts submitted the Series B and Series C bonds appear to be securities of different classes, they constitute separate "issues," and may be offered and sold in the manner above described without being registered under the Securities Act.

In expressing this opinion I do not mean to imply that any difference in the incidents of two blocks of securities, however trivial, renders the blocks separate classes and consequently separate "issues" for the purposes of the Act. In this case, however, the differences between the Series B and Series C bonds are, I believe, sufficiently substantial to warrant treating them as separate classes even though they will be issued under the same mortgage indenture.

[Securities Act Release No. 2029, August 8, 1939]

§ 231.2340 *Statement of Commission policy with respect to the acceleration of the effective date of a registration statement.*

The Congress having amended Section 8 (a) of the Securities Act of 1933 to confer upon the Commission discretion to accelerate the effective date of registration statements filed under the Securities Act of 1933, the Commission declares that, pursuant to such discretionary authority, it will be the general policy of the Commission to accelerate the effective date of registration statements filed under the Securities Act of 1933 in accordance with the following procedure:

In determining the date on which a registration statement shall become effective, the Commission will consider, having due regard to the public interest and the protection of investors,

(a) The adequacy of the disclosure and compliance with the requirements of the Act, and compliance with the applicable form and instruction book and rules pertaining thereto at the time the registration statement is initially filed;

(b) The advisability of permitting the acceleration of material amendments filed after the initial filing date; and

(c) The character and date of information previously or concurrently filed under any Act Administered by the Securities and Exchange Commission or by any other Federal Agency or which is generally available to the public.

It is expected that examination by the Commission of registration statements and amendments (if any) which have been prepared with due regard to the matters set forth in (a) above, will ordinarily be completed within a few days after the filing date, so that as soon as an appropriate amendment correcting the deficiencies, if any, and an amendment setting forth the price, if the price and terms of offering were not set forth in the statement as initially filed, (or matters relating to price such as redemption or sinking fund, call prices, conversion prices or such other matters relative to price or terms of offering as the Commission may by rules and regulations determine) are filed, the Commission will, subject to the above statement of policy and the requirements of the Act, consent to the filing of the amendments and declare the statement effective as soon as practicable.

The requirements of the Trust Indenture Act of 1939 have materially increased the examination work of the Registration Division of the Commission with respect to registration statements of securities to be issued under indentures which must be qualified under that Act. It will further the effectuation of the above policy if drafts of such indentures are submitted in reasonably final form for consideration and discussion with the staff as far as possible in advance of the actual filing of the registration statement.

The Registration Division of the Commission has, in the past, made its services available to proposed issuers of securities and their counsel and accountants in order to give them advice with respect to questions which might arise in connection with the preparation of registration statements. The Commission will continue this service insofar as possible and will endeavor to assist proposed registrants, in advance of filing, in the solution of specific technical questions which may arise.

It will be the Commission's policy to cooperate with registrants in order that the effectiveness of registration statements filed under the Securities Act may be expedited as much as possible consistent with the public interest and the protection of investors.

For additional guidance, consultation with the Commission at or before the time of filing may enable the Commission, whenever possible, to indicate the approximate date on which registration may become effective.

[Securities Act Release No. 2340, August 23, 1940]

§ 231.2623 *Opinion of General Counsel concerning the application of the third clause of section 4 (1) in various situations.*

I have been asked to express my opinion as to the circumstances under which brokers and dealers must use prospectuses in connection with trading in the securities of American Telephone and Telegraph Company covered by the registration statement which became effective under the Securities Act on July 15, 1941.

In order to make my discussion more clearly understandable in its application to the various concrete situations which may arise, I shall first describe briefly the nature of the offering in question. The registration statement covered $233,584,900 in principal amount of debentures of the Company, proposed to be offered by the Company pro rata to its existing stockholders, without the intermediation of any underwriters. The statement covered also full and fractional warrants which the Company proposed to deliver to its stockholders in evidence of their right to purchase debentures from the Company. These warrants were to be issued to all stockholders of record at the close of business on July 25, 1941, and the registration statement specified that the warrants would actually be issued to stockholders on or about August 4, 1941. The warrants by their terms were required to be exercised on or before August 29, 1941. Pursuant to an order of the Commission entered on July 11, 1941, the registration statement became effective at 4:45 P. M., E. S. T., on July 15, 1941. So far as practicable, prospectuses were made generally available by the Company on July 16, 1941.

Before discussing the legal requirements which have been applicable since the registration statement became effective, I should like to point out that until the statement became effective it was illegal for any broker or dealer to use the mails or instrumentalities of interstate commerce to offer or sell either the debentures or the warrants on a when-issued basis. This was clearly stated in a release published by the Commission on July 9, 1941 (Securities Act Release No. 2613). Apparently, it was not sufficiently understood that the prohibition of the statute extended not only to offers and sales for immediate execution, but also to solicitations of orders which were not to be given and executed until after the effective date of the statement. Thus, a circular distributed by a broker or dealer to his customers, describing the debentures and the rights and suggesting that he would be glad to receive and execute orders after the statement became effective, was no less a violation of the statute than a circular inviting the immediate submission of orders before the effective date. The same would be true even if the circular carried a "hedge clause" specifically disclaiming any intent to solicit orders. If the circular in fact constituted a solicitation of orders it could not be brought within the law by mere formal disclaimers.

Now that the statement has become effective, there is no prohibition against offering rights or debentures, or soliciting orders to buy them, whether on a when-issued or an issued basis. However, the Act requires that if any prospectus relating to a registered security is transmitted through the mails or in interstate commerce, that prospectus must be in the form of, or accompanied or preceded by, the formal prospectus filed by the issuer with its registration statement. (For convenience, I shall call this prospectus a "formal prospectus." In the Act it is referred to as a "prospectus that meets the requirements of section 10.") Furthermore, even if in a particular sale no use is made of the mails or interstate commerce to offer the security, or to solicit orders to buy it, the security itself must still be accompanied or preceded by the formal prospectus when the security is delivered through the mails or in interstate commerce.

In applying these principles to particular situations, brokers and dealers should appreciate that the term "prospectus" as used in the Securities Act covers more than the kind of formal document which the layman ordinarily has in mind when he uses the term. Under the Act a "prospectus" includes every kind of written communication which attempts or offers to dispose of, or solicits an offer to buy, a security for value, or which constitutes a contract of sale or disposition of a security for value. If the term "prospectus" is construed in accordance with its language and spirit, it must in my opinion be read to cover any document which is designed to procure orders for a security, or to effectuate the disposition of a security, whether or not the document purports on its face to offer the security for sale, or otherwise to dispose of it for value.

In the light of these general principles let me discuss concrete examples which will illustrate in greater detail the application of the prospectus requirements of the Act to transactions occurring after the effective date of the registration statement.

Question 1.—John Doe, a dealer, writes a letter to Richard Roe, one of his customers, offering him warrants, on a when-issued basis, for ten $100 debentures. Must John Doe send a copy of the formal prospectus with his letter?

Answer.—Yes. John Doe's letter itself falls within the broad definition of "prospectus" in the Act. As such, it must, in order to comply with the Act, either be in the form of the formal prospectus—which it obviously is not—or else be preceded or accompanied by a formal prospectus.

Question 2.—Instead of writing a letter to Richard Roe, John Doe calls him on the telephone and offers him the warrants. Richard Roe accepts; and John Doe thereupon mails him a confirmation of the sale. Must John Doe send a copy of the formal prospectus with his confirmation?

Answer.—Yes. The term "prospectus" is defined in the Act broadly enough to include within its meaning an ordinary confirmation; and since the confirmation is not itself a formal prospectus, it, like the offering letter in Question 1, must be accompanied or preceded by a formal prospectus.

Question 3. John Doe happens to know that his customer, Richard Roe, is already a stockholder of American Telephone and Telegraph Company, and has therefore already received a prospectus from the Company itself. Must John Doe still, in the situation described in Questions 1 and 2, send Richard Roe a formal prospectus?

Answer. Yes. In requiring that a letter offering registered securities, or a confirmation, must be accompanied or preceded by a formal prospectus, the Act requires further that this formal prospectus shall have been sent or given—not by *anyone*, but by the person who sent the letter or confirmation, or by his principal. John Doe is not acting for American Telephone and Telegraph Company. Consequently, the fact that Richard Roe has received a prospectus from American Telephone and Telegraph Company does not affect the responsibility that John Doe has to comply with the prospectus requirements.

Question 4. On August 5, 1941, John Doe telephones Richard Roe, his customer, and states that he has warrants for ten $100 debentures, and will be glad to sell them to Richard Roe. Richard Roe accepts the offer. John Doe thereupon immediately puts the warrants in an envelope, and mails them to Richard Roe. Must John Doe enclose also a copy of the formal prospectus?

Answer. Yes. The Act requires that registered securities, when delivered through the mails or in interstate commerce, shall be preceded or accompanied by a formal prospectus; and since John Doe made an oral offer, without sending a formal prospectus, he must send one with the warrants.

Question 5. In the course of the conversation described in Question 4, Richard Roe mentions that he is already a stockholder of American Telephone and Telegraph Company, and so has received a copy of the prospectus. Must John Doe nevertheless send him another copy?

Answer. No. In requiring that securities, when delivered, be accompanied or preceded by a prospectus, the Act does not require that the prospectus shall have been sent or given by the person making the delivery. It is enough that the purchaser shall already have received a prospectus from some source. (Owing to the particular wording of the Act, this situation must be carefully distinguished from the case in Question 3.)

Question 6. John Doe, a broker, receives an unsolicited telephone call from Richard Roe, asking him to purchase for Richard Roe's account warrants for ten $100 debentures. John Doe does so, and sends them to Richard Roe by mail. Must he send a copy of the prospectus with the warrants?

Answer. No. The prospectus requirements of the Act do not apply to unsolicited brokers' transactions, whether executed on an exchange or over the counter.

Question 7. Richard Roe telephones John Doe, his broker, and states that he has certain warrants which he would like John Doe to sell for his account. John Doe does so, and sends him a confirmation of the transaction. Must John Doe at the same time send him a copy of the prospectus?

Answer. No. In confirming a sell order on a brokerage basis, John Doe is not within the prospectus requirements of the Act.

Question 8. Pursuant to the sell order received in Question 7, John Doe sells Richard Roe's warrants to Henry Hoe, another dealer, who purchases for his own account. Must John Doe, in confirming the sale to Henry Hoe, or in delivering the warrants to him, send him a copy of the prospectus?

Answer. No. John Doe, in making the sale, is completing the execution of an unsolicited brokerage order, and therefore is exempt from the prospectus requirements.

Question 9. John Doe writes to his customer Richard Roe, whom he knows to be a stockholder of American Telephone and Telegraph Company and offers to sell for him the warrants he has received. Must John Doe send Richard Roe a formal prospectus with his letter?

Answer. No, since he is offering to sell *for* him, not *to* him.

Question 10. As a result of the letter described in Question 9, Richard Roe gives John Doe a sell order, and John Doe sells the rights to Henry Hoe. When he mails the warrants to Henry Hoe, must he send a copy of the prospectus with them?

Answer. Yes. The transaction, although on a brokerage basis, results from a solicitation, and consequently the prospectus requirements are applicable to John Doe's sale to Henry Hoe.

Question 11. John Doe writes a letter to Richard Roe, his customer, offering to purchase rights for his account. Must John Doe enclose in his letter a copy of the prospectus?

Answer. Yes. Even though John Doe acts as broker in the transaction, he is soliciting an offer to buy, and is therefore subject to the prospectus requirements of the Act.

In an effort to be of the greatest assistance to brokers and dealers in the practical conduct of their business, I have endeavored to state the foregoing illustrative questions and answers in as non-technical a fashion as possible. Anyone desiring more detailed information as to the statutory basis for the answers I have given, or wishing information as to any situations which I have not covered, is welcome to address a further inquiry to this office.

[Securities Act Release No. 2623, July 25, 1941]

§ 231.2899 *Extract from letter of Director of the Corporation Finance Division to sections 20 and 34 (b).* This release is the same as Investment Company Act Release No. 446. (17 CFR, 271.446) [Securities Act Release No. 2899, February 5, 1943]

§ 231.2955 *Opinion of the Director of the Trading and Exchange Division relating to the violation of the anti-fraud provisions of the Securities Act by manipulation of prices of securities not registered on a national securities exchange.* This release is the same as Securities Exchange Act Release No. 3505. (17 CFR, 241.3505) [Securities Act Release No. 2955, November 16, 1943]

§ 231.2956 *Opinion of the Director of the Trading and Exchange Division relating to the violation of the anti-fraud provisions of the Securities Act in cases of a "syndicate account" while members of the syndicate or selling group are engaged in the retail distribution of such security.* This release is the same as Securities Exchange Act Release No. 3506. (17 CFR, 241.3506) [Securities Act Release No. 2956, November 11, 1943]

§ 231.2997 *Statement of the Commission relating to the anti-fraud provisions of section 17 (a) of the Securities Act of 1933 and sections 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934.* This is the same as Securities Exchange Act Release 3572. (17 CFR, 241.3572) [Securities Act Release No. 2997, June 1, 1944]

§ 231.3000 *Opinion of the Chief Counsel to the Corporation Finance Division relating to section 3 (a) (10):*

You have requested my opinion as to the legality of trading on a when-issued basis in the new common stock proposed to be issued by The Laclede Gas Light Company under a voluntary plan approved by the Commission on May 27, 1944, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 (Holding Company Act Release No. 5071). You have inquired specifically whether the Commission's order approving the plan resulted in exempting such trading from the registration and prospectus provisions of the Securities Act of 1933 by virtue of section 3 (a) (10) of that Act.

I shall speak only of when-issued trading over the counter, because when-issued trading on a national securities exchange is subject to the Commission's Regulation X-12D3 under the Securities Exchange Act of 1934. Under that Act and Regulation registration of a security for when-issued trading on an exchange is subject to various conditions in addition to compliance with the Securities Act of 1933.

It is my opinion that the exemption afforded by section 3 (a) (10) of the Securities Act of 1933 will not be available for any when-issued sales or offers to sell until the date the plan is enforced by the appropriate United States District Court pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935.

Section 5 of the Securities Act of 1933 provides in substance that no person shall sell or offer to sell any security through the mails or in interstate commerce unless a registration statement as to that security is in effect with this Commission and a specified form of prospectus is used. Section 3 (a) (10) of the Securities Act of 1933 exempts from the provisions of Section 5:

"Any security which is issued in exchange for one or more bona fide outstanding securities, claims or property interests, or partly in such exchange and partly for cash, where the terms and conditions of such issuance and exchange are approved, after a hearing upon the fairness of such terms and conditions at which all persons to whom it is proposed to issue securities in such exchange shall have the right to appear, by any court, or by any official or agency of the United States, or by any State or Territorial banking or insurance commission or other governmental authority expressly authorized by law to grant such approval."

In my opinion the terms and conditions of the issuance and exchange of a security are not "approved" within the meaning of section 3 (a) (10) until completion of the total process of approval required in the particular case. The Commission's order approving the Laclede plan specifically provided "That this order shall not be operative to authorize the consummation of transactions proposed in the plan as amended until an appropriate federal district court shall, upon application thereto, enter an order enforcing such plan." In view of this provision, it cannot be said that the terms and conditions of the issuance and exchange of the new Laclede common have as yet been "approved" within the meaning of section 3 (a) (10) of the

Securities Act of 1933. Such approval will not occur until the date of entry of a District Court order enforcing the plan.

Consequently, any dealer who makes use of the mails or any means of interstate commerce to sell or offer to sell new Laclede common "when issued" prior to court enforcement of the plan will violate Section 5 of the Securities Act of 1933. This applies also to any broker who, as a result of the solicitation of a customer's order, sells or offers to sell "when issued" on an agency basis.

I might add that in my opinion the taking of an appeal to the Circuit Court of Appeals from the order of the District Court enforcing the plan, or the institution of further review proceedings in the Supreme Court of the United States, would not render unavailable the exemption under section 3 (a) (10) of the Securities Act, and hence would not affect the legality of when-issued trading, unless the order of the lower court were stayed pending the appeal.

[Securities Act Release No. 3000, June 7, 1944]

§ 231.3011 *Opinion of the Chief Counsel to the Corporation Finance Division relating to section 3 (a) (10).*

You have requested my opinion as to the legality of trading on a when-issued basis in the new debentures and common stock contemplated by the plan of reorganization of • • • and • • • approved by the United States District Court for the Southern District of New York on August 26, 1944, pursuant to section 174 of Chapter X of the Bankruptcy Act. It is my understanding that the plan has not yet been finally confirmed by the court pursuant to Section 221 of Chapter X. Before a confirmation order can be entered, it will, of course, be necessary for the plan to be accepted in writing by two-thirds of each class of creditors of each corporation participating in the plan.

I shall speak only of when-issued trading over the counter, because when-issued trading on a national securities exchange is subject to the Commission's Regulation X-12D3 under the Securities Exchange Act of 1934. Under that Act and Regulation registration of a security for when-issued trading on an exchange is subject to various conditions in addition to compliance with the Securities Act of 1933 and, in the case of a debt security, the Trust Indenture Act of 1939.

It is my opinion that any sales or offers of sale of the new debentures or common stock made through the mails or in interstate commerce prior to final confirmation of a plan under section 221 of Chapter X would violate the registration and prospectus provisions of Section 5 of the Securities Act of 1933. It is my opinion further that any sales or offers of sale of the new debentures made through the mails or in interstate commerce prior to qualification of an indenture with this Commission would violate the provisions of Section 306 of the Trust Indenture Act of 1939.

Section 5 of the Securities Act of 1933 provides in substance that no person shall sell or offer to sell any security through the mails or in interstate commerce unless a registration statement as to that security is in effect with this Commission and a specified form of prospectus is used. Section 306 of the Indenture Act of 1939 provides in substance that no person shall sell or offer to sell any bond or debenture or other debt security through the mails or in interstate commerce unless that security has been or is to be issued under a specified form of indenture which has been effectively qualified with this Commission.

Section 264 of Chapter X of the Bankruptcy Act exempts from the registration and prospectus provisions of Section 5 of the Securities Act of 1933 "any transaction in any security issued pursuant to a plan in exchange for securities of or claims against the debtor or partly in such exchange and partly for cash and/or property • • •." Section 3 (a) (10) of the Securities Act of 1933 exempts from the registration and prospectus provisions of Section 5 of that Act.

"Any security which is issued in exchange for one or more bona fide outstanding securities, claims or property interests, or partly in such exchange and partly for cash, where the terms and conditions of such issuance and exchange are approved, after a hearing upon the fairness of such terms and conditions at which all persons to whom it is proposed to issue securities in such exchange shall have the right to appear, by any court, or by any official or agency of the United States, or by any State or Territorial banking or insurance commission or other governmental authority expressly authorized by law to grant such approval."

Neither of these exemptions applies to the provisions of Section 306 of the Trust Indenture Act of 1939 requiring the qualification of an indenture in respect of any debt security.

So far as the new common stock contemplated by the plan is concerned, it is my opinion that there will be no exemption under either Section 264 of Chapter X of the Bankruptcy Act or section 3 (a) (10) of the Securities Act of 1933 until final confirmation of a plan pursuant to Section 221 of Chapter X. It seems clear that no security can be issued "pursuant to a plan," as required by Section 264, prior to its confirmation under Section 221. It seems clear also that the terms and conditions of the issuance and exchange of the new common stock cannot be said to have been "approved," as required by section 3 (a) (10), until entry of an order of confirmation by the court. As I have stated in an earlier opinion (Securities Act Release No. 3000), in which I considered the similar problem of the applicability of section 3 (a) (10) to a plan approved by this Commission pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 but not yet approved or enforced by a District Court, it is my opinion that the approval contemplated by section 3 (a) (10) is the total process of approval which is required by the particular statute relied upon to grant an exemption under that section. In the case of a reorganization under Chapter X of the Bankruptcy Act, the total process of approval required for the issuance of any security pursuant to a plan is final confirmation by the court under section 221. Neither approval of a plan by the court under Section 174 nor preliminary approval of a plan by this Commission under section 11 (f) of the Public Utility Holding Company Act of 1935 where a public utility holding company is involved, as in the present case, completes the total process of approval required.

What I have said thus far applies to the new debentures as well as the new stock. In addition, since the new debentures are subject to the Trust Indenture Act of 1939 as well as the Securities Act of 1933, and since neither the exemption in section 264 of Chapter X nor the exemption in section 3 (a) (10) of the Securities Act of 1933 applies to the Trust Indenture Act of 1939, a trust indenture for the new debentures will have to be effectively qualified with this Commission before there can be any when-issued trading in the new debentures.

Consequently, any dealer who makes use of the mails or any means of interstate commerce to sell or offer to sell new debentures or common stock on a when-issued basis prior to confirmation of a plan by the court will violate section 5 of the Securities Act of 1933 and section 306 of the Trust Indenture Act of 1939, and any dealer who makes use of the mails or any means of interstate commerce to sell or offer to sell new debentures on a when-issued basis prior to qualification of an indenture will violate section 306 of the Trust Indenture Act of 1939. This applies also to any broker who, as a result of a solicitation of a customer's order, sells or offers to sell "when issued" on an agency basis.

I might add that in my opinion the taking of an appeal from an ultimate District Court order of confirmation would have no effect upon any of the opinions here expressed unless the order of the lower court were stayed pending the appeal.

[Securities Act Release No. 3011, August 28, 1944]

§ 231.3038 *Statement by Commission relating to section 3 (a) (10).*

Although the court's confirmation of the plan exempts both bonds and stock from registration under the Securities Act of 1933, the bonds are not exempt from the necessity of qualifying an indenture under the Trust Indenture Act of 1939. No application for qualification of the indenture for these bonds has as yet been filed with the Commission.

For the reasons stated in Securities Act Release No. 3011 (August 28, 1944), it is the view of the Commission that when-issued trading in these bonds cannot legally be undertaken until an application for qualification of the indenture has become effective under the Act. Moreover, written offers of bonds will be legal thereafter only if made by or accompanied or preceded by a written statement containing an analysis of certain of the indenture provisions as required by section 305 (c) of the Trust Indenture Act.

Sales made in violation of the Trust Indenture Act will subject brokers or dealers to injunctive proceedings, criminal prosecution and other penalties imposed by law.

[Securities Act Release No. 3038, January 4, 1945]

§ 231.3043 *Opinion of Director of Trading and Exchange Division, relating to Section 206 of the Investment Advisers Act of 1940, section 17 (a) of the Securities Act of 1933, sections 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934.* This release is the same as Investment Advisers Act Release No. 40 (17 CFR § 276.40). [Securities Act Release No. 3043, February 5, 1945]

§ 231.3055 *Statement of Commission policy as to acceleration of the effective date of a registration statement where a selling stockholder does not bear his equitable proportion of the expense of registration.*

Section 8 (a) of the Securities Act of 1933 provides that "the effective date of a registration statement shall be the twentieth day after the filing thereof or such earlier date as the Commission may determine, having due regard to • • • the public interest and the protection of investors." In passing upon request for acceleration of the effective date of statements covering securities to be distributed for the account of selling stockholders, the Commission considers that the statutory standard is not met in cases where the selling stockholder does not bear his equitable proportion of the expense of registration, and for that reason will not order acceleration in such cases.

[Securities Act Release No. 3055, April 7, 1945]

§ 231.3061 *Statement of Commission policy as to the acceleration of the effective date of a registration statement in cases where an inadequate "red-herring" prospectus has been issued.*

Section 8 (a) of the Securities Act of 1933 provides that the "effective date of a registration statement shall be the twentieth day after the filing thereof or such earlier date as the Commission may determine, having due regard to the adequacy of the information respecting the issuer theretofore available to the public • • • and to the public interest and the protection of investors." In considering a request for acceleration of the effective date of a registration statement in a case where a "red herring" prospectus which was inaccurate or inadequate in material respects has been circulated the Commission considers that the statutory standards of this section have not been met. Accordingly the Commission will not order acceleration in such a case until it has received satisfactory assurances that by appropriate means the nature of the material amendments to the registration statement have been communicated to those persons to whom the "red herring" prospectus was distributed.

[Securities Act Release No. 3061, April 30, 1945]

§ 231.3115 *Statement by Commission with respect to representations that the Commission has approved the price of a security offered to the public under a registration statement.*

NOTE: Inasmuch as the name of the corporation is not deemed material at this time, it has been deleted from the statement.

The Commission's attention has been directed to the issuance of a press dispatch which states that the Commission had approved the price of $20.25 per share for the common stock of ——— ——— offered to the public on January 23 under an effective registration statement.

The Commission is not empowered under the Securities Act of 1933 either to approve or disapprove the price at which any security is publicly offered. Consequently the statement referred to is inaccurate. Moreover, the Commission under this Act does not have the power to pass upon the merits of any issue of securities.

It is unlawful under the Securities Act to make any representation that the Commission has in any way passed upon the merits of, or given approval to, securities registered with it. The primary object of that Act is to protect investors by requiring full and accurate disclosure of all material facts concerning securities publicly offered for sale.

[Securities Act Release No. 3115, January 24, 1946]

§ 231.3899 *Letter of the Director of the Corporation Finance Division relating to sections 14 and 18.* This release is the same as Securities Exchange Act Release No. 3380. (17 CFR, 341.3380) [Securities Act Release No. 3899, February 2, 1943]

PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER [1]

Sec.

241.21 Excerpt from letter relating to section 16 (a).

241.68 Statement by Commission to correct the erroneous impression created by certain commercial institutions with respect to the necessity of filing reports with the Commission.

241.116 Letter of General Counsel relating to section 16 (a).

241.175 (A) Opinion of General Counsel relating to section 16 (a).

241.227 Excerpt from a general letter relating to section 16 (a).

241.1131 Opinion of the Director of the Division of Forms and Regulations discussing the definition of "parent" as used in various forms under the Securities Act of 1933 and the Securities Exchange Act of 1934.

241.1350 Statement by the Commission with respect to the purpose of the disclosure requirements of section 14 and the rules adopted thereunder.

241.1411 Opinion of the Director of the Trading and Exchange Division relating to Rules X-15C1-6 and X-10B-2. (17 CFR, 240, 15C1-6, 240, 10b-2)

241.1462 Opinion of the Director of the Trading and Exchange Division relating to Rule X-15C1-1 (a). (17 CFR, 240, 15C1-1a)

241.1571 Partial text of letter of February 8, 1938, from the Secretary of the New York Stock Exchange to its members, relating to Rules X-3B-3, X-10A-1 and X-10A-2 (17 CFR, 240, 3b-3, 240, 10a-1, 240, 10a-2), together with a letter from the Director of the Trading and Exchange Division, concurring in the opinions expressed by the exchange.

241.1965 Opinion of the General Counsel relating to section 16 (a).

241.2066 Letter of General Counsel concerning the services of former employees of the Commission in connection with matters with which such employees become familiar during their course of employment with the Commission.

241.2446 Statement of the Commission and separate statement of Commissioner Healy on the problem of regulating the "pegging, fixing and stabilizing" of security prices under sections 9 (a) (2), 9 (a) (6) and 15 (c) (1) of the Securities Exchange Act.

241.2667 Statement of Commission respecting distinctions between the reporting requirements of section 16 (a) of the Securities Exchange Act of 1934 and section 30 (f) of the Investment Company Act of 1940.

241.2690 Statement of Commission issued in connection with the adoption of Rules X-8c-1 and X-15C2-1 (17 CFR, 240, 8C1, 240, 15C2-1) under the Securities Exchange Act of 1934 relating to the hypothecation of customers securities by members of national securities exchanges and other brokers and dealers.

241.2822 Opinion of General Counsel relating to paragraph (b) (2) (ii) of Rules X-8C-1, and X-15C2-1 under the Securities Exchange Act. (17 CFR, 240, 8C-1, 240, 15C2-1)

241.3040 Partial text of letter sent by the Director of the Trading and Exchange Division to certain securities dealers who had failed to keep records of the times of their securities transactions, as required by Rules X-17A-3 and X-17A-4, under the Securities Exchange Act. (17 CFR, 240, 17A-3, 240, 17A-4)

241.3056 Opinion of General Counsel relating to the anti-manipulation provisions of sections 9 (a) (2), 10 (b) and 15 (c) (1) of the Securities Exchange Act as well as section 17 (a) of the Securities Act of 1933.

241.3069 Opinion of the Chief Counsel to the Corporation Finance Division relating to when-issued trading of securities the issuance of which has already been approved by a federal district court under Chapter X of the Bankruptcy Act.

241.3085 Statement of Commission policy with respect to the acceleration of the effective date of a registration statement.

241.3380 Letter of the Director of the Corporation Finance Division relating to sections 14 and 18.

241.3385 Excerpts from letters of the Director of the Corporation Finance Division relating to section 14 and Schedule 14A under Regulation X-14. (17 CFR, 240, 14)

241.3505 Opinion of the Director of the Trading and Exchange Division relating to the anti-manipulation provisions of sections 9 (a) (2), 10 (b), and 15 (c) (1) of the Securities Exchange Act of 1934 and 17 (a) of the Securities Act of 1933.

241.3506 Opinion of the Director of the Trading and Exchange Division relating to the anti-manipulation provisions of sections 9 (a) (2), 10 (b), and 15 (c) (1) of the Securities Exchange Act of 1934 and 17 (a) of the Securities Act of 1933.

241.3572 Statement of the Commission relating to the anti-fraud provisions of section 17 (a) of the Securities Act of 1933 and sections 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934.

241.3638 Letter of the Director of the Corporation Finance Division relating to section 20 and Rule X-14A-7 under the Securities Exchange Act of 1934. (17 CFR, 240, 14A-7)

241.3639 Statement by Commission relating to Section 3 (a) (1).

241.3674 Statement of the Commission in connection with the adoption of certain amendments to Form 3-M, one of the forms for registration of over-the-counter brokers or dealers under section 15 (b) of the Securities Exchange Act of 1934, and to Rule X-15B-2, (17 CFR 240. 15B2) the rule governing the filing of supplemental statements to such applications.

241.3803 Statement by Commission relating to adoption of Rule X-13A-6B. (17 CFR, 240, 13A-6B)

[1] The interpretative opinions included herein are opinions issued in the past for the guidance of the public by members of the Commission's staff (or in a few instances by the Commission) and heretofore made public pursuant to Commission authorization. The opinions are to be read as of the date of original publication and in the context of the rules, statutes and circumstances then existing. However, opinions or portions of opinions which are clearly obsolete have been omitted. While it is not clear that publication of interpretative opinions of this kind in the FEDERAL REGISTER is required, it is believed that such publication may be helpful to the public and that it falls within the spirit of the Administrative Procedure Act.

Where rules referring to an opinion have been renumbered since the issuance of the opinion, the new designations are indicated in brackets.

§ 241.21 *Excerpt from letter relating to Section 16 (a).*

With regard to the monthly reports provided for in Section 16 (a), no reports are to be made except when there has been a change in ownership during a month subsequent to October, 1934. Every change of ownership must be reported even if, as a result of balancing purchases and sales, there has been no net change in holdings over the month. These reports of changes are to be filed on Form 4 directly by officers and directors and by any person who, at any time during such month, has been directly or indirectly the beneficial owner of more than 10 percentum of any class of any equity security (other than an exempted security) registered upon a national securities exchange, even though no such stock is held at the end of the month.

In addition to the monthly reports above discussed, a report must be made following the registration of a security, if such registration is not a temporary registration of a security already listed. In the case of securities temporarily registered, directors, officers, and principal security holders need make no report at the time of registration.

A third type of report required under section 16 is called for in the case where a person becomes a director, officer, or holder of more than 10% of an equity security on or after November 1, 1934, (or at any time on or after October 1, 1934, if the registration is not the temporary registration of a security already listed). In this third type of case, a report must be filed on Form 6, unless, by virtue of being already a member of the class of persons required to make reports with respect to the same security, the holder files a statement on Form 4 for the same month. • • •

The word "person" in the foregoing paragraphs should be construed to cover any individual or corporation, including any holding company, holding stock of the registered company.

If the company where stock is registered has a class of equity stock which is not listed or registered, officers and directors must report any changes of their holdings in the unregistered stock just as they would report such changes in the registered stock.

A person who is not an officer or director of a listed company need not report his holdings and transactions in any unregistered equity security unless he is the holder of more than 10 percent of a registered equity security (other than an exempted security), in which case his holdings and transactions in all of the equity securities of the listed company in which he is a principal stockholder are to be reported. If, however, such stockholder holds more than 10 percent in the unregistered equity security of a listed company and less than 10 percentum in the listed and registered security, no report is necessary.

All of these reports should be made by the director, officer, or stockholder and not by the corporation. They are to be made directly to the exchange and to the Commission.

Note that the definition of "equity security" contained in the Act is broader than that which is ordinarily attributed to the term. It means any stock or similar security, whether preferred or otherwise, or any security, even though it might be a first mortgage bond, which is convertible into an equity security, or which carries any warrant or right to subscribe to or purchase an equity security. It also includes any warrant or right which is detached from other securities, but which conveys the right to subscribe to or purchase an equity security. The Commission may make rules covering other securities which will define them as "equity securities."

To avoid confusion, it should be noted that, although the Act provides that, in applications for registration other than temporary registration of securities already listed the corporations should report each security holder of record holding more than 10 percent of any class of any equity security of the issuer (other than an exempted security); nevertheless the obligation to make individual reports by large stockholders, as distinguished from officers and directors, depends upon the beneficial ownership, directly or indirectly, of such equity stock, and not upon the matter of record.

If any equity security is listed upon more than one exchange, a separate report should be filed with each exchange and a duplicate original of each such separate report with the Commission.

[Securities Exchange Act Release No. 21, October 1, 1934]

§ 241.68 *Statement by Commission to correct the erroneous impression created by certain commercial institutions with respect to the necessity for filing reports with the Commission.*

Where no securities of a corporation are listed or admitted to unlisted trading privileges on any national securities exchange, such a corporation is under no duty to file reports under Section 12 or 13 of the Securities Exchange Act, nor is such a corporation subject to the requirements of Section 14 as to the solicitation of proxies for the voting of its stock. Furthermore, Section 16 does not require reports from such a corporation or from its officers, directors or stockholders as to holdings of or transactions in its stock. Although Section 15 of the Act authorizes the Commission to require registration of securities sold on over-the-counter markets, no such requirements have as yet been promulgated.

[Securities Exchange Act Release No. 68, July 22, 1934]

§ 241.116 *Letter of General Counsel relating to section 16 (a).*

One who is already a director or officer of a company having a class of equity securities registered as listed securities, and who is appointed or elected to the same or a different position, either as officer or director of the same company does not, in my opinion, at the time of such election or appointment, "become" a director or officer within the meaning of section 16 (a) of the Securities Exchange Act and Rule X-16A-1 (17 CFR 240.16a-1)[1] [formerly designated Rule NA1]. Accordingly, it is not necessary for such a director or officer to file a statement on Form 6 by reason of such election or appointment. Of course, this has no bearing on his duty to file Form 4 in case of a change of ownership, or Form 5 at the time of permanent registration, as specified in Rule X-16A-1 (17 CFR, 240.16a-1)[1] [formerly designated Rule NA1].

The Commission also made public the substance of another opinion rendered by its General Counsel, regarding the time at which changes in ownership are considered to occur for the purpose of reports required of directors, officers and principal stockholders under section 16 (a) of the Securities Exchange Act.

In my opinion an officer, director or stockholder is to be deemed to have acquired beneficial ownership of a security at the time when he takes a firm commitment for the purchase thereof, and to divest himself of such beneficial ownership at the time when he takes a firm commitment for the sale thereof. If it is necessary that certain conditions be satisfied prior to the consummation of the purchase or sale, and if it is uncertain whether such conditions will be satisfied, then it would appear that the officer, director or stockholder would not acquire beneficial ownership, or divest himself thereof, until such time as such conditions are satisfied and the undertaking to purchase or sell becomes a firm commitment.

[Securities Exchange Act Release No. 116, March 9, 1935]

§ 241.175 *Opinion of General Counsel relating to section 16 (a).*

There has been presented the question of whether a husband is the beneficial owner of securities held by his wife. The problem is significant in deciding whether such securities should be included by officers and directors in their reports under section 16 and by other persons in computing their ownership for purposes of deciding whether they are the beneficial owners of more than 10% of any class listed and registered equity security.

The mere fact that a wife, as a bookkeeping matter, keeps the securities in her separate estate is not conclusive in determining whether her husband is the beneficial owner of the securities so held, within the meaning of section 16 (a) of the Securities Exchange Act. Whether or not the husband is the beneficial owner of such securities depends upon whether by reason of any contract, understanding, relationship, agreement or other arrangement he has benefits substantially equivalent to those of ownership. The husband would also appear to be the beneficial owner of the securities held by his wife if he has the power to vest or revest in himself the full legal and equitable title at once, or at some future time, without payment of other than a nominal consideration. If the husband has no such benefits or powers, he would not appear to be the beneficial owner of the securities so held.

If securities are held by other members of the family, the same test seems to me appropriate. Attention is called to the fact that although a report includes the holdings of other members of the family of the person filing the report, he may avail himself of the privilege granted by Rule X-16A-3 (d) [formerly designated Rule NA3 (d) (17 CFR, 240.16a-3)] and disclaim that such report is an admission that he is the owner of the securities held in the name of such other members.

[Securities Exchange Act Release No. 175, April 16, 1935]

§ 241.227 *Excerpt from a general letter relating to section 16 (a).*

The application for registration of certain equity securities of the ---------- having become effective, it is required that a report be filed on Form 5 separately by each officer, director, and direct or indirect beneficial owner of more than 10 per cent of any listed equity security of such issuer.

Form 5 must be filed even though the securities, the registration of which has become effective, have been temporarily registered.

This report should disclose the beneficial ownership by the person filing the report, as of the effective date of the registration, of all equity securities of such issuer, whether or not they are listed and registered. In case any director or officer owns no such securities, he should nevertheless file a report on Form 5 expressly stating that he has no such ownership. In this connection your attention is directed to the provisions of Rule 1-16A-1 (c) (17 CFR, 240.16-1) as amended.

If a report is made on Form 4 with respect to equity securities of the same issuer for the month in which registration became effective, no report on Form 5 need be filed.

[Securities Exchange Act Release No. 227, May 14, 1935]

§ 241.1131 *Opinion of the Director of the Division of Forms and Regulations discussing the definition of "parent" as used in various forms under the Securities Act of 1933 and the Securities Exchange Act of 1934.* This is the same as Securities Act Release No. 1376 (17 CFR, 231.1376) [Securities Exchange Act Release No. 1131, April 7, 1937].

§ 241.1350 *Statement by Commission with respect to the purpose of the disclosure requirements of Section 14 and the rules adopted thereunder.*

NOTE: Because the names of the corporations involved are not deemed material at this time, they have been deleted from the statement.

The Commission's Proxy Rules under Section 14 of the Securities Exchange Act of 1934 compel the Commission to require that a certain minima of information must be given to security holders in connection with the solicitation of proxies by corporations, analogous to the disclosure requirements of the Securities Act of 1933. The purpose of these rules is to prevent the dissemination to the security holders and to the general public of untruths, half-truths, and otherwise misleading information which would stand in the way of a fair appraisal of a plan upon its merits by the security holders. The Commission under the Securities Act of 1933 and under its Proxy Rules has no authority to pass upon the fairness or the merits or demerits of any such plan; nor to interfere in the consummation of any such plan where full and complete disclosure has been made. The Commission's authority here (unlike its authority under the Public Utility Holding Company Act of 1935) does not extend to the question of the fairness or equity of any such plan. However, we must insist upon an accurate presentation not only of the details of the plan but of the conditions surrounding the proposal. • • •"

[Securities Exchange Act Release No. 1350, August 13, 1937]

§ 241.1411 *Opinion of the Director of the Trading and Exchange Division relating to Rules X-15C1-6 (17 CFR 240.15C1-6) and X-10B-2 (17 CFR 240.10B-2).*

This will acknowledge receipt of your letter of September 13, 1937, in which, on behalf of several members of the Investment Bankers Conference, Inc., you request my opinion as to the interpretation of Rules MC6 [X-15C2-6] and GB2 [X-10B-2][1] (17 CFR, 240.106-2).

In respect of Rule MC6 [X-15C1-6] you inquire: "What is 'secondary distribution'? Does this mean a secondary operation in the distribution of a new issue, or does it mean any operation, in a new or old issue, where the firm selling owns the security?"

Since the application of this rule is precisely the same whether a broker or dealer is participating or financially interested in a "primary distribution" or in a "secondary distribution," it does not appear necessary for the purpose of explaining the effect of the rule, to attempt a precise definition of a "secondary distribution" as distinguished from a "primary distribution." The crucial question appears rather to be: "Is the broker-dealer participating or financially interested in any type of distribution?" Clearly, a broker-dealer who is conducting "a secondary operation in the distribution of a new issue" would be participating in a distributing activity.

Whether "any operation, in a new or old issue, where the firm selling owns the security" is a distribution, within the intent of the rule, would depend on the facts in each individual case. Wherever the terms "primary distribution" and "secondary distribution" appear in these rules, the terms are used in the ordinary sense in which they are employed by those engaged in the securities business. These terms are intended to exclude the usual type of position trading as contrasted with the distribution of securities. I am further of the opinion that it is unimportant whether the firm effecting the distribution owns the security, has it under option, is acting as agent for some principal, or is merely a member of a selling group so long as financial interest exists on the part of such firm in effecting such distribution.

You next ask in connection with Rule MC-6, [X-15C1-6] (17 CFR, 240.15C1-6): "What is the meaning of the words 'otherwise financially interested'? If a partner of a house has 50,000 shares of XYZ stock listed on the New York Stock Exchange, is his house financially interested in this stock within the meaning of the rule? If a partner has 100 shares listed on the Stock Exchange, is his house financially interested? In other words, does the rule cover the personal ownership of partners as well as the holdings of the partnership?"

In my opinion there is a distinction between a financial interest in a distribution and a financial interest in a security which is the subject of a distribution. It seems to me, for example, quite possible for a member of a firm of brokers or dealers to be financially interested in a security for purposes of investment without either such partner or his firm being financially interested in any distribution which may be taking place in such security. Should, however, the financial interest of a partner or of his firm in such security, because of its extent or for any other reason, create a financial interest on the part of such partner or firm in the success of a distribution, it might well be that the requirements of Rule MC6 [X-15C1-6] (17 CFR 240.15C1-6) would apply. The rule, however, will be found more usually to apply to those situations in which the firm is directly or indirectly receiving a financial return arising from the sale of the security to the public.

In response to your request for an explanation of Rule GB2 [X-10B-2] (17 CFR 240.106-2), permit me to illustrate the application of this rule by suggesting a series of hypothetical situations. It is to be assumed that there is a concurrence of each of the other factors necessary for an application of the rules; hence, the firm designated A & Co. in each of the following illustrations is assumed to be participating or otherwise financially interested in the primary or secondary distribution of the security in question:

(1) A & Co., a securities firm in Chicago, offers to B, a customers' man employed by a San Francisco securities firm, a payment of 25¢ per share for each purchase of stock of the X corporation which B can cause to be effected on the Y exchange. In a typical case of this kind it is not necessary that the purchases be made through A & Co. or that they be filled from any particular block of stock. The payment of 25¢ per share is made upon receipt of a copy of a confirmation evidencing purchase.

(2) A & Co. offers to C, one of its employees, a payment of 25¢ per share for each purchase of stock of the X corporation which C can cause to be effected on the Y exchange.

(3) A & Co. pays a regular salary to D, a customers' man employed by it, for devoting special attention to inducing the purchase of shares of the X corporation on the Y exchange.

(4) A & Co. offers to E & Co., another securities firm, a payment of 25¢ per share for purchasing on the Y exchange for the account of E & Co. as dealer shares of the X corporation, which would be the subject of subsequent resale by E & Co. to others.

(5) A & Co. offers to F & Co., another securities firm, a payment of 25¢ for each share of the X corporation purchased by F & Co. for the account of its customers on the Y exchange.

A & Co. in each of the above examples violates the rule in performing any of the foregoing acts. Moreover, after having performed any of such acts, A & Co. is restrained by the rule from effecting any sale or delivery after sale of the security of X corporation, in furtherance of the distribution in which A is interested. The foregoing examples are merely illustrative of some of the characteristic cases to which this rule is applicable and are not intended to set forth all possible applications of the rule.

I hope that this method of illustrating the application of Rule GB2 [X-10B-2] will prove of assistance to you.

[Securities Exchange Act Release No. 1411, October 7, 1937]

§ 241.1462 *Opinion of Director of Trading and Exchange Division relating to Rule X-15C1-1 (a) (17 CFR, 240.-15C1-1).*

This will acknowledge receipt of your letter of October 5, 1937, wherein you inquire whether, in respect of the over-the-counter rules which became effective as of October 1, 1937, a bank may be considered a "broker" or a "dealer" rather than a "customer".

Rule MC1 (a) [X-15C1-1 (a)] (17 CFR, 240.15C1-1) states that the term "customer" shall not include a broker or dealer. Subsections 3 (a) (4) and 3 (a) (5) of the Securities Exchange Act of 1934 expressly state that the terms "broker" and "dealer" do not include a bank. Since, according to Rule A1 (b) [X-1 (b)], the terms used in the Rules and Regulations promulgated under Title I of the Securities Exchange Act of 1934 shall, unless otherwise specifically state, have the meaning defined in the Act, it follows that Rule MC1 (a) [X-15C1-1 (a)] does not exclude a bank from the term "customer".

In my opinion, therefore, a bank should be considered a customer rather than a broker or dealer for the purposes of the over-the-counter rules. (17 CFR, 240.15C1-1.

[Securities Exchange Act Release No. 1462, November 15, 1937]

§ 241.1571 *Partial text of letter of February 8, 1938, from the Secretary of the New York Stock Exchange to its members, relating to Rules X-3B-3 (17 CFR 240.36-3), X-10A-1 (17 CFR 240.-10a-1) and X-10A-2 (17 CFR 240.10a-2) (rules applicable to short-selling), together with a letter from director of the Trading and Exchange Division, concurring in the opinions expressed by the Exchange.*

FEBRUARY 8, 1938.

NEW YORK STOCK EXCHANGE,
11 Wall Street, New York City.

(Attention: Dean K. Worcester, Esq., Executive Vice-President)

GENTLEMEN: Representatives of your Exchange have discussed with me various problems concerning the operation of Rules X-3B-3 (17 CFR, 240.36-3), X-10A-1 (17 CFR, 240.10a-1), and X-10A-2 (17 CFR, 240.10a-2), relating to short-selling of securities, adopted by the Commission January 24, 1938. They have also submitted to me a draft of a circular proposed to be distributed among the membership of your Exchange, embodying comments and instructions regarding Exchange transactions under these rules, together with interpretations of certain provi-

[1] Redesignation as of September 10, 1938.

[1] The Commission's present Rule X-15C1-6 is substantially identical to former Rule MC-6. Paragraphs (a) through (c) of the present Rule X-10B-2 are identical to Rule GB-2; however, a new paragraph (d) was added to the rule after the date of this opinion, exempting from its prohibitions certain transactions effected pursuant to an effective "special offering" plan filed with the Commission by a national securities exchange.

sions thereof. I understand that this circular is designed to facilitate operation under the rules.

The interpretations proposed to be included in this circular have been the subject of discussion between the Exchange representatives and the staff of the Trading and Exchange Division. As a result of these discussions a revised draft of the circular has been made. I have considered this revision, as it appears in the enclosed copy, and am of the opinion that the interpretative material contained therein is correct and in accordance with the underlying intent of the rules.

If at any time, you have any further questions with respect to the operation of these rules, I shall be glad to receive them and to discuss them with you.

Very truly yours,

GANSON PURCELL,
Director.

NEW YORK STOCK EXCHANGE,
OFFICE OF THE SECRETARY,
February 2, 1938.

To the Members of the Exchange:

Under date of January 24, 1938, the Securities and Exchange Commission promulgated rules X3B-3 (17 CFR, 240.36-3), X-10A-1 (17 CFR, § 240.10a-1) and X-10A-2 (17 CFR, § 240.10a-2) relative to short selling. These rules were sent to members of the Exchange by this office under date of January 26, 1938. They are reprinted on page H-135 of the Directory and Guide. The rules become effective on Tuesday morning, February 8, 1938.

The following comments and interpretations of these rules are intended for the guidance of members and their customers. The Director of the Trading and Exchange Division of the Securities and Exchange Commission has advised the Exchange that in his opinion these comments and interpretations are correct.

1. • • • A "short sale" is defined as (1) any sale of a security which the seller does not own; or (2) any sale which is consummated by the delivery of a security borrowed by or for the account of the seller. Thus, a sale of a security which is owned by the seller becomes a "short sale" if delivery to the purchaser is made by the use of borrowed securities. This may often be the case if the original security is not available in or near New York in negotiable form at the time of sale.

Although the term "short sale" may thus include many sales which would ordinarily be regarded as long sales, the prohibition of the general rule does not apply to (1) any person, whether a member or a non-member, selling a security which he owns and intends to deliver as soon as is possible without undue inconvenience or expense; or (2) any member executing for an account in which he has no interest a sell order marked "long" (see paragraph 4 below); or (3) any sale of an odd lot. Certain additional transactions • • • are exempted.

The general prohibition referred to above has the effect of a criminal law. Any person, including any member or any customer, who effects for his own account or for any other account any "short sale" in violation of the rule, may be guilty of a criminal offense.

2. *Securities subject to the rule.* The rule applies, generally speaking, to all securities dealt in upon any national securities exchange, other than government or municipal securities.

3. *Place of transaction.* The rule applies to any short sale effected by the use of any facility of a national securities exchange. In consequence, it covers all short sales (other than odd lots and other sales exempted by the rule itself) made upon the Exchange, of any security subject to the rule. The rule does not apply, however to sales not made on any national securities exchange.

4. *Marking of orders.* Every sell order (including odd-lots) in a security subject to the rule, which is executed on the Exchange whether originated or handled by a member, must be marked to indicate whether it is "long" or "short". The abbreviations "L" or "S" may be used. A member, (including any floor broker) or any employee may mark an order "long" only if (1) the customer's account is "long" the security involved; or (2) the member or employee is informed that the seller owns the security and will deliver it as soon as is possible without undue inconvenience or expense. To obviate the necessity of hurriedly obtaining the information specified in rule X-10A-2, (17 CFR, 240.10a-2), it is advisable for the member when he receives the order also to obtain information from the seller as to the practicability of then delivering the security. As a method of obtaining such information with respect to an order to sell, a member (including any floor broker) may enter into any bona fide written agreement with his customer that the customer, when placing "short" sell orders, will designate them as such, and that the designation of a sell order as "long" is a representation by the customer to the member that the customer owns the security, that it is then impracticable to deliver the security to such member and that the customer will deliver it as soon as is possible without undue inconvenience or expense.

5. *Ownership of securities.* A person is deemed to own a security if (1) he or his agent has title to it; or (2) he has purchased or has entered into an unconditional contract, binding on both parties, to purchase it but has not yet received it; or (3) he owns a security convertible into or exchangeable for it and has tendered such security for conversion or exchange; or (4) he has an option to purchase or acquire it and has exercised such option; or (5) he has rights or warrants to subscribe to it and has exercised such rights or warrants. He is not deemed to own a security if he owns securities convertible into or exchangeable for it but has not tendered such securities for conversion or exchange, or if he has an option or owns rights or warrants entitling him to such security, but has not exercised them.

Within the meaning of the rules a person "owns" securities only to the extent that he has a net long position in such securities. Thus, if a person maintains two accounts and is short 1000 shares of a security in one and long 1000 shares of the same security in another, any sales of such security by such person are "short sales" and are subject to the provisions of the rules.

6. *Price at which short sales may be made.* [See amended paragraph (a) of Rule X-10A-1 (17 CFR, 240.10a-1)] • • •

When a security is dealt in on two or more national securities exchanges, the last regular way sale price on the particular exchange involved is controlling. • • •

The price which governs the making of short sales is the last regular way sale price regardless of the indentity of the participants therein and regardless of whether it was itself a short sale. • • • Of course, no member may sell short for his own account at any price at which he could not sell short for a customer.

• • • • • •

7. *When issued transactions.* The rules apply to the sale of "when issued" securities in the same manner as issued securities. In the case of a sale of a "when issued" security, the last "regular way" sale price means the last price at which the "when issued" security has sold on the Exchange. A person is deemed to be the owner of a "when issued" security if he has entered into a contract to purchase the same binding on both parties and subject only to the condition of issuance or, by virtue of his ownership of an issued security, will be entitled to receive, without the payment of consideration, the "when issued" security, to the extent that he has not already disposed of such "when issued" security.

8. *Covering transactions.* If on the due date of delivery of a security sold pursuant to an order marked "long", the member has not received the security from the customer, he must cover the open position unless he knows or has been informed by the seller either (1) that the security is in transit to him; or (2) that the seller owns the security, that it is then impracticable to deliver it and that it will be delivered as soon as is possible without undue inconvenience or expense. If the member has received the security at his main or branch office, or if he knows or has been informed by the seller that either (1) or (2) is the case, he may at his option either fail to deliver or make delivery with borrowed securities. If, however, he neither knows nor is informed by the seller that either of these situations exists, and has not received the security, he must cover the transaction by buying in, for "cash", for the account of the customer, the security sold. Such buy-ins are not to be given to the Secretary of the Exchange for execution, but are to be effected by the member directly or through an agent of his own choosing. If on the date when delivery upon the original contract is due, the member receives the security so bought in, or knows that it is in transit to him, he may make delivery upon the original contract with the security so received, or with borrowed securities, or may fail to make delivery thereon.

The provisions of this paragraph apply to odd lots as well as to full lots. [Paragraph (b) (2) of Amended Rule X-10A-2 (17 CFR, 240.10a-2) now permits exceptions from these covering requirements in certain cases of bona fide mistake.]

9. *Loans of securities between members.* A member may, without regard to the restrictions imposed by Rule X-10A-2 and without inquiry as to the purpose of the loan, lend a security to another member. The lending member may nonetheless be criminally liable for a violation of the short selling rules if he knows that the borrower intends to violate such rules.

ROBERT L. FISHER,
Secretary.

[Securities Exchange Act Release No. 1571, February 5, 1938]

§ 241.1965 *Opinion of General Counsel relating to section 16 (a).*

Beneficial ownership of securities held by holding companies, partnerships and trusts. In order to show the recent redesignation of the rules referred to therein and a supplemental opinion of its General Counsel with regard to indirect beneficial ownership through holding companies, the Securities and Exchange Commission today reprinted the opinions of its General Counsel heretofore published in Release No. 79 dated January 13, 1935, as follows: [1]

Holding companies. I understand that you represent a director of the B. M. Company whose stock is listed on the New York and Detroit Stock Exchanges and registered pursuant to Rule JE1.[2] I further understand that your client owns approximately two-thirds of the stock of the B. C. Company, a business corporation whose stock is rather closely held and is not registered on any national securities exchange. The B. C. Company owns over ten percent of the listed stock of the B. M. Company, and during the month of November, 1934, purchased a few hundred additional shares of that stock in the market. You ask whether your client is required to file reports pursuant to Rule X-16A-1 [3] (formerly designated Rule NA1), as amended, in respect to the November purchases by the B. C. Company.

The question whether the holder of stock in a holding company should file reports in respect of securities owned by the holding company, is a question of fact to be determined in the light of all the circumstances involved. In my opinion, no consideration need be given by the owner of stock in a holding company to the holdings of that company, except in a case where the holding merely provides a medium through which one person, or several persons in a small group, invest or trade in securities, and where such company has no other substantial business. In such a case, a person in control of the holding company who is an officer or director of the issuer of a listed equity security owned by the holding company, or whose interest in such security through the holding company (together with the amount of such security of which he is otherwise directly or indirectly the beneficial owner) aggregates more than ten percent of such security, should file a report in accordance with Rule X-16A-1 (17 CFR, 240.16a) [3] (formerly designated Rule NA1). This report should include the holding company's ownership of such security, and transactions by it therein, to the extent of such person's interest. Such control might in fact be joint, and in such a case all persons sharing such control, regardless of whether one of such persons holds a majority of the voting stock of the holding company, would, to the extent of their respective interests, be under a similar duty to report in respect of securities owned by the holding company. The filing of reports by such controlling person or persons would not, in my opinion, relieve the holding company from itself filing reports pursuant to Rule X-16A-1 (17 CFR, 240.16a-1) [3] (formerly designated Rule NA1) if the holding company were the owner of more than ten percent of the equity security in question.

The existence of other substantial business is merely of evidentiary value on the question whether the corporation is actually used by one person or a small group as a medium for investing or trading in securities. The basic question is whether the stockholders of the corporation are using it as a personal trading or investment medium, and to the extent that it is so used the stockholders are properly to be regarded as the beneficial owners, to the extent of their respective interests, of the stock thus invested or traded in.

Whether or not the circumstances in the case which you present are such that your client should file a report covering the transactions by the B. C. Company in stock of the B. M. Company is a matter for your determination, but I trust that the opinion expressed above will be helpful in this connection. I call your attention to Rule X-16A-3 (d) (17 CFR 240.16a-3) [3] (formerly designated Rule NA3 (d)) of this Commission which will permit your client, in case of doubt, to file reports covering the ownership of and transactions by the B. C. Company while at the same time disclaiming beneficial ownership of the securities so reported. Your client should of course include in his reports information as to the ownership of and/or transactions in equity securities of the B. M. Company of which he is in any other manner the beneficial owner.

Partnerships. You present the case of a partnership, one partner of which is a director of a company, at least one class of whose equity securities is listed on a national securities exchange. If the partnership holds any equity securities of that company, the director should file reports in respect of the holdings of the partnership in such equity securities, to the extent of his pro-rata interest in the partnership. However, if the partner desires, he may exercise the option granted by Rule X16A-3 (b) (17 CFR, 240.16a-3) [3] (formerly designated Rule NA3 (b)) and report as to all such equity securities held by the partnership, with a notation that he owns only a partial interest in those shares.

You also present a case involving a partnership of three partners each of whom has an equal interest in the partnership, where the partnership holds 29 percent of a class of equity securities listed on a national securities exchange. In this case no reports would be required as to partnership holdings of such class of equity securities on the part of any individual partner who is not a director or an officer of the issuer, unless such partner's indirect interest in such security through the partnership (together with the amount of such security of which he is otherwise directly or indirectly the beneficial owner) were to amount to more than ten percent thereof, or unless such partner were the beneficial owner of more than ten percent of some other class of equity security of such issuer listed on a national securities exchange. Such partner could, of course, take advantage of Rule X-16A-3 (b) (17 CFR, 240.16a-3) [3] (formerly designated Rule NA3 (b)) for the purpose of filing reports as to his ownership of equity securities through his interest in the partnership.

In any case where a partnership holds for its own account more than ten percent of a class of any equity security listed on a national securities exchange, it should file reports as to such holdings in accordance with the requirements of Rule X-16A-1 (17 CFR, 240.16a-1) [3] (formerly designated Rule NA1), regardless of whether reports are filed by the partners, since the partnership would be the direct beneficial owner of more than ten percent of such class.

TRUSTS—I

You put a case of an irrevocable personal trust of which A is trustee and under which B is entitled to the income for life with the principal payable to C upon the death of B. The trust holds an equity security of Corporation X which has been temporarily registered under the Securities Exchange Act pursuant to Rule JE1.[2] You state that the trust has made purchases and sales of this equity security during the month of November and, on the basis of further facts indicated below, you ask various questions in regard to the filing of reports of such changes of ownership under Section 16 (a) of the Securities Exchange Act and Rule X-16A-1 (17 CFR, 240.16a-1) [3] formerly designated Rule NA1), as amended, of the Commission.

I beg to express the following opinions in regard to your various questions:

1. If, at the time of the transactions in question, the trust held 12% of the registered equity security of Corporation X, a report as to such transactions should be filed by A as trustee not later than January 30, 1935. Such report should contain a general designation of the beneficiaries of the trust. It would not seem necessary that the report include any amount of such equity security held by or for A in his own right, nor would it seem necessary that B or C file additional reports with respect to changes in the holdings of the trust.

2. If at the time of the transactions in question, the trust held 5% of the registered equity security of Corporation X, and A, B and C were at the time directors of Corporation X, no reports with respect to the transactions of the trust are required from A, B or C individually or from A as trustee. If B or C were the settler of the trust and/or were to exercise any power of control over A's administration of the trust, a case would be presented, the particular circumstances of which might well be such as to require the filing of reports by B or C.

3. If, at the time of the transactions in question, the trust held 5% of the registered equity security of Corporation X, and A, B and C each individually owned 7% of such registered equity security, no reports with respect to the transactions of the trust are required from A, B and C individually or from A as trustee. Here again I wish to call your attention to the fact that no opinion is expressed concerning the situation mentioned in the last sentence of the preceding paragraph.

4. If the trust were subject to revocation, the person who possesses the power to revoke the trust for his own benefit either alone or in conjunction with someone not having a substantial interest adverse to such person in the disposition of the securities held in the trust would appear to be the beneficial owner of the registered equity security of X held in the trust. However, if the trust held more than 10% of such security, the fact that a power of revocation existed would not relieve A as trustee from his duty to file reports concerning transactions of the trust in that security.

TRUSTS—II

You put the case of an irrevocable personal trust, which holds an equity security listed on a national securities exchange and which from time to time has transactions in such security. The trustee of this trust is a director of the issuer of such equity security. The daughter of the trustee is entitled to the income of the trust until reaching a specified age and is then entitled to the corpus. The trust deed provides that if the daughter dies before reaching the specified age, the trustee is to become entitled to the corpus of the trust.

You inquire whether the trustee, under section 16 (a) of the Securities Exchange Act and Rule X-16A-1 (17 CFR, 240.16a-1), [3] (formerly designated Rule NA1) of the Commission, must file reports in regard to the above mentioned equity security held in the trust. Under these circumstances the trustee should in my opinion report the holdings and transactions of the trust as his own, indicating the nature of his interest.

[Securities Exchange Act Release No. 1965, December 21, 1938]

§ 241.2066 *Letter of General Counsel concerning the services of former employees of the Commission in connection with matters with which such employees become familiar during their course of employment with the Commission.* This is the same as Securities Act Release No. 1934. [Securities Exchange Act Release No. 2066, May 5, 1939]

§ 241.2446 *Statement of the Commission and separate statement by Commissioner Healy on the problem of regulating the "pegging, fixing and stabilizing" of security prices under sections 9 (a) (2), 9 (a) (6) and 15 (c) (1) of the Securities Exchange Act.*

A. *The problem.* Although the Securities Exchange Act contains a general prohibition against manipulating security prices up or down, it does not prohibit certain kinds of manipulation. Thus, section 9 (a) (6) permits the "pegging, fixing or stabilizing" of security prices, except to the extent that it may be "in contravention of such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors." The Report of the Senate Committee on Banking and Currency in discussing the regulatory powers conferred on the Commission stated: "Practices such as pegging, fixing or stabilizing the price of a security are subjected to *regulation* by the Commission, which is authorized to prescribe such rules as may be necessary or appropriate to protect

[1] While these opinions were prepared in response to questions presented under Section 16 (a) of the Securities Exchange Act of 1934, they would seem to be equally applicable to corresponding situations arising under section 17 (a) of the Public Utility Holding Company Act of 1935.

[2] While the rule cited had to do with temporary registration of securities, the opinions apparently apply equally to cases arising out of permanent registration of securities.

[3] See footnote 2 on preceding page.
[3] Redesignation as of September 10, 1938.

investors and the public *from the vicious and unsocial aspects of these practices.*" [Italics added.]

The questions of policy involved in *any* regulation of stabilizing are of such fundamental significance as to require a discussion of the considerations which have led to the Commission's conclusion to attempt to embark upon a broad program of regulation. These questions of policy, although they apply to Regulation X-9A6-1 (17 CFR, 240.9a6-1), recently adopted to deal with only a limited type of stabilizing, are primarily relevant to any general program for the regulation of stabilizing in other and more important situations. They must therefore be analyzed in their relation to the whole problem.

There are many who feel that stabilizing, since it is a form of manipulation, is inherently fraudulent and hence should be wholly prohibited under all circumstances. The Commission is unanimous in recognizing that stabilizing is a form of manipulation. The statute itself so recognizes. The Commission also agrees that stabilizing in many respects is undesirable. That, too, is implicit in the statute. Nevertheless, the majority of the Commission considers that merely to point to the evils attendant upon stabilizing poses the problem but does not answer it. The question of how to deal with stabilizing as it exists today cannot be answered by theory alone. It is an intensely practical problem which, for the present, must be solved in terms of the existing financial machinery.

The Commission faces three choices. (1) It can permit stabilization to continue unregulated; (2) it can adopt a program for the regulation of stabilization in an effort to eliminate particular abuses which, in the absence of regulation, are being lawfully employed today; or (3) it can decide that stabilization is inherently so detrimental to the interest of investors that the Commission should recommend to Congress that all stabilization be prohibited.

For reasons discussed hereafter the majority of the Commission is not now prepared to say that, under existing conditions, all stabilizing should be wholly prohibited. Nor is the majority of the Commission content to allow stabilizing to continue unregulated. It remains to determine whether a workable program for the regulation of stabilizing can be developed.

It seems clear that the only course open to the Commission is to adopt regulations which can be revised from time to time as we see how they actually work. Such regulations must reconcile, as far as possible, the often conflicting objectives of protecting purchasers of securities, on the one hand, and of preserving the ready flow of capital into industry, on the other. Here, as in most other fields of human activity, perfection is an unattainable ideal. Compromise and adjustment are inescapable. A closer approach to the ideal than is now achievable may in the future be found in the development of investment banking or other underwriting institutions with sufficient resources so that the need for stabilizing can be substantially reduced, even entirely eliminated. But the growth of American industry cannot wait upon such a development. Consequently, the Commission has concluded that its immediate duty under the statute is to meet the situation through regulated stabilizing, frankly recognizing the experimental character of its approach to the problem.

Preliminary studies by the Commission's staff led to the adoption on March 15, 1939, of rules and regulations of the Commission requiring the filing of detailed reports respecting all stabilizing operations conducted to facilitate the distribution of security offerings in respect of which a registration statement has been filed under the Securities Act of 1933. By the end of 1939 the Commission had been able to review case histories covering the distribution and accompanying stabilization of over 50 bond and stock issues. This knowledge should now enable it to make at least an initial inrond into one of the most technical and controversial problems which Congress left to it under the Securities Exchange Act of 1934.

(B) *Description of the Fundamentals of Market Stabilization in Aid of Security Distributions.* Stabilization is a generic term. For our present purposes it may be broadly defined as the buying of a security for the limited purpose of preventing or retarding a decline in its open market price in order to facilitate its distribution to the public. Stabilizing, in the sense that we are here concerned with it, is closely related to the financing of industry, much of whigh is achieved through the offering and sale of securities to the public. Because of the closeness of this relationship the practice of stabilizing must be appraised in the light not only of the needs of industry for capital but of the prevailing methods of security distribution.

Let us suppose that a corporation desires to expand its plant and needs to obtain funds for that purpose. The corporation could, theoretically, dispense with an underwriter and content itself with hiring an investment house, as a mere selling agent, to sell its securities on the market, for a selling commission, at the best prices obtainable and at as early a date as possible. But then the corporation would not know, in advance, how much the funds would cost it, for it would not know at what price its securities would sell on the market and therefore would not know whether a given quantity of its securities would yield a given sum; nor would it know when it would receive the necessary funds, for they might be obtained only in dribs and drabs.

That would make plant construction difficult and often impossible. For the corporation needs to know, before letting its construction contracts, that it will have a certain sum in hand, at a certain date and at not more than a certain cost.

If the corporation could, directly or through an agent, sell its securities by a few simultaneous sales to a few large investing institutions—to which many individuals have entrusted their savings for investment—there might well be no problem of stabilizing. But that is not possible as to many types of corporate securities. They must be sold in the open market to a large multitude of direct individual investors. That fact creates factors of uncertainty which make it necessary that the corporation do something more than sell its securities through a mere selling agent.

These elements of uncertainty are removed by the firm commitment underwriting agreement which the underwriter normally makes with the corporation: The underwriting investment banker agrees that on a fixed date the corporation will receive a fixed sum for a fixed amount of its securities.

But how can the underwriter afford to make that contract unless he has a sufficient amount of capital of his own to invest in those securities? If he had that much capital as is frequently the case with underwriters in some other countries—then stabilizing would be of little or no import nce. But American underwriters do not have sufficient capital to perform that function. They dare not, therefore, take the risk of being obliged to carry out their underwriting agreements by themselves investing their own resources in the underwritten securities. They can afford to make such agreements only on the supposition that they will, with great speed, be able to sell the securities to the multitude of direct individual investors. If they knew that they were unable to do so, they could not afford to—and therefore would not—enter into firm commitment underwriting contracts. And if they did not, then many a corporation desiring to expand its plant, would find it difficult or impossible to do so—and thus the flow of individual savings into industrial expansion would be seriously impeded.

For the purposes of this discussion the underwriter, realistically regarded, is a salesman who hopes that he will sell the underwritten securities at a fixed price in a very short period. His ability to fulfill his underwriting contract with the corporation turns, then, on his ability to sell the securities promptly on the market at or near the fixed price which he pays to the corporation for the issue. Analysis of the present methods of distributing securities indicates, we are told, that the underwriter's ability to resell the issue, in certain conditions of the market, in turn, depends on his ability to stabilize.

Most formal offerings of new security issues of significant size are today brought out by an investment banking syndicate and sold to the public at a fixed price. This underwriting syndicate, consisting of from a few to well over one hundred underwritten houses, buys the entire new issue of securities from the issuing corporation at a predetermined fixed price and immediately reoffers it to the public at a slightly higher price which is also a predetermined fixed price (the "offering" or "issue" price). The issue is usually resold to the public both by the underwriters and by a so-called "selling group" composed of selected security dealers who act as retailers for the underwriting syndicate.

The most important attributes of present-day syndicate distribution of securities are probably (1) the element of certainty to the issuing corporation, which for all practical purposes is assured of payment on a day certain of the agreed price for the issue regardless of its reception by the public and of subsequent market fluctuations, and (2) the element of speed, reflected both in the rapid sale of the issue to the public and in the consequent promptness of payment by the underwriters to the issuer.

It is because of these attributes that it is important to note the alleged necessity for preventing the market price of a new issue from dropping below its offering price during the period of distribution. Some proportion of an issue, even though initially it may be completely sold by the underwriters to the selling group dealers, will finds its way back into the open market. This selling pressure results from the fact that some purchasers change their minds and almost immediately resell. In part, this selling comes from so-called "free riders" or speculators who purchase with the hope of quickly selling out and taking a profit from an early rise. If these reofferings are not absorbed by public buying in the open market, their pressure will tend to force the market price below the original offering price.

In order to absorb this open market selling and to prevent the consequent drop in market prices which might impede, if not preclude, the success of the financing, the manager of the underwriting syndicate, upon making the offering, usually enters a "syndicate bid" to buy such securities as may be offered in the open market. Normally the syndicate bid is placed at the issue price. If the selling pressure grows too heavy to permit the constant "pegging" of the market at the original offering price, the syndicate bid will usually be dropped to successively lower levels. The stabilizing purchasing by the underwriting syndicate may range, depending upon the success of the particular offering, anywhere from 1% to as high, occasionally, as 15% or 20% of the issue.

Stabilizing a market as described above is normally employed to facilitate formal public offerings of bonds. Comparable procedure is also followed in connection with most new stock offerings made at a fixed price.

Another type of stabilization is designed to facilitate additional issues offered by a corporation to its stockholders, usually at prices below prevailing market levels. A similar type of stabilizing is also commonly used

to facilitate both primary and secondary distributions in which the offering price is represented to be "at the market" or at a price based on the market. In both of these latter situations it is not customary for the syndicate to maintain a rigid "peg" in the market by bidding steadily at one price. However, any downward trend in the market price of the security is usually retarded by the underwriters' purchases of stock at successively lower levels.

It should be further noted that stabilizing is regarded as necessary only in the case of issues which are neither notable successes nor notable failures. In the former case the market for the issue usually takes care of itself. In the latter, where the selling pressure in the open market is too great, the underwriters cannot afford to support the market at or near the issue's original offering price. For the same reason, stabilizing cannot as a practical matter be used to stem a market or economic trend of any real significance.

The mechanics of stabilizing as described here are by no means universally followed. However, whatever techniques are followed, and whether the underwriters be successful or unsuccessful, their stabilizing represents a form of manipulation which interferes with free and open markets. It is, of course, a negative type of manipulation since it seeks to retard and not to create affirmative market movements. Nevertheless, this ability so to interfere with our markets has been abused in the past. That it remains susceptible to future abuse is common knowledge. In determining whether the solution to the problem lies in prohibiting stabilizing, in subjecting it to regulation or in continued nonaction, the Commission has sought to weigh the relative advantages and disadvantages to the investor and to the national economy which may attend each of these alternatives.

(C) *Disadvantages of stabilizing.* The legislative hearings which preceded the adoption of the Securities Exchange Act of 1934 showed that abuses by underwriters of the stabilizing process were so prevalent as to require governmental action of some kind. The oft-repeated and, in our opinion, wholly justified complaint against security stabilizing is that when the operation is ended and the "peg is pulled", the market price of the security frequently drops with ensuing loss to all who purchased it on the basis of an artificial, "pegged" market price. Insofar as stabilization prevents falling market prices and thus permits the issuance of securities at unjustifiably high prices, the practice must be regarded as an evil. Similarly, the active trading which frequently results from the very fact of the distribution and the accompanying stabilizing at the offering price may also serve to invite other buyers into the market.

Statistically, it seems beyond dispute that, in the past at least, unregulated stabilization has in fact facilitated the distribution of over-priced securities to the detriment of the investing public. Chart I, attached in the appendix hereto, in which adjustments have been made designed to eliminate the effect of general market fluctuations, illustrates the average market history, for a period of sixteen weeks after offering, of 203 bond issues brought out between 1921 and 1931 most of which, so far as could be determined, were stabilized to a greater or lesser extent. The story shown is one of price stability during the first few weeks of the offering, followed by a drop, on the average, of about a half point. Chart II in the appendix indicates, furthermore, that this was more than a temporary, technical decline, since, during the second year of their existence, these new issues still sold off about a point and a half as compared to the market.

Examination of the stabilizing of 19 new bond issues, publicly offered during the period from March 15 to August 31, 1939, as to which reports were filed with the Commission pursuant to Rule A-17A-2 (17 CFR, 240.17a-2), shows in Chart III that the average drop from original offering prices (after adjustment for market changes) was about 1.4% during the third month following their offering dates. Of these 19 issues, the average open market prices of 12, or approximately 63%, during the first twelve weeks after their offering dates were below their original offering prices after adjusting for general market trends.

On the other hand, examination of the price levels for a period subsequent to the period covered in the chart shows a marked improvement in these stabilized issues when compared with general market trends. Thus, on January 31, 1940, after eliminating the bonds of a Canadian corporation (because the drop in their price is primarily attributable to the war and the threat of Canadian foreign exchange control) the average open market price of the remaining 18 issues was *above* their average original offering price, after adjusting for general market trends.

The vice inherent in stabilizing has been pointed up by the absence of publicity with respect to such an operation. Investors have true. Since March 1939 the Commission's are purchasing at prices in line with market prices fixed by the normal forces of supply and demand when, in fact, the contrary is true. Since March, 1939 the Commission's rules have required that all prospectuses under the Securities Act unequivocally state in simple language, where such is the case, that it is the intention of the underwriters to stabilize the market in aid of the offering. Nevertheless, in many instances the significance even of this statement probably cannot be grasped by all purchasers.

The effect which the requirement of adequate notice of a proposed stabilization had in one particular instance may be worth citing. A corporation proposed to offer a new preferred stock in exchange for an outstanding issue at a predetermined price ratio. The corporation was advised of the necessity of fully and adequately disclosing that the exchange offering was to be facilitated by a market stabilizing operation. It may have been only a coincidence that thereafter it not only refrained from interfering with the market but actually changed the basis of the exchange offering so as to make it substantially more favorable to the stockholders to whom the new issue was to be offered. This again suggests, as do the statistical data and charts described above, that at least in the past the practice of stabilization, inadequately publicized, has facilitated the overpricing of security issues and consequent loss to the investing public.

Finally, it should be noted that many people feel that stabilizing not only is fraudulent, but that its attendant evil of the overpricing of security issues is inherent. They believe that *no* regulation short of complete prohibition can protect buyers against these dangers which arise from a deceptive and an artificial market. And they conclude that buyers should receive the ultimate protection of complete prohibition, regardless of the adverse effects which prohibition might have on the needs of industry for capital.

(D) *The Underwriter's Arguments in Justification of Stabilization.* Without adopting the reasons frequently advanced to justify the widespread use of stabilizing in aid of security distributions we may restate the arguments as follows:

One argument runs that stabilization is warranted in order to offset the market "abnormalities" which result from the very fact of the offering. When a new or an additional issue of significant size is offered to the public a temporary glut of the market may often be the immediate result. At the same time the demand for the offered security is diverted by the underwriters and the selling group dealers away from the open market and into the channels of the distribution itself. The selling efforts of dealers necessarily attendant upon the making of the offering thus result in taking away from the open market the demand for the offered security which might otherwise there exist. As noted, "free riders", as well as other buyers who change their minds, will sell, and at a time when there is a temporary unbalance between supply and demand created by the offering. These scattered open market sales, taken in conjunction with the sudden influx of supply and the accompanying withdrawal of normal open market demand into the channels of direct distribution, unless counteracted, will exert a market influence which, according to the underwriters, is out of all proportion to their real significance. The sound market value of millions of dollars of new securities, unseasoned and not yet digested by the investing public, should not, they say, be predicated upon a handful of resales the market effect of which is unduly magnified by the present day publicity given to market quotations. Therefore, the underwriters urge that stabilizing, although admittedly an artificial influence, is justified to neutralize a temporary condition of oversupply which itself may likewise be regarded as abnormal, and that temporary stabilizing controls, commensurate with the degree of the temporary abnormal disparity between supply and demand, are warranted to offset that unbalanced condition of the market.

Another argument is based upon the underwriter's view that it is appropriate and desirable for a seller to permit a buyer to return his securities if he so desires. This applies not only to the investing public but to the members of the underwriting syndicate and the selling group as well. Dealers or underwriters in one section of the country may overestimate local demand just as investors may overestimate their own ability to carry a security. At the same time others may have been unable to fill their demand. It is consequently desirable, say the underwriters, that they should be permitted to repurchase and reallocate to others the securities of those who bought more than they can handle. Another variation of the same general contention is that the underwriters have an obligation to the purchasers of the issue to afford a market place where those purchasers who wish to sell may be able to do so at a fair price. On this basis the industry urges that it is in the interest of the investing public itself for the underwriters to provide the advantages of such a market place by placing their syndicate bid at or near the offering price.

The third argument is based upon the necessities of the situation. Under the existing system, which today revolves around firm commitments and fixed price offerings of securities to a relatively speculative public, some degree of stabilization, according to the underwriters, is necessary to the successful flotation of new security issues on anything other than a continued "bull" market. Since underwriters today are primarily salesmen having only the limited capital of distributors, they claim that they cannot undertake long or even medium term commitments in order to insure the success of billions of dollars of security offerings. If an entire issue of securities is to be bought by such underwriters at a fixed price, it is said to be vitally necessary that those underwriters be able to protect themselves as well as the selling group dealers, against a "disorderly" open market during the resale of the issue to the public. This is said to follow because if the market price of a new issue sags even fractionally below the offering price, it cannot be sold at the offering price which was determined when the issuing corporation received its price for the issue. This in turn is assigned to the fact that the American public follows daily price quotations closely and is as much concerned with immediate paper profits or losses, as well as with liquidity, as it is with the ultimate fate of the security if held on a long term basis. Stabilization is therefore said to be an unfortunate, but nevertheless an unavoidable concomitant of modern security distribution, of present day

public markets and of the existing public emphasis upon widely published daily market quotations.

The underwriting industry further claims after the necessary "mopping up" of loose ends resulting from the inevitable resales, a properly distributed issue should find its natural and ultimate market level in line with and not significantly below the prices of comparable securities or market averages. Indeed, issues for which stabilizing operations have been necessary during the first crucial days after the offering frequently *rise* in relation to general market levels. Of 19 bond issues which were offered between March 15 and August 31, 1939, and as to which the Commission has received detailed stabilizing reports, 7, or 37%, sold during the first twelve weeks after their offering dates at an average price in the open market above their original offering prices after adjustment for general fluctuations in the bond market. In the case of 11, or slightly over 59%, of these issues their average open market prices during the twelve weeks following their offering dates were above or within one point of their original offering prices after adjusting for general market trends. Chart IV also shows that this was the general pattern of new issues brought out during the year of 1935, a period of active refunding and rising market prices.

These same considerations are said to apply, although in perhaps a lesser degree, to stabilizing to facilitate "secondary distributions"; that is, public offerings of outstanding securities where the proceeds of the distribution go to liquidating security holders rather than to the issuing corporation. If secondary distributions could not be thus facilitated, it is argued that the original distribution of those securities (and the consequent financing of the issuing corporation) would be made the more difficult because of the reluctance of substantial investors to make large and commensurately illiquid commitments.

Accordingly, the underwriters emphasize that where an issue is not overpriced in relation to comparable outstanding securities, and where the extent and intensity of stabilization, attended by the fullest possible publicity, is appropriately limited in relation to the size of the issue, the stabilizing device may be employed without inflicting any appreciable damage upon investors. At the same time, they assert that the desirable attributes of certainty, speed and economy of industrial financing could be retained.

(E) *The economic problem presented by the practice of stabilization.* Stabilization, it must be recognized, is now an integral part of the American system of fixed price security distribution. From the point of view of industry, any practice which assists security distribution under firm commitment underwriting contracts is obviously desirable. From the parallel point of view of the underwriter, stabilization is regarded as perhaps an unhappy, but a necessary choice if industry is to obtain its capital funds "cash-on-the-barrel-head" and if the underwriter is not to be exposed to market risks which he claims his present underwriting capital will not permit him to assume. From the point of view of the investor, on the other hand, it is clear that the process of stabilizing permits the underwriter to induce his purchase of securities on the basis of what he believes is a "natural" market price established by "natural" trading activity but which, in fact, are both, to a greater or lesser extent, artificial.

This brings us to the crux of the problem viewed in its larger aspects; namely, the conflicting interests of two segments of the public as a whole. One part of the public, consisting of existing security holders, employees and others dependent upon the turning wheels of industry, has a direct interest in securing the financing of industry as cheaply and as effectively as possible. The other segment of the public, made up of purchasing investors, has an equally direct interest in obtaining appropriate investments at the cheapest possible prices. To both of these divisions of the investing public this Commission owes a duty. Furthermore, the Securities Exchange Act, while primarily directed towards the protection of investors, is also concerned with the protection of the Nation's credit and banking structure and the health of its capital markets. Congress recognized the need for an adjustment between the interests of purchasing investors on the one hand and the needs of industry for capital funds on the other. Therefore, by section 9 (a) (6) of the Securities Exchange Act, it assigned to this Commission the duty of finding a reasonable middle ground between these two objectives which are by no means always easy to reconcile: (1) To guard the welfare of the multitude of direct individual investors against injury from stabilizing. (2) To guard against impeding the flow of individual savings into industrial expansion.

The damage to investors results ultimately from the over-pricing of security issues. Stabilizing, of course, aids the distribution not only of properly priced issues but of the over-priced issues. Unfortunately, the correct pricing of new issues is not, and can never become, an exact science. Hence, any regulation of stabilizing, while it may seek to put a premium on correct pricing and to penalize over-pricing of securities, cannot be expected wholly to eliminate the risk of over-pricing. Yet, as against the Commission's duty to minimize this danger to security buyers, we cannot overlook our duty in the interests of the Nation as a whole not to jeopardize the ready access of industry to an adequate and efficient capital market. Finally, the Commission recognizes that in the field of stabilizing it is faced with an existing condition, not a theory.

(F) *Alternative courses of possible commission action*—(1) *Prohibition.* Stabilization is regarded by many experts as a necessary adjunct to our present capital markets. Neither the investment banking industry nor the Commission has as yet found any immediate practicable substitute for the present system. Furthermore, the alleged necessity of stabilizing under certain conditions of the market has not yet been disproved. Therefore, lacking proof that the underwriters' arguments as summarized above are unsound, it would seem premature for the Commission now to recommend, or take other steps towards, the outright abolition of stabilizing. It must be remembered that the constituency of our capital market does not include, as does that of some other countries, a substantial number of "investment underwriters" such as institutional investors, including investment trusts, which underwrite the unsold portion of an issue with the intention of holding for investment the securities which they must take up under their underwriting agreement. Nor is the development of a substantial amount of such "investment underwriting" capital in any immediate prospect. Although the recent avid buying by banks and insurance companies of prime grade investment bonds makes up to some extent for the absence of any real "investment underwriting" in our present day market, it must be remembered that this source of capital is available only for this limited type of security.

Our conclusion seems obviously to have been contemplated by Congress. Some of those whose deep-seated objections to stabilizing have resulted in their recommendations that stabilizing should be prohibited or that it should not in any wise be countenanced by this Commission have implied that either the Congress or its committees contemplated its abolition. Any such implication is not warranted by the legislative history of the Securities Exchange Act of 1934. Neither the Senate Committee on Banking and Currency nor the House Committee on Interstate and Foreign Commerce, both of which considered the bill, recommended in their reports on the legislation that stabilizing should be prohibited in its entirety. On the contrary, the mandate to the Commission, as explained by the Committees of Congress, was to guard investors and the public "from the vicious and unsocial aspects of these practices" by "regulation", not prohibition. Congress through its committees, as well as through the Act itself, thus recognized that not all the aspects of stabilizing are necessarily so deleterious as to justify, on a balance of interests, complete prohibition of all stabilizing.

Many of those who object to the Commission's adoption of a program of regulation of stabilizing do so on the further ground that any stabilizing, no matter how regulated, constitutes an interference with the free forces of supply and demand. The Commission cannot regard that, in and of itself, as a cogent objection. It must be recognized that there are times when the "free play" of the "forces" of supply and demand may, if unrestricted, produce socially or economically undesirable consequences.

A method of security distribution has not yet developed under which slight day-to-day fluctuations in market price will not play so preponderant a role as they now appear to do. A workable alternative for the present distributing mechanisms has not yet been devised which we can be sure will dispense with the alleged necessity of stabilization. It is by no means certain that the costs to investors and industry of prohibiting stabilizing would not outweigh the damage which might result from its use under appropriate restrictions.

Those who oppose rules which would permit stabilization say that against the duty of this Commission to protect the interest of investors, no considerations of the needs of industry for capital should be permitted to prevail. They thus depict a sharp antithesis between the needs of the investor and the needs of industry. The antithesis is by no means so sharp. In the first place, the needs of a corporation for capital and the welfare of those who are already investors in that corporation are often identical. Moreover, the welfare of even the purchasing or new investor is by no means certain to be served by hampering the present mechanisms of distribution if the interference, while safeguarding him from all possible injury due to stabilizing, will substantially contract industrial expansion. Such contraction spells industrial depression, and industrial depression is no boon to purchasing investors. To buy securities cheap is folly if they continue to grow cheaper.

Until the foregoing questions can be answered, the Commission does not feel that the facts now warrant it in recommending the more drastic step of prohibiting all stabilization of security prices. While the solution may ultimately be found in sweeping changes of the entire structure of the capital market, neither our underwriting industry nor our national economy now seems ripe for such a step.

Our conclusion is reached not at all by giving a controlling consideration to the interests of underwriters. It is reached because of the needs of industry for capital—needs which it has not been demonstrated can be served without stabilizing. We cannot accept the suggestion that such industrial needs must not be allowed to play any part in the actions of this Commission when they run contrary, to any extent, to the interests of purchasing investors. Such was not the intention of Congress.

(2) *Inaction vs. Regulation.* Whatever the vices of unregulated stabilizing, it would seem to be beyond question that the public interest, as well as the interest of investors, will be better served by regulating stabilizing than by leaving it unregulated.

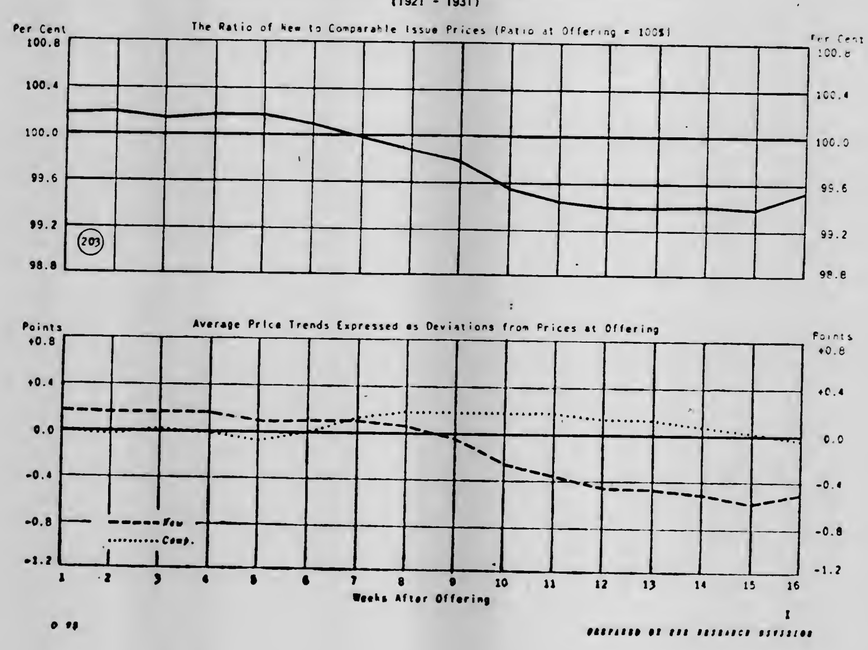
One of the major factors which led to the Commission's inaction in the past has been the opposition to the adoption of rules predicated on the following reasoning: All stabilizing unquestionably involves potential dangers to the great mass of direct individual investors. If the Commission adopts any stabilizing rules it would mean that it was recognizing and thereby, to that extent, legitimatizing stabilizing. The proponents of this view believe that the Commission must not, by any action on its part, make itself responsible for stabilizing.

When first encountered, these views were appealing to the Commission which recognizes, as any intelligent observer must, the potential dangers involved in stabilizing. Those views give every member of this Commission a feeling of anxiety when considering the issuance of any stabilizing rules. But on careful analysis those views are fallacious.

In the first place, Congress did not abolish stabilizing. It authorized this Commission, by regulation, to eliminate only "the vicious and unsocial aspects of those practices." It will not do for this Commission to proceed on the basis of a viewpoint which Congress, in its wisdom, did not find acceptable.

Those who dwell on the virtues of complete abolition of stabilizing have, nonetheless, always been unwilling to urge that the Commission adopt rules prohibiting the practice in its entirety. Nor have they suggested that the Commission urge Congress to amend the Act so as to abolish stabilizing. They seemed tacitly to recognize that the Commission would be in a poor position to follow either of these courses unless and until it issued some regulations, observed them in operation, and then reported on their consequences because, absent such study and report, we could supply Congress with no new evidence, gathered since Congress rejected recommendations for the prohibition of stabilizing. Yet, paradoxically, those theoretically opposed to stabilizing have objected to having the Commission adopt any rules the operation of which can be studied.

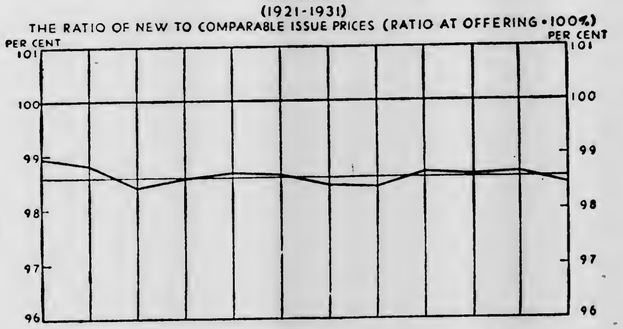
The position of those who urge continuance of a policy of nonaction is untenable for a further reason. Under the Securities Exchange Act as it now stands, many forms of stabilizing, no matter how vicious, are lawful except to the extent that they may violate rules of the Commission or other provisions of law. For instance, with the exception of Regulation X-9A6-1 which became effective February 15, 1940, the character and extent of stabilizing purchasing is wholly unregulated. Market prices in some situations may even be "pegged" above the public offering price. In the absence of regulation, stabilizing may be lawfully employed under many other circumstances where it is both ethically and economically indefensible. And it would seem futile to hope that, absent regulation, so temperate a use of stabilizing will be made as to render governmental regulation unnecessary. Under a program of regulation, however, the flagrant abuses of stabilizing which are cited, curiously enough, both by those who advocate prohibition and by those who favor continued nonaction would no longer be lawful.



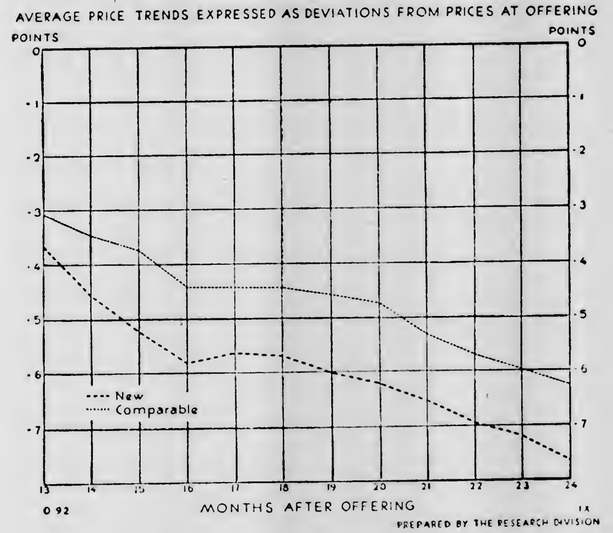
There is no denying the fact that to allow any stabilizing, in order to achieve the Congressional objective of not seriously interfering with the needs of industry for capital, may to some extent block the other Congressional objective of protecting the individual, direct investors who buy securities. The possibilities of injury to such buyers, resulting from stabilizing, can be reduced—although perhaps they cannot be wholly eliminated—by careful regulation of stabilizing. To that limited extent the one objective of Congress must give way to the other. With study and care we may be able, by regulation, to reduce to a very narrow compass the area of conflict between those objectives. Or we may witness such changes in our investment machinery as to make stabilizing of relatively little importance. It is not inconceivable that through the development of new types of investment companies, we shall some day have true underwriters with ample capital (representing the savings of a large number of individual investors) who will not need to rush to the market, and who will not feel it necessary to restrict their investments to bonds, as do most institutional investors today.

If no such or similar development occurs and if, after a period of working with regulated stabilizing, we find that the injury to purchasing investors is uncontrollably too great, then, *but not before*, we should request Congress to determine which of these two objectives is to be paramount.

G. *The advantages of piecemeal regulation.* Enough has been said to indicate the scope of the difficulties which stabilization presents from the point of view of industry, the underwriter and the investor. The technical problems incident to regulation of different types of stabilizing are varied and intricate. One of the major deterrents to earlier action on stabilizing rules has been the Commission's reluctance to adopt any program of comprehensive regulation upon the workability of which competent representatives of the industry could not reach substantial agreement. These considerations, coupled with its own awareness of the economic potentialities of its actions, resulted in the Commission's decision to attack the problem piecemeal, step by step. Segments of the larger problem may be isolated and an approach to its ultimate solution may be made through the regulation of those segments.



The area in which abuses have been and can again become most prevalent is stabilizing in connection with so-called "market offerings" where the price is represented to be at, or based upon, open market prices established by the ebb and flow of supply and demand. Before the act, operations to facilitate this type of offering often constituted



THE BEHAVIOR OF NEW ISSUE PRICES DURING DISTRIBUTION
(1921 - 1931)

BEHAVIOR OF NEW ISSUE PRICES AFTER SEASONING

All Issues
(1921-1931)

the most flagrant type of "pool manipulations" now outlawed by section 9 (a) (2) of the statute. Since 1934, stabilizing of the type now covered by Regulation X-9A6-1 continued to be subject to various abuses not otherwise prohibited by the Securities Exchange Act. It was because of the very susceptability of this kind of stabilizing to grave abuses that the Commission determined to apply the first test of substantive regulation of stabilizing to this field.

The new rules, of course, prohibit any "mark up" of prices. They also prohibit any rigid "pegging" of the market. Since stabilizers on each day can buy only on a scale down until the price has dropped by a fixed amount, the rules in effect permit no more than the maintenance of an orderly market during the distribution. The rules require stabilizers to give notice of their intention to stabilize. If stabilizing has actually been commenced, that fact must also be disclosed. Stabilizers may neither support the market nor profit from its independent rise at any price more than one point above the level at which stabilizing is commenced. Of course, the rules also prohibit any stabilizing at prices to which the stabilizers have reason to believe the security has been previously raised by illegal manipulation.

The Commission recognizes that experience under Regulation X-9A6-1 may well demonstrate the need for its future revision. The Commission is not so sanguine as to consider that the rule is perfect. Indeed, we may reach the point where operation under the rule will prove that stabilizing within this area should be wholly prohibited. The rule does, however, represent the first attempt to find out whether investors can be safeguarded by workable regulation against the "vicious and unsocial aspects" of stabilizing.

Separate statement of Healy, C. I do not approve Regulation X-9A6-1 (17 CFR, 240.-9a6-1) which the Commission adopted January 3, 1940, permitting and regulating the pegging, fixing or stabilizing of security prices on stock exchanges "to facilitate an offering at the market of any registered security". Nor am I in sympathy with the Commission's "Statement of Policy on the Pegging, Fixing and Stabilizing of Security Prices". Because of the importance of the problem, I think it best to record the reasons for my dissent.[1]

I. *The statute.* One of the causes leading to the enactment of the Securities Exchange Act of 1934 was the fact—sought to be corrected by the Act—that frequently the prices of securities on securities exchanges and over-the-counter markets had been manipulated and controlled with resulting harm to investors and to our national economy generally.[2] To banish such evil practices Congress enacted certain provisions. These provisions are contained in section 9 of the Act.

Only two of the subsections of section 9 are pertinent here; one prohibits manipulation and the other outlaws "pegging, fixing, or stabilizing" to the extent provided by the rules and regulations of the Commission. The provisions are as follows:

"Section 9. (a) It shall be unlawful for any person, directly or indirectly, by the use of the mails or any means or instrumentality of interstate commerce, or of any facility of any national securities exchange, or for any member of a national securities exchange:

• • • • •

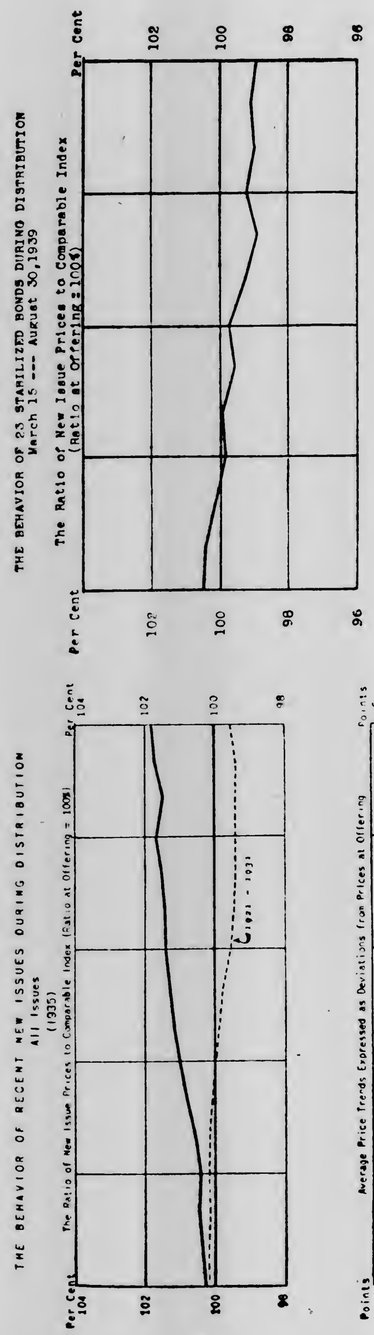
"(2) To effect, alone or with one or more other persons, a series of transactions in any security registered on a national securities exchange creating actual or apparent active trading in such security or raising or depressing the price of such security, for the purpose of inducing the purchase or sale of such security by others.

• • • • •

"(6) To effect either alone or with one or more other persons any series of transactions for the purchase and/or sale of any security registered on a national securities exchange for the purpose of pegging, fixing, or stabilizing the price of such security in contravention of such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors."

The differences between "manipulation" and "stabilizing" are often difficult of perception.[3] It is not surprising, therefore, that in almost every "manipulation" case the claim is advanced that the activities of the respondent were "stabilizing" activities.[3a] But under section 9 (a) (2) the Commission has consistently held, speaking generally, that a series of transactions in a stock effected for the purpose of maintaining its price at or about the level to which respondent previously had artificially raised it so as to induce purchase and sale by others violated the provisions of section 9 (a) (2).[4]

[1] When the regulation was adopted by the majority of the Commission I reserved the right to set forth my views in connection with the regulation and the related statement of policy.



[2] Securities Exchange Act of 1934, section 2 (3).

[3] See Woolsey, D. J., in United States v. Brown et al., 5 F. Supp. 81 (S. D. N. Y. 1933). The opinion in this case is invaluable because of its collection and analysis of the important pertinent decisions of both American and English courts.

[3a] For comments of a historian, see Beard and Beard, America in Midpassage (1939) 162.

A. A. Berle, Jr. in an article on "Stock Market Manipulation" (38 Columbia Law Review 393) advances the theory that the Securities Exchange Act of 1934 and certain sections of the Securities Act of 1933 are merely codifications of the law previously established in United States v. Brown et al., 79 F. (2d) 321 (C. C. A. 2, 1935) affirming 5 F. Supp. 81 (S. D. N. Y. 1933), cert. den. 296 U. S. 650 (1935). For other cases prior to Securities Exchange Act of 1934, see cases cited in note 17, *infra*.

ing from the sellers' activities on the exchange.[4]

The Commission has brought a number of suits for injunction and has developed and helped to prosecute a number of criminal cases in which the offense charged was that the defendants established artificial market prices and solicited orders for the stock at such prices without disclosing that the price on the exchange was an artificial one resulting from the sellers' activities on the exchange.[4]

Though the statute outlawed "manipula-

Securities and Exchange Commission, 95 F. (2d) 550 (C. C. A. 7, 1938); Securities and Exchange Commission v. Sapbier, unreported (D. C. 1936).
Proceedings have been successfully prose-

tion", stabilizing activities were subjected to such treatment as this Commission found to be necessary in the public interest or the interest of investors. The claim has been made that Section 9 (a) (6) leaves the Commission with no authority to outlaw "pegging, fixing and stabilizing". With this claim, I do not agree. The truth, as I see it, is that Congress was intent upon outlawing stabilizing but because of the strenuous fight made against such a course, determined to leave the problem with the Commission with a mandate to solve it. This conclusion is fortified by a statement of the Senate Committee on Banking and Currency which considered the matter. That committee stated:

"Practices such as pegging, fixing or stabilizing the price of a security are subjected to regulation by the Commission, which is authorized to prescribe such rules as may be necessary or appropriate to protect investors and the public from the vicious and unsocial aspects of these practices."[6]

If this Commission took the view which I take, that so-called stabilization in connection with offerings "at the market" is not in the public interest and that prohibiting it is necessary for the protection of investors, it would be at liberty to say so and to make its view effective by enacting a rule forbidding it when the distribution is "at the market". My adherence to this position has been known to the Commission for some time.

II. *Analysis of Regulation X-9A6-1* (17 CFR, 240.9A6-1). The regulation became effective February 15, 1940. What is the stabilizing that the regulation permits? In general, it permits those who are selling listed securities to the public in either a primary or secondary distribution on or off the exchange to stabilize the price on the exchange, provided that they do so in the way specified in the regulation.

Speaking generally, the regulation provides that no person shall stabilize a security registered on a national securities exchange to facilitate an offering "at the market" of any registered security unless a notice of intention to stabilize has been sent to this Commission. The stabilizing need not be done by the persons making the offering nor need it be confined to the security being offered, but it may include any other registered security. Thus, if the offering is of a security of a holding company, the stabilizing could, in theory at least, be applied to every other registered security of that corporation and to every registered security of every subsidiary of the corporation. For example, in the case of Electric Bond and Share Company about ninety-six securities could be affected.

The regulation provides that purchases made during the course of the stabilizing operations may not be at a price above the price of the last sale on the exchange and at such price only when the highest price of the security on the date of such purchase exceeds the last sale price by ½ of 1% of the highest price or ¼ point, whichever is greater. Thus, purchases may not be designed to raise the price, but only to retard a decline. In no event may purchases above a "maximum price" be made. The "maximum price" may be as much as 102½% of (but in no case more than one point above) the price at which any stabilizer effects his first purchase of the security after the notice of intention to stabilize has been sent to the Commission. That price establishes the level above which the stabilizer can neither support the market nor profit from its rise. It must be admitted that these provisions are intended to prevent prices being run up and to prevent stabilizing at a level to which the price has been run up by manipulation. But stabilizing is admittedly a form of manipulation. There is, to my way of thinking, no difference in substance between raising a price by manipulation and maintaining a price through manipulation.

It is important to point out that the regulation does not apply to securities offered at a fixed price but only to securities offered "at the market". "Offering at the market" is defined as an offering in which the offering price is represented to be "'at the market' or at a price related to the market price". Stabilizing when related to offerings at a fixed price, not represented to be at the market or related thereto, is left unregulated and undefined.

I think that the worst possible situation in which to permit stabilizing is when the offering price is represented to be "at the market". Even when stabilizing is permitted in connection with an offering at a fixed price, the harm to investors is not to be overlooked for there the stabilized price may frequently mislead and injure those who buy. The investor, observing the exchange price or (as often happens) having had his attention called to it by salesmen, believes, as he has a right to, that the price is one made by the free play of supply and demand in a fair and unmanipulated market.[7] But when the offering price is "at the market" the possibilities of deception and injury to investors are immeasurably increased. Securities issued "at the market" are issued on the theory that the price is set not by the underwriter but by the interplay of the forces of supply and demand. Yet the regulation by permitting stabilizing of such securities permits an interference with the free forces of supply and demand and thereby tolerates the creation of a price mirage and the distortion of the price which would be set by the market if it were to function without artificial support.

The process of distributing "at the market" where the market is controlled by the distributors has in the past caused the public investors losses amounting to many tens of millions of dollars. These losses—losses which are actual and not theoretical—are mirrored in case histories. The practice was employed by the Cities Service Securities Company (a wholly-owned subsidiary of Cities Service Company) when the securities company in the period from April 1927 to December 1930 collected from the American investors $1,146,518,779 from the sale of Cities Service common stock. Its peculiar vice was that the money used to build up the price of the common stock on the Curb Exchange was obtained from the public to whom the stock was being sold on the over-the-counter market at constantly rising prices; prices made by purchases with money which the public itself was providing.[7a] Control of exchange prices was employed in connection with the distribution of securities of Associated Gas and Electric Company, United Founders Corporation, Corporation Securities Company of Chicago and the Insull interests in distributing common stock of Middle West Corporation, to name only a few significant examples.

For some years I have had a conviction which deepens with the reading of the Commission's Reports on Investment Trusts and Investment Companies, especially those dealing with United Founders Corporation and United States Electric Power Corporation, that the greatest injury done the investing public through the manipulation or control of stock exchange prices, was the pervasive, destructive and seemingly irresistible power of the print on the ticker tape to promote the distribution and sale of securities over-the-counter and by off-the-exchange solicitations—securities many of which were overpriced, some of which were worthless, and others of which were issued from unworthy motives.

That an offering "at the market" implies a price fixed by the forces of supply and demand free from artificial stimulation was recently made clear by the unanimous decision of the Sixth Circuit Court of Appeals in Otis & Co. v. Securities and Exchange Commission.[8] In that case the Commission had asserted that Otis & Co. had violated Section 17 (a) (2) of the Securities Act of 1933 which makes it unlawful to obtain money by any untrue statement of a material fact or any omission to state a material fact necessary in order to make the statements made, in the circumstances, not misleading. A secondary distribution of the stock of the Murray Ohio Company was involved. Representatives of Otis & Co. approached certain large stockholders some of whom agreed to sell Otis & Co. a number of shares at the current exchange quotation. They and certain other stockholders agreed not to sell any of their remaining shares for a period during which Otis & Co. was redistributing (reselling) the stock to the public over-the-counter. It was alleged that during the period of resale, Otis & Co. dominated the buying side of this stock on the Cleveland Stock Exchange where it was listed. During this period the exchange quotation rose from 4½ to 19. Otis & Co. offered the stock "at the market", and there was evidence that its salesmen called the market quotations to the attention of customers. Otis & Co. resorted to the claim of stabilization—a claim which has been made in practically every manipulation case the Commission has ever instituted—and asserted that the withholding agreement was beneficial to both distributor and purchaser. The trial court found that Otis & Co. made no disclosure of its withholding agreements or of its extensive stock exchange purchases while its salesmen pursuant to instructions were offering the stock to the public "at the market". Our counsel claimed and both the trial and the appellate courts agreed with him that an offering "at the market" could refer only to a "price standard which normally reflects the operation of a free and open market in the sale and purchase of" the security. The appellate court was somewhat more emphatic in its views than the trial court and said: "We have held that the appellant's (Otis & Co.) offering to sell 'at the market' must have been understood to imply a price fixed by supply and demand free from artificial restraints and intentional stimulation, at least so far as appellant was concerned."[9]

The regulation permits stabilizing in the cases of both primary and secondary distributions. A primary distribution is, speaking generally, the first or original distribution of a security. The proceeds thereof usually go to the issuer. The secondary is, speaking similarly, a distribution or sale of a security by an individual owner who has owned it for some time. The avails of such distribution usually go to the owner of the security. Many secondary distributions are made by investors who, for reasons of their own (sometimes a poor opinion of the security or special knowledge of its weaknesses), wish to shift their investment or who are obliged to obtain cash for one reason or another. Many other secondary distributions have their origins in other motives. Many of them are generated by brokers or dealers who seek out owners of good sized blocks of shares, persuade them to execute an option or equivalent contract and then sell the securities either over-the-counter or on the exchange at a profit or for a commission.

The regulation specifies nothing as to the size of the offering involved. It follows that the secondary offering involved may be a very small one. It may be said that in such a case it will not pay the distributor to stabilize or that he will not have the necessary resources. That will be true in many cases; but there will be a residue of cases where it will not be true. They will consist principally of low-priced, low-grade securities whose intrinsic worth is open to the gravest doubt.

The regulation provides that no person subject to it shall stabilize unless he sends a notice of intention to stabilize to this Commission and to the exchange where stabilizing is to be effected. It is to be pointed out, however, that the person who gives the notice may or may not stabilize. Having given notice of his intention to stabilize, he may or may not do so; or he may stabilize on one day and not on another. He is required to make reports to the Commission (not to the exchange) describing his operations. These reports are to be made to the Commission on the first business day following the day on which the stabilizing occurs. Thus, reports of Monday's activities will reach the Commission the following Wednesday, and the reports of Saturday's deals will reach the Commission the following Tuesday. No provision has been made for making these reports public. The Commission has been urged to keep them secret. If they are not made public, the investor, at the most, will know no more than that a notice of intention to stabilize has been filed; he will not know whether the price of the designated security is actually being artificially maintained. No one will know, except some officers and employees of this Commission, the members and employees of the syndicate group and the brokers doing the stabilizing. It may be that a new and very undesirable type of speculation will develop, in which the real subject of the speculation will be not the merits of the security nor even the market trend, but whether the stabilizers are stabilizing!

Even if the reports are made public, they will be of limited usefulness to the investing public, for their contents will not be known at the best until several days after the stabilizing activities have occurred. Even this is premised on the unwarranted assumption that the contents of the reports filter through the country within a reasonable time after the reports are filed in Washington. It is true that those who make the offering in the over-the-counter market, through the mails or by office-to-office canvassing must state in the prospectus that notice of intention to stabilize has been filed, but they must immediately add, "This statement is not an assurance that the price(s) of the above security(ies) will be stabilized or that the stabilizing, if commenced, may not be discontinued at any time." If the distributor sells to any person otherwise than on an exchange, he must make written disclosure that stabilizing transactions have been effected, if that is the fact. However, this notice need not be given until the completion of the transaction. This, according to the current view, need not occur when the buyer contracts to buy or even when he pays his money, but only when the security is delivered. Assume that a buyer pays his money, receives his security, then learns for the first time that the market price on which he relied had been artificially maintained by the man who sold the security to him. Assume further that he is dissatisfied and wants his money back. Is he entitled to it? The regulation, of course, does not attempt to say. And I am unwilling to hazard an expression on what his rights may be. I am convinced that in the absence of this regulation and on the basis of common law cases, he would have the right to rescind the contract for purchase and recoup his money or sue for damages in an action at law.

However, such a buyer is the only one who gets such notice. The security being stabilized will carry no distinguishing symbol on the ticker tape. The ordinary investor or speculator who buys and sells on the stock exchange will have no knowledge as to whether the stock is subject to such a notice of intention or whether it is in fact being stabilized. The short seller will not know that the stock he is selling short is being stabilized, and that, therefore, although the trend of the market may be downward, the price of his stock may not go down and that he may not be able to cover at a lower price.[9a] Likewise, those associated with the persons engaged in stabilizing can play the long side of the market with at least the assurance that a strong group is stabilizing the stock and that the chances of the price dropping are decreased.

The ordinary buyer and seller in the over-the-counter market (not referring now to the distributor and stabilizer) will likewise have no notice of the stabilizing. Relatively few persons throughout the country will see in the press a statement that a notice of intention to stabilize has been filed; fewer persons will understand what it means.

Furthermore, the person engaged in stabilizing is not forbidden to enter into "stand-off" agreements. Indeed, that one engaged in stabilizing may negotiate such an agreement is recognized by Form X-9A6-1 (17 CFR § 240.9a6-1), which is the form to be used to notify this Commission of an intention to stabilize.[10] This means that the distributor who artificially maintains the price or retards a price decline during the period of distribution may obtain options from all the principal holders of the security (even though he has not the slightest intention of exercising any or all of them) or obtain their agreement that during the period of distribution they will not offer their securities for sale. The effect is, of course, to diminish the supply while the distributor is artificially increasing the demand (referring here, of course, to secondary distributions). Such a practice is strikingly similar to that which this Commission and the United States District Court and the Sixth Circuit Court of Appeals regarded as unlawful in the Otis & Co. case, discussed above.[11]

III. *The Commission's statement of policy.* The Commission's statement of policy is not coextensive with the regulation to which it is addressed. The statement is addressed to the general problem of stabilization and not alone to that restricted phase with which the regulation is concerned. The statement of policy states that stabilization may be "broadly defined as the buying of a security for the limited purpose of preventing or retarding a decline in its open market price in order to facilitate its distribution to the public." Implicit in this definition is the admission, which the Commission's statement elsewhere expressly makes, that stabilization is one form of manipulation.[12] Defined with less euphemism it is a manipulation designed to help induce the public to exchange its money for a security which the underwriter is selling at a market price the decline of which, through his own acts, he is preventing or retarding.[13]

The statement agrees that "whatever techniques are followed • • • stabilizing represents a form of manipulation which interferes with free and open markets" but accepts the practice as "an integral part of the American system of fixed price security distribution". That a practice which enables an underwriter to shift the results of his mistakes (such as incorrect pricing and poor distribution) to the public is accepted by the majority as "an integral part" of our system of security distribution is discouraging.

The philosophy of the Commission's statement is much the same as that of the Dickinson Committee whose report to the Sen-

---

[6] S. Rep. No. 1455, 73d Cong., 2d Sess., p. 55.

cuted against persons who have engaged in activities resulting in the establishment of artificial market prices but which, in violation of Section 17 (a) (2) of the Securities Act of 1933, were not disclosed. See Coplin et al. v. United States, 88 F. (2d) 652 (C. C. A. 9, 1937), cert. den. 301 U. S. 703 (1937); Kopald-Quinn v. United States, 101 F. (2d) 628 (C. C. A. 5, 1938).

It is to be pointed out that in these cases the defendants in the injunction cases and the respondents in the criminal cases and in our cases suspending brokers from exchanges were found guilty of *raising* prices by manipulation to assist them in distributing securities; whereas the present rule permits not the raising of prices but the preventing of price declines. I can see no differences in substance between manipulation that causes a rise in price and a manipulation that prevents a fall in price. I believe there is no difference.

[7] "When an outsider, a member of the public, reads the price quotations of a stock listed on an exchange, he is justified in supposing that the quoted price is an appraisal of the value of that stock due to a series of actual sales between various persons dealing at arm's length in a free and open market on the exchange, and so represents a true chancering of the market value of that stock thereon under the process of attrition due to supply operating against demand. (Citing cases)." Woolsey, D. J., in United States v. Brown et al., 5 F. Supp. 81, 85 (S. D. N. Y. 1933).

[7a] The price at which the stock was sold on the over-the-counter market was the previous day's closing price on the exchange.

[8] 106 F. (2d) 579 (C. C. A. 6, 1939).

[9] For cases where the Commission has held registration statements defective for failure to amplify the statement that securities are to be offered "at the market" by disclosing past or proposed manipulation of the market and other factors affecting it, see: Rickard Ramore Gold Mines, Ltd., 2 S. E. C. 377; Canusa Gold Mines, Ltd., 2 S. E. C. 548; Old Diamond Gold Mines, Ltd., 2 S. E. C. 786; Queensboro Gold Mines, Ltd., 2 S. E. C. 860; Ypres Cadillac Mines, Ltd., 3 S. E. C. 41; Thomas Bond, Inc., Securities Act Release No. 1980; Potrero Sugar Co., Securities Act Release No. 2051; Austin Silver Mining Co., Securities Act Release No. 1774; and Unity Gold Corporation, Securities Act Release No. 1776.

[9a] The Act does not outlaw short selling. It provides (Section 10) that it shall be unlawful to effect a short sale of any registered security in contravention of such rules and regulations as the Commission may prescribe. The Commission has adopted one rule limiting and regulating but not forbidding short sales. See Rule X-10A-1.

[10] Item 4 of Form X-9A6-1 reads: State which of the persons named in Item 1 has made or caused to be made any contract or arrangement which is in effect whereby the right of any person to sell any securities of the issuer of the securities involved in the stabilization (other than the securities which are or were comprised within the offering) was in any manner limited or restricted, and attach as Exhibit A a copy of each such contract and arrangement or, if oral, outline briefly the provisions thereof.

[11] Otis & Co. v. Securities and Exchange Commission, 106 F. (2d) 579 (C. C. A. 6, 1939).

[12] Clearly defined, "manipulation" is "a planned effort by an individual or group of individuals to make the market price of a security behave in some manner in which it would not behave if left to adjust itself to uncontrolled or uninspired supply and demand". Twentieth Century Fund, Inc., The Security Markets (1935) 444.

[13] A series of transactions raising the price for the purpose of inducing buying by others violates Section 9 (a) (2) of the Act and results in jail sentences, injunctions and disbarment of brokers from exchanges. A series of transactions designed to prevent or retard a decline in the price of a security in order to facilitate its distribution to the public is quite permissible!

ate" spoke of legitimate and illegitimate pools. That report said:

"• • • the underwriters support the market by trading in the securities on the exchange until the distribution is completed. This has been criticized on the ground that the public could have bought at a lower level if the underwriters did not support the market. If the security is properly priced, however, this transaction is not properly subject to criticism, since otherwise no undewriter could distribute at the public offering price, and if he could not, he could not have afforded to enter into a firm commitment to pay to the corporation the money and the latter, if it had no underwriting and had not completed its sales or securities before its maturity, might default. Naturally, such transactions may be perverted from their normal uses by 'rigged' quotations on the exchange so that when the syndicate stops trading, that is 'pulls the plug', the price sags and the public has a security which is selling several points below the public offering price. Such a sag in price, however, may in some cases be due to poor distribution of the security, i. e., it was sold to too many market traders rather than investors, so that the sales exceed the demand rather than to any intrinsic defect in the security." [15]

I find myself in accord with but little of this reasoning. The report says for example, "If the security is properly priced • • • this transaction is not properly subject to criticism". If this statement is sound the converse thereof should be equally sound, i. e., if the security is not properly priced, the transaction is properly subject to criticism. When is a security properly priced? What is a proper price if it is not one established by market based on supply and demand unaffected by unnatural restraints and stimulation? The stabilizing rule puts a premium on improper pricing in that the burden thereof may be passed to the public. It removes the one standard by which some sort of intelligent judgment can be formed as to whether the security was properly priced. It will make for a poor and inexpert corps of underwriters. But the Dickinson Report continues as an answer to possible criticism, "otherwise no distributor could distribute at the offering price". This is about equivalent to saying the distributor cannot induce the public to buy unless he is allowed to fool the public. The reasoning employed would almost justify taking the public's money by force if the corporation needing it had a maturity to meet. If an underwriter cannot distribute at the offering price without resort to artificially maintaining the price, he should not distribute at that price.

The Dickinson Report speaks of the possibility of the price sagging when the "plug is pulled" (i. e., where the stabilizing activities end) and ascribes this to rigging. There is no doubt that when the "plug is pulled" the price usually sags. It is a form of rigging, albeit a mild form. The price has often sagged when "the plug was pulled" merely because the supply has been increased at a rate out of proportion to the existing demand for the security. In such cases the price ought to sag. However, the report says: "Such a sag in price • • • may be due to poor distribution". There is no doubt that many sags have been due to poor distribution, but under this rule a premium is put on poor distribution. The distribution may be poor but if the stabilizing is effective the natural results of poor distribution will be postponed until after the distributor had made his profit.

In striking contrast to the Dickinson Report is the Pecora Report.[16] This report, happily, recognizes that there is no litmus to test the "good" and "bad" practices; it acknowledges the evils inherent in stabilization and does not seek to apologize for its conclusions.

In Section 3 of Chapter II of the latter report, investment banking methods are discussed. It is recognized that little true underwriting goes on (p. 93). With respect to pegging and stabilizing, it is said (p. 95):

"Obviously, the primary motive for artificially supporting the retail price is to afford the members of the selling group a period of time within which to induce the investing public to absorb the issue. Were the price to drop before all the bonds were sold, the bankers might be unsuccessful in disposing of the entire issue. The investor, relying upon the artificial price, is influenced to purchase the bonds by the apparent stability of the issue."

Instances are cited where the motive behind the pegging was merely to protect the interests of an individual who dominated the affairs of the corporation.

The report states further (p. 97):

"The pegging process operates to deceive the prospective investor. There is an artificial manipulation of price with a consequent misrepresentaton of the true market for the securities offered."

The conclusion supported by recitals of concrete instances, is "as soon as the bankers 'pull the plug', i. e., withdraw their support at the expiration of the period of primary distribution, there is a concomitant decline in the price of the bonds". Again the report:

"Thus the benefits accruing to the ultimate investor from this artificial price maintenance are negligible. Hence, the long term investor receives no lasting benefit from the stabilizing process."

Again (p. 99):

"No matter how the operation is characterized, its effect is the same—it creates the appearance of a stable market where public demand is maintaining the price, whereas in fact the stability is an illusion created by the manipulative practices of the bankers."

The history of "stabilizing" is accompanied by an impressive line of case-law holding that practice and substantially similar practices to be in effect "manipulation" and against the public policy and denying recovery under so-called stabilization agreements.[17] And this Commission has recognized that stabilizing possesses elements of harm against which the public was to be protected. In the promulgation of rules with respect to over-the-counter transactions the Commission promulgated a rule—Rule X-15C1-3 (17 CFR, 240. 15C1-3)—which provides:

"The term 'manipulative, deceptive, or other fraudulent device or contrivance', as used in section 15 (c) (1) of the Act, is hereby defined to include any representation made to a customer by a broker or dealer who is participating or otherwise financialy interested in the primary or secondary distribution of any security which is not admitted to trading on a national securities exchange that such security is being offered to such customer 'at the market' or at a price related to the market price unless such broker or dealer knows or has reasonable grounds to believe that a market for such security exists other than that made, created, or controlled by him, or by any person for whom he is acting or with whom he is associated in such distribution or by any person controlled by, controlling or under common control with him."

A practice which is deleterious on the over-the-counter market does not acquire propriety when practiced on an exchange!

The Commission's statement states that the "stabilizing can be apprized in the light not only of the needs of industry for capital, but of the prevailing methods of security distribution". What need be pointed out is that stabilizing operations are not necessary in the marketing of good issues properly priced and well distributed. Stabilizing becomes necessary only where the security is such that the underwriter must "make a market". In such a case it becomes the underwriter's weapon to defy normal market trends and to enable him to dispose of the securities at a price which he determines. At the same time it will give a fictitious appearance of strength to issues and attract investor's funds.

It is sometimes sought to justify stabilizing by pointing out that the process maintains a market for those investors who want to sell before completion of the distribution. This claim is not to be denied, nor need it be, for the real question is whether the process of maintaining the market for the benefit of a few who decide to sell encourages others to buy at prices which cannot be maintained once the support is withdrawn. If the answer is yes, the few who sell during such period and the distributor are benefitting at the expense of the many who sell after the break. As between the two groups, our duty is to protect the genuine investor.

There is unanimity of agreement that stabilizing encourages the overpricing of securities.[18] By giving a pretense of trading activity and stability of price it invites buyers into the market. Thus the demand for the security is increased although the price is "out of line".

The Commission's statement states: "Some proportion of an issue offered to the public even though it may be initially sold out by the underwriters to the selling group dealers will find its way back into the open market. • • • If these reofferings are not absorbed by public buying in the open market, their pressure will tend to force the market price below the original offering price." At another place in the statement reference is made to the argument that "stabilization is warranted in order to offset the market 'abnormalities' which result from the very fact of offering." I do not believe that an "abnormality" exists where supply exceeds demand. If supply is out of line with demand the price ought to fall and the underwriter ought not to be permitted, for the sake of his own purse, through the process of stabilizing to stop the fall long enough to permit him to pass the loss to the public. If the condition posed in the statement quoted above exists and if stabilizing is permitted the public will take the loss as soon as the "plug is pulled" and pay for the underwriter's error of judgment. The underwriter and not the public should pay for the former's mistakes. However, if the force of the argument be recognized, then those advancing it should also recognize that the permission to stabilize is not confined to cases where the threat to prices is due to the offering itself. The permission in fact takes no account of the cause of the decline. It may be due to a dozen other causes, such as gen-

[15] Stock Market Regulation, 73d Cong., 2d Sess. (1934).

R. (1892) 2 Q. B. D. 724; Berle, Liability for Stock Market Manipulation, 31 Col. L. Rev. 264 (1931).

[18] This fact is also acknowledged in the Commission's statement.

eral trends, disaster, et cetera. Still the stabilizing may continue—to the profit of the underwriter and to the detriment of the investor.

The Commission's statement frankly acknowledges that "stabilizing cannot as a practical matter be used to stem a market or economic trend of any real significance." This is certainly true. What need be added is that those who are induced to purchase securities during that brief period when the stabilizers are attempting to prevent the application to these normal trends and before their inability to do so for a substantial period is realized by them, will bear the burden of the attempt.

The Commission's statement makes reference to the results of an examination of stabilizing operations undertaken to facilitate the distribution of nineteen new bond issues. It appears that the average drop from original offering prices (after adjustment for market changes) was about 1.4% during the third month following their offering dates. These figures are of telling importance; particularly so when it is recalled that these nineteen issues were high-grade bonds and that they were offered during what was for the most part a "seller's market." These figures—taken from actual and not hypothetical experiences—make it abundantly clear that the genuine market begins when stabilization ends.[19]

The Commission's statement accepts the premise advanced by underwriters that they must always dispose of an issue within a few hours after the offering. That a speedy distribution is of value to the underwriter is not to be questioned in view of the restricted amounts of capital which the underwriters have and the very large amounts of participations which they accept.

I do not for one moment question the value of stabilizing to the underwriter. Some of them distribute nothing but high-grade first mortgage bonds where the underwriter's risk is at a minimum. Even in these cases the underwriting contract is completed by filling in the price and spread and amending the registration statement just a few hours before the public offering. In these cases the so-called underwriter often has informal assurance that every dollar of the issue will be sold almost at once. The underwriter naturally desires to eliminate from his undertaking every risk that he can eliminate. The fewer risks, the fewer his losses and the greater his profits. This is especially understandable in an underwriting system where the underwriter has little capital and accepts participations every year which exceed his total capital many times over. The tabulation set forth below is most revealing.[20] In such a system of underwriting the so-called underwriter tends to become a mere distributing agent or merchant.

In England, unlike the practice in the United States, the underwriters who take up an unsubscribed portion of an issue generally feel no haste in disposing of those securities. They realize that eventually a buyer will be found at the issue price or at a slight concession.[21] The haste of the American underwriters—admittedly a haste made necessary by their lack of capital—has often given rise to unnecessary losses. Underwriters have complained about the "failures" of certain issues. Though the claim is made that the underwriters were required to take substantial losses on such issues, the fact is that in some, though not all instances, if the underwriters had held the securities for a period they would have been able to sell the securities at a price above the original offering price and in the interim would have received the interest or dividends. The tabulation below is revealing.[22]

The self-interest of underwriters is human. We must not forget, however, that it is other people's money which they are seeking and that the savings of the public must not be taken from it by any method which is not strictly honest.[23] He who solicits from the owner of a large number of shares an option from which he then distributes over-the-counter with the aid of the tape print which he maintains through stabilizing operations, does not deserve to be called "underwriter." Such a course does not conform to the best standards of the market place.

Against the principle that underwriters should not be permitted to take the public's money by any means other than those strictly honest, no considerations of the paucity of underwriting capital or the needs of industry for capital should be permitted to prevail. I for one am convinced that all the needs of legitimate industry for capital can be met without resort to deception. To contend otherwise is no compliment to our industries.

I think our primary consideration must be the interests of investors for if the investor is driven from the market by unethical practices our whole system will collapse. Moreover, the investor is not the only one who is immediately affected by stabilizing. During the stabilizing period bank loans which are collateralled by the securities being stabilized will be effected,[24] and margin calculations will be based upon artificial prices. So too, the proper appraisal of the value of securities necessary for a fair calculation of taxes owed federal and state governments will be hindered.[25]

Only by giving controlling consideration to the interests of underwriters can it be said that stabilizing is in the public interest. The statute throughout speaks of public interest and the protection of investors as one and the same thing and I am convinced they are. In my opinion stabilizing is not in the interest of investors and thereby is against the public interest.

IV. The Commission's statement, using as an example an instance where an underwriter has entered into a firm commitment to distribute securities at a fixed price, refers to stabilizing as a practice which enables the issuing corporation to obtain from the underwriter a fixed sum of money at a fixed date. This example has little application to Regulation X-9A6-1 which has been adopted. This regulation is concerned with stabilizing only where the distribution is "at the market." In such case the market price is the offering price and there is no assurance to the issuing corporation that it will receive a fixed sum or a fixed price. Furthermore, the regulation is not limited to instances where firm commitments by underwriters have been executed. It applies equally to instances where the underwriter's obligation is that of merely exercising his best efforts to dispose of the securities. Here again the issuing corporation has no assurance of receiving a certain sum for there is no assurance that the entire issue will be sold.

[Securities Exchange Act Release No. 2446, March 18, 1940]

§ 241.2687 *Statement of the Commission respecting distinctions between the reporting requirements of Section 16 (a) of the Securities Exchange Act of 1934 and Section 30 (f) of the Investment Company Act of 1940.*

It should be noted that two marked differences exist between the requirements of Section 30 (f) of the Investment Company Act and Section 16 (a) of the Securities Exchange Act:

(1) The Investment Company Act requires reports not only from those classes of persons who are required to report under the Securities Exchange Act, but also from certain additional classes of persons. The classes of persons who must file on Forms N-30F-1 (17 CFR, 274.202) and N-30F-2 (17 CFR, 274.203) are the following: officers, directors members of advisory boards, investments advisers and their affiliates, and persons who own beneficially more than 10% of any class of outstanding securities (other than short-term paper). Those who are affiliates of investment advisers solely because they are employees are not required to report.

(2) Under the Investment Company Act, the reports relate to all classes of securities other than short-term paper. The reports under the Securities Exchange Act relate only to equity securities.

In regard to the classes of persons required to report on the new forms, definitions of all the classes named except "officers" may be found in section 2 (a) of the Investment Company Act. "Officer" is defined in the

[19] Steiner and Lasdon, The Market Action of New Issues—A Test of Syndicate Price Pegging, 12 Harv. Bus. Rev. 339 (1934). This article reports the results of a study of 288 issues and concludes that, "Of the 288 issues studied, 227, or 78.7% broke their offering prices within the six-month period. • • • Deducting convertible obligations • • • it was found that 203 out of 256 nonconvertible obligations, or 79.3%, broke their offering prices within the stipulated period. Considering amounts instead of number of issues, $5,327,700,000, or 75.1%, of the sum total of $8,427,900,000 worth of issues studied broke their offering prices. When the adjustment was made for convertible obligations, $5,467,600,000, or 77.5%, out of a total of $7,057,000,000 declined below the original price.

instructions to the forms to mean president, vice president, treasurer, secretary, comptroller, and any other person who performs for an issuer, whether incorporated or unincorporated, functions corresponding to those performed by the foregoing officers. It is the opinion of the General Counsel of the Commission that an assistant would be an "officer" if his chief is so inactive that the assistant is really performing his chief's functions. However, an assistant, although performing some functions which might be those of his chief, would not be an "officer" so long as these duties were under the supervision of his chief. Temporary absence or brief vacation of an officer during which an assistant performs the officer's duties would not constitute the assistant an "officer." Subject to the foregoing, assistant treasurers, assistant secretaries, and assistant comptrollers, for example, are not to be considered "officers" for the purposes of this definition.

[Securities Exchange Act Release No. 2687, November 16, 1940]

§ 241.2690 *Statement of the Commission issued in connection with the adoption of Rules X-8C-1 (17 CFR, 240.8C-1) and X-15C2-1 (17 CFR, 240.15C2-1) under the Securities Exchange Act of 1934 relating to the hypothecation of customers' securities by members of national securities exchanges and other brokers and dealers.*

Application of rules—(a) *Rule X-8C-1* (17 CFR, 240.8C-1). This rule applies to all members of national securities exchanges, and to all brokers and dealers who transact a business in securities through the medium of any such member.

(b) *Rule X-15C2-1* (17 CFR, 240.15C2-1). This rule applies to all brokers or dealers regardless of whether they are members of a national securities exchange or do a business in securities through the medium of such a member. The rule defines as a "manipulative, deceptive or other fraudulent device or contrivance" any hypothecation of customers' securities except under the same circumstances as are specified by Rule X-8C-1.

Prohibitions of the rules. Since the two rules, in effect, are identical in scope and text they will be discussed and explained together. Throughout this summary the term "broker" will be used to mean a member, broker or dealer. The rules contain three simple prohibitions which, generally speaking, coincide with the three clauses of Section 8 (c) of the Securities Exchange Act of 1934.

In effect, paragraph (a) of the rules provides that:

(1) A broker may not hypothecate securities carried for the account of his customers in such a way as a permit such securities to be commingled with securities of other customers unless he first obtains the written consent of each such customer;

(2) A broker may not hypothecate securities carried for the account of his customers under a lien for a loan made to the broker in such a way as will permit such securities to be commingled with securities of any person other than a bona fide customer; and

(3) A broker may not hypothecate securities carried for the account of his customers in such a way as to permit the liens of pledgees thereon to exceed the aggregate indebtedness of all of such broker's customers in respect of securities carried for their accounts.

Definitions. For the purposes of these rules the term "customer" does not include general or special partners or directors or officers of the broker, as the case may be, but does include other members, brokers or dealers. By excluding from the term "customer" any participant as such in any joint, group or syndicate account with a broker or any partner, officer or director of the broker, the rule permits the broker or any partner, director or officer thereof to participate with others in such accounts.

The term "securities carried for the account of customers" is defined by the rules to mean (1) securities received for the account of a customer; (2) securities sold, and earmarked or otherwise appropriated, to a customer; and (3) securities sold, but not appropriated, by a dealer to a customer who has made any payment on account, to the extent that the dealer owns and has received like securities. However, where securities are sold to a customer on a dealer basis, and where the securities are subject to a lien, they do not become "securities carried for the account of a customer" pending their release from such lien as promptly as practicable. Securities which are not "carried for the account of customers", of course, are not subject to the rules.

The rules provide that "aggregate indebtedness" of a broker's customers shall not be deemed to be reduced by reason of uncollected items. Thus, if the broker receives a check, part or all of the proceeds of which are to be credited to a customer, the "aggregate indebtedness" of customers is not reduced by the amount of the check until it has cleared. In the usual case, customers' debits are reduced or paid off by checks. Consequently, before such reductions in the "aggregate indebtedness" of customers actually occur, the broker will normally have a reasonable period of time between receipt of checks and their clearance in which he can reduce loans collateralized by customers' securities in order to prevent a violation of paragraph (a) (3) of the rules.

In computing the "aggregate indebtedness" of two accounts, one of which guarantees the other, they are to be treated as a single account and are to be considered on a consolidated basis. Furthermore, in the case of accounts in which both long and short positions are carried, the "aggregate indebtedness" of customers includes an amount equal to the market value of securities short in such accounts.

The rules also provide that in computing the total amount of the liens to which customers' securities are subject, a broker or dealer may disregard any rehypothecation thereof by another broker who is also subject either to Rule X-8C-1 (17 CFR, 240.8C-1) or Rule X-15C2-1 (17 CFR, 240.15C2-1).

Exemptions. Generally speaking, brokers should have no difficulty in complying with the requirement of paragraph (a) (3) that a broker must not pledge his customers' securities for a sum which, in the aggregate, is greater than the total amount that his customers owe to him on securities carried for their accounts. Good brokerage practice alone would make it desirable for a broker to borrow substantially less on customers' securities than customers owe him. There should thus be a "cushion" of his own capital between the amount of customers' debits and the amount of the broker's bank loans on customers' securities. This "cushion" should be sufficient in size to absorb any reasonably anticipated reductions in customers' indebtedness.

Nevertheless, in order to take care of the exceptional situation where customers' indebtedness is paid off in so great an amount as to use up this "cushion" and thus to reduce the total of customers' debit balances below the broker's current borrowings on customers' securities, this paragraph contains an exemption. The exemption provides that paragraph (a) (3) shall not be deemed to be violated if, as a result of reductions in the aggregate indebtedness of customers on any day, the amount of the liens to which customers' securities are subject during that day exceeds the total indebtedness of customers in respect of securities carried for their accounts. A payment by a customer on any day which reduces the amount which the customer would owe the broker on that day had the payment not been made is regarded as a reduction of indebtedness on that day within the meaning of the rules.

This exception is a limited one and is applicable only if funds [or securities][1] sufficient to reduce the liens to which customers' securities are subject are paid or placed in transfer to pledgees so as to eliminate any temporarily exempted excess as promptly as practicable after the reduction occurs. The phrase "as promptly as practicable", as used in this exemption and in paragraph (b) (2) of the rules, means as soon as possible in the light of all the surrounding facts and circumstances, such as the size of the firm and its staff, the scope of its operations, the volume of business and the physical, practical and geographical limitations.

However, if it is not practicable to eliminate such an excess of liens over customers' indebtedness on the day upon which it arises, the rules require that funds sufficient to eliminate the excess must be paid or placed in transfer to pledgees either before one half hour after the commencement of banking hours on the next banking day at the place where the broker carries his largest principal amount of loans or before the broker obtains or increases any bank loan collateralized by customers' securities, whichever is earlier.

Exemption for cash accounts. Paragraph (c) of the rules affords a limited exemption from the requirement of paragraph (a) (1) that customers' securities may not be commingled under a loan unless all of the customers concerned have consented to such commingling. This exemption is applicable only to securities which are carried for a customer in a special cash account within the meaning of Section 4 (c) of Regulation T of the Board of Governors of the Federal Reserve System.

Generally speaking, such a special cash account is one in which the member, broker or dealer purchases securities for, or sells securities to, a customer only if funds sufficient for the purpose are already held in the customer's account or if the purchase or sale is effected in reliance upon an agreement, accepted in good faith, that the customer will promptly make full cash payment for the securities.

The exemption afforded by the rules for the commingling of customers' securities without their consent, where the securities are carried in such a special cash account, is subject to the condition that at or before the completion of the transaction of purchase of such securities for, or of sale of such securities to, the customer written notice is given or sent to him disclosing that the securities are or may be hypothecated under circumstances that will permit the commingling thereof with securities of other customers. The term "the completion of the transaction" has the same meaning as is given to that term by Rule X-15C1-1 (b) (17 CFR, 240.15C1-1).

Exemption for clearing house liens. Paragraph (d) of the rules exempts from the operation of paragraphs (a) (2), (a) (3) and certain other provisions any lien of a clearing corporation or similar department or association of a national securities exchange for a loan made and to be repaid on the same calendar day, if it is incidental to the clearing either of securities or of loans through the clearing house. Thus, for all practical purposes, the broker, in operating under paragraphs (a) (2) and (a) (3) of the rules can disregard his pledges of customers' securities under clearing house liens. However, in computing "aggregate indebtedness" the broker must also disregard any indebtedness in respect of any securities which are subject to a clearing house lien exempted by this paragraph.

[1] The phrase "or securities" was added to the text here summarized by an amendment of the rules effective March 28, 1941.

Exemption for certain liens on securities of noncustomers. Paragraph (e) permits pledgees, whether banks or others, to have what may be referred to as a "one-way lien" against the broker's own securities. In discussing this exemption, brief reference must first be made to existing banking practices in the handling of brokers' loans. The usual type of loan agreement entered into between banks and borrowing brokers is designed to give the pledgee bank a lien upon all securities which the broker may place in the possession of the bank, for the full amount of all credit extended to the broker, even though some of such securities may be securities which the borrowing broker is carrying for the account of his customers. A broker's pledge of customers' securities under such circumstances to a bank, broker or other lender from which he is also borrowing funds collateralized by his own securities would, of course, violate paragraph (a) (2) because securities of customers would thus be commingled under a common lien with securities of persons other than bona fide customers. Paragraph (a) (3) might also be violated because customers' securities would thus be subjected to liens for a total amount equal to the sum of the broker's borrowings on customers' securities and his borrowings on his own securities, which total might, of course, exceed the aggregate indebtedness of all customers to the broker.

The type of loan agreement heretofore in force between banks and borrowing brokers in some cases also provides that the bank may rehypothecate any collateral deposited by the broker, alone or with other property, for an amount greater than the broker's borrowings from the bank. The bank's right to effect such a rehypothecation would, of course, also involve a breach of paragraph (a) (2) and paragraph (a) (3) of the rules. Furthermore, any right of rehypothecation by a bank which would permit the commingling of the broker's own securities with those of his customers would, in any event, violate paragraph (a) (2).

Similarly, under the "day loan" agreements which have been in general use, the lending banks have obtained a lien upon all securities bought or otherwise acquired with the proceeds of the day loan. Under such an agreement, where a firm uses the proceeds of a day loan to take up securities for its own account as well as for the account of customers, it would be hypothecating their securities and his own securities under a single lien.

The same situation normally exists where a broker is carrying an account of his own and an omnibus account for his customers with a second broker. Any lien which the second broker carrying the accounts may have against customers' securities in the omnibus account to secure the first broker's debit balance in his own account would likewise involve a violation by the first broker of paragraph (a) (2) and, in some cases, of paragraph (a) (3) of the rules.

In order to avoid such violations of Rules X-8C-1 (17 CFR, 240.8c-1) and X-15C2-1 (17 CFR, 240.15c2-1), brokers who pledge customers' securities with any pledgee from whom they are also borrowing on their own securities must see to it that the pledgee, whether it be a bank, another broker or any other lender, does not obtain a general or so-called "cross-lien" on customers' securities as additional collateral for other loans which it has made to the broker on his own securities or those of his partners on other non-customers. In other words, where a broker pledges customers' securities as well as his own securities with a single pledgee to secure several loans, one or more of which are made against the broker's own securities, it will be necessary that the pledgee does not have a lien upon customers' securities for any loan except other loans also made against securities carried for the account of customers of the same broker.

It will also be necessary to see that the pledgee, unless he is a broker or dealer subject to Rule X-8C-1 (17 CFR, 240.8C-1) or Rule X-15C2-1 (17 CFR, 240.15C2-1), does not have a right to rehypothecate customers' securities commingled with those of the broker or to rehypothecate customers' securities for a sum greater than the loans against those securities.

Furthermore, in situations where the broker will use the proceeds of a "day loan" to take up or otherwise acquire securities for his own account as well as for the account of customers, it will be necessary that, at any particular time, the lien of the pledgee under "day loans" upon securities of customers shall be no greater than that amount of the proceeds of the "day loans" as is then actually in use to acquire customers' securities, plus the amount of other loans (i. e., not "day loans") collateralized in whole or in part by customers' securities. Such a limitation on the lien of the "day loan" would prevent not only the violation of paragraph (a) (2) which would otherwise result from commingling customers' securities with the firm's own securities under such a loan, but also possible violations of paragraph (a) (3) which might so result.

The Commission understands that a substantial time before the rules become effective, banks which customarily do a loan business with brokers and dealers will have made appropriate revisions in their general loan agreements as well as in their "day loan" agreements designed to permit brokers to meet the requirements of paragraphs (a) (2) and (a) (3) of the rules.

Although paragraph (a) (3) of the rules does prevent a pledgee from having a lien on customers' securities for loans made against the brokers' own securities, paragraph (e) of the rules permits the converse. That is, it permits what might be called a "one-way lien" against the broker's own securities as additional collateral for loans made against customers' securities. To this end the rules provide that the broker may use his own securities as additional collateral for day loans and for loans which are "made against securities carried for the account of customers." For the purposes of this exemption, such a loan is defined as a loan which is obtained or increased only on the basis of securities carried for the account of customers. * * *[2] The exception does not permit the broker to deposit his own securities as collateral in substitution for customers' securities.

Notice requirements. Finally, paragraph (f) of Rule X-8C-1 (17 CFR, 240.8C-1) provides that no person subject to its provisions shall hypothecate any securities of a customer unless at or prior to the hypothecation he gives written notice to the pledgee that the security pledged is carried for the account of a customer and that the hypothecation does not contravene the rule. However, in the case of an omnibus account, where written notice to the broker carrying the account may not be practicable before each transaction which results in a pledging of the securities bought for the account, the member, broker or dealer for whom the account is carried need only furnish a signed statement to the broker carrying the omnibus account that all securities in such account will be customers' securities and that the hypothecations will not contravene the rule. Day loans which are made and to be repaid on the same calendar day are exempted from these requirements for the giving of notice to pledgee.

[Securities Exchange Act Release No. 2690, November 15, 1940]

[2] The deleted material was rendered inapplicable by subsequent amendment of the rules.

§ 241.2822 *Opinion of General Counsel, relating to paragraph (b) (2) (ii) of Rules X-8C-1 (17 CFR, § 240.8C-1) and X-15C2-1 (17 CFR, § 240.15C2-1) under the Securities Act, concerning the hypothecation of customers' securities.*

Your first question assumes a situation in which a dealer sells securities to an out-of-town customer. The customer instructs the dealer to deliver the securities to the X National Bank for his account against full payment of the purchase price to be made by the X National Bank. As soon as the dealer is in a position to make delivery he puts the securities into an envelope addressed to the X National Bank for the account of the out-of-town customer. At the same time, a bookkeeping entry is made showing the certificate numbers of the certificates which are to be delivered to the X National Bank in accordance with the customer's instructions. The dealer's messenger tenders the security to the X National Bank. However, the X National Bank for some reason refuses to accept delivery and to pay the purchase price. You ask whether such securities by reason of this act of identification have become "securities carried for the account of" the out-of-town customer under paragraph (b) (2) (ii) of Rules X-8C-1 (17 CFR, 240.8C-1) and X-15C2-1 (17 CFR, 240.15C2-1).

It is my opinion that under these circumstances the securities in question have not been "appropriated" by the dealer to the customer within the meaning of that paragraph of the Rules and therefore are not "securities carried for the account" of the customer. Such identification as has been made by the dealer is merely incidental to the mechanics of the delivery which is required to fulfill the sale. In my opinion, in situations where the terms of the sale call for delivery to the buyer or to an agent of the buyer against full payment of the purchase price, "appropriation" within the meaning of the Rules normally would occur only when delivery is made to the purchaser or the purchaser's agent and accepted by him.

As a second question, you ask when "appropriation" occurs if the out-of-town buyer instructs the dealer to ship the securities to him under a sight draft to which the securities are attached. I understand that in such a case the dealer gives the draft and the securities to a bank for transmittal and collection and that ordinarily such bank is considered the sole agent of the forwarding dealer for the purposes of transmission and collection. Here again, it is my view that the securities are not "appropriated" to the customer under the rules until they are delivered to the buyer or the buyer's agent and the draft has been honored. Whether the dealer gives the securities and the draft to the bank for "collection only" or obtains immediate credit from the bank on the draft by discounting it or otherwise is in my opinion immaterial.

Of course, this opinion as to when "appropriation" occurs in such a case is predicated upon what I understand to be the customary practice in the business. It is possible that special arrangements may be made between the parties as a result of which "appropriation" may take place before the delivery of the securities and the honoring of the draft. This opinion does not purport to pass upon such special cases.

Finally, you inquire when "appropriation" under the Rules takes place in dealers' transactions in which there is no agreement as to the time, method and place of delivery, or in which for other reasons prompt delivery of the securities sold is not contemplated. In those situations the securities would be considered to have been "appropriated" when the dealer segregates, identifies or otherwise earmarks the securities sold either by tagging them, by placing them in an envelope for the

customer or by identifying them by some other means, such as a bookkeeping entry, in the customer's account, of the certificate numbers of the securities sold to him. From that time on the securities are "securities carried for the account of" customers and, subject to the temporary exception for existing liens which paragraph (b) (2) (ii) of the Rules itself provides, any pledge of the securities would have to meet the requirements of the Rules.

[Securities Exchange Act Release No. 2822, March 17, 1941]

§ 241.3040 *Partial text of letter sent by the Director of the Trading and Exchange Division to certain securities dealers who had failed to keep records of the times of their securities transactions, as required by Rules X–17A–3 (17 CFR, 240.17a–3) and X–17A–4 (17 CFR, 240.17a–4) under the Securities Exchange Act.*

I wish to emphasize that paragraph (a) (7) of Rule X–17A–3 (17 CFR, 240.17a–3) specifically requires that "a memorandum of each purchase and sale of securities" for the account of your firm be kept which must show "the price and, to the extent feasible, the time of execution" of each transaction. The phrase "to the extent feasible" was intended to be applicable only in exceptional circumstances where it might be actually impossible to determine the exact time of execution. In this connection, I wish to point out that our experience has demonstrated that it is in fact feasible to keep the times of so-called "trading transactions". I might also add that a transaction is "executed" within the meaning of the rule when the contract to sell or purchase, as the case may be, is entered into by the trader or other person authorized to effect transactions for the account of the firm.

I therefore suggest that your firm take prompt steps to insure the recording of the times of all transactions executed by your trading department as well as of all other transactions. Even in unusual situations where it may be physically impossible to determine the precise time when the transaction was executed, the rule requires that at least the approximate time be noted.

[Securities Exchange Act Release No. 3040, October 13, 1941]

§ 241.3056 *Opinion of General Counsel, relating to the anti-manipulation provisions of section 9 (a) (2), 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934, as well as section 17 (a) of the Securities Act of 1933.*

You have asked me for my opinion as to the legality of certain transactions which you propose to effect in stock of the X Corporation, a security listed on a national securities exchange and registered under the Securities Exchange Act of 1934. As I understand the situation from your letter, you have made a study of the condition of the X Corporation, and have satisfied yourself that, at the current market quotation, the stock is underpriced. You have recently acquired a substantial block of the stock in a privately negotiated transaction, and contemplate making a public distribution of the block so acquired. In order to increase the size of the proposed redistribution you wish to purchase additional shares in the open market. Your letter indicates that you expect that your purchases of additional shares will have the effect of raising the market price of the stock to a figure somewhat closer to what you consider to be its true value. Your proposed redistribution would be at that increased figure.

In entering upon any such program, it is essential to keep in mind the provisions of section 9 (a) (2) of the Securities Exchange Act, which makes it unlawful, directly or indirectly, "to effect • • • a series of transactions in any security registered on a national securities exchange creating actual or apparent active trading in such security or *raising* or depressing *the price* of such security, *for the purpose of inducing the purchase* or sale *of such security by others.* [The italics are mine.]

Your letter shows that a vital part of your program will be the expected rise in price which will enable you to make the profit without which you would naturally be unwilling to go into the operation. As you point out, any substantial buying on your part would naturally advance the price. Bringing about a price rise by extensive purchases is not unlawful in itself; this was recognized by the Senate Committee on Banking and Currency, which, in its report on the Act prior to its passage, said:

"To manipulate the price of a security by any series of transactions with the specific intent of raising or depressing the price, is prohibited by paragraph (3) [the present paragraph (2)]. Any extensive purchases or sales are bound to cause changes in the market price of the security, but mere knowledge on the part of the purchaser or seller that his transactions will have this effect is not sufficient to bring him within the scope of this provision. Thus, if a person is merely trying to acquire a large block of stock for investment, or desires to dispose of a big holding, his knowledge that in doing so he will effect the market price does not suffice to make his actions unlawful." Sen. Rep. No. 792, p. 17, 73d Cong., 2d sess.

The purpose of Section 9 (a) (2) is thus not to prohibit purchasing which may advance the market, or selling which may depress it. However, when purchasing is done under such circumstances that it must be expected to, and does, raise the price, and where the purpose of such purchasing is to induce others to purchase—presumably at the higher levels thus created—the statutory elements are present, and a violation of the Act is involved. The Act makes unlawful any series of purchases made for such a purpose, whether or not the purpose is achieved, i. e., whether or not any other persons do in fact purchase at the higher levels. And furthermore, it is immaterial that the program is undertaken in a bona fide belief that the security ought for some reason to be selling at the higher level.

As the existence of a violation of Section 9 (a) (2) is dependent upon the precise acts engaged in during the course of an operation and the purpose with which they are entered into, I am naturally reluctant to attempt any expression of opinion in advance as to whether any proposed operation will be in violation of the law. Only an analysis of the precise activities conducted can justify an opinion on such a question. And, of course, questions of purpose and motive can ordinarily be best determined by the observer on the basis of the evidentiary weight to which concrete facts and actions are reasonably entitled. It is in this sense that the timing of any selling in which you may engage becomes important. Let me illustrate this by two hypothetical cases:

On the one hand, let us suppose that a broker, believing a stock to be underpriced, enters into a buying program which, in view of the condition of the market, he knows will have the result of raising the price. From time to time he disposes of part of his purchases, either over the exchange or over-the-counter, to customers attracted either by the rising price or the increased activity, at the levels which his buying has thus created. Or, to vary the case, he makes no sales until his purchases have carried the price to what he considers proper levels, and then disposes of the stock at those levels, either over-the-counter to his customers, or, if he believes the market by reason of the increased activity he has generated will take the selling without breaking, by means of sales over the exchange.

In either case, the broker will have effected a series of purchases creating active trading and raising the price of the security, and it will be difficult to avoid the inference that his transactions were effected for the illegal purpose of inducing others to buy. The fact that the broker may have believed bona fide that the stock at higher levels would still be a good buy for his customers is immaterial; tampering with a market, manipulating it, cannot be excused even by an honest belief that it would be of benefit to others to have it tampered with. And in the picture I have drawn, the relevance of the sales is not that they are an indispensable element of the offense, but that they are of great evidentiary weight in determining the purpose with which the buying was undertaken. Consequently, under the circumstances stated, I should be of the opinion that the broker in question was guilty not only of violating section 9 (a) (2) of the Securities Exchange Act, but also of violating the general fraud provisions of the Securities Act and the Securities Exchange Act. In this connection I direct your attention to the Commission's opinion in the Matter of Barrett & Co., Securities Exchange Act Release No. 2901.

On the other hand, let us suppose the case of a broker who enters into a similar buying program with the same faith in the value of a stock, and the same belief that at higher levels it will still be a good buy for his customers. This broker likewise knows that his buying will affect the price of the stock, either through increased activity or rising prices. He does not buy, however, for the purpose of inducing others to purchase, but rather for the purpose of acquiring a supply which he can dispose of at a profit if an expected increase in market price does materialize from other causes than his buying activity. Consequently, this broker, before making any sales, whether on the exchange or over-the-counter, takes care to permit a sufficient period of time to elapse from time of his last purchase to make sure that the effect of his purchases on the market will have been dissipated, and the market will have found a level (whether above, below, or at, his last purchase price) which is its own independent level, created by outside factors of supply and demand and unaffected by his own activities. The length of time he waits will be dependent upon the character of the market, and the length of time which the market takes to lose the effect of his buying.

Of course, other factors discernible in connection with the operation might be of evidentiary value in establishing the existence of a manipulative purpose even though resales were not undertaken in proximity to the purchasing. Such factors might include the pattern of the broker's purchasing—that is, whether his purchases were made in a manner particularly calculated to raise market prices, whether he accompanied his buying by efforts to induce others to buy in the market at the same time, whether he was being pressed to repay or reduce bank loans for which securities of the same issues were held as collateral. The presence of these or other similar factors might well lead, as a matter of evidence, to the conclusion that the broker was motivated by a manipulative purpose.

However, in the absence of such other complicating factors, it would seem that in the case I have last described any inference of illegality which might have arisen merely from the fact that the broker's buying had raised the market price would be rebutted by the fact that he had avoided resales until the effect of his buying on the market had been dissipated and the market price had become a price uninfluenced by his buying program.

I appreciate that in the two cases I have described the brokers may claim to have been motivated by equally genuine desires to assist their customers into good and fairly priced investments. But the facts of the second case, as I have stated them, do not seem to me to raise any inference of manipulation, whereas I believe that from the facts of the first case a manipulation may fairly be inferred. And the program presented by your letter seems to me to fall within the first rather than the second of my two hypothetical cases. The act is designed to prevent manipulative activities, and does not excuse them merely because they may be in part benevolently inspired.

[Securities Exchange Act Release No. 3056, October 27, 1941]

§ 241.3069 *Opinion of the Chief Counsel to the Corporation Finance Division relating to when-issued trading of securities the issuance of which has already been approved by a federal district court under Chapter X of the Bankruptcy Act.* This is the same as Trust Indenture Act Release No. 31 (17 CFR 261.31). [Securities Exchange Act Release No. 3069, January 4, 1945]

§ 241.3085 *Statement of Commission policy with respect to the acceleration of the effective date of a registration statement.*

Section 12 (d) of the Securities Exchange Act of 1934 confers upon the Securities and Exchange Commission discretionary authority to accelerate the effective date of registration of securities for which applications for registration are filed under Section 12 (b) and (c). The Commission's general policy regarding requests for acceleration will be as follows:

The Commission will consider requests for acceleration of the effective date of registration of securities in cases where, in its opinion, adequate and reasonably current information concerning the issuer has previously been filed and made available to the general public under any Act administered by the Commission. However, in passing upon requests for acceleration the Commission will also consider the following additional factors:

(a) The adequacy of disclosure in the application for registration and its general compliance with the requirements of the Act and the rules and regulations thereunder;

(b) The distribution of the securities being registered or the distribution of other securities related thereto;

(c) The operation of the exchange's trading mechanism in relation to the date on which effective registration is requested;

(d) Compliance with the registration requirements of the Securities Act of 1933;

(e) Any other factors pertinent to the particular case, such as required stockholder approval; qualification under applicable State "Blue-sky" laws; authorization by appropriate State and Federal Agencies having jurisdiction; Court proceedings; and similar matters connected with the securities being registered or with other securities related thereto.

Requests for acceleration of the effective date of registration of securities may be made either by the registrant or its authorized representatives or by the exchange on which registration is sought. Every request should be in writing and should state the grounds upon which it is based and the approximate date on which effective registration is desired.

While the Commission will cooperate with registrants and with exchanges by acting upon requests for acceleration as promptly as possible, consistent with the public interest and the protection of investors, applications for registration should be filed early enough to allow at least ten days for examination of the application and consideration of the request for acceleration by the Commission.

Wherever applications can be filed sufficiently in advance to permit registration to become effective in the ordinary course, requests for acceleration should not be made.

[Securities Exchange Act Release No. 3085, December 6, 1941]

§ 241.3380 *Letter of the Director of the Corporation Finance Division relating to sections 14 and 18.*

The rules in Regulation X–14 (17 CFR, 240.14) provide in effect that no proxy solicitation relating to a meeting of security holders at which the election of directors is an item of business shall be made by the management of the issuer unless each person solicited is concurrently furnished or has previously been furnished with an annual report to security holders containing such financial statements for the last fiscal year as will, in the opinion of the management, adequately reflect the position and operations of the issuer. The rules further require that copies of the annual report to stockholders must be mailed to the Commission in order that it may check compliance with the rule. You inquire whether the reports thus mailed are considered by the Commission to be material "filed" with the Commission within the meaning of Section 18 of the Act and therefore to be subject to the liabilities imposed by that section.

We do not regard the copies of annual reports so mailed to the Commission to be proxy solicitation material "filed" with the Commission or subject to the proxy rules or to the liabilities of Section 18 of the Act except in cases in which the issuer specifically requests that it be treated as part of the proxy soliciting material or in cases in which it is incorporated in the proxy statement by reference. This is so whether the annual report is sent to the persons solicited and to the Commission in advance of the proxy statement or concurrently with it.

[Securities Exchange Act Release No. 3380, February 2, 1943]

§ 241.3385 *Excerpts from letters of the Director of the Corporation Finance Division relating to section 14 and Schedule 14A under Regulation X–14 (17 CFR, 240.14).* The first excerpt refers to paragraph (H) of item 5 of Schedule 14A which reads as follows:

Describe briefly any interest, direct or indirect, of each person who has acted as a director of the issuer during the past year and each person nominated for election as a director and any associates of such director or nominee in any transaction during the past year or in any proposed transaction to which the issuer or any subsidiary was or is to be a party. No reference need be made to immaterial and insignificant transactions. If the interest was or is to be in the purchase or sale, other than in the ordinary course of business, of property by the issuer or a subsidiary, include a statement of the cost of the property to the issuer or subsidiary and a statement of the cost to the purchaser or vendor.

The definition of the term "associate" in Rule X–14A–9 (17 CFR, 240.14A–9), which is referred to in the Director's letter, reads as follows:

The term "associate", used to indicate a relationship with any persons, means (1) any corporation or organization (other than the issuer or a majority owned subsidiary of the issuer) of which such person is an officer or partner or is, directly or indirectly, the beneficial owner of 10% or more of any class of equity securities, (2) any trust or other estate in which such person has a substantial beneficial interest or as to which such person serves as trustee or in a similar fiduciary capacity, and (3) any relative or spouse of such person having the same home as such person.

The Director's comment on this item follows:

In general, the following principles should be observed in preparing the information called for by paragraph (H) of item 5.

The word "interest" means a material interest. In determining the materiality of a person's interest, the scope of the definition of the word "associate" in Rule X–14A–9 (17 CFR, 240.14a–9) may be considered as indicating the type of interest in respect of which information should be furnished. For example, the fact that a director of the issuer is also a director of another company is not enough of itself to establish the materiality of his interest in transactions between the two companies. On the other hand, if the director of the issuer were an officer or holder of 10% or more of the stock of the other company, his interest in transactions between the two companies should be disclosed unless the transactions were immaterial and insignificant.

Your letter sets out a list of transactions between your company and other companies or firms in which a director of your company is a director or partner of the other party to the transaction. If the director's interest in the transaction arises merely from the fact that he is a director of the other company, it appears in the light of the principles stated above that no mention of the transaction need be made. However, in commenting on your questions I shall assume that your director is an officer, partner or 10% stockholder of the other party to the transaction.

Your list is as follows:

1. A bank which makes commercial loans to the company at the going rate of interest and also issues Letters of Credit, etc. at the going rate.

2. An insurance company which issues policies of Marine Insurance in the usual form and at the usual rates.

3. An industrial company from which the Company makes purchases of machinery, equipment or supplies.

4. A law firm which is employed on an annual basis to handle various legal matters.

5. A tenant at a substantial rent of part of an office building owned by a subsidiary of this company.

6. A railroad over which this Company ships most of its products.

7. A telegraph company.

8. A telephone company.

9. An electric light company.

10. A sales agent for one particular line of fabrics in one city.

I believe that a director's interest in transactions with the companies referred to in 7, 8 and 9 need not be referred to under paragraph H if the transactions involved the ordinary services rendered by such companies and the services were rendered at the usual and regular rates. If the transactions involved extraordinary, unusual or special services and were not immaterial and insignificant, the interest of directors in them should be disclosed.

Directors' or their associates' interest in transactions with the companies referred to in 1 to 5, inclusive, and in 10 should be disclosed unless the transactions were immaterial and insignificant.

If a choice between two or more carriers is available to the company in determining the route over which its products should be shipped, I should consider that the director's interest in the transactions referred to in 6 should be disclosed unless the transactions were immaterial and insignificant.

The description of the transaction and of the director's interest in it should be brief,

Details such as the dollar amount involved and the precise terms of the arrangements need not be stated.

To another inquiry regarding the same provision of the rule, the Director wrote as follows:

You state that a director of the issuer is an officer of a banking institution with which the company may have funds on deposit, or which may act as trustee under a mortgage or other indenture, or as transfer agent of stock, or as registrar with respect to outstanding stocks or bonds. You ask whether the director's interest in these transactions should be disclosed under Item 5 (H).

Where a director of the issuer is an officer of a banking institution which during the period covered by the statement has rendered services as trustee under a mortgage or other indenture, the existence of such relationship should be disclosed unless the whole matter is immaterial and insignificant. Directors' interests in the other transactions mentioned in this item need not be disclosed.

Another excerpt refers to the paragraph (I) (3) of item 5 which requires in respect of each director, nominee, or person who has acted as an officer but not as a director and who has received remuneration in excess of $20,000 during the fiscal year, a statement of:

The amount paid or set aside by the issuer and its subsidiaries primarily for the benefit of such director, officer or nominee, pursuant to each pension or retirement plan of the issuer and its subsidiaries or other similar arrangement, and the amount of the annual benefits estimated to be payable to such director, officer or nominee in the event of retirement.

The Director's comment on this paragraph follows:

You state that your employees' retirement plant provides for contributions to the retirement fund both by the employees and by the company. The amount of retirement benefits, if any, which a particular officer or director will receive will depend upon his continuance in the company's employ until he reaches retirement age and upon the amount of his salary in future as well as past years. In view of these uncertainties and of the fact that his retirement benefits will result in part from his own contributions, you suggest that you should not include in the tabulation called for by item 5 (I) the estimate of annual retirement benefits specified in paragraph (3) thereof.

I think you should include the required estimate in the tabulation, computing it upon the assumption that an employee will continue in the employ until normal retirement age at his present salary and explain in a footnote the assumptions upon which the estimate is based. The footnote may also include a statement to the effect that part of the sum is attributable to the employee's own contributions.

The following excerpt refers to paragraph (L) of item 5 which calls for the name of each person other than a director, officer or employee of the issuer whose aggregate remuneration from the issuer exceeded $20,000, the amount received by each such person and the capacity in which it was received.

You point out that paragraph 5 (L) of Item 5 of Schedule 14A is substantially the same as Item 11 of Form 10–K, the form on which the company files its annual report with the Exchange and with the Commission under the Securities Exchange Act of 1934. You ask whether the instructions as to Item 11 of the Instruction Book for Form 10–K may be used as a guide in determining what disclosure should be made in the proxy statement under Item 5 (L).

Item 5 (L) is intended to elicit information similar to that required to be given under Item 11 of Form 10–K and the instructions as to that item may properly be used as a guide in the preparation of that part of the proxy statement.

[Securities Exchange Act Release No. 3385, February 17, 1943]

§ 241.3505 *Opinion of the Director of the Trading and Exchange Division relating to the anti-manipulation provisions of sections 9 (a) (2), 10 (b), 15 (c) (1) of the Securities Exchnge Act of 1934, and 17 (a) of the Securities Act of 1933.*

You have asked me for an opinion as to the legality of certain transactions you propose to effect in the debentures of "X" Corporation which are being publicly offered at a fixed price by an underwriting group of which you are a member.

I understand that the debentures became effectively registered under the Securities Act of 1933 several days ago, and that the offering was made on the day following the effective date. I also understand that since the commencement of the offering one of the underwriters, acting as manager of the group and as the agent for all of the underwriters, has been effecting purchases of the debentures for the purpose of facilitating the distribution. You have not yet disposed of some of the debentures which, as an underwriter, you purchased from the issuer, and as a member of the selling group have purchased additional debentures from the manager. You have been selling the debentures at retail at the fixed public offering price.

You state that, in addition to distributing the debentures through your retail department at the fixed public offering price, you would like to buy and sell the debentures, through your trading department, at prices which may exceed the price at which your retail department has been making sales. You ask whether such "trading" transactions, if effected prior to the completion of the distribution, would violate any of the anti-manipulative provisions of law.

I believe that discussion of the problems will be facilitated by considering initially the legality of purchases made at prices varying from the offering price when such purchases are made by the manager.

Since the debentures are not registered on a national securities exchange, Section 9 (a) (2) of the Securities Exchange Act of 1934 is not by its terms directly applicable. However, the Commission has consistently expressed the view that transactions which would violate Section 9 (a) (2), if effected in a registered security, would be in violation of Section 15 of the Securities Exchange Act and Section 17 (a) of the Securities Act of 1933, if effected in a security which is not so registered. In this connection, I refer you to In the Matter of Barrett & Company (Providence, Rhode Island) *et al.*, 9 S. E. C. 319 (1941), Securities Exchange Act Release No. 2901, p. 9, *et. seq.* Therefore, the provisions of Section 9 (a) (2) are pertinent in determining whether the general fraud provisions of Section 15 of the Securities Exchange Act and of Section 17 of the Securities Act have been violated.

Section 9 (a) (2) of the Exchange Act makes it unlawful, directly or indirectly, "to effect, *alone or with one or more other persons*, a series of transactions in any security registered on a national securities exchange *creating actual or apparent active trading* in such security or *raising* or depressing *the price* of such security, *for the purpose of inducing the purchase* or sale *of such security by others.*" [The italics are mine.]

In determining the application of these provisions to purchases made by the manager, consideration must also be given to whether they constitute lawful "stabilizing" transactions, in which event they would not be subject to the anti-manipulative provisions of the type described in Section 9 (a) (2). The Commission has stated that it considers "stabilization" to facilitate the distribution of a security to be "the buying of a security for the limited purpose of preventing or retarding a decline in its open market price * * *" Securities Exchange Act Release No. 2446, March 18, 1940, p. 3. (17 CFR § 241.2440)

Obviously, lawful "stabilization" does not encompass transactions which raise the price of the security or which create actual or apparent trading greater than that necessary to prevent or retard a decline in the price. When a block of an unregistered security is being publicly offered and transactions in that security admittedly are being effected for the purpose of facilitating the distribution, it is clear that the distributors have the purpose of inducing the purchase of the offered security by others. It also follows, in my opinion, that under such circumstances transactions by the stabilizers raising the price of the security or creating greater trading activity than is necessary to prevent or retard a decline in such price clearly would be in violation of the general fraud provisions of the two Acts.

Thus, in the situation described in your letter, if the manager effected transactions in the debentures which raised their price or created more trading therein than was necessary to stabilize effectively the price of the debentures, in my opinion such transactions would be in violation of Section 15 of the Securities Exchange Act and Section 17 of the Securities Act. In this connection, I would like to point out that purchases above the offering price, while the distribution is going on, would be unlawful, in my opinion, even though independent quotations and transactions at a higher price may be found. Such transactions are obviously not necessary to facilitate the distribution and would be considered as creating excessive trading.

Moreover, if the manager of an underwriting group who has authority to purchase securities on behalf of the syndicate effects unlawful transactions, the individual members of the underwriting group are, as a matter of law, likewise responsible for the unlawful acts, since the manager of a syndicate is no more than an agent for the members of the group. The individual members of the group are liable as principals for such unlawful tranactions.

Since the members of the group would be liable if the manager effected the transactions, it appears obvious that any member would be in violation of Sections 15 and 17 were he to effect similar transactions directly. When an underwriter is engaged in the distribution of a security he obviously has the purpose of inducing the purchase of that security by others, with the result that when he concurrently effects trading transactions which raise the price of the security, or create trading activity beyond that necessary for stabilizing, it is difficult, if not impossible, to give credence to the view that the trading transactions were not also conducted, at least in part, for the purpose of inducing the purchase of the security by others.

The foregoing is true, in my opinion, even though the underwriter may have sold all of the securities retained by or allotted to him in the distribution, as long as the manager is still stabilizing to facilitate the offering. While this situation prevails, the manager is still inducing the purchase of the security by others, and the underwriter, as one of the manager's principals, is to be presumed to have the same purpose. In general, as long as the syndicate agreement is in existence and the manager is vested with the power of acquisition and resale of securities customarily conferred upon him by such agreements, all members of the syndicate, whatever their individual positions may be, should be on notice that the distribution is or may be in process and that they are or may still be participants therein.

The fact that the transactions effected by the trading department of the underwriter are labelled as "trading" transactions and that it may be asserted that they are effected without knowledge by, or consultation with, its retail distributing organization, does not affect my conclusion. Although the argument has frequently been made that the trading department of a firm which is a member of an underwriting group operates independently of the retail division of the same firm, the fact remains that the firm is a single business organization and that the act of the trading department is legally the act of the distributor.

Accordingly, I am of the opinion that purchases effected under such circumstances by any department of your firm raising the price of the security or creating excessive trading therein would violate Section 15 of the Securities Exchange Act and Section 17 (a) of the Securities Act.

Thus far this discussion has been confined to the situation in which the manager of an underwriting group is stabilizing, on behalf of the members of that group, to facilitate an offering. However, my conclusion that so-called trading transactions which raise prices or which create excessive trading activity during the course of the distribution are in violation of law does not depend upon the existence of a stabilizing operation. When an underwriter or selling-group member is still engaged in offering the security he is inducing the purchase of that security by others. Transactions by the underwriter at that time which create excessive trading activities in the security or which raise the price thereof, are illegal, regardless of whether they are characterized as "trading" or "stabilizing" transactions.

[Securities Exchange Act Release No. 3505, November 16, 1943]

§ 241.3506 *Opinion of the Director of the Trading and Exchange Division relating to the anti-manipulation provisions of sections 9 (a) (2), 10 (b), 15 (c) (1) of the Securities Exchange Act of 1934, and 17 (a) of the Securities Act of 1933.*

You have inquired whether transactions effected by the manager of an underwriting syndicate to cover an overallotment short position of the syndicate are subject to the anti-manipulative provisions of the Securities Exchange Act of 1934 and the Securities Act of 1933.

As I understand it, you are the manager of a syndicate which is underwriting an issue of shares of stock of "X Y Z" Corporation. The issue is being publicly offered at a fixed price, having recently become effectively registered under the Securities Act of 1933. I also understand that the syndicate account is "short" shares in the amount of approximately 8% of the amount originally offered, resulting from overallotment. It also appears that the individual members of the underwriting group are "long", in the aggregate, approximately 17% of the amount originally offered, representing the unsold portion of the original offering. Moreover, the members of the selling group who are not underwriters have an aggregate long position amounting to approximately 12% of the original offering.

In considering the question which you have raised, we may start with the premise that a syndicate overallotment is customarily made for the purpose of facilitating the orderly distribution of the offered securities by creating buying power which can be used for the purpose of supporting the market price. Thus, it would appear, in the absence of circumstances indicating the contrary, that purchases made for the purpose of covering the "short position" of the syndicate are effected for the purpose of facilitating the distribution. Moreover, if such purchases are effected to facilitate the offering, it is obvious that there exists the intention or purpose of inducing the purchase of the offered security by others.

Under these circumstances, all purchases which raise the market price of the offered security or create excessive trading activity would appear to contravene the anti-manipulative provisions of law. In this connection, you may be interested in examining Securities Exchange Act Release No. 3505 issued by the Commission under date of November 16, 1943.

However, not all purchases for the purpose of covering a short position impel the conclusion that the underwriters still have the purpose of facilitating a distribution. There are a number of factors which must be considered in determining whether that purpose is still present. Some of the external factors indicating that the manager no longer has the intention of facilitating an offering, but has only the purpose of covering the syndicate short position, are as follows:

1. Neither the underwriters nor the selling-group members have remaining unsold any shares of the offered security, and hence are no longer engaged in soliciting purchases thereof;

2. reasonable efforts have been made by the manager to acquire securities away from the market, i. e., in privately negotiated transactions, for the purpose of covering the syndicate short position;

3. the independently established market price of the offered security is above the fixed offering price;

4. the manager has not, while covering the syndicate short position, made additional short sales of the offered security;

5. a reasonable period of time has elapsed between the termination of distributive efforts on the part of participants in the distribution and commencement of covering of the syndicate short position;

6. the underwriting group holds no options on securities of the same class as those being offered; and

7. all agreements with the syndicate manager or underwriters restricting the right of any person to sell the securities of the same class as the offered security have been terminated.

It should be noted that the factors mentioned above do not necessarily include all of the factors to be taken into consideration, nor is it necessary for all of the factors to be present before the conclusion can be reached that in a given setting the purpose of facilitating an offering no longer exists.

Applying these principles to the facts which have been presented by you, it is obvious that the position of the underwriting group is only technically short, the underwriters as a group actually having a net long position amounting in the aggregate to 9% of the amount of the securities originally offered. Moreover, the selling group members have securities remaining unsold in the additional amount of 12%. It is obvious that participants in the distribution are still engaged in inducing the purchase of the offered security by others. Under these circumstances, purchases of the stock effected by the syndicate manager as agent for the underwriting group which raise the price of the stock or which create excessive trading activity, would clearly be unlawful, even though one of the purposes of the manager in effecting such purchases is that of extinguishing the technical short position of the syndicate account.

The statement has frequently been made by managers of syndicates that they are not in a position to know whether the individual underwriters or selling-group members have securities remaining unsold, and that managers have no means of requiring members of underwriting or selling groups to supply them with the offered securities to permit the extinguishment or reduction of the short position.

Considering these contentions first with respect to the individual underwriters, it should be noted that the manager of a syndicate is an agent for the members of the underwriting group and that the individual members of the group are principals in any transaction effected by the manager as such. The failure of an agent of an underwriting group to inform himself with respect to the status of the distribution cannot, in my opinion, grant immunity to any such agent or to his principals from the anti-manipulative provisions of law. On the contrary, no such agent should permit his principal's act or refusal to act, to force him, the agent, to violate the law in attempting to protect such principal's interests.

In view of the foregoing, it would seem incumbent upon the manager to insure his ability to obtain all necessary information concerning the status of the distribution. In this connection, it would seem appropriate for the agreement between underwriters to contain provisions stating, in effect, that the manager, upon request, shall be informed of the amount of the offered securities which the individual underwriters have remaining unsold. Moreover, it would also seem appropriate for the agreement between underwriters to contain provisions requiring the individual underwriters, upon request of the manager, to deliver to him unsold securities, at or below the offering price, for the purpose of reducing the syndicate short position.

While an agency relationship may not exist between the manager of the syndicate and members of the selling group, there is a community of interest between them and the manager's purchases redound to the benefit of the members of the selling group. And since the relationship between the selling group and the syndicate is customarily determined by contract between the two, and since, in effect, the members of the selling group are selling securities for the manager and, the syndicate which he represents, it would likewise seem appropriate for the contract between the underwriting syndicate and the selling group to contain provisions analogous to those mentioned above.

[Securities Exchange Act Release No. 3506, November 16, 1943.]

§ 241.3572 *Statement of the Commission relating to the anti-fraud provisions of section 17 (a) of the Securities Act of 1933 and section 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934.*

On May 31, 1944, the Commission rendered its findings and opinion on a voluntary plan submitted by Standard Gas and Electric Company under Section 11 (e) of the Public Utility Holding Company Act of 1935 (Holding Company Act Release No. 5070). Although the Commission did not approve the plan under Section 11 (e) in its present form, it stated with respect to the fact that the plan as submitted by the management excluded the outstanding common stock of Standard from participation in the recapitalized company: "We are clear that there is no possibility that Standard's common stock has any interest in the company, either on a comparison of the liquidation preferences of the securities senior to it with the value of the enterprise or on an analysis of the foreseeable income to be available to the different classes of securities in the enterprise. The plan should, therefore, exclude Standard's common stock from participation."

The Commission is informed that the New York Stock Exchange suspended trading in the common stock on May 31, 1944, and that similar action has been or is about to

be taken by the Chicago Stock Exchange, on which the common stock has likewise been registered, and by the Boston and Philadelphia Stock Exchanges, on which it has been admitted to unlisted trading privileges.

It is the view of the Commission that any broker or dealer who sells or executes a purchase order for Standard common will violate the fraud provisions of the Securities Act of 1933 and the Securities Exchange Act of 1934 (where use is made of the mails or an instrumentality of interstate commerce) unless prior to the completion of the transaction he informs the purchaser of the exclusion of the common stock from participation under the plan, and the Commission's finding that the common stock has no interest in the company and should be excluded from participation. This applies to any sale of Standard common, whether on an agency or on a principal basis.

[Securities Exchange Act Release No. 3572, June 1, 1944]

§ 241.3633 *Letter of the Director of the Corporation Finance Division relating to section 20 and to Rule X-14A-7 (17 CFR, 240.14a-7) under the Securities Exchange Act of 1934.* This release is the same as Investment Company Act Release No. 735 (17 CFR, 271.735). [Securities Exchange Act Release No. 3638, January 3, 1945]

§ 241.3639 *Statement by Commission relating to section 3 (a) (1).* This is the same as Securities Act Release No. 3038 (17 CFR, 231.3088). [Securities Exchange Act Release No. 3639, January 4, 1945]

§ 241.3674 *Statement of the Commission in connection with the adoption of certain amendments to Form 3-M, one of the forms for registration of over-the-counter brokers or dealers under section 15 (b) of the Securities Exchange Act of 1934, and to Rule X-15B-2 (17 CFR, 240.15b-2), the rule governing the filing of supplemental statements to such applications.*

Form 3-M has in the past required each registrant to disclose whether the registrant or any partner, officer, director, trustee, or branch office manager of the registrant is a member of any exchange or securities association, or has ever used or been known by any other name, or has a business history which includes a finding of certain types of illegal or unethical conduct by a court, a state agency, or a securities exchange. The effect of most of the amendments to the form is to extend this requirement to cover the business history of any salesman or other employee of the registrant. The term "employee" as used in these amendments is not necessarily limited to persons who are deemed employes for other purposes, such as social security or workmen's compensation legislation; it may include so-called "free lance salesmen" or other persons whether or not they are deemed employees in some other statutory context.

The remaining amendments to Form 3-M require information regarding certain arrangements with respect to the profits of the registrant (exclusive of profit-sharing or bonus arrangements with employees).

The amendment to Rule X-15B-2 (17 CFR, 240.15b-2) provides that, whenever the Commission amends Form 3-M to require the filing of additional information, each registered broker or dealer shall supply such information within 90 days by filing a supplemental statement on Form 6-M. Accordingly, copies of this release (containing the amended items of Form 3-M) and of Form 6-M are being sent to every registered broker or dealer, together with a letter stating that the answers to the amended items on Form 3-M must be supplied by filing a supplemental statement on Form 6-M not later than July 9, 1945, even though the answers are all in the negative. The broker or dealer should have reasonable ground to believe, after making a reasonable investigation, that such answers are correct.

The amended Form 3-M does not require a listing of *all* salesmen or other employees, but only an enumeration of those who are members of a securities exchange or association, or who have ever changed their names, or who have business histories which include a conviction, an injunction, a refusal or revocation of registration, a finding of violation of the Securities Act of 1933 or the Securities Exchange Act of 1934, an expulsion or suspension from or denial of membership in a securities exchange or a registered securities association, or a past connection in some managerial or controlling capacity with some other broker or dealer who has been the subject of such a conviction, injunction, refusal, revocation, expulsion or suspension.

Section 15 (b) of the Securities Exchange Act of 1934 requires the Commission to deny or revoke the registration of any broker or dealer if it finds (1) that such action is in the public interest and (2) that such broker or dealer, or any partner, officer, director or branch manager, or any person controlling or controlled by such broker or dealer, has been convicted within ten years or is enjoined in connection with activity in securities, or has willfully violated any provision of the Securities Act of 1933 or the Securities Exchange Act of 1934 or any rule thereunder. Since a salesman or other employee of a broker or dealer is a person "controlled by" him within the meaning of this section, the Commission has held that, when a broker or dealer employs a salesman who has been so convicted or enjoined or who has committed such a violation, the broker or dealer is subject to denial or revocation of his registration if the Commission finds that such action is in the public interest. See In the Matter of Bond & Goodwin, Incorporated, — S. E. C. —, Securities Exchange Act Release No. 3543, p. 21 (March 17, 1944); In the Matter of E. H. Rollins & Sons, Inc., — S. E. C. —, Securities Exchange Act Release No. 3661), p. 21 (Feb. 22, 1945). Form 3-M as it has read heretofore, however, has not required a broker or dealer to disclose whether or not any of his salesmen or other employees has been so convicted or enjoined or has been found to have committed such a violation.

The present amendments to Form 3-M, insofar as they relate to past business histories, are designed both to give investors the benefit of such disclosure and to facilitate enforcement of section 15 (b). Their adoption does not mark any departure from the Commission's policy of permitting persons who have been convicted or enjoined, or who have violated one of the Acts, or who have had their own registrations revoked, from acting as salesmen for other registered brokers or dealers in certain cases. The Commission will continue to act on a case-by-case basis, as it has in the past, in determining whether or not denial or revocation of the registration of a broker or dealer who retains such an employee would be in the public interest. The Commission recognizes also that there may be cases where it will not be necessary in the public interest to require a registrant to disclose publicly that a salesman or other employee has a business record of the specified types. In such cases a registrant may apply to the Commission, under section 24 (b) of the Securities Exchange Act of 1934 and the Commission's rules thereunder, for confidential treatment of the required information.

[Securities Exchange Act Release No. 3674, April 9, 1945]

§ 241.3803 *Statement by Commission relating to the adoption of Rule X-13A-6B (17 CFR, 240.13a-6b).* Prior to adoption, comments upon drafts of the proposed new rule and of the amended Item 11 of Form 8-K (17 CFR, 249.308) were obtained from technical and professional associations, governmental agencies, national securities exchanges, individual companies, attorneys, and many other interested persons. Effect has been given in the new rules to a number of the suggestions received. A minority of those commenting on the proposed rule, however, expressed varying degrees of doubt as to the desirability and feasibility of the proposed reporting program. For this reason it has been decided to make public the following statement by the Commission outlining briefly the more important objections raised by those opposed to the program and the reasons for adopting the new rule:

Section 13 (a) (2) of the Securities Exchange Act of 1934 requires every issuer of a security registered on a national securities exchange to file "such annual reports, * * * and such quarterly reports, as the Commission may prescribe." Pursuant to this subsection rules calling for the filing of annual reports were adopted shortly after the effective date of the Act. Rules were later adopted calling for current reports on Form 8-K whenever any of certain special events occurred during the year. Since that time the problems involved in the requiring of regular quarterly operating reports have been under study from the point of view of both the usefulness of such reports to investors and their feasibility in the light of contemporary business and accounting practices.

We have now concluded to initiate a regular quarterly reporting program applicable to most issuers having securities listed on a national securities exchange. Under the new rule, a company is required to furnish quarterly information as to the sales or other gross revenues derived from its operations. However, companies which regularly publish or distribute to stockholders quarterly financial statements or reports containing at least the above information may comply with the rule merely by filing copies of such published reports as an exhibit to Form 8-K. The information called for is not required to be certified by independent public accountants.

As a result of extended study of the problem and of the comments received from those to whom preliminary drafts of the program were sent, we are of the opinion that companies should furnish investors and the public with regular interim information as to their operations. We are inclined to believe, moreover, that it would be desirable to obtain at quarterly intervals a condensed income statement showing not only gross revenues but also net income before and after Federal income taxes together with any non-recurring items of income or costs and losses of an unusual size even though certain of the items could only be arrived at by the use of reasonable estimates or on the basis of certain assumptions. It appears, however, that a substantial number of listed companies do not now have their accounting and reporting practices so organized as to be in a position to make the determinations necessary to furnish reasonably reliable data of this character on a quarterly basis. Accordingly, we have determined for the present merely to require information as to sales or other gross revenues. On the other hand, companies customarily preparing more detailed information will be able to satisfy the requirements of the rule by filing copies of their regular quarterly statements or reports.

Objection to the program has been made on the ground that the required information as to sales or other gross revenues may be uninformative or misleading due to the seasonal nature of a business or to unusual events of the quarter. Somewhat similarly it is claimed that the information called for is useless since changes in sales volume may not be accompanied by a comparable change in gross or net profits, particularly for short periods or during periods when business conditions are unsettled. Although such difficulties clearly exist in varying degrees depending upon the type of company, we feel, to the contrary, that reports of sales volume when taken in conjunction with other known information as to the business and as to business generally will be of substantial usefulness. Among other things, for example, the information being required should at the present time provide an index of the extent to which a company has been able to reenter civilian markets or to maintain in the post-war period its wartime volume of civilian business. It is also our view that such information will aid in the formation and exercise of an informed investment judgment based on other available information as to the general nature of the operations of the company, its plans and prospects for the future, its position with respect to other companies in the same industry, and many other factors which affect the financial success of a business.

Where in a particular case an issuer feels that its report as to sales or other gross revenues may not be representative because of the seasonal nature of the business or for other reasons, there are, of course, a number of possible procedures that may be utilized. In the case of a seasonal business, an appropriate statement of the nature of the business could be given. In addition, it would be appropriate and desirable to furnish along with the report for the particular quarter comparable figures for the same quarter of the previous year or for the 12 months period ending with the current quarter. Likewise, if in a particular case it is felt that sales or other gross revenues standing alone are inadequate because not indicative of the trend in gross or net profits, the report could include an appropriate explanation of the special circumstances, or there could be substituted a more complete though still condensed form of income statement such as in now regularly being published or sent to stockholders by many issuers.

The other principal objection was that the program imposed an unreasonable burden on reporting companies. As to the very large numbers of issuers now regularly issuing quarterly statements, we do not believe that the furnishing of the required information, either directly or by means of copies of the regular reports, involves any substantial burden. As to other companies, we feel that any added burden involved in compiling the necessary information as to sales or other gross revenues is more than outweighed by the benefit to investors and the public of interim data as to a listed company's operations. Finally, if under the circumstances of an unusual case it is impracticable to furnish the necessary information within the prescribed time, or if the required information is neither known nor available to the issuer, attention is directed to paragraphs 6 and 7 of the general instructions to Form 8-K (17 CFR, 249.308), which provide for special procedures in such cases.

[Securities Exchange Act Release No. 3803, March 28, 1946]

PART 261—INTERPRETATIVE RELEASES RELATING TO THE TRUST INDENTURE ACT OF 1939 AND GENERAL RULES AND REGULATIONS THEREUNDER [1]

Sec.

261.16 Opinion of the General Counsel relating to application of Section 310 (b) where trustee under one indenture is trustee under another indenture for securities of an affiliate of the obligor.

261.30 Opinion of the Chief Counsel to the Corporation Finance Division relating to when-issued trading of securities the issuance of which is subject to approval by a federal district court under Chapter X of the Bankruptcy Act.

261.31 Opinion of the Chief Counsel to the Corporation Finance Division relating to when-issued trading of securities the issuance of which has already been approved by a federal district court under Chapter X of the Bankruptcy Act.

§ 261.16 *Opinion of the General Counsel relating to application of section 310 (b) where trustee under one indenture is trustee under another indenture for securities of an affiliate of the obligor.*

Some registration statements recently filed under the Securities Act of 1933 indicate that prospective indenture trustees are presently acting as trustees under indentures covering outstanding securities of affiliates of the registrants. In some cases, the affiliate is the parent of the registrant. In others, it may be a subsidiary of a common parent or a subsidiary of the registrant. I have been asked whether the dual capacity in which a prospective indenture trustee proposes to act would in such cases, result in a conflict of interest which would disqualify it under the Trust Indenture Act of 1939.

Section 302 (a) (3) of the Act states that the national public interest and the interest of investors in debt securities are adversely affected when a trustee "* * * has any relationship to or connection with the obligor * * * which * * * involves a material conflict with the interests of such investors." Clearly, conflicting interests may arise in instances where one company is trustee under indentures of both an obligor and the obligor's affiliate. The conflict might arise in drafting the indentures, during the lives of the indentures, or upon a default. In view of the Congressional statement above quoted the Congress might well have seen fit to include such conflicts within the prohibitions of the Act. However, it is apparent from the language of the Act and its legislative history that it was not intended to cover every possible conflict of interest. On the contrary, the Congress, after weighing the difficulties involved in such an effort, concluded that the wise course would be to establish "rules of thumb" prohibiting certain specific types of conflicting interests which have resulted in the greatest injury to investors. These types of conflicting interests are enumerated in section 310 (b) of the Act. This section requires that indentures shall contain provisions disqualifying an indenture trustee who has "any conflicting interest as hereinafter defined." It provides further that, for the purposes of the section, "an indenture trustee shall be deemed to have a conflicting interest if * * * he has any one or more of nine specified relationships. In my opinion, the relationships specified in section 310 (b) were intended to be exclusive.

Subsection (1) is the only portion of section 310 (b) which is of possible relevance to the type of dual trusteeship under consideration. That subsection provides that an indenture trustee shall be deemed to have a conflicting interest if "such trustee is trustee under another indenture under which any other securities * * * of an obligor upon the indenture securities are outstanding." Section 303 (12) provides that the term "obligor", "when used with respect to any . . . indenture security, means every person who is liable thereon." In view of this definition and the exclusive terms of section 310 (b), I am of the opinion that a person not liable on the indenture securities is not an obligor within the meaning of section 310 (b) (1) and, consequently, does not come within the prohibition of that subsection.

There are instances, of course, in which a parent, subsidiary, or sister company of the obligor may also be an obligor within the meaning of section 310 (b) (1). For example, it may be such if it guarantees the securities of the obligor or, as the Supreme Court said in Consolidated Rock Products Co. v. du Bois, 312 U. S. 510 (1941),

"Where a holding company directly intervenes in the management of its subsidiaries so as to treat them as mere departments of its own enterprise, it is responsible for the obligations of those subsidiaries incurred or arising during its management."

However, apart from such instances and others in which the affiliate may properly be regarded as an obligor, it is my conclusion that an indenture trustee is not to be deemed to have a conflicting interest within the meaning of section 310 (b) (1) merely because it is trustee under another indenture under which are are outstanding securities of an affiliate of the obligor.

This opinion is, of course, confined to the propriety of dual trusteeship under the terms of the Trust Indenture Act of 1939. No opinion is intended to be expressed concerning the possible application of other federal or state statutes, or of general principles of equity, which may forbid such trusteeship, in instances not prohibited by the Act.

[Trust Indenture Act Release No. 16, November 14, 1941]

§ 261.30 *Opinion of the Chief Counsel to the Corporation Finance Division relating to when-issued trading of securities the issuance of which is subject to approval by a federal district court under Chapter X of the Bankruptcy Act.*

NOTE: Because the name of the company involved is not deemed material at this time, it has been deleted from the opinion.

You have requested my opinion as to the legality of trading on a when-issued basis in the new debentures and common stock contemplated by the plan of reorganization of * * * and * * * approved by the United States District Court for the Southern

[1] The interpretative opinions included herein are opinions issued in the past for the guidance of the public by members of the Commission's staff (or in a few instances by the Commission) and heretofore made public pursuant to Commission authorization. The opinions are to be read as of the date of original publication and in the context of the rules, statutes and circumstances then existing. However, opinions or portions of opinions which are clearly obsolete have been omitted. While it is not clear that publication of interpretative opinions of this kind in the FEDERAL REGISTER is required, it is believed that such publication may be helpful to the public and that it falls within the spirit of the Administrative Procedure Act.

Where rules referring to an opinion have been renumbered since the issuance of the opinion, the new designations are indicated in brackets.

District of New York on August 26, 1944, pursuant to section 174 of Chapter X of the Bankruptcy Act. It is my understanding that the plan has not yet been finally confirmed by the court pursuant to section 221 of Chapter X. Before a confirmation order can be entered, it will, of course, be necessary for the plan to be accepted in writing by two-thirds of each class of creditors of each corporation participating in the plan.

I shall speak only of when-issued trading over the counter, because when-issued trading on a national securities exchange is subject to the Commission's Regulation X-12D3 under the Securities Exchange Act of 1934. Under that Act and Regulation registration of a security for when-issued trading on an exchange is subject to various conditions in addition to compliance with the Securities Act of 1933 and, in the case of a debt security, the Trust Indenture Act of 1939.

It is my opinion that any sales or offers of sale of the new debentures or common stock made through the mails or in interstate commerce prior to final confirmation of a plan under section 221 of Chapter X would violate the registration and prospectus provisions of section 5 of the Securities Act of 1933. It is my opinion further that any sales or offers of sale of the new debentures made through the mails or in interstate commerce prior to qualification of an indenture with this Commission would violate the provisions of Section 306 of the Trust Indenture Act of 1939.

Section 5 of the Securities Act of 1933 provides in substance that no person shall sell or offer any security through the mails or in interstate commerce unless a registration statement as to that security is in effect with this Commission and a specified form of prospectus is used. Section 306 of the Indenture Act of 1939 provides in substance that no person shall sell or offer to sell any bond or debenture or other debt security through the mails or in interstate commerce unless that security has been or is to be issued under a specified form of indenture which has been effectively qualified with this Commission.

Section 264 of Chapter X of the Bankruptcy Act exempts from the registration and prospectus provisions of Section 5 of the Securities Act of 1933 "any transaction in any security issued pursuant to a plan in exchange for securities of or claims against the debtor or partly in such exchange and partly for cash and/or property * * *." Section 3 (a) (10) of the Securities Act of 1933 exempts from the registration and prospectus provisions of Section 5 of that Act: "Any security which is issued in exchange for one or more bona fide outstanding securities, claims or property interests, or partly in such exchange and partly for cash, where the terms and conditions of such issuance and exchange are approved, after a hearing upon the fairness of such terms and conditions at which all persons to whom it is proposed to issue securities in such exchange shall have the right to appear, by any court, or by any official or agency of the United States, or by any State or Territorial banking or insurance commission or other governmental authority expressly authorized by law to grant such approval."

Neither of these exemptions applies to the provisions of Section 306 of the Trust Indenture Act of 1939 requiring the qualification of an indenture in respect of any debt security.

So far as the new common stock contemplated by the plan is concerned, it is my opinion that there will be no exemption under either section 264 of Chapter X of the Bankruptcy Act or section 3 (a) (10) of the Securities Act of 1933 until final confirmation of a plan pursuant to Section 221 of Chapter X. It seems clear that no security can be issued "pursuant to a plan," as required by section 264, prior to its confirmation under section 221. It seems clear also that the terms and conditions of the issuance and exchange of the new common stock cannot be said to have been "approved," as required by section 3 (a) (10), until entry of an order of confirmation by the court. As I have stated in an earlier opinion (Securities Act Release No. 3000), in which I considered the similar problem of the applicability of section 3 (a) (10) to a plan approved by this Commission pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 but not yet approved or enforced by a District Court, it is my opinion that the approval contemplated by section 3 (a) (10) is the total process of approval which is required by the particular statute relied upon to grant an exemption under that section. In the case of a reorganization under Chapter X of the Bankruptcy Act, the total process of approval required for the issuance of any security pursuant to a plan is final confirmation by the court under section 221. Neither approval of a plan by the court under section 174 nor preliminary appproval of a plan by this Commission under section 11 (f) of the Public Utility Holding Company Act of 1935 where a public utility holding company is involved, as in the present case completes the total process of approval required.

What I have said thus far applies to the new debentures as well as the new stock. In addition, since the new debentures are subject to the Trust Indenture Act of 1939 as well as the Securities Act of 1933, and since neither the exemption in section 264 of Chapter X nor the exemption in section 3 (a) (10) of the Securities Act of 1933 applies to the Trust Indenture Act of 1939, a trust indenture for the new debentures will have to be effectively qualified with this Commission before there can be any when-issued trading in the new debentures.

Consequently, any dealer who makes use of the mails or any means of interstate commerce to sell or offer to sell new debentures or common stock on a when-issued basis prior to confirmation of a plan by the court will violate section 5 of the Securities Act of 1933 and section 306 of the Trust Indenture Act of 1939, and any dealer who makes use of the mails or any means of interstate commerce to sell or offer to sell new debentures on a when-issued basis prior to qualification of an indenture will violate section 306 of the Trust Indenture Act of 1939. This applies also to any broker who, as a result of a solicitation of a customer's order, sells or offers to sell "when issued" on an agency basis.

I might add that in my opinion the taking of an appeal from an ultimate District Court order of confirmation would have no effect upon any of the opinions here expressed unless the order of the lower court were stayed pending the appeal.

[Trust Indenture Act Release No. 30, August 28, 1944]

§ 261.31 Opinion of the Chief Counsel to the Corporation Finance Division relating to when-issued trading of securities the issuance of which has already been approved by a federal district court under Chapter X of the Bankruptcy Act.

NOTE: Because the name of the company involved is not deemed material at this time, it has been deleted from the opinion.

It has come to the attention of the Commission that a number of brokers and dealers are engaging or preparing to engage in when-issued trading in securities of . . . which are to be issued pursuant to a plan of reorganization confirmed by the United States District Court for the Eastern District of Pennsylvania under Chapter X of the Bankruptcy Act. The securities in question are General Mortgage 6% Income Bonds with common stock attached.

Although the court's confirmation of the plan exempts both bonds and stock from registration under the Securities Act of 1933, the bonds are not exempt from the necessity of qualifying an indenture under the Trust Indenture Act of 1939. No application for qualification of the indenture for these bonds has as yet been filed with the Commission.

For the reasons stated in Securities Act Release No. 3011 (August 28, 1944), it is the view of the Commission that when-issued trading in these bonds cannot legally be undertaken until an application for qualification of the indenture has become effective under the Act. Moreover, written offers of bonds will be legal thereafter only if made by or accompanied or preceded by a written statement containing an analysis of certain of the indenture provisions as required by section 305 (c) of the Trust Indenture Act.

Sales made in violation of the Trust Indenture Act will subject brokers or dealers to injunctive proceedings, criminal prosecution and other penalties imposed by law.

[1] The interpretative opinions included herein are opinions issued in the past for the guidance of the public by members of the Commission's staff (or in a few instances by the Commission) and heretofore made public pursuant to Commission authorization. The opinions are to be read as of the date of original publication and in the context of the rules, statutes and circumstances then existing. However, opinions or portions of opinions which are clearly obsolete have been omitted. While it is not clear that publication of interpretative opinions of this kind in the FEDERAL REGISTER is required, it is believed that such publication may be helpful to the public and that it falls within the spirit of the Administrative Procedure Act. Where rules referring to an opinion have been renumbered since the issuance of the opinion, the new designations are indicated in brackets.

§ 271.12 Statement of the Commission respecting distinctions between the reporting requirements of section 16 (a) of the Securities Exchange Act of 1934 and section 30 (f) of the Investment Company Act of 1940. This release is the same as Securities Exchange Act Release No. 2637 (17 CFR, 241.2687). [Investment Company Act Release No. 12, November 16, 1940]

§ 271.69 Letter of General Counsel relating to sections 7 (b) and 26 (c).

This is in reply to your recent letter in which you raise certain questions with reference to the registration requirements of the Investment Company Act of 1940 as applied to certain unit investment trusts which have not publicly distributed their securities for several years.

According to your letter, the sponsors and distributors of the securities of all of these trusts, for various reasons, are no longer functioning on behalf of such trusts. However, by the terms of the indentures creating such trusts they are to continue for a substantial number of years. The principal functions of the trustee at present consist of receiving and distributing the income of the trust to certificate holders and redeeming the trust certificates, either in cash or in the under-lying securities, in accordance with th terms of the trust indentures. In the case of such trusts which have issued periodic payment plan certificates, the trustee also receives and invests, in accordance with the terms of the trust indenture, the periodic payments made by the investor.

You suggest that, at least in the case of those "inactive" trusts which have not issued periodic payment plan certificates, it might be held that the present activities of the trustee, particularly that of redeeming the trust certificates, constitute "transactions merely incidental to the dissolution of an investment company" which, under the provisions of section 7 (b) of the Act, could be performed by the trustee without the necessity for registration of the trusts pursuant to section 8 of the Act.

I am unable to concur in this interpretation. In my opinion the transactions referred to in the quoted clause of section 7 (b) are those incidental to a formal dissolution of the investment company or trust, either in accordance with the instrument which created it or otherwise. Such a dissolution must be of the type which terminates the entity as to all shareholders or certificate holders in a manner which necessitates the final distribution of all the assets of the company or trust.

The problems of these inactive trusts, sometimes called "orphan trusts," and the unfortunate situation in which certificate holders of such trusts have found themselves in the past, received special consideration by the Commission in its study of unit investment trusts and by the Congress in enacting the Investment Company Act. Section 26 (c) of the Act authorizes the Commission to institute legal proceedings for the liquidation of inactive unit investment trusts when such a step is in the best interests of the certificate holders. Adequate enforcement of the Commission's duties under this section requires the registration of inactive unit investment trusts. Moreover, unless such trusts are registered their certificate holders will be deprived of the advantages of such periodic financial and other reports as the Commission may find it appropriate to require.

Undoubtedly, as you state in your letter, there may be instances in which some hardship will result from the requirement of registration for inactive investment trusts. I am advised by the Investment Company Division of the Commission, however, that in the preparation of forms of registration for investment companies special consideration will be given to the difficulties confronting such trusts and that care will be taken to prepare a form which will require only the minimum of necessary information and which can be answered at a minimum of expense.

[Investment Company Act Release No. 69, February 19, 1941]

§ 271.71 Letter of the Director of the Investment Company Division relating to section 19 and Rule N-19-1 (17 CFR, 270.191).

In connection with Section 19 of the Investment Company Act and the recent Rule N-19-1 (17 CFR, 270.19-1) adopted pursuant to it, you have raised some questions of interpretation.

Section 19 provides in effect that dividend payments made by a registered investment company must be accompanied by written statements adequately disclosing the source of the dividend if the dividend is paid wholly or partly from any source other than;

(1) such company's accumulated undistributed net income, determined in accordance with good accounting practice and not including profits or losses realized upon the sale of securities or other properties; or

(2) such company's net income so determined for the current or preceding fiscal year.

Rule N-19-1, among other things, provides in effect for the segregation of certain designated sources of dividend payments for the purpose of disclosure.

Your first inquiry, as I understand it, relates to the problem of ascertaining the presently available balances of the sources designated in Section 19 and Rule N-19-1. You point out that, prior to the time the Investment Company Act went into effect, an investment company may not have segregated its income and surplus in a way contemplated by that Section and the recently adopted rule; therefore, dividend payments in the past may not have been allocated according to the sources designated therein. You are concerned as to the method companies in this situation may use in determining *now* the sources against which past dividends are to be charged in order to determine the balances of "accumulated undistributed net income" and other sources available for the purposes of Section 19.

Where, prior to November 1, 1940 (the effective date of the Investment Company Act) any legal allocation of dividend payments has been made on the books or by resolution of the board of directors, or in some other appropriate manner, to one of the sources set out in Rule N-19-1, in my opinion, such allocation need not be changed. As to past dividends not so allocated, it is my opinion that the following allocation should normally be followed: The total amount of such dividends accrued and declared in any fiscal year should be charged first to the accumulated undistributed net income, if any, at the close of such year, and any excess should be charged to the accumulated net profits from the sale of securities or other properties, if any, at the close of such year, and any excess thereafter should be charged to paid-in surplus or other capital source. The determination of accumulated net profits from the sale of securities or other properties should be made in accordance with the company's financial accounts rather than its tax accounts.

Your second inquiry bears on the same problem. In examining the past to make the necessary determination of available balances now, transactions must be reviewed in the light of "good accounting practice," the standard set up in Section 19. Your problem is whether that standard is the good accounting practice of the present day or that of the date of any particular transaction. In my opinion, it is the latter.

Your third inquiry is in regard to certain language used in paragraphs (c) and (e) of the rule. In effect these provisions state that sources of dividends shall be determined, for various purposes, "to the close of the period as of which the dividend is paid." I believe your questions concerning the meaning of this language can best be disposed of in terms of examples:

If there are arrearages in dividends on preferred stock, and it is decided to pay in January, 1941 all or a portion of those arrearages on the basis of source balances available up to the close of the dividend period ending December 31, 1940, the period to which the quoted language refers is not the period in which the dividend accrued, nor is it the period in which it is in fact paid; it is the period ending December 31, 1940. On the other hand, if a dividend paid early in December, 1940 or in January, 1941 is intended as the distribution for the last quarter of the calendar year 1940, the quoted language refers to the period ending December 31, 1940.

[Investment Company Act Release No. 71, February 21, 1941]

§ 271.78 Statement by the Commission relating to section 23 (c) (3) and Rule N-23C-1 (17 CFR, 270.23C-1).

Rule N-23C-1 (17 CFR, 270.23C-1) permits a closed-end company to repurchase its own securities only in a limited class of situations and subject to certain safeguards. Further experience may show that it is feasible to prescribe a general rule covering a broader class of situations, but for the present it is felt that any repurchase program which does not fall within the terms of this rule, or within the statutory exceptions provided in sections 23 (c) (1) and (2), should first be submitted to the Commission in the form of an application, so that it can be considered on its individual merits.

Rule N-23C-1 (17 CFR, 270.23C-1) contains four major limitations upon the types of repurchases which may be made under the rule.

First. The rule makes no provision for the repurchase of listed securities on the over-the-counter market. Listed securities may generally be repurchased on a securities exchange pursuant to section 23 (c) (1) of the Act, if appropriate notice has been given to stockholders. The fact that repurchases under section 23 (c) (1) are made on the type of open market which an exchange provides gives the investor certain safeguards, particularly in relation to price, which are not present when a transaction is effected over the counter. Accordingly the Commission's present disposition is to permit an over-the-counter repurchase of listed securities under section 23 (c) (3) only on the basis of an application and order.

Second. Rule N-23C-1 (17 CFR, 270.23C-1) makes no provision for the repurchase of junior securities by companies which have senior securities outstanding. The problems involved in such repurchases are pointed out in our opinion in the matter of Adams Express Company (Investment Company Act Release No. 76) recently released. Moreover, companies having listed securities are in certain instances subject to stock exchange restrictions with respect to the repurchase of junior securities, and section 23 (c) certainly contemplates that over-the-counter repurchases shall be subject to at least as stringent safeguards as repurchases on a securities exchange.

Third. Repurchases from affiliated persons of the issuer are not within the rule. The abuses which may flow from such repurchases, and the consequent advisability of permitting them only upon the basis of applications describing the individual transactions, are apparent.

Fourth. The rule does not permit the repurchase of more than 1% per month of any class of the issuer's outstanding securities. It is believed that purchases in excess of this

figure are sufficiently out of the ordinary to made it desirable that they be scrutinized individually.

[Investment Company Act Release No. 78, March 4, 1941]

§ 271.87 *Letter of General Counsel relating to section 22 (d).*

You have requested my opinion concerning the application of section 22 (d) of the Investment Company Act of 1940 to a broker-dealer executing a brokerage order for a customer in the redeemable securities of a registered investment company. I assume such securities are being currently offered to the public by or through an underwriter at a price described in the prospectus covering such securities.

Section 22 (d) of the Investment Company Act of 1940 provides in part as follows: "No registered investment company shall sell any redeemable security issued by it to any person except either to or through a principal underwriter for distribution or at a current public offering price described in the prospectus, and, if such class of security is being currently offered to the public by or through an underwriter, no principal underwriter of such security and no dealer shall sell any such security to any person except a dealer, a principal underwriter or the issuer, except at a current public offering price described in the prospectus. • • •"

In my opinion the term "dealer," as used in section 22 (d), refers to the capacity in which a broker-dealer is acting in a particular transaction. It follows, therefore, that if a broker-dealer in a particular transaction is acting solely in the capacity of agent for a selling investor, or for both a selling investor and a purchasing investor, the sale may be made at a price other than the current offering price described in the prospectus. Of course disclosure of the fact that the broker-dealer is acting as agent, and of the amount of his commission, must be made to his principal or principals in accordance with the requirements of the Rules and Regulations promulgated by the Commission under section 15 (c) (1) of the Securities Exchange Act of 1934.

On the other hand, if a broker-dealer is acting for his own account in a transaction and as principal sells a redeemable security to an investor, the public offering price must be maintained, even though the sale is made through another broker who acts as agent for the seller, the investor, or both.

As section 22 (d) itself states, the offering price is not required to be maintained in the case of sales in which both the buyer and the seller are dealers acting as principals in the transaction.

[Investment Company Act Release No. 87, March 14, 1941]

§ 271.89 *Letter of General Counsel relating to section 22 (d).*

This is in reply to your request for an opinion as to the application of Section 22 (d) of the Investment Company Act of 1940 to the selling practices of an open-end management investment company.

As I understand the facts, the shares of the company are offered to the public at a current offering price described in the prospectus as net asset value plus a specified sales load. However, it is stated in the prospectus that in the case of a single investment of $25,000 or more, this sales load may be reduced at the option of the principal underwriter.

You wish to know whether an offering at a price which is thus variable in the discretion of the principal underwriter in the case of sales of $25,000 or more conflicts with section 22 (d) of the Act. Speaking generally, that section prohibits the sale of redeemable securities to any person other than a dealer or underwriter except at a "current offering price" described in the prospectus.

I believe it is permissible to charge varying prices for varying amounts of redeemable securities based on a uniform scale of sales loads for different amounts purchased. But, in my opinion, section 22 (d) requires the "current offering price" to be one readily ascertainable by a reading of the prospectus. Therefore I believe that the charging of varying prices is not permissible unless the prospectus definitely sets forth the price which a purchaser of any specific amount of redeemable securities will have to pay.

In your case the price which may be charged in the case of sales of $25,000 or more is not clearly and specifically set forth in the prospectus, and as a result of the discretion conferred upon him the principal underwriter is in a position in such cases to discriminate between purchasers of like amounts of redeemable securities. At least one of the purposes of the requirement of disclosure of the "current offering price" is to prevent such discrimination among investors.

It is my conclusion, therefore, that if the principal underwriter is given the option to vary the sales load otherwise than in the uniform manner specified above, the requirements of section 22 (d) are not satisfied.

[Investment Company Act Release No. 89, March 13, 1941]

§ 271.150 *Letter of general counsel relating to section 24 (b).*

You have indicated that a general outline of the scope and operation of Section 24 (b) of the Investment Company Act of 1940 might be helpful to the members of your committee. Such an outline is given below. I have attempted there to cover the points which most frequently arise and which are of the most practical significance from the point of view of the companies concerned. I have not attempted to chart the precise legal limits of section 24 (b) or to resolve those difficult questions of legal interpretation which may arise in a few unusual situations.

General scope of section. Section 24 (b) of the Investment Company Act of 1940 reads as follows: "(b) It shall be unlawful for any of the following companies, or for any underwriter for such a company, in connection with a public offering of any security of which such company is the issuer, to make use of the mails or any means or instrumentalities of interstate commerce, to transmit any advertisement, pamphlet, circular, form letter, or other sales literature addressed to or intended for distribution to prospective investors unless three copies of the full text thereof have been filed with the Commission or are filed with the Commission within ten days thereafter: (1) any registered open-end company; (2) any registered unit investment trust; or (3) any registered face-amount certificate company."

It is clear from the context that the various terms used in section 24 (b)—"advertisement," "pamphlet," "circular," "form letter"—are all intended to represent types of sales literature. The term "sales literature" must, I believe, be read in the light of the definition of the word "sale," which appears in section 2 (a) (33) of the Investment Company Act and which provides, among other things, that every "attempt or offer to dispose of, or solicitation of an offer to buy, a security or interest in a security, for value" is a "sale." So it may be said that every written communication used by the issuer or an underwriter with the intention of inducing or procuring, or of facilitating the inducement or procurement, of any sale of the securities of any of the companies enumerated in section 24 (b) is within the purview of that section.

It should be noted that section 24 (b) does not require the filing of sales literature if a sufficient number of copies have already been filed with the Commission pursuant to any other provision of the Investment Company Act or pursuant to any other statute administered by the Commission. The significance of this point will be brought out more fully in connection with the discussion below of specific types of selling literature.

Prospectuses. Prospectuses are of course "sales literature" and within the purview of section 24 (b). A company registering under the Securities Act of 1933, however, and fully complying with the requirements of that Act, will automatically meet the requirements of section 24 (b) so far as the filing of prospectuses is concerned. Rule 800 under the Securities Act of 1933 (17 CFR, 230.800) requires the filing of a number of copies of a prospectus at the time a registration statement is filed under that Act; it also requires the filing of copies of the prospectus within five days after the commencement of the public offering of the securities registered, and whenever thereafter the prospectus is amended. Compliance with Rule 800 (17 CFR, 230.800) will automatically make for compliance with section 24 (b) of the Investment Company Act so far as formal offering prospectuses are concerned.

Of course the above remarks apply only to material to which Rule 800 (17 CFR, 230.800) is applicable. A company or its distributor may choose to supplement a prospectus in such a way that the supplementary material is not within the scope of Rule 800. Copies of supplementary material of this nature must be filed in order to comply with section 24 (b).

Reports to security holders. When a stockholders' report is sent to an investor who is not a stockholder, it must ordinarily be regarded as "sales literature." When the report is sent to stockholders alone, it may or may not be "sales literature," depending upon the character of the statements it contains and the purpose for which it is used. In any event, four copies of any report to security holders which contains financial statements (as most reports do) must be filed with the Commission, pursuant to section 30 (b) (2) of the Investment Company Act and Rule N-30B2-1 (17 CFR, 270.3062-1) thereunder, within 10 days after transmittal. In all instances where section 30 (b) (2) applies, therefore, compliance with that section will automatically make for compliance with section 24 (b), so far as reports to security holders are concerned.

"Tombstone" advertisements. Such an advertisement, which merely "states from whom a written prospectus meeting the requirements of section 10 [of the Securities Act] may be obtained and, in addition, does no more than identify the security, state the price thereof, and state by whom orders will be executed" is excluded from the definition of the term "prospectus" and is therefore not ordinarily filed under the Securities Act of 1933. It is clear, however, that such an advertisement is a kind of "sales literature," and three copies of each such advertisement should therefore be filed pursuant to section 24 (b). It is not necessary that identical advertisements appearing in different newspapers or periodicals, or appearing at different times, be treated as separate pieces of sales literature; it is sufficient if one set of three copies of each such advertisement is filed regardless of the number of publications in which it appears. It will simplify our administrative job, however, if in filing copies of such an advertisement the company or underwriter indicates some of the publications, or briefly describes the nature of the publications, in which the advertisement will appear and the frequency with which it will appear.

Form letters. The companies will presumably have no difficulty in filing copies of the ordinary printed or mimeographed form letter. Letters which are individually written or typewritten present a more troublesome problem. It would certainly be contrary to the spirit of section 24 (b) if its provisions could be evaded by the device of individually typing a large number of substantially identical sales letters. On the other hand, I recognize that in writing individual letters to stockholders and prospective investors, investment companies or their underwriters may frequently make use of more or less stereotyped explanations and arguments. In order to give effect to the policy of section 24 (b) without subjecting the companies and their distributors to unwarranted inconvenience, paragraph (a) of Rule N-24B-1 (17 CFR, 276.246-1) defines "form letter" to include "one of a series of identical sales letters" and also "any sales letter a substantial portion of which consists of a statement which is in essence identical with similar statements in sales letters sent to 25 or more persons within any period of 90 consecutive days." Only a single set of three copies of each form so used need be filed with the Commission; it is not necessary to file copies of individual variants of the form, and it is immaterial whether the variants are written during or after the 90-day period prescribed by the rule.

Communications to Dealers and Salesmen. Ordinarily communications from the issuer or distributor to dealers and salesmen, containing information and instructions, need not be filed pursuant to section 24 (b). On the other hand, if pamphlets or other written sales material is sent to dealers or salesmen to be physically passed on to prospective investors, it is clear that copies must be filed, since they constitute "sales literature • • • intended for distribution to prospective investors." A less obvious but equally significant situation is presented when selling arguments are sent to dealers or salesmen in written form, with the understanding or intent that the dealers and salesmen will use these arguments orally in attempting to sell securities to the investing public. Certain types of investment companies, particularly those which sell face-amount certificates and periodic payment plan certificates, rely to a considerable extent upon oral representations to sell their securities. The Commission's view is that the realities of this situation, when viewed in the light of the purpose of section 24 (b), require that selling arguments sent to dealers or salesmen in written form, in order that they may be passed on to the investing public by word of mouth, come within the purview of Section 24 (b). Accordingly paragraph (b) of Rule N-24B-1 (17 CFR, 276.246-1) in effect defines the term "distribution" to include oral distribution.

Examination by Commission's staff. I am advised by the Investment Company Division that it will not ordinarily be practicable for the Division's staff to give the companies filing material under section 24 (b) any indication of the propriety or impropriety of the contents of the material. It has never been contemplated that such material would be examined with the regularity and the meticulous attention given such fundamental documents as registration statements, annual reports and reports to stockholders. Such registration statements and reports are a primary source of detailed information, whereas the purpose of section 24 (b) is not so much to provide a source of information as to facilitate the enforcement of the anti-fraud provisions of the statutes administered by the Commission, particularly section 17 (a) of the Securities Act of 1933, section 15 (c) of the Securities Exchange Act of 1934 and section 34 (b) of the Investment Company Act of 1940. For this reason, and because of the great volume of material filed under section 24 (b), I am advised that no regular routine of examination or issuance of deficiency memoranda in respect of such material will be followed, at least for the present. Neither can the Commission's staff ordinarily undertake to pass upon or give even tentative advice concerning material submitted in advance of its use. I am sure you will appreciate the practical administrative considerations which make this course necessary.

In concluding, let me refer briefly to Rule N-24B-2, which has been found necessary because of the tendency of many companies to forward a variety of documents without properly indicating the purpose for which they are being filed. If no indication of the reason for filing is given, it is sometimes difficult for the staff of the Commission to know whether the material is sent only for the staff's information, as a matter of courtesy, or whether it should be put in the public files which have been set up for material the filing of which is required by law. Difficulties are also encountered when the indication of the purpose of filing is incorrect (as when copies of a stockholders' report are stated to be filed under section 24 (b) of the Investment Company Act, and no reference is made to section 30 (b) (2). Since these filing problems center almost entirely about Section 24 (b), it is believed that careful compliance with Rule N-24B-2 (17 CFR, 270.246-2) will prevent any substantial difficulties on this score in the future and will simplify matters both for the companies and for the Commission.

[Investment Company Act Release No. 150, June 20, 1941]

§ 271.167 *Opinion of General Counsel relating to sections 8 (b) (1) and 13 (a).*

The question which you have raised involves Sections 8 (b) (1) and 13 (a) of the Investment Company Act of 1940 and Items 39 to 45 of Form N-8B-1 (17 CFR, 274.11) adopted thereunder.

Section 8 (b) of the Investment Company Act requires every investment company which has filed a notification of registration pursuant to section 8 (a) of the Act to file subsequently, within a period of time fixed by Commission rule, a detailed registration statement giving certain information regarding the company and its policies and operations. Among the items of information for which section 8 (b) makes provisions are the following:

"(1) a recital of the policy of the registrant in respect of each of the following types of activities, such recital consisting in each case of a statement whether the registrant reserves freedom of action to engage in activities of such type, and if such freedom of action is reserved, a statement briefly indicating, insofar as is practicable the extent to which the registrant intends to engage therein: (A) the classification and subclassifications, as defined in sections 4 and 5, within which the registrant proposes to operate; (B) borrowing money; (C) the issuance of senior securities; (D) engaging in the business of underwriting securities issued by other persons; (E) concentrating investments in a particular industry or group of industries; (F) the purchase and sale of real estate and commodities, or either of them; (G) making loans to other persons; and (H) portfolio turn-over (including a statement showing the aggregate dollar amount of purchases and sale of portfolio securities, other than Government securities, in each of the last three full fiscal years preceding the filing of such registration statement);

(2) a recital of the policy of the registrant in respect of matters, not enumerated in paragraph (1), which the registrant deems matters of fundamental policy and elects to treat as such;"

Section 13 (a) of the Act reads as follows: "Section 13 (a). No registered investment company shall, unless authorized by the vote of a majority of its outstanding voting securities—

"(1) change its subclassification as defined in section 5 (a) (1) and (2) of this title or its subclassification from a diversified to a non-diversified company;

"(2) borrow money, issue senior securities, underwrite securities issued by other persons, purchase or sell real estate or commodities or make loans to other persons, except in each case in accordance with the recitals of policy contained in its registration statement in respect thereto;

"(3) deviate from its policy in respect of concentration of investments in any particular industry or group of industries as recited in its registration statement, or deviate from any fundamental policy recited in its registration statement pursuant to section 8 (b) (2); or

"(4) change the nature of its business so as to cease to be an investment company."

Items 39 to 45 of Form N-8B-1 (17 CFR, 274.11) (which is the detailed form of registration statement for management companies) generally follow the language of sections 8 (b) (1) of the Act. Item 39 (b), which is typical, reads as follows:

"(b) Describe the policy of the registrant with respect to issuance of bonds, debentures and senior equity securities. (Registrant may reserve freedom of action to issue such securities, but if such freedom of action is reserved, a statement must be made briefly indicating insofar as is practicable, the extent to which registrant intends to issue such bonds, debentures, or senior equity securities.)"

You state that you intend to answer item 39 (b) as follows:

Registrant reserves freedom of action to issue bonds, debentures or senior equity securities.

Registrant does not intend to issue any bonds, debentures or senior equity securities.

Your request confirmation of your opinion that, if the item is so answered, your company will not be guilty of a violation of section 13 (a) (2) of the Act if at some subsequent date it issues senior securities without first obtaining a stockholders' vote.

Section 13 (a) (2) requires that the issuance of senior securities by a registered investment company, unless authorized by a vote of security holders, be made only "in accordance with the recitals of policy contained in its registration statement in respect thereto." The phrase "recital of policy" is not defined in the Act, but it is clear from the wording of section 8 (b) (1) that the phrase includes any statement made in order to comply with that section, whether the statement is expressed in terms of policy, intention or freedom of action. Moreover, section 8 (b) (1) requires that (to the extent practicable) a statement of the registrant's intention be made with regard to engaging in each of the activities enumerated in the section. This required statement of intention is the element of the "recital of policy" upon which section 13 (a) (2) has its impact. Corporate action cannot be said to be "in accordance with the recitals of policy" in a company's registration statement, within the meaning of section 13 (a) (2), if such corporate action departs in any respect from the registrant's statement of intention. Or to put the point more concretely, if your company answers Item 39 (b) of Form N-8B-1 as you propose, a stockholders' vote will be necessary before the company may issue senior securities.

The general framework of the Act, its legislative history and the practical aspects of the problem, as well as a strict reading of its provisions, all tend to support this interpretation. For example, there is a clear contrast between sections 8 (b) (1) and 13 (a) (2) on the one hand and section 8 (b) (2) and the corresponding provision of section 13 (a) (3) on the other. It is clear that section 8 (b) (2) merely affords the registrant an opportunity, without in any way obliging it, to make statements of fundamental policy which will bind the company in the absence

of a stockholders' vote. The emphasis of section 8 (b) (1) is very different; it implies an obligation on the part of the registrant to make as definite a statement of policy as is practicable with respect to each of the matters enumerated therein. The same inference is to be drawn from the following statement appearing in the Report of the Senate Committee on Banking and Currency, which considered the Investment Company Bill:

"• • • In addition, the registration statement must state the policy of the company as to items specifically enumerated in the bill." (S. Rep. 1775, 76th Cong., 3d sess., p. 13).

The only possible alternative to the construction of the statute which I have advanced is to say that it is only that portion of a recital of policy which relates to "freedom of action" which in any way binds the registrant for the purposes of section 13. Such a construction would lead to this absurd conclusion: every registrant, with respect to every type of activity enumerated in section 8 (b) (1), could make whatever statement of policy it wished in the form of a statement of intention, deriving every possible benefit in the eyes of the investing public which it is possible to derive from an indication that the company has a definite policy, and then might prevent its statement of policy from having any effect under section 13 by merely making a formal recital that it reserves "freedom of action."

If what I have said is correct it seems to me that it would serve little purpose for you to answer Item 39 (b) of Form N-8B-1 as you propose. Since your proposed statement of intention is an unqualified negative which will bind the registrant under section 13 (a) (2), the purported reservation of "freedom of action" has little meaning.

Admittedly a registrant may meet practical difficulties in attempting to recite its policy in those numerous situations in which neither an unqualifiedly negative nor an unqualifiedly affirmative statement is possible. This practical problem is recognized in section 8 (b) (1) and in the items of Form N-8B-1 adopted thereunder by providing that the registrant need only briefly indicate, "insofar as is practicable, the extent to which the registrant intends" to engage in the particular activity. To the extent that specification is practicable, however, it is the duty of the company to furnish statements of policy or intention which are specific, precise and informative.

It is obviously impossible to lay down any general rule for determining whether a particular statement of intention is as specific and definite as it is practicable to make it. The definiteness of the statement will necessarily vary with the nature of the registrant's business, the registrant's history and experience, and the nature of the activity to which the statement relates. For example, an answer which might be reasonably specific in the registration statement of a non-diversified closed-end company might be too general in the registration statement of a diversified open-end company. Again, a registrant which has adhered to certain well-defined policies in the past may in some instances be expected to describe its future policy with more particularity than a registrant which is formulating a policy for the first time. Nor can individual items be considered in isolation; a registrant's answer to one item, which might seem insufficiently definite considered by itself, may nevertheless be acceptable because its response to other items, which are interrelated as a practical matter, is unusually specific. In the last analysis, each registrant presents special problems and will require an application of the test of practicability which is suited to those problems.

The Investment Company Division of the Commission has advised me that it will be glad to consider informally any company's proposed or tentative answers to Items 39 to 45 of Form N-8B-1.

[Investment Company Act Release No. 167, July 23, 1941]

§ 271.214 *Letter of General Counsel relating to section 10 (a).*

This is in reply to your request for an opinion as to the proper interpretation of the term "employees" as used in Section 10 (a) of the Investment Company Act of 1940.

As I understand the facts, a registered investment company proposed to have a board of directors consisting of 15 persons. Of the proposed board, two directors will be officers of the investment company and seven will be partners of the firm which acts as investment adviser. It is proposed that X, a partner in the law firm which is on a general retainer from the investment company, be nominated as one of the six remaining directors. You wish to know whether X is an "employee" of the investment company within the meaning of section 10 (a).

Cases involving the construction of the term "employees" indicate that that term has no fixed meaning, but must be construed in the context and connection in which it is used. Attorneys have been held by the courts to be "employees" under some statutes and not under others. The settled rules of statutory construction require that the term, as used in a particular section of a statute, must be interpreted in the light of the purpose of the particular section and the evil sought to be remedied thereby. The legislative history of the Investment Company Act makes it manifest that the intent of section 10 (a) is to provide that at least 40% of the board shall be "independent" of the management, and shall be in a position to make an independent check upon the management's acts. I believe that counsel to an investment company who is regularly and continuously employed on a general retainer is so closely related to the management that he cannot be considered to be the "independent" type of person which the Act contemplates. The usual work of such counsel and the questions which confront him relate to the management of the company. He provides the legal advice which guides the management of the company in its activities. The purpose of Section 10 (a)—to provide an independent check on management—can hardly be accomplished if a person so closely related to the management is permitted to be included in the minority portion of the board which is designed to check independently on management activities. The same reasoning, of course, follows as to a partner or associate in a firm of attorneys employed on a general retainer basis.

My opinion is strengthened by a consideration of the effects of adopting a contrary interpretation. Such an interpretation would permit a company to choose a board composed exclusively of management directors and attorneys on retainer. Under this view a board of five directors might be composed of three officers or investment advisers and two partners in the law firm employed on general retainer by the company. Clearly any interpretation which so completely deprives stockholders of the independent check Congress intended to grant them must be rejected.

In view of the foregoing, it is my conclusion that an attorney on a general retainer from a registered investment company, or a partner or associate in a law firm which acts on that basis, is within the meaning of the term "employees" as used in Section 10 (a). Consequently, in the situation presented, this section would prohibit X from acting as a director of the company.

[Investment Company Act Release No. 214, September 15, 1941]

§ 271.446 *Extract from letter of Director of the Corporation Finance Division to sections 20 and 34 (b).* The Securities and Exchange Commission today made public an extract from a letter of Baldwin B. Bane, Director of its Corporation Finance Division, to an officer of a corporation who had inquired whether the Commission considered the company's annual report to security holders to be a part of the proxy soliciting material which, under the provisions of Rule X-14A-4 (17 CFR, 240.146-4) of the General Rules and Regulations under the Securities Exchange Act of 1934, is required to be filed with the Commission. The text of the extract from the Director's letter follows:

The rules in Regulation X-14 provide in effect that no proxy solicitation relating to a meeting of security holders at which the election of directors is an item of business shall be made by the management of the issuer unless each person solicited is concurrently furnished or has previously been furnished with an annual report to security holders containing such financial statements for the last fiscal year as will, in the opinion of the management, adequately reflect the position and operations of the issuer. The rules further require that copies of the annual report to stockholders must be mailed to the Commission in order that it may check compliance with the rule. You inquire whether the reports thus mailed are considered by the Commission to be material "filed" with the Commission within the meaning of Section 18 of the Act and therefore to be subject to the liabilities imposed by that section.

We do not regard the copies of annual reports so mailed to the Commission to be proxy solicitation material "filed" with the Commission or subject to the proxy rules or to the liabilities of section 18[1] of the Act except in cases in which the issuer specifically requests that it be treated as part of the proxy soliciting material or in cases in which it is incorporated in the proxy statement by reference. This is so whether the annual report is sent to the persons solicited and to the Commission in advance of the proxy statement or concurrently with it.

[Investment Company Act Release No. 446, February 5, 1943]

§ 271.448 *Excerpts from letters of the Director of the Corporation Finance Division relating to section 14 and Schedule 14A under Regulation X-14.* This release is the same as Securities Exchange Act Release No. 3385 (17 CFR, 241.3385). The Securities and Exchange Commission today made public excerpts from letters of • • • Director of the Corporation Finance Division, to officers of corporations who had asked for interpretation of certain provisions of the amended rules in Regulation X-14 relating to the solicitation of proxies. The first excerpt refers to paragraph (H) of item 5 of Schedule 14A which reads as follows:

Describe briefly any interest, direct or indirect, of each person who has acted as a director of the issuer during the past year and each person nominated for election as a director and any associates of such director or nominee in any transaction during the past year or in any proposed transaction to which the issuer or any subsidiary was or is to be a party. No reference need be made to immaterial and insignificant transactions. If the interest was or is to be in the purchase or sale, other than in the ordinary course of business, of property by the issuer or a subsidiary, include a statement of the cost of the property to the issuer or subsidiary and a statement of the cost to the purchaser or vendor.

[1] Section 34 (b) of the Investment Company Act of 1940 contains a provision similar to that of Section 18 of the Securities Exchange Act of 1934.

The definition of the term "associate" in Rule X-14A-9 (17 CFR, 240.14a-9), which is referred to in the Director's letter, reads as follows:

The term "associate," used to indicate a relationship with any persons, means (1) any corporation or organization (other than the issuer or a majority owned subsidiary of the issuer) of which such person is an officer or partner or is, directly or indirectly, the beneficial owner of 10% or more of any class of equity securities, (2) any trust or other estate in which such person has a substantial beneficial interest or as to which such person serves as trustee or in a similar fiduciary capacity, and (3) any relative or spouse of such person having the same home as such person.

The Director's comment on this item follows:

In general, the following principles should be observed in preparing the information called for by paragraph (H) of item 5.

The word "interest" means a material interest. In determining the materiality of a person's interest, the scope of the definition of the word "associate" in Rule X-14A-9 (17 CFR, 240.14A-9) may be considered as indicating the type of interest in respect of which information should be furnished. For example, the fact that a director of the issuer is also a director of another company is not enough of itself to establish the materiality of his interest in transactions between the two companies. On the other hand, if the director of the issuer were an officer or holder of 10% or more of the stock of the other company, his interest in transactions between the two companies should be disclosed unless the transactions were immaterial and insignificant.

Your letter sets out a list of transactions between your company and other companies or firms in which a director of your company is a director or partner of the other party to the transaction. If the director's interest in the transaction arises merely from the fact that he is a director of the other company, it appears in the light of the principles stated above that no mention of the transaction need be made. However, in commenting on your questions I shall assume that your director is an officer, partner or 10% stockholder of the other party to the transaction.

Your list is as follows:

1. A bank which makes commercial loans to the company at the going rate of interest and also issues Letters of Credit, etc. at the going rate.
2. An insurance company which issues policies of Marine Insurance in the usual form and at the usual rates.
3. An industrial company from which the Company makes purchases of machinery, equipment or supplies.
4. A law firm which is employed on an annual basis to handle various legal matters.
5. A tenant at a substantial rent of part of an office building owned by a subsidiary of this company.
6. A railroad over which this Company ships most of its products.
7. A telegraph company.
8. A telephone company.
9. An electric light company.
10. A sales agent for one particular line of fabrics in one city.

I believe that a director's interest in transactions with the companies referred to in 7, 8 and 9 need not be referred to under paragraph H if the transactions involved the ordinary services rendered by such companies and the services were rendered at the usual and regular rates. If the transactions involved extraordinary, unusual or special services and were not immaterial and insignificant, the interest of directors in them should be disclosed.

Directors' or their associates' interest in transactions with the companies referred to in 1 to 5, inclusive, and in 10 should be disclosed unless the transactions were immaterial and insignificant.

If a choice between two or more carriers is available to the company in determining the route over which its products should be shipped, I should consider that the director's interest in the transactions referred to in 6 should be disclosed unless the transactions were immaterial and insignificant.

The description of the transaction and of the director's interest in it should be brief. Details such as the dollar amount involved and the precise terms of the arrangements need not be stated.

To another inquiry regarding the same provision of the rule, the Director wrote as follows:

You state that a director of the issuer is an officer of a banking institution with which the company may have funds on deposit, or which may act as trustee under a mortgage or other indenture, or as transfer agent of stock, or as registrar with respect to outstanding stocks or bonds. You ask whether the director's interest in these transactions should be disclosed under item 5 (H).

Where a director of the issuer is an officer of a banking institution which during the period covered by the statement has rendered services as trustee under a mortgage or other indenture, the existence of such relationship should be disclosed unless the whole matter is immaterial and insignificant. Directors' interests in the other transactions mentioned in this item need not be disclosed.

Another excerpt refers to the paragraph (I) (3) of item 5 which require in respect of each director, nominee, or person who has acted as an officer but not as a director and who has received remuneration in excess of $20,000 during the fiscal year, a statement of:

the amount paid or set aside by the issuer and its subsidiaries primarily for the benefit of such director, officer or nominee, pursuant to each pension or retirement plan of the issuer and its subsidiaries or other similar arrangement, and the amount of the annual benefits estimated to be payable to such director, officer or nominee in the event of retirement.

The Director's comment on this paragraph follows:

You state that your employees' retirement plan provides for contributions to the retirement fund both by the employees and by the company. The amount of retirement benefits, if any, which a particular officer or director will receive will depend upon his continuance in the company's employ until he reaches retirement age and upon the amount of his salary in future as well as past years. In view of these uncertainties and of the fact that his retirement benefits will result in part from his own contributions, you suggest that you should not include in the tabulation called for by item 5 (I) the estimate of annual retirement benefits specified in paragraph (3) thereof.

I think you should include the required estimate in the tabulation, computing it upon the assumption that an employee will continue in the employ until normal retirement age at his present salary and explain in a footnote the assumptions upon which the estimate is based. The footnote may also include a statement to the effect that part of the sum is attributable to the employee's own contributions.

The following excerpt refers to a paragraph (L) of item 5 which calls for the name of each person other than a director, officer or employee of the issuer whose aggregate remuneration from the issuer exceeded $20,000, the amount received by each such person and the capacity in which it was received.

You point out that paragraph 5 (L) of item 5 of Schedule 14A is substantially the same as item 11 of Form 10-K (17 CFR, 249.310), the form on which the company files its annual report with the Exchange and with the Commission under the Securities Exchange Act of 1934. You ask whether the instructions as to item 11 of the Instruction Book for Form 10-K may be used as a guide in determining what disclosure should be made in the proxy statement under item 5 (L).

Item 5 (L) is intended to elicit information similar to that required to be given under item 11 of Form 10-K (17 CFR, 249.310) and the instructions as to that item may properly be used as a guide in the preparation of that part of the proxy statement.

[Investment Company Act Relase No. 448, February 17, 1943]

§ 271.735 *Letter of the Director of the Corporation Finance Division relating to section 20 and to Rule X-14A-7 under the Securities Exchange Act of 1934 (17 CFR, 240.14a-7).*

This is in reply to your recent letter in which you inquire whether certain proposals presented to you by a stockholder of the company for inclusion in the management proxy statement pursuant to the provisions of Rule X-14A-7 of Regulation X-14 of the General Rules and Regulations promulgated pursuant to the provisions of the Securities Exchange Act of 1934 are proper subjects for action by your company's security holders at its next annual meeting. The resolutions presented by such stockholder propose that dividends paid to stockholders shall not be subject to Federal Income Tax where the income from which such dividends are paid has already been subject to corporate income taxes; that the anti-trust laws and the enforcement thereof be revised; that all Federal legislation hereafter enacted providing for workers and farmers to be represented should be made to apply equally to investors. Other resolutions which are proposed are of similar nature. You state that these proposals are obviously of a political and economic nature and that your corporation is an industrial corporation which is not empowered to engage in political activity nor is such activity within the scope of its business operations.

Speaking generally, it is the purpose of Rule X-14A-7 (17 CFR, 240.14A-7) to place stockholders in a position to bring before their fellow stockholders matters of concern to them as stockholders in such corporation; that is, such matters relating to the affairs of the company concerned as are proper subjects for stockholders' action under the laws of the state under which it is organized. It was not the intent of Rule X-14A-7 to permit stockholders to obtain the consensus of other stockholders with respect to matters which are of a general political, social or economic nature. Other forums exist for the presentation of such views.

It is my conclusion that the proposals which have been presented to you are not "proper subjects for action" by your company's stockholders within the meaning of that phrase as used in Rule X-14A-7 (17 CFR, 240.149-7). Consequently, it will be unnecessary for you to include the proposals in the management's proxy statement if you do not wish to do so.

[Investment Company Act Release No. 735, January 3, 1945]

PART 276—INTERPRETATIVE RELEASES RELATING TO THE INVESTMENT ADVISERS ACT OF 1940 AND GENERAL RULES AND REGULATIONS THEREUNDER.[1]

Sec.

276.2 Opinion of General Counsel relating to section 202 (a) (11) (c) of the Investment Advisers Act of 1940.
276.8 Opinion of the General Counsel relating to the use of the name "investment counsel" under section 208 (c) of the Investment Advisers Act of 1940.
276.40 Opinion of the Director of the Trading and Exchange Division relating to section 206 of the Investment Advisers Act of 1940, section 17 (a) of the Securities Act of 1933, and sections 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934.

§ 276.2 *Opinion of General Counsel relating to section 202 (a) (11) (C) of the Investment Advisers Act of 1940.*

OCTOBER 28, 1940.

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.,
821 15th Street, NW.,
Washington, D. C.

GENTLEMEN: You have requested my opinion whether participation by an over-the-counter broker or dealer in transactions of the character described below renders him an "investment adviser" within the meaning of Section 202 (a) (11) of the Investment Advisers Act of 1940.

In each of the situations presented, a broker who is not a member of a national securities exchange transmits to a broker who is a member of such an exchange an order for the member broker to purchase or sell a security listed on the exchange for the account of a customer of the non-member broker. In each case the non-member broker charges his customer an "overriding commission" or "service charge" in addition to the regular commission which the member broker receives for executing the transaction. In no instance is the amount of the "overriding commission" or "service charge" greater than the regular commission charged by the member broker.

I understand that there are four district practices or policies followed by over-the-counter brokers in making such charges:

1. Frequently the over-the-counter broker charges the overriding commission or service charge in every instance in which he transmits such an order to a member broker, and the amount of such additional commission or charge is the same for all transactions of the same size, no matter who the customer is or how much consultation or advice the over-the-counter broker has given him.

2. Other over-the-counter brokers charge an overriding commission or service charge which may be uniform in amount, but which is charged only to those customers to whom the broker has given advice. In these cases the non-member broker receives no remuneration on transactions in listed securities if the customer has simply asked him to have an order executed, without seeking or receiving any advice.

3. A number of over-the-counter houses charge, on a uniform basis, an overriding commission or service charge for the execution of such transactions, except that they make no charge to certain clients, for example, clients who do a substantial amount of over-the-counter business through or with the house.

4. Occasionally an over-the-counter broker follows the practice of charging an overriding commission or service charge to all customers and on all transactions, but the amount of the charge varies in relation to the amount of consultation between the broker and his customer regarding the transaction.

The pertinent provisions of section 202 (a) (11) of the Investment Advisers Act, under which these questions arise, are the following:

"'Investment adviser' means any person who, for compensation, engages in the business of advising others * * * as to the value of securities or as to the advisability of investing in, purchasing, or selling securities * * *; but does not include * * * (C) any broker or dealer whose performance of such services is solely incidental to the conduct of his business as a broker or dealer and who receives no special compensation therefor * * *"

I shall assume for the purposes of this letter that, in every situation outlined above, the transaction is "solely incidental to the conduct * * * business as a broker or dealer." The precise question presented, therefore, is whether in each of these situations the over-the-counter broker in taking an overriding commission is receiving "special compensation for" advice which he may have given his customer.

Clause (C) of section 202 (a) (11) amounts to a recognition that brokers and dealers commonly give a certain amount of advice to their customers in the course of their regular business, and that it would be inappropriate to bring them within the scope of the Investment Advisers Act merely because of this aspect of their business. On the other hand, that portion of clause (C) which refers to "special compensation" amounts to an equally clear recognition that a broker or dealer who is specially compensated for the rendition of advice should be considered an investment adviser and not be excluded from the purview of the Act merely because he is also engaged in effecting market transactions in securities. It is well known that many brokers and dealers have investment advisory departments which furnish investment advice for compensation in the same manner as does an investment adviser who operates solely in an advisory capacity. The essential distinction to be borne in mind in considering borderline cases, such as those which you have presented, is the distinction between compensation for advice itself and compensation for services of another character to which advice is merely incidental.

Let me turn now to the four specific situations as to which you have inquired. In the first situation the over-the-counter broker charges an overriding commission or service charge for participating in the execution of every purchase or sale of listed securities. While the time and expense involved in giving advice to customers may be among his motives for charging the overriding commission or service charge, they represent only one part of his general expenses, and are no more directly related to the charge, which he makes than is similar advice given customers with respect to over-the-counter transactions for which the broker receives a regular commission. In this first situation the imposition of the overriding commission or service charge does not in itself make the over-the-counter broker an "investment adviser" within the meaning of the Act.

The second situation presents a clear antithesis to the first. Here the charge is directly related to the giving of advice. Those customers who receive the advice have to pay an additional charge, while those who do not receive advice do not.

The fourth situation is no different in principle from the second. Although all customers must pay an additional charge, at least part of the charge to customers receiving advice is attributable to such advice, and it is therefore clear that the charge includes "special compensation" for advice. It is my opinion that in both the second and fourth situations the over-the-counter broker is acting as an investment adviser.

From a practical point of view the third situation presents a difficult problem. It is true that if the broker's discrimination between customers bears no relation to the nature or amount of advice which they receive from him, the additional charge does not in principle appear to be "special compensation." Nevertheless, I am sure you will recognize that difficult questions of fact are presented whenever the additional charge is not imposed on a wholly uniform basis. If a broker is confident that his discrimination between customers follows a clear and consistent policy, bearing no relation whatsoever to the rendition of investment advice to his customers, he may safely consider himself excluded from the definition of the term "investment adviser." When the circumstances are not so clear, I suggest that you recommend to your members that they call their peculiar problems to the Commission's attention, and take the precaution of registering under the Act pending the Commission's determination of the question. If the Commission is of the opinion that the broker is not an "investment adviser" within the meaning of the Act, he will be entitled to withdraw his registration pursuant to section 203 (g).

Very truly yours,

CHESTER T. LANE,
General Counsel.

[Investment Advisers Act Release No. 2, October 28, 1940]

§ 276.8 *Opinion of the General Counsel relating to the use of the name "investment counsel" under section 208 (c) of the Investment Advisers Act of 1940.*

You have raised the question of a possible conflict between the provisions of Section 208 (c) of the Investment Advisers Act of 1940 and the provisions of certain State laws regulating investment advisers. These State laws require, in one form or another, that a person giving advice with reference to security investments obtain a license to act as an "investment counsel". Under the Investment Advisers Act, on the other hand, if such person is not primarily engaged in the business of rendering "investment supervisory services" (as defined in Section 202 (a) (13)), it will be unlawful for him "to represent" that he is an "investment counsel" or "to use the name investment counsel as descriptive" of his business.

Section 208 (c) of the Investment Advisers Act attempts to restrict the use of the term "investment counsel" by persons registered under the Act to those who are primarily engaged in giving continuous advice as to the investment of funds on the basis of the individual needs of their clients. Although the state licensing laws referred to above use the phrase "investment counsel", the context in which the phrase is used indicates that the intent of the statutes is to establish a general descriptive category for administrative purposes rather than to distinguish between investment advisers who give general market advice and those who give individualized service. I believe that the purposes of the Investment Advisers Act and of the state statutes are not necessarily conflicting.

A person who is registered under the Investment Advisers Act but who is not an investment counsel within the meaning of that Act should in his general advertisement and on his letterhead refer to himself as an investment adviser or some other appropriate term other than investment counsel. In so doing he certainly would not be violating the state statutes and he would be conforming with the Investment Advisers Act. On the other hand, if he were asked whether his company is licensed under a state law, it would be entirely proper to reply that he is licensed to do business in that state as an investment counsel. Similarly a certificate issued by a state authority setting forth that he has qualified under the law as an investment counsel can properly be hung on the wall of his office. In such cases the investment adviser would simply be advising concerning his technical legal status under the state law.

In a large measure the whole question is one of good faith. As a practical matter, if the investment adviser confines reference to himself as an "investment counsel" to those situations in which there is common-sense justification for pointing out his legal status under a State law, he will run no other risk of violating section 208 (c).

[Investment Advisers Act Release No. 8, December 12, 1940]

§ 276.40 *Opinion of Director of Trading and Exchange Division, relating to section 206 of the Investment Advisers Act of 1940, section 17 (a) of the Securities Act of 1933, and sections 10 (b) and 15 (c) (1) of the Securities Exchange Act of 1934.*

The question has been presented whether it is permissible for an investment adviser to sell a security to or buy a security from a client. You ask also what disclosure is necessary if such a transaction is permissible. Section 206 of the Investment Advisers Act of 1940 provides:

"It shall be unlawful for any investment adviser registered under section 203, by use of the mails or any means or instrumentality of interstate commerce, directly or indirectly—

"(1) to employ any device, scheme, or artifice to defraud any client or prospective client;

"(2) to engage in any transaction, practice, or course of business which operates as a fraud or deceit upon any client or prospective client;

"(3) acting as principal for his own account, knowingly to sell any security to or purchase any security from a client, or acting as broker for a person other than such client, knowingly to effect any sale or purchase of any security for the account of such client, without disclosing to such client in writing before the completion of such transaction the capacity in which he is acting and obtaining the consent of the client to such transaction. The prohibitions of this paragraph (3) shall not apply to any transaction with a customer of a broker or dealer if such broker or dealer is not acting as an investment adviser in relation to such transaction."

An investment adviser is a fiduciary. As such he is required by the common law to serve the interest of his client with undivided loyalty. In my opinion a breach of this duty may constitute a fraud within the meaning of clauses (1) and (2) of section 206 of the Investment Advisers Act (as well as the anti-fraud provisions of the Securities Act of 1933 and the Securities Exchange Act of 1934).

It follows that an investment adviser may not effect a transaction as principal with a client unless he obtains the client's consent to the transaction after fully disclosing any adverse interest he may have, together with any other information in his possession which the client should possess in order to determine whether he should enter into the transaction. The disclosure should include, as a minimum, (a) the capacity in which the investment adviser proposes to act, (b) the cost to the adviser of any security which he proposes to sell to his client (or, if he proposes to buy a security from his client and knows or is reasonably certain of the price at which it is to be resold, a statement of that price), and (c) the best price at which the transaction could be effected by or for the client elsewhere if such price is more advantageous to the client than the actual purchase or sale price. Moreover, any disclosure of the cost to the investment adviser (or the price he expects to receive on resale) should be so phrased that its full import is obvious to the client. The disclosure should include a statement of the total amount of the cost or resale price (or the total profit) in dollars and cents; it would not suffice, in my opinion, merely to express a formula by which those amounts may be computed, or to limit the disclosure to a percentage figure or to a maximum number of points or dollars per share or bond.

What has been said thus far is not limited to investment advisers who are registered under the Investment Advisers Act. Although section 206 of that Act applies only to registered investment advisers, the overall effect of the anti-fraud provisions of the Securities Act of 1933 and the Securities Exchange Act of 1934 is to cover any transaction in a security by any person where use is made of the mails or of some means or instrumentality of interstate commerce. Consequently, investment advisers who are exempted from registration by one of the clauses of section 203 (b) of the Investment Advisers Act are nevertheless subject to the anti-fraud provisions of the 1933 and 1934 Acts when, notwithstanding their fiduciary status, they seek to deal with clients on a principal basis.

It is not essential that the disclosure of adverse interest be in writing so far as clauses (1) and (2) of section 206 of the Investment Advisers Act, as well as the anti-fraud provisions of the 1933 and 1934 Acts, are concerned. However, aside from the general requirement of full disclosure and consent imposed by these provisions, clause (3) of section 206 of the Investment Advisers Act, which applies only to *registered* investment advisers, requires specifically that the disclosure of the *capacity* in which the investment adviser is acting be given *in writing* and the client's consent obtained before the completion of the transaction. In my opinion the requirements of written disclosure and of consent contained in this clause must be satisfied before the completion of each separate transaction. A blanket disclosure and consent in a general agreement between investment adviser and client would not suffice.

It will be noted that the specific provisions of clause (3) of section 206 do not apply "to any transaction with a customer of a broker or dealer if such broker or dealer is not acting as an investment adviser in relation to such transaction." Whether an investment adviser is subject to the duties of a fiduciary under clauses (1) and (2) (and under the anti-fraud provisions of the 1933 and 1934 Acts) in respect of such a transaction depends on all the facts (including the type of general investment advice rendered) in each case.

Everything which has been said thus far with respect to a transaction in which an investment adviser buys or sells for his own account as principal applies equally to a transaction for the account of a client in which the investment adviser acts as a broker for some other person. In such a transaction, of course, it is the investment adviser's total commission which must be disclosed in dollars and cents.

Finally, it must be borne in mind that this opinion is limited to the requirements of federal law. I can express no opinion as to the applicable state law. It is clear, however, that investment advisers, in addition to complying with the federal law, are subject to whatever restrictions or requirements the common law or statutes of the particular state impose with respect to dealings between persons in a fiduciary relationship.

[Investment Advisers Act Release No. 40, February 5, 1945]

---

[1] The interpretative opinions included herein are opinions issued in the past for the guidance of the public by members of the Commission's staff (or in a few instances by the Commission) and heretofore made public pursuant to Commission authorization. The opinions are to be read as of the date of original publication and in the context of the rules, statutes and circumstances then existing. However, opinions or portions of opinions which are clearly obsolete have been omitted. While it is not clear that publication of interpretative opinions of this kind in the FEDERAL REGISTER is required, it is believed that such publication may be helpful to the public and that it falls within the spirit of the Administrative Procedure Act.

Where rules referring to an opinion have been renumbered since the issuance of the opinion, the new designations are indicated in brackets.

[2] In any event, of course, section 15 (c) (1) of the Securities Exchange Act of 1934 and the Commission's Rule X-15C1-4 (17 CFR, 240.15C1-4) thereunder require every broker or dealer to give his customer written notification of his capacity "at or before" the completion of each transaction.

PART 281—INTERPRETATIVE RELEASES RELATING TO CORPORATE REORGANIZATIONS UNDER CHAPTER X OF THE BANKRUPTCY ACT[1]

Sec.

281.1 Letter of the Commission with respect to transmission to the Commission of all petitions, answers, orders, applications, reports and other papers filed under Chapter X of the Bankruptcy Act.
281.2 Statement by the Commission summarizing Chapter X of the Bankruptcy Act.

§ 281.1 *Letter of the Commission with respect to transmission to the Commission of all petitions, answers, orders, applications, reports and other papers filed under Chapter X of the Bankruptcy Act.*

The Securities and Exchange Commission today made public a letter that it was transmitting to each of the 94 Federal District Court Clerks with reference to the provisions of Chapter X of the Chandler Act relating to the transmission to the Commission of the various papers and documents filed in reorganization proceedings under that Chapter.

* * * * * * *

As you know, at the last session of Congress a statute was enacted extensively revising the National Bankruptcy Act. This revision, known as the Chandler Act, was approved by the President on June 22, 1938; and as a general matter the Act is to take effect and be in force on and after three months from the date of its approval.

Section 77B of the National Bankruptcy Act, relating to Corporate Reorganizations, is to be superseded by Chapter X of the Chandler Act. Chapter confers upon the

[1] The interpretative opinions included herein are opinions issued in the past for the guidance of the public by members of the Commission's staff (or in a few instances by the Commission) and heretofore made public pursuant to Commission authorization. The opinions are to be read as of the date of original publication and in the context of the rules, statutes and circumstances then existing. However, opinions or portions of opinions which are clearly obsolete have been omitted. While it is not clear that publication of interpretative opinions of this kind in the FEDERAL REGISTER is required, it is believed that such publication may be helpful to the public and that it falls within the spirit of the Administrative Procedure Act.

Where rules referring to an opinion have been renumbered since the issuance of the opinion, the new designations are indicated in brackets.

Securities and Exchange Commission various duties and functions in connection with proceedings for the reorganization of corporations under that Chapter. In order that the Securities and Exchange Commission may be informed of the nature and status of the reorganization proceedings and may expeditiously perform the duties imposed upon it, it was provided that copies of the various notices, petitions, applications, orders, reports and other documents filed in the proceedings should be transmitted to the Securities and Exchange Commission.

Accordingly the Commission has requested me to call to your attention section 265 (a) of Chapter X which provides for the transmission to this Commission of copies of all petitions, answers, orders, applications, reports and other papers filed in all reorganization proceedings instituted under the Chandler Act on or after September 29, 1938, in the United States District Court for your judicial district. For your use we are pleased to send you herewith a number of copies of that section.

Further, under section 276 (c) of the Chandler Act, Chapter X will apply to all proceedings pending under Section 77B where the petition in such proceeding under Section 77B was approved on or after June 22, 1938. Accordingly, we would like to obtain copies of all papers and documents which are filed hereafter in connection with proceedings under Section 77B in your judicial district where the petition was approved on or after June 22, 1938. Also we would greatly appreciate it if you could send us a list (name of the debtor and docket number) of all proceedings instituted under 77B in your judicial district in which the petition was approved between June 22, 1938, and the date of your receipt of this letter.

The letter also stated that it was the hope of the Commission that the Clerks would make arrangements, so far as possible, to have all papers and documents mailed to the Commission on the same day that they are filed. Also it was requested that copies of all papers and documents be sent, in duplicate, one copy to be mailed directly to the Securities and Exchange Commission at Washington, District of Columbia, and the second copy to be mailed to the Regional Office of the Commission in which the District Court is located, with the exception of the District Courts located within the area of the Washington Regional Office of the Commission and a few other instances, where a single copy was requested.

The letter concluded as follows:

Your cooperation in sending us the documents in these cases will be greatly appreciated. I shall be happy to correspond with you further upon any of the matters I have mentioned and any inquiries you may wish to make will be most welcome. It is our earnest desire to meet your convenience in these matters in any way we possibly can.

[Corporate Reorganization Release No. 1, September 26, 1938]

§ 281.2 *Statement by the Commission summarizing Chapter X of the Bankruptcy Act.*

A substantially amended federal bankruptcy act was enacted by the Third Session of the 75th Congress and approved by the President on June 22, 1938. These amendments, known as the Chandler Act, constitute a general revision of the entire Bankruptcy Act of 1898, as amended, with the exception of those provisions which relate to railroad reorganizations, municipal debt readjustments and extensions and compositions of agricultural debts. This general revision, the first of its kind in forty years, is the culmination of six years of study and effort by the Judiciary Committees of the Senate and House of Representatives, by the National Bankruptcy Conference, and by the Securities and Exchange Commission.

Chapter X of the Chandler Act imposes certain new duties upon the Securities and Exchange Commission. This chapter, dealing with corporate reorganization, replaces the former Section 77B of the Bankruptcy Act. It clarifies the many ambiguities and contradictions of the former Section 77B, and provides a number of fundamental improvements in corporate reorganization procedure.

Briefly stated, the two principal changes embodied in Chapter X are as follows:

1. In corporate reorganizations involving liabilities of $250,000 or more, the court shall appoint an independent and disinterested trustee to administer the estate, who will also act as the court's representative in studying the affairs of the corporation and in the formulation of a plan of reorganization.

2. In its consideration of all cases under Chapter X, the court will have at its disposal the facilities of the Securities and Exchange Commission.

The independent trustee will perform two particularly important functions. First, he will report to the court the facts about the corporation's financial condition, its assets and liabilities, the activities and competence of its management, and all other matters relevant to the preparation of a plan and the collection of assets. Second, as the court's representative, the independent trustee will hear and give consideration to the proposals of creditors and stockholders who wish to make suggestions as to the reorganization plan. He will then proceed to formulate and file a plan within a time fixed by the court. Thus, under Chapter X, the reorganization plan will be formulated under the guidance of a disinterested officer of the court, who will be entirely independent of conflicting interests.

In the consideration of reorganization plans and the complex financial and business problems which they involve, there will be made available to the courts expert and impartial assistance. Under Chapter X the court may request from the Securities and Exchange Commission an advisory report on any reorganization plan. In the larger cases, where the scheduled liabilities of the debtor corporation undergoing reorganization are over $3,000,000, the court automatically refers proposed reorganization plans to the Commission for an advisory report. In the smaller cases, the court may, or may not, refer plans to the Commission, as it sees fit.

The advisory report will be an independent analysis prepared by the Commission's expert legal and financial staff, and, of course, will be subjected to the scrutiny and approval of the Commission itself. It will provide the court with a non-partisan survey and critique of the plan, appraising its fairness and soundness and revealing any weaknesses or inequities. In addition, upon approval of a plan by the judge the Commission's advisory report will be sent to all investors for their examination at the time they are asked to vote upon the plan. Investors will also receive copies of the court's opinion on the plan and such other information as may be relevant.

In addition to the advisory report on a reorganization plan, the court may obtain the advice and assistance of the Commission throughout the reorganization by making the Commission a party to the legal proceedings. In any case under Chapter X the court may invite the Commission, or upon the request of the Commission may permit it, to intervene as a party to the proceedings.

The Commission desires to emphasize the following:

1. The Commission has no authority under the Chandler Act either to veto or to require the adoption of a reorganization plan. Nor has it authority to adjudicate any of the other issues arising in a proceeding. Its functions are purely advisory. The facilities of its technical staff and its disinterested judgment are at the service of the court.

2. The Commission has no power to restore the lost investment of any security holder or any class of security holders. No change in corporate reorganization procedure, and no readjustment of capital structures, however drastic, can be expected to give value to securities or claims which are intrinsically worthless. The most that can be expected of any system of corporate reorganization is that it will provide adequate machinery for the preservation of the assets of the corporation—the realization of all the values that are in the enterprise—and the fair and equitable allocation of those values among the several classes of security holders and claimants. In addition, of course, the procedure should be so designed that the corporation will emerge from reorganization under a financially sound plan and in the hands of competent and loyal management.

* * * * *

In the period since the passage of the Chandler Act, the Commission has been engaged in adding properly qualified members to its legal, financial, and accounting staff, both in Washington and in each of its eight Regional Offices, in order to facilitate the performance of its functions under the Act. In a four-day meeting held in Washington recently, the full regional and Washington staff of the Reorganization Division undertook a thorough study of these functions, and discussed at length the related problems of administration under the Act.

Insofar as these functions are primarily concerned with representing the Commission in proceedings in which the court has requested or permitted the Commission to intervene, or with obtaining the facts required in the preparation of the Commission's reports on plans, they will ordinarily be handled by the eight Regional Offices. The Commission believes that the convenience of the various United States District Courts, as well as the convenience of investors and other interested parties, will best be served by this procedure.

On the other hand, it is expected that the advisory reports on plans will be prepared in final form at the Washington headquarters for submission to the Commission on the basis of data and information submitted by the Regional Offices. In addition, as under the 1933 and 1934 Acts, the Washington headquarters will of course be charged with the duty of formulating for consideration and determination by the Commission the policies to be pursued in the administration of the Act, and with the task of seeing that those policies are uniformly carried out throughout the country. It will also make available to each Regional Office the results of the research conducted and experience gained in the country-wide administration of the Act.

Each field unit of the Reorganization Division will be an integral part of the Regional Office to which it is assigned, and its work will be under the general administrative supervision of the Regional Administrator. On the basis of available figures with respect to petitions filed under Section 77B during the first eight months of 1938, the Commission estimates that approximately three-fourths of the proceedings under Chapter X will arise within the territorial jurisdiction of its New York and Chicago Regional Offices.

[Corporate Reorganization Release No. 2, September 26, 1938]

LEONARD HELFENSTEIN,
For Herbert B. Cohn, Executive Assistant to the Commission.

[F. R. Doc. 46-16839: Filed, Sept. 17, 1946; 10:12 a. m.]

TITLE 29—LABOR

Chapter VI—National Wage Stabilization Board

PART 807—WAGE ADJUSTMENT BOARD AREA WAGE RATES

ARRANGEMENT AND EFFECT OF PUBLISHED AREA WAGE RATES IN NEVADA, NEW MEXICO, AND UTAH

§ 807.0 *Arrangement and effect of published area wage rates.* Pursuant to § 806.5 of this chapter, area rates as determined by the Wage Adjustment Board are published under succeeding sections of this part. When area raes for a particular state have been published in this part of the regulations, such published rates shall be the only legal area rates in such state unless and until any change in or addition to such rates has been published under the appropriate section number in the FEDERAL REGISTER.

Area rates for all states in which such rates have been determined by the Wage Adjustment Board will be published as soon as practicable. Information as to area rates in states not covered by the published area rates may be obtained on request from the Wage Adjustment Board or from any Regional Office of the National Wage Stabilization Board.

A section number from 1 through 48 has been assigned to each of the 48 states in alphabetical order, under this part. Under each state and section number are listed the counties of such state, in alphabetical order, and under each county appear any further area subdivisions and the area rates for each job classification applicable in such county or other area subdivision within the county to the extent that such rates have been determined and published.

§ 807.27 *Area wage rates for Nevada.*

CHURCHILL COUNTY

(Schedule same as the Washoe County schedule with following exception)

	Building, heavy and highway rates
Carpenters, journeymen	$1.50

CLARK COUNTY

	Building, heavy and highway rates
Asbestos workers (heat and frost insulators)	$1.75
Blacksmiths	1.375
Blacksmiths' helpers	1.00
Boilermakers — mechanics	1.75
Boilermakers' helpers	1.50
Bricklayers	1.85
Cable splicers	1.875
Machinists	1.50
Machinists' helpers	1.00
Damp or water proofers	1.60
Electricians	1.75
Electricians' app., helpers	1.025
Elevator constructors	1.70
Elevator constructors helpers	1.19
Floor layers	1.75
Glaziers	1.60
Iron workers, structural	1.90
Iron workers, ornamental [1]	1.90
Linoleum or carpet layers	1.525
Laborers, concrete [1]	1.05
Laborers (track)	1.05
Lathers (metal furring)	1.66⅔
Lathers (nail on)	1.50
Marble setters	1.725
Marble setters helpers	1.15
Granite cutters	1.25
Granite setters	1.50
Modelers	2.84
Model makers	$1.95
Painters, brush	1.525
Painters, spray	1.875
Painters, structural steel and swing stage	1.60
Plasterers	1.85
Plasterers tenders	1.375
Plumbers (gas or lawn sprinkler fitters)	1.875
Powder men	1.30
Powder men helpers	1.05
Roofers, composition	1.60
Roofers, slate and tile	1.625
Sheet metal workers	1.75
Steam fitters or pipe fitters	1.875
Stone masons	1.85
Stone cutters	1.625
Terrazzo setters helpers	1.15
Terrazzo workers	1.85
Terrazzo hand rubbed finish man	1.50
Terrazzo base machine operators	1.50
Tile setters	1.85
Tile setters helpers	1.15
Welders—pipe line:	
Over 30 inches	1.75
Under 30 inches	1.625
Welders (acetylene)	1.50
Sign writers or sign painters	1.775
Sign painters' helpers	1.05
Sprinkler fitters (fire prevention)	1.75
Sprinkler fitters' helpers	1.10

Operating Engineers	*Building rate* [2]
Air compressor operator	$1.45
Apprentice engineer (including fireman, oiler or equipment watchman)	1.40
Asphalt or concrete screed operator	1.425
Asphalt or cruding plant engineer	1.70
Asphalt plant—day fireman	1.525
Asphalt road mixing machine or pug mill operator	1.75
Box man or mixer box operator—concrete or asphalt plant	1.525
Concrete mixer operator—less than 1 yard	1.55
Concrete mixer operator—over 1 yard or paving type	1.75
Concrete mixer operator—mobile type	1.75
Concrete pump or pumpcrete gun operator	1.65
Concrete mixer operator—dual drum type	1.85
Drilling machine operator, including water wells	1.80
Elevating grades operator	1.825
Engineer generating plant	1.50
Engineer—locomotive operator	1.75
Engineer—dinkey operator	1.55
Heavy duty repairman	1.75
Heavy duty repairman helper	1.40
Hi-line cableway operator	2.00
Hi-line cableway signalman	1.80
Elevator hoist operator	1.65
Material leader or conveyor operator	1.50
Mechanical tamper and finisher operator, concrete or asphalt	1.75
Motor patrol operator, including any type power blade	1.875
Oskosh or d. w. 10 operator	1.875
Pavement breaker operator	1.70
Pile driver operator, including derricks or locomotive cranes	1.90
Pile driver apprentice, including compressors, pumps, fireman, oilers or watchmen	1.50
Pump operator	1.45
Roller operator	1.75
Ross carrier driver	1.55
Surface heater and planer operator	1.70
Tourneaupull, terra cobra, La Plant-Choate, and/or similar high-speed equipment	1.90
Tow blade or grade operator	1.55
Tractor hi-lift shovel	1.90
Tractor operator—bulldozer, tamper, scraper or dragtype ssovel	$1.75
Tractor operator—side or end boom attachments	1.90
Tractor operator—scraper or drag type shovel—tandem	2.05
Train handlers—other than engine crew	1.325
Trenching machine operator—all sizes	1.875
Universal equipment operator (shovel, dragline, derrick, derrick-cargo, "A" frame boom truck, clamshell or crane	1.90
Operating engineer foreman shall receive not less than 17½ cents per hour more than the hourly rate of the highest classification over which he has supervision.	

Iron Workers	*Building, heavy and highway rates*
Reinforcing iron worker	$1.775
Iron worker foreman shall receive 25 cents per hour more than the journeyman rate for the highest classification involved.	

Laborers	
Laborers, general or construction, including all laborers not herein separately classified, on all types of construction	1.20
Laborers, operators and tenders of pneumatic and electric tools, vibrating machines and similar mechanical tools, not separately classified herein	1.30
Miners (hand or machine)	1.40
Motor man	1.40
Timberman, cribber or shorter	1.40
Powderman	1.45
Chucktender	1.30
Caisson bellowers or laborers in tunnels or in shored ditches over 9 feet deep	1.275
Asphalt raker and ironer	1.35
Cutting torch operator (demolition)	1.20
Drillers (core, diamond or wagon)	1.50
Drillers, (all others)	1.50
Mortarman for bricklayers	1.35
Mason tender, except mortar mixer	1.35
Plasterer's tender	1.525
Sandblaster:	
Nozzleman	1.525
Pot tender	1.325
Scaler	1.20
Scaler using bos'n's chair or safety belt or power tools	1.40
Sewer pipe:	
Layer (excluding caulking)	1.45
Caulker (using 9 tools)	1.325
Caulker (cement joints)	1.20
Gunite:	
Rebound man	1.20
Mixer man	1.20
Gun man	1.275
Gunite nozzle man and Gunite rod man shall receive plasterer's wage rate.	
Gunite—Ground wire man shall receive metal lather's wage rate; and the work will be operated in compliance with the jurisdiction determined by the Building and Construction Trades Department of the A. F. of L. Laborer Foreman shall receive not less than 17½ cents per hour more than the hourly rate of the highest classification over which he has supervision.	

Truck Drivers	
Dump truck driver—4 yds. and under, water level	$1.20
Dump truck driver—over 4 yds. and under 8 yds., water level	1.275

[1] Additional job classifications indicated further on.

[2] Building rate. Heavy and highway rates same as in Washoe County.

CLARK COUNTY—continued

Truck Drivers—Con.	*Building, heavy and highway rates*
Dump truck driver—8 yds. and under 14 yds., water level	$1.45
Dump truck driver over 14 yds., water level	1.55
Two-axle flat rack truck driver	1.25
Three-axle flat rack truck driver	1.45
Dumpster truck driver	1.575
Driver of Euclid type spreader truck—under 10 yds	1.525
Driver of Euclid type spreader truck—10 yds. but less than 14 yds	1.575
Driver of Euclid type spreader truck—14 yds. and over	1.65
Pick-up driver	1.20
Truck and trailer driver	1.65
Semi-truck driver—12 tons or over	1.575
Semi-truck driver—under 12 tons	1.45
Transit-mix driver—3 yds. or under	1.45
Transit-mix driver—over 3 yds	1.575
Water truck driver—under 2500 gals. capacity	1.25
Water truck driver—2500 gals. or more	1.45
Ross carrier driver	1.575
Tire man and washer	1.20
Teamsters, swamper and helper	1.20
Truck greaser	1.325
Truck repairman	1.75
Truck repairman helper	1.40
Road Oiler	1.40
Bootman	1.275

Winch truck driver—12½ cents per hour additional when hauling loads requiring winch operation.

Truck driver foreman shall receive not less than 17½ cents per hour more than the hourly rate of the highest classification over which he has supervision.

Cement finishers	
Cement finishers	$1.85
Cement finishers, composition & mastic	1.85
Cement finishing floor machine operator	2.025

Cement finishing foreman shall receive not less than 17½ cents per hour more than the hourly rate of the highest classification over which he has supervision.

Carpenters	
Carpenters	$1.75
Cabinet makers	1.75
Floor layers	1.75
Shinglers	1.75
Woodworking power machine operator (exclusive of electric hand tools)	1.75
Millwright	1.85
Saw filer employed 1 day or more	1.75
Pile driverman	1.775
Pile driver foreman	2.075

Carpenter foreman shall receive not less than 17½ cents per hour more than the hourly rate of the highest classification over which he has supervision (except pile driver foreman).

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[No. 324]

REPORT OF PHYSICAL EXAMINATION AND INDUCTION

ORDER PRESCRIBING FORMS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, I hereby prescribe the following change in DSS Forms:

Revision of DSS Form 221, entitled "Report of Physical Examination and Induction.[1]" The supply of DSS Form 221 (Revised 2/16/45) on hand will be used until exhausted.

[1] Filed as part of the original document.

The foregoing revision shall become a part of the Selective Service Regulations effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

JULY 18, 1946.

Chapter VIII—Office of International Trade, Department of Commerce

Subchapter B—Export Control

[Amdt. 248]

PART 801—GENERAL REGULATIONS

PROHIBITED EXPORTATIONS

Section 801.2 *Prohibited exportations* is amended as follows:

The list of commodities set forth in paragraph (b) is amended in the following particulars:

1. The following commodities are hereby added to the list of commodities:

Dept. of Comm. Sched. B No.	Commodity	Unit	GLV dollar value limits country group K	GLV dollar value limits country group E
420600	Port Orford Cedar veneers only, utility or commercial grade.	Sq. ft.	None	None
420601	Port Orford Cedar battery separators.		None	None
612606	Crosscut and hand saw parts.		25	25

2. The following commodities are hereby removed from the list of commodities:

Dept. of Comm. Sched. B No.	Commodity
125300	Cider vinegar.
125905	Tapioca flour, edible or inedible.
218600	Shellac (bleached and unbleached).
218905	Lac, crude (seed, button and stick).
281300	Other starch, edible included (report cornstarch and corn flour in 281100).
614300	Gas hot plates, gas grills, barbecue stoves and wiener steamers.

Shipments of any of the commodities added to the list of commodities which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to an actual order for export prior to the effective date of this amendment may be exported under the previous general license provisions.

This amendment shall become effective immediately except that with respect to commodities added to the list of commodities it shall become effective on October 3, 1946.

(Sec. 6, 54 Stat. 714; 55 Stat. 206; 56 Stat. 463; 58 Stat. 671; 59 Stat. 270; 60 Stat. 215; E. O. 9630, 10 F. R. 12245)

Dated: September 20, 1946.

[Amdt. 249]

PART 802—GENERAL LICENSES

GENERAL LICENSE FOR GIFT PARCELS; SHIPMENTS TO GERMANY AND JAPAN

Section 802.29 *General license for gift parcels* is hereby amended in the following particulars:

Subparagraph (2) of paragraph (d) is amended to read as follows:

(2) *Shipments to Germany and Japan.* No gift parcels may be sent to Germany except to persons located in the United States Occupied Zone of Germany, except Berlin; the British occupied zone of Germany, except Berlin; or the French occupied zone of Germany, except Berlin; and no gift parcels may be sent to Japan except to persons located in the islands of Honshu, Kyushu, Shikoku or Hokkaido; and then only in accordance with the following provisions:

(i) A gift parcel shall contain no commodity other than clothing, non-perishable foodstuffs, medicinals and vitamins, soaps and shaving creams.

(ii) Not more than one gift parcel may be sent from the same donor to the same donee in any one calendar week.

This amendment shall become effective September 26, 1946.

(Sec. 6, 54 Stat. 714; 55 Stat. 206; 56 Stat. 463; 58 Stat. 671; 59 Stat. 270; 60 Stat. 215; E. O. 9630, 10 F. R. 12245.)

Dated: September 20, 1946.

JOHN C. BORTON,
Director,
Commodities Branch.

Chapter XI—Office of Price Administration

PART 1305—ADMINISTRATION

[SO 184 (§ 1305.236)]

SUSPENSION OF CERTAIN IMPORTED COMMODITIES FROM PRICE CONTROL

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

SEC. 1. *Scope of this order*—(a) *With respect to the Revised Maximum Import Price Regulation.* This supplementary order suspends from price control the sales of all imported commodities which were, immediately prior to the issuance of this order, priced under the Revised Maximum Import Price Regulation, except sales of imported commodities of certain kinds and classifications as follows: (1) consumer goods consisting of luggage, household textile commodities, wearing apparel and wearing apparel accessories, (2) foods, (3) industrial materials and building materials, and (4) textile grey or finished fabrics. It also suspends from price control the sale of certain specific imported commodities within those classifications.

(b) *With respect to other price regulations.* This supplementary order does not suspend from price control the sale of any imported commodity the prices of which were not controlled by the Revised Maximum Import Price Regulation, such as firewood from Canada, lumber and forest products, beverages, animal and poultry feeds, nor any imported commodity of a kind or category expressly named in and for which a maximum price can be determined under another regulation other than the Revised Maximum Import Price Regulation.

(c) *With respect to other supplementary orders.* When the domestic sale of a commodity is suspended or exempted from price control by Revised Supplementary Regulation No. 1 under the General Maximum Price Regulation, Supplementary Orders 126, 129 or 132 or any other supplementary order or regulation issued by the Office of Price Administration, the sale of that commodity imported is also suspended or exempted from price control unless such order or regulation specifically provides for maintaining price control on the sale of the commodity if imported. Imported commodities suspended or exempted from control in this manner although not listed in this order are nevertheless suspended or exempted from price control.

SEC. 2. *Price control suspension.* Notwithstanding the provisions of the Revised Maximum Import Price Regulation or any order issued under that regulation or any other price regulation, all purchases, sales and deliveries of any imported commodity to which this order applies are suspended from price control.

SEC. 3. *Commodities suspended from price control.* (a) All imported commodities prices of which were controlled under the Revised Maximum Import Price Regulation are suspended from price control, except those classified as follows:

(List of Imported Commodities Remaining Under Price Control)

(1) Consumer goods as follows:

(i) Wearing apparel and wearing apparel accessories,

(ii) Luggage,

(iii) Household textile commodities (see definition).

(2) Foods,

(3) Industrial materials and building materials,

(4) Textile grey or finished fabrics.

(b) The following specifically-named imported commodities, although included in the classifications excepted in paragraph (a), are suspended from price control:

3rd year	.95	than super C	1.75
4th year	1.05		

[1] Filed as part of the original document.

(List of Specific Imported Commodities Suspended From Price Control)

(1) The following consumer goods:

(i) Luggage made principally from material other than leather,

(ii) The following household textile commodities: doilies, furniture scarfs and needlepoint,

(iii) The following wearing apparel and wearing apparel accessories:

Gloves or mittens which are hand-knitted or hand-crocheted.
Alpargatas.
Huaraches.
Moccasins.
Sandals.
Sweaters, scarfs or mufflers which are hand-knitted or hand-crocheted.

(2) The following foods: (none except as listed in other orders)

(3) The following industrial materials and building materials:

Bamboo and Calcutta poles.
Bayberry wax.
Bay oil.
Carbon granules.
Corkboard (insulation).
Emery (crude, lump).
Essential (perfumery) oils.
Ficin (oje latex)
Flint lining blocks and pebbles for pebble mills.
Fused quartz tubing.
Garden sticks (stakes).
Goldbeater's paper (parchment).
Lauhala leaves.
Locust bean gum.
Menthol crystals.
Panama hat bodies.
Pharmaceutical raw products (animal origin).
Pulverized red oxide of iron (Bauxite residue).
Quartz crystals (all grades and qualities).
Red arsenic.
Sandalwood (santalum album).
Sandalwood oil.
Sandarac gum.
Sponge iron.
Tartrate of lime.
Willow poles.

(4) The following textile grey or finished fabrics:

Elastic fabrics.
Hook and eye tape.
Lace fabrics, edgings and insertions.
Metallic cloths.
Net and mesh fabrics.

SEC. 4 *Definitions.* (a) "Industrial materials" means commodities which are to be subjected to further processing that results in the production of new and different articles or commodities having a distinctive name, character, or use, or which are to be used as ingredients or component parts of such articles or which are to be consumed in such production or are to be used for finishing, such as varnish, shellac, lacquer, polish, wax, etc.

(b) "Household textile commodities" means only bed sheets, bed spreads, blankets, curtains, draperies, pillow slips, table napery, towels and covers for mattresses, quilts, blankets or pillows.

SEC. 5. *Geographical applicability.* The provisions of this order shall be applicable to purchases, sales and deliveries in the 48 states of the United States and the District of Columbia.

This supplementary order shall become effective September 25, 1946.

Issued this 25th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF SUPPLEMENTARY ORDER NO. 184

Supplementary Order No. 184 suspends from price control certain imported commodities. It is another instrument used by the Office of Price Administration for the exemption or suspension of commodities from price control. Supplementary Order No. 126 issued August 15, 1945, exempts or suspends from price control certain articles in the consumer goods category. Suplementary Order No. 129 issued August 29, 1945 exempts or suspends from price control certain machines, parts, industrial materials and industrial services. Supplementary Order No. 132 issued September 7, 1945, exempts or suspends from price control certain foods, grains, cereals, feeds, tobacco, tobacco products, agricultural chemicals, insecticides and beverages.

The sale of commodities which are exempted or suspended from price control by Supplementary Orders 126, 129 or 132 or any other order or price regulation are, if imported, suspended from price control unless any such orders specifically provide for maintaining price control on the sale of the commodity if imported. Prior to this Supplementary Order No. 184 such various imported commodities were already suspended or exempted from price control by Section 1 of the Revised Maximum Import Price Regulation as amended by Amendment No. 1. However, since this Supplementary Order is designed to cover all provisions with respect to suspension from price control of imported commodities which were controlled under the Revised Maximum Import Price Regulation the suspension is restated specifically in this order.

This Supplementary Order also suspends from price control all imported commodities which were, just prior to its issuance, controlled under the Revised Maximum Import Price Regulation except wearing apparel, wearing apparel accessories, luggage, certain household textile commodities, foods, industrial materials, building materials and textile grey or finished fabrics. The prices for the sale of such excepted imported categories of commodities, as well as any other imported commodities which are controlled by specific commodity regulations other than the Revised Maximum Import Price Regulation, however, are not suspended from price control and remain subject to the respective commodity regulations applicable.

Those imported commodities which are retained under the Revised Maximum Import Price Regulation are either important to living costs, such as imported wearing apparel, wearing apparel accessories, luggage, household textile commodities and foods, or are important to business costs, such as industrial materials, building materials and textile grey or finished fabrics or are in some cases important to both business costs and living costs.

On the other hand, where it has been determined by the Administrator that a commodity within the general classifications of commodities retained under price control is not important to living costs or business costs it is suspended from price control. Such commodities, for example, which are suspended by this order, are gloves and mittens which are hand-knitted or hand-crocheted, luggage made principally from material other than leather, needlepoint, doilies, furniture scarfs, huaraches, moccasins, bamboo poles, bayberry wax, sandarac gum, quartz crystals, red arsenic and various other incidental specifically listed consumer goods items, industrial materials, building materials and textile grey or finished fabrics.

In the opinion of the Administrator the sales of the commodities or sales made by the segments of the industry involved suspended from price control by this order are not sufficiently important in relation to business costs or living costs to merit the continuation of price control for them. The suspension of price control in these cases will be consistent with the avoidance of a cumulative and dangerous unstabilizing effect. They are unimportant to costs of living as they represent negligible costs in the budget of the average American household. Some of these imported commodities are luxury commodities imported to satisfy fastidious tastes of a relatively small number of buyers or are imported to supplement current domestic shortages. Furthermore, many of these commodities are not of a kind or type generally produced domestically.

The suspension of price controls herein are in accord with the Emergency Price Control Act of 1942, as amended, the Executive Orders of the President and are taken under the decontrol authority of the Office of Price Administration.

[F. R. Doc. 46-17496; Filed, Sept. 25, 1946; 11:24 a. m.]

PART 1305—ADMINISTRATION

SUBPART M—DELEGATIONS OF FINAL AUTHORITY

Correction

In Federal Register Document 46-15805, appearing at page 177A-640 of Part II, Section 3, of the issue for Wednesday, September 11, 1946, the following correction is made:

In the tables under § 1305.2501, page 177A-689, the words "redeliver" and "deliver" wherever they appear in the third column should read "redelegate" and "delegate".

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[MPR 594, Amdt. 8]

MAXIMUM PRICES FOR NEW PASSENGER AUTOMOBILES

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.

Maximum Price Regulation 594 is amended by adding a new section 10b to read as follows:

SEC. 10b. ***Maximum prices for new cars altered by a reseller***—(a) *Explanation.* This section establishes maximum prices for alterations made in, and equipment added to, new passenger automobiles at the request of purchasers by resellers which involve operations other than the attachment of extra or optional equipment including accessories.

(b) *Method.* The Regional Office of the Office of Price Administration for the region in which the reseller's principal place of business is located or the District Office in that region to which the Regional Office delegates authority to establish such a price, shall establish by order a maximum price for the alteration or addition of equipment described in paragraph (a) above in an amount equal to the net cost of the alteration or equipment addition to the reseller plus 33⅓ per cent of the net cost of such alteration or equipment addition. A reseller who seeks such an authorization shall file with the above office an application setting forth:

(1) A description of the new automobile (showing the make, year, series model, body type, and serial and motor numbers).

(2) A description of the alteration or equipment addition.

(3) The maximum retail list price for the new automobile without the alteration or equipment addition together with the date of the invoice covering the sale of such new automobile to the reseller.

(4) The actual or, if not available, the estimated market value of the equipment removed from the new automobile described in (1) above and not to be used in the alteration.

(5) The actual cost to the reseller of the new material to be used in the alteration or equipment addition.

(6) The actual or estimated cost to the reseller of the labor necessary to complete the alteration or equipment addition.

(7) Any other costs to the reseller separately itemized.

(8) The price the reseller proposes to charge for the alteration or equipment addition and the reasons for such price.

(9) Any other facts which the reseller wishes to submit in support of his application.

(c) *Redelegation of authority by regional offices.* Regional Offices may redelegate to District Offices any and all authority which is delegated to them under this section 10b.

This amendment shall be effective September 28, 1946.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS ACCOMPANYING AMENDMENT NO. 8 TO MAXIMUM PRICE REGULATION NO. 594

It is a customary practice for certain retail dealers at the request of purchasers to make alterations in, and add equipment to new passenger automobiles which involve operations that go beyond the attachment of extra or optional equipment and accessories. Such operations, which are in general performed on the automobile body, approach more closely to manufacturing operations, although they are, and have always been considered, retail functions. They are performed largely for the class of purchasers which desires a factory built automobile to have the appearance of a custom built "job". Some dealers make the alterations or add the equipment themselves and other dealers have subcontractors perform these operations.

This action provides a method whereby dealers may adjust their maximum prices so that they may obtain their cost and a margin for such alterations and equipment additions. The method returns to a dealer his net-cost plus his customary pre-war gross margin on such operations.

This action is in accordance with the policy currently in effect under Maximum Price Regulation 594 to return to dealers their pre-war margins.

[F. R. Doc. 46-17582; Filed, Sept. 26, 1946; 11:26 a. m.]

PART 1380—HOUSE AND SERVICE MACHINE INDUSTRY

[MPR 598, Amdt. 25]

POSTWAR HOUSEHOLD MECHANICAL REFRIGERATORS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 598 is amended in the following respect:

Section 24, *Appendix A* is amended by adding the following model in proper alphabetical order to the list of refrigerator models therein:

Make	Brand	1946 model	First zone [1]
The Crosley Corp.	Crosley	SE-947	[2] $259.75

[1] Zone 1 includes the 48 States and the District of Columbia.

[2] A charge of $4.75 may be added if the refrigerator is sold equipped with a left-hand door.

This amendment shall become effective on the 26th day of September 1946.

Issued this 26th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 25 TO MAXIMUM PRICE REGULATION NO. 598

The accompanying amendment adds to the table of retail ceiling prices in Maximum Price Regulations No. 598 the retail ceiling price for a new model refrigerator manufactured by the Crosley Corporation.

The manufacturer's ceiling price for sales of the new model has been established under the appropriate sections of the regulation. The retail ceiling price established is equal to the average price at which the same refrigerator was sold on March 31, 1942, reduced by 3 percent in order to bring it in line with retail ceiling prices fixed by Maximum Price Regulation No. 598. It also includes a freight allowance equal to the average freight cost for shipping the refrigerator throughout the United States weighted for the manufacturer's prospective sales volume in each state in the United States. The ceiling price established, like all other retail ceiling prices listed in Appendix A, does not include the adjustments in retail ceiling prices permitted by Section 15 of Maximum Price Regulation No. 598 in the case of refrigerators sold by the manufacturer at ceiling prices adjusted under Sections 5 (b) and 5 (c).

[F. R. Doc. 46-17583; Filed, Sept. 26, 1946; 11:26 a. m.]

PART 1389—APPAREL

[RMPR 304,[1] Amdt. 6]

SPECIFIED UTILITY SHIRTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 304 is amended in the following respects:

1. Subparagraph (1) of section 2 (b) is amended to read as follows:

(1) *Where retailer does not know the supplier's ceiling price.* If the retailer does not know the ceiling price of the manufacturer or wholesaler who supplies him, he may inquire of the supplier, who is required to disclose his ceiling price.

2. Examples 1, 2 and 3 in section 2 (b) (2) are amended to read as follows:

Example 1. Manufacturer Y, a Group A manufacturer, is obliged to sell at, or below the Class I ceiling on part of his sales, but is permitted to make the rest of his sales at Class II prices. Y's Class I ceiling on style 499 is $13.04 per dozen, and his Class II ceiling is $13.88½ per dozen. Y sells this number to retailer Z at $13.50 per dozen.

Since $13.40 is higher than Y's Class I ceiling for this flannel shirt ($13.04), Z takes $13.88½ (The Class II ceiling) as his supplier's ceiling price, and turns to Table II (which contains retail ceilings for cotton flannel shirts bought from Group A manufacturers). In Table II, Z finds his retail ceiling to be $1.66.

Example 2. Manufacturer Y sells his style 499 to retailer X at the Class I Ceiling of $13.04 per dozen, and later sells X another lot of the same style at the Class II ceiling of $13.88½.

X must take $13.04 as his supplier's ceiling price for both lots. Since this is a cotton flannel shirt purchased from a Group A manufacturer, the retail ceiling is found in Table II. X finds a retail ceiling of $1.50 for both lots of style number 499.

Example 3. Retailer B buys style number 499 from Y at Y's Class I ceiling of $13.04 and later gets more of Y's style number 499 from a wholesaler at the wholesaler's ceiling of $15.43.

In figuring his retail ceiling for style number 499, B takes $13.04 as his supplier's ceiling, and finds in Table II that his retail ceiling for both lots of this style number is $1.50 per garment.

[1] 11 F. R. 6438; 8590.

3. Examples 1 and 2 in section 2 (b) (3) are amended to read as follows:

Example 1. C, a retail chain, buys shirts from manufacturer Y at $13.04, Y's Class I ceiling. C sells them to D, another retail chain at $13.29 (which is equal to C's cost plus freight actually paid by him).

In figuring his retail ceiling, D assumes his supplier's ceiling price to be $13.04 (the ceiling of C's supplier) not $13.29 (the price D actually paid). Consequently, D's retail ceiling, found in Table II is $1.50 (not $1.58).

Example 2. E, an independent retailer, buys shirts from manufacturer M, at M's Class II ceiling of $13.88½. E decides to liquidate, and sells then to an auctioneer at $13.50 per dozen. The auctioneer, resells then to F, another retailer for $14.10 (this being the price paid by E plus transportation charges incurred by the auctioneer).

In figuring his retail ceiling, F takes $13.88½ as his supplier's ceiling, so that his retail ceiling, found in Table II, is $1.66 (not $1.68).

4. In section 2 (b) (4), the last sentence thereof is amended to read as follows:

For example, if a retailer in the Mountain and Pacific region buys a cotton flannel shirt from a manufacturer in the East and Central region at $12.92 per dozen (the Group A, Class I ceiling), the retail ceiling price per shirt is $1.53 ($1.50, the price shown in Column 2 of Table II in Appendix C, plus 3 cents).

5. Section 3 (a) (2) is amended to read as follows:

(2) *Ceiling prices for "regular sales at wholesale".* Ceiling prices for regular sales at wholesale are given in Appendix B. Since the wholesale ceiling prices in the table in Appendix B are arranged according to the manufacturer's Class I ceiling prices, rather than according to particular garment specifications, the wholesaler must first find his manufacturer's Class I ceiling price before he can determine his own ceiling price for a garment. If the wholesaler does not know his manufacturer's Class I ceiling price, he may inquire of the manufacturer, who is required to disclose his Class I ceiling price. When the wholesaler finds his manufacturer's Class I ceiling price he should then look in Column 1 of the table for the bracket which includes that price. The figure in Column 2 opposite this bracket is the wholesale ("regular sale") price for the garment being priced.

6. A new paragraph, designated paragraph (c) is added to section 3, to read as follows:

(c) *Where wholesaler and manufacturer are in different regions.* The prices given in Appendix B apply in all cases where the wholesaler is located in the East and Central region, or where both the wholesaler and the manufacturer are in the Mountain and Pacific region. (These regions are explained in section 1 (e).) If the wholesaler is in the Mountain and Pacific region and delivery is made from the East and Central region, the wholesaler may add 35 cents per dozen to the price found in the table in Appendix B. (This amount may not be added, however, if the manufacturer is a Group B manufacturer.)

7. Section 4 (a) is amended to read as follows:

(a) *In general.* For any shirt covered by this regulation but not specified in Appendix A, the manufacturer finds his ceiling price in accordance with section 5 below. For a shirt specified in Appendix A a manufacturer's ceiling price is the "base price" for that shirt provided in Appendix A; plus the "material cost adjustment" determined in accordance with (1), (2), (3), and (4) below.

(1) *What the "material cost adjustment" is:* The "material cost adjustment" is the dollars and cents amount which a manufacturer may add to his "base price" for any shirt covered by the regulation to find his ceiling price for that shirt. This adjustment is the difference between the cost (not exceeding ceiling price) of the principal body material contained in a dozen flannel shirts priced under this regulation (on the basis of the standard yardage specified in the regulation) and the cost of that same body material at the ceiling price therefor in effect on June 30, 1946. This adjustment is subject to recomputation, up or down, whenever there is a change in the cost to the manufacturer of the principal body material used to manufacture any shirt priced under this regulation.

(2) *How to compute adjustment.* A manufacturer computes his "material cost adjustment" as follows:

Step 1. Find the "net invoice cost" per yard of the principal body material used to manufacture the shirt being priced and subtract therefrom the ceiling price of the same material on June 30, 1946.

As used in this section "net invoice cost" of any material means the price on the face of the invoice (not to exceed the ceiling price in effect on the date of delivery of such material to the manufacturer) less all discounts available and excluding transportation or delivery charges.

As used in this section "ceiling price" of any material means the maximum net price which the manufacturer could lawfully be charged for such material if purchased on his customary terms from the source of supply most used by him in purchasing materials of the same type during the six months preceding March 31, 1942. Furthermore, for the purposes of this section the ceiling price of material delivered to the manufacturer during the period July 1, 1946 to July 25, 1946, shall be the ceiling price in effect for that material on August 15, 1946.

Step 2. Multiply the figure found in Step 1 by the "minimum yardage per dozen" set forth for that shirt in section 15 (c) (3). The result is the manufacturers material cost adjustment for that shirt.

(3) *Applicability of material cost adjustment.* The material cost adjustment calculated under this section shall apply only to shirts which the manufacturer delivers on and after September 26, 1946 which are manufactured from materials purchased by the manufacturer at the net invoice cost used in calculating such material cost adjustment. The manufacturer, moreover, must comply with the reporting provisions of (5) below.

(4) *Recomputation of adjustment.* Whenever a shirt is manufactured from materials purchased by the manufacturer at a higher net invoice cost than that used by him in calculating a prior "material cost adjustment" for that shirt, he may recompute the material cost adjustment to increase his ceiling price. Whenever a shirt is manufactured of materials purchased by the manufacturer at a lower net invoice cost than that used in the last material cost adjustment for that shirt, he must recompute his adjustment to reduce his ceiling price.

(5) *Reports.* At the first time after September 26, 1946, that a manufacturer adjusts his base price for a garment under this section he must file the report of material cost adjustment for that garment required by this paragraph. After the first computation of material cost adjustment for a garment is reported, as required by this paragraph, no reports are required to be filed for subsequent recomputations of adjustment for the same garment except upon the written request of the Office of Price Administration therefor. However, the manufacturer shall keep and make available for inspection copies of all such recomputations of adjustment.

No manufacturer may deliver any garment covered by this regulation at an adjusted maximum price established under this section until he has mailed to the Apparel Price Branch, Office of Price Administration, Washington 25, D. C., the report of material cost adjustment for the garment required by this section. This report shall contain information in the detail set forth in the example below and shall be in a form similar to the one in the example. The Office of Price Administration may at any time disapprove or revise adjustment reported under this section.

An example of the report required by this section follows. Figures used are illustrative only.

REPORT OF MATERIAL COST ADJUSTMENT UNDER SECTION 4 (a) OF REVISED MAXIMUM PRICE REGULATION 304

Name: XYZ Company.
Class of factory: Group A.
Address: 21000 Madison St., Chicago, Ill.
By: J. A. Jones.
Title: Treasurer.
Date of Report: September 15, 1946.

Description of garment

Style 399, men's shirt, sizes 14½–17, 3.50 plaid flannel, unshrunk, minimum yardage (Sec. 15 (c))—29 yards. Base price (price prior to adjustment):

	Dozen
Class I	$12.24
Class II	12.98

Material cost difference

	Per yard (cents)
Net invoice cost of 36", 3.50 unshrunk plaid flannel on August 15, 1946, purchased from ABC Co., delivered August 15, 1946 (not exceeding ceiling price on that date)	29.552
Ceiling price of same material on June 30, 1946	25.151
Difference	4.401

Material cost adjustment

4.401¢ per yard × 29 yards = $1.27629.

Ceiling price for above described shirt, manufactured from material described above purchased at 29.552¢ per yard:

	Per dozen
Class I	$13.51½
Class II	14.25

8. In section 4 (b), the first two undesignated paragraphs preceding subparagraph (1), are amended to read as follows:

(b) *Manufacturers required to sell a proportion of goods at Class I prices.* The tables in Appendix A provide two manufacturers' base prices—a Class I base price and a Class II base price. For sales at Class I ceiling prices, a manufacturer must use the Class I base price to compute his ceiling price. The Class II base price is used to compute the Class II ceiling price. Some manufacturers will use the Class I ceiling, some will use the Class II ceiling, and some will use both, according to the rules stated below in this paragraph.

For men's shirts made in Group B factories, there are no separate class ceilings. This paragraph has no application to sales of these shirts.

9. The first undesignated paragraph in section 4 (c) is amended to read as follows:

(c) *Groups of factories for men's shirts.* Different base prices are fixed for men's shirts made in factories having different wage rates, as explained in this paragraph.

10. Two new paragraphs designated paragraphs (f) and (g) are added to section 4 to read as follows:

(f) *Terms of sale.* The ceiling prices for manufacturers above provided are per dozen garments, f. o. b. seller's place of business, except that prices for men's shirts made in Group B factories include delivery to the buyer's place of business.

Terms for sales by manufacturers are net 30 days. If the seller wishes, he may extend more favorable terms or allow discounts from ceiling prices, or anticipation. A seller who wishes to allow less than 30 days may do so, but the ceiling price must then be discounted at the rate of 6% per annum for each day under 30 within which payment is required. For example, if the terms are "net 10 days," the ceiling price must be discounted ⅓ of 1%.

(g) *Sales by manufacturers in the Mountain and Pacific Region.* The ceiling prices provided above are for manufacturers in the East and Central region. Ceiling prices for manufacturers in the Mountain and Pacific region are 25¢ per dozen higher, except that men's shirts made in Group B factories have the same ceiling price for all manufacturers, wherever located. These different regions are explained in section 1 (e).

11. Section 5 is amended to read as follows:

SEC. 5. *How to find manufacturer's ceiling prices in cases not provided for in section 4—(a) Shirts made of fabrics of odd weight or finish.* For a shirt covered by this regulation, made of a fabric of a weight or finish not specified in Appendix A, the manufacturer's ceiling price is the base price specified in Appendix A for the "nearest comparable shirt" plus the material cost adjustment provided in section 4 (a) above, computed on the basis of the material used in the shirt being priced. As used in this section, "nearest comparable shirt" means a shirt of the same type of fabric (flannel, domet, moleskin or suede) but having a lower fabric cost than the shirt being priced. The manufacturer may also, in the cases provided in (b) below, apply for the fixing of a base price on a shirt of the particular fabric he is using.

Example 1. A manufacturer makes a man's shirt of 2.85 yards gray suede for which no price is stated. However, a base price is stated for a 3.00 yard gray suede shirt. The cost of 3.00 yard gray suede cloth is lower than the cost of 2.85 gray suede cloth.

The base price for the 2.85 yard shirt shall be the base price stated for a 3.00 yard shirt.

The "material cost adjustment" for this 2.85 yard shirt shall be computed on the basis of the difference between the cost (not exceeding ceiling price) of the 2.85 yard gray suede on the date it was delivered to the manufacturer, and the ceiling price of the 2.85 yard gray suede on June 30, 1946.

The base price of the 3.00 yard gray suede shirt is added to the "material cost adjustment" for 2.85 yard gray suede to establish the ceiling price for the 2.85 yard gray suede shirt.

Example 2. A work shirt manufacturer makes a 4.75 yard sanforized plaid boys' shirt. No base price is stated for this fabric, but a base price is stated for a 4.75 yard unshrunk plaid shirt. Sanforized cloth costs more than unshrunk cloth.

The base price for the sanforized shirt shall be the base price stated for the unshrunk shirt.

The "material cost adjustment" shall be the material cost adjustment for the sanforized material.

(b) *Prices on application.* A manufacturer may apply for the fixing of a base price in any of the cases listed in (1), (2), (3), or (4) below. He may also apply for the fixing of a different minimum yardage than that contained in section 15 (c) in an appropriate case under (2) below.

(1) When the shirt is made of a fabric that is substantially different in type, weight, or finish from any fabric specifically priced in the regulation.

(2) When the shirt does not conform to the definition of a "standard model" in section 15 (d) of this regulation.

(3) When the shirt is a men's in-and-outer made with single-needle stitching on collars, cuffs and breast pockets, and hand pressing, by a manufacturer who has customarily made shirts of this type.

(4) When for any other reason the manufacturer is unable to find a ceiling price which applies to a garment which he sells, or to the circumstances under which he sells a garment.

The ceiling price of shirts for which the Office of Price Administration has fixed a base price under this section shall be the base price authorized plus the "material cost adjustment" for that shirt calculated under section 4 (a) above. If a special minimum yardage is established for any shirt under this section the minimum yardage so specified may be used to compute the "material cost adjustment" for that shirt in lieu of the yardage provided in section 15 (c).

(c) *How to apply for a base price.* An application for the fixing of a base price must be filed with the Apparel Price Branch, Office of Price Administration, Washington 25, D. C., in three copies. It must show the type of shirt to be made, the specifications of the fabric used, the size range in which it is offered, the costs of manufacture and the prices at which the applicant and representative competitors last sold similar shirts. It must be supplemented by any further information which may be requested by the Office of Price Administration.

Pending action on an application for the fixing of a ceiling price, a person must not sell or deliver the garment except in accordance with the provisions of section 11 ("Adjustable pricing agreements").

12. In section 7 (b) (2) the sample "Retail Ceiling Price List" is amended by deleting all the figures contained in the second and third columns, and substituting the following language:

East and Central[3]	*Mountain and Pacific*[3]
(Here list proper retail ceiling prices.)	(Here list proper retail ceiling prices.)

13. In the example of marking in section 7 (d) (1) the figure "$1.93." after the word "ceiling," is amended by substituting in place of that figure the following words: "(Here indicate appropriate retail ceiling price.)"

14. In the example of marking in section 7 (d) (2), the figures "$1.46" and "$1.49", after the words "ceiling" and "Denver West" respectively, are amended by substituting in place of each of those figures the following words: "(Here indicate appropriate retail ceiling price.)"

15. A new subparagraph (4) is added to section 9 (c) as follows:

(4) *Material cost adjustment records.* Every manufacturer shall keep and make available upon request a copy of each report of adjustment filed under section 4 (a) and all records relating to computations of adjustment made under that section, including records showing the cost of all fabrics used in the garments for which such adjustments are made.

16. In the sample invoice in the example in section 10 (f), the figure "$1.40" following the words "Retail ceiling price" is amended to read "$1.27".

17. The titles and instructions preceding Table I of Appendix A are amended to read as follows:

APPENDIX A—TABLE OF MANUFACTURERS' BASE PRICES

INSTRUCTIONS

In using the following tables you must bear in mind that the prices stated therein are base prices for the shirts specified.

In order to arrive at your ceiling price for any such shirt, you start with the base price specified and then follow the provisions of section 4 (How to find manufacturers' ceiling prices). Note that the ceiling prices calculated in accordance with the provisions of that section 4 are subject to the terms of sale set forth in paragraphs (f) and (g) thereof.

MANUFACTURERS' BASE PRICES

18. In columns 5 and 6 of each of the tables of Appendix A, the words "Class I Ceiling" and "Class II Ceiling" are amended to read "Class I Base Price" and "Class II Base Price" respectively.

19. Appendix A is amended by deleting therefrom all of the "Note" following Table III.

20. Appendix B is amended to read as follows:

APPENDIX B—TABLE OF WHOLESALE CEILING PRICES

INSTRUCTIONS

(1) In the following table your ceiling price for sales at wholesale of any shirt covered by this regulation is given according to your manufacturer's Class I ceiling price for that shirt. You find your manufacturer's Class I ceiling price in accordance with the provisions of section 3. Read all the rules relating to wholesale pricing contained in section 3 before using the table. Notice especially that the prices in the following table apply only to "regular" sales and not to "special" sales.

(2) When you have found your manufacturer's Class I ceiling price, look in Column 1 of the appropriate table for the bracket in which this price belongs. Then look at the figure opposite in Column 2: that is your ceiling price per garment.

(3) The prices stated are per dozen shirts, f. o. b. seller's place of business.

(4) Terms for sales at wholesale are net 30 days. If the seller wishes, he may extend more favorable terms, or allow discounts from ceiling prices, or anticipation. A seller who wishes to allow less than 30 days may do so, but the ceiling price must then be discounted at the rate of 6% per annum for each day under 30 within which payment is required. For example, if the terms are "net 10 days," the ceiling price must be discounted $\frac{1}{3}$ of 1%.

WHOLESALE CEILING PRICES

Column 1 *Manufacturer's Class I ceiling price (per dozen)*	Column 2 *Wholesale ceiling price (per dozen)*
$7.70–$7.79+	$9.18
$7.80–$7.89+	9.29
$7.90–$7.99+	9.41
$8.00–$8.09+	9.53
$8.10–$8.19+	9.65
$8.20–$8.29+	9.77
$8.30–$8.39+	9.89
$8.40–$8.49+	10.00
$8.50–$8.59+	10.12
$8.60–$8.69+	10.24
$8.70–$8.79+	10.36
$8.80–$8.89+	10.48
$8.90–$8.99+	10.60
$9.00–$9.09+	10.71
$9.10–$9.19+	10.83
$9.20–$9.29+	10.95
$9.30–$9.39+	11.07
$9.40–$9.49+	11.19
$9.50–$9.59+	11.31
$9.60–$9.69+	11.42
$9.70–$9.79+	11.54
$9.80–$9.89+	11.66
$9.90–$9.99+	11.78
$10.00–$10.09+	11.90
$10.10–$10.19+	12.02
$10.20–$10.29+	12.13
$10.30–$10.39+	12.25
$10.40–$10.49+	12.37
$10.50–$10.59+	12.49
$10.60–$10.69+	12.61
$10.70–$10.79+	12.73
$10.80–$10.89+	12.84
$10.90–$10.99+	12.96
$11.00–$11.09+	13.08
$11.10–$11.19+	13.20
$11.20–$11.29+	13.32
$11.30–$11.39+	13.44
$11.40–$11.49+	13.55
$11.50–$11.59+	13.67
$11.60–$11.69+	13.79
$11.70–$11.79+	13.91
$11.80–$11.89+	14.03
$11.90–$11.99+	14.15
$12.00–$12.09+	14.26

WHOLESALE CEILING PRICES—Continued

Column 1 *Manufacturer's Class I ceiling price (per dozen)*	Column 2 *Wholesale ceiling price (per dozen)*
$12.10–$12.19+	$14.38
$12.20–$12.29+	14.50
$12.30–$12.39+	14.62
$12.40–$12.49+	14.74
$12.50–$12.59+	14.86
$12.60–$12.69+	14.97
$12.70–$12.79+	15.09
$12.80–$12.89+	15.21
$12.90–$12.99+	15.33
$13.00–$13.09+	15.45
$13.10–$13.19+	15.57
$13.20–$13.29+	15.68
$13.30–$13.39+	15.80
$13.40–$13.49+	15.92
$13.50–$13.59+	16.04
$13.60–$13.69+	16.16
$13.70–$13.79+	16.28
$13.80–$13.89+	16.39
$13.90–$13.99+	16.51
$14.00–$14.09+	16.63
$14.10–$14.19+	16.75
$14.20–$14.29+	16.87
$14.30–$14.39+	16.99
$14.40–$14.49+	17.10
$14.50–$14.59+	17.22
$14.60–$14.69+	17.34
$14.70–$14.79+	17.46
$14.80–$14.89+	17.58
$14.90–$14.99+	17.70

$28.10–$28.19+	33.32
$28.20–$28.29+	33.44
$28.30–$28.39+	33.55
$28.40–$28.50+	33.67

21. In the Instructions to Appendix C, the second paragraph of item (2) is amended to read as follows:

For example, suppose you buy a shirt from a manufacturer at $13.04 (the Group A

manufacturer's Class I ceiling). The heading to Table II states that your ceiling is determined under that table. Follow down Column 1 in Table II until you find the bracket $12.70—13.23+. Opposite these figures, in Column 2, you find the retail ceiling of $1.50 ($13.23+ includes any fractional cent over $13.23).

22. A new item (3) is added to the Instructions to Appendix C, before Table I, as follows:

(3) Where the supplier's net ceiling price per dozen is higher than the highest price listed in the tables, the retail ceiling price per garment is found as follows:

(i) Take one-half of the supplier's net ceiling price per dozen and find the retail ceiling price per garment listed in Column 2 opposite that amount.

(ii) Multiply that retail ceiling price per garment by 2.

23. Table I of Appendix C is amended by adding at the end thereof the following figures:

TABLE I—RETAIL CEILING PRICES FOR COTTON-SUEDE AND COTTON MOLESKIN SHIRTS (EXCEPT WHEN PURCHASED FROM GROUP B FACTORIES)

Column 1 *Supplier's ceiling price (per dozen)*	Column 2 *Retail ceiling price (per garment)*
$23.80–$24.12+	$2.97

This amendment shall become effective September 26, 1946.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 26th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 6 TO REVISED MAXIMUM PRICE REGULATION 304

The accompanying amendment provides for adjustments in manufacturers' ceiling prices for specified cotton utility shirts covered by RMPR 304. These adjustments are required by law and are limited to the minimum so required. Inasmuch as it leaves unchanged existing distributors' margins, this action also affects existing ceiling prices for wholesalers and retailers.

THE ADJUSTMENT IN MANUFACTURERS' CEILINGS

By Amendment 5 to RMPR 304, issued August 7, 1946, manufacturers' ceiling prices were increased to reflect the increased cotton fabric costs incurred by the industry as a result of the issuance of Amendment 29 to SO 131 (Maximum Prices for Certain Cotton Textiles), effective June 27, 1946. As was set forth in the Statement of Considerations accompanying Amendment 5, the increases permitted by that amendment were limited to the minimum required by law. It is apparent, therefore, that any increases in fabric costs beyond those of June 27, 1946 would necessitate a further increase in the ceiling prices provided for manufacturers in RMPR 304 if the minimum requirements of law were to be met. Such increases in fabric costs have since occurred. By Amendment 30 to SO 131, effective August 5, 1946 the Office of Price Administration, in conformance with the requirements of Section 3 of the Emergency Price Control Act of 1942, as amended, increased the ceiling prices of cotton shirting flannel approximately 17.5%. By Amendment 50 to MPR 127, effective August 15, 1946, the ceiling price of suedes and moleskins have also been increased. Moreover, as was indicated in the Statement of Considerations which accompanied Amendment 30 to SO 131, the Administrator will adjust cotton textile prices "not less frequently then the beginning of each month that there has been an appreciable change in the price of cotton."

In view of the recent fabric cost increases referred to above, and the further increases which may be granted hereafter in the prices of fabrics used in the utility shirts priced under RMPR 304, it is necessary to increase manufacturers' ceiling prices for such shirts to permit the industry to continue to realize a return equal to that earned in the base period. To achieve this purpose, the accompanying amendment provides a method which permits a manufacturer to adjust the maximum price of any shirt under RMPR 304 by the dollars-and-cents amount of the difference between the costs of the material used therein (not exceeding the ceiling price of that material on the date of its delivery to the manufacturer) and the ceiling price of that material in effect on June 30, 1946. The ceiling prices provided in the regulation prior to this amendment will hereafter be known as "base prices" to which the adjustments calculated under this new adjustment procedure will be added to arrive at manufacturers' ceiling prices.

A manufacturer is required to file a report of his first computation of adjustment for each shirt priced under the new adjustment procedure. Thereafter, while he is required to recompute his adjustment whenever the cost of fabric used in the shirt goes down, and may recompute it if the cost of fabric goes up, he is not required to file any further reports for such shirt unless requested to do so by the Office of Price Administration. However, the manufacturer is required to keep and make available for inspection copies of all reports filed by him, and all records relating to adjustments made, and all records of the cost of materials used in any garment where the price of that garment is adjusted.

The adjustments made under the accompanying amendment will be applicable only to garments which are delivered after the effective date thereof and only to garments made of materials purchased by the manufacturer at legal prices higher than those in effect for the same materials on June 30, 1946. Moreover, the adjustment for any garment must be based on the cost of the materials actually used in that garment.

CEILING PRICES FOR WHOLESALERS AND RETAILERS

Under section 2 (t) of the Emergency Price Control Act of 1942, as amended, the Administrator, in establishing maximum prices applicable to wholesalers and retailers, is obliged to allow "the average current cost of acquisition of any commodity plus the average percentage discount or mark-up in effect on March 31, 1946."

The retail margins provided in Tables I and III of Appendix C of RMPR 304, prior to the accompanying amendment were the same as those in effect on March 31, 1946. The accompanying amendment, therefore, makes no change in these tables.

By Amendment 4, effective June 17, 1946, and again by Amendment 5, Table II of Appendix C was changed to accomplish a regrouping of the retail prices thereby provided. Since those regroupings may have effected a lowering of margins in some cases, the accompanying amendment restores the Table II in effect on March 31, 1946.

All retail mark-up tables have been extended to cover possible increases in supplier's prices.

In order to permit wholesalers to continue to realize the mark-up which they have heretofore obtained, in the face of the changes in manufacturers ceiling prices which will result from the use of the new adjustment procedure, the accompanying amendment substitutes a mark-up table, by which wholesalers can determine their prices on the basis of their suppliers' prices, in place of the dollars and cents prices previously provided. Since previous distributors' margins are maintained, increases allowed to manufacturers under the accompanying amendment will be passed on to ultimate consumers.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Control Order 2,[1] Amdt. 4]

LIVESTOCK SLAUGHTER

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Control Order 2 is amended in the following respects:

1. The last sentence of section 3A (a) is amended to read as follows: "In no event shall any Class 1 slaughterer operate under the authority and quota bases granted under War Food Order 75–7 for any quota period beginning on or after October 27, 1946."

2. The last sentence of section 3A (b) is amended to read as follows: "In no event shall any Class 1 slaughterer use his June 1946 quota period base for any quota period beginning on or after October 27, 1946."

3. Paragraph (c) of section 3A is redesignated paragraph (d) and a new paragraph (c) is added to read as follows:

(c) Any Class 1 slaughterer who on June 30, 1946 was authorized to slaughter livestock or have livestock custom slaughtered for him under War Food Order 75–7 and whose quota bases for his June, July or August quota periods were adjusted under War Food Order 75–7, may use as his quota bases for the interim quota period and the quota periods beginning on or after September 1, 1946, the quota bases established for his last adjusted quota period beginning before September 1, 1946. He may use such quota bases until such time that he receives a license and quota bases from the Office of Price Administration or until such time that he is notified by the Office of Price Administration that he has been denied a license and quota bases. In no event shall any Class 1 slaughterer use such quota base for any quota period beginning on or after October 27, 1946.

4. Section 24 is added to read as follows:

SEC. 24. *Suppliers must sell meats to certain institutional users.* (a) Beginning September 26, 1946, any Group II or Group V institutional user (as defined in General Ration Order 5) may, for each month starting with October 1946, give written notice, personally or by registered mail, to each person from whom meat was acquired during the calendar year 1944 (or if that person transferred his establishment, to any successor currently operating the establishment) containing all of the following information:

(1) The quantity and types of meat acquired from the supplier during each month of the calendar year 1944;

(2) The percentage that each such monthly total bears to the total amount of meat acquired each month by the institutional user during 1944;

(3) The estimated number of meal services during the month for which this notice is given;

(4) The number of meal services during the corresponding month 1944;

[1] 11 F. R. 4657.

$29.87-$29.95	3.50	$28.12-$28.20	3.15

Administrator.

(5) The total amount of meat required by the institutional user for the month in which the statement is made.

(The information in 1 and 2 may be omitted from any subsequent notice pursuant to (a), to the same supplier or successor to whom a previous notice, containing that information, has been given pursuant to (a)).

(b) Each supplier or successor to whom a notice is given pursuant to (a) must, irrespective of any claimed inaccuracy in the notice, sell or transfer to that institutional user, upon such user's request, during the month specified in the notice, the quantity of meat determined under (c) for the current month, to the extent that such supplier or successor has meat available for sale or transfer regardless of any other contract, agreement or commitment (except any meat which he is required to set aside under War Food Orders, and except commitments under this section to any other institutional user). Such sale or transfer of meat must be of the same, comparable or reasonably substitutable types as he acquired from that supplier during 1944. The supplier or successor, however, need not sell or transfer any such meat to the institutional user unless the user is willing to acquire such meat at ceiling prices established by the Office of Price Administration.

NOTE: Examples of comparable and reasonably substitutable types of meat are: (1) Steaks, roasts, or chops, or any wholesale cuts from which they are obtained; (2) ground meat or stew meat and the wholesale cuts from which they are obtained; (3) smoked meats, such as bacon, ham, or picnics; (4) dry salt meats, such as bellies, jowls, plates, or fatbacks; (5) processed meat products, such as canned meats or sausage; (6) offal, such as livers, hearts, or kidneys; (7) miscellaneous items, such as tails, feet, snouts, or ears.

(c) The quantity of meat which the supplier or successor is required under (b) to sell or transfer to the institutional user giving such notice shall be determined in the following way:

(1) Divide the amount of meat sold or transferred to the institutional user by the supplier during the corresponding month in 1944 by the number of meal services during that month;

(2) Multiply the result in (1) by the estimated number of meal services in the month for which the notice in (a) is given;

(3) The result in 2, or the amount requested by the user, whichever is less, is the quantity of meat which must be sold or transferred to the institutional user during the month specified in the notice.

(4) If such institutional user has not, during the month covered by the notice acquired from the supplier or successor the quantity specified in (c) for that period, the supplier or successor, upon the institutional user's request, must sell or transfer to him, during the first 15 days of the next month, all or any part of the quantity not so acquired by him.

(d) Any supplier or successor who refuses to sell or transfer to a Group II or Group V institutional user who has given him notice under (a) covering any monthly period any part of the quantity of meat he is required, pursuant to this section, to sell or transfer to him during that monthly period or during the first 15 days of the next monthly period, may not sell or transfer any meat during that monthly period or the first 15 days of the next monthly period until he has sold or transferred to such user meat in the amount required pursuant to this section. Such prohibition is in addition to any action, penalties or proceedings which may be authorized by law for his failure to comply.

(e) Each notice given by the institutional user pursuant to (a) shall be deemed a certification to the Office of Price Administration as to the information contained in the notice.

(f) Each person to whom a notice is given pursuant to (a) must keep such notice at his establishment.

(1) The quantity and types of meat ac-

This amendment shall become effective Sept. 26, 1946.

Issued this 26th day of September 1946.

GEOFFREY BAKER,
Acting Administrator.

RATIONALE ACCOMPANYING AMENDMENT NO. 4 TO CONTROL ORDER 2

Present Provisions

Suppliers of meat are not required to sell or transfer meat to Group II and Group V institutional users (such as prisons, asylums, hospitals and orphanages).

Proposed Changes

This amendment will, under certain conditions require a person selling meat, to sell or transfer a certain quantity of meat to Group II and Group V institutional users if the institutional user acquired meat during 1944 from that person or any predecessor who then operated the establishment. The meat sold or transferred must be the same comparable or reasonably substitutable type as the user acquired from the supplier during 1944, and need not be sold or transferred unless the user is willing to acquire such meat at OPA ceiling prices. Examples of comparable substitutable meat types are given in the amendment.

A person, required by this amendment to sell or transfer meat to any institutional user, who refuses to sell or transfer to such institution the maximum quantity specified within the time allowed, will be prohibited from selling or transferring any meat until such user acquires that quantity from him within that time.

Reasons for Change

The above described institutional users perform an important public function. It is essential that they be assured of a meat supply sufficient to meet their minimum needs. To prevent suppliers from tendering to those institutions unusable items and at the same time to cover a situation where the supplier does not have on hand the types of meat requested, provision is made for the sale or transfer of the same, comparable or reasonably substitutable meat types as those acquired from the supplier or his predecessor during 1944. The amendment does not prevent the sale or transfer of meat to these users in excess of the prescribed quantity nor at prices below established Office of Price Administration ceiling prices.

The amendment also makes two changes in the operation of Class 1 slaughtering establishments for the months of September and October, 1946. It will permit Class 1 slaughterers whose quota bases were adjusted for June, July or August to use the last adjusted quota base as their quota bases for the months of September and October. It also provides that all quotas and adjusted quotas issued under War Food Order 75-7 may not be used for any accounting period beginning on or after October 27, 1946.

Correction

In Federal Register Document 46-15163, appearing at page 9528 of the issue for Thursday, August 29, 1946, the bracket headnote should read as set forth above.

Chapter XIX—Reconstruction Finance Corporation

[Reg. 7, Amdt. 5]

PART 7007—STRIPPER WELL COMPENSATORY ADJUSTMENTS

AMOUNT OF CLAIMS

Section 7007.5 *Amount of claims*, as amended, is hereby further amended by changing paragraph (b) to read as follows:

(b) A claim with respect to crude produced in any designated area and not sold, but refined or consumed by the applicant, shall be in an amount equal to the number of barrels of such crude run by the applicant from the receiving tank, multiplied by the applicant's premium rate for crude produced from such designated area; *Provided, however*, That the applicant's per barrel rate of claim with respect to crude produced by it in any designated area may not exceed the applicant's per barrel rate of claim with respect to such crude purchased by it. In the event the applicant is not a purchaser of crude produced in any designated area as to which it files a claim under this paragraph (b), its per barrel rate of claim shall be established by Reconstruction Finance Corporation on special application filed by the applicant. The number of barrels shall be calculated after such corrections for temperature, basic sediment, water, etc., as are customary in arriving at volumes of crude purchased in the designated area.

This Amendment No. 5 shall be effective as of August 1, 1946.

Issued this 13th day of September 1946.

RECONSTRUCTION FINANCE CORPORATION,
GEORGE STONER,
Associate Director,
Office of Defense Supplies.

TITLE 36—PARKS AND FORESTS

Chapter I—National Park Service

PART 2—GENERAL RULES AND REGULATIONS

GUIDE FEES FOR MAMMOTH CAVE

Paragraph (o) (1) of § 2.55 *Fees* is amended to read as follows:

(o) *Guide fees for Mammoth Cave.* (1) In Mammoth Cave National Park, no person shall be permitted to enter the cave unless accompanied by National Park Service personnel. Competent guide service is provided by the Government, for which fees shall be charged as follows:

Route:	Fee per person
No. 1—Echo River	$1.25
No. 2—Frozen Niagara	1.25
No. 3—Historical	1.25
No. 4—All day	2.50

This amendment shall become effective on publication in the FEDERAL REGISTER and supersedes the amendatory regulation of September 9, 1946 (11 F. R. 10296).

(39 Stat. 535; 16 U. S. C. 3)

Issued this 9th day of September 1946.

WARNER W. GARDNER,
Assistant Secretary of the Interior.

[F. R. Doc. 46-17418; Filed, Sept. 26, 1946; 8:51 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management

Appendix—Public Land Orders

[Public Land Order 327]

ALASKA

EXCLUDING CERTAIN TRACTS OF LAND FROM CHUGACH AND TONGASS NATIONAL FORESTS AND RESTORING THEM TO ENTRY

By virtue of the authority vested in the President by the act of June 4, 1897, 30 Stat. 11, 36 (U. S. C. title 16, sec. 473), and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

The following-described tracts of public land in Alaska, occupied as home sites, and identified by surveys of which plats and field notes are on file in the Bureau of Land Management, Washington, D. C., are hereby excluded from the Chugach and Tongass National Forests as hereinafter indicated, and restored, subject to valid existing rights, to entry under the applicable public-land laws:

CHUGACH NATIONAL FOREST

U. S. Survey No. 2531, Tract A, 4.05 acres; latitude 60°21'35" N., longitude 149°21'20" W. (Homesite No. 48, Lakeview Group);

TONGASS NATIONAL FOREST

U. S. Survey No. 2402, Lot 20, 1.52 acres; latitude 55°18'00" N., longitude 131°32'00" W. (Homesite No. 691, Mountain Point Group);

U. S. Survey No. 2402, Lot 26, 1.08 acres; latitude 55°18'00" N., longitude 131°32'00" W. (Homesite No. 751, Herring Bay Mountain Point Group);

U. S. Survey No. 2402, Lot 28, 1.15 acres; latitude 55°18'00" N., longitude 131°32'00" W. (Homesite No. 827, Mountain Point Herring Cove Group);

U. S. Survey No. 2403, Lot 82, 0.89 acres; latitude 55°19'20" N., longitude 131°30'90" W. (Homesite No. 690, Mountain Point Group);

U. S. Survey No. 2554, Lot "L", 1.77 acres; latitude 55°28'00" N., longitude 131°47'00" W. (Homesite No. 722, Clover Pass Group);

U. S. Survey No. 2555, Lot "N", 4.30 acres; latitude 55°28'18" N., longitude 131°47'30" W. (Homesite No. 300, Clover Pass Group);

U. S. Survey No. 2560, Lot "D", 4.47 acres; latitude 58°20'20" N., longitude 134°35'00" W. (Homesite No. 604, North Douglas Group);

On Revillagigedo Island, 0.59 acres; latitude 55°24'30" N., longitude 131°45'35" W. (Homesite No. 835, Mud Bay Group).

WARNER W. GARDNER,
Acting Secretary of the Interior.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 369, Amdt. 7]

PART 95—CAR SERVICE

DEMURRAGE CHARGES ON CLOSED BOX CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 20th day of September A. D. 1946.

Upon further consideration of Service Order No. 369 (10 F. R. 14030), as amended (10 F. R. 15073; 11 F. R. 639, 2383, 7857, 8453, 10304), and good cause appearing therefor; *It is ordered*, That:

The provisions of Service Order No. 369 shall not apply to cars on hand at 7:00 a. m., September 21, 1946, or arriving prior to 7:00 a. m., September 27, 1946, the unloading of which is interfered with due to strike of truck men, at any point in the counties of Manhattan, Bronx, Kings, Queens or Richmond, in the State of New York; and the counties of Bergen, Hudson, Essex, Union or Middlesex, in the State of New Jersey.

It is further ordered, That a copy of this order and direction shall be served upon each state railroad regulatory body, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 46-17445; Filed, Sept. 26, 1946; 8:50 a. m.]

[S. O. 558, Amdt. 4]

PART 95—CAR SERVICE

REFRIGERATOR CARS FOR FRUIT AND VEGETABLE CONTAINERS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 23rd day of September A. D. 1946.

Upon further consideration of Service Order No. 558 (11 F. R. 8043), as amended (11 F. R. 8371, 9295, 10091), and good cause appearing therefor; *It is ordered*, That:

Service Order No. 558, as amended, be, and it is hereby, further amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* This order shall expire at 11:59 p. m., October 10, 1946, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, That this amendment shall become effective at 12:01 p. m., September 23, 1946; that a copy of this order be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 46-17446; Filed, Sept. 28, 1946; 8:51 a. m.]

[S. O. 523, Amdt. 3]

PART 96—JOINT USE OF TERMINALS

PITTSBURG, SHAWMUT & NORTHERN RAILROAD CO.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of September A. D. 1946.

Upon further consideration of Service Order No. 523 (11 F. R. 5747), as amended (11 F. R. 7283, 9083), and good cause appearing therefor; *It is ordered*, That:

Service Order No. 523 be, and it is hereby, further amended by substituting the following paragraph (f) for paragraph (f) thereof:

(f) *Expiration date.* This order shall expire at 11:59 p. m., April 30, 1947, unless otherwise modified, changed, suspended, or annulled by order of this Commission. (40 Stat. 101, Sec. 402, 418, 41 Stat. 476, 485, Sec. 4, 10, 54 Stat. 901, 49 U. S. C. 1 (10)-(17))

It is further ordered, That this amendment shall become effective at 12:01 a. m., September 29, 1946; that a copy of this order and direction shall be served upon the Public Service Commission of New York, Albany, N. Y., and the Pennsylvania Public Utilities Commission, Harrisburg, Pa., and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement, and upon the receivers of the P. S. & N. R. R. Co., the Pittsburg & Shawmut Railroad Co., the B. & O. R. R. Co., the Erie R. R. Co., the Pennsylvania R. R. Co., and the D. L. & W. R. R.

of meat he is required, pursuant to this section, to sell or transfer to him during that monthly period or during the first

established Office of Price Administration ceiling prices.

Notices

TREASURY DEPARTMENT.

United States Coast Guard.

INSPECTION AND NAVIGATION

NOTICE OF HEARING ON PROPOSED CHANGES

The Merchant Marine Council will conduct a public hearing at Coast Guard Headquarters, 13th and E Streets, N. W., Washington, D. C. on October 22, 1946 at 9:30 a. m. in Room 8205 to consider comments on proposed changes in regulations applicable to vessels subject to inspection and undocumented motor vessels. (Section 4, Administrative Procedure Act, Public Law 404, 79th Congress; 60 Stat. 238.)

The subjects of the proposed rules and the authorities for making such changes are as follows:

1. The physical condition and experience required of applicants for licenses as masters, mates, pilots, and engineers and for certifications as able seamen. It is further proposed to place in one subchapter all of the regulations on the subject of licensing and certification of officers and seamen, which regulations presently are contained in 46 CFR, Parts 25, 36, 62, 78, 96, 115 and 131 to 141 inclusive. (R. S. 4405, 4438 4438a, 4439, 4440, 4441, 4447, 4481 as amended, 38 Stat. 1169, 49 Stat. 1544; 53 Stat. 1147, 54 Stat. 163–167, 46 U. S. C. 375, 224, 224a, 226, 228, 229 233, 481, 672, 367, 246, 526–526t, and Reorganization Plan No. 3 of 1946, 11 F. R. 7875)

2. Provide for an alternative method of installation of smoke pipe systems in fire detecting systems by amending 46 CFR 61.17 (c), 77.17 (c), 95.16 (c), and 114.17 (c). (R. S. 4405, as amended, 54 Stat. 1028, 46 U. S. C. 375, 463a, Reorganization Plan No. 3 of 1946, 11 F. R. 7875)

3. Amend 46 CFR 144.4 by including more detailed information relative to construction requirements for passenger vessels of 100 gross tons and over. (49 Stat. 1364, 46 U. S. C. 369, Reorganization Plan No. 3 of 1946, 11 F. R. 7875)

4. Amend 46 CFR 29.8 to change the procedure for obtaining certificates of award of number for undocumented motorboats and motor vessels and to provide that boats not exceeding 16 feet in length and which are temporarily equipped with detachable motors need not be numbered. (40 Stat. 602, 46 U. S. C. 288, Reorganization Plan No. 3 of 1946, 11 F. R. 7875)

5. Add a new section to 46 CFR, Part 34, to prescribe the conditions under which butane and propane gases may be used for heating and cooking purposes on tank vessels. (R. S. 4405, 4417a, as amended, 54 Stat. 1028, 46 U. S. C. 375, 391a, 463a, Reorganization Plan No. 3 of 1946, 11 F. R. 7875)

6. Amend 46 CFR, 61.25 (g), 77.24 (g), 95.24 (g), and 114.25 (g) to relax the ventilation requirements in compartments of vessels in which heating or cooking appliances using butane or propane for fuel are installed. (R. S. 4405, as amended, 49 Stat. 1544, 54 Stat. 1028, 46 U. S. C. 375, 367, 463a, Reorganization Plan No. 3 of 1946, 11 F. R. 7875)

Copies of any or all of the proposed regulations may be obtained from the Commandant (CMC), Coast Guard Headquarters, Washington, D. C. Comments on the proposals should be received not later than October 22, 1946 or may be made at the public hearing.

Dated: September 20, 1946.

[SEAL] MERLIN O'NEILL, *Rear Admiral, U. S. Coast Guard, Acting Commandant.*

APPROVAL OF EQUIPMENT

Correction

In Federal Register Document 46-17150, appearing on page 10782 of the issue for Wednesday, September 25, 1946, under the headnote "Lifeboats" the first line of the second paragraph should read: "18' x 6.25' x 2.75' aluminum car-pro-".

DEPARTMENT OF AGRICULTURE.

Production and Marketing Administration.

MILK IN TRI-STATE MARKETING AREA

NOTICE OF REPORT AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO THE ORDER, AS AMENDED, AND TO PROPOSED MARKETING AGREEMENT

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp., 900.1 et seq.), notice is hereby given of the filing with the Hearing Clerk of a report of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to the order, as amended, and to a proposed marketing agreement, regulating the handling of milk in the Tri-State marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended.

Interested parties may file exceptions to this report with the Hearing Clerk, Office of the Solicitor, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

A public hearing, on the record of which the proposed amendments to the order, as amended, and the proposed marketing agreement were formulated, was called by the Production and Marketing Administration, United States Department of Agriculture, following receipt of a joint petition filed by the Scioto County Cooperative Milk Producers Association, The Athens Milk Sales, Inc., The Marietta Cooperative Milk Producers Association, and the Huntington Interstate Milk Producers Association. Additional proposals for consideration were submitted by the Broughton's Farm Dairy, Inc., the Crystal Dairy Products Company, and the Home Dairy Company. The public hearing was held at Gallipolis, Ohio, June 24–28, 1946.

The principal issues developed at the hearing were concerned with the following:

(1) The definitions of "Secretary," "Huntington district plant," "producer," "handler," "delivery period," "emergency milk," and "marketing area";

(2) The addition of definitions covering "fluid milk plant," "nonfluid milk plant," "route," "producer milk," and "other source milk";

(3) Additional duties and responsibilities for the market administrator including a regular report to handlers on the financial condition of the market administrator's office; and, a report to associations of producers showing the receipts and utilization of such associations' member milk;

(4) A revision of the section covering reports by (a) limiting handlers' reports to producer milk only (b) limiting reports on emergency or other source milk, and (c) limiting the time that handlers must maintain records;

(5) A revision of the section covering the classification and allocation of milk, including a consideration of shrinkage;

(6) A revision of the method of establishing class prices for producer milk as well as minor revisions in the mechanics of determining "basic prices" and "butterfat differentials";

(7) A revision of the method of payments to producers for milk;

(8) A revision of the rate of assessment for administrative expenses;

(9) The discontinuation of marketing service deductions on milk of producers not members of a cooperative association;

(10) The addition of a provision requiring the market administrator to explain audit adjustments and of a provision providing for interest charges on overdue accounts; and

(11) Numerous changes in language for the purpose of clarifying the present order.

The conclusions reached with respect to these issues, together with some of the supporting reasons for such conclusions, are set forth below:

1. Certain definitions which were discussed in the hearing record should be redefined to clarify and to better correlate such definitions with other terms and provisions of the order.

The term "Secretary" should be redefined to eliminate reference to the War Food Administrator since with the abolishment of the War Food Administration the powers of the War Food Administrator have been redelegated to the Secretary of Agriculture.[1]

The term "Huntington district plant" should be redefined to include the fluid milk plant concept which is discussed below. It is not contemplated that the proposed definition would create a change in the number or identity of Huntington district handlers.[2]

The term "producer" should be redefined in order to more clearly differentiate between "dairy farmers" and "producers" as defined in the proposed amendments in accordance with the health ordinance requirements of the various communities in the Tri-State marketing area. It is contemplated that the proposed definition would include the same persons as producers as are now included under the current definition.[3]

The definition, "handler," should be simplified and made to conform with the definition of fluid milk plant. The revised definition would cover the same persons as handlers as are now subject to regulation under the current order.[4]

The term "delivery period" should be redefined to provide for a delivery period of less than one month in duration in the event the order is effective for only a portion of a month.[5]

The term "emergency milk" should be deleted because under other revised provisions of the proposed amendments this definition would not be needed.[6]

The boundaries of the Tri-State marketing area should not be changed, inasmuch as marketing conditions with respect thereto are substantially similar to those existing when the original order was promulgated.[7]

2. Certain other definitions which were discussed in the hearing record should be added.

Because of administrative difficulty in determining the proper scope of regulation under original Order No. 72, a "fluid milk plant" definition should be included.[8]

Definitions covering "producer milk," "other source milk" (which includes emergency milk), and "route" should be added for simplification and clarification.[9]

3. (a) A quarterly financial report showing a balance sheet and operating statement as well as an annual audit of the market administrator's office by an independent accountant is unnecessary in view of the regular audits made by the Office of Investigatory Services.[10]

(b) The market administrator upon request by an association of producers should make a report to such association, showing the total pounds of milk purchased by each handler during the delivery period from its member producers and the utilization of such milk. This report should provide information which will enable producer associations to direct milk to plants where it is most needed for fluid use.[11]

4. (a) The limiting of reports by handlers to producer milk only is impractical when producer milk and other source milk are received in the same plant. The allocation of producer milk to each class and the audit of each handler's receipts and utilization of producer milk would be impaired without complete information on all receipts under such conditions. However, when other source milk is received in a nonfluid milk plant and such milk is completely segregated from producer milk a regular monthly report on the receipts of such other source milk appears to be unnecessary.[12]

(b) Reports by handlers of the receipt of other source milk need not be made daily but the intent to begin and to terminate such receipts should be made on the first and last day, respectively, that such milk is received.[13]

(c) The period of time handlers are required to maintain records for audit by the market administrator should not be limited to two years as proposed. Such a limitation could hamper the audit program of the market administrator.[14]

5. (a) A revision of the section covering the classification of milk should be made to clarify present language by substituting the terms "skim milk" and "butterfat" for "milk and milk products" and to clearly distinguish which skim milk and butterfat is to be classified and priced through the use of the fluid milk plant concept.[15]

(b) Buttermilk should be included in Class I milk instead of in Class II milk as provided at the present. The form in which and the purpose for which buttermilk is used appears to be more similar to fluid milk than to cream or manufactured dairy products.[16]

(c) Bulk skim milk transferred to bakeries, soup and candy manufacturers should be included in Class III milk rather than Class I milk because it is used for manufacturing purposes.[17]

(d) Flavored milk and milk drinks should be retained in Class I milk as now provided. Conditions with respect thereto are substantially similar to those existing when the original order was promulgated.[18]

(e) The provision for computing shrinkage of skim milk and butterfat should be clarified and such shrinkage should be properly allocated between producer milk and other source milk in the interest of equity among handlers. Although the evidence in the record does not support a change from two to three percent allowable shrinkage as proposed, the method of allocating shrinkage will increase somewhat the total amount of shrinkage in Class III milk.[19]

(f) The interhandler and nonhandler transfer provision should be clarified and language should be included to make such provisions conform with the skim milk and butterfat system of classification, the fluid milk plant concept, and the allocation provisions.[20]

(g) The method of allocating skim milk and butterfat classified should be revised to provide for the elimination of other source milk in series beginning with the lowest-priced classes in order to protect adequately the classification of producer milk under local conditions affecting importation of supplementary supplies.[21]

6. The bracket system of establishing prices, under which class prices change 25 cents per hundredweight at one time, should be eliminated and a system of establishing Class I and Class II milk prices by stated differentials over the "basic" (or manufacturing) price level should be established. This change is necessary to provide more flexibility of price in the Tri-State area to keep the price more nearly in line with surrounding competitive markets. The Class I price for Huntington district plants should be established at $0.95 per hundredweight over the basic manufacturing prices and the Class II price at such plants should be established at 65 cents per hundredweight over the basic price. These differentials are approximately those now being paid. The Class III price should be equal to the basic or manufacturing price because skim milk and butterfat disposed of as Class III milk must be manufactured and sold in competition with products made from manufacturing milk.[22]

It is concluded further that there should remain a 20-cent differential in the prices of Class I milk and Class II milk between other plants and Huntington district plants of handlers. An analysis of the statistics in the hearing record shows that no appreciable shift of receipts of milk between Huntington district plants and other plants has resulted from the 20-cent differential between the two areas established by the original order.[23]

A slight change should be made in the method of determining the basic price. The "code price" for the evaporated milk industry should be included as one of the alternative methods of establishing the basic price. A minor change should be made also in the mechanics of arriving at the "butter and nonfat dry milk solids" price formula (alternative basic price) to simplify the mechanics of calculation.[24]

The basic butterfat test used in the establishment of class prices to handlers should be changed from a 4 percent to a 3.5 percent basis to conform to the test basis on which producer prices are announced. The announcement of class prices on a 3.5 percent butterfat test, rather than on a 4 percent basis, will not affect the handler's total cost of milk.[25]

7. No change should be made in the method of payment for producer milk. Handlers should continue to make pay-

ments directly to producers or to an association of producers if authorized to collect such payments, as currently provided.[24]

8. The accumulation of funds under the administrative assessment does not exceed the amount necessary for economic and efficient administration; and, therefore, the maximum assessment should not be reduced below the current rate of 4 cents per hundredweight. However, it is concluded further that the assessment should be charged on all producer milk and on all other source milk classified as Class I milk and Class II milk.[25]

9. It is concluded that no action should be taken on the handlers' proposal which would provide for the elimination of marketing service deductions from payments to producers who are not members of an association.[26]

10. A section should be added providing for (a) the notification of handlers of audit adjustments, (b) a statement by the market administrator of the reasons for these adjustments, and (c) interest at the rate of one-half of one percent per month relative to accounts not paid on time by the market administrator or by the handler.[27]

11. Numerous changes in language in other provisions should be made for the purpose of further clarification and brevity.

The following provisions are recommended as the detailed means by which these conclusions may be carried out. The proposed marketing agreement is not included in this report because its substantive provisions would be the same as those set forth below with respect to the order, as amended.

Findings. Upon the basis of the evidence introduced in the public hearing and the record theeref, it is hereby found that:

(1) The issuance of this order regulating the handling of milk in the said marketing area, and all the terms and conditions of this order, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) Milk to be regulated by this order is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce in milk or its products; and

(4) The issuance of this order is the only practical means pursuant to the act to advance the interest of the producers of milk which is produced for sale in the said marketing area,

It is hereby ordered, That such handling of milk in the Tri-State marketing area as is in the current of interstate commerce, or as directly burdens, obstructs, or affects interstate commerce in milk or its products, shall from the effective date hereof be in compliance with the following terms and conditions:

§ 972.1 *Definitions.* The following terms shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

(b) "Secretary" means the Secretary of Agriculture of the United States or such other officer or employee of the United States authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

(c) "Department of Agriculture" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in § 972.5 hereof.

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Tri-State marketing area," hereinafter called the "marketing area," means the territory lying within the corporate limits of the cities of Ashland, Ky.; Huntington and Parkersburg, W. Va.; Marietta, Ironton, and Gallipolis, Ohio; and all territory lying within Athens and Scioto Counties, Ohio, including but not limited to all municipal corporations in said counties.

(f) "Huntington district" means that portion of the marketing area lying within the corporate limits of the cities of Ashland, Ky.; Huntington, W. Va.; and Ironton and Gallipolis, Ohio.

(g) "Route" means delivery route (including a plant store) on which milk, skim milk, buttermilk, flavored milk, and flavored milk drink is distributed for consumption in fluid form to wholesale or retail stops other than to any milk plant(s).

(h) "Fluid milk plant" means a plant (1) out of which a route is operated wholly or partially within the marketing area, or (2) having its entire dairy farm supply of milk produced under health requirements equivalent to those applicable to dairy farm supplies of a plant(s) described under (1) of this paragraph and moving 50 percent or more of its total receipts of skim milk and butterfat to the latter plant(s): *Provided*, That in neither (1) nor (2) of this paragraph shall "fluid milk plant" mean such portions of a building or facilities used for receiving or processing such milk, or milk product, as is required by the appropriate health authority to be kept physically separate from the receiving or processing of Class I milk for the community(s) served.

(i) "Non-fluid milk plant" means any milk processing or manufacturing plant not a fluid milk plant described in (h) of this section.

(j) "Producer" means a person who produces milk received (1) at a fluid milk plant, (2) at a non-fluid milk plant by diversion within April, May, June, or July from a fluid milk plant, or (3) by an association in its capacity as a handler: *Provided*, That such person producing milk holds a dairy farm inspection permit or equivalent certification if required by the appropriate health authority of the community for which his milk is produced.

(k) "Producer milk" means milk produced by one or more producers under the conditions set forth in (j) of this section.

(l) "Delivery period" means the calendar month or the total portion thereof during which this order is in effect.

(m) "Handler" means (1) a person who operates a fluid milk plant, or (2) an association of producers with respect to milk customarily received as producer milk at a fluid milk plant which is diverted by such association within April, May, June or July on its account from a fluid milk plant to a non-fluid milk plant.

(n) "Producer-handler" means any person who (1) produces milk but receives no milk from dairy farmers and (2) operates a route extending into the marketing area.

(o) "Huntington district plant" means a fluid milk plant (1) located within the Huntington district, or (2) located outside the marketing area from which 50 percent or more of its disposition of milk in the marketing area is in the Huntington district.

(p) "Other source milk" means all skim milk (including reconstituted skim milk) and butterfat not received from a producer, or from a fluid milk plant, but (1) contained in milk, skim milk, or cream or (2) used to produce any milk product.

§ 972.2 *Market administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall have the following powers with respect to this order:

(1) To administer its terms and provisions;

(2) To make rules and regulations to effectuate its terms and provisions;

(3) To receive, investigate, and report to the Secretary complaints of violations; and

(4) To recommend amendments to the Secretary.

(c) *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this order, including, but not limited to, the following:

(1) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

[24] H. R. pp. 559–576, 773–797, 807–813, 1095–1159.

[25] H. R. pp. 501–502, 552–559, 808–810, 1160.

[26] H. R. pp. 525–551, 804–806, 809–811, 878–891, 1171–1181.

[27] H. R. pp. 766–769, 1185–1187.

(2) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(3) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted, to the market administrator;

(4) Pay, out of the funds provided by § 972.9:

(i) The cost of his bond and of the bonds of his employees,

(ii) His own compensation, and

(iii) All other expenses, except those incurred under § 972.10 necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(5) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(6) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who within 15 days after the day upon which he is required to perform such acts, has not made (i) reports pursuant to § 972.3, or (ii) payments pursuant to §§ 972.8, 972.9, 972.10 or 972.11.

(7) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(8) Upon request, supply on or before the 25th day after the end of each delivery period to each association of producers with respect to producers whose membership in such association has been verified by the market administrator, a record of the pounds of milk received by each handler from member producers and the class utilization of such milk. For the purpose of this report such member milk shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were classified in each class;

(9) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(10) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each delivery period as follows:

(i) On or before the 5th day after the end of such delivery period, the class prices and butterfat differentials computed pursuant to § 972.5 and

(ii) On or before the 10th day after the end of such delivery period, the uniform prices computed pursuant to § 972.7 (b) and (c) and the butterfat differential computed pursuant to § 972.8 (f).

§ 972.3 *Reports, records and facilities*—(a) *Delivery period reports of receipts and utilization.* On or before the 5th day after the end of each delivery period each handler, except a producer-handler, shall report the following to the market administrator with respect to all producer milk received, all other source milk received at a fluid milk plant and all skim milk and butterfat received in any form at a fluid milk plant from any other fluid milk plant, within such delivery period in the detail and on forms prescribed by the market administrator:

(1) The quantities of butterfat and quantities of skim milk contained in (or used in the production of) such receipts, and their sources.

(2) The utilization of such receipts, and

(3) Such other information with respect to such receipts and utilization as the market administrator may prescribe.

(b) *Other reports.* (1) The intention to receive other source milk shall be reported by the receiving handler on or before the first day other source milk is received and the intention to discontinue such receipts shall be reported on or before the last day such milk is received.

(2) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(3) On or before the 20th day after the end of each delivery period each handler shall submit to the market administrator such handler's producer pay roll for the delivery period, which shall show (i) the total pounds of milk received from each producer and association of producers and the total pounds of butterfat contained in such milk, (ii) the amount of payment to each producer and association of producers, and (iii) the nature and amount of any deductions and charges involved in the payments referred to in (ii) of this subparagraph.

(c) *Records and facilities.* Each handler shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of his operations and such facilities as, in the opinion of the market administrator, are necessary to verify or to establish the correct data with respect to (1) the utilization, in whatever form, of all skim milk and butterfat received; (2) the weights, samples, and tests for butterfat and for other content of all skim milk and butterfat handled; (3) payments to producers and associations of producers; and (4) the pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and each milk product on hand at the beginning and at the end of each delivery period.

§ 972.4 *Classification*—(a) *Skim milk and butterfat to be classified.* Skim milk and butterfat contained in milk, skim milk, and cream, or used to produce milk products, received from all sources within the delivery period by a handler at his fluid milk plant(s), and all producer milk received within the delivery period in the manner described in § 972.1 (m) (2), shall be classified by the market administrator pursuant to the following provisions of this section.

(b) *Classes of utilization.* Subject to the conditions set forth in (c), (d) and (e) of this section, the skim milk and butterfat described in (a) of this section shall be classified by the market administrator on the basis of the following classes:

(1) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat;

(i) Disposed of in fluid form as milk, skim milk, or buttermilk (except as provided in (3) (ii) and (3) (iii) of this paragraph), or flavored milk or flavored milk drink; and

(ii) Not specifically accounted for under (i) of this subparagraph or as Class II milk or Class III milk.

(2) Class II milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in fluid form as cream or any mixture of cream and milk (or skim milk) containing not less than 6 percent of butterfat.

(3) Class III milk shall be all skim milk and butterfat:

(i) Used to produce a milk product other than any of those specified in (1) (i) or in (2) of this paragraph;

(ii) Dumped or disposed of for livestock feeding as skim milk or buttermilk;

(iii) Disposed of as bulk skim milk to any manufacturer of candy, soup, or bakery products who does not dispose of milk in fluid form;

(iv) In actual plant shrinkage of producer milk computed pursuant to (c) (4) of this section, but not in excess of 2 percent thereof; and

(v) In actual plant shrinkage of other source milk computed pursuant to (c) (4) of this section.

(c) *Shrinkage.* The market administrator shall determine the shrinkage of skim milk and butterfat, respectively, in producer milk and in other source milk in the following manner:

(1) Compute the total shrinkage of skim milk and butterfat, respectively, by (i) combining the shrinkage thereof for all fluid milk plants operated by the handler, and (ii) combining in a separate sum the shrinkage thereof for all non-fluid milk plants operated by him to which any skim milk or butterfat has been transferred from any of his fluid milk plants.

(2) Prorate the shrinkage of skim milk and butterfat, respectively, computed pursuant to (1) (ii) of this paragraph in such non-fluid milk plants between (i) skim milk or butterfat, respectively, transferred from any of his fluid milk plants, and (ii) skim milk or butterfat, respectively, received from all other sources;

(3) Add to the shrinkage of skim and butterfat, respectively, computed pursuant to (1) (i) of this paragraph the shrinkage of skim milk or butterfat, respectively, transferred from the handler's fluid milk plants to his non-fluid milk plants, computed pursuant to (2) of this paragraph; and

(4) Prorate the total shrinkage of skim milk and butterfat, respectively, computed pursuant to (3) of this paragraph between producer milk and other source milk at his fluid milk plants after deducting from the total receipts therein, the receipts from fluid milk plants other than his own.

(d) *Responsibility of handlers and reclassification of milk.* (1) All skim milk and butterfat shall be Class I milk, unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim

milk or butterfat should be classified otherwise.

(2) Any skim milk or butterfat classified (except that transferred to a producer-handler) in one class shall be reclassified if used or reused by such handler or by another handler in another class.

(e) *Transfers.* Skim milk or butterfat transferred from a handler's fluid milk plant to any other plant shall be classified as Class I milk if so transferred as any item listed in (b) (1) (i) of this section and as Class II milk if so transferred as any item listed in (b) (2) of this section:

(1) To another fluid milk plant of a handler (except a producer-handler) unless utilization in another class is mutually indicated in writing to the market administrator by both handlers on or before the 5th day after the end of the delivery period within which such transfer was made: *Provided*, That skim milk or butterfat assigned to a particular class shall be limited to the amount thereof remaining in such class in the fluid milk plant of the transferee handler after the subtraction of other source milk pursuant to (g) (1) (ii) of this section, and any excess of such transferred skim milk or butterfat, respectively, shall be assigned in series beginning with the next lowest-priced available class;

(2) To a producer-handler; and

(3) To a non-fluid milk plant unless (i) other utilization is mutually indicated in writing to the market administrator by both the buyer and seller on or before the 5th day after the end of the delivery period within which such transfer was made, (ii) the buyer maintains books and records showing utilization of all skim milk and butterfat at his plant which are made available if requested by the market administrator for audit, and (iii) such buyer's plant had actually used not less than an equivalent amount of skim milk or butterfat in the use indicated in such statement: *Provided*, That if such buyer's plant had not actually used an equivalent amount of skim milk or butterfat in such indicated use, the remaining pounds shall be classified in the next lowest priced available class of utilization as if the classes of utilization set forth in (b) of this section were applicable to such buyer's plant.

(f) *Computation of skim milk and butterfat in each class.* For each delivery period, the market administrator shall correct for mathematical and for other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk, Class II milk and Class III milk for such handler.

(g) *Allocation of skim milk and butterfat classified.* (1) The pounds of skim milk remaining in each class after making the following computations shall be the pounds in such class allocated to producer milk:

(i) Subtract plant shrinkage of skim milk pursuant to § 972.4 (b) (3) (iv) from the total pounds of skim milk in Class III milk;

(ii) Subtract from the pounds of skim milk remaining in each class after making the deduction pursuant to (i) of this subparagraph, in series beginning with the lowest priced available class, the pounds of skim milk in other source milk;

(iii) Subtract from the remaining pounds of skim milk in each class the skim milk received from other fluid milk plants in such classes pursuant to (e) (1) of this section; and

(iv) Add to the remaining pounds of skim milk in Class III milk the pounds subtracted pursuant to (i) of this subparagraph; or if the remaining pounds of skim milk in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the remaining pounds of skim milk in each class in series beginning with the lowest-priced available class.

(2) Allocate classified butterfat to producer milk according to the method prescribed in (1) of this paragraph for skim milk.

(3) Determine the weighted average butterfat test of the remaining milk in each class computed pursuant to (1) and (2) of this paragraph.

§ 972.5 *Minimum prices*—(a) *Basic formula price to be used in determining class prices.* The basic formula price per hundredweight of milk to be used in determining the class prices provided by this section shall be the highest of the prices per hundredweight for milk of 3.5 percent butterfat content determined by the market administrator pursuant to (1), (2), or (3) of this paragraph, computed to the nearest tenth of a cent.

(1) The average of the basic (or field) prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture.

Present operator:	Location
Borden Co.	Black Creek, Wis.
Borden Co.	Greenville, Wis.
Borden Co.	Mt. Pleasant, Mich
Borden Co.	New London, Wis.
Borden Co.	Orfordville, Wis.
Carnation Co.	Berlin, Wis.
Carnation Co.	Jefferson, Wis.
Carnation Co.	Chilton, Wis.
Carnation Co.	Oconomowoc, Wis.
Carnation Co.	Richland Center, Wis.
Carnation Co.	Sparta, Mich.
Pet Milk Co.	Belleville, Wis.
Pet Milk Co.	Coopersville, Mich.
Pet Milk Co.	Hudson, Mich.
Pet Milk Co.	New Glarus, Wis.
Pet Milk Co.	Wayland, Mich.
White House Milk Co.	Manitowoc, Wis.
White House Milk Co.	West Bend, Wis.

(2) The price per hundredweight computed as follows:

(i) Multiply by six the average wholesale price per pound of 92-score butter at Chicago as reported by the Department of Agriculture for the delivery period;

(ii) Add an amount equal to 2.4 times the average weekly prevailing price per pound of "Twins" during the delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided*, That if the price of "Twins" is not quoted on the Wisconsin Cheese Exchange the weekly prevailing price per pound of "Cheddars" shall be used; and

(iii) Divide by seven, add 30 percent thereof, and then multiply by 3.5.

(3) The price per hundredweight computed by adding together the plus values pursuant to (i) and (ii) of this subparagraph:

(i) From the average wholesale price per pound of 92-score butter at Chicago, as reported by the Department of Agriculture for the delivery period, subtract three cents, add 20 percent thereof, and then multiply by 3.5; and

(ii) From the average of the carlot prices per pound of nonfat dry milk solids for human consumption, spray and roller process, f. o. b. manufacturing plants, as published for the Chicago area for the delivery period by the Department of Agriculture, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such nonfat dry milk solids for the previous delivery period, deduct 5.5 cents, multiply by 8.5, and then multiply by 0.965.

(b) *Class I milk prices.* Subject to the provisions of (e), (f), (g), and (h) of this section, the minimum price per hundredweight on a 3.5 percent butterfat content basis to be paid by each handler for producer milk classified as Class I milk, shall be the basic formula price determined pursuant to paragraph (a) of this section, plus $0.95: *Provided*, That the Class I milk price for other than Huntington District plants shall be such price less 20 cents.

(c) *Class II milk prices.* Subject to the provisions of (e), (f), (g), and (h) of this section, the minimum price per hundredweight on a 3.5 percent butterfat content basis to be paid by each handler for producer milk classified as Class II milk, shall be the basic formula price determined pursuant to paragraph (a) of this section plus 65 cents: *Provided*, That the Class II milk price for other than Huntington District plants shall be such price less 20 cents.

(d) *Class III milk prices.* Subject to the provisions of (e), (f), (g), and (h) of this section, the minimum price per hundredweight on a 3.5 percent butterfat content basis to be paid by each handler for producer milk classified as Class III milk, shall be the basic formula price.

(e) *Butterfat differentials to handlers.* If the weighted average butterfat test of producer milk which is classified in any class, respectively, for any handler, is more or less than 3.5 percent, there shall be added to or subtracted from, as the case may be, the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential (computed to the nearest tenth of a cent) calculated by the market administrator for such class as follows:

(1) Class I milk—multiply by 1.2 the average wholesale price per pound of 92-score butter at Chicago as reported by the Department of Agriculture for the delivery period, divide the result by 10, and add 1.0 cent.

(2) Class II milk—multiply by 1.2 the average wholesale price per pound of 92-score butter at Chicago as reported by the Department of Agriculture for the delivery period, divide the result by 10, and add 0.5 cent.

(3) Class III milk—multiply by 1.2 the average wholesale price per pound of 92-score butter at Chicago as reported by the Department of Agriculture for the delivery period and divide the result by 10.

(f) *Emergency price provisions.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy or other similar payment being made by any Federal agency in connection with the milk, or product, associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the prices specified.

(g) *Prices for Class I, Class II, and Class III milk disposed of outside the marketing area.* The prices for Class I, Class II, and Class III milk disposed of outside the marketing area by a handler shall be those applicable, respectively, pursuant to (b), (c), and (d) of this section, to Class I, Class II, and Class III milk disposed of by such handler in the marketing area.

(h) *Price of Class I or Class II milk transferred by one handler to another handler.* The price of Class I or Class II milk transferred by a handler to another handler shall be that applicable to Class I or Class II milk at the selling handler's fluid milk plant, pursuant to (b) and (c) of this section: *Provided*, That any hauling charge with respect thereto chargeable to producers or to associations of producers shall not exceed that customarily applied to deliveries of such producers from their farms to the selling handler's fluid milk plant.

§ 972.6 *Application of provisions*—(a) *Producer-handlers.* Sections 972.4, 972.5, 972.7, 972.8, 972.9, and 972.10 shall not apply to a producer-handler.

(b) *Verification.* Any handler who desires to qualify as a producer-handler shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence of his qualifications satisfactory to the market administrator, and he shall furnish similar evidence of subsequent changes in his operations that affect his qualifications. Verification by the market administrator shall be made within 5 days after the date of receipt of such evidence, and shall be effective retroactively to the date on which the applicant became so eligible, but not earlier than the first day of the delivery period during which verification of such eligibility is made.

(c) *Exempt milk.* Milk received at a plant of a handler the handling of which the Secretary determines to be subject to the pricing and payment provisions of any other Federal milk marketing agreement or order issued pursuant to the act for any fluid milk marketing area shall not be subject to the pricing and payment provisions hereof.

(d) *Milk caused to be delivered by an association of producers.* Milk referred to herein as received from producers by a handler shall include producer milk caused to be delivered to such handler by an association of producers which is not a handler and which is authorized to collect payment for such milk.

(e) *Diverted milk.* (1) Producer milk diverted by an operator of a fluid milk plant from such plant to a non-fluid milk plant shall be deemed to have been received by the fluid milk plant from which such milk was diverted;

(2) Producer milk diverted by an association of producers from a fluid milk plant to a non-fluid milk plant shall be deemed to have been received by such an association.

§ 972.7 *Determination of uniform prices*—(a) *Computation of value of milk.* The value of producer milk received during each delivery period by each handler shall be a sum of money computed by the market administrator by (1) multiplying the pounds of such milk in each class for the delivery period, by the applicable class prices, and (2) adding together the resulting amounts: *Provided*, That if a handler, after subtracting other source milk and receipts from other handlers, has disposed of skim milk or butterfat in excess of the skim milk or butterfat which, on the basis of his reports, has been credited to producers as having been received from them, there shall be added an amount computed by multiplying the pounds in each class determined pursuant to § 972.4 (g) (1) (iv) and (2) by the applicable class prices.

(b) *Computation of uniform price for plants other than Huntington district plants.* For each delivery period the market administrator shall compute the "uniform price" per hundredweight to be paid to producers and to associations of producers for milk of 3.5 percent butterfat content received at fluid milk plants other than Huntington district plants, as follows:

(1) Combine into one total the values computed pursuant to (a) of this section for all handlers who made the reports prescribed by § 972.3, except those in default of the payments prescribed in § 972.8 (d) for the preceding delivery period;

(2) Add an amount equal to one-half of the cash balance in the producer-settlement fund, less the amount due handlers pursuant to § 972.8 (e);

(3) Subtract, if the weighted average butterfat test of producer milk represented by the values included under (1) of this paragraph is greater than 3.5 percent, or add, if such butterfat test is less than 3.5 percent, an amount computed by: multiplying the amount by which its weighted average butterfat test varies from 3.5 percent by the butterfat differential computed pursuant to § 972.8 (f), and multiplying the resulting figure by the total hundredweight of such milk;

(4) Subtract an amount computed by multiplying by 20 cents the total hundredweight of Class I milk and Class II milk in producer milk at all Huntington district plants;

(5) Divide the resulting amount by the total hundredweight of producer milk; and

(6) Subtract not less than 4 cents nor more than 5 cents (adjusting to the nearest one-tenth cent) from the amount per hundredweight computed under (5) of this paragraph.

(c) *Computation of uniform price for Huntington district plants.* For each delivery period, the market administrator shall compute the "uniform price" per hundredweight to be paid to producers and to associations of producers for producer milk of 3.5 percent butterfat content received at Huntington district plants, as follows:

(1) Add to the amount per hundredweight resulting under (b) (5) of this section, an amount per hundredweight computed by dividing the amount subtracted under (b) (4) of this section by the producer milk received at all Huntington district plants and represented in the values included under (b) (1) of this section; and

(2) Subtract not less than 4 cents nor more than 5 cents (adjusting to the nearest one-tenth cent) from the amount per hundredweight computed under (1) of this paragraph.

(d) *Notification of handlers.* On or before the 10th day after the end of each delivery period, the market administrator shall notify each handler of (1) the amount and value of his milk in each class and the totals thereof; (2) the applicable uniform price; (4) the amount due such handler from the producer-settlement fund or the amount to be paid by such handler to the producer-settlement fund, as the case may be; and (4) the amount to be paid by each handler pursuant to § 972.8.

§ 972.8 *Payment for milk*—(a) *Time and method of final payment.* Each handler shall make payment, subject to the provisions of (b), (f) and (g) of this section and of § 972.10, for all producer milk received during each delivery period, as follows:

(1) Except as set forth in (2) of this paragraph, to each producer, on or before the 15th day after such delivery period, at not less than the applicable uniform price for milk of 3.5 percent butterfat: *Provided*, That if by such date such handler has not received full payment for such delivery period pursuant to (e) of this section, he may reduce such payments uniformly per hundredweight for all producers by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(2) To an association of producers for milk of producers from whom such association has received written authorization to collect payment, on or before the 14th day after such delivery period, of a total amount equal to not less than the sum of the individual amounts otherwise payable to such producers under (1) of this paragraph.

(b) *Partial payments.* (1) On or before the last day of each delivery period, each handler shall make payment, except as set forth in (2) of this paragraph, to each producer at not less than the applicable uniform price of the preceding delivery period for the milk of such producer which was received by such handler during the first 15 days of the current delivery period:

(2) On or before the day immediately preceding the last day of each delivery period, each handler shall make payment to an association of producers for milk of producers from whom such association has received written authorization to collect payment at not less than the applicable uniform price of the preceding delivery period for all such milk which was received by such handler during the first 15 days of the current delivery period.

(c) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to (d) of this section and out of which he shall make all payments to handlers pursuant to (e) of this section: *Provided*, That the market administrator shall offset any such payment due any handler against payments due from such handler.

(d) *Payments to the producer-settlement fund.* On or before the 13th day after each delivery period, each handler shall pay to the market administrator the amount by which the total value computed for him pursuant to § 972.7 (a) for such delivery period is greater than the sum required to be paid by such handler pursuant to (a) of this section.

(e) *Payments out of the producer-settlement fund.* On or before the 14th day after each delivery period the market administrator shall pay to each handler the amount by which the sum required to be paid pursuant to (a) of this section is greater than the total value computed for him pursuant to § 972.7 (a) for such delivery period: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available, and a handler who, on the 14th day after the delivery period, has not received full payment for such delivery period from the market administrator pursuant to this paragraph shall not be deemed to be in violation of (a) of this section if he reduces his payments thereunder by not more than the amount of the reduction in payment from the producer-settlement fund.

(f) *Butterfat differentials.* If, during the delivery period, any handler has received from any producer or from an association of producers milk having a weighted average butterfat test other than 3.5 percent, such handler, in making the payments prescribed in (a) of this section, shall add to, or subtract from, the applicable uniform price per hundredweight, for each one-tenth of 1 percent of such butterfat test in milk above or below, as the case may be, 3.5 percent, an amount computed by the market administrator as follows: multiply by 1.2 the average wholesale price per pound of 92-score butter at Chicago, as reported by the Department of Agriculture for the delivery period, divide the result by 10, and round to the nearest tenth of a cent.

(g) *Transportation deductions.* In making payments pursuant to (a) of this section a handler may deduct an allowance for transporting milk from a producer's farm to the handler's fluid milk plant where such milk is received at a rate authorized by such producer, plus, with respect to all producer milk received at a fluid milk plant described in § 972.1 (h) (2) from which milk is moved 30 miles or more by shortest highway distance as determined by the market administrator to a Huntington District plant described in § 972.1 (h) (1), an amount determined by multiplying the hundredweight of all milk so moved by 20 cents and dividing such result by the total hundredweight of producer milk received at such plant, but such amount to be deducted shall not exceed 20 cents per hundredweight.

§ 972.9 *Expense of administration.* As his prorata share of the expense incurred pursuant to § 972.2 (c) (4) each handler shall pay the market administrator, on or before the 13th day after the end of each delivery period, 4 cents, per hundredweight, or such lesser amount as the Secretary may prescribe, to be announced by the market administrator on or before the 10th day after the end of such delivery period with respect to all receipts within the delivery period, of producer milk (including such handler's own production) and other source milk at his fluid milk plant classified as Class I milk pursuant to § 972.4 (b) (1) (i) and Class II milk: *Provided*, That an association of producers shall pay such prorata share of expense of administration on producer milk with respect to which it is a handler.

§ 972.10 *Marketing services deductions*—(a) *Payments to market administrator.* Except as set forth in (b) of this section, each handler shall deduct an amount not exceeding 6 cents per hundredweight (the exact amount to be determined by the market administrator, subject to review by the Secretary) from the payments due pursuant to § 972.8 (a), with respect to all producer milk received by such handler (except milk of such handler's own production) during each delivery period and shall pay such deductions to the market administrator on or before the 13th day after such delivery period. Such monies shall be used by the market administrator to make, or check, weights, samples, and tests of producer milk received by handlers and to provide producers with market information, such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Payments to cooperative associations.* In the case of producers for whom a cooperative association which, as determined by the Secretary, (1) is engaged in the collective sale or marketing of their milk, (2) has its entire activities under the control of its members, (3) meets the standards set forth in the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and (4) is actually performing the services set forth in (a) of this section, each handler shall make, in lieu of the deductions specified in (a) of this section, such deductions from the payments to be made to such producers as have been authorized by such producers, and, on or before the 14th day after each delivery period, pay over such deductions to the cooperative association rendering such services.

§ 972.11 *Adjustment of accounts*—(a) *Errors in payments.* Whenever audit by the market administrator of a handler's reports, books, records, or accounts discloses adjustments to be made, for any reason which result in monies due (1) the market administrator from such handler, (2) such handler from the market administrator, or (3) any producer or association of producers from such handler, the market administrator shall promptly notify such handler of any such amount due; and explain the basis for such adjustment; and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

(b) *Overdue accounts.* Any unpaid obligation of a handler or of the market administrator pursuant to §§ 972.8, 972.9, 972.10, or (a) of this section shall be increased one-half of one percent on the first day of the calendar month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 972.12 *Effective time, suspension, or termination*—(a) *Effective time.* The provisions hereto, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to (b) of this section.

(b) *Suspension or termination.* The Secretary may suspend or terminate this order or any provision hereof, whenever he finds that this order or any provision hereof, obstructs, or does not tend to effectuate the declared policy of the act. This order shall terminate, in any event whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* (1) If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder the final accrual or ascertainment of which requires further acts by any handler, the market administrator, or by any other person the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(2) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until discharged by the Secretary, (ii) from time to time account for all receipts and disbursements, and, when so directed by the Secretary, deliver all funds or property on hand, together with the books and records of the market administrator, to such person as the Secretary may direct, and (iii) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant hereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 972.13 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 972.14 *Separability of provisions.* If any provision of this order, or the application thereof to any person or circumstances, is held invalid, the remainder of the order, and the application of such provision to other persons or circumstances, shall not be affected thereby.

This report filed at Washington, D. C., this 24th day of September 1946.

[SEAL] E. A. MEYER,
Acting Administrator.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 7702]

SOUTHEASTERN BROADCASTING CO.

NOTICE OF HEARING

In re application of Hugh I. Webb, J. Kelley Robinson and J. S. Robinson d/b as Southeastern Broadcasting Company, Clanton, Alabama, for construction permit, File No. B3-P-4747.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 25th day of July 1946;

The Commission having under consideration the above-entitled application for a construction permit for a new standard broadcast station to operate unlimited time with 250 watts power on the frequency 1450 kilocycles, at Clanton, Alabama;

It is ordered, That the said application be, and it is hereby, designated for hearing upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with station WSFA, Montgomery, Alabama, operating as presently authorized or as proposed in a pending application for modification of construction permit (File No. B3-AAP-1995, Docket No. 7751), or with any other existing or proposed broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

It is further ordered, That Montgomery Broadcasting Company, Inc., Montgomery, Alabama, licensee of station WSFA, be, and it is hereby, made a party to this proceeding.

By the Commission.

[SEAL] T. J. SLOWIE,
Secretary.

[Docket Nos. 7727-7744]

EARLE C. ANTHONY, INC., ET AL.

NOTICE OF HEARING

In re applications of Earle C. Anthony, Inc., Los Angeles, California, Docket No. 7727, file No. B5-PH-132; Standard Broadcasting Company, Los Angeles, California, Docket No. 7728, file No. B5-PH-146; Columbia Broadcasting System, Inc., Hollywood, California, Docket No. 7729, file No. B5-PH-150; American Broadcasting Co., Inc., Los Angeles, California, Docket No. 7730, file No. B5-PH-242; Consolidated Broadcasting Corp. Ltd., Los Angeles, California, Docket No. 7731, file No. B5-PH-258; The Times-Mirror Company, Los Angeles, California, Docket No. 7732, file No. B5-PH-317; International Union, United Automobile Aircraft & Agricultural Implement Workers of America, UAW-CIO, Los Angeles, California, Docket No. 7733, file No. B5-PH-445; Marshall S. Neal et al. d/b as Southern California Broadcasting Co., Pasadena, California, Docket No. 7734, file No. B5-PH-534; Hughes Tool Company, Los Angeles, California, Docket No. 7735, file No. B5-PH-553; Los Angeles Broadcasting Company, Inc., Los Angeles, California, Docket No. 7736, file No. B5-PH-623; The Voice of the Orange Empire, Inc., Santa Ana, California, Docket No. 7737, file No. B5-PH-663; Radio Broadcasters, Inc., Los Angeles, California, Docket No. 7738, file No. B5-PH-721; Echo Park Evangelistic Ass'n., Los Angeles, California, Docket No. 7739, file No. B5-PH-724; The Hollywood Community Radio Group, Hollywood, California, Docket No. 7740, file No. B5-PH-765; Unity Broadcasting Corporation of California, Los Angeles, California, docket No. 7741, file No. B5-PH-882; KMPC, The Station of the Stars, Inc., Los Angeles, California, docket No. 7742, file No. B5-PH-893; Cannon and Callister, Inc., Los Angeles, California, docket No. 7743, file No. B5-PH-897; The Pacific Coast Broadcasting Co., Pasadena, California, docket No. 7744, file No. B5-PH-905; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 1st day of August 1946;

The Commission having under consideration the above-entitled applications for construction permits for new Class B FM broadcast stations in the Los Angeles, California, metropolitan area; and

Whereas, it appears that a possible maximum of fourteen Class B channels remain available for assignment in the vicinity of Los Angeles;

It is ordered, That the above-entitled applications be designated for consolidated hearing upon the following issues;

1. To determine the legal, technical, financial and other qualifications of the applicant to operate and construct the proposed station.

2. To obtain full information with respect to the nature and character of the proposed program service.

3. To determine the areas and populations which may be expected to receive service from the proposed station.

4. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

SANTA CLARA BROADCASTING CO. AND FM RADIO AND TELEVISION CORP.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Santa Clara Broadcasting Company, San Jose, Cali-

fornia, File No. B5–PH–737; FM Radio & Television Corporation, San Jose, California, File No. B5–PH–929.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 1st day of August 1946;

The Commission having under considerations the above-entitled applications for construction permits for new Class B FM broadcast stations in the San Jose, California area; and

Whereas, it appears that a possible maximum of one Class B channel remains available for assignment in the vicinity of San Jose;

It is ordered, That the above-entitled applications be designated for consolidated hearing upon the following issues;

1. To determine the legal, technical, financial and other qualifications of the applicant to operate and construct the proposed station.

2. To obtain full information with respect to the nature and character of the proposed program service.

3. To determine the areas and populations which may be expected to receive service from the proposed station.

4. To determine on a comparative basis which, if either of the applications in this consolidated proceedings should be granted.

[Docket No. 7773]

GRANT STREET RADIO STATIONS, INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Grant Street Radio Stations, Inc., Pittsburgh, Pennsylvania, for construction permit, file No. B2–P–4998.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 22d day of August 1946;

The Commission having under consideration the above-entitled application for a new standard broadcast station to operate on the frequency 730 kc., with 1 kw. power, daytime only, at Pittsburgh, Pennsylvania and also having under consideration the Petition requesting that this application be considered along with that of Liberty Broadcasting Company (File No. B2–P–3797, Docket No. 7169) requesting the same assignment, and that a decision be rendered after a comparative review of both applications.

It appearing that the Commission on August 7, 1946, inadvertently consolidated the applications of Grant Street Radio Stations, Inc., and Liberty Broadcasting Company for hearing, and

It further appearing that the application of Liberty Broadcasting Company was originally filed on December 5, 1944, and was heard on April 29–30, 1946, more than two (2) months before the application of Grant Street Radio Stations, Inc., was filed, and

It further appearing that no reasons exist for withholding consideration of the application of the Liberty Broadcasting Company, and

It further appearing that the application of Grant Street Radio Stations, Inc., is mutually exclusive with the application of Liberty Broadcasting Company;

It is ordered, That the petition of Grant Street Radio Stations, Inc., be, and it is hereby denied, and

It is further ordered, That the action of the Commission of August 7, 1946, designating the applications of Grant Street Radio Stations, Inc., and Liberty Broadcasting Company, for consolidated hearing, be, and it is hereby rescinded, and

It is further ordered, That the application of Grant Street Radio Stations Inc., be, and it is hereby designated for hearing upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing or proposed broadcast stations and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

By the Commission.

[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 7776]

BRYAN BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of David C. Jones, Jr., d/b as Bryan Broadcasting Company, Bryan, Texas, for construction permit, file No. B3–P–4767.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 15th day of August 1946;

The Commission having under consideration the above-entitled application for a construction permit for a new standard broadcast station to operate on the frequency 1240 kilocycles, with 250 watts power, unlimited time, at Bryan, Texas;

It is ordered, That the said application be, and it is hereby, designated for hearing upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with Stations KTHT, Houston, Texas, and KWTX, Waco, Texas, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

It is further ordered, That Roy M. Hofheinz and W. N. Hooper, d/b as Texas Star Broadcasting Company, Houston, Texas, licensee of Station KTHT, and Beauford H. Jester, Waco, Texas, licensee of Station KWTX, be, and they are hereby, made parties to this proceeding.

By the Commission.

[Docket Nos. 7794, 7795]

EVENING JOURNAL PUBLISHING CO. AND ANTIETAM BROADCASTING CORP.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Evening Journal Publishing Company, Martinsburg, West Virginia, docket No. 7794, file No. B2–P–4197; Antietam Broadcasting Corporation, Hagerstown, Maryland, docket No. 7795, file No. B1–P–5156; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 22d day of August 1946;

The Commission having under consideration the above-entitled applications for construction permits for new standard broadcast stations to operate on the frequency 1490 kilocycles with 250 watts power, unlimited time at Martinsburg, West Virginia and Hagerstown, Maryland respectively;

It is ordered, That the said applications be, and they are hereby, designated for hearing in a consolidated proceeding upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporations, their officers, directors and stockholders, to effectuate and carry out the purposes of their respective applications.

2. To determine the areas and populations which may be expected to gain primary service from the proposed operations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of the program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed stations or either of them, would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of either of the proposed stations would involve objectionable interference with the services of the other or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine the character and extent of concentration of control over broadcasting and the dissemination of news by the Evening Journal Publishing Company and its affiliated interests which might result if its application were granted and the effect of such grant upon competition between the several media of mass communications in the areas involved.

7. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Surety Broadcasting Company, Charlotte, North Carolina, Docket No. 7798, File No. B3–PH–978; Capitol Broadcasting Company, Inc., Charlotte, North Carolina, Docket No. 7799, File No. B3–PH–1013; Radio Station WSOC, Inc., Charlotte, North Carolina, Docket No. 7800, File No. B3–PH–1021; Intercity Advertising Company, Charlotte, North Carolina, Docket No. 7801, File No. B3–PH–1045; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 29th day of August 1946;

The Commission having under consideration the above-entitled applications for construction permit for new Class B FM broadcast stations in the Charlotte, North Carolina area;

Whereas, it appears that a possible maximum of three Class B channels might be available in this area;

It is ordered, That the above-entitled applications be designated for consolidated hearing upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicant to operate and construct the proposed station.

2. To obtain full information with respect to the nature and character of the proposed program service.

3. To determine the areas and populations which may be expected to receive service from the proposed station.

4. To determine on a comparative basis which if any of the applications in this consolidated proceeding should be granted.

ONEONTA STAR, INC., AND EDWARD L. SCHACHT

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Oneonta Star, Inc., Oneonta, New York, file No. B1–P–5114; Edward L. Schacht, Oneonta, New York, file No. B1–P–4898; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 5th day of September 1946;

The Commission having under consideration the above-entitled application of Oneonta Star, Inc., requesting a construction permit for a new standard broadcast station to operate on 1400 kc, with 250 w power, unlimited time, at Oneonta, New York;

It is ordered, That the above-entitled application of Oneonta Star, Inc., be, and it is hereby, designated for hearing in a consolidated proceeding with the above-entitled application of Edward L. Schacht, requesting a construction permit for a new standard broadcast station to operate on 1400 kc, with 250 w power, unlimited time, at Oneonta, New York, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with Station WABY, Albany, New York, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending above-entitled application of Edward L. Schacht or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the order of the Commission dated August 22, 1946, designating for hearing the above-entitled application of Edward L. Schacht, and making The Adirondack Broadcasting Company, Inc. (WABY) a party to the proceeding, be, and it is hereby, amended to include the above-entitled application of Oneonta Star, Inc.

By the Commission.

[Docket No. 7811]

GROSSE POINTE BROADCASTING CORP.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Grosse Pointe Broadcasting Corporation, Grosse Pointe, Michigan, for construction permit, file No. B2–P–5015.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 29th day of August 1946;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 660 kc., with 250 w. power, daytime only, at Grosse Pointe, Michigan; and

It appearing that the Commission on March 20, 1946, designated for hearing the application of Herman Radner (file No. B2–P–3180, Docket No. 6220) requesting a construction permit for a new standard broadcast station to operate on 680 kc., with 250 w. power, daytime only, at Dearborn, Michigan, and that on July 18, 1946, the Commission designated for hearing in a consolidated proceeding with the said application of Herman Radner the application of Wolverine State Broadcasting Service, Inc. (file No. B2–P–4971, Docket No. 7676) requesting a construction permit for a new standard broadcast station to operate on 680 kc., with 250 w. power, daytime only, at Detroit, Michigan;

It is ordered, That the said application of Grosse Pointe Broadcasting Corporation be, and it is hereby, designated for hearing in the above consolidated proceeding upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of Herman Radner (File No. B–2–P–3180, Docket No. 6220) and Wolverine State Broadcasting Service, Inc. (File No. B2–P–4971, Docket No. 7676) or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the order of the Commission dated March 20, 1946, designating the said application of Herman Radner for hearing, and the order of the Commission dated July 18, 1946, designating the said application of Wolverine State Broadcasting Service, Inc. for hearing in a consolidated proceeding with the said application of Herman Radner, be, and are hereby, amended to include the above-entitled application of Grosse Pointe Broadcasting Corporation.

By the Commission.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Coast Radio Broadcasting Corporation Los Angeles, California, for construction permit, File No. B5–P–5095.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 29th day of August 1946;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 1540 kc, with 5 kw power, daytime only, at Los Angeles, California;

It appearing that the Commission on July 25, 1946, designated for hearing in a consolidated proceeding the applications of Hollywood Community Radio Group (File No. B5–P–5020; Docket No. 7695) requesting a construction permit for a new standard broadcast station to operate on 1530 kc, with 1 kw power, daytime only, at Gardena, California, and Leon Wyszatycki, d/b as Huntington Broadcasting Company (File No. B5–P–4822; Docket No. 7694) requesting a construction permit for a new standard broadcast station to operate on 1540 kc, with 5 kw power, daytime only, at Huntington Park, California;

It is ordered, That the said application of Coast Radio Broadcasting Corporation be, and it is hereby, designated for hearing in the above consolidated proceeding upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of Hollywood Community Radio Group (File No. B5–P–5020; Docket No. 7695) and Leon Wyszatycki d/b as Huntington Broadcasting Company (File No. B5–P–4822; Docket No. 7694) or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if any of the applications in this consolidated proceeding should be granted.

It is further ordered, That the order of the Commission dated July 25, 1946, designating the said applications of Hollywood Community Radio Group and Leon Wyszatycki, d/b as Huntington Broadcasting Company, for hearing in a consolidated proceeding be, and are hereby, amended to include the above-entitled application of Coast Radio Broadcasting Corporation.

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

[Docket No. 7818]

FRANKLIN BROADCASTING CORP.

NOTICE OF HEARING

In re application of Franklin Broadcasting Corporation, Philadelphia, Pennsylvania, for construction permit, file No. B2–PH–1056.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of August 1946;

The Commission having under consideration the above-entitled application for construction permit for a new FM Class B broadcast station in Philadelphia, Pennsylvania;

It is ordered, That this application be designated for hearing to be consolidated with the hearings on the applications of WDAS Broadcasting Station, Inc., *et al.* (Docket Nos. 7640–7646 inclusive) for construction permits for new FM Class B stations in the Philadelphia, Pennsylvania, area, upon the following issues:

1. To determine the legal, technical financial, and other qualifications of the applicant to operate and construct the proposed station.

2. To obtain full information with respect to the nature and character of the proposed program service.

3. To determine the areas and populations which may be expected to receive service from the proposed station.

4. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the order heretofore issued in the consolidated proceedings for Docket Nos. 7640–7646 inclusive be, and it is hereby amended to include the application of the Franklin Broadcasting Corp., Philadelphia, Pennsylvania (File No. B2–PH–1056).

By the Commission.

[SEAL] T. J. SLOWIE, *Secretary.*

FEDERAL POWER COMMISSION.

[Docket Nos. G–589, G–646, G–742, G–674]

CANADIAN RIVER GAS CO. AND COLORADO INTERSTATE GAS CO.

ORDER CONSOLIDATING PROCEEDING AND FIXING DATE OF HEARING

SEPTEMBER 20, 1946.

Upon consideration of the following applications filed by Canadian River Gas Company (Canadian River) and Colorado Interstate Gas Company (Colorado Interstate) for certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended:

(a) Application filed by Canadian River on October 21, 1944, Docket No. G–589, for authority to construct and operate one 60-inch x 37-foot absorber and connections at its Bivins Compressor Plant in Moore County, Texas.

(b) Application filed by Canadian River (Applicant) on June 23, 1945, and supplemental application filed October 4, 1945, Docket No. G–646, for authority to construct and operate the following facilities:

(i) Two 600 horsepower gas engine driven compressor units, extension to an existing cooling tower, gas and water piping together with other miscellaneous equipment; a 42' x 82' building extension to an existing compressor building and a 15' x 30' building extension to an existing auxiliary building.

(ii) One 210 horsepower gas engine driven electric generator unit complete with electric switch board panel and appurtenant equipment. The above facilities are to be installed at Applicant's Bivins Compressor Station.

(iii) One additional 600 horsepower gas engine driven compressor at Bivins Compressor Station.

(iv) Two 600 horsepower gas engine driven compressor units, piping, cooling equipment together with other miscellaneous equipment and a 50 foot extension to an existing compressor station building at Dalhart Compressor Station.

(c) Application filed by Canadian River (Applicant) on June 26, 1946, Docket No. G–742 for authority to construct and operate the following facilities:

(i) One additional 600 H. P. gas engine driven natural gas compressor, including foundation, water circulating system, etc.

(ii) A solid adsorption type natural-gas dehydration plant (to replace the present liquid adsorption plant).

(iii) Revamp gasoline plant by installing: Three absorber columns 6' 0" diameter x 41' 0" long capable of handling 450 to 500 pounds pressure; new gasoline still, together with necessary gasoline condensing and oil circulating system, including pumps, valves and fittings; necessary additions to present boiler house and pump house including one boiler and setting, one cooling tower unit, and other necessary pressure vessels, pipe valves, fittings and electrical wiring, etc., in connection with rearranging present equipment.

(iv) Install approximately 2,000 feet of 24" discharge piping to replace present 22" and 16" discharge piping.

The above facilities are to be installed at Applicant's Bivins Compressor Station.

(d) Application filed by Colorado Interstate (Applicant) on October 19, 1945, Docket No. G–674, for authority to construct and operate the following facilities:

(i) One new 800 H. P. natural gas engine and compressor, with necessary appurtenant equipment, at Applicant's Clayton Compressor Station in Union County, New Mexico.

(ii) Two new 800 H. P. natural gas engines and compressors, with necessary appurtenant equipment, at Applicant's Cimarron Compressor Station in Union County, New Mexico.

(iii) Two new 800 H. P. natural gas engines and compressors, with necessary appurtenant equipment, at Applicant's Canyon Compressor Station in Las Animas County, Colorado.

(iv) One new 800 H. P. natural gas engine and compressor, with necessary appurtenant equipment, at Applicant's Devine Compressor Station in Pueblo County, Colorado.

(v) A complete new compressor station, to be known as Applicant's Colorado Springs Compressor Station, to be constructed in El Paso County, Colorado, at a location approximately 10 miles northeast of the City of Colorado Springs, Colorado. This compressor station will initially consist of four new 800 H. P. angle type natural gas engines and compressors, with the necessary appurtenant equipment, together with power generators, after-cooling equipment, circulating pumps, suction and discharge lines, the compressor station and auxiliary building, and houses for the operators of such station, and all other facilities constituting a complete compressor station.

It appears to the Commission that: Good cause exists for consolidating the above matters for purposes of hearing.

The Commission orders that:

(A) The proceedings in the Matters of Canadian River Gas Company, Docket Nos. G–589, G–646 and G–742, and In the Matter of Colorado Interstate Gas Company, Docket No. G–674, be and they are hereby consolidated for the purposes of hearing.

(B) A public hearing be held commencing on October 3, 1946, at 10:00 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., respecting the matters involved and the issues presented in these proceedings; provided, however, that if no protest or petition to intervene has been filed or allowed prior to the date hereinbefore fixed for hearing, or if a protest or petition to intervene, in the judgment of the Commission, raises no issue of substance, the Commission may dispose of the application without contested hearing, by order upon the application and evidence filed or available to the Commission and such additional evidence as the Commission may require to be filed for its consideration.

(C) Interested State commissions may participate in this hearing in accordance with the Commission's rules of practice and procedure.

Issued this 24th day of September 1946.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 46–17441; Filed, Sept. 26, 1946; 8:49 a. m.]

[Docket Nos. G–699, G–729, G–747, G–763, G–765]

MID-CONTINENTAL GAS TRANSMISSION CO. ET AL.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

SEPTEMBER 17, 1946.

In the matters of Mid-Continent Gas Transmission Company, Docket No. G–699; Cities Service Gas Company, Docket No. G–729; Northern Natural Gas Company, Docket Nos. G–747, G–763, G–765.

Upon consideration of the following applications filed with this Commission for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended:

(a) Application filed on January 31, 1946, and amended on June 26, 1946, Docket No. G–699, by Mid-Continent Gas Transmission Company (Mid-Continent) for authority to construct and operate the following described facilities:

(i) Two parallel 26-inch O. D. main gas transmission pipelines, to be laid on a common right-of-way, approximately 400 miles in length extending northeasterly from an initial main line compressor station in the Hugoton field near Liberal, Stevens County, Kansas, to a common delivery point near Kansas City, Missouri.

(ii) One 26-inch O. D. main gas transmission pipe line approximately 436 miles in length extending northward from the terminus of said two parallel 26-inch main transmission pipelines to a point near St. Paul, Minnesota.

(iii) Three compressor stations to be installed initially as follows:

(1) One compressor station, to be located at Liberal, Stevens County, Kansas, will have 34,500 H. P. initial installed capacity to be increased to 45,000 H. P. by the fifth year of operation.

(2) One compressor station, to be located near Hutchinson, Kansas, will have 4,500 H. P. initial installed capacity to be increased to 10,500 H. P. by the fifth year of operation.

(3) One compressor station, to be located near Kansas City, Missouri, will have 7,500 H. P. initial installed capacity to be increased to 10,500 H. P. by the fifth year of operation.

(iv) Three additional compressor stations to be constructed at Chariton,

Iowa; Council Grove, Kansas; and Ford, Kansas, in the second, third and fourth years, respectively.

(b) Application filed on May 10, 1946, Docket No. G–729, by Cities Service Gas Company (Cities Service) for authority to construct and operate the following described facilities:

(i) Approximately 405 miles of 26-inch natural gas pipeline extending from a proposed compressor station in the Kansas portion of the Hugoton gas field to a point near the city limits of Kansas City, Missouri.

(ii) A compressor station of 12,000 H. P. and a dehydration plant to be located at the terminus of a field trunk pipeline system at the point indicated in paragraph (b) (i) above.

(iii) A telephone pole line from the compressor station referred to in paragraph (b) (ii) above to Cities Service Straight Compressor Station, located in the Hugoton gas field in Texas County, Oklahoma.

(iv) Approximately 33.5 miles of 16-inch transmission loop pipeline from Cities Service Cotton Valley measuring station, Washington County, Oklahoma, to a point on Cities Service existing Quapaw 16-inch natural gas transmission pipe line, Craig County, Oklahoma.

(v) A compressor station of 1,610 H. P. at Hund Junction, Leavenworth County, Kansas.

(vi) An additional 230 H. P. compressor unit at Cities Service existing compressor station located in the Lyons gas field, Rice County, Kansas.

(c) Application filed on July 8, 1946, Docket No. G–747, by Northern Natural Gas Company for authority to construct and operate the following described facilities:

(i) A measuring and regulating station to be known as the St. Paul Town Border Station (Mendota Station), consisting of two 10-inch orifice meter runs, two 6-inch regulator runs, together with appurtenances thereto, and one 21' x 29' x 8' concrete, steel, brick and transite building to be located in the NE ¼ of Section 23, Township 28 North, Range 23 West, Dakota County, Minnesota.

(ii) Approximately 1200 feet of 20-inch O. D. gas pipeline, together with appurtenances thereto, from the outlet of the St. Paul Town Border Station (Mendota Station), and extending in a northerly direction to the bank of the Mississippi River at a point of connection with the header of the Northern States Power Company's proposed underwater crossing of the Mississippi River in the SE ¼ of Section 14, Township 28 North, Range 23 West, Dakota County, Minnesota.

(iii) A measuring and regulating station to be known as the St. Paul Town Border Station (West St. Paul Station), consisting of one 10-inch orifice meter run, one 4-inch orifice meter run, two 2-inch regulator runs, together with appurtenances thereto, and one 16' x 20' x 8' concrete, steel and transite building, in the North ½ of the SE ¼ of Section 29, Township 28 North, Range 22 West, Dakota County, Minnesota.

(iv) Approximately 4,200 feet of 6⅝-inch O. D. gas pipeline, together with appurtenances thereto, from a point of interconnection, in the E ½ of the NE ¼ of Section 32, Township 28 North, Range 22 West, Dakota County, Minnesota, with Applicant's 12¾-inch line, and extending northeasterly to the proposed St. Paul Town Border Station (West St. Paul Station).

(d) Application filed on August 2, 1946, Docket No. G–763, by Northern Natural Gas Company (Northern) for authority to construct and operate the following described facilities:

(i) A new compressor station consisting of three 600 H. P. vertical gas-engine compressor units, complete with auxiliaries, cooling tower, cooling coils, buildings, and other appurtenances, to be located in Section 169, Block 3 T of T & N. O. R. R. Survey in Moore County, Texas, and to be known as the Sunray, Texas, Compressor Station.

(ii) One additional 1,300 H. P. horizontal gas engine compressor unit, together with other appurtenances and equipment at Northern's Beaver, Oklahoma, Compressor Station.

(iii) Three additional 1,000 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's Sublette, Kansas, Compressor Station.

(iv) Three additional 1,300 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's Mullinville, Kansas, Compressor Station.

(v) Three additional 1,300 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's Bushton, Kansas, Compressor Station.

(vi) Five additional 1,000 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's Clifton, Kansas, Compressor Station.

(vii) Five additional 1,300 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's Beatrice, Nebraska, Compressor Station.

(viii) Two additional 1,300 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's Palmyra, Nebraska, Compressor Station.

(ix) Two additional 800 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's Hooper, Nebraska, Compressor Station.

(x) Two additional 800 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's South Sioux City, Nebraska, Compressor Station.

(xi) Two additional 800 H. P. vertical gas engine compressor units, together with other appurtenances and equipment at Northern's Paullina, Iowa, Compressor Station (formerly known as Cherokee, Iowa, Compressor Station).

(xii) Two additional 800 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's Ogden, Iowa, Compressor Station.

(xiii) Two additional 800 H. P. horizontal gas engine compressor units, together with other appurtenances and equipment at Northern's Ventura, Iowa, Compressor Station.

(xiv) A new compressor station consisting of four 800 H. P. vertical gas engine compressor units, complete with auxiliaries, cooling tower, cooling coils, buildings, and other appurtenances, to be located on Northern's 16-inch main gas transmission line near Dunnell, Minnesota, in Section 22, Township 101 North, Range 33 West, Martin County, Minnesota, and to be known as Dunnell, Minnesota, Compressor Station.

(xv) Approximately 25 miles of 24-inch loop line and appurtenances thereto, from Palmyra, Nebraska, Compressor Station, extending in a northeasterly direction to a point in the Northwest Quarter of Section 12, Township 11 North, Range 12 East, Cass County, Nebraska.

(xvi) Approximately 9.4 miles of 24-inch loop line and appurtenances thereto, from the Oakland, Iowa, Compressor Station Yard, extending in a northeasterly direction to Northern's 24-inch Valve Setting No. 4 in the Northwest Quarter of Section 18, Township 76 North, Range 37 West, Cass County, Iowa.

(xvii) Approximately 10.92 miles of 24-inch loop line and appurtenances thereto starting at Northern's Valve Setting No. 5 in the Northeast Quarter of Section 28, Township 89 North, Range 27 West, Webster County, Iowa, and running in a northerly direction to Northern's Valve Setting No. 6 in the Northwest Quarter of Section 10, Township 90 North, Range 26 West, Wright County, Iowa.

(xviii) Approximately 26 miles of 24-inch loop line and appurtenances thereto, starting at Northern's Valve Setting No. 2 in the Northeast Quarter of Section 13, Township 103 North, Range 22 West, Freeborn County, Minnesota, and running in a northerly direction to a point in the Southeast Quarter of Section 4, Township 107 North, Range 21 West, Steele County, Minnesota.

(xix) Approximately 11.75 miles of 24-inch pipe line and appurtenances thereto, from Valve Setting No. 11 on Northern's 18-inch East Main Line at a point in the Northeast Quarter of Section 36, Township 114 North, Range 20 West, Dakota County, Minnesota, and running in a Northwesterly direction to Valve Setting No. 36 on Northern's 16-inch West Main Line in the Southwest Quarter of Section 35, Township 27 North, Range 24 West, all in Dakota County, Minnesota.

(xx) Approximately 27.1 miles of 20-inch loop line and appurtenances thereto, from Valve Setting No. 20A at Northern's Palmyra, Nebraska, Compressor Station and extending Northwesterly to Valve Setting No. 7 in the Northwest Quarter of Section 27, Township 13 North, Range 8 East, Saunders County, Nebraska.

(xxi) Approximately 6 miles of 18-inch loop line and appurtenances thereto, from the 20" x 18" Swedge at Northern's Valve Setting No. 11, in the Southwest Quarter of Section 27, Township 16 North, Range 8 East, Saunders County, Nebraska and extending northerly to Northern's 18-inch Valve Setting No. 12, near the South bank of the Platte River, in the northeast Quarter of Section 33, Township 17 North, Range 8 East, Saunders County, Nebraska.

(xxii) Approximately 33.83 miles of 18-inch loop line and appurtenances thereto, from Northern's Valve Setting No. 9 in the Southwest Quarter of Section 10, Township 27 North, Range 8 East, Burt County, Nebraska, and extending northerly to Northern's Valve Setting No. 14, in the South Sioux City, Nebraska, Station Yard in the Southeast Quarter of Section 33, Township 29 North, Range 9 East, Dakota County, Nebraska.

(xxiii) Approximately 35 miles of 16-inch main pipeline and appurtenances thereto, from the proposed Sunray, Texas, Compressor Station, extending easterly to Valve Setting No. 5, on Northern's 24-inch Texas main line in Section 11, Block M 22 of T. C. R. R. Survey, Hutchinson County, Texas.

(xxiv) Two 108-inch x 40-foot Absorbers, together with other appurtenances and equipment at Northern's Sublette Dehydration Plant.

(xxv) Two 72-inch x 71-foot Absorbers and one 412 H. P. Murray Boiler, together with other appurtenances and equipment at Northern's Sublette Gasoline Plant.

(xxvi) Removal and reconditioning of Northern's existing dehydration plant near Hugoton, Kansas, consisting of two 69-inch x 22-foot contactors and necessary appurtenances thereto, and the moving and reconstruction of said dehydration plant at Northern's proposed Sunray, Texas, Compressor Station site.

(e) Application filed on August 7, 1946, Docket No. G–765, by Northern Natural Gas Company, for authority to construct and operate the following described facilities:

(i) Approximately 34 miles of 10-inch gas pipe line, together with appurtenances thereto from a point of interconnection with Northern's 10-inch pipe line near the town of Ames, Story County, Iowa, thence in an easterly direction to the measuring and regulating station situated at or near the corporate limits of Marshalltown, Iowa.

(ii) A measuring and regulating station to be located at the terminus of the proposed 10-inch pipe line and at the border of the town of Marshalltown, Iowa.

(iii) Approximately 1.10 miles of 2-inch gas pipe line, together with appurtenances thereto, from a point of interconnection with the proposed 10-inch gas pipe line, to a proposed measuring and regulating station situated at or near the corporate limits of Colo, Iowa.

(iv) A measuring and regulating station to be located at the terminus of the proposed 1.10 miles of 2-inch gas pipe line and at the town border of Colo, Iowa.

(v) Approximately 1 mile of 2-inch gas pipe line, together with appurtenances thereto, from a point of interconnection with the proposed 10-inch gas pipe line, to a proposed measuring and regulating station situated at or near the corporate limits of State Center, Iowa.

(vi) A measuring and regulating station to be located at the terminus of the proposed 1-mile of 2-inch gas pipe line at or near the town border of State Center, Iowa.

It appears to the Commission that:

(1) Good cause exists for consolidating the above proceedings for the purpose of hearing.

(2) The hearing should be expedited and the convenience of witnesses and counsel for the respective parties served by a designation of the order in which evidence is to be received.

The Commission orders that:

(A) The above-entitled proceedings be and they are hereby consolidated for the purpose of hearing.

(B) A public hearing be held commencing on October 28, 1946, at 10 a. m., Room 527, U. S. Court House, Kansas City, Missouri, respecting the matters involved and the issues presented in these proceedings.

(C) The hearing will proceed with the presentation of direct evidence; first, upon the matter designated as Docket No. G–699; second, upon the matter designated as Docket No. G–729; and, third, upon the matters designated as Dockets Nos. G–747, G–763, and G–765.

(D) This order is not to be construed as limiting any of the evidence adduced at such consolidated hearing to any one of the above-docketed proceedings.

(E) Interested State Commissions may participate in the hearing as provided in the Commission's rules of practice and procedure.

Issued this 25th day of September 1946.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 46-17439; Filed, Sept. 26, 1946; 8:49 a. m.]

[Project No. 1955]

SAVANNAH RIVER ELECTRIC CO.

ORDER FIXING HEARING

SEPTEMBER 20, 1946.

Upon application filed August 28, 1946, by Savannah River Electric Company, of Charleston, South Carolina, for license under the Federal Power Act to authorize the construction, operation, and maintenance of a proposed hydroelectric development (Project No. 1955) to be located at Clark Hill dam site on Savannah River, South Carolina and Georgia, approximately 22 miles above Augusta, Georgia, and affecting lands in Columbia, Lincoln, Wilkes, McDuffie, Warren, Taliaferro, and Elbert Counties, Georgia, and McCormick and Abbeville Counties, South Carolina; and

It appearing that:

(a) The Congress of the United States has authorized construction by the United States of the Clark Hill development at approximately the same site as that proposed by Savannah River Electric Company in its application and has appropriated substantial amounts to start construction;

(b) Various electric cooperatives, Chambers of Commerce, companies, and individuals have formally and informally expressed opposition to development of the site by Savannah River Electric Company or expressed a desire to have the proposed development constructed by the United States;

The Commission finds that:

The applicant and all other interested persons should be afforded an opportunity to present their views together with appropriate evidence on the question of the Commission's authority under the Federal Power Act to entertain the aforesaid application for license in view of the facts set forth in paragraph (a) above:

It is ordered, That: A public hearing be held in U. S. Post Office and Court House Building, Atlanta, Georgia, beginning at 10 a. m. on October 28, 1946, concerning the matter.

Issued this 25th day of September 1946.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 46-17440; Filed, Sept. 26, 1946; 8:49 a. m.]

OFFICE OF ALIEN PROPERTY CUSTODIAN.

[Vesting Order 7187]

DR. HERBERT LEYENDECKER

In re: One oil painting owned by Dr. Herbert Leyendecker.

Under the authority of the Trading With the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Dr. Herbert Leyendecker, whose last known address is Berlin, Germany, is a national of a designated enemy country (Germany);

2. That the property described as follows: One oil painting known as "Man with a Beret", by Cornelis van Cleve, which is in the possession of Lilienfeld Galleries, 21 East 57th Street, New York, New York,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 2 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien

inch O. D. gas pipeline, together with appurtenances thereto, from a point of with other appurtenances and equip- in the northeast Quarter of Section

Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 23, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[F. R. Doc. 46–17468; Filed, Sept. 26, 1946; 8:45 a. m.]

[Vesting Order 7273]

HENRY KOEHLERT

In re: Stock, together with bank account held for redemption thereof, owned by Henry Koehlert. F–28–320–D–1, F–28–320–E–1, D–66–2198–D–1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Henry Koehlert, whose last known address is Hochdonn, Holstein, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Ten (10) shares of $100.00 par value 6% Preferred capital stock, Issue of 1921, of Wisconsin Electric Power Company, 231 West Michigan Street, Milwaukee 1, Wisconsin, a corporation organized under the laws of Wisconsin, evidenced by Certificate Number J 11986, and registered in the name of Henry Koehlert, together with all declared and unpaid dividends thereon, and

b. That certain debt or other obligation of First Wisconsin Trust Company, 735 North Water Street, Milwaukee 1, Wisconsin, in the amount of $1,100.00, as of December 31, 1945, arising out of a deposit account entitled Wisconsin Electric Power Co. First Wisconsin Trust Co., Redemption Agent, held for the redemption of the aforesaid stock referred to in subparagraph 2 (a) above, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Henry Koehlert, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 30, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 7286]

YASUZO OGATA

In re: Stock and bank account owned by Yasuzo Ogata, also known as G. Y. Ogata. F–39–3212–A–1, F–39–3212–E–1, F–39–3212–D–2.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Yasuzo Ogata, also known as G. Y. Ogata, whose last known address is Yashiro-Mura, Oshima Gun, Yamaguchi-Ken, Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows:

a. Twenty shares of $100 par value preferred capital stock of Key System Transit Company, 1106 Broadway, Oakland, California, a corporation organized under the laws of the State of California, evidenced by certificate number 2034, registered in the name of G. Y. Ogata, together with all declared and unpaid dividends thereon,

b. Eleven shares of no par value capital stock of Standard Oil Company of California, Standard Oil Building, 225 Bush Street, San Francisco, California, a corporation organized under the laws of the State of Delaware, evidenced by certificates numbered SFC 117171, SFC 201298, NYC 11577, for one, four and five shares respectively, registered in the name of G. Y. Ogata, and certificate number SFC 79899 for one share, registered in the name of Mr. G. Y. Ogata, together with all declared and unpaid dividends thereon,

c. Fifty shares of $25 par value common capital stock of Union Oil Company of California, 617 West 7th Street, Los Angeles 14, California, a corporation organized under the laws of the State of California, evidenced by certificate number LAO 5637 for forty-five shares, registered in the name of Yasuzo Ogata, and certificate number LAO 68215 for five shares, registered in the name of Mr. Yasuzo Ogata, together with all declared and unpaid dividends thereon, and

d. That certain debt or other obligation owing to Yasuzo Ogata, also known as G. Y. Ogata, by American Trust Company, 464 California Street, San Francisco 20, California, arising out of a custodian account, Account Number A2690, entitled G. Y. Ogata, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a

hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 30, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 7341]

ELIZABETH HAUSSERER

In re: Bonds and certificate of deposit owned by and debt owing to Elizabeth Hausserer.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Elizabeth Hausserer, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Six (6) Rosenwald and Weil 6½% First Mortgage Gold Bonds, due January 15, 1935, of a total face value of $4,000, bearing the numbers 1203, 1464, 1477, 1499, 1755 and 1756, and presently in the custody of Chicago Title & Trust Company, 69 West Washington Street, Chicago, Illinois, together with any and all rights thereunder and thereto,

b. Certificate of deposit bearing the number 335, dated February 13, 1931, issued to Elizabeth Hausserer, by Chicago Title & Trust Company, 69 West Washington Street, Chicago, Illinois, for the bonds described in subparagraph 2a above, deposited under an agreement, dated December 12, 1929, said certificate of deposit having been held by The Northern Trust Company, 50 South LaSalle Street, Chicago, Illinois, Executor of the Last Will and Testament of Flora Meyer, deceased, and being presently in the custody of the Alien Property Custodian, together with any and all rights thereunder and thereto, and

c. That certain debt or other obligation owing to Elizabeth Hausserer by Chicago Title & Trust Company, 69 West Washington Street, Chicago, Illinois, as evidenced by check number 517419, dated February 28, 1945, drawn by the aforesaid Chicago Title & Trust Company on Continental Illinois National Bank and Trust Company of Chicago, to the order of Elizabeth Hausserer in the amount of $1.35, said check having been held by The Northern Trust Company, 50 South LaSalle Street, Chicago, Illinois, Executor of the Last Will and Testament of Flora Meyer, deceased, and being presently in the custody of the Alien Property Custodian, together with the said check, and any and all accruals to the aforesaid debt, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 31, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

ERNEST G. SMITH ET AL.

In re: Ernest G. Smith, Trustee vs. Mabel Reynolds et al. File 017–18826.

Under the authority of the Trading With the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: Cash in the amount of $9.20

is property in the possession of the Alien Property Custodian;

That such property was held by Charles M. Kschinka, Master, and is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Eleanor H. Schlosshauer, Germany.

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 31, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

JULIE VOSS

In re: Stock owned by Julie Voss. F–28–22248–D–1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Julie Voss, whose last known address is Parkstrasse 29, Warnemunde, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: Six (6) shares of $1.00 par value common capital stock of The Studebaker Corporation, South Bend, Indiana, a corporation organized under the laws of the State of Delaware, evidenced by Certificate Number 081264, and registered in the name of Julie Voss, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on

account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 31, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

ELSIE BECKER

In re: Bank account and securities owned by Elsie Becker. F 28-776, F 28-766-A1, F 28-776-A2, F 28-776-A3.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Elsie Becker, whose last known address is % Carl Alfred Becker, 10 Freiherr von Steinstrasse, Berlin, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. 350 shares of $18 par value common capital stock of Inter-Island Steam Navigation Company, Ltd., Port and Merchant Streets, Honolulu, T. H., a corporation organized under the laws of the Territory of Hawaii, evidenced by certificate number 5792, and registered in the name of Carl Alfred Becker, Guardian of the property of Elsie Becker, a minor, together with all declared and unpaid dividends thereon, and

b. That certain debt or other obligation of Hawaiian Trust Co., Ltd., Honolulu, T. H., arising out of an open account, entitled Carl Alfred Becker, Guardian of the property of Elsie Becker, a minor, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Elsie Becker, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

PACIFIC SODA WORKS, LIMITED

In re: Claims against Pacific Soda Works, Limited, owned by Umakichi Imai and others. D-39-17461.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That the persons listed in Exhibit A, attached hereto, and by reference made a part hereof, whose last known addresses are Japan, are residents of Japan and nationals of a designated enemy country (Japan);

2. That the property described as follows: Those certain debts or other obligations owing to the persons listed in Exhibit A, by Pacific Soda Works, Limited, 890 South King Street, Honolulu, T. H., together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

INTERNATIONAL MORTGAGE HANDELSGESELLSCHAFT

In re: Six packages and contents thereof, believed to consist of synthetic precious stones, owned by International Mortgage Handelsgesellschaft.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That International Mortgage Handelsgesellschaft, the last known address of which is Berlin, Germany, is a corporation, organized under the laws of Germany, and which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows: Six packages and contents thereof, believed to consist of synthetic precious stones, consigned to Edward Paskow, 30 Rockefeller Plaza, New York, New York, by A. Baccala, Wabern-Berne, Switzerland, presently in the custody of United States Post Office Department, United States Post Office, New York, New York, identified by the following marks and numbers:

Marks:	Numbers
1	Br. 1418/9688.
HSCo	1900.
HSCo	2021/B.
HSCo	1213/B/1.
HSCo	1213/B/2.
HSCo	1213/A/1.

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the

aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1, a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 18, 1946.

PUBLIC SERVICE CO. OF INDIANA, INC.
INDIANA GAS & WATER CO., INC.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of September A. D. 1946.

Public Service Company of Indiana, Inc. and its subsidiary, Indiana Gas & Water Company, Inc., public utility subsidiaries of The Middle West Corporation, a registered holding company, having filed a joint application-declaration pursuant to sections 6 (b), 10 and 12 (f) of the Public Utility Holding Company Act of 1935 and Rule U-43 promulgated thereunder with respect to the following transactions:

Indiana Gas & Water Company, Inc. proposes to amend its articles of incorporation so as to provide for an authorized capital stock consisting of 1,000,000 shares of common stock of the par value of $10.00 per share, and to reclassify its presently outstanding 277,500 shares of common stock of no par value into 570,948 shares of common stock of $10.00 par value per share. It also proposes to issue and sell, and Public Service Company of Indiana, Inc. proposes to acquire 29,052 additional shares of common stock of the par value of $10.00 per share for a cash consideration of $290,524.24. The Public Service Commission of Indiana has issued its order approving such transactions. The proceeds from the sale of the common stock (together with the proceeds from the recent issue and sale of $500,000 principal amount of nine-months notes as well as other funds) will be used for additions and improvements to utility plant.

Said application-declaration having been filed on August 9, 1946, and notice of said filing having been duly given in the form and manner prescribed in Rule U-23 promulgated under said act, and the Commission not having received a request for hearing with respect to said application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application under section 6 (b) that the requirements of said section have been satisfied, and with respect to said declaration under section 12 (f) of the act and Rule U-43 promulgated thereunder that the requirements of the said section and rule are satisfied; and

The Commission further finding with respect to said application under section 10 that no adverse findings are necessary under section 10 (b) or 10 (c) (1) and that the transaction involved has the tendency required by section 10 (c) (2) subject, however, to the reservation or jurisdiction by the Commission to require such subsequent action by Public Service Company of Indiana, Inc. and Indiana Gas & Water Company, Inc., or either of them, as may be deemed necessary under section 11 (b) (1) of the act:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of the act, that the aforesaid application-declaration be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the reservation of jurisdiction recited above.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-1370]

UNITED CORP.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of September 1946.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The United Corporation ("United"), a registered holding company. Declarant has designated section 12 (c) of the act and Rule U-46 of the Rules and regulations promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than September 26, 1946, at 5:30 p. m., e. d. s. t. request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after September 26, 1946, such declaration, as filed or as amended, may become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized below:

United proposes to declare and pay the quarterly dividend on 75 cents per share which will accrue on its $3 Cumulative Preference Stock on October 1, 1946.

As of September 11, 1946, United had outstanding 1,180,799 shares of $3 Preference Stock. However, the number of shares of such stock which may be outstanding on the record date of the proposed dividend cannot be determined at this time, since the company is proceeding with the purchase of a limited number of the shares of such stock as authorized by the Commission's Order of August 9, 1946 (Holding Company Act Release No. 6936). Based on the number of shares outstanding as of September 11, 1946, the proposed dividend would amount to $885,600, United's entire balance in Earned Surplus, estimated at $690,000 as of October 1, 1946, will be utilized for the payment of such dividends, and the remaining part of the aggregate amount of such dividend will be charged to unrestricted capital surplus which as of July 31, 1946 amounted to $29,403,150.

The proposed transaction is described as a facilitating step in a program contemplated by United to effectuate further partial compliance with the Commission's Order of August 14, 1943, directing United to change its capitalization to one class of stock, namely, common stock, and to take such action as will cause it to cease to be a holding company. As part of such program, United pursuant to authorization contained in the Commission's Order of July 17, 1946 (Holding Company Act Release No. 6787) has paid in full all dividends on its $3 Preference Stock accumulated up to and including July 1, 1946 and contemplates the filing of plans, which are not before us for approval at this time, providing for the disposition of the bulk of United's holdings of the common stock of Niagara Hudson Power Corporation by offering to United's common stockholders the right to purchase such securities and providing for the elimination of United's $3 Cumulative Preference Stock.

The company states that the plan for disposing of its holdings of the common stock of Niagara Hudson Power Company will be legally simplified, if in advance of such an offering, all dividends on the $3 Preference Stock are declared and paid as they accrued.

United requests that the Commission's order permitting the declaration herein to become effective on or before October 1, 1946 and become effective forthwith in order to permit the declaration and payment of dividends accruing on that date.

By the Commission.

[SEAL] ORVAL L. DU BOIS,
Secretary.

OFFICE OF PRICE ADMINISTRATION.

[MPR 120, Order 1749]

BRUKETTA & SONS COAL CO. ET AL.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120; *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 10. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classification of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad locomotive fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.221 and all other provisions of Maximum Price Regulation No. 120.

BRUKETTA & SONS COAL CO., R. F. D., NO. 2 FARMINGTON, ILL., BRUKETTA & SONS MINE, NO. 5 SEAM, MINE INDEX NO. 660, FULTON COUNTY, ILL., RAIL SHIPPING POINTS, CANTON AND FARMINGTON, ILL., DEEP MINE, MAXIMUM RAIL PRICE GROUP NO. 25, FULTON-PEORIA SUBDISTRICT

[1] Previously established.
[2] Size group No. 7, rail shipped coal: Railroad locomotive fuel 325, for all other uses 325.

This order shall become effective September 27, 1946.

Issued this 26th day of September 1946.

ROBERT A. NIXON,
Acting Administrator.

OPINION ACCOMPANYING ORDER 1749 UNDER MAXIMUM PRICE REGULATION 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 10 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with § 1340.210 (a) (6) of the Regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classifications he deems proper.

This application was then submitted to the industry advisory committee for District No. 10. The prices and classifications established are those recommended by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

[F. R. Doc. 46-17463; Filed, Sept. 26, 1946; 8:48 a. m.]

[MPR 188, Order 5207]

WACO PRODUCTS CORP.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Waco Products Corporation, 410 Asylum Street, Hartford, Connecticut.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Model No.	Brand	Description	Ceiling price to—		
			Distributor	Dealer	Consumer
Children's console phono....	Waco....	Console acoustic phono, electric motor, manual, papier mache horn, plywood cabinet, cream finish, 26 x 14 x 13¾". Also same model in walnut finish.	$14.88	$18.61	$32.50

Ceiling price to the consumer includes the Federal excise tax. Terms are 2% ten days, net 30 days, f. o. b. factory.

These maximum prices are for the articles described in the manufacturer's application dated August 30, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms, and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington 25, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

OPA Retail Ceiling Price—$32.50
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the seller shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 27th day of September 1946.

Issued this 26th day of September 1946.

[SEAL] GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 5207 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION 188

The applicant, Waco Products Corporation, 410 Asylum Street, Hartford, Connecticut, applied for price approval for its new children's acoustic console electric phono on August 30, and requested ceiling prices to distributors, dealers, and consumers.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

[MPR 120, Order 1750]

BLACK DIAMOND COAL MINING CO. ET AL.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120, *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 9. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and State. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. The mine or preparation plant and when stated to be for rail shipment or for railroad fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.220 and all other provisions of Maximum Price Regulation No. 120.

OPINION ACCOMPANYING ORDER 1750 UNDER MAXIMUM PRICE REGULATION 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 9 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with § 1340.210 (a) (6) of the Regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classifications he deems proper.

This application was then submitted to the industry advisory committee for District No. 9. The prices and classifications established are those recommended by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

[RMPR 506, Amdt. 2 to Order 7]

FAIRFIELD GLOVE AND MITTEN CO.

ADJUSTMENT OF MAXIMUM PRICES

Amendment 2 to Order No. 7 under section 4 (b) of Revised Maximum Price Regulation 506, maximum prices for staple work gloves. Docket No. N6657-506-48-7.

For the reasons set forth in the opinion issued simultaneously herewith; *It is ordered:*

Order No. 7 under section 4 (b) of RMPR 506 is amended in the following respects.

(1) Paragraph (a) is amended to read as follows:

(a) Fairfield Glove and Mitten Company, Fairfield, Iowa, may sell and deliver to any purchaser, and such purchaser may buy from it, the staple work gloves listed in the following table at or below the price computed, as directed in RMPR 506, section 4, Appendix A and Appendix E, from the base price and adjustment factors set forth for such gloves in the following table:

Style No.	Glove description	Column A Base price		Column B Adjustment factors	
		Group I	Group II	Flannel	Tubing
4732TK	Men's fourchette cut 12 ounce, single thickness nap out white canton flannel back and palm, two thumb husker, 8 ounce brown flannel patches on all thumbs, knit wrist	$2.83	$3.03½	$.625	$0.475
157K	Men's 12 ounce single thickness nap out white canton flannel back and palm, 2 thumb "husking" mitten 8 oz. brown flannel patches on all thumbs, knit wrist	2.61½	2.85	.546	.435
4832K	Men's fourchette cut 12 oz. single thickness nap cut white canton flannel back and palm, two 20 oz. double thickness thumb "husker" glove, knit wrist	2.99	3.26	.585	.435

(2) Subparagraph (b) (1) is amended to read as follows:

(1) The instructions for manufacturers in Appendix A and Appendix E and the rules relating to the pricing of "seconds" contained in section 4 (c) of RMPR 506.

(3) The notice contained in paragraph (d) is amended to read as follows:

This notice is sent to you as required by Order No. 7 under section 4 (b) of Revised Maximum Price Regulation 506 issued by the Office of Price Administration. It lists ceiling prices fixed by OPA for the work gloves enumerated in the table below, manufactured by Fairfield Glove & Mitten Company, Fairfield Iowa.

OPA has ruled that the manufacturer may sell this number at or below the prices listed in Column A below, subject to the provisions of Section 4 (a) of RMPR 506 with respect to the quota of deliveries which must be made at Group I prices. Wholesalers will determine their ceiling prices for regular sales at wholesale in accordance with section 3 (a) (2) of RMPR 506, and retailers, in accordance with section 2.

Style No.	Column A *Manufacturer's prices*	
	Group I ceiling	*Group II ceiling*
	(here list your ceiling prices in effect on the date of delivery of the gloves to the customer.)	
4732TKS		
157 KS		
4832KS		

You will note that the letter S follows the manufacturer's lot number or brand name. This letter indicates that this glove has been specifically priced by OPA under section 4 (b).

Issued and effective this 26th day of September 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER 7 UNDER SECTION 4 (b) OF REVISED MAXIMUM PRICE REGULATION 506

The order hereby amended provided maximum prices for certain staple work gloves manufactured by the Fairfield Glove and Mitten Company. Prices established were "in-line" with prices of comparable gloves specifically priced under RMPR 506 on July 11, 1944.

Since that date there have been four amendments to RMPR 506, affecting prices, the latest (Amendment 5, effective September 11, 1946) requiring special adjustment factors in addition to specific base prices to determine ceiling prices. The prices provided in the order are, therefore, no longer in line with those specifically provided in RMPR 506, as amended.

The accompanying amendment provides base prices and adjustment factors for the gloves specified in the order in line with the base prices and adjustment factors specifically provided for comparable gloves in RMPR 506, as amended. Lot No. 108 is omitted from the order. It is no longer manufactured.

[F. R. Doc. 46-17433; Filed, Sept. 26, 1946; 8:47 a. m.]

[MPR 580, Amdt. 1 to Order 73]

HAT CORP. OF AMERICA

ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation 580, Amendment 1 to Order 73. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-722. For the reasons set forth in the opinion issued simultaneously herewith, Order No. 73 issued under section 13 of Maximum Price Regulation 580 on application of Hat Corporation of America, 417 Fifth Avenue, New York 16, New York, is amended in the following respects:

1. Paragraph (a) is amended to establish uniform retail ceiling prices for the following women's hat cost lines, which are added to those already covered by the order:

WOMEN'S HATS

Brand name	Manufacturer's selling price (per dozen)	Ceiling price at retail (per unit)
Dobbs, Knox, or Dunlap	$180 dark	$30.00
	$188 light	31.50
	$198 dark	32.50
	$207 light	34.00
	$210-$216 dark	35.00
	$219-$225 light	36.50
	$222 dark	37.50
	$231 light	39.00
	$234 dark	38.50
	$243 light	40.00
	$240 dark	40.00
	$249 light	41.50
	$270 dark	45.00
	$279 light	46.50
	$300 dark	50.00
	$309 light	51.50
	$330 dark	55.00
	$339 light	56.50
	$390 dark	60.00
	$369 light	61.50
	$390 dark	65.00
	$399 light	66.50

2. Paragraph (b) is amended to read as follows:

(b) The retail ceiling price of each article covered by the order shall apply in place of the ceiling price which has been or would otherwise be established under this or any other regulation, and shall apply to any other article of the same type, having the same selling price to the retailer, the same brand name, and first sold by the manufacturer after the effective date of this order.

3. Paragraph (c) is amended by deleting the phrase "Maximum Price Regulation No. 580" and substituting therefor the phrase "the regulation which would apply in the absence of this order."

4. Paragraph (c) is further amended by adding thereto the following undesignated paragraph:

Upon issuance of any amendment to this order which either adds an article to those already covered by the order or changes the retail ceiling price of a covered article, Hat Corporation of America, as to such article, must comply with the preticketing requirements of this paragraph within 30 days after the issuance of the amendment. After 60 days from the issuance date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this order.

5. Paragraph (d) is amended by adding the following:

(d) Within 15 days after the effective date of any amendment to the order, the seller shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the ef-

fective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment. The seller shall also send a copy to all other purchasers at the time of or before the first delivery of the article subsequent to the effective date of the amendment.

6. Paragraph (e) is amended by deleting the phrase "Maximum Price Regulation No. 580" and substituting therefor the phrase "the regulation which would apply in the absence of this order."

This amendment shall become effective September 27, 1946.

Issued this 26th day of September 1946.

ROBERT A. NIXON,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 1 TO ORDER NO. 73 UNDER MAXIMUM PRICE REGULATION NO. 580

The accompanying amendment to Order No. 73 issued to Hat Corporation of America, 417 Fifth Avenue, New York 16, New York, under section 13 of Maximum Price Regulation 580, establishes uniform retail ceiling prices for additional women's hat styles on which the manufacturer is resuming production after an interruption due to wartime restrictions. This will enable the manufacturer to continue his practice of maintaining uniform retail selling prices on his branded merchandise.

Paragraph (b) is amended to provide, under specified conditions, an automatic method for establishing a uniform retail ceiling for branded articles not included in the order and first sold by the manufacturer after the effective date of the order.

With respect to articles for which retail ceiling prices are established by amendment, provision is made for the suspension of the preticketing requirements for a specified period.

The amendment also broadens the notice provision in paragraph (d).

[F. R. Doc. 46-17580; Filed, Sept. 26, 1946; 11:25 a. m.]

[MPR 591, Order 827]

CROCKER CO.

AUTHORIZATION OF MAXIMUM PRICES OF MAGNESIUM COMBINATION

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591; *It is ordered:*

(a) 1. The maximum net prices, extended for sales by any person to consumers of the following sizes of magnesium combination screen and storm window, manufactured by W. W. Crocker Company of Cambridge, Massachusetts and as described in the application dated August 19, 1946 which is on file with the Mechanical Building Equipment Price Branch, Office of Price Administration, Washington 25, D. C., shall be: the list price per window opening set forth in (d) below.

2. The maximum prices on an installed basis on sales to consumers shall be the list price set forth in (d) below plus actual cost of installation in no event to exceed $2.00 per window opening or the charge established in the appropriate area order whichever is lower.

(b) The maximum net delivered prices on sales to dealers by any person shall be the list prices set forth in (d) below reduced by 33⅓ percent.

(c) The maximum net prices f. o. b. point of shipment on sales to distributors by any person shall be the list prices set forth in (d) below reduced by successive discounts of 40 percent and 10 percent.

(e) The maximum net prices established by this order shall be subject to discounts and allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of similar commodities during March 1942.

1. Two light design for Standard Double Hung Windows:
   A. With sliding louvre in bottom rail.
   B. Two removable glass panels.
   C. One removable screen panel.
2. Extras:

Oriel windows..... List plus 33⅓ %.
Intermediate sizes..... List plus 33⅓ %.
Reversed windows..... No extra charge.

If reversed All-Weather Windows are required for stationary windows, so state on order.

4. On 83", 87", and 91" heights, do not add 33⅓ % as this has been done on basic price.

5. NOTES: The screen insert prices are to be used when extra screen panels are required. (Specify on order whether upper or lower panels are required.) The same prices also apply to deductions when screen panels are to be omitted.

Glass inserts are to be used when spare glass panels are required. (Specify on order whether upper or lower panels are required.)

(f) Each seller covered by this order, except on sales to consumers shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers except dealers upon resale.

(g) The W. W. Crocker Company shall attach a tag to each item covered by this order containing substantially the following:

OPA Maximum Retail Price $_____ Plus the actual cost of installation in no event to exceed $2.00 per window opening or the charge established in the appropriate area order whichever is lower.

(h) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 27, 1946.

Issued this 26th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER 827 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION 591

The accompanying Order No. 827 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution of extruded magnesium combination storm windows and screens.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 and 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. Based on an analysis of the information submitted the prices set forth in the accompanying order are in line with the prices of competitive manufacturers for comparable commodities, and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars-and-cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that W. W. Crocker Company shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices. The order further provides that W. W. Crocker Company shall attach a tag to each item covered by the accompanying order indicating the maximum retail price.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the Act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders issued by the President.

PAUL A. PORTER,
Administrator.

[MPR 168, Order 5208]

H. C. THOMPSON CLOCK CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188. *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by H. C. Thompson Clock Co., 38 Federal Street, Bristol, Conn.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Model No.	Brand	Description	Ceiling price to—		
			Distributor	Dealer	Consumer
100	Thompson Clock Co.	Table acoustic phono, spring-wound motor, manual, nickel finish tone arm and reproducer, painted wood cabinet, 15 x 12 x 6".	$7.76	$9.70	$16.95
500	Thompson Clock Co.	Same as Model 100 except portable cabinet with lid.	8.68	10.85	18.95

Ceiling price to the consumer includes the Federal excise tax. Terms are 2% 10 days, net 30 days, f. o. b. factory.

These maximum prices are for the articles described in the manufacturer's application dated September 10, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

OPA Retail Ceiling Price
Model 100: $16.95. Model 500: $18.95
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the seller shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 27th day of September 1946.

Issued this 26th day of September 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDER 5208 UNDER § 1499.158 OF MAXIMUM PRICE REGULATION 188

The applicant, H. C. Thompson Clock Co., 38 Federal Street, Bristol, Connecticut, applied for price approval for its new Models 100 and 500 acoustic spring-wound phonos on September 10, 1946, and requested ceiling prices to distributors, dealers and consumers.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

[F. R. Doc. 46-17432; Filed, Sept. 26, 1946; 8:47 a. m.]

[MPR 591 Order 837]

FREEZE SERVICE CORP.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591; *It is ordered:*

(a) The maximum net prices, f. o. b. point of shipment, for sales by any person of the following freeze cabinet manufactured by the Freeze Service Corporation, 7900 Germantown Avenue, Philadelphia 18, Pennsylvania and as described in the application dated September 16, 1946 which is on file with the Mechanical Building Equipment Price Branch, Office of Price Administration, Washington 25, D. C., shall be:

	On sales to—		
	Distributors	Dealers	Consumers
25 cu. ft.	$410.00	$522.00	$726.00

(b) The maximum net prices established in (a) above may be increased by the following amount to each class of purchaser to cover the cost of crating when crating is actually supplied: $6.00.

(c) The maximum net prices established by this order shall be subject to discounts and allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of similar commodities in the same general category on October 1, 1941.

(d) On sales by a distributor or dealer the following charges may be added to the maximum prices established in (a) above:

(1) The actual amount of freight paid to obtain delivery to his place of business. Such charges shall not exceed the lowest common carrier rates.

(2) Crating charges actually paid to his supplier but in no instance exceeding the amount specified in (b) above.

(e) Each seller covered by this order, except a dealer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale, except dealers, including allowable transportation and crating charges.

(f) The Freeze Service Corporation, 7900 Germantown Avenue, Philadelphia, Pennsylvania shall stencil on the freeze cabinet covered by this order, substantially the following:

OPA Maximum Retail Price—$------
Plus freight and crating as provided in Order No. 837 under Maximum Price Regulation No. 591.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 27, 1946.

Issued this 26th day of September, 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDER 837 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION 591

The accompanying Order No. 837 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for freeze cabinets, manufactured by the Freeze Service Corporation, 7900 Germantown Avenue, Philadelphia, Pennsylvania.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 and 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. Based on an analysis of the information submitted the prices set forth in the accompanying order are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars and cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products. The order also provides that distributors, may, under certain circumstances, add delivery charges to the dollars-and-cents maximum prices established to cover actual freight paid to obtain delivery and crating charges actually paid.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the Freeze Service Corporation shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices. The order further provides that the Freeze Service Corporation shall stencil on the inside of the lid of the freeze cabinet the maximum retail price thereof.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders issued by the President.

[F. R. Doc. 46-17435; Filed, Sept. 26, 1946; 8:48 a. m.]

[MPR 188, Amdt. 2 to Order 5000]

WINDOW SHADES AND WINDOW SHADE ROLLERS

MAXIMUM PRICES FOR SALES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, *It is ordered*, That Order No. 5000 under Maximum Price Regulation No. 188 be amended in the following respects:

1. Section 3 is amended to read as follows:

SEC. 3. *Manufacturers' maximum prices*—(a) *Determination of maximum prices.* (1) The maximum price for sales of any of the articles covered by this order by a manufacturer to a purchaser for resale shall be the higher of the applicable of the following:

(I) His maximum price properly established under Maximum Price Regulation 188 (exclusive of any permitted adjustments or increases) increased by no more than the appropriate one of the following percentages:

Type of article:	Percentage increase
Cloth shades	35
Paper and fibre shades	20
Window shade rollers	35

(II) His maximum price as adjusted or established by an Office of Price Administration order other than this order.

2. The maximum price for sales of any of the articles covered by this order by a manufacturer to a household consumer shall be the higher of the applicable of the following:

(I) His maximum price properly established under Maximum Price Regulation No. 188 (exclusive of any permitted adjustments or increases) increased by no more than 21 percent.

(II) His maximum price as adjusted or established by an Office of Price Administration order other than this order.

This amendment shall become effective on the 26th day of September 1946.

Issued this 26th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. 5000 UNDER SECTION 1499.159b OF MAXIMUM PRICE REGULATION NO. 188

The accompanying amendment specifies a percentage amount of adjustment by which manufacturers of cloth window shades and window shade rollers may increase their maximum prices on sales to purchasers for resale. Since this percentage is greater than the percentage specified in the original Order No. 5000, the amendment grants a further increase in maximum prices to these manufacturers. No further adjustment is allowed in manufacturers' maximum prices for sales of paper and fibre shades. For sales by manufacturers to consumers an adjustment of 21 percent is authorized instead of the 9 percent now provided for in Order No. 5000.

The adjustment permitted in Order No. 5000 was granted under the announced policy of this Office called the "industry earnings standard". A full explanation of this standard and its method of operation is contained in the opinion accompanying the issuance of Order No. 5000. Since this amendment is issued under the same standard, the statements concerning same that are contained in that opinion are incorporated herein by reference. Briefly the industry earnings standard provides that in order for price ceilings to be generally fair and equitable, they must permit an industry as a whole to continue to equal its earnings in a representative peace time period (the year 1936–1939 in this case), suitably adjusted for changes in investment. Under Executive Order 9697, consideration is given to those factors which, it appears, will have an appreciable effect upon the operating picture of the industry over the next 12 month period, and a projection for the next 12 months is made taking into account those labor and material cost increases that are readily subject to a reasonable degree of measurability.

Since the study upon which Order No. 5000 is based was made, manufacturers of window shades and rollers have experienced sharp increases in labor and material costs. These increases were not anticipated at the time of the above study and therefore were not considered in the projection of industry profits then developed. Accordingly, the Office of Price Administration has been requested to review again the earnings position of the industry.

Profit and loss statements were obtained from the six manufacturers used in the sample in connection with the first study. An analysis of the data thus obtained revealed that the most significant increase in material costs occurred in gray muslin, which increased 33.2 percent over the price used in the last study, and is shade roller cut stock which increased 35 to 40 percent depending on size. Labor increased 5 percent over the labor figure used in the last study. Transportation costs increased approximately 15 percent due to the freight rate increase of July 1, 1946. Reflecting these increased costs in a projected profit picture for 1946–47, it was determined that the industry is entitled to an increase of 35 percent over the 1942 ceiling prices for sales of stock shades to resellers, or an increase of 17.39 percent over current prices.

The separate treatment given to manufacturing retailers (so called shade shops) in Order No. 5000 is continued by this amendment. These shops make special order or custom built shades for sales usually to home and industrial users, and perform varying degrees of service in connection with the sale of these products, such as measuring windows of customers, estimating costs, installing and storing. The maximum prices listed by such shops include the cost of these services as well as the cost of the shades. There is such a large number of these small shops located in all parts of the country and with such widely different types of operations that the administrative cost and time of conducting a study of this type of manufacturer would exceed the value of the information that would be thus obtained, and it was therefore decided to use the information obtained from the manufacturers of stock shades who sell to resellers as a measure of the price relief needed by the direct selling manufacturers of custom shades.

Since a part of the price of the custom shade is for the special services rendered as stated above, the customary markup on these types of shades was subtracted from the maximum selling price to arrive at the cost price, which is assumed to represent the total manufacturing cost (or the equivalent of a stock shade price). This cost was then multiplied by the percentage factor developed for manufacturers of stock shades, resulting in a new cost figure to which the customary markup was added to arrive at a new selling price. The new selling price was divided by the old selling price and an increase factor of 21 percent over March 1942 prices was derived. This is an increase of 11 percent over current prices.

No change as to resellers provisions has been made by this amendment. Since, Amendment No. 1 to Order No. 5000 issued on August 15, 1946 brought the order into conformity with Section 2 (t) of the Emergency Price Control Act of 1942, as amended, this amendment is therefore in conformity with the said Section which provides "in establishing maximum prices applicable to wholesale or retail distributors, the Administrator shall allow the average current cost of acquisition of any commodity, plus such average percentage discount or markup as was in effect on March 31, 1946."

Issued this 26th day of September 1946.

[F. R. Doc. 46-17578; Filed, Sept. 26, 1946; 11:24 a. m.]

[MPR 580, Amdt. 5 to Order 144]

AMERICAN MAID CO., INC.

ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation No. 580, Amendment 5 to Order 144. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-789.

For the reasons set forth in the opinion issued simultaneously herewith, Order No. 144 issued under section 13 of Maximum Price Regulation 580 on application of American Maid Company, Inc., 847 West Jackson Boulevard, Chicago 7, Illinois, is amended in the following respects:

1. Paragraph (a) is amended to correct the uniform retail ceiling prices previously established by the order for the articles set forth below. The new cost-retail price lines are as follows:

Manufacturer's selling price (per dozen)	*Retail ceiling price (per unit)*
GOWNS	
$40.00	$5.75
PAJAMAS	
40.00	5.75

2. Paragraph (e) is amended to read as follows:

(e) At the time of or before the first delivery to any purchaser for resale of any article listed in paragraph (a), the seller shall send the purchaser a copy of this order and of each amendment thereto issued prior to the date of such delivery. Within 15 days after the effective date of any subsequent amendment to the order, the seller shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment. The seller shall also send a copy to all other purchasers at the time of or before the first delivery of the article subsequent to the effective date of the amendment.

This amendment shall become effective September 27, 1946.

Issued this 26th day of September 1946.

ROBERT A. NIXON,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 5 TO ORDER 144 UNDER MAXIMUM PRICE REGULATION 580

The accompanying amendment to Order No. 144 issued to American Maid Company, Inc., 847 West Jackson Boulevard, Chicago 7, Illinois, under section 13 of Maximum Price Regulation 580, corrects the uniform retail ceiling prices previously established for certain gown and pajama styles by Amendment 4 to the order. Those prices were based upon an error contained in the manufacturer's application for the inclusion of those styles in the order.

The amendment also revises the notice provision contained in paragraph (e).

[F. R. Doc. 46-17581; Filed, Sept. 26, 1946; 11:25 a. m.]

[RSO 119, Order 341]

ELECTROMASTER, INC.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119; *It is ordered:*

(a) Electromaster, Inc., 1803 East Atwater Street, Detroit 31, Michigan, may increase by no more than 13.5 percent its highest prices charged during October 1941 to each class of purchaser for the electric cooking ranges of its manufacture.

(b) For sale in each zone by wholesale distributors to retail dealers the ceiling prices for the models of electric ranges manufactured by Electromaster, Inc. and listed below are as follows:

Model	Quantity	Ceiling prices for sales to retail dealers			
		Zone 1	Zone 2	Zone 3	Zone 4
15-1	1 to 4	$125.75	$127.64	$129.54	$131.38
	5 or more	121.17	123.24	124.80	126.61
T-41-1	1 to 4	82.62	83.86	85.11	86.32
	5 or more	79.60	80.96	81.99	83.18

These ceiling prices include the Federal excise tax and are subject to terms, discounts, allowances, and other price differentials no less favorable than those the seller had in effect on sales of similar articles during March 1942. If a seller made no such sales during March 1942 the ceiling prices are subject to terms, discounts, allowances, and other price differentials no less favorable than those his closest seller of the same class had in effect during the same period on sales of similar articles or which he thereafter properly established under applicable OPA regulations.

(c) For sales in each zone by retail dealers to ultimate consumers the ceiling prices for the models of electric ranges manufactured by Electromaster, Inc. and listed below are as follows:

Model	Sales by retail dealers to ultimate consumers			
	Zone 1	Zone 2	Zone 3	Zone 4
15-1	$196.25	$199.50	$202.25	$205.50
T-41-1	129.00	130.75	132.50	134.25

These prices include the Federal excise tax, delivery, a one year warranty and installation with connection to electric facilities to be provided by the consumer where such connection does not require any additional materials. If a range cord set (customarily referred to in the industry as a "pigtail") is required and is furnished by the retail dealer, he may add $3.50 to the above OPA retail ceiling price. In all other respects these ceiling prices are subject to terms, discounts, allowances, and other price differentials no less favorable than those the seller had in effect on sales of similar articles during March 1942. If a seller made no such sales during March 1942, the ceiling prices are subject to terms, discounts, allowances and other price differentials no less favorable than those his closest seller of the same class had in effect during the same period on sales of similar articles or which he thereafter properly established under applicable OPA regulations.

(d) For purposes of this order Zones 1, 2, 3, and 4 comprise the following states:

Zone 1. Michigan, Indiana and Ohio.

Zone 2. Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, West Virginia, Virginia, North Carolina, South Carolina, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Wisconsin, Illinois, Minnesota, Iowa, Missouri, and Arkansas.

Zone 3. North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Louisiana, Montana, Wyoming, Colorado, New Mexico, and Florida.

Zone 4. Idaho, Utah, Arizona, Nevada, Washington, Oregon, and California.

(e) At the time of, or prior to the first invoice to each purchaser for resale at wholesale the manufacturer shall notify him of the ceiling prices set by this order for resales by the purchaser. This notice may be given in any convenient form.

(f) The manufacturer prior to shipping any range covered by this order to a purchaser for resale shall attach securely to the outside panel of the oven door of each range a label which contains all the following information:

1. The model number of the range.
2. The range's OPA retail ceiling prices in each zone.
3. A list of the states included in each zone.
4. A statement that the ceiling prices shown include the Federal excise tax, delivery, a one year warranty and installation where the installation requires only that the range be connected to electric facilities to be provided by the purchaser and such connection does not require any additional materials.
5. A statement that if the installation requires the use of a range cord set (customarily referred to in the industry as a "pigtail") and such a set is furnished by the retail dealer, he may add $3.50 to the OPA retail ceiling price of the range.

(g) The ceiling prices established by this order supersede those established by Order 197 under Maximum Price Regulation No. 64 or Order No. 144 under Revised Supplementary Order No. 119 with respect to articles sold by the manufacturer at prices adjusted under this order. The resale ceiling prices established by this order include all the increases allowed by sections 11a and 11b of Maximum Price Regulation No. 64 and may not, therefore, be further increased under those sections.

(h) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 26th day of September 1946.

Issued this 26th day of September 1946

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 341 UNDER REVISED SUPPLEMENTARY ORDER NO. 119

Electromaster, Inc., hereinafter referred to as the applicant 1803 East Atwater Street, Detroit 31, Michigan, has previously received an adjustment of its ceiling prices under Revised Supplementary Order No. 119. Since that adjustment was granted the applicant has incurred additional legal labor and material cost increases and has, therefore, reapplied under Revised Supplementary Order No. 119 for an additional adjustment which reflects those additional cost increases.

The procedures set forth in Revised Supplementary Order No. 119 have been applied to the data submitted by the applicant on its current cost data and a new price increase factor has been determined in accordance with the provisions of the order.

In view of the present scarcity of this type of range and to permit compliance by the applicant with the preticketing provisions of Maximum Price Regulation No. 64 applicable to electric ranges, the accompanying order also establishes resale ceiling prices pursuant to section 16 of Revised Supplementary Order No. 119.

The resale ceiling prices established by the accompanying order were computed by applying to the manufacturer's adjusted ceiling prices for sales to distributors a percentage markup equal to that received by each type of seller under Maximum Price Regulation No. 64 in connection with sales on March 31, 1946 of the same type of range produced by the same manufacturer. Hence, they include any increases allowed by sections 11a or 11b of Maximum Price Regulation No. 64 and may not be increased under either of those sections.

To eliminate any possibility of confusion the accompanying order also provides that the ceiling prices it establishes supersede those established by Order 197 under Maximum Price Regulation No. 64 and Order 144 under Revised Supplementary Order No. 119 with respect to ranges sold by the applicant at prices adjusted under the accompanying order.

To increase the effectiveness of the order and the enforceability of the retail ceiling established under it, the applicant is required to attach to each range a label containing the OPA retail ceiling in each zone, a list of the states in each zone, and a statement of what the retail ceiling prices include. To insure notice to wholesale distributors of the ceiling prices established by the order for their resales the applicant is required to notify purchasers from him for resale at wholesale of the ceiling prices and conditions set by this order for resales by the purchaser.

[F. R. Doc. 46-17430; Filed, Sept. 26, 1946; 8:46 a. m.]

[MPR 592, Order 155]

CINDER BLOCKS IN METROPOLITAN WASHINGTON, D. C.

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith, and pursuant to section 23 of Maximum Price Regulation 592; *It is ordered:*

(a) The maximum f. o. b. yard and delivered prices for sales of rock and panel face block, chimney block and pier caps, produced and delivered in the Metropolitan Area of Washington, D. C., shall be as follows:

	F. o. b. yard price	Delivered price
Rock and panel face block:		
8 x 8 x 16:		
Wall	$0.205	$0.225
Corners	.2625	.2825
Piers	.32	.34
5 x 8 x 8:		
Half wall	.1375	.1475
Half corners	.205	.215
Chimney block for 8 x 8 flue	.2175	.2375
Pier caps:		
19 x 19:		
White	2.86	----------
Gray	2.58	----------
14 x 14:		
White	1.72	----------
Gray	1.72	----------

(b) The Metropolitan Area of Washington, D. C., as used in this order, means the area located within a 13 air-mile radius of the zero milestone, District of Columbia.

(c) The maximum prices established by this order are subject to all customary cash and trade discounts, allowances or other differentials, all of which must be preserved.

(d) The maximum prices established by this order supersede maximum prices previously established pursuant to Maximum Price Regulation 592 and the General Maximum Price Regulation and orders thereunder.

(e) This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective September 27, 1946.

Issued this 26th day of September, 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 155 UNDER SECTION 23 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying order, pursuant to Section 23 of Maximum Price Regulation 592, establishes maximum f. o. b. yard and delivered prices for sales by all sellers of rock and panel face block, chimney block and pier caps, produced and delivered within a radius of 13 air miles from the zero milestone, District of Columbia. The maximum prices for these commodities are spelled out in dollars and cents.

Section 23 of Maximum Price Regulation 592 pertaining to the establishment of maximum prices for sales of commodities, covered by the regulation, within a particular community or defined area, provides that the following standards shall be observed: (1) maximum prices shall be set forth in dollars and cents unless this shall clearly appear impracticable or inappropriate and (2) maximum prices thus set forth shall not exceed the general level of prices as fixed by the regulation.

In accordance with the above described standards, prices established in this order specify dollars-and-cents prices applicable to sales of rock and panel face block, chimney block and pier caps, and are in line with the general level of prices otherwise established for comparable commodities under this regulation.

Prices for resellers are established at the same levels as those established for the manufacturers who supply them with these commodities. It appears that resellers purchase rock and panel face block, chimney block, and pier caps from manufacturers on the basis of a discount off the manufacturers' quoted prices to consumers. These resellers, in turn, resell the items at the same, or approximately the same, prices at which the manufacturers sell in their direct sales to consumers. Establishing the same prices for resellers as those established for manufacturers will permit continuance of this practice.

The prices affected by the accompanying order do not exceed the general level of prices permitted by Maximum Price Regulation 592 which would otherwise be applicable to sales by manufacturers and the General Maximum Price Regulation which would cover sales by resellers. The provisions of this order and their effect upon business practices, quoted prices and the methods in the industry affected have been carefully considered and no provision which might have the effect of requiring a change in such practices has been included.

[F. R. Doc. 46-17437; Filed, Sept. 26, 1946; 8:49 a. m.]

[MPR 592, Rev. Order 125]

TERRY BRICK CORP.

ADJUSTMENT OF MAXIMUM PRICES

Revised Order No. 125 under section 16 of Maximum Price Regulation No. 592, specified construction materials and refractories. Terry Brick Corporation, Docket No. 6122.592.16–366.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to section 16 of Maximum Price Regulation No. 592, *It is ordered:*

(a) The maximum adjusted prices for sales by the Terry Brick Corporation, Kingston, New York, for clay building brick to its various classes of purchasers shall be:

$19.25 per thousand—f. o. b. plant.
$21.60 per thousand—delivered in metropolitan New York City, as defined in Section 2.1 (b) (1) (i) of Order 1 under MPR 592.

The above prices shall be subject to a discount of $1.00 per thousand for unloading and $0.50 per thousand for cash payment.

(b) Any person purchasing any of the products, covered by this order, produced by the Terry Brick Company for the purpose of resale in the same form may increase his presently established prices under the General Maximum Price Regulation by adding the percentage increase in cost resulting from the increase permitted the manufacturer in (a) above. Notwithstanding the provisions of this paragraph, in any area where specific maximum prices are fixed by an area pricing order, such specific maximum prices shall apply in that area, except that resellers located in the five boroughs of New York City and the County of Nassau may increase their presently established maximum prices by an amount not in excess of that authorized by sec. 2.4 (c) of Order 1 to MPR 592.

(c) The above prices include all price increases authorized by Order 1 to Maximum Price Regulation 592 to date and may not be further increased pursuant to the provisions of Order 1 as are in effect as of the date of this order.

(d) All requests of the applicant not granted herein are denied.

(e) This order may be amended or revoked by the Office of Price Administration at any time.

This Revised Order No. 125 shall become effective September 27, 1946.

Issued this 26th day of September, 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING REVISED ORDER 125 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION 592

The Terry Brick Corporation was authorized by Order No. 125 under Section 16 of MPR 592 to increase its maximum prices for the sale of clay building brick. At the same time resellers, except those covered by area pricing orders, were authorized to pass-through their percentage increase in acquisition costs. Resellers, whose maximum prices are established by area orders, were required to continue to sell at their established Area prices. Thus, Order 125 conflicted with the area pricing provisions of section 2.4 (c) of Order 1 to MPR 592 because resellers in the New York area were limited to pass-throughs resulting from increases permitted manufacturers under Order 1. Since the increases granted to Terry Brick Corporation, authorized by order No. 125, reflected the increases granted all manufacturers in the New York area by section 2.1 of Order 1 to MPR 592, the accompanying revision to Order No. 125 revises the reseller's pass-through provision to reflect the pass-through permitted resellers in this area pursuant to sec. 2.4 of Order 1 to MPR 592. Thus, resellers in the New York area will continue to realize the same percentage margins.

[MPR 120, Amdt. 45 to Order 1548]

ELLIOT COAL MINING CO. ET AL.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and in accordance with § 1340.212 (c) of Maximum Price Regulation No. 120, *It is ordered:*

Order No. 1548 under Maximum Price Regulation No. 120 is hereby amended in the following respects.

Paragraph (a) is amended by adding thereto the following name of the producer, address, mine name and index number, and preparation plant name, as follows:

Producer and address	Mine name	Mine index No.	Location and name of preparation plant through which the coals are prepared
Franklin Hills Mining Co., P. O. Box 779, Cumberland, Md.	Phoenix Hoffa No. 4..	5892	Russell Mining Co.'s Preparation Plant at Morrisons, Md. on C. & P.

This Amendment No. 45 to Order No. 1548 under Maximum Price Regulation No. 120 shall become effective September 27, 1946.

Issued this 26th day of September 1946.

ROBERT A. NIXON.
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 45 TO ORDER 1548 UNDER MAXIMUM PRICE REGULATION 120

Franklin Hills Mining Co.—P. O. Box 779—Cumberland, Maryland, filed an application pursuant to § 1340.212 (c) of Maximum Price Regulation No. 120, requesting that its maximum price for strip-mined coal, produced at its Phoenix Hoffa No. 4 Mine, Mine Index No. 5892 and prepared at its preparation plant at Morrisons, Maryland, in District No. 1, be increased 50¢ per net ton.

It appears that applicant's strip-mined coal receives thorough cleaning and hand-picking at the said preparation plant, and that it is such that it can be prepared to a standard of general acceptability in the coal-consuming market.

The applicant qualifies, therefore, for the requested relief under the provisions of said § 1340.212 (c). All mines of District No. 1, qualifying for an increase of 50¢ per net ton for prepared strip-mined coal under the provisions of § 1340.212 (c) of Maximum Price Regulation No. 120, have been grouped together by Order No. 1548, as amended, under Maximum Price Regulation No. 120. Accordingly, this order is being further amended to include applicant's strip-mined coal.

[MPR 120, Corr. to Order 1727]

BITUMINOUS COAL IN DISTRICT 13

ADJUSTMENT OF MAXIMUM PRICES

Order No. 1727 to Maximum Price Regulation No. 120 is hereby corrected as follows:

1. In Paragraph (1), the numeral "4.82" set opposite "Mine Index No. 41" under size groups "12, 14, 15, 16" and size groups "17, 18" in the column captioned "Rail & RR Fuel Maximum Prices By Size Group No.", is deleted, and the numeral "5.02" is inserted in its place and stead.

2. In said Paragraph (1), each price set forth opposite "Mine Index No. 53" under the column captioned "Rail & RR Fuel Maximum Prices By Size Group No." is increased seventy-seven (77) cents.

These corrections to Order No. 1727 to Maximum Price Regulation No. 120 shall be effective as of September 4, 1946.

Issued this 26th day of September, 1946.

ROBERT A. NIXON,
Acting Administrator.

[MPR 120, Corr. to Order 1744]

ARTHUR HENRY COAL CO. ET AL.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 1744 under Maximum Price Regulation No. 120 is hereby corrected in the following respects:

1. The mine index number, "4319", appearing on page 2, in the first column of maximum prices, for the Henry Mine of Arthur Henry Coal Company, is corrected to read "4316".

2. The rail shipping point, "Zanesville, Ohio," appearing on page 2, in the last column of maximum prices, immediately below "Mine Index No. 4319" of J. W. Smith is corrected to read "South Zanesville, Ohio".

This correction shall be effective as of September 24, 1946.

Issued this 26th day of September 1946.

ROBERT A. NIXON,
Acting Administrator.

[F. R. Doc. 46–17462; Filed, Sept. 26, 1946; 8:49 a. m.]

[RMPR 136, Order 679]

KNOX METAL PRODUCTS CO.

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 9, 10 and 11 (c) of Revised Maximum Price Regulation 136, *It is ordered:*

(a) Knox Metal Products Company, Waynesboro, Georgia, may sell, f. o. b. plant, each utility trailer described in subparagraph (1) below at a price not to exceed $131.37, plus federal excise tax, state and local taxes on the sale or delivery of the trailer and cost of transporting it by the most direct route to the purchaser.

(1) Knox Utility Trailer, Model 1946, ¾ ton, all metal steel body 5' 11" long x 4' wide x 15" deep equipped with 6.00 x 16, 4-ply tires and tubes and other detailed specifications included in the report filed with this Office.

(b) Knox Metal Products Company is authorized to suggest to resellers a resale price for the trailer described in paragraph (a) (1) consisting of the following:

(1) Suggested Resale Price: $169.50.

(2) (i) A charge not to exceed an amount determined by using rail freight rates for less-than-carload cost by the most direct route from the factory at Waynesboro, Georgia to the place of business of the reseller.

(ii) A charge equal to the charge made by Knox Metal Products Company to cover federal excise taxes.

(iii) A charge equal to reseller's expense for payment of state and local taxes on the purchase, sale or delivery of the trailer.

(c) A reseller of Knox trailers in any of the territories or possessions of the United States is authorized to sell the trailer described in paragraph (a) at a price not to exceed the price established in paragraph (b) to which it may add a sum equal to the expense incurred or charged to it for payment of territorial and insular taxes, on the purchase, sale or introduction of the trailer; export premiums; boxing and crating for export purposes; marine and war risk insurance; and landing, wharfage and terminal operations.

(d) All requests not granted herein are denied.

(e) This order may be amended or revoked by the Administrator at any time.

NOTE: Where the manufacturer's invoice charge to the reseller is increased or decreased from the previous invoice charge because the manufacturer has a newly established price under section 8 of Revised Maximum Price Regulation 136, due to substantial changes in design, specification or equipment of the trailer, the reseller may add to its price under paragraph (b) the increase in price, plus its customary markup on such a cost increase, but in case of a decrease in price, the reseller must reduce its price under paragraph (b) by the amount of the decrease and its customary markup on such an amount.

This order shall become effective September 27, 1946.

Issued this 26th day of September 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDER 679 UNDER REVISED MAXIMUM PRICE REGULATION 136

A Report of Manufacturer's Proposed List Price was filed by Knox Metal Products Company on March 25, 1946 and supplemented by letter on June 6, 1946 requesting authority to establish a maximum price and suggested resale price for a two wheel utility trailer identified as Model 1946.

In the order which this opinion accompanies, a price is approved for the sale of this trailer by Knox Metal Products Company, Waynesboro, Georgia, the manufacturer. This approval is in accordance with Sections 9 and 10 of Revised Maximum Price Regulation 136.

Revised Maximum Price Regulation 136 established as maximum prices for resellers, the manufacturer's suggested resale prices in effect on March 31, 1942, where the reseller had no list or established price in effect on that date. Moreover, when, on the base date, the reseller did not have a published list or established price, or the manufacturer did not have suggested resale prices, the Office of Price Administration may approve manufacturer's suggested resale prices which must be used by resellers in determining maximum prices. These resale prices must be in line with the level of prices permitted by the regulation.

In the present instance, resellers did not have any list or established prices in effect on the base date. Neither did the manufacturer have any suggested resale prices in effect on that date, although it was customary for manufacturers of comparable vehicles to have suggested resale prices. In accordance with section 11(c), therefore, the Administrator approves, in the order which this opinion accompanies, a manufacturer's suggested resale price. This resale price is in line with the level of prices permitted by the regulation.

The reseller shall determine his maximum price in accordance with section 11(c) by using the manufacturer's suggested resale price approved in this order.

1. *Additions for the extension of credit.* The following additions for the maximum prices hereinabove established may be made for the extension of credit beyond 30 days:

(a) Sellers who were in business during March 1942 are permitted to add to prices established hereinabove for the extension of credit beyond a period of 30 days the same additions that they had in effect during March 1942 for the same type and quantity of sale. If no extra charges were made for the extension of credit during March 1942, none may be added.

(b) Sellers who were not in business during March 1942 are permitted to make the same charge for the extension of credit which their most closely competitive seller is permitted to make under the provisions of this order.

2. *Additions for delivery.* No additions for delivery may be made to the prices hereinabove listed, except in cases where the total sale amounts to less than $25.00, in which event an additional charge of 25¢ for the first mile or fraction thereof and 25¢ for each additional mile thereafter will be allowed. In no instance, however, shall the total charge exceed the sum of 50¢. All customary discounts and allowances must be continued as required by maximum Price Regulations which were controlling these commodities prior to the issuance of this area order.

3. *Additions for Oklahoma State sales tax.* Sellers may add to the prices listed in this Appendix A the sales tax required to be collected by the law of the State of Oklahoma. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

This order shall become effective September 4, 1946.

(56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E. O. 9250, 7 F. R. 7871; and E. O. 9328, 8 F. R. 4681)

Issued at Oklahoma City, Okla., this 4th day of September 1946.

JOHN N. VARNELL,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 5 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Oklahoma City District of the Office of Price Administration by General Order No. 68 and Regional Delegation of Authority No. 126, the accompanying Amendment No. 1 to Order No. 5 has been issued establishing maximum prices for retail sales of certain specified building materials.

This amendment grants certain increases in prices which reflect price increases provided in Supplementary Order 172 and a 6% freight increase which was not considered in the price list dated August 19, 1946. It also reflects all authorized price increases up to and including August 24, 1946, the date of Appendix A in this amendment.

All other provisions to Order No. 5 under General Order No. 68 remain the same except where its provisions may be inconsistent with the revised price list in Appendix A hereof.

[F. R. Doc. 46-17387; Filed, Sept. 25, 1946; 8:45 a. m.]

[Region II Order G-1 Under MPR 592, Amdt. 2]

SAND, GRIT AND GRAVEL IN NASSAU AND SUFFOLK COUNTIES, N. Y.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and under the authority vested in the Regional Administrator, Region II of the Office of Price Administration by the Emergency Price Control Act of 1942 as amended, by section 17 of MPR 592 as amended, and by Revised Procedural Regulation No. 1, *It is ordered*, That:

(a) Order No. G-1 under section 17 of MPR 592, as amended by Amendment No. 1, is hereby further amended by adding in the title of said order after the words "produced in" the words "Kings, Queens,".

(b) Said Order No. G-1 under section 17 of MPR 592, as amended by Amendment No. 1, is hereby further amended by inserting in the second line of section (e) of said order after the words "produced in" the words "Kings, Queens,".

(c) Said Order No. G-1 under section 17 of MPR 592, as amended by Amendment No. 1, is hereby further amended by inserting in the second line of section (e) of said order after the words "produced in" the words "Kings, Queens,".

(d) Except as hereby amended, Order No. G-1 under section 17 of MPR 592 as amended by Amendment No. 1 shall remain the same and all provisions thereof shall remain applicable.

This amendment shall become effective immediately.

Issued this 19th day of September 1946.

JAMES L. MEADER,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. G-1 UNDER SECTION 17 OF MAXIMUM PRICE REGULATION 592

On April 29, 1946, Order No. G-1 under section 17 of MPR 592 was issued, fixing maximum prices for sand, grit and gravel produced in Nassau and Suffolk Counties, New York, and sold in the New York metropolitan area. This order was amended by Amendment No. 1, issued and effective August 6, 1946.

It now appears that the Atlantic Coast Sand Company produces sand in Jamaica Bay which is sold in the area covered by Order No. G-1. At the time Order No. G-1 was issued, this office had no knowledge that any sand, grit and gravel sold in the New York metropolitan area was produced outside of Suffolk and Nassau Counties, New York. In view of the fact that it now appears that the Company above-mentioned produces sand in Jamaica Bay which may be in Kings or Queens County, New York, it appears advisable, in the interest of conformity, to extend Order No. G-1 so as to cover sand, grit and gravel produced in Kings and Queens Counties, New York, as well as Suffolk and Nassau Counties, New York. The accompanying amendment effects this change. No change in the prices fixed by the order is necessary, as the production of the concern abovementioned is only a very small percentage of the production in the area.

[F. R. Doc. 46-17381; Filed, Sept. 25, 1946; 8:54 a. m.]

[Oklahoma City Order 7 Under Gen. Order 68, Amdt. 1]

CERTAIN BUILDING MATERIALS IN WASHINGTON COUNTY, OKLA.

For the reasons set forth in the opinion issued simultaneously herewith and under the authority vested in the District Director of the Oklahoma City District of the Office of Price Administration by General Order No. 68 and Regional Delegation of Authority No. 126, Order No. 7 establishing maximum prices for retail sales of certain building materials in Washington County, Oklahoma is amended in the following respects: Appendix A is amended to read as follows:

APPENDIX A

[Maximum prices for retail sales of specified building materials when sold in Washington County, Okla. The prices listed hereon include all legal increases up to and including Aug. 24, 1946.]

Plaster, moulding, 100-lb. bag	1.25
Plaster, moulding, bulk, lb	.03

1. *Additions for the extension of credit.* The following additions for the maximum prices hereinabove established may be made for the extension of credit beyond 30 days:

(a) Sellers who were in business during March 1942 are permitted to add to prices established hereinabove for the extension of credit beyond a period of 30 days the same additions that they had in effect during March 1942 for the same type and quantity of sale. If no extra charges were made for the extension of credit during March 1942, none may be added.

(b) Sellers who were not in business during March 1942 are permitted to make the same charge for the extension of credit which their most closely competitive seller is permitted to make under the provisions of this order.

2. *Additions for delivery.* The free delivery zone for all sellers in Washington County, Oklahoma, shall include all points within a radius of 15 miles of the place from which delivery is made. Where delivery is made outside the free delivery zone, the maximum charge of 20¢ per mile, one way, may be made.

3. *Additions for Oklahoma State sales tax.* Sellers may add to the prices listed in this Appendix A the sales tax required to be collected by the law of the State of Oklahoma. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

This order shall become effective September 5, 1946.

(56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E. O. 9250, 7 F. R. 7871; and E. O. 9328, 8 F. R. 4681)

Issued at Oklahoma City, Oklahoma, this 5th day of September 1946.

JOHN M. VARNELL,
District Dirccto.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 7 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Oklahoma City District of the Office of Price Administration by General Order No. 68 and Regional Delegation of Authority No. 126, the accompanying Amendment No. 1 to Order No. 7 has been issued establishing maximum prices for retail sales of certain specified building materials.

This amendment grants certain increases in prices which reflect price increases provided in Supplementary Order No. 172 and a 6% freight increase which was not considered in the price list dated August 19, 1946. It also reflects all authorized price increases up to and including August 24, 1945, the date of Appendix A in this amendment.

All other provisions to Order No. 7 under General Order No. 68 remain the same except where its provisions may be inconsistent with the revised price list in Appendix A hereof.

[F. R. Doc. 46-17389; Filed, Sept. 25, 1946; 8:48 a. m.]

[Twin Cities Order G-12 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN ALBERT LEA, MINN., AREA

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G-12 issued under the authority of General Order No. 68 is amended in the following:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this Amendment cannot be increased under that supplementary order.

This Amendment No. 1 to Order No. G-12, under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August 1946.

CAREL C. KOCH,
District Director.

APPENDIX A

Commodity and unit	*Maximum prices*
Plaster, hardwall, paper bag	$1.10
Keene's cement, 100-lb. paper bag	2.45
Finishing lime, 50-lb. paper bag	.84
Gypsum lath, $\frac{3}{8}$", sq. yd	.30
Metal lath, 2.5-lb., PDM (26 ga.), sq. yd	.32
Metal lath, 3.4-lb., PDM (24 ga.), sq. yd	.41
Corner bead, straight edge, lin. ft	.055
Portland cement, paper bag	.76½
Portland cement, cloth bag (maximum price in cloth bag does not include bag deposit)	.71½
Mason's hydrated lime, 50-lb. paper bag	.62
Portland cement (white), paper bag	2.50
Vitrified clay drain tile, 4", lin. ft	.06
Vitrified clay drain tile, 6", lin. ft	.10
Vitrified clay sewer pipe, 4", lin. ft	.25
Vitrified clay sewer pipe, 6", lin. ft	.34
Flue lining, 8½" x 8½", lin. ft	.46½
Flue lining, 8½" x 12½", lin. ft	.71
Flue lining, 12½" x 12½", lin. ft	.85
Gypsum wallboard, $\frac{3}{8}$", sq. ft	.045
Gypsum sheathing, ½", sq. ft	.045
Gypsum wallboard, ½", sq. ft	.05
Asphalt roofing, mineral surface (90-lb. roll), per roll	3.04
Asphalt or tarred felt, 15-lb. or 30-lb., per roll	2.95
Asphalt shingles (3 in 1), 210-lb., thick butt, per sq	7.08

No. 189——18

APPENDIX A—Continued

Commodity and unit	*Maximum prices*
Fibre insulation board, ½" lath and bd., sq. ft.	$0.054
25/32" asphalt coated and impregnated insulating sheathing, sq. ft.	.084
Hard density synthetic fibre board, ⅛" tempered (standard size), sq. ft.	.10
Thermal insulation, plain, loose in bags, per bag	1.10

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–12 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946 requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946 in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17371; Filed, Sept. 25, 1946; 8:51 a. m.]

[Oklahoma City Order 6 Under Gen. Order 68, Amdt. 1]

CERTAIN BUILDING MATERIALS IN COMANCHE COUNTY, OKLA.

For the reasons set forth in the opinion issued simultaneously herewith and under the authority vested in the District Director of the Oklahoma City District of the Office of Price Administration by General Order No. 68 and Regional Delegation of Authority No. 126, Order No. 6 establishing maximum prices for retail sales of certain building materials in Comanche County, Oklahoma, is amended in the following respects: Appendix A is amended to read as follows:

APPENDIX A

[Maximum prices for retail sales of specified building materials when sold in Comanche County, Okla., the prices listed hereon include all legal increases up to and including August 24, 1946]

Approved Maximum Retail Prices F. O. B. Plant, Yard or Delivered in the Free Delivery Zone

Item being priced and unit	
Vitrified clay sewer pipe 155 lb. 4", M lin. ft.	$250.00
Clay drain tile 4", M lin. ft.	85.00
Gypsum lath ⅜", M sq. ft.	28.00
Gypsum sheathing ½" (gyp-lap), M sq. ft.	43.00
Fiber insulation board 25/32" asphalt sheathing, M sq. ft.	85.25
Asbestos cement siding 12" x 24" or 27" standard colors including white, square	9.50
Asbestos cement siding 12" x 24" or 27" extra hard surface, square	10.00
Asphalt or tarred felt 15 lb. or 30 lb., roll	3.00

Plaster, hardwall 10-lb. bag, 10-lb. bag	.25
Plaster, hardwall 100-lb. bag, 100-lb. bag	1.00
Brick pattern siding 105-lb., roll	4.65

1. *Additions for the extension of credit.* The following additions for the maximum prices hereinabove established may be made for the extension of credit beyond 30 days:

(a) Sellers who were in business during March 1942 are permitted to add prices established hereinabove for the extension of credit beyond a period of 30 days the same additions that they had in effect during March 1942 for the same type and quantity of sale. If no extra charges were made for the extension of credit during March 1942, none may be added.

(b) Sellers who were not in business during March 1942 are permitted to make the same charge for the extension of credit which their most closely competitive seller is permitted to make under the provisions of this order.

2. *Additions for delivery.* No additions for delivery may be made to the prices hereinabove listed except a charge of 35¢ may be made for deliveries to any point which is not more than 5 miles distant from the corporate limits of any city or town in which a dealer's business is located. A charge of 35¢ on deliveries beyond points within 5 miles of the corporate limits of the city or town and an additional charge of 10¢ per mile, one way, may be made. All customary discounts must be continued as required by the Maximum Price Regulations which were controlling these commodities prior to the issuance of this order.

3. *Additions for Oklahoma State sales tax.* Sellers may add to the prices listed in this Appendix A the sales tax required to be collected by the law of the State of Oklahoma. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

This order shall become effective September 6, 1946.

(56 Stat. 23, 765 Stat. 566; Pub. Law 383, 78th Cong.; E. O. 9250, 7 F. R. 7871; and E. O. 9328, 8 F. R. 4681)

Issued at Oklahoma City, Oklahoma, this 6th day of September 1946.

JOHN N. VARNELL,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 6 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Oklahoma City District of the Office of Price Administration by General Order No. 68 and Regional Delegation of Authority No. 126, the accompanying Amendment No. 1 to Order No. 6 has been issued establishing maximum prices for retail sales of certain specified building materials.

This amendment grants certain increases in prices which reflect price increases provided in Supplementary Order No. 172 and a 6% freight increase which was not considered in the price list dated August 19, 1946. It also reflects all authorized price increases up to and including August 24, 1946, the date of Appendix A in this amendment.

All other provisions to Order No. 6 under General Order No. 68 remain the same except where its provisions may be inconsistent with the revised price list in Appendix A hereof.

[F. R. Doc. 46-17388; Filed, Sept. 25, 1946; 8:46 a. m.]

[Region III, Order 23, Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN CANTON, OHIO, AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1–B, *It is hereby ordered*, That:

(a) Table I, Table II, and Table III of Order No. G–28 be amended to read as set forth in the price lists marked Table I, Table II, and Table III, which are annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price lists contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G–28 shall become effective August 20, 1946.

Issued August 20, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I

Commodity and unit	*Maximum prices*
Plaster, hardwall, 100 lb. sack	$1.20
Plaster, gauging white, 100 lb. sack	2.00

TABLE III

[Commodities sold to contractors in carload lots, f. o. b., freight cars]

Commodity and Unit	*Maximum price*
Portland cement (paper sack), Barrel	$2.53
Portland cement (cloth sack), Barrel	2.78

Delivery charges. (i) The maximum prices listed in Tables I and II include free delivery of any of the listed hard building materials to any point within the corporate limits of the city or town wherein the seller's place of business is located.

(ii) When delivery of any of the listed hard building materials is made to any point beyond the free delivery zone, described in subparagraph (i) above, the seller shall charge no more than he charged in March 1942, for the same or similar delivery service.

(iii) No deduction need be made from the maximum prices listed in Tables I or II where the purchaser elects to make his own delivery.

Discounts. Separate price lists are contained in the attached tables for sales in quantities of one and one-half ton truckloads or more to contractors, to contractors in carload lots, and in lesser quantities to any purchaser. Sellers shall not charge more for any of the listed items than is set forth in the applicable table.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–28 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[F. R. Doc. 46-17380; Filed Sept. 25, 1946; 8:54 a. m.]

[Region III Order G–31 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN CLARKSBURG, W. VA., AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1–B, *It is hereby ordered*, That:

(a) Table I of Order No. G–31 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G–31 shall become effective August 21, 1946.

Issued August 21, 1946.

JOHN F. KESSEL,
Regional Administrator.

TABLE I—MAXIMUM DELIVERED[1] PRICES FOR RETAIL SALES OF LISTED HARD BUILDING MATERIALS IN THE CLARKSBURG, WEST VIRGINIA AREA

Commodity and unit	*Price*
Plaster, hardwall, 100-lb. bag	$1.12
Plaster, gauging, 100-lb. bag	2.12

Asphalt or tarred felt, 15 lb., 432 sq. ft	2.78
Asphalt or tarred felt, 30 lb., 216 sq. ft	2.78
Asphalt shingles, 210 lb. (3 in 1) thickbutt, 100 sq. ft	6.71
Asphalt shingles, 165 lb. 2 tab hexagon, 100 sq. ft	5.09
Fibre insulation board, 1/2 inch standard lath and board, 1,000 sq. ft	58.75
Fibre insulation board, 25/32 inch asphalt sheathing, 1,000 sq. ft.	84.50
Asbestos cement siding, 12 inch x 24 inch or 27 inch white, 100 sq. ft.	8.51
Asbestos cement siding, 12 inch x 24 inch or 27 inch white glazed, 100 sq. ft	11.03
Asbestos cement siding, 12 inch x 24 inch or 27 inch green, 100 sq. ft.	10.50
Asbestos cement siding, 12 inch x 24 inch or 27 inch black, 100 sq. ft.	9.98
Asbestos cement siding, 12 inch x 24 inch or 27 inch standard colors, 100 sq. ft	8.09
Standard density synthetic fibre board, 5/16 inch (4 x 8), 1,000 sq ft.	90.00
Hard density synthetic fibre board, 1/8 inch tempered (standard size), 1,000 sq. ft	95.00
Thermal insulation blankets (paper backed) medium, 1,000 sq. ft.	65.00
Thermal insulation blankets (paper backed) medium (Kimsul), 1,000 sq. ft	47.05
Thermal insulation blankets (paper backed) single, 1,000 sq. ft.	45.00
Thermal insulation batts (paper backed) full thick, 1,000 sq. ft.	65.00
Thermal insulation, loose in bags (plain), 35 lb. bag	1.00

[1] *Delivery.* Sellers located within the corporate limits of Clarksburg, shall deliver free of charge to any point within Clarksburg. Sellers located within the Clarksburg Area (as defined in section 1 of this order) but outside the corporate limits of Clarksburg, shall deliver free of charge to any point within a radius of ten miles of their places of business. Deliveries to points outside these free delivery zones shall be at rates not exceeding the seller's March 1942 delivery rates and charges.

NOTE: Purchasers are entitled to a refund of ten cents for each empty cloth cement bag returned to the seller.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-31 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[Region III Order G-56 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN MONTGOMERY COUNTY, OHIO, AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B, *It is hereby ordered*, That:

(a) Table I of Order No. G-56 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G-56 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I—MAXIMUM DELIVERED PRICES FOR LISTED HARD BUILDING MATERIALS WHEN SOLD AT RETAIL IN MONTGOMERY COUNTY, OHIO (EXCLUDING THEREFROM, CITY OF DAYTON, BEAVERTON, INGLEWOOD, OAKWOOD, WRIGHT FIELD (AREAS A AND B))

Commodity and unit	*Price delivered and yard*
Plaster, hard wall, ton	$19.00
Plaster, hard wall, 100-lb. bag	1.05
Gauging plaster, 100-lb. bag	1.05
Keene's cement, 100-lb. bag	2.50
Finishing lime, 50-lb. bag	.56
Gypsum lath 3/8", 1,000 sq. ft.	25.00
Metal lath, painted, 2.5 lb., sq. yd.	.2787
Metal lath, plain corner bead, lin. ft	.0363
Portland cement, standard (paper) 94-lb. bag	.765
Masonry mortar, 70-lb. bag	.715
Mason's hydrated lime, 50-lb. bag	.56
Fire brick 9" straight first quality, 1,000	75.00
Vitrified clay sewer pipe No. 1SS, 4", lin. ft	.2166
Vitrified clay sewer pipe No. 1SS 6", lin. ft	.3192
Flue lining 9 x 9, lin. ft	.4104
Flue lining 9 x 13, lin. ft	.6270
Flue lining 13 x 13, lin. ft	.7752
Gypsum wallboard 3/8 inch, 1,000 sq. ft	40.00
Asphalt roofing 90-lb. mineral surface, 108 sq. ft. roll	2.61
Asphalt or tarred felt, 15 lb., 432 sq. ft. roll	2.84
Asphalt or tarred felt, 30 lb., 216 sq. ft. roll	2.84
Asphalt shingles 210 lb. (3 in 1) thickbutt, 100 sq. ft.	6.29
Asphalt shingles 165 lb. 2 tab. hexagon, 100 sq. ft.	4.72
Fibre insulation board 1/2 inch standard, 1,000 sq. ft.	48.38
Hard density synthetic fibreboard, 1/8 inch tempered (standard size), 1,000 sq. ft.	100.00
Thermal insulation loose in bags (plain), 35-lb. bag	.95

Discounts. Sellers covered hereby shall not reduce or discontinue any allowances or discounts offered in March 1942.

Delivery. The prices set out in Table I above include all additions or charges for delivery. No deduction need be made from the prices set out in Table I, above, where the purchaser elects to make his own delivery.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-56 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[F. R. Doc. 46-17378; Filed, Sept. 25, 1946; 8:53 a. m.]

[Region III Order 60 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN PADUCAH, KY., AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B, *It is hereby ordered*, That:

(a) Table I of Order No. G-60 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of resellers maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G-60 shall become effective August 21, 1946.

Issued August 21, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I

Commodity and unit	*Price*
Plaster, hardwall, 100-lb. bag	$1.15
Plaster, gauging, 100-lb. bag	1.75
Plaster, moulding, 100-lb. bag	2.00
Keene's cement, 100-lb bag	2.50
Finishing lime, 50-lb. bag	.84
Gypsum lath, 3/8-in., sq. ft	.03
Metal lath, 2.5-lb. painted diamond mesh, sq. yd	.3345
Metal lath, corner bead, expanded type, lin. ft	.0514
Portland cement, standard (paper bags), 94-lb. bag	.765
Masonry mortar (paper bags), 75-lb. bag	.715
Mason's hydrated lime, 50-lb. bag	.62
Clay drain tile, 3-in., lin. ft	.05
Clay drain tile, 4-in., lin. ft	.07
Vitrified clay sewer pipe, No. 1SS, 4-in., lin. ft	.171
Vitrified clay sewer pipe, No. 1SS, 6-in., lin. ft	.2736
Gypsum wallboard, 3/8-in., sq. ft	.04 1/2
Asphalt roofing, 90-lb., mineral surface, 108 sq. ft. roll	2.76
Asphalt or tarred felt, 15-lb., 432 sq. ft. roll	2.72
Asphalt or tarred felt, 30-lb., 216 sq. ft. roll	2.72
Asphalt shingles, 210-lb. (3-in-1) thickbutt, 100 sq. ft	6.03
Asphalt shingles, 165-lb, 2-tab hexagon, 100 sq. ft	4.72
Fibre insulation board, 1/2-in. standard lath and board, sq. ft	.0538
Asbestos cement siding, 12 x 24 or 27 in., standard colors, 100 sq. ft.	8.50
Hard density synthetic fibre board, 1/8-in. tempered (standard size), sq. ft	.12 1/2
Thermal insulation, blankets (paper backed) thick, sq. ft	.05 1/2
Thermal insulation, batts (paper backed) full thick, sq. ft	.06 1/2
Thermal insulation, loose in bags (plain), 40-lb. bag	1.25

Discounts. No seller covered hereby shall discontinue or reduce any of the discounts, allowances, or differentials offered by him in March 1942, for any item listed in Table I, hereof.

Delivery charges. (1) The prices set forth in Table I, hereof, include free delivery to any point within a radius of five miles of the seller's place of business, for sales of ten dollars or more. (2) On sales of ten dollars or less, a seller may charge not more than fifty cents for delivery within the zone described in (1) above. (3) A charge of not more than twenty-five cents for every mile, or fraction thereof, by which a point of delivery is located beyond the zone described in (1) above, may be made by sellers covered hereby where delivery is made to such point. (4) No deduction need be made from the prices set forth in Table I, where the purchaser elects to make his own delivery.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-60 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[F. R. Doc. 46-17377; Filed, Sept. 25, 1946; 8:53 a. m.]

[Region III Order G-118 Under Gen. Order 68]

HARD BUILDING MATERIALS IN NEW PHILADELPHIA, OHIO, AREA

For the reasons set forth in an opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68, and of Regional Basic Order No. 1-B under General Order No. 68, this order is issued:

SECTION 1. *What this order does.* This adopting order establishes dollars-and-cents maximum prices for the hard building materials listed in Table I, hereof, when sold at retail at or from any point within the New Philadelphia, Ohio, Area.

SEC. 2. *Area covered.* For the purposes of this order, the "New Philadelphia, Ohio, Area" consists of the County of Tuscarawas in the State of Ohio.

SEC. 3. *Applicability of Basic Order No. 1-B.* All the provisions of Basic Order No. 1-B, consistent with this Order No. G-118 are hereby adopted by, and incorporated by reference into, this order as though fully rewritten herein. If Basic Order No. 1-B is amended in any respect, all of the provisions of that order, as amended, shall likewise, without other action, be a part of this order.

All persons subject to this adopting order are also subject to, and should read and be familiar with, the provisions of Basic Order No. 1-B.

SEC. 4. *Maximum prices*—(a) *Price list.* The maximum prices for hard building materials covered by this order shall be

those set forth in Table I, which is annexed to, and made a part of, this order. Prices lower than the listed maximum prices, may of course, be charged or paid.

(b) *Delivery.* (i) No seller shall charge more for delivery of items covered hereby than he did in March, 1942, for the same or similar delivery service.

(ii) No deduction need be made from from the prices set forth in Table I, where the purchaser elects to make his own delivery.

(c) *Discounts.* No seller covered hereby shall discontinue or reduce any allowances or discounts on items covered hereby which he offered in March 1942.

SEC. 5. *Effective date.* This order No. G–118 shall become effective September 5, 1946.

Issued August 22, 1946.

J. F. KESSEL,
Regional Administrator.

TABLE I

Commodity and unit	Maximum price
Plaster, hardwall, 100-lb. bag	$1.05
Plaster, gauging (white), 100-lb. bag	2.00
Finishing lime, 50-lb. bag	.50
Gypsum lath, ⅜-inch, 1,000 sq. ft.	28.00
Metal lath, 2.5 lb., painted diamond mesh, sq. yd.	.31
Metal lath, corner bead, expanded type, lin. ft.	.04
Portland cement, standard (paper bag), 94-lb. bag	.80
Masonry mortar (paper bag), 70-lb. bag	.70
Mason's hydrated lime, 50-lb. bag	.50
Gypsum wallboard, ⅜-inch, 1,000 sq. ft.	50.00
Asphalt roofing, 90-lb., mineral surface, 1st quality, roll (108 sq. ft.)	3.10
Asphalt or tarred felt, 15-lb., 1st quality, roll (432 sq. ft.)	2.70
Asphalt or tarred felt, 30-lb., 1st quality, roll (216 sq. ft.)	2.70
Asphalt shingles, 210-lb., (3-in-1) thickbutt, square	7.35
Fibre insulation board, ½-inch, standard lath and board, 1,000 sq. ft.	60.00
Fibre insulation board, $\frac{25}{32}$ inch, nsphalt sheathing, 1,000 sq. ft.	74.00
Asbestos cement siding, 12 x 24 in. or 27 in., standard colors, square	9.55
Hard density synthetic fibre board, ⅛ in., tempered, 1,000 sq. ft.	100.00
Thermal insulation batts (paper backed), full thick, 1,000 sq. ft.	66.00
Thermal insulation, loose in bags (plain), 35-lb. sack	1.30

Delivery. (i) No seller shall charge more for delivery of items covered hereby than he did in March, 1942, for the same or similar delivery service.

(ii) No deduction need be made from the prices set forth in Table I, where the purchaser elects to make his own delivery.

Discounts. No seller covered hereby shall discontinue or reduce any allowances or discounts on items covered hereby which he offered in March 1942.

OPINION ACCOMPANYING ORDER NO. G–118 UNDER GENERAL ORDER NO. 68

The accompanying order establishes area-wide prices for retail sales of hard building materials in the New Philadelphia, Ohio Area. The order is issued under the provisions of General Order No. 68 and adopts all the applicable provisions contained in Basic Order No. 1–B under General Order No. 68. The opinion accompanying said Basic Order No. 1–B is hereby incorporated by reference into this opinion.

The defined area covered by the accompanying Order includes the County of Tuscarawas in the State of Ohio.

The maximum prices established by the accompanying order supersede pricing provisions currently in effect for retail sales of the listed hard building materials in this area.

This action has been discussed with members of the trade in the area at informal meetings with representative dealers. Most of the dealers in attendance agreed that prices established by the accompanying order are in line with those formerly prevailing under the freeze. All suggestions and recommendations of the trade have been considered and have been incorporated into the accompanying order to the extent that these suggestions were consistent with the provisions of General Order No. 68 and the Emergency Price Control Act of 1942.

In the opinion of the Regional Administrator, the provisions of the accompanying order are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[F. R. Doc. 46–17376; Filed, Sept. 25, 1946; 8:53 a. m.]

[Region III Order G–59 Under MPR 592]

BARBOURVILLE BRICK CO., INC., ET AL

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation No. 592 and the Emergency Price Control Act of 1942, as amended, it is hereby ordered:

(a) *What this order does.* This Order No. G–59 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of brick produced by the Barbourville Brick Company, Barbourville, Indiana, hereinafter referred to as the manufacturer. The maximum prices of the manufacturer and the maximum prices of the resellers of such commodity are adjusted herein.

(b) *Manufacturer's adjusted maximum prices.* (1) Subject to the provisions of subsection (2) below, the adjusted maximum prices for sales by the manufacturer of brick produced by it shall be as follows:

Description:	Adjusted maximum price (per M)
Common brick	$22.25
Face brick	25.65
Double common	33.00
Double face	38.75

(2) The adjusted maximum prices granted in subsection 1 shall be contingent upon the manufacturer placing into effect the wage increase approved by the Wage Stabilization Board on July 30, 1946. The manufacturer shall certify to that effect to the Regional Office, Office of Price Administration, Cleveland, Ohio.

(c) *Resellers' adjusted maximum prices.* Any reseller of the commodities for which an adjustment is granted the manufacturer in (b) above may add to his maximum prices in effect immediately prior to the effective date of this order, to each class of purchaser, the percentage amount of any increase in his net invoiced cost resulting from the increases granted by the manufacturer by this order.

(d) *Discounts, allowances and special charges.* All sellers of the subject commodities must continue to maintain discounts, allowances and other price differentials, to each class of purchaser, at least as favorable as those which were in effect immediately prior to the effective date of this order, and are permitted to add to their maximum prices as adjusted herein, such charges for extras as were customarily added immediately prior to the effective date of this order.

(e) *Notification.* The manufacturer at or prior to the first billing reflecting the adjustment herein granted, shall send to each purchaser who resells the commodities covered by this order a notice of the price increases authorized by this order. Such notice shall contain substantially the following:

Order No. G–59 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of brick produced by the Barbourville Brick Company. Resellers may add to their maximum prices in effect immediately prior to the effective date of this order, to each class of purchaser, the percentage amount of increase in their net invoiced costs resulting from the increases granted to the manufacturer by this order.

(f) *Revocation and amendment.* This order may be revoked or amended at any time by the Office of Price Administration.

This order shall become effective September 17, 1946.

Issued September 17, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G–59 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying Order No. G–59 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of the maximum prices of brick produced by the Barbourville Brick Company, Barbourville, Kentucky, therein referred to as the manufacturer, and further provides for an adjustment of the maximum prices of the resellers of such commodity.

Maximum Price Regulation No. 592 authorizes the Regional Administrator, upon application, to adjust the maximum prices of certain commodities, including brick, which are produced by a supplier whose supply could not be replaced if the supplier discontinued production. Investigation has shown that the manufacturer is such a supplier.

The adjustment requested by the manufacturer is an overall adjustment of its maximum prices of brick by which, under the provisions of section 16 of Maximum Price Regulation No. 592, Regional Administrator may authorize increases in the maximum prices of the manufacturer's commodities in an amount sufficient to permit the recovery of total costs plus a reasonable margin of profit.

Analysis of the financial data submitted by the manufacturer discloses that it is not realizing total costs plus a reasonable margin of profit. It is, therefore, concluded that an adjustment should be granted. It is considered that the adjustment granted, while constituting the minimum required, is sufficient to enable the manufacturer to maintain a continued supply of the subject commodities.

It has been determined that resellers of the subject commodities would be unable to absorb the increases granted to the manufacturer and, accordingly, it is provided in the order that any reseller may add to his maximum prices in effect immediately prior to the effective date of this order, to each class of purchaser, the percentage amount of increase in his net invoiced cost resulting from the increases granted the manufacturer by such order.

The price increases established in the accompanying order were considered generally fair and equitable, in accordance with the provisions of Maximum Price Regulation No. 592, and consistent with the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46–17375; Filed, Sept. 25, 1946; 8:52 a. m.]

[Region III Order G–60 Under MPR 592]

W. L. EMERY

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation No. 592 and the Emergency Price Control Act of 1942, as amended, it is hereby ordered:

(a) *What this order does.* This Order No. G–60 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of sand and gravel processed by W. L. Emery, Detroit, Michigan, hereinafter referred to as the processor. The maximum prices of the processor and the maximum prices of the resellers of such commodities are adjusted herein.

(b) *Processor's adjusted maximum prices.* The adjusted maximum prices for sales by the processor of sand and gravel processed by it shall be its maximum prices in effect on June 13, 1946, to each class of purchaser, increased by 6.7%.

(c) *Resellers' adjusted maximum prices.* Any reseller of the commodities for which an adjustment is granted the processor in (b) above may add to his maximum prices in effect on June 13, 1946, to each class of purchaser, the dollar-and-cents amount of any increase in his net invoiced cost resulting from the increase granted the processor by this order.

(d) *Discounts, allowances and special charges.* All sellers of the subject commodities must continue to maintain discounts, allowances and other price differentials, to each class of purchaser, at least as favorable as those which were in effect on June 13, 1946, and are permitted to add to their maximum prices, as adjusted herein, such charges for extras as were customarily added on June 13, 1946.

(e) *Notification.* The processor, at or prior to the first billing reflecting the adjustment herein granted, shall send to each purchaser who resells the commodities covered by this order, a notice of the price increases authorized by this order. Such notice shall contain substantially the following:

Order No. G–60 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of maximum prices for the sale of sand and gravel processed by W. L. Emery. Resellers may add to their maximum prices in effect on June 13, 1946, to each class of purchaser, the dollar-and-cents amount of any increase in their net invoiced cost resulting from the increase granted to the processor by this order.

(f) *Revocation and amendment.* This order may be revoked or amended at any time by the Office of Price Administration.

This order shall become effective September 17, 1946.

Issued September 17, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G–60 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying Order No. G–60 under section 16 of Maximum Price Regulation No. 592 provides for an adjustment of the maximum prices of sand and gravel processed by W. L. Emery of Detroit, Michigan, (therein referred to as the processor) and further provides for an adjustment of the maximum prices of resellers of such commodities.

On June 14, 1946, an individual order and opinion, Docket No. 3–592–16–33 was issued granting the processor the same percentage of increase granted in this order. However, the order issued on June 14, 1946, failed to provide for any pass through to resellers of the subject commodities.

It has been determined that resellers of the subject commodities would be unable to absorb the increase granted the processor and, accordingly, the order of June 14, 1946, has been revoked and the accompanying order has been substituted. The accompanying order provides that any reseller may add to his maximum prices in effect on June 13, 1946, to each class of purchaser, the dollar-and-cents amount of increase in his net invoiced cost resulting from increases granted the processor by such order.

The price increases established in the accompanying order are considered generally fair and equitable, in accordance with the provisions of Maximum Price Regulation No. 592 and consistent with the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46–17374; Filed, Sept. 25, 1946; 8:52 a. m.]

[New Orleans 2d Rev. Order 1 Under Gen. Order 68, Amdt. 1]

BUILDING MATERIALS IN ORLEANS, JEFFERSON, AND ST. BERNARD PARISHES, LA.

For the reasons set forth in the opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68 and Regional Order of Delegation No. 126, Second Revised Order No. 1 under General Order No. 68, maximum prices for retail sales of certain building materials in Orleans, Jefferson, and St. Bernard Parishes, Louisiana, is amended in the following respects:

(1) Section A of Appendix A is amended to read as follows on the items named:

Cement:
Price includes 25¢ deposit per bag, if in cloth bags. Refund must equal deposit.
Portland cement (4) 94-lb. cloth bags, 376-lb. bbl., $4.21.
Magnolia or slag cement (4) 80-lb cloth bags, 320-lb. bbl., $4.21.
Wallboard:
½" square edge asphalt coated sheathing, 1,000 sq. ft., $65.84.*

(2) Section A of Appendix A is further amended to add thereto the following new items after the items appearing under the category of Masonite:

Categories and Items and Selling Unit—Maximum Prices for All Sales Delivered in Free Delivery Zone	
Gravel:	
Washed, cu. yd.	$3.45
Washed, 100-lb bag	.45
Washed (4 bags), 400-lb. bbl.	.90
Road, cu. yd.	3.85
Sand:	
Lake shore, mason and concrete, cu. yd.	2.80
Lake shore, mason and concrete, 100-lb. bag	.35
Lake shore, mason and concrete, (4 bags), 400-lb. bbl.	.70
Horn Island, cu. yd.	10.55
Horn Island, 100-lb. bag	.90
Horn Island, 400-lb. bbl.	2.35
Mortar, sanded lime, cu. yd.	5.50
Ready mixed concrete, standard Portland or regular cement:	
Type mix:	
1–4–8, cu. yd.	8.29
1–3–6, cu. yd.	8.86
1–3–5, cu. yd.	9.10
1–2½–5, cu. yd.	9.36
1–2½–4, cu. yd.	9.68
1–2–4, cu. yd.	9.92
1–2–3, cu. yd.	10.46
Topping:	
1–3, cu. yd.	11.43
1–2, cu. yd.	12.74
1–1½, cu. yd.	14.14
Strength concrete, 28 days:	
2,000 lb., cu. yd.	9.10
2,500 lb., cu. yd.	9.62
3,000 lb., cu. yd.	10.21
3,500 lb., cu. yd.	10.47
Ready mixed concrete, Incor or High Early Strength cement:	
Type mix:	
1–4–8, cu. yd.	9.05
1–3–6, cu. yd.	9.85
1–3–5, cu. yd.	10.13
1–2½–5, cu. yd.	10.39
1–2½–4, cu. yd.	10.82
1–2–4, cu. yd.	11.21
1–2–3, cu. yd.	12.17
Topping:	
1–3, cu. yd.	13.09
1–2, cu. yd.	16.00
1–1½, cu. yd.	18.02
Strength concrete:	
2,000 lb., cu. yd.	10.13
2,500 lb., cu. yd.	10.65
3,000 lb., cu. yd.	11.49
3,500 lb., cu. yd.	12.16

(a) Any delivery of less than one cubic yard of ready-mixed concrete is to be charged the same price as one cubic yard.

(b) For jobs using 100 cubic yards or more of ready-mixed concrete, the deliv-

ered price is subject to 10% allowance to be made available on the first 100 cubic yards by credit off of actual delivery, and thereafter by deduction from face of invoice.

(3) Section B, *Discounts*, of Appendix A is amended by inserting the following sentence:

On Ready-Mixed Concrete, the discount to be applied is 5% for cash within 15 days from date of sale.

This amendment shall become effective September 11, 1946.

(56 Stat. 23,765; 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub Law 548, 79th Cong.; E. O. 9250, 7 F. R. 7871; and E. O. 9328, 8 F. R. 4681)

Issued at New Orleans, La., this 6th day of September 1946.

GILBERT J. FORTIER,
District Director.

OPINION ACCOMPANYING AMENDMENT 1 TO SECOND REVISED ORDER NO. 1 UNDER GENERAL ORDER NO. 68

The basic reasons for the issuance of this Amendment No. 1, are the same reasons as those substantially set forth in the opinion accompanying Second Revised Order No. 1 under General Order No. 68 establishing maximum prices for retail sales of certain specified building materials in Orleans, Jefferson and St. Bernard Parishes, Louisiana.

Since the issuance of Second Revised Order No. 1, it is the finding of the District Director that certain necessary changes and additions should be made to Appendix A of said Second Revised Order No. 1, so as to reflect therein a specified price increase to resellers of cement in cloth bags and to resellers of ½" square edge asphalt coated sheathing. The District Director further finds that an increase of deposit on cloth bags for cement from ten cents to twenty-five cents a bag is permissible under Maximum Price Regulation No. 224, provided the refund equals the deposit. Therefore, this amendment adjusts the prices of cement in cloth bags to reflect the permitted increase.

The increase granted resellers of ½" square edge asphalt coated sheathing should permit resellers of this commodity to realize the same average percentage markup as was in effect on March 31, 1946. This action is necessary in order to reflect the increase in producers maximum price for this commodity, permitted by Order 1, Amendment 51 to Maximum Price Regulation No. 592.

The District Director further finds that from a careful analysis of an application filed under section 16 of Maximum Price Regulation No. 592, and from supporting financial data obtained by the Accounting Division of the New Orleans District O. P. A. Office, that all resellers of the new items covered by this amendment are entitled to the maximum prices set forth in Appendix A, as herein amended. Moreover, the New Orleans Market on such building materials has always been one of historical price unity. The maximum prices covered by this amendment for ready-mixed concrete includes all increases permitted by Amendment 34 to Order 1 of Maximum Price Regulation No. 592, thus permitting manufacturers of this commodity to sell ready-mixed concrete at the maximum price established by this Amendment No. 1.

It is, therefore, the finding of the District Director that Amendment No. 1 to Second Revised Order No. 1 has been issued in conformity with provisions and requirements of standards set forth in General Order 68 and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and is consistent with Executive Orders 9250 and 9328 and Public Law 548, 79th Cong. For the foregoing reasons, the District Director has issued the accompanying Amendment No. 1 to Second Revised Order No. 1.

[F. R. Doc. 46-17384; Filed, Sept. 25, 1946; 8:55 a. m.]

[Little Rock Order 10 under Gen. Order 68]

CONCRETE BLOCKS IN ARKANSAS

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68, it is hereby ordered:

SECTION I. *What this order does.* This order establishes maximum prices for all sales of concrete blocks specifically described in Appendix A, which conform to specifications in Appendix B, when such sales are made in the State of Arkansas.

SEC. II. *Definition of "sale."* The term "sale", as used in this order, means any sale of concrete blocks to a building contractor or other ultimate consumer.

SEC. III. *Maximum prices.* Maximum prices for concrete blocks are those set forth in Appendix A, which is specifically made a part of this order, subject to the terms and conditions of sale and other limitations hereinafter set forth.

SEC. IV. *Specifications.* Specifications for concrete blocks are those set forth in Appendix B, which is specifically made a part of this order.

SEC. V. *Terms of sale.* All concrete blocks shall be sold at prices established in Appendix A, subject to the following terms of sale:

(A) *Discount terms.* Maximum prices f. o. b. the plant are subject to a cash discount of 2% for ten (10) days.

(B) *Delivery charges.* The following delivery charges may be added to all sales of concrete blocks f. o. b. the plant:

(1) *Common or contract carrier.* The actual cost of transportation by common or contract carrier may be added.

(2) *Private trucks.* The following amounts may be added for transportation by any truck owned or controlled by the seller.

(a) For distances up to and including ten (10) miles, 60¢ per 1,000 pounds of estimated weight.

(b) For distances up to and including twenty (20) miles, 80¢ per 1,000 pounds of estimated weight.

(c) For all distances in excess of thirty (30) miles, the seller may charge at the carload rate for the most similar haul or $1.20 per 1,000 pounds of estimated weight, whichever is the greater.

(C) *Minimum delivery charges.* For delivery of complete order of concrete blocks the estimated weight of which is less than 3,000 pounds, minimum charges may be added as follows:

(1) For distances up to and including ten (10) miles—$1.50

(2) For distances over ten (10) up to and including twenty (20) miles—$2.00.

(3) For distances over twenty (20) up to and including thirty (30) miles—$2.50.

"Distances," as used in this section, means the distance from the plant to the point of destination as measured by the speedometer. No addition may be made for the return trip.

"Weights," as used in this order, shall be the weights computed by the use of estimated weights as shown in Appendix A of this order.

SEC. VI. *Invoicing and record keeping provisions.* (A) Each seller covered by this order is required to furnish each purchaser with an invoice on all sales in excess of $15.00 at the time of such sale which invoice shall contain the following information:

(1) Name and address of purchaser and place of delivery, if different from purchaser's address.

(2) A description of the concrete blocks sold, setting forth the size, grade and specifications of such blocks as contained in Appendix A and B of this order.

(3) The quantity of concrete blocks sold.

(4) The amount of discount allowed for payment within ten days.

(5) Transportation charges separately stated on invoice.

(6) Where an invoice for the sale of concrete blocks does not contain a sufficiently complete description to show that the price appearing on its face is within the maximum prices fixed by this order, the maximum price applicable to such sale shall be the maximum price of the lowest priced block under this order to which the incomplete description could apply. In the absence of any description, the maximum price shall be the lowest price that can be computed under this order.

(B) Each seller is required to keep a duplicate of all invoices of sales made by him at his place of business and make such invoices available for inspection by the OPA during his legal hours of business.

(C) Each seller making sales subject to this order shall, if requested by any purchaser of concrete blocks, make available to such purchaser for inspection a copy of this order.

SEC. VIII. *Enforcement.* (A) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(B) Persons who have any evidence of any violations of this order are urged to communicate with the Little Rock District Office of the OPA.

This order may be amended, modified or revoked at any time by the OPA.

This order shall become effective September 6, 1946.

Issued at Little Rock, Arkansas, this 4th day of September 1946.

ROBERT P. HALL,
District Director.

APPENDIX A

MAXIMUM PRICES PER UNIT FOR ANY QUANTITY SALE OF CONCRETE BLOCKS F. O. B. PLANT WHEN SOLD IN THE STATE OF ARKANSAS

Nominal size (inches)	Estimated weight for delivery purposes only (pounds)	Contents (cubic inches) (over-all)	Load bearing		Non-load bearing
			Grade A	Grade B	
4 x 8 x 6	8	192	$0.06	$0.05	$0.04
8 x 8 x 4	10	256	.07	.06	.05
6 x 8 x 6	12	288	.09	.07	.06
4 x 6 x 12	12	288	.09	.07	.06
4 x 8 x 12	16	384	.11	.09	.07
8 x 8 x 6	16	384	.11	.09	.07
4 x 8 x 16	22	512	.13	.11	.09
8 x 8 x 8	22	512	.13	.11	.09
6 x 8 x 12	25	576	.14	.12	.10
6 x 8 x 16	35	768	.17	.15	.13
8 x 8 x 12	35	768	.17	.15	.13
12 x 6 x 12	38	864	.19	.17	.14
8 x 8 x 14	40	896	.20	.18	.15
8 x 8 x 16	45	1,024	.22	.20	.17
12 x 8 x 12	50	1,152	.25	.23	.19
12 x 8 x 16	70	1,536	.33	.31	.27

Maximum prices for sizes not listed but which result in cubic inch content identical with a listed size, subject to the 3% permissible variations in dimensions, must not exceed the maximum price for the listed size.

Maximum prices for sizes not listed but which result in a cubic inch content other than shown hereon, subject to permissible tolerance, must not exceed the maximum price for the next lower cubic inch content listed.

Maximum prices listed are for plain concrete blocks.

The following additions may be made where these operations are included in the finished product:

For rock, brick, or panel face blocks: Add 1¢ each.

For corner, jamb and sash blocks: Add 1¢ each.

For, if the purchaser so requests, application of waterproofing or coloring compounds to the face of the block after curing: Add 1¢ each.

Where special shapes and specifications are involved, manufacturers must conform to provisions of OPA Regulation 592 for individual pricing by application.

APPENDIX B

SPECIFICATIONS COVERING CONCRETE BLOCKS WHEN SOLD IN THE STATE OF ARKANSAS

Standard specifications of the American Society of Testing Materials as hereinafter set forth are specifically made a part of this order for—

Load Bearing Blocks

A. S. T. M. C90-44

Scope. 1. These specifications cover hollow load-bearing concrete masonry wall units made from portland cement and suitable aggregates such as sand, gravel, crushed stone, bituminous or anthracite cinders, burned clay or shale, and blast-furnace slag.

NOTE: When a particular surface texture, finish, or uniformity of color is desired, these features should be specified separately by the purchaser.

Cinder aggregate. 2. The combustible content present in cinder aggregate shall not exceed 35 per cent of the weight of the aggregate.

Physical requirements. 3. At the time of delivery to the site of the work, the units shall conform to the physical requirements prescribed in Table I.

TABLE I—PHYSICAL REQUIREMENTS

Minimum face shell thickness (inches)	Compressive strength, min., psi. (average cross area)		Water absorption, max., lb. per cu. ft. (average of 5 units)	Moisture content, max., percent (average of 5 units)
	Average of 5 units	Individual unit		
1¼ or over:				
Grade A [1]	1,000	800	15	40
Grade B [2]	700	600		40
Under 1¼ and over ¾ [3]	1,000	800	15	40

[1] For use in exterior walls below grade, and for unprotected exterior walls above grade.

[2] For general use above grade where protected from the weather with two coats of portland cement paint or other satisfactory waterproofing treatment approved by the purchaser.

[3] For purpose of this order, such concrete blocks shall be considered the equivalent of Grade A.

Permissible variations in dimensions. 4. No over-all dimension shall vary more than 3 per cent over or under the specified dimension for any form of unit.

Visual inspection. 5. (a) All units shall be sound and free from cracks or other defects that would interfere with the proper placing of the unit or impair the strength or permanence of the construction.

(b) Units that are intended to serve as a base for plaster or stucco shall have a sufficiently rough surface to afford good bond.

Marking. 6. All units shall bear a distinctive mark of the manufacturer or shall be otherwise readily identified as to origin.

Sampling and testing. 7. (a) The purchaser or his authorized representative shall be accorded proper facilities to inspect and sample the units at the place of manufacture from the lots ready for delivery.

At least ten days should be allowed for completion of the tests.

(b) Units shall be sampled and tested in accordance with the Standard Methods of Sampling and Testing Concrete Masonry Units (A. S. T. M. Designation: C 140) of the American Society for Testing Materials.

Rejection. 8. In case the shipment fails to conform to the requirements, the manufacturer may sort it, and new specimens shall be selected from the retained lot and tested at the expense of the manufacturer. In case the second set of specimens fails to conform to the test requirements, the entire lot shall be rejected.

Expense of tests. 9. Except as specified in section 8, and unless otherwise agreed (see note), the expense of inspection and testing shall be borne by the purchaser.

NOTE: For the purpose of this order, the expense of test or tests to determine the grade of blocks in their application to this order shall be borne by the seller.

Non-Load Bearing Blocks

A. S. T. M. C129—39

Scope. 1. These specifications cover hollow non-load-bearing concrete masonry wall units made from portland cement and suitable aggregates such as sand, gravel, crushed stone, bituminous or anthracite cinders, burned clay or shale, and blast furnace slag.

NOTE: When a particular surface texture, finish, or uniformity of color is desired, these features should be specified separately by the purchaser.

Cinder aggregate. 2. The combustible content present in cinder aggregate shall not exceed 35 per cent of the weight of the aggregate.

Physical requirements. 3. At the time of delivery to the site of the work, the units shall conform to the physical requirements prescribed in Table I.

Dimensions and permissible variations. 4. (a) Minimum face shell thickness shall be not less than ½ in.

(b) No over-all dimension shall vary more than 3 percent over or under the specified dimension for any form of unit.

Visual inspection. 5. (a) All units shall be sound and free from cracks or other defects that would interfere with the proper placing of the unit.

(b) Units that are intended to serve as a base for plaster or stucco shall have a sufficiently rough surface to afford good bond.

TABLE I—PHYSICAL REQUIREMENTS

Compressive strength, min., psi. (average cross area)		Moisture content, max., percent of total absorption (average of 5 units)
Average of 5 units	Individual unit	
350	300	40

Marking. 6. All units shall bear a distinctive mark of the manufacturer or shall be otherwise readily identified as to origin.

Sampling and testing. 7. (a) The purchaser or his authorized representative shall be accorded proper facilities to inspect and sample the units at the place of manufacture from the lots ready for delivery. At least ten days should be allowed for completion of the tests.

(b) Units shall be sampled and tested in accordance with the Standard Methods of Sampling and Testing Concrete Masonry Units (A. S. T. M. Designation: C 140) of the American Society for Testing Materials.

Rejection. 8. In case the shipment fails to conform to the requirements, the manufacturer may sort it, and new specimens shall be selected by the purchaser from the retained lot and tested at the expense of the manufacturer. In case the second set of specimens fails to conform to the test requirements, the entire lot shall be rejected.

Expense of tests. 9. Except as specified in section 8, and *unless otherwise agreed* (see note), the expense of inspection and testing shall be borne by the purchaser.

NOTE: For the purpose of this order, the expense of test or tests to determine the grades of blocks in their application to this order shall be borne by the seller.

Sampling and Testing

A. S. T. M. C140-39

Number of specimens. For the strength, absorption and moisture content determinations, 10 individual units shall be selected from each lot of 10,000 units or fraction thereof and 20 individual units from each lot of more than 10,000 and less than 100,000 units. For lots of more than 100,000 units, 10 individual units shall be selected from each 50,000 units or fraction thereof contained in the lot. In no case shall less than 10 units be taken. Additional specimens may be taken at the discretion of the purchaser.

Copies of all test reports on concrete blocks are to be filed with the Office of Price Administration, Building Materials Unit, Little Rock, Arkansas, as a matter of record and are to determine the grade and maximum prices of blocks under this order.

OPINION ACCOMPANYING ORDER NO. 10, UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Little Rock District Office by General Order No. 68 and

Order of Delegation No. 126, issued by the Regional Administrator of Region V, the accompanying Order No. 10 has been issued establishing maximum prices for sales of concrete blocks. This order establishes maximum prices for all sales of concrete blocks when made in the geographical area comprising the State of Arkansas.

Under the provisions of General Order No. 68 and Delegation of Authority No. 126, from the Regional Administrator of Region V, the District Director is authorized to issue and put into effect pricing orders for the concrete blocks included in said Order No. 10, in accordance with the Emergency Price Control Act of 1942, as amended, and consistent with Executive Orders 9250 and 9328.

Section (b) of General Order No. 68 requires that the District Director in issuing such orders, observe the following standards:

(1) Maximum prices shall be stated in dollars-and-cents terms unless this shall clearly appear to be impracticable or inappropriate.

(2) Maximum prices fixed by any such pricing order shall not exceed the general level of prices in the area.

In accordance with this authority, the District Director has issued Order No. 10, under General Order No. 68.

Prior to the issuance of this order, the maximum prices for sales of concrete blocks covered thereby were established by the provisions of the General Maximum Price Regulation and other maximum price regulations, which did not establish dollars-and-cents maximum prices, but rather established sellers' maximum prices as the highest prices which they charged during March of 1942, or a specified freeze date.

Subsequent to this freeze date, the manufacture of concrete blocks has rapidly expanded in the State of Arkansas. Records of the Little Rock District Office reflect that only two sellers out of 150 manufacturers of concrete blocks in the state have properly established prices.

It has been determined that the freeze date technique of establishing maximum prices has in many instances made it difficult for both seller and buyer of building material items covered by Order No. 10 to determine whether the prices charged or paid are in compliance with the applicable maximum price regulation.

It is the finding of the District Director that the issuance of Order No. 10 is in conformity with the present program of the Office of Price Administration to establish dollars-and-cents prices on concrete blocks and that a simplified pricing method easily understood and applied by both the buyer and the seller is urgently needed, and is accomplished by the issuance of Order No. 10.

The District Director has observed the above quoted standards set forth in General Order No. 68 in issuing Order No. 10. It sets forth specific dollars-and-cents prices which may be charged for concrete blocks. It further establishes maximum prices which are in line with the level of prices which existed in Arkansas under the provisions of Maximum Price Regulations applicable prior to the issuance of this order.

The level of prices as expressed in Order No. 10 was determined by calculations based on prices which have been previously granted to one of the manufacturers of concrete blocks by this office under section 10 of MPR 592.

Preliminary to any action being taken by the Little Rock District Office in establishing maximum prices for concrete blocks, an advisory group of sellers who would be affected by said order were consulted. This advisory group advised that uniform prices would stabilize the market and would assist both producer and purchaser, and they recommended unanimously that this office issue an order establishing such prices. Information as to trade practices and other pertinent facts and suggestions were also obtained from this group, and consideration has been given to the recommendations and suggestions made by the industry group with whom representatives of the District Office consulted prior to the issuance of this order.

Insofar as practicable, the order recognizes and perpetuates business practices which have been in effect in the area covered by the order.

In order to effectuate the purposes herein expressed, sellers subject to Order No. 10 are required to keep certain records and give to their customers sales slips or invoices containing specified information, which requirements are set forth in section VI of the order.

It is, therefore, the finding of the District Director that Order No. 10 has been issued in conformity with provisions and requirements of standards set forth in General Order No. 68, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and is consistent with Executive Orders 9250 and 9328.

This order will not compel changes in establishing business practices except such as in the judgment of the District Director are necessary to prevent evasion of this order.

For the foregoing reasons, the District Director has issued the accompanying Order No. 10.

[F. R. Doc. 46-17385; Filed, Sept. 25, 1946; 8:45 a. m.]

[Oklahoma City Order 4 Under Gen. Order 68, Amdt. 1]

CERTAIN BUILDING MATERIALS IN OKLAHOMA CITY, OKLA., DISTRICT

For the reasons set forth in the opinion issued simultaneously herewith and under the authority vested in the District Director of the Oklahoma City District of the Office of Price Administration by General Order No. 68 and Regional Delegation of Authority No. 126, Order No. 4 establishing maximum prices for retail sales of certain building materials in Oklahoma, Canadian, Logan, Cleveland and McClain Counties is amended in the following respects:

Appendix A is amended to read as follows:

APPENDIX A

Item Being Priced and Unit—Approved Maximum Retail Prices F. O. B. Plant, Yard, or in the Free Delivery Zone

Asbestos cement siding, 12" x 24" or 27" standard colors including white; sq	$10.00
Asbestos cement siding, 12" x 24" or 27" water repellant white and brilliant colors; sq	11.32
Asphalt or tarred felt, 15 lb. or 30 lb.; roll	2.85
Asphalt shingles, 210 lb. thickbutt; sq	6.50
Asphalt shingles, (hex.) 2 or 3 Tab, 167 lb.; sq	5.35
Asphalt roofing, mineral surface, 90 lb.; roll	2.95
Asphalt roofing, staggered edge 105 lb.; roll	3.55
Clay drain tile, 4", M ft	97.50
Concrete blocks (sand), 8" x 8" x 16" each	.20
Fiber insulation board, ½" standard; M ft	54.16
Fiber insulation, 25/32" asphalt sheathing; M ft	85.15
Finishing lime, 40-lb. bag; bag	.56
Finishing lime, 50-lb. bag; bag	.78
Finishing lime, 55-lb bag; bag	.84
Flue lining, 8½" x 8½"; lin. ft	.42
Flue lining, 4" x 8"; lin. ft	.32
Flue lining, 8½" x 13; lin. ft	.63
Flue lining, 13" x 13"; lin. ft	.78
Gypsum lath, ⅜"; M sq. ft	28.00
Gypsum sheathing, ½"; M sq. ft	42.00
Gypsum wallboard, ⅜"; M sq. ft	40.00
Gypsum wallboard, ½", M sq. ft	43.25
Keene's cement, 1-lb. bag, bag	.05
Keene's cement, 100-lb. bag, bag	1.60
Keene's cement, bulk, pound	.03
Masonry mortar, 70-lb. bag, bag	.70
Masons hydrated lime, 10-lb. bag, bag	.28
Masons hydrated lime, 40-lb. bag, bag	.56
Masons hydrated lime, 50-lb. bag, bag	.67
Metal lath (corner bead expanded), 100 lin. ft	5.20
Metal lath, 2.5 lb., painted diamond mesh, sq. yd	.33
Metal lath, 2.75 lb., painted flat rib, sq. yd	.32
Metal lath, 3.4 lb., painted diamond mesh, sq. yd	.41
Patch plaster, 2½-lb. bag, bag	.25
Patch plaster, 5-lb. bag, bag	.50
Plaster board, ¼", M sq. ft	35.00
Plaster gauging, 100-lb. bag, bag	1.05
Hardwall plaster, 10-lb. bag, bag	.27
Hardwall plaster, 100-lb. bag, bag	1.00
Plaster moulding, 100-lb. bag, bag	1.25
Plaster moulding (bulk), pound	.03
Portland cement standard paper bag, 94-lb	.85
Vitrified clay sewer pipe, 155-lb., 4", M lin. ft	245.70
Vitrified clay sewer pipe, 155-lb., 6", M lin. ft	340.05

1. *Additions for the extension of credit.* The following additions for the maximum prices hereinabove established may be made for the extension of credit beyond 30 days:

(a) Sellers who were in business during March 1942 are permitted to add to prices established hereinabove for the extension of credit beyond a period of 30 days the same additions that they had in effect during March 1942 for the same type and quantity of sale. If no extra charges were made for the extension of credit during March 1942, none may be added.

(b) Sellers who were not in business during March 1942 are permitted to make the same charge for the extension of credit which their most closely competitive seller is permitted to make under the provisions of this order.

2. *Additions for delivery.* No additions for delivery may be made to the prices hereinabove listed when such deliveries are made within the city limits of the town or city in which the seller is located, unless the value of the merchandise contained in said delivery amounts to less than $10.00, in which case a delivery charge of 50¢ may be made. For deliveries to points outside said city or town limits, a charge of 10¢ per mile, one way, may be made. All customary discounts and allowances must be continued as required by Maximum Price Regulations which were controlling for these commodities prior to the issuance of this order.

3. *Additions for Oklahoma State sales tax.* Sellers may add to the prices listed in this Appendix "A" the sales tax required to be collected by the law of the State of Oklahoma. This tax shall be separately stated in the dealer's invoice, sales slip, or receipt.

This order shall become effective September 5, 1946.

(56 Stat. 23,765; 57 Stat. 566; Pub. Law 383, 78th Cong., E. O. 9250, 7 F. R. 7871; and E. O. 9328, 8 F. R. 4681)

Issued at Oklahoma City, Oklahoma, this 5th day of September, 1946.

JOHN N. VARNELL,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 4 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Oklahoma City District of the Office of Price Administration by General Order No. 68 and Regional Delegation of Authority No. 126, the accompanying Amendment No. 1 to Order No. 4 has been issued establishing maximum prices for retail sales of certain specified building materials.

This amendment grants certain increases in prices which reflect price increases provided in Supplementary Order 172 and a 6% freight increase which was not considered in the price list dated August 19, 1946. It also reflects all authorized price increases up to and including August 24, 1946, the date of Appendix A in this amendment.

All other provisions to Order No. 4 under General Order No. 68 remain the same except where its provisions may be inconsistent with the revised price list in Appendix A hereof.

[F. R. Doc. 46-17386; Filed, Sept. 25, 1946; 8:45 a. m.]

[Oklahoma City Order 8 Under Gen. Order 68, Amdt. 1]

CERTAIN BUILDING MATERIALS IN MUSKOGEE, CHEROKEE, AND WAGONER COUNTIES, OKLA.

For the reasons set forth in the opinion issued simultaneously herewith and under the authority vested in the District Director of the Oklahoma City District of the Office of Price Administration by General Order No. 68 and Regional Delegation of Authority No. 126, Order No. 8 establishing maximum prices for retail sales of certain building materials in Muskogee, Cherokee, and Wagoner Counties, Oklahoma, is amended in the following respects: Appendix A is amended to read as follows:

APPENDIX A

[Maximum prices for retail sales of specified building materials when sold in Muskogee, Cherokee, and Wagoner Counties, Oklahoma. The prices listed herein include all legal increases up to and including August 24, 1946]

Approved Maximum Retail Prices F. O. B. Plant or Yard

Item being priced and unit	
Vitrified clay sewer pipe, 155-lb., 4", lin. ft	$0.25

Patch plaster, 5-lb. box or bag	.50
Hardwall plaster, 10-lb. bag	.28
Hardwall plaster, 100-lb. bag	1.00
Plaster moulding, 100-lb. bag	1.50
Brick pattern siding, 105 lb., roll	3.87

1. *Additions for the extension of credit.* The following additions for the maximum prices hereinabove established may be made for the extension of credit beyond 30 days:

(a) Sellers who were in business during March 1942 are permitted to add to prices established hereinabove for the extension of credit beyond a period of 30 days the same additions that they had in effect during March 1942 for the same type and quantity of sale. If no extra charges were made for the extension of credit during March 1942, none may be added.

(b) Sellers who were not in business during March 1942 are permitted to make the same charge for the extension of credit which their most closely competitive seller is permitted to make under the provisions of this order.

2. *Additions for delivery:* No charge for delivery may be made except when delivery is made to a point within the corporate limits of the city or town in which the seller's place of business is located, a charge of 50¢ per delivery may be made when deliveries are made to points beyond the corporate limits of said city or town the seller may make a charge of 20¢ per mile, one way, for any such delivery.

3. *Additions for Oklahoma State sales tax:* Sellers may add to the prices listed in this Appendix A the sales tax required to be collected by the law of the State of Oklahoma. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

This order shall become effective September 5, 1946.

(56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E. O. 9250, 7 F. R. 7871, and E. O. 9328, 8 F. R. 4681)

Issued at Oklahoma City, Okla., this 5th day of September 1946.

JOHN N. VARNELL,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 8 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Oklahoma City District of the Office of Price Administration by General Order No. 68 and Regional Delegation of Authority No. 126, the accompanying Amendment No. 1 to Order No. 8 has been issued establishing maximum prices for retail sales of certain specified building materials.

This amendment grants certain increases in prices which reflect price increases provided in Supplementary Order No. 172 and a 6% freight increase which was not considered in the price list dated August 19, 1946. It also reflects all authorized price increases up to and including August 24, 1946, the date of Appendix A in this amendment.

All other provisions to Order No. 8 under General Order No. 68 remain the same except where its provisions may be inconsistent with the revised price list in Appendix A hereof.

[F. R. Doc. 46-17390; Filed, Sept. 25, 1946; 8:48 a. m.]

[Twin Cities Order G-1 Under Gen. Order 68, Amdt. 4]

HARD BUILDING MATERIALS IN ST. PAUL, MINN., AREA

An opinion accompanying this amendment, issued simultaneously herewith,

has been filed with the Division of the Federal Register.

Order No. G–1 issued under the authority of General Order No. 68 is amended in the following respect:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 4 to Order No. G–1, under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August 1946.

CAREL C. KOCH,
District Director.

REVISED APPENDIX A

Commodity and unit	*Maximum price*
Plaster, hardwall, paper sack	$0.95
Plaster, gauging, paper sack	.95
Plaster, moulding, paper sack	1.20
Keene's cement, paper sack	1.75
Finishing lime, paper sack	.73
Gypsum lath, 3/8", sq. yd	.23
Metal latch, 2.5 lb. painted diamond mesh, 26 gauge, sq. yd	.25½
Metal latch, 2.5 lb. galvanized, 26 gauge, sq. yd	.30½
Metal lath, 3.4 lb. painted diamond mesh, 24 gauge, sq. yd	.31
Metal lath, 3.4 lb. galvanized, sq. yd	.35¼
Metal latch, 2.74 lb. flat rib, painted, sq. yd	.32
Metal lath, 3.4 lb. copper bearing, sq. yd	.31¾
Metal lath, 3.4 lb., 3/8" high rib painted, sq. yd	.37½
Corner bead, straight edges, lin. ft	.038
Corner bead, expanded type, lin. ft	.043
Portland cement, paper bag	.79
Portland cement, cloth bag (maximum price in cloth bag does not include bag deposit)	.76½
Masonry mortar, paper bag	.63
Masonry mortar, cloth bag	.70
Portland cement, bulk, bbl	2.52
Portland cement, white, paper sack	2.12½
Hi-Early cement, paper sack	.96¼
Gypsum block-partitions 4" hollow 4 x 12 x 30, sq. ft	.10
Vitrified clay sewer pipe, 4", lin. ft	.26
Vitrified clay sewer pipe, 6", lin. ft	.29
Flue lining, 8 x 8, lin. ft	.45
Flue lining, 8 x 12, lin. ft	.61
Flue lining, 12 x 12, lin. ft	.79
Wallboard gypsum, 3/8", 1,000 sq. ft	42.00
Wallboard gypsum, ½", 1,000 sq. ft	47.00
Asphalt roofing, mineral surface, 90 lb., per roll	2.93
Asphalt or tarred felt, 15 lb. and 30 lb., per roll	2.84
Asphalt shingles, 210 lbs. (3 in 1), thick butt, per sq	6.82
Asphalt shingles, 165 lbs. (2 tab), hexagon, per sq	5.25
Fibre insulation board ½" standard lath and board, 1,000 sq. ft	54.83
Fibre insulation board 25/32" standard asphalt sheathing, 1,000 sq. ft	86.05
Hard density synthetic fibre board 1/8", 1,000 sq. ft	95.85

OPINION ACCOMPANYING AMENDMENT NO. 4 TO ORDER NO. G–1 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946, requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946, in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order No. 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17382; Filed, Sept. 25, 1946; 8:55 a. m.]

[Twin Cities Order G-2 Under Gen. Order 68, Amdt. 3]

HARD BUILDING MATERIALS IN MINNEAPOLIS, MINN., AREA

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G–2 issued under the authority of General Order No. 68, is amended in the following respect:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 3 to Order No. G–2, under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August 1946.

CAREL C. KOCH,
District Director.

APPENDIX A

Commodity and unit	*Maximum price*
Plaster, hard wall, paper sack	$0.95
Plaster, moulding, paper sack	1.20
Plaster, gauging, White Star or similar (white), per ton	24.00
Plaster, gauging, Fort Dodge or similar (gray), per bag	.95
Keene's cement, paper sack	1.75
Portland cement, standard, cloth bag[1]	.76½
Portland cement, white, paper sack	2.12½
Hi-Early cement, paper bag	.96¼
Finishing lime, paper sack	.73
Masonry mortar, cloth bag	.70

Hollow building tile, 5 x 8 x 12, load bearing, per M	103.50
Fire clay, paper bags, per bag	1.12

[1] Maximum price in cloth bag does not include bag deposit.

OPINION ACCOMPANYING AMENDMENT NO. 3 TO REVISED ORDER NO. G–2 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946, requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946, in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order No. 68. It provided by its terms that it

was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the General Order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17383; Filed Sept. 25, 1946; 8:55 a. m.]

[Twin Cities Order G-8 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN AUSTIN, MINN., AREA

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G–8 issued under the authority of General Order No. 68 is amended in the following:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 1 to Order No. G–8, under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August, 1946.

CAREL C. KOCH,
District Director.

REVISED APPENDIX A

Commodity and unit	*Maximum prices*
Plaster, hardwall, paper bag	$1.05
Keene's cement, 100 lb. paper bag	2.50
Finishing lime, 50 lb. paper bag	.95
Gypsum lath, 3/8", sq. yd	.26
Metal lath, 3.4 lb. PDM (24 ga.), sq. yd	.41
Portland cement, paper bag	.76½
Mason, hydrated lime, 50 lb. paper bag	.67

Hard density synthetic fibre board, 1/8" tempered (std. size), sq. ft	.095

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–8 UNDER GENERAL ORDER NO. 68

Section 2(t) of the Price Control Extension Act of 1946, effective July 25, 1946 requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946 in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[Twin Cities Order G-3 Under Gen. Order 68, Amdt. 4]

HARD BUILDING MATERIALS IN DULUTH, MINN., AREA

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G–3 issued under the authority of General Order No. 68, is amended in the following respect:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under the supplementary order.

This Amendment No. 4 to Order No. G–3 Under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August, 1946.

CAREL C. KOCH,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-4 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946, requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946, in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order No. 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

Regulations

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Orange Reg. 100]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN THE STATE OF FLORIDA

LIMITATION OF SHIPMENTS

§ 933.301 *Orange Regulation 100*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp. 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., September 30, 1946, and ending at 12:01 a. m., e. s. t., October 14, 1946, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the U. S. Standards for Citrus Fruits, issued by the United States Department of Agriculture, effective July 12, 1943); or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 250 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid U. S. Standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to Section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09)).

(2) As used herein, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 26th day of September 1946.

[SEAL] S. R. SMITH,

  - Part 299—Rules and regulations, forms, and citizenship requirements 11076

upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., September 30, 1946, and ending at 12:01 a. m., e. s. t., October 14, 1946, no handler shall ship:

(i) Any grapefruit of any variety, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U.S. No. 3 grade (as such grades are defined in the U. S. Standards for Citrus Fruits, issued by the United States Department of Agriculture, effective July 12, 1943);

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid U. S. Standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to Section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09));

(iii) Any seedless grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid U. S. Standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit); or

(iv) Any pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 126 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid U. S. Standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit).

(2) As used herein, "variety," "handler," and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 26th day of September 1946.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Tangerine Reg. 55]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN THE STATE OF FLORIDA

LIMITATION OF SHIPMENTS

§ 933.303 *Tangerine Regulation 55*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 *et seq.*; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., September 30, 1946, and ending at 12:01 a. m., e. s. t., November 11, 1946, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the U. S. Standards for Tangerines, issued by the United States Department of Agriculture, effective September 29, 1941, as amended); or

(ii) Any tangerines, grown in the State of Florida, which are of a size smaller than the size that will pack 246 tangerines, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid U. S. Standards), in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,728 cubic inches).

(2) As used herein, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

[Lemon Reg. 195]

PART 953—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.302 *Lemon Regulation 195*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 29, 1946, and ending at 12:01 a. m., P. s. t., October 6, 1946, is hereby fixed at 285 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 26th day of September, 1946.

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[War Food Order 45, Amdt. 10]

PART 1491—BEANS

RESTRICTION ON PURCHASE AND DELIVERY OF BEANS

War Food Order No. 45, as amended (9 F. R. 9775), is further amended to read as follows:

§ 1491.1 *Beans required to be set aside*—(a) *Definitions.* (1) "Beans" means dry threshed beans as defined in the United States Standards for beans, as revised, effective September 1, 1941, of the following classes: Pea, Great Northern, Red Kidney, (Dark, Light, and Western), Pink, and Small Red.

(2) "Authorized purchaser" means (i) any person who, at the time he purchases beans set aside hereunder, holds an existing contract to deliver beans, or any product prepared, in whole or in part, from beans, to a governmental agency, (ii) any person who, at the time he purchases beans set aside hereunder, holds an existing contract to deliver beans, or any product prepared, in whole or in part, from beans, to the General Supplies Administration, Government of Puerto Rico, or (iii) any person designated as an authorized purchaser by the Order Administrator.

(3) For the purposes of this order, "country shipper" means any person who purchases in excess of 20,000 pounds of beans from producers during any calendar month beginning October 1, 1946. Any person who once qualifies as a country shipper within this definition shall thereafter be deemed to be a country shipper and subject to the terms and conditions of this order, regardless of the volume of his deliveries in succeeding months, unless he obtains a release from the Administrator. This definition includes but is not limited to producer cooperatives and similar associations but does not include commission merchants, brokers, or other persons who do not take title to the beans handled by them.

(4) "Purchase" means (i) a transaction in which title to beans passes from a producer to a country shipper or, (ii) a transaction in which title to beans against which set aside has not been made passes from a country shipper to another country shipper under the provision of paragraph (c) hereof.

(5) "Producer" means any person who grows beans for his own account or for the joint account of himself and another.

(6) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(7) "Administrator" means the Administrator, Production and Marketing Administration, United States Department of Agriculture, or any employee of said Department to whom the Administrator has delegated, or may hereafter delegate, any or all of the authority vested in him by this order.

(8) "Governmental agency" means (i) the Armed Services of the United States, (ii) the United States Department of Agriculture (including but not restricted to any corporate agency thereof), (iii) the Veterans' Administration, (iv) the Maritime Commission, and (v) any other instrumentality or agency designated by the Administrator.

(b) *Restrictions on country shipper.* (1) No country shipper shall in any calendar month beginning October 1, 1946, purchase beans from a producer or other country shipper unless (i) he shall set aside, in such calendar month, a percentage of his total purchases of each class of beans, as follows:

Class of beans:	Percentage to be set aside
Pea	20
Great Northern	20
Red Kidney (Dark, Light and Western)	33⅓
Pink	15
Small Red	15

and (ii) offer to deliver the beans so set aside to a governmental agency or to an authorized purchaser not later than the 20th day after the calendar month in which such beans were purchased. Beans so set aside shall not be delivered to an authorized purchaser unless a certificate, certifying that such set-aside beans will be delivered to a governmental agency or to the General Supplies Administration, Government of Puerto Rico, shall be issued and retained in accordance with the provisions of paragraph (g) hereof.

(2) Beans so set aside and offered for delivery shall be of U. S. Grade No. 2 or better, as defined in the United States Standards for beans, as revised, effective September 1, 1941. Deliveries of each class of set-aside beans shall be made in carload lots and shall conform to the specifications of the agency or administration to which they are delivered as to packaging, storage, and time and manner of delivery.

(3) Set-aside beans left on hand because they constitute less than a carload lot shall be offered for delivery with set-aside beans of the same class in each succeeding calendar month. Set-aside beans which cannot be delivered as required herein, for the reason that offers of delivery were not accepted, shall not thereby lose their character as set-aside beans. Such beans shall be reoffered as set-aside beans by the country shipper in each succeeding calendar month until delivered.

(c) *Exemption from restriction; delivery to other country shipper; certificate to be issued and retained.* Notwithstanding the restriction of paragraph (b), a country shipper may purchase beans without making the required set aside if, not later than the 30th day after the calendar month in which such beans were purchased, such beans are delivered to another country shipper and a certificate, certifying that the required set aside will be made by him, is issued by the country shipper taking delivery of such beans. Copies of such certificate shall be issued and retained in accordance with the provisions of paragraph (g) hereof.

(d) *Exemption from restriction; beans purchased for use as seed or feed; certificate to be issued and retained.* Notwithstanding the restriction of paragraph (b), a country shipper may purchase beans without making the required set aside if such beans are in good faith purchased exclusively for use (i) as seed for planting, in accordance with regulations issued or to be issued by the Office of Price Administration, or (ii) as feed for poultry or livestock. When beans purchased by a country shipper for either of such uses are sold by the country shipper, there shall be issued and retained a certificate, certifying that such use will be made of said beans, in accordance with the provisions of paragraph (g) hereof.

(e) *Exemption from restriction; delivery of set-aside beans to another country shipper; certificate to be issued and retained.* Notwithstanding the restriction of paragraph (b), a country shipper may, in lieu of delivering set-aside beans to a governmental agency or authorized purchaser under the provisions of said paragraph (b), deliver such set-aside beans to another country shipper not later than the 30th day after the calendar month in which they were purchased. A certificate, certifying that such beans will be offered for delivery to a governmental agency or to an authorized purchaser within 30 days thereafter, shall be issued and retained in accordance with the provisions of paragraph (g) hereof.

(f) *Restrictions on authorized purchaser.* No authorized purchaser shall deliver set-aside beans except (i) in performance of a contract with a governmental agency, (ii) in performance of a contract with the General Supplies Administration, Government of Puerto Rico, or (iii) to a person designated by the Order Administrator.

(g) *Certificates.* The certificates required hereunder shall follow the form annexed hereto, marked Exhibit A, and shall be completed in accordance with the instructions appearing therein. Two copies of each certificate required shall be signed by the person taking delivery of the beans and one such signed copy shall be delivered to the person making the delivery at the time the delivery is made. A separate certificate shall be made for each separate transaction subject to this order. Such certificates shall be retained by each party to the transaction for at least two years after the date thereof for inspection by the Administrator and, upon his request, for delivery to him. No person shall be entitled to rely on any such certificate if he knows or has reasonable cause to believe it to be false. Each such certificate shall be deemed to be a representation to the United States Department of Agriculture of the truth and performance of all matters stated therein.

(h) *Records and reports.* (1) Every person who is a country shipper shall mail to the Order Administrator, War Food Order No. 45, Production and Marketing Administration, Washington 25, D. C., prior to the 10th day of each month beginning November 1, 1946 (on Form FDO-45-4, as revised September 1946, furnished by said Order Administrator), a report showing the quantities of beans purchased from producers or other country shippers and delivered to governmental agencies, authorized purchasers, and other country shippers.

(2) The Administrator shall be entitled to obtain such other information from and require such other reports and the keeping of such records by any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(3) Every person subject to this order shall, for at least two years (or for such period of time as the Administrator may designate), maintain an accurate record of his transactions in beans.

(i) *Contracts.* The restrictions hereof shall be observed without regard to the rights of creditors, prior contracts, existing contracts, payments made, or deliveries of beans made prior to the effective date hereof.

(j) *Audits and inspections.* The Administrator shall be entitled to make such audit or inspection of the books, records, and other writings, premises, or stocks of beans of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(k) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship upon him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Order Administrator, obtain a review of such action by the Administrator. After such review the Administrator may take such action as he deems appropriate, which action shall be final.

(l) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using dry threshed beans. Any person who willfully violates any provisions of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(m) *Releases.* (1) The Administrator may, notwithstanding any of the provisions hereof, release any or all of the beans set aside pursuant to the provisions of this order when he deems such action in the public interest.

(2) Upon application, the Order Administrator is hereby authorized to release any person from the classification of a country shipper if the person seeking removal from such classification shows to the satisfaction of the Order Administrator (i) that his total purchases of beans during each of the two calendar months immediately prior to the date of his application, have not exceeded 20,000 pounds; (ii) that he is currently in compliance with the provisions of the order; (iii) that he has delivered or contracted to deliver to governmental agencies or authorized purchasers all of the beans required to be set aside. If after release, any person again comes within the definition of a country shipper he shall be subject to all provisions of this order.

(n) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall be addressed to the Order Administrator,

War Food Order No. 45, Grain Branch, Production and Marketing Administration, Washington 25, D. C. Ref: WFO–45.

(o) *Delegation of authority.* The administration of this order and the powers vested in the Secretary of Agriculture insofar as such powers relate to the administration of the order, are hereby delegated to the Administrator, Production and Marketing Administration and may be redelegated by him to any employee of the United States Department of Agriculture.

(p) *Territorial Scope.* This order shall apply within the 48 States and the District of Columbia.

(q) *Effective date.* This amendment shall become effective at 12:01 a. m., E. S. T. October 1, 1946. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 45, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All reporting and record-keeping requirements of this order have been approved by, and all subsequent reporting and record-keeping requirements of this order will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(E. O. 9280, December 5, 1942, 7 F. R. 10179; E. O. 9577, June 29, 1945, 10 F. R. 8087; sec. 2 (a), 54 Stat. 676, as amended, 50 U. S. C. War. App. Supp. 1152 (a))

Issued this 24th day of September 1946.

CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

EXHIBIT A—CERTIFICATE REQUIRED BY WAR FOOD ORDER 45, AS AMENDED

I hereby certify to the U. S. Department of Agriculture that I purchased from ----------

---

Name of Selling Country Shipper

Address of Selling Country Shipper

---, ---,

Quantity Unit

--- of --- beans on

Grade Class

Date

(strike or omit inapplicable paragraphs)

(1) are beans from which no set aside has been made. I agree that I will make such set aside and deliver the set aside beans to a governmental agency, an authorized purchaser or another country shipper within 30 days of the date hereof.

(2) are beans purchased for use exclusively as seed beans for planting, or for use exclusively as feed for livestock or poultry, and that such use will be made of such beans.

(3) are set-aside beans and are purchased by me as a country shipper and will be offered for delivery to a governmental agency or an authorized purchaser within 30 days of the date hereof.

(4) are set-aside beans and are purchased by me as an authorized purchaser and will be delivered to a governmental agency in performance of a presently existing contract with such agency or will be delivered to the General Supplies Administration, Government of Puerto Rico, in performance of a presently existing contract with such administration.

I further certify that I am familiar with the terms and conditions of War Food Order 45, as amended, and that the purchase of beans described above is authorized by the order.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter I—Aid of Civil Authorities and Public Relations

PART 105—SAFEGUARDING TECHNICAL INFORMATION

MISCELLANEOUS AMENDMENTS

In revision of AR 380–5, 15 August 1946, §§ 105.1–105.4 are retained without change; §§ 105.5 (a) and (b), 105.17 (b) (3) and (4) and 105.19 (c) are amended to read as follows:

§ 105.5 *Requests for military information.* (a) All requests from private individuals, firms, or corporations and Federal or State agencies or departments for classified military information (except those requests defined under paragraphs (b) and (c) of this section) are subject to policies established by the Director of Intelligence, War Department General Staff.

(b) (1) Exchanges of classified or unclassified military information, other than technical information, with foreign nationals will be made only through or with the express permission of the Director of Intelligence, War Department General Staff.

(2) Exchanges of classified or unclassified technical information with foreign nationals will be made in accordance with existing War Department instructions issued on this subject to the Commanding Generals, Army Air Forces, Army Ground Forces, and chiefs of technical services.

* * * * * *

§ 105.17 *Authority for admission of visitors.* * * *

(b) *Foreign nationals.* * * *

(3) Foreign nationals may be admitted to Government facilities; military installations except as provided in (2) above; and commercial facilities where classified work, projects or features will be shown or discussed, only on written authority of the Director of Intelligence, War Department General Staff.

(4) Application for visits which require War Department authorization will be made through the appropriate diplomatic representatives, except in the case of foreign nationals employed by citizens of the United States or by firms or corporations owned or controlled by citizens of the United States for whom applications will be submitted by their employers, approved by the commanding officer or management of the facility to be visited, and forwarded with the recommendation of the chief of the technical service or appropriate commanding general of the army concerned to the Director of Intelligence, War Department General Staff, who will secure the recommendation of the Navy Department. Applications submitted through either of the channels described above will include the following information:

(i) Name in full.

(ii) Official title or position.

(iii) Name of plant or plants, posts, camps, or airfields to which admission is desired.

(iv) Date of visit or dates between which visits are desired.

(v) Purpose of visit.

For foreign nationals employed by citizens of the United States or by firms or corporations owned or controlled by citizens of the United States the following additional information will be required:

(vi) Nationality.

(vii) Length of service with present employer.

* * * * * *

§ 105.19 *Responsibility of Government contractors regarding admission of persons and visitors.* * * *

(c) War Department contractors will submit to the commanding general of the army or chief of technical service, whichever is appropriate, immediately upon completion of the visit, a report of all visitors, except United States citizens, who have gained information concerning the classified work or projects. The reports will include the following information:

(1) Name, official position, and nationality.

(2) Authority for visit.

(3) Matters in which the visitors showed the greatest interest.

(4) General nature of questions asked.

(5) Expressed object of the visit.

(6) Estimate of the real object of the visit.

(7) General estimate of ability, intelligence, and technical knowledge of the visitor and his proficiency in the English langauge.

(8) A brief list of what was shown and explained.

(R. S. 161; 5 U. S. C. 22)

[SEAL] H. B. LEWIS,
Brigadier General,
Acting The Adjutant General.

PART 111—ASSISTANCE TO RELATIVES AND OTHERS IN CONNECTION WITH DECEASED PERONNEL

NOTIFICATION TO NEAREST RELATIVE OR OTHER PERSON DESIGNATED TO BE NOTIFIED IN CASE OF EMERGENCY

Amend paragraph (c) of § 111.1 to read as follows:

§ 111.1 *Notification to nearest relative or other person designated to be notified in case of emergency.* * * *

(c) When the person to be notified resides within the geographical limits of the theater, command, or department in which death occurs the notification of the fact of death to such person will be made in the name of the Secretary of War by the appropriate commander. The Adjutant General will be advised that the notification has been made. (R. S. 161; 5 U. S. C. 22; 41 Stat. 809, 46 Stat. 1203; 10 U. S. C. 1584; 1584a) [AR 600–550, 23 Dec 1944 as amended by C3, 22 Aug 1946]

[SEAL] H. B. LEWIS,
Brigadier General,
Acting The Adjutant General.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs

[T. D. 51537]

PART 6—AIR COMMERCE REGULATIONS

REDESIGNATION OF AIRPORTS OF ENTRY

SEPTEMBER 24, 1946.

The following-named airports are hereby redesignated as airports of entry for civil aircraft and merchandise carried thereon arriving from places outside the United States, as defined in section 9 (b) of the Air Commerce Act of 1926 (U. S. C. title 49, sec. 179 (b)), for a period of 1 year from the dates shown opposite their names:

Name, location and date of redesignation:
Malone-Dufort Airport, Malone, N. Y. September 10, 1946.
Chalks Flying Service, Seaplane Base, Miami, Fla. September 17, 1946.

The list of temporary airports of entry in § 6.13, Customs Regulations of 1943 (19 C. F. R., Cum. Supp., 6.13), is hereby amended by changing the dates of the designations opposite the names of these airports as indicated herein.

(Sec. 7 (b), 44 Stat. 572, sec. 611, 58 Stat. 714; 49 U. S. C., Sup., 177 (b))

Publication of notice and public procedure with respect to redesignation of Malone-Dufort Airport and Chalks Flying Service Seaplane Base as airports of entry are found impracticable for the reason that the notice and public procedure thereon cannot be afforded prior to the expiration of the previous designations of such airports.

The dates of redesignation of Malone-Dufort Airport and of Chalks Flying Service Seaplane Base as airports of entry shall be effective immediately, the requirements of section 4 (c) of the Administrative Procedure Act (Public Law 404, 79th Congress) being dispensed with because of the lapsing of previous designations of these airports.

[SEAL] JOSEPH J. O'CONNELL, Jr.,
Acting Secretary of the Treasury.

[T. D. 51536]

PART 60—IMPORTATION OF ARTICLES IN CONNECTION WITH THE INTER-AMERICAN TRADE EXPOSITION AT FORT WORTH, TEXAS, UNDER PUBLIC LAW NO. 434, 79TH CONGRESS [1]

Sec.
60.1 Invoices; marking; bond.
60.2 Entry; appraisement; procedure.
60.3 Compliance, provisions of Plant Quarantine Act of 1912.
60.4 Detail of customs officers to protect revenue; expenses.
60.5 Withdrawal of articles from exhibition for exportation, abandonment, destruction, or for consumption or entry under the general tariff law; involuntary abandonment.

AUTHORITY: §§ 60.1 to 60.5, inclusive, issued under Public Law No. 434, 79th Congress.

§ 60.1 *Invoices; marking; bond.* (a) All importations of articles of a class requiring a consular invoice, intended for exhibition under the provisions of Public Law No. 434, 79th Congress, and valued at more than $100, must be covered by consular invoices certified as provided for in § 8.14 of the Customs Regulations of 1943 (19 CFR, Cum. Supp., 8.14). Such invoices shall contain the information prescribed under section 481 of the Tariff Act of 1930 (U. S. C. Title 19, sec. 1481).

(b) The marking requirements of the Tariff Act of 1930, as amended, and the regulations promulgated thereunder will not apply to articles imported under the regulations in this part except when such articles are withdrawn for consumption or use in the United States, in which case they shall be released from customs custody only upon a full compliance with the marking requirements of the tariff act, as amended, and the regulations promulgated thereunder. No additional duty shall be assessed because such articles were not properly marked when imported into the United States.

(c) The Texas Pan-American Association shall give to the deputy collector of customs at Dallas, Texas, a bond on customs Form 7555, appropriately modified, to secure compliance with Public Law No. 434, 79th Congress, and the regulations in this part.

§ 60.2 *Entry; appraisement; procedure.* (a) All entries under the regulations in this part shall be made at the port of Dallas, Texas, in the name of the Texas Pan-American Association which shall be deemed for customs purposes the sole consignee of the merchandise entered under the act and which shall be held responsible to the Government for all duties and charges due the United States on account of such

[1] "That all articles which shall be imported from foreign countries for the purpose of exhibition at the Inter-American Trade Exposition, an international exposition, to be held at Fort Worth, Texas, from October 6 to 12, 1946, inclusive, by the Texas Pan-American Association, a corporation, or for use in constructing, installing, or maintaining foreign buildings or exhibits at the said exhibition, upon which articles there shall be a tariff or customs duty, shall be admitted without payment of such tariff, customs duty, fees, or charges under such regulations as the Secretary of the Treasury shall prescribe; but it shall be lawful at any time during or within three months after the close of the said exposition to sell within the area of the exposition any articles provided for herein, subject to such regulations for the security of the revenue and for the collection of import duties as the Secretary of the Treasury shall prescribe: *Provided*, That all such articles, when withdrawn for consumption or use in the United States, shall be subject to the duties, if any, imposed upon such articles by the revenue laws in force at the date of their withdrawal; and on such articles which shall have suffered diminution or deterioration from incidental handling or exposure, the duties, if payable, shall be assessed according to the apppraised value at the time of withdrawal from entry hereunder for consumption or entry under the general tariff law: *Provided further*, That imported articles provided for herein shall not be subject to any marking requirements of the general tariff laws, except when such articles are withdrawn for consumption or use in the United States, in which case they shall not be released from customs custody until properly marked, but no additional duty shall be assessed because such articles were not sufficiently marked when imported into the United States: *Provided further*, That at any time during or within three months after the close of the exposition, any article entered hereunder may be abandoned to the Government or destroyed under customs supervision, whereupon any duties on such article shall be remitted: *Provided further*, That articles which have been admitted without payment of duty for exhibition under any tariff law and which have remained in continuous customs custody or under a customs exhibition bond and imported articles in bonded warehouses under the general tariff law may be accorded the privilege of transfer to and entry for exhibition at the said exposition under such regulations as the Secretary of the Treasury shall prescribe: *And provided further*, That the Texas Pan-American Association, a corporation, shall be deemed, for customs purposes only, to be the sole consignee of all merchandise imported under the provisions of this Act, and that the actual and necessary customs charges for labor, services, and other expenses in connection with the entry, examination, appraisement, release, or custody, together with the necessary charges for salaries of customs officers and employees in connection with the supervision, custody of, and accounting for, articles imported under the provisions of this act, shall be reimbursed by the Texas Pan-American Association, a corporation, to the Government of the United States under regulations to be prescribed by the Secretary of the Treasury, and that receipts from such reimbursements shall be deposited as refunds to the apppropriation from which paid, in the manner provided for in section 524, Tariff Act of 1930, as amended (U. S. C., 1940 edition, title 19, sec. 1524). (Public Law No. 434, 79th Congress)

entries; but, in the case of merchandise withdrawn from entry under these regulations, an entry under the general tariff law in the name of any person duly authorized in writing by the Texas Pan-American Association to make such entry, may be accepted by the deputy collector.

(b) Articles to be entered under the regulations in this part which arrive at ports other than Dallas shall be entered for immediate transportation without appraisement to the latter port in the manner provided by the general customs regulations.

(c) Upon the arrival at the port of Dallas of articles to be entered under the regulations in this part, the same should be entered on a special form of entry to read substantially as follows:

ENTRY FOR EXHIBITION

Entry No. 1—

Entry at the port of Dallas of articles consigned or transferred to the Inter-American Trade Exposition under ... I. T. No. ... ex S. S. ... from ... on the ... day of ... 194.., for exhibition purposes under Public Law No. 434 of the Seventy-ninth Congress, approved June 24, 1946.

Mark	Number	Package and contents	Quantity	Invoice	Value
....	....	.....	.....	....	.....
.....	....	.....	.....	....	.....
....	....	.....	.....	....	.....
.....	....	.....	.....	....	.....

TEXAS PAN-AMERICAN ASSOCIATION
By .....

(d) Upon such entry being made, the deputy collector shall issue a special permit for the transfer of the articles covered thereby to the buildings in which they are to be exhibited or used, or, in the discretion of the deputy collector, to the appraiser's stores for examination and subsequent transfer to the buildings in which they are to be exhibited or used. Upon the receipt of the articles at such buildings or at the appraiser's stores, the same shall be given a tentative appraisal prior to their exhibition or use. All imported exhibits so received in such buildings shall be kept segregated from domestic articles and imported duty-paid articles and shall not be removed from the exhibition building except in accordance with § 60.5 (a).

(e) If for any reason articles imported for entry under the regulations in this part are not upon their arrival to be delivered immediately at an exhibition building, the importer should so indicate to the collector in writing, who will cause such articles to be placed in a bonded warehouse under a "general order permit" at the importer's risk and expense, and such articles may be entered at any time within one year from the date of importation for exhibition, as herein provided, or under the general tariff law, or for exportation. If not so entered within such period, they will be regarded as abandoned to the Government.

(f) Articles which have been admitted without payment of duty for exhibition under any tariff law and which have remained in continuous customs custody or under a customs exhibition bond may be transferred to entry for exhibition at the exposition in the manner prescribed in § 10.49 (c) of the Customs Regulations of 1943 (19 CFR, Cum. Supp., 10.49 (c)), except that in each case an entry under § 60.2 (c) shall be filed, which shall supersede any previous entry, and no new bond other than that specified in § 60.1 (c) shall be required. Imported articles in bonded warehouses under the general tariff law may be transferred to entry for exhibition at the exposition in the manner prescribed in § 8.33 of the Customs Regulations of 1943 (19 CFR, Cum. Supp., 8.33).

§ 60.3 *Compliance, provisions of Plant Quarantine Act of 1912.* The entry of plant material subject to restriction under the Plant Quarantine Act of 1912, as amended (U. S. C., Title 7, secs. 151 to 164a, inclusive, and sec. 167), shall not be permitted except under permits issued therefor by the Bureau of Entomology and Plant Quarantine, Department of Agriculture, and in accordance with the plant quarantine regulations.

§ 60.4 *Detail of customs officers to protect revenue; expenses.* (a) The collector of customs at Galveston, Texas, shall detail an officer to act as his representative at the exposition and shall station inside the exhibition buildings as many additional customs officers and employees as may be necessary properly to protect the revenue.

(b) All actual and necessary customs charges for labor, services, and other expenses in connection with the entry, examination, appraisement, release, or custody of imported articles, together with the necessary charges for salaries of customs officers and employees in connection with the supervision and custody of, and accounting for, articles imported for exhibition at the exposition or transferred thereto for exhibition, shall be reimbursed by the Texas Pan-American Association to the Government, payment to be made monthly to the deputy collector of customs, Dallas, Texas, for deposit to the credit of the Treasurer of the United States as a refund to the appropriation "Collecting the Revenue from Customs."

§ 60.5 *Withdrawal of articles from exhibition for exportation, abandonment, destruction, or for consumption or entry under the general tariff law; involuntary abandonment.* (a) Any articles entered under the regulations of this Part may be withdrawn for exportation, for abandonment to the Government, for destruction under customs supervision, or for consumption or entry under the general tariff law, but not otherwise, at any time prior to the opening of the exposition, or at any time during or within three months after the close of the exposition. Upon the withdrawal of such articles for consumption or for entry under the general tariff law, or at the expiration of three months after the close of the exposition in the case of articles not previously so withdrawn, they shall be appraised with due allowance made for diminution or deterioration from incidental handling or exposure. Such appraisal shall be final in the absence of an appeal to reappraisement, as provided in section 501 of the Tariff Act of 1930, as amended (U. S. C., Title 19, sec. 1501). In the case of such articles withdrawn for entry under the general tariff law under a warehouse bond or a bond conditioned upon exportation, the statutory period of the bond and any extension thereof shall be computed from the date of withdrawal from entry under the provisions of Public Law No. 434 of the Seventy-ninth Congress.

(b) At any time prior to the opening of the exposition, or at any time during or within three months after the close of the exposition, any article entered hereunder may be abandoned to the Government or destroyed under customs supervision, as provided in § 15.4 of the Customs Regulations of 1943 (19 CFR, Cum. Supp., 15.4).

(c) Any articles entered under the regulations in this part which have not been withdrawn for consumption, entry under the general tariff law, or exportation, or which have not been abandoned to the Government or destroyed under customs supervision, before the expiration of three months after the close of the exposition, shall be regarded as abandoned to the Government.

In view of the fact that the exhibition at the Inter-American Trade Exposition will commence on October 6, 1946, notice of a proposal to issue the regulations in this part and procedure thereon pursuant to section 4 of the Administrative Procedure Act (Public Law No. 404, 79th Congress) are impracticable, and it is hereby found that there is good cause for dispensing with such notice and procedure.

The regulations in this part shall become effective immediately, publication thereof not less than 30 days prior to their effective date, pursuant to section 4 (c) of the Administrative Procedure Act (Public Law 404, 79th Congress), being dispensed with because of the urgency above mentioned.

[SEAL] W. R. JOHNSON,
Commissioner of Customs.

Approved: September 23, 1946.

JOSEPH J. O'CONNELL, Jr.,
Acting Secretary of the Treasury.

[F. R. Doc. 46-17505; Filed, Sept. 27, 1946; 8:45 a. m.]

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Social Security Administration

[Regs. 3,[1] further amended]

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE UNDER TITLE II OF THE SOCIAL SECURITY ACT

LUMP-SUM DEATH PAYMENTS

Regulations No. 3, as amended (20 CFR, Cum. Sup., 403.1 et seq.) are further amended as follows:

1. Effective June 18, 1946, subparagraph (2) of paragraph (b) of § 403.408 is amended to read as follows:

§ 403.408 *Lump-sum death payments.* • • •

(b) *Persons entitled to receive payments.* • • •

(2) *Persons equitably entitled.* If none of the persons described under subparagraph (1) of this paragraph is living on the date of the Administration's determination of relationship, the lump sum will be payable to any person or persons equitably entitled thereto, to the extent and in the proportions that he or they shall have paid the burial expenses of the deceased insured individual.

Where an estate is a person equitably entitled, payment will be made to the legal representative of such estate. On and after June 18, 1946, when it appears reasonably certain that a legal representative has not been and will not be appointed, application may be filed and payment made on behalf of such estate in accordance with the following rules:

Where an individual paid part of the burial expenses and the balance was paid from funds belonging to the wage earner, the proportionate share of the lump sum due to the estate may be paid to reimburse such individual to the extent of his contribution, provided there are no outstanding debts for last illness expenses which under state law would be entitled to equal preference with or priority to claims for burial expenses.

Where burial expenses were paid in whole or in part from funds belonging to the wage earner, the entire lump sum or such part thereof as remains after fully reimbursing individuals who have paid part of the burial expenses, may be paid to a blood relative or brother or sister by adoption of the wage earner, provided, the wage earner left no unpaid debts, all of the readily available heirs consent to such payment, and the applicant promises to distribute the payment to the person or persons entitled thereto and to account therefor to a legal representative if any should be appointed.

Where an individual who has paid the wage earner's burial expenses dies before collecting the lump sum, payment may be made as in the case where the burial expenses were paid from funds belonging to the wage earner, except that the deceased individual's spouse may be preferred as payee on behalf of the state in which event consent of the other heirs may be waived.

The term "person or persons equitably entitled" does not include, among others, any of the following:

(i) The United States Government or any wholly owned instrumentality thereof.

(ii) Any person under contractual obligation to pay the burial expenses of the deceased, to the extent of such obligation.

(iii) Any person paying the expenses of the burial of a member or employee of such person, to the extent of any payment under a plan, system, or general practice.

(iv) Any person furnishing goods or services in connection with the burial of the deceased, to the extent that goods or services are furnished.

2. Effective June 18, 1946, subparagraph (2) of paragraph (c) of § 403.701 is amended to read as follows:

§ 403.701 *Filing of applications and other forms.* • • •

(c) *Persons who may execute applications.* • • •

(2) If, however, the applicant (regardless of his age) has a legally appointed guardian, committee, or other legal representative, the application shall be executed by such guardian, committee, or representative. For authority to file application on behalf of an estate which is equitably entitled see § 403.408 (b) (2).

(Sec. 205 (a), 53 Stat. 1368; sec. 1102, 49 Stat. 647; 42 U. S. C. 405 (a), 1302: Interprets sec. 202 (g), 53 Stat. 1366; 42 U. S. C. 402 (g))

In pursuance of sections 205 (a) and 1102 of the Social Security Act, section 4 of Reorganization Plan No. 2 of 1946 (11 F. R. 7873), and section 1 of Federal Security Agency Order 57 (11 F. R. 7943), the foregoing regulations, this day adopted by me, are hereby prescribed this 23d day of September 1946.

[SEAL] A. J. ALTMEYER,
Commissioner for Social Security.

Approved: September 23, 1946.

MAURICE COLLINS,
Acting Federal Security Administrator.

TITLE 24—HOUSING CREDIT

Chapter VII—National Housing Agency

PART 751—ORGANIZATION DESCRIPTION, INCLUDING DELEGATIONS OF FINAL AUTHORITY

SUBPART B—REGIONAL OFFICES

Section 751.10 (11 F. R. 177A-858) is hereby amended to read as follows:

§ 751.10 *Regional expediter.* The Regional Expediter is responsible to the Administrator-Expediter, through the Deputy Expediter, Office of Field Operations. The Regional Expediter directs the execution of the Agency's program in the region, secures cooperation of CPA, OPA, and other agencies closely related to the achievement of regional goals, and integrates the activities of FHA, FPHA, and FHLBA in carrying out the emergency program. In the area designated as the Washington Metropolitan Area (consisting of the District of Columbia; Calvert, Charles, Montgomery, Prince Georges, and St. Marys Counties, and the locality of Odenton in Anne Arundel County in Maryland; Arlington and Fairfax Counties and the City of Alexandria in Virginia; Panama Canal Zone, Puerto Rico, Samoa, the Virgin Islands, and other off-continent areas except Hawaii) the Area Representative shall have all the authority conferred on the Regional Expediter by any regulation, order, or other issuance of the OHE, NHA, or the CPA unless otherwise specifically provided therein.

(60 Stat. 237)

This amendment shall be effective as of September 23, 1946.

Issued this 28th day of September 1946.

WILSON W. WYATT,
Housing Expediter-Administrator.

[F. R. Doc. 46-17485; Filed, Sept. 27, 1946; 8:47 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Amdt. 402]

PART 612—REGISTRATION

PLACE AND TIME OF REGISTRATION

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend § 612.11 of the regulations to read as follows:

§ 612.11 *Place and time of registration.* Any person required to be registered may present himself for and submit to registration at the office of any local board during the usual business hours, or at such other time or place as may be prescribed by the State Director of Selective Service.

The foregoing amendment to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

SEPTEMBER 25, 1946.

Chapter IX—Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. O. 9024, 7 F. R. 329; E. O. 9040, 7 F. R. 527; E. O. 9125, 7 F. R. 2719; E. O. 9599, 10 F. R. 10155; E. O. 9638, 10 F. R. 12591; C. P. A. Reg. 1, Nov. 5, 1945, 10 F. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-971]

PRESTON C. SHERROD

Preston C. Sherrod is engaged in business as a general contractor at 1761 Walworth Avenue, Pasadena, California. On April 2, 1946 as a contractor for C. K. Sivas he began without authorization from the Civilian Production Administration the construction of two 4-unit "motel" structures at 1214 East Huntington Drive, between Arcadia and Azusa, Los Angeles, California, at an estimated cost of $8,000 each of which was in excess of the $1,000 limit permitted by Veterans' Housing Program Order 1. On May 1, 1946, Preston C. Sherrod began without authorization the construction at 1214 East Huntington Drive of a garage-dwelling at an estimated cost of $3,500 and a family residence at an estimated cost of $6,000, each of which exceeded the limit permitted by Veterans' Housing Program Order 1 and was in violation thereof. Preston C. Sherrod was aware

of the restrictions on construction and his beginning and carrying on of each of these construction jobs constituted a wilful violation of Veterans' Housing Program Order 1. These acts have diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.971 *Suspension Order No. S-971.* (a) For a period of four months from the effective date of this order no authorization shall be granted to Preston C. Sherrod to do construction, nor shall he during such period apply or extend any preference ratings, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(b) Preston C. Sherrod shall cancel immediately all preference ratings which he has applied or extended to orders which have not yet been filled, except that if he has extended a customer's rating to get an item for delivery without change in form to that customer (as distinct from replacing it in inventory), he need not cancel the rating, provided the item when received is promptly delivered to the customer whose rating was extended.

(c) All preference ratings, allotments and allocations presently outstanding in connection with orders for delivery of materials to Preston C. Sherrod or placed prior to the termination date of this order are void and shall not be given any effect by suppliers of Preston C. Sherrod or any other person. This does not apply to material already delivered or in transit for delivery to him on the effective date of this order.

(d) Preston C. Sherrod shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance or for authorization to carry on construction.

(e) Nothing contained in this order shall be deemed to relieve Preston C. Sherrod from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(f) The restrictions and prohibitions contained herein shall apply to Preston C. Sherrod, his successors and assigns or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(g) This order shall take effect on the 27th day of September 1946.

Issued this 18th day of September 1946.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 46-17627; Filed, Sept. 27, 1946; 11:15 a. m.]

PART 1010—SUSPENSION ORDERS

[Suspension Order S-977]

J. J. LANSBURGH

J. J. Lansburgh of 3300 Collins Avenue, Miami Beach, Florida, on or about April 1, 1946, began the construction of a new one family residence at 4640 Royal Palm Avenue, in the City of Miami Beach, Florida, and on or about April 8, 1946, he began construction of another new one-family residence at 4630 Royal Palm Avenue, in the City of Miami Beach, Florida, each without authorization from the Federal Housing Administration. The estimated cost of each of these residences amounted to $13,000, which amount in both instances exceeded the $400 limit permitted by Veterans' Housing Program Order No. 1, and constituted a wilful violation thereof. These violations have diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.977 *Suspension order No. S-977.* (a) Neither J. J. Lansburgh, his successors or assigns, nor any other person shall do any construction on either of the premises known as 4630 and 4640 Royal Palm Avenue, in the City of Miami Beach, Florida, including putting up, altering or completing the structures, unless hereafter authorized in writing by the Civilian Production Administration and the Federal Housing Administration.

(b) J. J. Lansburgh shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve J. J. Lansburgh, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 27th day of September 1946.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 46-17628; Filed, Sept. 27, 1946; 11:15 a. m.]

Chapter XI—Office of Price Administration

PART 1300—PROCEDURE

[2d Rev. Procedural Reg. 13, Amdt. 1]

PROCEDURE APPLICABLE TO INDUSTRY ADVISORY COMMITTEES APPOINTED UNDER THE EMERGENCY PRICE CONTROL ACT OF 1942, AS AMENDED

2d Revised Procedural Regulation 13 is amended in the following respects.

1. Section 1300.1012 (c) is amended to read as follows:

(c) *Notices and agenda.* The Chairman, in the case of meetings called by him, and the Price Executive, in the case of meetings called by him or the Administrator, shall send written notice of the time and place of the meeting, with the proposed agenda, to all members of the committee. Seven copies of the notices and agenda shall also be sent to the Director of the Office of Industry Advisory Committees. Copies of the notices and agenda of meeting of regional committees must also be sent to the chairman of the national committee, if any, for the same commodity. Except as otherwise provided in § 1300.1013a these notices and agenda shall be sent at least two weeks in advance of the meeting date. In the case of any meeting at which an application for an increase in maximum prices under section 6 (of the Emergency Price Control Act of 1942, as amended), a petition for decontrol or a request for hearings on a petition for decontrol is to be considered, the agenda must state that the filing of such an application, petition, or request is to be considered, and shall describe the commodity or commodities involved.

2. Section 1300.1012 is amended by adding the following paragraph (h).

(h) "No meeting of a committee or standing sub-committee may be recessed or adjourned for a period or periods aggregating over 48 hours, not including Saturdays, Sundays and national holidays."

3. A new § 1300.1013a is added to read as follows:

§ 1300.1013a *Petition to Price Decontrol Board.* A petition to the Price Decontrol Board for review of the action of the Administrator or the Secretary of Agriculture shall be regarded as coming from the committee if the petition was agreed to by a majority vote of the committee taken subsequent to the action of the Administrator or Secretary of Agriculture. Such majority vote may be taken either (a) at a meeting of the members attended by a quorum and called not less than seven days after written notice of the time, place and agenda for such meeting is mailed by the Chairman as provided in § 1300.1012 or (b) by mail. In the event that the vote is to be taken by mail, the Chairman shall mail to all members of the committee an identical letter forwarding to each member a copy of the action of the Administrator or Secretary of Agriculture with the statement of the economic data or other facts of which the Administrator or Secretary of Agriculture took official notice in connection with such action and requesting that each member reply in writing in duplicate, to the Chairman indicating whether he votes in favor of, or against a petition to the Price Decontrol Board for review of the action. The replies of the members must be received by the Chairman on or before a date which shall be prescribed by the Chairman in his letter. The Chairman shall mail two copies of such letter to the Director of the Office of Industry Advisory Committees at the same time that he mails the letter to the members. The Chairman upon receipt of the duplicate replies, and not later than one day after the date prescribed by the Chairman for receipt of such replies, shall mail two complete sets of such replies to the Director of the Office of Industry Advisory Committees to be kept with the minutes of the meetings of the committee. The vote by mail shall be deemed to be a majority vote only if responses from a quorum of the committee are received by the Chairman, on or before the date prescribed in the Chairman's letter. Nothing in this rule shall apply to a petition filed with the Price Decontrol Board on account of failure of the Administrator or Secretary of Agriculture to act upon a petition for decontrol within the time prescribed by law.

This amendment shall become effective September 28, 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

[F. R. Doc. 46-17634; Filed, Sept. 27, 1946; 11:42 a. m.]

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 149, Amdt. 29]

MECHANICAL RUBBER GOODS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 149 is amended in the following respects:

1. Section 1315.21a (a) (2) (ii) is amended to read as follows:

(ii) *Mechanical rubber goods which are the same as those dealt in by the manufacturer on October 1, 1941, except for the substitution of GR-S or GR-I or reclaimed rubber for natural rubber.* This subdivision is applicable to any mechanical rubber good covered by this subparagraph which differs from a mechanical rubber good for which the manufacturer had a price stated in his price list in effect on October 1, 1941, or for which he regularly quoted a price in any other manner on that date, only by reason of the changes made necessary by the substitution of GR-S or GR-I or reclaimed rubber for natural rubber. The maximum price of any mechanical rubber good covered by this subdivision shall be the maximum price established by subparagraph (1) for the mechanical rubber good when made of natural rubber.

2. Section 1315.21a (b) (2) is amended to read as follows:

(2) *Redetermined maximum prices for molded, extruded, lathe-cut and chemically-blown sponge rubber products.* (i) This subparagraph (2) applies to those mechanical rubber goods listed in § 1315.35, Appendix B, which are generally known by the terms, "molded, extruded, lathe-cut and chemically-blown sponge rubber products" (including hard rubber goods) and whose selling prices have been determined under and in accordance with subparagraph (1) above. This subparagraph (2) does not apply to flooring, mats and matting, foamed latex products, rubber covered rolls, brake lining and clutch facings.

(ii) A manufacturer's redetermined maximum price for a mechanical rubber good covered by this subparagraph (2) shall be 117% of the selling price for it that has been determined under subparagraph (1) above.

3. The headnote of § 1315.21b and paragraphs (a) and (b) of the section are amended to read as follows:

§ 1315.21b *Maximum wholesalers' prices for mechanical rubber goods*—(a) *Applicability of this section.* This section is applicable to sales by wholesalers (as defined in paragraph (a) (10) of § 1315.31) of mechanical rubber goods except automotive parts and subassemblies which are priced at the wholesale level under Maximum Price Regulation 453 (items listed in Appendix A of Maximum Price Regulation 453), packing and gaskets.

(b) *Maximum prices: How the wholesaler calculates the maximum price.* The maximum price for a sale by a wholesaler of any mechanical rubber goods covered by this section shall be determined as follows: The wholesaler shall multiply the purchase price (determined in accordance with subparagraph (1) below) of the commodity being priced by the percentage (determined in accordance with subparagraph (2) below) which he used in pricing a mechanical rubber good which he offered for sale on October 1, 1941, in the case of mechanical rubber goods listed in Appendix A, and on January 5, 1942, in the case of mechanical rubber goods listed in Appendix B.

(1) The purchase price shall be the net invoiced cost, not to exceed the supplier's applicable maximum price of the commodity being priced. If actual cost is not available, the wholesaler shall use the net invoiced cost as estimated by his supplier, not to exceed the supplier's maximum price. If the invoiced cost is not on a delivered basis, the wholesaler shall add actual cost of transportation to his place of business.

(2) The percentage which the wholesaler must use shall be determined as follows:

(i) The wholesaler shall first determine what mechanical rubber good he must use in determining the percentage. That mechanical rubbber good shall be the first applicable of the following mechanical rubber goods which he purchased from the same class of seller as the mechanical rubber goods being priced and which he offered for sale on October 1, 1941, in the case of mechanical rubber goods listed in Appendix A, and on January 5, 1942, in the case of mechanical rubber goods listed in Appendix B.

(a) The mechanical rubber good which is the same as the mechanical rubber good being priced.

(b) The mechanical rubber good which has the same use as the mechanical rubber good being priced. If there is more than one mechanical rubber good which has the same use as the mechanical rubber good being priced, the wholesaler shall use that one of those mechanical rubber goods whose purchase price is nearest to the purchase price of the mechanical rubber good being priced.

(c) The mechanical rubber good whose purchase price is nearest to the purchase price of the mechanical rubber good being priced.

(ii) The wholesaler shall then determine the price at which on October 1, 1941, in the case of mechanical rubber goods listed in Appendix A and on January 5, 1942, in the case of mechanical rubber goods listed in Appendix B, he was offering to sell that mechanical rubber good to a purchaser of the same class.

(iii) The wholesaler shall then determine the percentage by dividing this selling price by the purchase price that was in effect to him on the date on which he established that selling price.

4. In § 1315.37 (a) (1), Table 1-D, under the heading, "Type of hose", subheading, "Air and air tool hose, grade I (molded-braided type)", the price 38.5 is substituted for the price "39.91" in line 2; and the price 38.5 is substituted for the price "37.19" in line 4.

5. Section 1315.37 (b) (2) is amended to read as follows:

(2) *How the manufacturer calculates his maximum price.* The manufacturer shall calculate the maximum price of the following commodities by adding to the list price in effect on October 1, 1941, the amount determined by multiplying that list price by the following percents:

	Percent
Solid neoprene multiple V-belts	7.8
Solid neoprene FHP V-belts (A and B sections only)	6.3
Automotive equipment solid neoprene fan belts	3.0
Neoprene cover multiple V-belts	13.9
Neoprene cover FHP V-belts (A and B sections only)	12.8

The manufacturer shall then deduct from the resulting figures all discounts, allowances and other deductions from the list price that he had in effect to a purchaser of the same class on October 1, 1941.

6. In § 1315.37 (g), the headnote of the section and the paragraph preceding Table VI-D are deleted, and the following substituted:

(g) *Maximum manufacturers' prices for Grade I neoprene transmission belting.* This paragraph is applicable to Grade I transmission belting made in whole or in part of neoprene, with either a 33 to 35 ounce hard duck, or a 32 ounce soft duck. The maximum manufacturer's price of belting covered by this paragraph shall be calculated as follows. First, determine the base price for belting made with 33 to 35 ounce hard duck by adding 2.5 percent, and for belting made with 32 ounce soft duck, by deducting 18 percent from the price listed in Table VI-D. Then determine the maximum price by deducting from the base price all discounts, allowances and other deductions from the base price for transmission belting that the manufacturer had in effect to a purchaser of the same class on October 1, 1941. The manufacturer may add a charge for splicing, stitching and other operations associated with the manufacture of belting calculated on the same basis that he calculated such charges on October 1, 1941.

7. In § 1315.37 (k) (2), the headnote of Table X-D and the tables in subdi-

visions (i) (ii) and (iii) of these tables are amended to read as follows:

TABLE X–D—MANUFACTURER'S MAXIMUM LIST PRICES FOR RUBBER FLOORING OTHER THAN NEOPRENE FLOORING [1]

(i) *Flooring in tile.*

[Per square foot]

Gauge	Standard colors [2]			Special or deluxe colors [2]		
	Reg. size 0–499 sq. ft.	Reg. size 500–1,999 sq. ft. for shipment at one time	Reg. size 2,000 sq. ft. and over for shipment at one time	Reg. size 0–499 sq. ft.	Reg. size 500–1,999 sq. ft. for shipment at one time	Reg. size 2,000 sq. ft. and over for shipment at one time
3/32"	$0.26	$0.25	$0.24	$0.30	$0.29	$0.28
1/8"	.33	.32	.31	.39	.38	.37
5/16"	.46	.45	.44	.51	.50	.49
3/4"	.60	.59	.57	.67	.66	.65

(ii) *Flooring in rolls.*

[Per lineal yard, 36 inches wide]

Gauge	Standard colors [2]	Special or deluxe colors [2]
3/32 inch	$2.10	$2.45
1/8 inch	2.75	3.25
3/16 inch	3.90	4.40
1/4 inch	5.10	5.75

(iii) *Cove base.*

(Per lineal foot, 3/16 inch gauge [2])

Black color			Colors other than black		
Reg. size 0–499 sq. ft.	Reg. size 500–1,999 sq. ft. for shipment at one time	Reg. size 2,000 sq. ft. and over for shipment at one time	Reg. size 0–499 sq. ft.	Reg. size 500–1,999 sq. ft. for shipment at one time	Reg. size 2,000 sq. ft. and over for shipment at one time
4" height $0.20	$0.19	$0.18	$0.31	$0.30	$0.29
6" height .25	.24	.23	.37	.36	.34

8. In § 1315.37 (m), the heading of Table XI–D is amended to read as follows:

TABLE XI–D—MANUFACTURERS' MAXIMUM PRICES FOR THE FOLLOWING PACKING AND FOR THE FOLLOWING RUBBER BELTING AND HOSE OTHER THAN NEOPRENE RUBBER BELTING AND HOSE [1, 2, 3]

9. In § 1315.37 (m), footnote [1] accompanying Table XI–D is amended to read as follows:

[1] This table does not apply to neopreme belting and hose, but does apply to neopreme packing as well as other rubber packing.

10. In § 1315.37 (m), footnote [2] and [3] accompanying Table XI–D are amended to read as follows:

[2] Sheet packing (including slab, packing and gaskets cut from sheet or slab packing) without reinforcement is that type generally understood by the industry to be made without a reinforcement, commonly referred to as red sheet, all rubber sheet, oil resisting sheet, etc.

[3] Sheet packing (including slab packing and gaskets cut from sheets or slab packing) with reinforcement is that type generally understood by the industry to be made with a reinforcement, commonly referred to as cloth inserted sheet, diaphragm sheet, chute lining sheet, wire inserted sheet, compressed asbestos, etc.

11. A new paragraph designated (O) is added to § 1315.37 to read as follows:

(O) *Redetermined manufacturers' maximum prices for rubber jar rings, container sealer compounds, plumbers supplies and plumbers specialties.* The redetermined maximum prices for a manufacturer's sales of a rubber jar ring, container sealer compound, plumber's supply or plumber's specialty that is covered by § 1315.34 Appendix A and priced by § 1315.21a (a) shall be 117% of the selling price for it that has been computed in accordance with § 1315.21a (a).

This amendment shall become effective October 2, 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 29 TO MAXIMUM PRICE REGULATION 149

Molded, Extruded, Lathe-Cut and Chemically-Blown Sponge Rubber Products. Amendments No. 20 and No. 27 to Maximum Price Regulation 149 granted increases of about 15% in manufacturers' January 5, 1942, base date standard list and regularly quoted prices for molded, extruded, lathe-cut and chemically-blown sponge rubber products but granted no adjustment in manufacturers' maximum prices for these products that were established under the formula pricing method provided in the regulation. The formula pricing method applies when the manufacturer has no base date standard list price for regularly quoted price for a product, in which case he determines his prices by the use of the price determining method which he used during the base period and has filed with this Office. The use of this pricing method yields maximum prices which the manufacturer derived during the base period or would have derived had he sold the commodity during the base period. As manufacturers' existing maximum prices for approximately 80% of the total dollar volume of these products are established under the formula, maximum prices for only the remaining 20% of the total dollar volume of these products were increased by Amendments No. 20 and No. 27.

By the current action, manufacturers' maximum prices for these products that are derived under the formula pricing method provided in the regulation, are increased approximately 17% and the manufacturers' base date standard list and regularly quoted prices are increased to 17% over base date prices. These increases are necessary to reflect increased wage and material costs incurred by manufacturers and to enable the industry to realize the same return on net worth that it realized during the 1936–1939 period. These increases apply to those mechanical rubber goods which are generally known by the term, "molded, extruded, lathe-cut and chemically-blown sponge rubber products" (including hard rubber goods) and also includes jar rings and container sealing compounds, and plumbers supplies and specialties. These increases in manufacturers' prices are reflected in increased prices for sales of these goods by wholesalers.

Approximately 96% of the total dollar volume of these products is used for industrial purposes and is not sold directly to the individual consumers. There are about 150 important companies and many smaller companies manufacturing these goods with an estimated production of over 70% of the total volume made by twenty companies. Single line companies account for about 60% and multi-line companies account for about 40% of the total production of the industry. The increases provided at the manufacturing level are based on a survey of the costs and earnings of companies representing over 50% of the total production covering the first quarter of 1946 and the period 1936–1939. The sample consisted of single-line producers and multi-line producers, each of these classes of producers accounting for about half of the production included in the survey. The data of these producers for the first quarter of 1946 were adjusted for an increased volume of about 23.5% that is expected to be produced during the ensuing year. This is believed to give a fair evaluation of the volume which the industry is expected to produce in the coming twelve months.

Adjustments were made, however, in the figures for the first quarter of 1946 for known cost increases which have occurred since that time. Cost increases resulting from wage rate adjustments had already been experienced by some companies during the last quarter of 1945 and during the first quarter of 1946. Since the first quarter of 1946 additional companies have been affected by such cost increases. Approved wage increases have been made by industry members accounting for over 90% of the total industry output. Such increases have amounted in the case of companies for which data are available to an average of 10.05% of labor cost, equivalent to an increase of 5.7% on sales.

It is, of course, impossible for the Administrator to say what, if any, hourly wage increases may be agreed to or approved for the remaining companies in the industry. However, inasmuch as it appears reasonable to expect that the above average percentage increase in labor costs will adequately cover any foreseeable subsequent wage adjustments that may be made by these companies which represent the remaining volume of production, it is the judgment of the Administrator that effective price control will best be served by a uniform price increase for the entire industry at this time.

Deductions were made to the extent of 1.25% of labor costs because of an expected increase in labor efficiency. Overtime reported in the first quarter was reduced by 50% and this was increased 21% to allow for increased production volume expected during the ensuing year. It is believed that this reduced amount of overtime reflects the approximate amount of overtime that will be experienced during the ensuing year. No adjustment was made for the effects of volume increases on fixed and variable overhead expenses and for "all other commercial expenses" since it is believed that such increased expenses will not be experienced by the companies during the ensuing year. Account was taken of known increases in material costs since the first quarter of 1946. These increased material costs have occurred principally as a result of packing and of higher prices for metal inserts and of increases in the costs of chemicals used in the compounds made necessary by substituting more expensive chemicals for others now in short supply. This increase amounted to about 6.29% of material cost, or 2.31% of sales.

After adjusting the data for the first quarter of 1946 for all such cost increases, it was found that if no change is made in existing maximum prices, the industry will fail by approximately 14.88% to recover its total costs during the ensuing year. It was found that the industry would require an additional increase of about 2.12% to provide it with the approximate rate of return on net worth that it experienced during the years 1936–1939. This results in a general increase in price of about 17%. This price increase is to be applicable to base period standard list and regularly quoted prices and to prices computed under the formula.

Maximum prices for sales of these products by wholesalers are by this action increased by the same percent as manufacturers' prices to reflect the increase in manufacturers' prices. Thus the margins of these resellers are maintained at the levels that were in effect on March 31, 1946, in accordance with the requirements of the Emergency Price Control Act of 1942, as amended. Retailers of the very small percentage of these goods sold by retailers may secure similar adjustments in their maximum prices under appropriate regulations of the Office of Price Administration.

Rubber Flooring. Amendments No. 23 and No. 25 to Maximum Price Regulation 149 established manufacturers' dollars and cents maximum prices and adjusted manufacturers' maximum prices for rubber flooring to reflect increased costs in wages and materials that had been incurred prior to February 1946. The increase of approximately 11% in base date prices granted by these amendments were required under the Office of Price Administration criteria. Since February 1946, wage and materials costs have increased substantially and it has been determined on the basis of a cost study made by the Office of Price Administration that an average increase of approximately 16% (instead of the 11% increase granted by Amendments No. 23 and No. 25) in base date prices is required if the industry is to realize its average base period percent margin over allowable costs. Accordingly, the dollars and cents maximum prices for these products established by the current action allows manufacturers an average increase of 16% (instead of the 11% increase granted by Amendments No. 23 and No. 25) in base date prices. The criteria used in making this reconversion pricing adjustment is the same as that used in Amendments No. 23 and No. 25 and is set forth in the statements of considerations accompanying those amendments.

Substitution of Reclaimed Rubber for Natural Rubber. Where, because of the shortage of natural rubber, reclaimed rubber has been used in its place, some manufacturers have been pricing commodities containing reclaimed rubber at the base period price of the commodity containing natural rubber, others have been pricing the commodity containing reclaim as a new product under the formula provided in the regulation, and others have been pricing the commodity containing reclaimed rubber at the lower of these two prices. Before this amendment, the regulation did not expressly state which was the proper method of pricing the commodity made of reclaim and some confusion existed as to the proper method of pricing such a commodity. The substitution of reclaim for natural rubber in the making of a commodity is generally necessitated by the shortage of natural rubber. In many cases, the commodity containing reclaim is not inferior to the commodity containing natural rubber. In many cases, the commodity containing reclaim is better than the commodity in which GR–S is substituted for natural rubber and the regulation provides that the commodity containing GR–S shall have the same maximum price as the commodity containing natural rubber.

On the other hand, where the formula method of pricing is used in pricing the commodity containing reclaim, it generally results in a higher price for the commodity containing reclaimed rubber than for the base period commodity containing natural rubber. This again is not desirable as the commodity containing reclaimed rubber is not superior to and is frequently inferior to the commodity containing natural rubber. Accordingly, this amendment expresses clearly the interpretation previously made by this Office by providing that where, because of shortage of natural rubber, reclaimed rubber is substituted for the natural rubber used in making a commodity during the base period, the commodity containing reclaimed rubber shall have as its maximum price, the maximum price of the base period commodity containing natural rubber.

Miscellaneous. Mistakes were made in computing the maximum prices for certain items of hose and belting that were established by Amendment No. 27. These errors are corrected. The pricing method set forth in section 1315.37 (m) for determining the maximum prices for the belting, hose and packing listed in Table XI (D) was intended to apply only to non-neoprene belting, non-neoprene hose and both neoprene and non-neoprene packing, respectively. This amendment clearly expresses the meaning originally intended. The section dealing with the pricing of sales by wholesalers is clarified so as to state more clearly that the commodity chosen as a basis for pricing must be (1) one which the wholesaler purchased from the same class of supplier as the commodity he is pricing and (2) one that he sold to the same class of buyer as the commodity he is pricing. This does not change the meaning of the section dealing with wholesalers but clarifies the meaning originally intended and is in accordance with many interpretations previously made by the Office of Price Administration.

The Administrator has consulted with members of the industry and has given consideration to their recommendations. In the opinion of the Administrator the maximum prices established by this action are fair and equitable and consistent with the general level of prices under the regulation and are consistent with and effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and the Executive Orders of the President.

[F. R. Doc. 46–17640; Filed, Sept. 27, 1946; 11:44 a. m.]

PART 1340—FUEL

[MPR 120, Amdt. 164]

BITUMINOUS COAL DELIVERED FROM MINE OR PREPARATION PLANT

A statement of considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Section 1340.230 (b) (1) (i) is added to read as follows:

(i) Maximum prices for coal produced at the Hanna No. 4 Mine in Subdistrict No. 3 and Subdistrict No. 2 Mines (Rock Springs) of the Union Pacific Coal Company when purchased by the Union Pacific Railroad Company for railroad fuel use shall be $3.00 and $3.40 per net ton respectively.

This Amendment No. 164 to Maximum Price Regulation No. 120 shall become effective October 2, 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 164 TO MAXIMUM PRICE REGULATION NO. 120

The Union Pacific Coal Company has petitioned for an increase in the maximum prices prescribed in Section 1340.230 (b) (1) of Maximum Price Regulation No. 120 as to coal sold by petitioner, a wholly owned subsidiary of Union Pacific Railroad Company, to the latter company, which coal is produced at petitioner's mines in Subdistrict Nos. 2 and 3 of District No. 19.

The Union Pacific Coal Company does not engage generally in the commercial sale of coal and does not compete in any way for commercial markets in Wyoming or elsewhere. The company exists solely for the purpose of producing coal to be used by the parent company as railroad fuel. During times of short supply, petitioner has made available, at the request of the Solid Fuels Administration, a limited amount of coal for domestic and export purposes.

The maximum price in District No. 19 for all coal sold for railroad locomotive fuel use is the same for size groups 1 to 13 inclusive. Sales by commercial mines in

District No. 19 for locomotive fuel use are resultant coals from which the premium top sizes are taken. However, sales by the petitioner are made on a mine run basis at the locomotive fuel price which embraces all sizes including any premium sizes. Thus, the commercial mines are in a position to secure additional realization not available to petitioner.

It further appears that by reason of increased labor costs and other cost increases an increase in price will become necessary to permit petitioner to operate on a seven day work week during the winter season as it has in the past few years, in order to make additional supplies of coal available to alleviate severe shortages, which, as in the past, are expected to occur during the coming heating season.

Under these circumstances, it is the opinion of the Price Administrator that an adjustment in the maximum prices of petitioner's coals when sold to the Union Pacific Railroad Company is warranted. Such increase will further the production of an essential commodity and will not affect the cost of living. Accordingly, the accompanying amendment permits the Union Pacific Coal Company to charge a flat price of $3.00 per ton for coal delivered from its Hanna No. 4 mine in Subdistrict No. 3 and $3.40 per ton for coal delivered from its Subdistrict No. 2 (Rock Springs) mines when sold to the Union Pacific Railroad Company for railroad fuel use.

In the judgment of the Price Administrator, this action will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and various Executive orders of the President.

[F. R. Doc. 46-17638; Filed, Sept. 27, 1946; 11:43 a. m.]

PART 1340—FUEL

[MPR 189, Amdt. 36]

BITUMINOUS COAL SOLD FOR DIRECT USE AS BUNKER FUEL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 189 is hereby amended in the following respects:

Section 1340.313 (g) (6) is amended by amending the last undesignated paragraph to read as follows:

There may be added to the maximum prices for bunker fuel at all ports as established by § 1340.313 (g) an amount not to exceed six cents per net ton, except for bunker fuel which is transported to the loading port by rail without subsequent haul in cargo lots by water carrier.

This amendment shall become effective as of August 19, 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 36 TO MAXIMUM PRICE REGULATION NO. 189

Amendment No. 34 to Maximum Price Regulation No. 189 authorized an increase of 6 cents per net ton in the maximum price of bunker fuel sold at ports on the Great Lakes, except Lake Ontario and Lake Erie ports. It was intended by this action to compensate all bunker fuel suppliers on the Great Lakes for increases incurred in acquisition costs by reason of increased water transportation costs. It now appears that some bunker fuel sold at the port of Buffalo, N. Y., (a Lake Erie port) is transhipped in vessels from Toledo, Ohio and increases in water transportation costs are incurred on this movement.

Therefore, this Amendment is being issued in order to carry out the intent of Amendment No. 34 to compensate all bunker fuel suppliers for increased water transportation costs. Bunker fuel suppliers at all ports may now increase their maximum prices by 6 cents per net ton except in those cases where the coal is transported to the loading port by all rail shipment without subsequent haul in cargo lots by water carrier.

Since this Amendment corrects an omission in Amendment No. 34, it is being made effective as of the effective date of Amendment No. 34.

In the opinion of the Administrator, the action taken under the Amendment is fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17641; Filed, Sept. 27, 1946; 11:45 a. m.]

PART 1346—BUILDING MATERIALS

[MPR 592, Amdt. 8]

SPECIFIED CONSTRUCTION MATERIALS AND REFRACTORIES

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 592 is amended in the following respects:

1. Section 8 (c) is amended by adding the following paragraph:

Each Regional Administrator, or any District Director so authorized by the appropriate Regional Administrator, is hereby authorized to approve, or disapprove maximum prices for concrete masonry units (concrete block and brick) in accordance with this section, and may authorize maximum prices under the first of the following applicable sections in the event this section 8 is not applicable.

2. Section 9 (c) is amended by adding the following paragraph:

Each Regional Administrator, or any District Director so authorized by the appropriate Regional Administrator, is hereby authorized to approve, or disapprove maximum prices for concrete masonry units (concrete block and brick) in accordance with this section, and in the event that this section 9 is not applicable, may issue orders under section 10 establishing maximum prices in accordance with its terms.

3. Section 10 (d) is amended by adding the following paragraph:

Each Regional Administrator, or any District Director so authorized by the appropriate Regional Administrator, is hereby authorized to issue orders under this section 10, establishing maximum prices for concrete masonry units (concrete block and brick).

This amendment shall become effective October 2, 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS ACCOMPANYING AMENDMENT NO. 8 TO MAXIMUM PRICE REGULATION NO. 592

The accompanying amendment revises the provisions of Sections 8, 9, and 10 of Maximum Price Regulation 592 to authorize Regional Administrators and District Directors so authorized by the appropriate Regional Administrator, to approve and establish maximum prices for new manufacturers of concrete masonry units (concrete block and brick) under the second, third, and fourth pricing methods of the regulation.

Heretofore, pursuant to the provisions of Maximum Price Regulation 592, the Building and Construction Price Division has referred to the Regional Offices the processing of all new product pricing reports and applications in connection with concrete masonry units. Since these prior references with respect to new product pricing of concrete masonry units are expected to be permanent, the Price Administrator has determined that an amendment to spell out specifically such authorization in the regulation is appropriate. Accordingly, the accompanying amendment effectuates this purpose.

[F. R. Doc. 46-17643; Filed, Sept. 27, 1946; 11:45 a. m.]

PART 1351—FOOD AND FOOD PRODUCTS

[FPR 1,[1] Amdt. 5 to Supp. 15 (§ 1351.480)]

CERTAIN FRUIT PRESERVES, JAMS AND JELLIES AND APPLE BUTTER

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.

Supplement 15 to Food Products Regulation No. 1 is amended in the following respects:

1. Section 7 (a) (1) is amended to read as follows:

(1) *General pricing method.* The maximum price per dozen or other unit which a wagon wholesaler may charge for an item of fruit preserves, jams or jellies or apple butter covered by this supplement shall be his net delivered cost plus a markup of 24%.

[1] 10 F. R. 14437, 11 F. R. 402, 3254, 4239, 6979.

2. The last sentence in section 7 (a) (3) is amended to read as follows: "Net delivered cost shall be figured on the basis of the wagon wholesaler's first delivery of an item on or after October 2, 1946, and shall be refigured upon receipt of an item whenever there is a change in the maximum price of his supplier."

This amendment shall become effective October 2, 1946.

Issued this 27th day of September 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

Approved: September 18, 1946.

CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 5 TO SUPPLEMENT 15 TO FOOD PRODUCTS REGULATION NO. 1

The accompanying amendment to Supplement 15 to Food Products Regulation No. 1 revises the markup provision for wagon wholesalers in accordance with the requirements of the Emergency Price Control Act of 1942, as amended. Under the original provision in Supplement 15 the wagon wholesaler increased or decreased his maximum price established under the predecessor regulation for fruit preserves, jams and jellies and apple butter by the amount of the increase or decrease in his supplier's maximum price under Supplement 15. An increase of a wagon wholesaler's price by virtue of an increase in his supplier's maximum price did not maintain the wagon wholesaler's markup in effect on March 31, 1946, but allowed only the dollar-and-cents increase to be passed on.

In order to maintain the percentage markup of wagon wholesalers in effect on March 31, 1946, this amendment provides a markup of 24% over the net delivered cost to the wagon wholesaler. The 24% markup was the maximum markup allowed under Supplement 15 before this amendment and was in effect on March 31, 1946.

The accompanying amendment also amends the definition of "net delivered cost" so that a wagon wholesaler may refigure his net delivered cost on the basis of the first delivery to him of an item on or after the effective date of this amendment and may refigure his maximum price whenever there is a change in the maximum price of his supplier. In effect this change will keep the 24% markup constant in the wagon wholesaler's maximum price.

In the opinion of the Price Administrator this amendment brings the pricing provision for wagon wholesalers into compliance with Section 2 (t) of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17633; Filed, Sept. 27, 1946; 11:42 a. m.]

PART 1351—FOODS AND FOOD PRODUCTS

[MPR 53,[1] Corr. to Amdt. 66]

FATS AND OILS

1. The table in section 10.1 (d) of Amendment 66 to MPR 53 is corrected to read as follows:

	North	South	Pacific Coast
(1) Drums (per pound)	*Cents* 16.60	*Cents* 16.60	*Cents* 17.10
(2) 1/5-gal. can (per can)	*Dollars* 6.65	*Dollars* 6.55	*Dollars* 6.75
(3) 6/1-gal. cans (per case)	8.20	8.10	8.50

2. The printed copy of Amendment 66 to MPR 53 is corrected in the following respect: The price of Deodorized White (bleached) refined peanut oil delivered at New York in the table in Section 4.1 (b) is corrected to read 15.56.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

[F. R. Doc. 46-17637; Filed, Sept. 27, 1946; 11:43 a. m.]

PART 1362—CERAMIC PRODUCTS, STRUCTURAL CLAY PRODUCTS AND OTHER MASONRY MATERIALS

[RMPR 206, Amdt. 25]

VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation No. 206 is amended in the following respects:

1. Section 9.4 (b) is redesignated section 9.4 (b) (1).

2. A new section 9.4 (b) (2) is added to read as follows:

(2) On all rail shipments of Nos. 1 and 2 sewer pipe, 27"–36" inclusive, A. S. T. M. specifications, from the West Central Area, as defined in section 8.1 above, to the South Central Area, the charge per lineal foot may not exceed the maximum prices established in Chart II, f. o. b. factory, plus actual freight charges at the minimum carload rate from St. Louis, Missouri, to destination on the basis of the weights established in the invoice weight column of Chart II, below:

CHART II

Large sewer pipe ASTM specification C13 44T (inside diameter, inches)	Invoice weights (pounds) per foot	Texas	Louisiana (west of the Mississippi River)
27" #1 per foot	245	$3.25	$3.25
30" #1 per foot	300	3.90	3.90
33" #1 per foot	355	4.65	4.65
36" #1 per foot	395	5.20	5.20
27" #2 per foot	245	2.60	2.60
30" #2 per foot	300	3.15	3.15
33" #2 per foot	355	3.75	3.75
36" #2 per foot	395	4.40	4.40

This amendment shall become effective October 2, 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS ACCOMPANYING AMENDMENT NO. 25 TO REVISED MAXIMUM PRICE REGULATION 206

The accompanying amendment modifies f. o. b. factory prices for 27" through 36" vitrified clay sewer pipe when shipped from the West Central Area to the South Central Area.

Producers in the West Central Area have historically supplied a substantial portion of the requirements of the South Central Area for the large sizes of sewer pipe affected by this action. Prior to June 1946, prices for large sewer pipe in the West Central and South Central Areas were identical. Since that time, the Price Administrator has taken certain actions which have inadvertently disturbed the normal distribution pattern of sewer pipe between these areas. Amendment 20 to Revised Maximum Price Regulation 206, effective June 10, 1946, permitted a 6.1% increase on sewer pipe products sold in the South Central Area. Amendment 22 to this regulation, effective July 26, 1946, permitted a 13.2% increase on sewer pipe products delivered in the West Central Area. The differential amount of adjustment appears likely to divert, unduly, shipments normally sold in the South Central Area. Moreover, it appears that an adjustment of 13.2% was appropriate under the Administrator's standards for all shipments originating in the West Central Area. Under the circumstances, the 13.2% adjustment, rather than the previously applicable 6.1%, has been applied to these shipments of large sewer pipe made in the South Central Area by producers located in the West Central Area.

Prior to the issuance of this amendment, the Price Administrator consulted, so far as practicable, with representatives of the industry and has given considerations to their recommendations. The Price Administrator, after due consideration of the foregoing, finds that this action is appropriate under the circumstances and consistent with the purposes of the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

[F. R. Doc. 46-17642; Filed, Sept. 27, 1946; 11:45 a. m.]

PART 1381—SOFTWOOD LUMBER

[2d Rev. MPR 26,[1] Amdt. 2]

DOUGLAS FIR AND OTHER WEST COAST LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Table 21 of Second Revised Maximum Price Regulation 26 is amended to read as follows:

TABLE 21—LATH AND SHINGLE BANDS

Green or dry—per 1,000 pieces	Fence	No. 1 plaster	No. 2 plaster	No. 3	No. 1 shingle bands
48", 1½" or 1⅝"	XXX	8.00	7.00	5.00	XXX
32", 1½" or 1⅝", 3 pcs to 1"	XXX	5.00	4.25	3.25	XXX
48", 1½" or 1⅝", 2 pcs to 1"	9.25	XXX	XXXX	XXXX	XXX
1½", ¾" x 1½"	XXX	XXX	XXXX	XXXX	8.00

This amendment shall become effective October 2, 1946.

[1] 10 F. R. 14186; 11 F. R. 2043, 3858, 3878.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 2 TO SECOND REVISED MAXIMUM PRICE REGULATION 26

This amendment is issued to reduce the price of plaster lath and all other items in table 21 of 2nd Revised Maximum Price Regulation 26, Douglas fir and other West Coast lumber, by $1.00 per thousand pieces. This is a price decrease of approximately 12 percent. Order No. 1 to Revised Maximum Price Regulation 26 issued September 18, 1946, granted increases for broom and mop handle squares averaging approximately $7.50 per thousand pieces or about 35 percent. The two actions together will establish a price relationship which should result in the desired production relationship between plaster lath and handle squares.

Both plaster lath and handle squares are made from slabs and edgings and both are manufactured on the same machines. An increase of over 80 percent in the price of plaster lath was granted temporarily by amendment 21 to Revised Maximum Price Regulation 26 and continued by the 2nd revision of that regulation. The available information indicates that a substantial increase in the production of lath resulted, thereby materially reducing the critical shortage which was the basis for the incentive increase. The price increase resulted in a greater utilization of machine capacity and waste. But a part of the increased lath production has been at the expense of handle square production and has resulted in an increasingly acute shortage of this necessary item. The Civilian Production Administration, therefore, has certified to this office that present essential consumer requirements will be most effectively met by restoring a more nearly normal relationship between the production of plaster lath and broom and mop handle squares. That agency has urged the Price Administrator to establish a price relationship which will achieve that objective.

That recommendation has been followed in the price increase granted on handle squares by Order No. 1 and the present price decrease of $1.00 per thousand pieces in the prices for plaster lath (and the less important associated items). This decrease will place the price for plaster lath more nearly in line with handle square prices. At the same time lath will continue to be priecd favorably in relation to handle squares. The decrease of $1.00 per thousand piece is therefore believed to be the most appropriate price reduction.

Because of the unavailability of exact data on lath and handle square production, no accurate estimate can be made of the effect on average realization of the price changes on those items. The increases and decreases will partially offset each other. In any case, these items constitute such a small part of total production that the price changes will have no substantial effect on over-all realization.

In view of the above considerations, the Administrator finds that this amendment is necessary and proper and consistent with the purposes and standards of the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

[F. R. Doc. 46-17636; Filed, Sept. 27, 1946; 11:43 a. m.]

PART 1400—TEXTILE FABRICS: COTTON, WOOL, SILK, SYNTHETICS AND ADMIXTURES

[MPR 127[1], Amdt. 54]

FINISHED PIECE GOODS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation No. 127 is amended in the following respects:

1. Section 1400.78 (c) (35) is revoked.

2. Section 1400.81 (a) (31) is added to read as follows:

(31) "Chain store" means a store which is one of a group of five or more commonly owned or controlled retail stores using a common name.

3. Section 1400.82(1) is amended to read as follows:

(1) *Substandard goods, shorts, and remnants.* The maximum prices set forth above for finished piece goods, shall be discounted for substandard goods, shorts, and remnants, as follows:

(1) Regular sized pieces discounted by 10%.

(2) 20 to 40 yard lengths discounted by 15%.

(3) 10 to 19.99 yard lengths discounted by 20%.

(4) 1 to 9.99 yard lengths discounted by 30%.

4. Section 1400.82 (aa) is amended to read as follows:

(aa) (1) *Restriction on producers' and converters' deliveries at Class II markup.* (i) Except as provided in (ii) below, the percentage of total deliveries of finished piece goods on which a producer or converter may charge a Class II markup, in any calendar month, shall be no greater in relation to his total deliveries of finished piece goods than the percentage of total deliveries of such goods made in 1941 to persons who are now defined as Class II purchasers (exclusive of chain store deliveries.); *Provided*, That a producer or converter, who in any calendar month does not deliver his entire permissible quota of finished piece goods to Class II purchasers at a Class II markup, may add the unused dollar balance of his quota (or a portion thereof) to his permissible percentage quota of deliveries at a Class II markup in any succeeding month.

(ii) A producer or converter who during 1941 delivered finished piece goods to persons now defined as Class II purchasers, and who does not desire to examine his delivery records in order to determine the exact amount of such deliveries, may charge a Class II markup on deliveries to Class II purchasers to an extent which does not exceed 5% of his total dollar deliveries of finished piece goods in any calendar month; *Provided*, That he has filed a statement with the Office of Price Administration, Washington 25, D. C. (and received an acknowledgment thereof) stating:

(*a*) That during the year 1941 he delivered finished piece goods to persons now defined as Class II purchasers, and

(*b*) That he intends to charge a Class II markup on deliveries to Class II purchasers to an extent not to exceed 5% of his total deliveries of finished piece goods in any calendar month.

This amendment shall become effective immediately, except that § 1400.82 (aa) shall become effective October 1, 1946.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 54 TO MAXIMUM PRICE REGULATION NO. 127

I

This amendment alters the provisions of Amendment 52 to Maximum Price Regulation 127 by providing that the restrictions imposed by Section 1400.82 (aa) shall be applicable to "deliveries". However, in order to permit a fulfillment of their commitments by producers and converters who prior to September 4, 1946, booked orders or made contracts to sell finished piece goods at Class II prices to persons formerly defined as Class II purchasers, the effective date of this change has been deferred until Oct. 1, 1946. Consequently, sellers of finished piece goods will have until Sept. 30 to fulfill such contracts entered into prior to September 4, 1946. Commencing October 1, 1946, deliveries at Class II prices may be made only to persons who were defined as Class II purchasers by Amendment 52 issued on September 4, 1946, regardless of the date of the order or contract to sell.

This amendment also permits producers and converters, who in any calendar month did not deliver their full quota of finished piece goods at a Class II markup, to add the unused dollar balance to their percentage quota in any succeeding month. This provision was added for the purpose of permitting those sellers who normally have a seasonal fluctuation in the volume of their deliveries to Class II purchasers to obtain the full benefit of their established permissible quota of deliveries at a Class II markup. In addition to the foregoing the term "chain store" is defined in this amendment.

II

Since March 1942 when the price of finished piece goods remnants was frozen by the enactment of the General Maxi-

[1] 10 F. R. 14507, 15006; 11 F. R. 1783, 2075, 2224, 2986, 3863, 14628, 4339, 4541, 5120, 5542, 7282, 8646, 8961.

mum Price Regulation, sellers of piece goods in one to ten yard lengths have been subject to a squeeze resulting from the increased cost of grey goods. The Administrator is of the opinion that the most suitable means of arriving at an equitable ceiling price for this commodity is to bring it within the pricing provisions of Maximum Price Regulation No. 127 and to require that it be sold at a discount equivalent to that which was customarily allowed on piece goods in one to ten yard lengths, and this amendment so provides.

[F. R. Doc. 46-17639; Filed, Sept. 27, 1946; 11:44 a. m.]

PART 1499—COMMODITIES AND SERVICES

[MPR 614, Amdt. 1]

RETAIL SALES OF SPECIFIED ARTICLES OF HARDWARE

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.

Maximum Price Regulation 614 is amended in the following respects:

1. The second undesignated paragraph of section 2 is amended to read as follows:

"Net cost" means the invoice cost of the article you are pricing less all discounts except cash discounts but including all incoming transportation charges.

"Incoming transportation charges" means the transportation charges from the supplier's shipping point to the point at which you first offer the article for sale at retail. In establishing maximum prices you must elect to allocate transportation charges exclusively (and you may not after October 10, 1946 change your election) either

(a) By allocating such charges to the article you are pricing on the basis of the value of the article.

Example: Take the incoming freight cost on any shipment and divide this figure by the total invoice cost of the articles included in that shipment. The resulting figure is your freight factor for the shipment. To determine the amount of freight properly allocable to the article in the shipment, multiply the invoice cost of the article by the freight factor.

(b) Or by using any method which you have established and which you customarily used immediately prior to August 9, 1946, of arriving at a freight factor to be included in your net cost in pricing articles subject to this regulation.

This amendment shall become effective October 2, 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 1 TO MAXIMUM PRICE REGULATION 614

The accompanying amendment provides sellers with an alternate method of allocating transportation charges to articles in determining their net cost. Inasmuch as many sellers had an established method of allocating transportation charges prior to the issuance of this regulation and are unable readily to use the system heretofore provided by the regulation, such sellers will be permitted to use the method which they had established and customarily used immediately prior to August 9, 1946, the date on which the regulation was issued. Use of this method will not affect the price level and once elected must be used exclusively.

[F. R. Doc. 46-17644; Filed, Sept. 27, 1946; 11:45 a. m.]

PART 1499—COMMODITIES AND SERVICES

[SR 14F, Amdt. 25]

SOYBEAN ADHESIVES AND ISOLATED PROTEINS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

A new section 39 is added to SR 14F, to read as follows:

SEC. 39. *Soybean adhesives and isolated proteins*—(a) *Sales by producers.* The maximum price per hundred pounds for a producer's sales of soybean adhesives to any class of purchasers shall be the producer's maximum price per hundred pounds for sales to that class of purchasers of the grade of soybean adhesive established under the GMPR plus an addition per hundred pounds of such adhesive determined by multiplying $0.70 or $0.78 by the percent content of soybean meal or soybean flour respectively, depending upon which is actually used in the manufacture of the soybean adhesive.

The maximum prices per hundred pounds for a producer's sales of proteins isolated from soybean meal to any class of purchasers shall be the producer's maximum price per hundred pounds for sales to that class of purchasers of the grade of proteins isolated from soybean meal established under the GMPR plus an addition per hundred pounds of such isolated protein determined by multiplying $0.70 by the number of pounds of soybean meal used to produce one pound of isolated protein.

On and after July 25, 1946, for every increase of $1.00 per ton in the delivered cost of soybean meal over a base delivered cost of $62.00 per ton, bulk, f. o. b. Decatur, Ill., the producer of soybean adhesives made from soybean meal may increase his maximum price per hundred pounds for such adhesives by adding to the maximum price the result of the multiplication of the percent content of soybean meal contained therein by 5 cents. Where soybean flour is used in the production of such adhesives, the maximum price may be further increased by the cost of converting soybean meal to soybean flour, not exceeding three-fourths of one cent per 100 lbs. of adhesive.

On and after July 25, 1946, for every increase of $1.00 per ton in the delivered cost of soybean meal over a base delivered cost of $62.00 per ton, bulk, f. o. b. Decatur, Ill., the producer of proteins isolated from soybean meal may increase his maximum price per hundred pounds for such proteins isolated from soybean meal by adding to the maximum price the result of the multiplication of the number of pounds of soybean meal used to produce one pound of isolated protein by 5 cents.

For the purposes of the above computations, the delivered cost of soybean meal shall be the actual average cost of inventory on hand at the end of each calendar month, provided, however, that soybean meal purchased from July 1 to July 25 inclusive may not be used in calculating the actual inventory.

(b) *Adjusted price for resellers' sales*—(1) *Percentage increases.* Where a supplier increases his price to a reseller on or after June 10, 1946 such reseller may increase his ceiling price by the percentage of the increase in his supplier's price to him.

(2) *Notification.* A supplier, who increases his price to a reseller, shall send a notice to such reseller stating the percentage of the supplier's increase in price to such reseller and that the supplier's price does not exceed the OPA ceiling price.

(c) *Freight and trade practices.* The maximum prices established by paragraphs (a) and (b) above shall be subject to the freight and trade practices in effect on sales of soybean adhesives or isolated proteins by that seller in March 1942.

This amendment shall become effective October 2, 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 25 TO SUPPLEMENTARY REGULATION 14F

The accompanying amendment increases the maximum prices established by the GMPR for soybean adhesives and proteins isolated from soybean meal.

Soybean meal or soybean flour is a main ingredient used in the manufacture of soybean adhesives and proteins isolated from soybean meal. These products are imported adhesives utilized in the manufacture of furniture, plywood and other items. A considerable number of important industries are dependent upon the continued production of these products which are already in short supply.

On June 10, 1946 this Office issued Order 54 under Section 19a of GMPR authorizing sales of soybean adhesives and isolated proteins from soybean meal at adjustable maximum prices. The statement of considerations accompanying the issuance of the Order, insofar as here relevant, states the following:

"By Amendment 5 to Supplement 3 to Food Price Regulation 3 the Office of Price Administration has increased the maximum price of soybean meal by $14.00 per ton. A small portion of soybean meal is ground into soybean flour which in turn is made into adhesives and isolated proteins sold almost exclusively to industrial users.

"Because of this cost increase, a number of requests have been made by the producers of adhesives and isolated proteins containing soya meal or soya flour

over-all realization.

for the revision of the maximum prices established under the GMPR which do not reflect this recent raw material increase. Producers have indicated their unwillingness to produce at the present prices. This has resulted in a threatened shutdown in the production of these products which are already in short supply."

The manufacturers comprising this industry are multi-line companies. The current over-all earning position of these companies is favorable compared to the base period. The minimum requirement for the Administrator under the circumstances is to establish ceiling prices which will cover average factory unit cost and he may, because of the importance of these products in the transition period, allow an increase to cover average total unit cost.

The accompanying amendment provides for an increase of 70¢ per hundred pounds depending upon the percent content of soybean meal used in the manufacture of the soybean adhesive. This upward adjustment of the GMPR maximum price reflects the increase in raw material costs of soybean meal from $48.00 per ton to $62.00 per ton, the price which prevailed on June 30, 1946. Where soybean flour is used, an additional 8¢ is allowed to cover extra costs of grinding, labor, loss, factory overhead, etc., necessitated in the conversion of soybean meal to soybean flour.

The amount of adjustment granted herein was computed after an extensive survey by this Office of the current total cost-price relationship of these products. This study showed that in the soybean adhesive group, the percentage content of soybean meal or flour varied between 35 to 95 percent in the various grades, that some grades contained casein, which had recently received an upward price adjustment, and other grades contained no casein. Furthermore, it appeared on an industry-wide basis that no clear cut correlation existed between increased costs, either factory or total, and the percentage content of soybean meal or flour. Inasmuch as producers of more than 80 percent of total industry production indicated their willingness to accept an increase in their ceiling prices in an amount sufficient to recover the increase in the raw material cost of $14 per ton for the soybean meal and a slightly higher cost for the soybean flour, the adjustment figures of 70 cents and 78 cents respectively per hundred pounds were designated. On the average, it is expected that this adjustment in price will approximate total costs.

It appears that the price of soybean meal had risen beyond $62.00 per ton bulk, f. o. b. Decatur, Ill., between July 25th and September 3. Consequently, this amendment contains an automatic adjustment provision whereby a producer may advance the maximum price of soybean adhesive by an amount by which the soybean meal cost per hundred pounds is increased depending upon the percent content of soybean meal contained therein. The delivered cost of soybean meal, in connection with this computation, shall be the actual average cost of inventory on hand at the end of each calendar month. It is intended, therefore, that this calculation shall occur at the end of each calendar month. However, soybean meal, purchased from July 1 to July 25, inclusive, may not be used in calculating such inventory. In addition to such increased cost of the soybean meal, provision is made for further increasing the maximum price by the cost of converting soybean meal to soybean flour. A similar automatic adjustment provision is provided with respect to proteins isolated from soybean meal.

In the opinion of the Administrator, the maximum prices established by this amendment are generally fair and equitable, consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

Chapter XVIII—Office of Economic Stabilization, Office of War Mobilization and Reconversion

Part 4003—Subsidies; Support Prices

[Directive 137, Amdt. 1]

Modification in Premium Price Plan for Copper, Lead and Zinc

On Friday, September 13, 1946 the Stabilization Director issued Directive 137 modifying the Premium Price Plan for Copper, Lead and Zinc in accordance with the terms of the Price Control Extension Act of 1946 (P. L. 548, 79th Cong., 2d Sess.). Directive 137 appearing at 11 F. R. 10531 is amended by designating the text thereof as § 4003.67a, and paragraph (1) (d) is redesignated paragraph (a) (4) and the text thereof is amended to read as follows:

§ 4003.67a *Modifications in premium price plan for copper, lead and zinc.* • • •

(a) • • •

(4) *Provision for adequate allowance for depletion.* To margins calculated as heretofore under the Premium Price Plan for Copper, Lead and Zinc shall be added 25% of the net market value for each metal, other than copper, lead and zinc, contained in his ores for which payment is made to the producer by the processing plant, provided the producer owns the property from which the ores are produced.

This amendment shall be effective July 1, 1946.

TITLE 46—SHIPPING

Chapter II—United States Maritime Commission

Subchapter F—Merchant Ship Sales Act of 1946

[Gen. Order 60, Supp. 7]

Part 299—Rules and Regulations, Forms, and Citizenship Requirements

Prices for Maritime Commission Vessels

Subject to the provisions of the Merchant Ship Sales Act of 1946 (60 Stat. 41) and 46 CFR, Part 299, appearing at 11 F. R. 4459, 4702, 8370, 8972 and 9936, the following additional vessel prices are published:

Prices for Standard Maritime Commission Vessels in Accordance With the Merchant Ship Sales Act of 1946

Type vessel	Prewar domestic cost	Domestic war cost	Unadjusted statutory sales price	Floor price
Dry cargo			*50% 1921 cost*	*35% war cost*
C2-S1-AJ4 [1] (combination cargo-passenger)	$3,280,000		$1,640,000	
C3 P&C [1]	3,800,000	$4,940,000	1,900,000	$1,729,000
Passenger and cargo	3,800,000	4,300,409	1,650,000	1,505,143
P1-S2-L2	[2] 3,615,000	[2] 4,016,004	[2] 1,807,500	[2] 1,756,301
P2	[2] 6,949,967	[2] 9,647,293	[2] 3,474,983	[2] 3,376,553
YF covered barge	161,000	209,300	80,500	73,255

[1] Price based on bare boat ship after removal of national defense features and without passenger accomodations or additional cargo handling gear.

[2] For adjustment for prior sales; not available for disposal. In the case of the C2-S1-AJ4, the purchaser's contract shall provide for payment of the floor price if the floor price calculated upon the war-built cost (when available later) is higher than the statutory sales price, and for adjustment of the statutory sales price if the difference between the domestic war cost and the prewar domestic cost is greater than 80%.

Subpart F—Prewar Domestic Costs; Statutory Sales Prices

Notes: 1. Design characteristics are for identification purposes are not warranted as those of any particular vessel.

2. Design characteristics are not set forth for types not available for disposal but included merely for adjustment for prior sales to citizens in accordance with section 9 of the act. (It should be noted that applications for such adjustment must be made within 60 days of publication of applicable prices.)

§ 299.56 *Prewar domestic costs: statutory sales prices* is amended as follows: 1. Paragraph (z) is revised to read:

(z) *Miscellaneous.* The following types and prices are included for purposes of adjustment for prior sales to citizens in accordance with section 9 of the act. No vessels of these types are available for disposal.

Prices for the C2-S-A1, C5-S-AX1, L6, R2-ST-AU1, and T3-S-BF1 types were published in the Federal Register of August 17, 1946. Prices for the C2-S1-AJ4 combination cargo-passenger and the C3 and P&C types have not previously been published.

Type	Prewar domestic cost	Domestic war cost	Unadjusted statutory sales price	Floor price
Dry cargo				
C2-S1-AJ4 [1] (combination cargo-passenger)	$3,280,000		$1,640,000	
C2-S-A1	2,275,000	$2,964,676	1,137,500	$1,037,617
C3 P&C	3,800,000	4,940,000	1,900,000	1,729,000
C5-S-AX1	3,460,000	4,508,914	1,730,000	1,578,120
L6	1,792,000	2,335,252	896,000	817,338
R2-ST-AU1	4,300,000	5,530,684	2,150,000	1,935,739
Tankers				
T3-S-BF1	1,789,500	2,244,925	1,565,812	1,122,463

[1] The purchaser's contract shall provide for payment of the floor price if the floor price calculated upon the war-built cost (when available later) is higher than the statutory sales price, and for adjustment of the statutory sales price if the difference between the domestic war cost and the prewar domestic cost is greater than 80%.

2. The following paragraphs are added at the end of the said § 299.56: (bb) *Type passenger and cargo.* (Not previously published.) The passenger and cargo type vessel is a single screw, turbine-propelled vessel with a raked stem and contour stern.

Vessels of this type available for disposal are now military auxiliaries.

When reconverted to passenger and cargo vessels, the principal design characteristics will be as follows:

Length over-all	491' 0".
Beam molded	67' 6".
Depth molded	39' 9".
Load draft molded	25' 6".
Deadweight tons	9,021.
Gross tons	7,980.
Net tons	4,540.
Bale cubic capacity	453,273.
Propulsion	Turbine
Shaft h. p., normal	7,800.
Speed, knots	16½.
Passengers	67.
Staterooms	26.

The prices of the standard design are as follows:

Prewar domestic cost	Domestic war cost	Unadjusted statutory sales price	Floor price
$3,300,000	$4,300,409	$1,650,000	$1,505,143

(cc) *Type P1-S2-L2.* (Not previously published) The P2-S2-L2 is a steel vessel with raked stem and transom stern. It is a passenger type vessel of special design converted to a Navy troop ship.

Principal design characteristics are as follows:

Length over-all	414' 4".
Beam molded	56' 0".
Depth molded	34' 0".
Load draft molded	18' 0".
Deadweight tons	1,877.
Gross tons	
Net tons	
Bale cubic capacity	82,182.
Propulsion	Turbine.
Shaft h. p., normal	8,000.
Speed, knots	19.
Passengers	
Staterooms	

The prices of the standard design are as follows:

Prewar domestic cost	Domestic war cost	Unadjusted statutory sales price	Floor price
[1] $3,615,000	[1] $4,016,004	[1] $1,807,500	[1] $1,756,301

[1] Price based on bare boat ship after removal of national defense features and without passenger accommodations or additional cargo handling gear.

(dd) *Type P2.* (Not previously published) The P2 type is a steel, twin screw combination vessel with a curved stem and cruiser stern.

There are two standard designs of the P2 type, the P2-SE2-R1 and the P2-S2-R2, both of which are military transports. Principal design characteristics are as follows:

	P2-SE2-R1	P2-S2-R2
Length over-all	608' 11"	622' 7".
Beam molded	75' 6"	75' 6".
Depth molded	52' 6"	51' 6".
Load draft molded	26' 6"	26' 1".
Deadweight tons	11,913	10,025.
Gross tons	15,940	17,830.
Net tons	9,320	10,000.
Bale cubic capacity	106,349	145,680.
Propulsion	Turb.-elect	Turbine.
Shaft hp., normal	18,000	17,000.
Speed, knots	19	19.
Passengers		
Staterooms		

Prices for the two standard designs are as follows:

Prewar domestic cost	Domestic war cost	Unadjusted statutory sales price	Floor price
[1] $6,949,967	[1] $9,647,293	[1] $3,474,983	[1] $3,376,553

[1] Price based on bare boat ship after removal of national defense features and without passenger accommodations or additional cargo handling gear.

(ee) *Type YF covered barge.* (Not previously published) The YF covered barge is a Navy designed non-propelled barge, capable of being used for ocean service, built of steel with one continuous deck and four cargo holds. Cargo side ports are provided in the deck house together with hatch openings for all holds. Accommodations for personnel are installed forward.

Principal design characteristics are as follows:

Length over-all	260' 0".
Beam molded	48' 0".
Depth molded (Mn. dk.)	15' 0".
Draft molded	9' 6".
Deadweight tons	2,000.
Bale cubic capacity	162,000 (est.).

The prices of the standard design are as follows:

Prewar domestic cost	Domestic war cost	Unadjusted statutory sales price	Floor price
$161,000	$209,300	$80,500	$73,255

(60 Stat. 41)

By order of the United States Maritime Commission.

A. J. Williams,
Secretary.

September 25, 1946.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 135, Amdt. 3]

Part 95—Car Service

Demurrage Charges at Mexican Border Points

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 23d day of September A. D. 1946.

Upon further consideration of the provisions of Service Order No. 135 (8 F. R. 9569), as amended (8 F. R. 10941; 11 F. R. 8451), and good cause appearing therefor:

It is ordered, That Service Order No. 135, as amended, be, and it is hereby, further amended by substituting the following paragraph (a) for paragraph (a) of § 95.502 *Demurrage charges at Mexican border points.*

§ 95.502 *Demurrage charges at Mexican border points.* (a) After expiration of the free time allowed by tariffs lawfully on file with this Commission on interstate or foregin shipments in carloads originating at points in, or moving through, the United States and destined to points in Mexico the demurrage charges at Brownsville, Texas (see exception below); Calexico, California; Cantu, Calif.; Divison, California; Douglas, Arizona; Eagle Pass, Texas; El Paso, Texas; Laredo, Texas; Naco, Arizona; Nogales, Arizona; Presidio, Texas; and San Ysidro, California; on such carload shipments shall be $5.50 per car per day or fraction thereof, for each of the first two (2) days, and shall be $22.00 per car per day or fraction thereof, for each succeeding day.

Exception: The provisions of this order shall not apply to freight in carloads, at or short of the port of Brownsville, Texas, which is transshipped at that port to vessels for export, coastwise or intercoastal movement.

It is further ordered, That this amendment shall become effective at 12:01 a. m., September 26, 1946; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

[SEAL] W. P. Bartel,
Secretary.

In Federal Register Document 46-17150, appearing on page 10782 of the issue for Wednesday, September 25, 1946, under the headnote "Lifeboats" the first line of the second paragraph should read: "18' x 6.25' x 2.75' aluminum oar-pro-" and the first line of the fourth paragraph should read: "12' x 4.92' x 1.92' steel oar-propelled".

DEPARTMENT OF AGRICULTURE.
Production and Marketing Administration.

FRESH CELERY IN FLORIDA

NOTICE OF REPORT AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND TO PROPOSED ORDER REGULATING HANDLING

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders, as amended (7 CFR, Cum. Supp., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737), notice is hereby given of the filing with the Hearing Clerk, of the report of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order regulating the handling of fresh celery grown in the State of Florida, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.). Interested parties may file exceptions to this report with the Hearing Clerk, Office of the Solicitor, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 15th day after the publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

The public hearing, on the record of which the proposed marketing agreement and the proposed order were formulated, was initiated by the Production and Marketing Administration, United States Department of Agriculture, following receipt of a petition filed by numerous growers and shippers of fresh celery grown in the State of Florida. The notice of hearing was published in the FEDERAL REGISTER on June 11, 1946 (11 F. R. 6342); and the hearing was convened at the following times and places:

June 27, 1946, at 10:00 a. m., e. s. t., County Courthouse, Sanford, Florida;

July 1, 1946, at 10:00 a. m., e. s. t., City Hall, Belle Glade, Florida;

July 3, 1946, at 10:00 a. m., e. s. t., County Courthouse, Sarasota, Florida.

The major issues developed at the hearing were concerned with: (1) whether celery grown in Florida is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce in celery; (2) whether regulations by grades and sizes and the point at which control is effected under such methods of regulations contained in the proposed marketing agreement and proposed order, will tend to accomplish the purposes of the act; (3) whether regulation by available supply (volume control) and the point at which control is effected under such method of regulation contained in the proposed marketing agreement and proposed order will tend to accomplish the purposes of the act; (4) whether marketing or economic conditions justify the issuance of an order; (5) the proper size of the marketing area; (6) the adequacy of the composition, and distribution, of member representation among the districts for the Industry Committee and the Shippers Advisory Committee; and (7) the practicableness of a fixed reduction of an allotment percentage for handlers electing to modify their allotments from those issued in accordance with Method III (available supply).

The conclusions reached, on the basis of the hearing record, with respect to these issues, together with some of the supporting reasons for such conclusions, are set forth below:

(a) Fresh celery to be regulated under the proposed marketing agreement and proposed order is in the current of interstate and foreign commerce or directly burdens, obstructs, or affects such commerce in celery.

Celery is one of the principal vegetables marketed from Florida. It represents a considerable proportion of the total quantity of celery marketed, from all winter and spring celery production areas, from December of each year through June of the following year.

An exceedingly high proportion of Florida's celery production moves, in fresh form, into interstate and foreign commerce directly. Of the remainder, a high proportion is subsequently shipped into interstate commerce in direct competition with other celery shipped from Florida and from other states. It is estimated that 98 per cent of Florida's production actually moves into interstate commerce. Celery initially sold within the State very frequently finds its way into interstate channels through direct sales to truck operators or through sales to fresh produce markets within the State and subsequent resales to persons who move the celery, or cause the celery to be moved, to out-of-state markets for ultimate sale in such other states.

Individual sales of celery within the State of Florida vary widely in the number of crates sold; and the ultimate market outlets are numerous. During periods in which a large volume of celery is shipped to large numbers of buyers who are actively bidding for each potential consumer outlet, each sale within the State affects the sensitive market condition in general. Sales to truckers and to, or through, local wholesale produce markets normally are made (1) when the total volume of celery available for shipment is in excess of other foreseeable sales outlets, (2) when the volume of one variety, better grades, or particular sizes of celery exceed demand, and (3) when truckers are willing to speculate on the probable return accruing from the combined services of transportation and selling. Sales within the State of Florida are an integral part of all sales in all market outlets for celery and thus, depending upon relative market locations and prices, affect, in varying degrees, the quantities of celery that may be channeled into markets over a wide area, and the prices obtainable.

Visible supplies of celery include rail, boat, and truck shipments, truck holdings, and unharvested celery available for harvesting during succeeding weeks. Prices obtainable in the central markets react to the volume of visible supplies of celery in relation to consumer demand. Dealers in the central markets engage representatives, stationed in the producing areas in Florida, who keep the dealers informed regarding the condition of the crop, the probable volume of celery available for harvesting during succeeding weeks, and other factors that will enable the dealers to bid more effectively for the visible supply. Conditions forseeable for succeeding weeks, as well as current and preceding weeks activities, directly affect the price obtainable at any particular time.

It is the policy of the Agricultural Marketing Agreement Act of 1937, as amended, that agreements made and orders issued pursuant thereto may effect a proper price to growers for the agricultural commodity involved and to bring about the orderly marketing of such commodity. During periods in which the volume of production of such agricultural commodity is sufficiently great to reduce the price below that determined in accordance with the act as the price necessary to assure proper returns for the marketing season, it is contemplated that regulations of the type permitted by the act will be instituted to regulate the flow of the commodity in distribution channels. In so doing, it is recognized that the volume of the commodity restricted from shipment would, if permitted to be shipped, defeat the purposes of the act. Outlets for celery are almost exclusively limited to the fresh market; and intrastate uses are almost negligible in relation to the total production of Florida celery and would not exceed the volume that would be excluded, or be affected, by any restrictive regulation. To permit the restricted volume to move in intrastate channels would directly affect prices at that level and, in the knowledge that irregular shipments may move into interstate commerce, would create uneasiness and instability of prices in out-of-state markets and consequently tend to defeat the purposes of the act. Celery is, generally, harvested for no purpose other than for sale in fresh form in interstate commerce; it has virtually no other use.

If prices in Florida for Florida celery were not affected by prices for such celery elsewhere, or did not affect prices elsewhere, the sales prices for Florida celery sold in the State presumably would have little relationship to central market prices. Yet the relationship is remarkably close. Exhibit 6, received in evidence and made a part of the hearing record, contains prices, by grades, sizes, and varieties, obtained by certain shippers in 1945 and an earlier year. Tables 6 and 7 of Exhibit 14, also received in evidence and made a part of the hearing record, show the relationship between the Jacksonville, Florida, wholesale market price and the average prices obtained at ten central markets between 1933 and 1940. These data clearly reflect close price relationships between sales of celery within the State of Florida and in other states.

(b) The regulation of shipments and the point at which control will be effected by Methods I and II (i. e. by grades and sizes, respectively) will tend to accomplish the purposes of the act.

Testimony presented at the hearing indicates that not all growers will at all times produce celery of like quality or of like sizes; and, if a regulation is issued during certain weeks, it might be more burdensome upon some growers than on others. Proponents of the proposed marketing agreement and proposed order stated that such an occurrence was anticipated in their proposal and that it was their intention to prevent possible inequities by providing for representation on both committees, to be established pursuant to the marketing agreement and order, sufficiently large that possible inequities will be brought to the attention of the committees and the Secretary, and by requiring one of the committees to obtain detailed information by grade and size.

That restrictions of shipments by either grade, size, or volume (available supply) will tend to accomplish the purposes of the act is clearly established by proponents and opponents. While volume of the commodity is the principal factor affecting the price of celery, there are periods during each season, when, because of specific preferences in the various markets for celery by grades or sizes or varieties, it may be advisable to regulate shipments by Method I or Method II.

Should regulations be made effective pursuant to Method I or Method II, control over celery immediately prior to, and during, the time it is loaded out of the first handler's packing house will be necessary to accomplish the purposes of the act. The only practicable time during which inspections, with respect to compliance, can be made to determine grades and sizes of celery included in packages of celery to be shipped is after the packages have been filled and during the process of loading them out of the packing house.

(c) The regulation of shipments and the point at which control will be effected by Method III will tend to accomplish the purposes of the act.

Arguments were presented at the hearing by opposition witnesses that regulation by Method III would not be equitable since celery of all growers would not be harvested each week and the volume of celery available for harvesting would not be proportionally distributed among all growers during each week of the season. If heavy plantings of celery are concentrated into a few weeks so as to cause a disorderly pyramiding of shipments to build up during one or more three-or-four-week periods, it is conceivable that unusually heavy restrictions of shipments could occur during such weeks. However, at the hearing, it was argued that without shipment regulations during such periods, disorderly marketing conditions could cause such abnormally poor prices that the returns to growers would not equal the harvesting costs; and that it is highly improbable that returns would equal the total cost of production, harvesting, and marketing. Under regulated shipments, as provided in the proposed marketing agreement and proposed order, proponents and opponents agree that the price obtainable for celery shipped would result in higher prices to growers and effect higher grower returns.

In planning the planting of celery, growers determine the acreage that should be planted for harvesting during a particular one-week period by estimating the approximate harvesting date or period, which they may be reasonably sure will fall within a particular thirty-day period. The selection of a particular week for planting celery involves an appraisal of the relative favorableness of the price that may be obtained when the celery matures. Normally, every grower will hedge his appraisal of the price for celery anticipated during a particular harvesting period by staggering his plantings so that he will have celery available for harvesting from two to six or seven months of the marketing season. Each district, defined in the proposed marketing agreement and proposed order, has celery available for harvesting during essentially the same series of months with the exception that the South Florida District, the Florida West Coast District, and parts of the Central and North Florida District conclude their harvesting and marketing seasons during late April and early May, while other parts of the Central and North Florida District do not conclude their harvesting and marketing seasons until June. Therefore, the independent action of growers, in each district, at planting time may contribute to the relative disorderliness of marketings three to four months afterwards.

The price obtained for celery at any particular time is largely dependent upon the volume of celery available in the central markets or the relative congestion of celery in those markets. Such price usually is affected by the ability of the markets to absorb the visible supply of celery during a period of days or weeks. Regulations restricting shipments are to be designed to reduce the congestion in the markets through the anticipation of such occurrences by careful study of anticipated supplies and other factors in the committee's marketing policy report, required by Section 4 of the proposed marketing agreement and proposed order. Hence, wide variations in the proportions of the weekly available supplies that will be restricted from shipment may be largely avoided. Day-to-day shipments of celery may vary widely, but on a week-to-week basis the patterns of shipments will be fairly smooth. So, the committees, in making recommendations for regulations, may anticipate a problem a few weeks in advance of its occurrence and minimize its effect by a well planned series of recommendations which, if made effective by means of regulations, would tend to eliminate market congestion.

In the case of regulation by Method III, the only effective time at which the volume of celery can be regulated, and, incidentally, the most economical point in the successive steps of the handling of celery, is at the time of harvesting. At any other point in the handling, the ability to enforce the regulation would become increasingly difficult, and expensive to growers and shippers.

The harvesting of celery is a handler function; and control at the point of harvesting, in the event regulations are issued pursuant to Method III, is necessary to accomplish the purposes of the act. In the Central and North Florida District and in the Florida West Coast District all celery is harvested by the handler, or by grower-shipper acting in his capacity as a handler. In the South Florida district some celery is harvested by the grower in cooperation with, and as agent for the handler, in order that the handler may make preliminary arrangements for the sale of the celery and may properly coordinate the functions of harvesting, washing, packing, precooling, loading, and selling the celery. Without this effective control over the harvesting of celery by the handler, large quantities of this highly perishable commodity would be lost by spoilage during the initial stages of its preparation for market.

(d) Marketing and economic conditions justify the issuance of a marketing agreement and order.

Since 1938 prices for celery have followed an upward trend in response to increased purchasing power of consumers; and a consequent expansion of the industry has resulted. The significance of the price influence is evident by comparison of trends in the acreage devoted to celery. Between 1932 and 1938 the Florida celery acreage ranged between 5,450 acres to 7,200 acres. Since 1938 the acreage has ranged from 6,700 acres to more than 14,000 acres in 1946. This expansion of acreage of celery has been associated with an expansion into sections of the State where celery was not previously grown. Prior to 1941 celery production was confined largely to Seminole, Sarasota, and Manatee Counties. Recently the industry has expanded in the vicinity of Belle Glade, Canal Point, and Pahokee in Palm Beach County, and in the vicinity of Weirsdale, Island Grove, Oklawaka, and Zellwood in the Central and Northern Florida District.

This augmentation in celery acreages is also associated with the development, within the industry, of large-scale operations involving a few hundred acres of celery operated by one individual, whereas the earlier history of the industry has been one of considerably smaller operations. The newer acreages are located in muck soil areas; and such soil requires less fertilizer than the sand lands which constituted the initial source of celery acreage for the industry.

Prices for celery during the war period have been favorable; and the scarcity and rationing of other vegetables coupled with the high consumer purchasing power have contributed to the realization

of that price level. During the 1945–46 season, prices for celery declined markedly following the over-expansion of the industry and the relaxation of military demands and rationing controls on virtually all foods. The evidence adduced at the hearing indicates that a large part of the industry fears that adjustment to a peace-time economy will be disorderly and extremely costly to them, will be harmful to the Florida agricultural economy, and may exert an adverse effect on the marketing of other fresh vegetables, unless a marketing agreement and order program is instituted to moderate the effects of such an adjustment.

(e) The marketing area should include the entire State of Florida.

A market reputation has been developed for Florida celery. No distinction is made as to the celery produced in the different districts. In the present celery producing districts there are found the two major soil types, already described, and practically the entire range of temperatures common to the State. There is little reason, therefore, why celery could not be grown in virtually any part of the State where adequate irrigation and proper drainage can be maintained. Delimitation of the area to one containing fewer counties or to a part of the State is not practicable.

(f) There should be an Industry Committee to administer the terms and provisions of the proposed agreement and proposed order and a Shippers Advisory Committee. The Industry Committee should be composed of nine members, with four members from the Central and North Florida District, three members from the South Florida District, and two members from the Florida West Coast District. The Shippers Advisory Committee should be composed of ten members, with four members each from the Central and North Florida District and the South Florida District, and two members from the Florida West Coast District.

Representation on the Industry Committee is designed to afford an adequate distribution of membership to each of the geographic divisions or districts in the area. It is related generally to the size of each geographic part of the industry with respect to production, or acreage devoted to the crop, and to the number of growers. The number of representatives in each district is designed to permit representation of each recognized part of the industry within such district.

Two representatives from the Florida West Coast District is considered to be the minimum desirable number, since (1) a considerable part of the production in that area is handled through one cooperative marketing organization and (2) it is considered imperative that opportunity for representation be afforded to the group of growers associated with the cooperative marketing organization, as well as to others. Three representatives is considered to be the minimum desirable number for the South Florida District to afford representation for growers associated with cooperative, as well as non-cooperative organizations, and because of the much greater magnitude of production in that area as compared with the Florida West Coast District. Four representatives from the Central and North Florida District is considered to be the minimum desirable number for that district to afford proper representation. The latter district has producing sections that are much more scattered than in the case of the other two sections, and has a larger production of celery and the greatest number of growers. Such representation is desirable to afford adequate representation for growers who are associated with cooperative marketing associations, and other growers, for growers operating in the sand and muck land sections, and for small and large growers.

In determining this representation by districts, the proponents chose not to relate representation strictly to acreage, production, or the number of producers because of recent changes within the industry in this respect. The current basis affords a proper representation from within each district and in combination with the other districts, particularly in relation to the quorum and voting requirements of the proposed marketing agreement and order.

Representation on the Shippers Advisory Committee is designed to afford adequate representation in accordance with the prevailing types of marketing organizations and the approximate relationship to the volume of the marketings, and to permit the inclusion of a sufficient number of handlers so that complete information concerning the various markets may be available for consideration prior to the making of recommendations. The provision for the largest shipper in each district to nominate one member is designed to furnish the committee with a representative, from each district, who has the broadest knowledge of the markets. This arrangement will permit nominations for other members of the committee in each district by all other handlers and, thus, assure a fair distribution of membership.

In order that at least one handler representative may be obtained, in addition to the largest shipper, the Florida West Coast District will have two handler representatives. In each of the two other districts four handlers are deemed to be the minimum desirable number of representatives to afford proportional representation somewhat in relation to the volume of celery shipped from the respective districts and to afford adequate representation among all types of handlers.

(g) The adjustment of individual allotments, when handlers modify their allotments issued pursuant to Method III, should be flexible.

The incidence of a change in the quantity of celery that may be harvested for shipment occasioned by withdrawing or exceeding allotments, in accordance with paragraph (h) of section 5 of the proposed marketing agreement and proposed order, will be variable depending upon the extent to which prices or supplies may be affected. In recommending allotments, the committees will consider the advisable supply of celery to be shipped during a series of weeks in relation to the available supply of celery. Each change in the quantities of celery permitted to be shipped will tend to upset the committee's plans and the prices obtainable for, or the allotment issued with respect to, all celery depending upon the sensitiveness of market conditions at any particular time. The decision with respect to the adjustment of the allotment percentage should be left to the committees, established pursuant to the proposed marketing agreement and proposed order, and the Secretary.

The following proposed marketing agreement and proposed order are recommended as the detailed means by which the above conclusions may be carried out. The provisions identified with an asterisk (*) apply only to the proposed marketing agreement and not to the proposed order.

Proposed Marketing Agreement and Proposed Order

Findings. Upon the basis of the evidence introduced in the public hearing and the record thereof, it is hereby found that:

(1) The proposed marketing agreement and the proposed order regulating the handling of fresh celery grown in the State of Florida and all terms and conditions of the marketing agreement and order will tend to effectuate the declared policy of the act;

(2) Celery to be regulated by such marketing agreement and order is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce in celery;

(3) Such marketing agreement and order are the only practicable means, pursuant to the act, to advance the interests of the producers of celery which is produced for sale in the said marketing area; and

(4) The proposed marketing agreement and order regulate the handling of celery in the same manner as, and is applicable only to handlers defined in, a marketing agreement and order upon which a hearing has been held.

Provisions

SECTION 1. *Definitions.* (a) "Secretary" means the Secretary of Agriculture of the United States, or any other officer or employee of the United States Department of Agriculture who is, or may hereafter be, authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

(b) "Act" means Public Act No. 10, 73rd Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

(c) "Person" means any individual, marketing agent or agency, partnership, corporation, association, legal representative, business trust, or any organized group or business unit of individuals whether incorporated or not.

(d) "Area" means the entire State of Florida.

(e) "Celery" means all varieties of celery grown within the area.

(f) "Stalk of celery" means an individual celery plant which has been well trimmed.

(g) "Well-trimmed" shall have the meaning set forth for the same term in the U. S. Standards for Rough Celery, issued by the U. S. Department of Agriculture and effective January 10, 1938, or in such U. S. Standards as subsequently amended or otherwise modified.

(h) "Variety" or "varieties" means any one or more or all of the following classifications or groupings of celery: (1) Golden or Golden self-blanching types of celery; (2) Pascal types of celery, whether Giant or Dwarf; and (3) all other celery.

(i) "Standard pack" means, with respect to a crate of celery packed in accordance with the recognized commercial practice in use in Florida for packing celery, (1) that the stalks of celery are properly arranged in such crate, and (2) that the crate is tightly packed and contains any one of the following number of stalks of celery, by count or in terms of dozens as herein set forth, of fairly uniform size:

12 stalks (1 dozen), 18 stalks (1½ dozen), 24 stalks (2 dozen), 30 stalks (2½ dozen), 36 stalks (3 dozen), 48 or 50 stalks (4 dozen), 72 stalks (6 dozen), 96 stalks (8 dozen), 120 stalks (10 dozen), 144 stalks (12 dozen), 180 stalks (15 dozen).

(j) "Size" means, with respect to an individual stalk of celery, the number, in terms of dozens, as aforesaid, of such stalks that would constitute a standard pack.

(k) "Fairly uniform size" means that not more than ten per cent (10%), by count, of the stalks of celery in a standard pack vary in size from the standard size stalks in such standard pack. Whenever 1 dozen or 1½ dozen stalks of celery are packed, as aforesaid, in a crate, such term shall mean that not more than two such stalks vary in size from the standard size stalks in such standard pack.

(l) "Standard size stalks" means stalks of celery which vary not more than one size smaller or larger than the size of stalks of celery which, when packed as aforesaid in a crate, would constitute a standard pack.

(m) "Crate" means a shipping container, the inside dimensions of which are sixteen (16) inches by twenty-two (22) inches by ten (10) inches. Such term shall also mean the number of stalks of celery of a particular size constituting a standard pack.

(n) "Ship" or "handle" means to sell, transport, or in any other way (except as a common carrier of celery owned by another person) to place celery in fresh form in the current of interstate or foreign commerce or so as directly to burden, obstruct, or affect such commerce. Neither the term "ship" nor the term "handle" shall include the act of a grower merely transferring to a shipper the ownership of, or the title to, celery.

(o) "Shipper" or "handler" means any person, whether as owner, agent, or otherwise, who first ships celery in fresh form, or causes such celery to be so shipped.

(p) "Grower" or "producer" means any person who is engaged in the production of celery for market.

(q) "Fiscal period" means the period beginning on the first day of August of each year and ending on the last day of July of the following year, both dates inclusive, except that the first fiscal period shall begin on the date designated by the Secretary and end on the last day of July following, both dates inclusive.

(r) "Committees" means the committees established in accordance with the provisions hereof.

(s) "Block" means a row or an uninterrupted series of rows of celery of the same variety which were planted in a particular field during the same calendar week.

(t) "Field" means a well-delineated plot of cultivated land upon which celery is grown.

(u) "Available supply of celery" means the linear feet of rows of unharvested celery of a particular variety ready for harvest for shipment during a particular calendar week.

(v) "District" means each of the following: (i) South Florida District; (ii) Florida West Coast District; (iii) Central and North Florida District.

(w) "South Florida District" means that part of the State of Florida comprising the Counties of Martin, Dade, Broward, Collier, Monroe, Lee, Charlotte, St. Lucie, Okeechobee, Highlands, Indian River, Glades, Hendry, and Palm Beach.

(x) "Florida West Coast District" means that part of the State of Florida comprising the Counties of Sarasota, DeSoto, Hardee, Pinellas, Pasco, Polk, Manatee, and Hillsborough.

(y) "Central and North Florida District" means that part of the State of Florida comprising the Counties of Seminole, Osceola, Brevard, Sumter, Hernando, Citrus, Volusia, Flagler, Putnam, Alachua, Levy, Holmes, Lake, Orange, Marion, Washington, Bay, Walton, Okaloosa, Santa Rosa, Escambia, Dixie, St. Johns, Clay, Duval, Nassau, Bradford, Union, Baker, Gilchrist, Columbia, Suwannee, Lafayette, Hamilton, Madison, Taylor, Jefferson, Leon, Wakulla, Franklin, Liberty, Gulf, Gadsden, Calhoun, and Jackson.

SEC. 2. *Industry Committee and Shippers Advisory Committee*—(a) *Establishment of Industry Committee.* (1) An Industry Committee, consisting of nine (9) members is hereby established to administer the terms and provisions hereof. Four (4) members shall be from the Central and North Florida District, three (3) members shall be from the South Florida District, and two (2) members shall be from the Florida West Coast District. There shall be an alternate for each member of such Industry Committee. Each member, alternate, and successor shall be a grower in the district from which such person is selected, as hereinafter provided, whether or not such person is also a handler. No such member or alternate shall also serve as a member or alternate of the Shippers Advisory Committee, established pursuant to (d) of this section 2, during any period in which he is serving as a member or alternate of the Industry Committee. The members of said Industry Committee and their respective alternates shall be selected in accordance with the provisions hereof.

(2) The initial members and their respective alternates shall each hold office for terms beginning on the date designated by the Secretary and ending as follows: (i) three (3) members and their alternates on July 31, 1947, or such later date when the respective successor is selected and has qualified; (ii) three (3) members and their alternates on July 31, 1948, or such later date when the respective successor is selected and has qualified; and (iii) three (3) members and their alternates on July 31, 1949, or such later date when the respective successor is selected and has qualified. After July 31, 1947, each successor member and each successor alternate shall hold office beginning on the first day of August, or as soon thereafter as such successor has been selected and has qualified, for three (3) consecutive fiscal periods and until such person's successor is selected and has qualified. Each member, alternate, and the respective successor shall be nominated pursuant hereto by growers, whether or not such growers are also handlers, and shall thereafter be selected by the Secretary, and shall qualify as hereinafter provided.

(b) *Nomination of members and alternate members for Industry Committee.* (1) The Secretary shall give public notice of a meeting of growers in each district to be held within fifteen (15) days after the effective date hereof, and in ensuing years not later than July 10, for the purpose of making nominations for members and alternate members of the Industry Committee. Notice shall also be given of a meeting of growers to be held for the purpose of nominating growers for selection, by the Secretary, of successor members or alternates to fill vacancies on the Industry Committee. The Secretary shall prescribe uniform rules to govern such meetings and the balloting for nominees. The chairman of each meeting shall publicly announce, at each such meeting, the names of the persons nominated and the total number of votes cast for each; and the chairman and the secretary of each such meeting shall transmit to the Secretary their certificate as to the number of votes so cast, the names of the persons nominated, and such other information as the Secretary may request. At each such meeting, growers in such district shall nominate at least two (2) growers for each member position and at least two (2) growers for each alternate member position on the Industry Committee. Each nominee shall be a grower in the district from which he is nominated.

(2) In voting for nominees for the Industry Committee, each grower shall be entitled to cast but one (1) vote, regardless of the number of districts in which he may be a grower, for each member position, and for each alternate member position for which such voter is entitled to participate in designating a nominee at the respective nomination meeting. The vote of each such grower shall be cast on behalf of himself, his agents, affiliates, subsidiaries, and representatives.

(c) *Selection of members of Industry Committee.* In selecting the initial members and alternates of the Industry Committee, the Secretary shall select from the nominees submitted, as aforesaid, the following number of members and alternates for the period beginning on the date designated by the Secretary and ending on the dates hereafter spec-

ified: (i) two (2) members and their alternates from the Central and North Florida District, and one (1) member and his alternate from the South Florida District on July 31, 1947, or such later date when the respective successor is selected and has qualified; (ii) one (1) member and his alternate from each district on July 31, 1948, or such later date when the respective successor is selected and has qualified; and (iii) one (1) member and his alternate from each district on July 31, 1949, or such later date when the respective successor is selected and has qualified.

(d) *Establishment of Shippers Advisory Committee.* (1) A shippers Advisory Committee consisting of ten (10) members is hereby established. Four (4) members shall be from the Central and North Florida District, four (4) members shall be from the South Florida District, and two (2) members shall be from the Florida West Coast District. There shall be an alternate for each member of said committee. Each such member, alternate, and successor shall be a handler irrespective of whether or not such handler is also a grower. No such member or alternate shall also serve as a member or alternate of the Industry Committee, established pursuant to (a) of this section 2, during any period in which he is serving as a member or alternate of the Shippers Advisory Committee. The members of said Shippers Advisory Committee and their respective alternates shall be selected in accordance with the provisions hereof.

(2) The initial members and their respective alternates shall each hold office for a term beginning on the date designated by the Secretary and ending on July 31, 1947, or such later date when the respective successor is selected and has qualified. After July 31, 1947, the term of office of successor members and alternates shall begin on the first day of August or as soon thereafter as such successor has been selected and has qualified and shall continue for one fiscal period and until such person's successor is selected and has qualified. Each member, alternate, and the respective successor shall be nominated pursuant hereto by handlers, whether or not such handlers are also growers, and shall thereafter be selected by the Secretary, and shall qualify, as hereinafter provided.

(e) *Nomination of members and alternate members for Shippers Advisory Committee.* (1) The Secretary shall give public notice of a meeting of handlers in each district to be held within fifteen (15) days after the effective date hereof, and in ensuing years not later than July 10, for the purpose of making nominations for members and alternate members of the Shippers Advisory Committee. Notice shall also be given of a meeting of handlers to be held for the purpose of nominating handlers for selection, by the Secretary, of successor members or alternates to fill vacancies on the Shippers Advisory Committee. The Secretary shall prescribe uniform rules to govern such meetings and the balloting for nominees. The Chairman of each such meeting shall publicly announce, at each such meeting, the names of the persons nominated and the total number of votes cast for each; and the Chairman and the Secretary of each such meeting shall transmit to the Secretary their certificate as to the number of votes so cast, the names of the persons nominated, and such other information as the Secretary may request. At each such meeting, handlers in each such district shall nominate, in accordance with the provisions of (e) (2) and (e) (3) of this section 2, handlers for each member position and each alternate member position. Each such nominee shall be a handler in the district from which he is nominated.

(2) In nominating persons for member positions and alternate member positions of the Shippers Advisory Committee, only the handler in each district who shipped, during the portion of the current fiscal period ending on June 30, inclusive, the largest proportion of the total volume; in terms of crates, of all celery produced in such district and shipped by all handlers of such district, may nominate, in such district, one (1) handler for one (1) member position and only one (1) handler for one (1) alternate member position. Any handler who shipped from more than one district the largest proportion, as aforesaid, from each such district shall designate the district in which he will nominate, as aforesaid, one (1) handler for one (1) member position and one (1) handler for one (1) alternate member position. In each district other than the one so designated, the handler who shipped the next largest proportion, as aforesaid, in such district shall be deemed to be the handler who shipped the largest proportion, as aforesaid, in such district. Each handler who is so deemed to have shipped the largest proportion in any district, shall also be subject to the restrictions of this paragraph (2) with respect to designating a particular district and nominating one (1) handler for one (1) member position and one (1) handler for one (1) alternate member position. With respect to the nomination of initial members and alternate members for the Shippers Advisory Committee, the handler in each district who shipped, or is deemed to have shipped, the largest proportion, as aforesaid, during the period August 1, 1945, and June 30, 1946, shall nominate one initial member and one initial alternate member in accordance with the provisions of this paragraph (2).

(3) In nominating persons for member positions and alternate member positions other than those provided for in (e) (2) of this section 2, only the handlers in each district who did not nominate in accordance with (e) (2) of this section 2 may participate in voting for nominees. In voting for such nominees, each handler entitled to participate in designating nominees at the respective nomination meeting may cast only one (1) vote in each district in which he is a handler for each member position and one (1) vote for each alternate member position on the Shippers Advisory Committee; and each such vote shall be cast on behalf of the voting handler, his agents, affiliates, subsidiaries, and representatives. Each such vote shall be weighted by the total volume, in terms of crates, of celery produced in the district in which such vote is cast and shipped by the voting handler during that portion of the then current fiscal period ending on June 30, inclusive. With respect to votes cast for the initial members and alternate members for the Shippers Advisory Committee, each such vote shall be weighted by the total volume, as aforesaid, shipped during the period August 1, 1945, to June 30, 1946, both dates inclusive.

(f) *Selection of members of Shippers Advisory Committee.* In selecting members and alternate members of the Shippers Advisory Committee, the Secretary shall select, from the nominees of the respective districts, four (4) members and their alternates from the Central and North Florida District; four (4) members and their alternates from the South Florida District; and two (2) members and their alternates from the Florida West Coast District.

(g) *Vacancies.* (1) To fill any vacancy occasioned by the failure of any person, selected as a member or alternate member of either of the committees, to qualify or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate, a successor for the unexpired term of such person shall be selected by the Secretary.

(2) In the event nominations for members or alternate members of either of the committees are not made pursuant to the provisions of this section 2, the Secretary may select such members or alternate members without regard thereto.

(h) *Acceptance of membership.* Each person selected by the Secretary as a member or alternate member of either of the committees shall qualify by filing a written acceptance with the Secretary within ten (10) days after being notified of such selection.

(i) *Alternate members.* An alternate for a member of either of the committees shall act in the place and stead of such member (1) in his absence, or (2) in the event of his resignation, disqualification, or death and until a successor for the unexpired term of such member is selected and has qualified.

(j) *Compensation.* (1) Each member of the Industry Committee and each alternate member when acting as a member of such committee may receive compensation in an amount not in excess of five dollars ($5.00) per day for attendance at each meeting (other than a meeting held pursuant to the provisions of (a) (2) of this section 2) of such committee called in performance of such committee's duties hereunder.

(2) Each member of the Industry Committee and each alternate member when acting as a member of such committee may receive compensation in an amount not in excess of five dollars ($5.00) per day for attendance at any consultation or conference with any other committee, or representative thereof, established under any marketing agreement and order program pursuant to the act, with respect to the handling of celery grown in any State or region outside the area, when such member or alternate is designated by the Industry Committee to attend such consultation or conference.

(3) In addition to any other compensation hereinbefore prescribed, each member of either of the committees and each alternate member when acting as a member may be reimbursed for such reasonable and necessary expenses as are actually incurred in attending each meeting of the respective committee (other than meetings pursuant to (n) (2) of this section 2), and each conference or consultation, as aforesaid.

(k) *Powers of Industry Committee.* The Industry Committee shall have the following powers:

(1) To administer, as herein specifically provided, the terms and provisions hereof;

(2) To make, in accordance with the provisions herein contained, administrative rules and regulations;

(3) To receive, investigate, and report to the Secretary complaints of violation hereof; and

(4) To recommend to the Secretary amendments hereto.

(l) *Duties of Industry Committee.* The Industry Committee shall have the following duties:

(1) To act as intermediary between the Secretary and any grower or handler;

(2) To keep minutes, books, and records which will clearly reflect all of its acts and transactions; and such minutes, books, and records shall at all times be subject to examination by the Secretary;

(3) To furnish the Secretary such available information as may be requested by the Secretary;

(4) To select a chairman, other officers, and other committees, from among its membership, and to adopt such rules and regulations for the conduct of its business as it may deem advisable in the performance of its duties hereunder;

(5) To appoint such employees as it may deem necessary, and to determine their salaries and define their duties;

(6) To cause its books to be audited by one or more certified public accountants at least once each fiscal period, and at such other times as it deems necessary or as the Secretary may request, and to file with the Secretary at least two copies of each such audit report;

(7) To prepare monthly statements of the financial operations of the Industry Committee and to make such statements, together with the minutes of the meetings of the Industry Committee, available at the office of such committee, for inspection by any grower or shipper;

(8) To submit to the Secretary within thirty (30) days after the date designated by the Secretary for the first fiscal period, and in subsequent fiscal periods prior to October 1st thereof, a budget of its expenses and a proposed rate of assessment for the respective fiscal period;

(9) To consult with any other committee established under any marketing agreement and order program, pursuant to the act, with respect to the handling of celery grown in any State or region outside of the area, whenever the committee deems it advisable;

(10) To prepare and maintain, in cooperation with handlers, an accurate map or diagram for each field of celery by grower designation and by blocks;

(11) To provide an adequate system for determining the total crop of each variety of celery, and to make such determinations, including determinations by grade and size, as it may deem necessary, or as may be prescribed by the Secretary, in connection with the administration hereof;

(12) To investigate compliance with respect to any regulation pursuant to section 5 hereof, applicable to shipments of celery or harvesting of celery for shipment;

(13) To investigate growing, harvesting, shipping, and marketing conditions with respect to celery and to assemble data in connection therewith; and

(14) To notify members of the Shippers Advisory Committee in the same manner as it notifies its own members of the time at which it will meet to make the recommendations required by section 5 hereof.

(m) *Duties of Shippers Advisory Committee.* The Shippers Advisory Committee shall have the following duties:

(1) To select a chairman from its membership, and to select such other officers and adopt such rules and regulations for the conduct of its business as it may deem advisable;

(2) To keep minutes, books, and records which will clearly reflect all of its acts; and such minutes, books, and records shall at all times be subject to examination by the Secretary; and

(3) To notify the members of the Industry Committee in the same manner as it notifies its own members of the time at which it will meet to make the recommendations required by section 5 hereof.

(n) *Procedure.* (1) Each of the committees may, upon the selection and qualification of at least six (6) of its initial members, organize and commence to function. Six (6) members of a committee shall constitute a quorum; and any decision or recommendation of either of the committees shall be valid only if approved by at least six (6) concurring votes of the respective committee's members.

(2) Each of the committees may provide for meetings of the respective committee's members by mail, telephone, or telegraph. Action taken by such committee in such manner shall have the same force and effect as though an assembled meeting had been held.

(3) Each committee shall give to the Secretary, or to his designated representative, the same notice of its meetings as is given to its members. Each member and each alternate of the respective committee shall be given adequate notice in writing or by telegraph of each meeting.

(o) *Funds.* All funds received by the Industry Committee pursuant hereto shall be used solely for the purposes herein specified and shall be accounted for in the following manner: (1) The Secretary may, at any time, require the Industry Committee and its members, including alternate members and all employees of such committee, to account for all receipts and disbursements for which such committee, members, alternate members, or employees are accountable; and (2) upon the removal, or expiration of the term of office, of any member or alternate member or employee of the Industry Committee, such person shall account for all receipts and disbursements, and deliver all property and funds, together with all books and records in his possession, to his successor in office or to such other person as the Secretary may designate, and such person shall also execute such assignments and other instruments as may be necessary or appropriate to vest in the successor or in such designated person full title to all the property, funds, and claims vested in such person pursuant hereto.

SEC. 3. *Expenses and assessments.*—(a) *Expenses.* The industry Committee is authorized to incur during each fiscal period such expenses as the Secretary finds may be necessary to carry out the functions of both committees hereunder during each such fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments upon handlers as hereinafter provided.

(b) *Assessments.* (1) Each handler shall, with respect to all the celery shipped by him, pay to the Industry Committee, upon demand, such handler's pro rata share of the expenses which the Secretary finds will be necessarily incurred by the Industry Committee for the maintenance and functioning, during each fiscal period, of the committees established hereunder. Each handler's share of such expenses shall be that proportion thereof which the total quantity, in terms of crates, of celery shipped by such handler during the applicable fiscal period is of the total quantity, in terms of crates, of celery shipped by all handlers during the same fiscal period. The Secretary shall specify the rate of assessment to be paid by such handlers. The rate of assessment for the fiscal period ending July 31, 1947, shall be 1 cent per crate of celery shipped by such handler.

(2) At any time during or after any fiscal period, the Secretary may increase the rate of assessment so that the sum of money collected pursuant to the provisions of this section shall be adequate to cover said expenses. Such increase shall be applicable to all celery shipped during the given fiscal period. In order to provide funds to enable the Industry Committee to perform its functions hereunder, handlers may make advance payments of assessments.

(c) *Accounting.* (1) If, at the end of any fiscal period, it shall appear that the assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal period, unless such handler demands payment thereof, in which case such sum shall be paid to him.

(2) The Industry Committee may, with the approval of the Secretary, maintain in its own name or in the name of its members a suit against any handler for the collection of such handler's pro rata share of said expenses.

SEC. 4. *Marketing policy*—(a) *Must be submitted prior to recommendation.* Before making any recommendations pursuant to section 5 hereof for any variety of celery, the Industry Committee and the Shippers Advisory Committee shall, with respect to the regulations permitted by such section, submit to the Secretary a detailed report setting forth an advisable marketing policy for such variety for the then current shipping season. Such report shall set forth (1) the proportion of the estimated total crop of such variety (determined by the Industry Committee to be available for shipment during such season) deemed advisable by the Industry Committee and the Shippers Advisory Committee to be shipped during such season; (2) the proposed regulations which may be recommended by the aforesaid committees during such season, and the justification therefor; and (3) the estimates and other factors enumerated in section 4 (b) hereof. In the event the committees deem it advisable to alter such marketing policy or advisable proportion as the shipping season progresses, in view of changed demand and supply conditions with respect to celery, the said committees shall submit to the Secretary a report thereon. The Industry Committee shall notify producers and handlers of the contents of each such report by publishing a summary thereof in such daily newspapers of general circulation in each district as the Industry Committee may select.

(b) *Factors to be considered.* In determining each such marketing policy and advisable proportion, and any revisions thereof, the Industry Committee and the Shippers Advisory Committee shall give due consideration to the following factors and conditions relating to celery produced in Florida and in other States: (1) the available crop of each variety of celery in Florida (by districts) and in other States; (2) the probable shipments of celery from each district during each calendar week of the then current shipping season; (3) the probable shipments of celery during each such week from other States; (4) the prospective supply of competitive commodities; (5) the probable market prices and marketing conditions which are expected to prevail for celery grown in Florida; (6) the probable harvesting and marketing costs and charges applicable to celery grown in Florida; (7) the level and trend in consumer income; and (8) other pertinent factors bearing on the marketing of celery.

SEC. 5. *Shipment regulations*—(a) *Recommendation for regulations.* (1) Whenever the Shippers Advisory Committee deems it advisable to regulate any variety pursuant to this section, the said committee shall recommend the particular method or methods of regulation, set forth in section 5 (c) hereof, deemed advisable by it to be made effective during a specified calendar week. In making such determination, the said committee shall give due consideration to the following factors relating to celery produced in Florida and in other States: (i) market prices, including prices in Florida by grades and sizes of each variety for which regulation is recommended; (ii) amount of celery on hand at the principal markets, as evidenced by supplies on track; (iii) maturity, condition, and the available supply of celery in Florida (including the grades and sizes thereof), and in other States; (iv) the level and trend in consumer income; and (v) other pertinent market information. The Shippers Advisory Committee shall promptly report the recommendations so made, with supporting information, to the Industry Committee; and the Industry Committee shall, in turn, submit the same to the Secretary, together with its own recommendations and supporting information respecting the factors hereinbefore enumerated.

(2) The failure of the Shippers Advisory Committee to make a recommendation, after having received notice of the intention of the Industry Committee to meet for the purpose of receiving such recommendation, with respect to regulation pursuant to this section, shall not preclude the Industry Committee from submitting its recommendations and supporting information to the Secretary.

(3) The Industry Committee shall give notice to all handlers of each meeting to consider the recommendation of regulations pursuant to this section. Such notice shall contain a direction to handlers to make the applications required by (d) (3) of this section. Such notice shall be given prior to 12:01 p. m. (EST) on Monday of the calendar week the Industry Committee meets to consider regulations for the succeeding week. The Industry Committee shall promptly give notice of any such recommendation at least forty-eight (48) hours before the recommended effective time of the proposed regulation by mailing a copy of such recommendation to each handler who has filed his address with the Industry Committee for this purpose.

(b) *Regulation by the Secretary.* Whenever the Secretary finds from the recommendations and reports of the Shippers Advisory Committee or the Industry Committee, or from other available information, that to limit the shipment of any variety or varieties by one or more or all of the methods set forth in section 5 (c) hereof, would tend to effectuate the declared policy of the act, he shall so limit the shipment of such variety or varieties during a specified calendar week. Prior to the beginning of each such regulation, the Secretary shall notify the Industry Committee of the regulation issued by him, and such committee shall promptly give notice thereof to all handlers, and also shall mail a copy thereof to each handler who has filed his address, as aforesaid, with the Industry Committee.

(c) *Methods of regulating shipments*—(1) *Method I: Grades.* Regulation by this method shall be by specification of the grade or grades of celery of any variety or varieties which may be handled during a specified calendar week.

(2) *Method II: Sizes.* Regulation by this method shall be by specification of the size or sizes of stalks of celery of any variety or varieties which may be handled during a specified calendar week.

(3) *Method III: Available supply.* Regulation by this method shall be by specification, for each handler, of such portion of the handler's reported available supply of celery which may be harvested for shipment during a specified calendar week.

(d) *Information and reports to be furnished by handlers; applications for allotment.* (1) Upon the request of the Industry Committee, each handler shall provide the Industry Committee, prior to October 10 of each fiscal period, with three copies of a map or diagram of each field of celery owned by such handler, and of each field with respect to which such handler furnishes the Industry Committee evidence satisfactory to such committee that such handler has contracted to buy some or all of the celery produced thereon or has entered into an agreement with the grower authorizing the handler exclusively to harvest for shipment any portion of the celery produced thereon. Each such copy shall be certified by the handler as to his ownership of, or authority to handle, the celery; shall be identified as to the grower; and shall show the various blocks thereof properly designated by number. Together with the aforesaid copies of maps or diagrams, each handler shall submit to the Industry Committee the following information relative to each field of celery, as aforesaid, planted during August and September of the then current fiscal period:

(i) The variety of celery planted in each block;

(ii) The calendar week during which such celery was planted;

(iii) The number of rows of such celery; and

(iv) The number of linear feet constituting each such row.

(2) Upon the request of the Industry Committee, each handler shall submit to the Industry Committee, not later than the 10th day of each calendar month during the period November through May of each fiscal period, a report concerning all fields of celery, as aforesaid, planted during the immediately preceding calendar month. Each such report shall also contain so much of the information, including copies of maps or diagrams, referred to in section 5 (d) (1) hereof, as may be necessary to reflect a complete report on all fields of celery, as aforesaid, planted since August 1 of such fiscal period.

(3) Upon the request of the Industry Committee, each handler shall submit, during the calendar months of December through June of each fiscal period, not later than 12:01 p. m., EST, of Tuesday of each calendar week thereof, a written report to the Industry Committee, on a form approved by such committee, setting forth his available supply of celery of each variety for the following calendar week; and each such report shall identify such available supply of celery by reference to the particular field and block from which such handler expects the celery will be harvested for shipment during such calendar week. In the event the Industry Committee gives notice to all handlers of a meeting to consider the recommendation of regulations pursuant to this section 5, each handler shall submit, as a part of such report, a request for an allotment of linear feet of rows of celery in each block of celery to be harvested for shipment during the following calendar week. Such request for allotment shall be based upon the respective handler's reported available supply of celery in each block of celery set forth in his written report. Each such report of the available supply of celery and each such request for an allotment shall be subject to inspection, and correction of errors, by the Industry Committee. Upon the request of the Industry Committee, each handler shall submit with the aforesaid report an additional written report setting forth, by block and field designation, for the immediately preceding calendar week and with respect to each block from which any celery was harvested by such handler: (i) the total number of linear feet of rows of celery of each variety harvested; and (ii) the total number of linear feet of rows of celery of the same variety not harvested from each such block. Whenever, during any calendar week, any variety is regulated pursuant to Method III, as set forth in section 5 (c) hereof, each handler shall submit, in connection with the information required to be submitted by (i) and (ii) of this paragraph relative to such calendar week, a statement of the total number of linear feet of rows of celery of each variety harvested for shipment during such calendar week by such handler pursuant to an allotment from the Secretary in accordance with section 5 (c) hereof, and a statement of the number of linear feet of rows of celery of each variety contained in such handler's reported available supply of celery of each variety for such calendar week and not included in the aforesaid allotment.

(4) Except as permitted pursuant to (h) of this section 5, no handler shall include in any of his reports of the available supply of celery any previously reported celery.

(e) *Recommending allotments.* In recommending allotments for any calendar week with respect to any variety or varieties for handlers pursuant to the aforesaid Method III, the Industry Committee shall consider only the linear feet of rows of celery of each block of such variety contained in all handlers' reports of the available supply of celery of such variety upon which such handlers based their applications for an allotment for such calendar week and for which such handlers had provided the Industry Committee with the information, copies of maps or diagrams, and reports required by the provisions of section 5 (d) hereof. Such allotment recommendation shall be in terms of a specific percentage of each handler's reported available supply of celery in each block of such variety for such calendar week. Such percentage shall be calculated by dividing the total number of linear feet of rows of celery of such variety determined, by the Industry Committee, to be advisable to be harvested for shipment during such calendar week by all handlers by the total number of linear feet of rows of celery within each block of such variety in all handlers' reports of available supply of celery of such variety upon which such handlers based their applications for allotment for such calendar week. Such calculations shall be made to the nearest one-hundredth. In determining the total number of linear feet of rows of celery of any variety advisable to be harvested for shipment during a particular calendar week, the Industry Committee shall:

(1) Estimate the total quantity of celery of such variety, in terms of crates, advisable to be shipped during such calendar week because of the factors enumerated in paragraph (a) (1) of this section 5;

(2) Estimate, for such calendar week, the area average yield, in terms of crates, from the reports by field representatives of the Industry Committee relative to yields throughout the area and maturity and other conditions for such week;

(3) Calculate the number of acres of celery deemed advisable to be harvested for shipment during such calendar week by dividing the quantity estimated pursuant to paragraph (e) (1) of this section 5 by the area average yield, estimated as aforesaid; and

(4) Multiply the number of acres, calculated as aforesaid, by the area average number of linear feet of rows of celery per acre, as determined by the Industry Committee.

(f) *Fixing allotment.* In fixing allotments with respect to any variety or varieties for each handler pursuant to the aforesaid Method III for any calendar week, the Secretary shall consider only the linear feet of rows of celery contained in blocks of such variety reported by such handler and included in the Industry Committee's recommendations for allotments. The Secretary shall allot to each such handler the total number of linear feet of rows of celery of each such variety that he may harvest for shipment during such calendar week. Each such allotment shall be in terms of a specific percentage, calculated as aforesaid, of the respective handler's reported available supply of celery of each such variety for such calendar week and shall be applicable to each block of celery contained in such handler's available supply of celery, as aforesaid.

(g) *Harvesting for shipment.* (1) All celery which may be harvested for shipment, pursuant to an allotment by the Secretary, and all celery authorized to be harvested for shipment pursuant to paragraph (h) (2) of section 5 hereof, shall be harvested, by the respective handler, only from such rows of celery which are contained in the blocks specified in the applicable report of the available supply of celery for such calendar week or in the notice to the Industry Committee, pursuant to section 5 (h) (2) hereof, as the case may be, and shall be harvested from the same relative location in each row of each block within each field, or from consecutive complete rows except that the last row cut may be a fraction of a row to complete the linear feet of rows of celery represented by an allotment.

(2) Celery contained in any handler's reported available supply of celery for a particular calendar week and not included in the allotment, as aforesaid, for such week shall remain unharvested until a certificate of compliance has been issued by any designated agent of the Industry Committee with respect to such unharvested celery. None of such unharvested celery may thereafter be harvested for shipment unless all handlers' unharvested celery, originally contained in reports of available supply of celery for a particular calendar week, is authorized by the Secretary to be harvested for shipment. The Secretary may issue such authorization upon the recommendation of the Industry Committee or upon other available information.

(h) *Modification of allotments.* (1) Each handler who gives written or telegraphic notice to the Industry Committee that such handler will not, during a particular calendar week of regulation pursuant to Method III, harvest for shipment all or a portion of the celery included in the allotment to the handler by the Secretary for such calendar week, may withdraw his application for such allotment or portion thereof. All such rows of celery which are not harvested for shipment, as aforesaid, may thereafter be included in such handler's report of his available supply of celery for any subsequent calendar week; and an application for an allotment may be made for such week based thereon. In the event of regulation, pursuant to the aforesaid Method III, of celery of the variety which was withdrawn, as aforesaid, during such subsequent calendar week, the allotment percentage for such withdrawn celery for such subsequent calendar week shall be (i) five (5) percentage points lower than the allotment percentage which is fixed by the Secretary, as aforesaid, for such variety for such calendar week, or (ii) such adjustment of the allotment for such withdrawn celery as the Secretary determines on the basis of the Industry Committee's recommendation or other available information.

(2) Each handler who gives written or telegraphic notice to the Industry Committee that such handler desires, during a particular calendar week of regulation pursuant to Method III, to harvest for shipment a quantity of celery in excess of his allotment for such calendar week may exceed his allotment on the following conditions in addition to those set forth in section 5 (g) hereof: (i) the total number of linear feet of rows of celery which such handler desires to harvest for shipment shall be included in the aforesaid notice and shall be identified by field, block, and row; and (ii) the allotment percentage for such total number of linear feet of rows of celery shall be (a) five (5) percentage points lower than the allotment percentage fixed by the Secretary for such calendar week for celery of the same variety, or (b) such adjustment of the allotment for such celery harvested in excess of an allotment, as aforesaid, as the Secretary determines on the basis of the Industry Committee's recommendation or other available information.

SEC. 6. *Inspection and certificates.* Each handler shall, prior to making each shipment of celery, cause each such shipment of celery to be inspected by the Federal-State Inspection Service. A copy of the certificate issued by the Federal-State Inspection Service with regard to each such shipment of celery shall be

made available to the Industry Committee.

SEC. 7. *Compliance.* Except as provided herein:

(a) No handler shall ship celery, the shipment of which has been prohibited in accordance with the provisions hereof;

(b) No handler shall ship celery except in conformity with the provisions hereof and of the regulations, if any, issued by the Secretary pursuant hereto; and

(c) No handler shall harvest celery for shipment or ship celery during any calendar week in which a regulation issued by the Secretary pursuant to Method III of section 5 is in effect, unless such handler has received an allotment covering such celery.

SEC. 8. *Reports.* Upon request of the Industry Committee, made with the approval of the Secretary, every handler shall furnish to such committee, in such manner and at such times as it prescribes (in addition to such other reports as are specifically provided for herein), such other information as will enable the Industry Committee to perform its duties and to exercise its powers hereunder.

SEC. 9. *Right of the Secretary.* The members of each of the committees (including successors and alternates thereof) and any agent or employee appointed or employed by either of the committees, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, determination, decision, or other act of each of the committees shall be subject to the continuing right of the Secretary to disapprove of the same at any time and upon his disapproval shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval.

SEC. 10. *Effective time and termination*—(a) *Effective time.* The provisions hereof shall become effective at such time as the Secretary may declare above his signature attached hereto, and shall continue in force until terminated in one of the ways hereinafter specified.

(b) *Termination.* (1) The Secretary may, at any time, terminate the provisions hereof by giving at least one (1) day's notice by means of a press release or in any other manner which he may determine.

(2) The Secretary may terminate or suspend the operation of any or all of the provisions hereof whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(3) The Secretary shall terminate the provisions hereof at the end of any fiscal period whenever he finds, by referendum or otherwise, that such termination is favored by the majority of the producers who, during such representative period as may be determined by the Secretary, have been engaged in the production of celery for market: *Provided*, That such majority have, during such representative period, produced for market more than fifty (50) percent of the volume of celery produced for market within the area; but such termination shall be effective only if announced on or before June 30 of the then current fiscal period.

(4) The provisions hereof shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(c) *Proceedings after termination.* (1) Upon the termination of the provisions hereof, the then functioning members of the Industry Committee shall continue as joint trustees, for the purpose of liquidating the affairs of said committee, of all funds and property then in the possession of or under control of such committee, including claims for any funds unpaid or property not delivered at the time of such termination. The rules of procedure governing the activities of said joint trustees, including but not being limited to the determination as to whether action shall be taken by a majority vote of the joint trustees, shall be prescribed by the Secretary.

(2) The said trustees (i) shall continue in such capacity until discharged by the Secretary; (ii) shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the Industry Committee and of the joint trustees, to such person as the Secretary may direct; and (iii) shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the Industry Committee or the joint trustees pursuant hereto.

(3) Any person to whom funds, property, or claims have been transferred or delivered by the Industry Committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of said committee and upon the said joint trustees.

(4) Any funds collected pursuant to the provisions hereof, over and above amounts necessary to meet outstanding obligations and expenses necessarily incurred during the operation hereof and during the liquidation period, shall, as soon as practicable after the termination hereof, be returned to the handlers pro rata in proportion to their contributions made pursuant hereto.

SEC. 11. *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue hereof shall cease upon the termination hereof, except with respect to acts done under and during the existence hereof.

SEC. 12. *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

SEC. 13. *Derogation.* Nothing contained herein is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

SEC. 14. *Personal liability.* No member or alternate of either of the committees, nor any employee thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

SEC. 15. *Separability.* If any provision hereof is declared invalid; or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder hereof or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

SEC. 16. *Amendments*—(a) *Proposals.* Amendments hereto may be proposed, from time to time, by the Industry Committee or by the Secretary.

(b) *Hearing and approval*.* After due notice and hearing, and upon the execution of the proposed amendment by handlers, who, during the preceding fiscal period, shipped not less than fifty (50) percent of the celery shipped during such period, the Secretary may approve such amendment and it shall become effective at such time as the Secretary may designate: *Provided, however*, That in the event any amendment alters the manner in which the handling of celery is regulated by this agreement, the Secretary shall not approve such amendment unless he determines that such amendment is favored or approved by at least two-thirds (⅔) of the growers of celery, who, during a representative period determined by the Secretary, have been engaged in the State of Florida in the production of celery for market, or by growers of celery, who, during such representative period, have produced in the State of Florida for market at least two-thirds (⅔) of the volume of celery produced for market during such representative period.

SEC. 17. *Counterparts*.* This agreement may be executed in multiple counterparts and, when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.

SEC. 18. *Additional parties*.* After the effective date hereof, any handler who has not previously executed this agreement may become a party hereto if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.

SEC. 19. *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination hereof or of any regulation issued pursuant hereto, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen prior thereto, or (b) release or extinguish any violation hereof or of any regulation issued hereunder, or (c) affect or impair any right or remedy of the United States, or of the Secretary, or of any other person with respect to any such violation.

SEC. 20. *Order with marketing agreement*.*

Each signatory handler favors and approves the issuance, by the Secretary, of an order providing for the regulating of the handling of celery in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act, such an order.

This report filed at Washington, D. C., this 25th day of September, 1946.

E. A. MEYER,
Assistant Administrator.

LICENSING OF PRIVATE PERSONS TO INSPECT, GRADE AND CERTIFY TURPENTINE AND ROSIN

NOTICE OF PROPOSED AMENDMENT

A proposed amendment of the regulations under the Naval Stores Act (7 U. S. C. 91–99) is now under consideration in the United States Department of Agriculture. The proposed amendment would provide for the licensing of private persons to inspect, grade and certify turpentine and rosin at approved central gum buying and processing plants under the supervision of naval stores inspectors employed by the Department of Agriculture and would establish procedures for such inspection, grading and certification. Moreover, specifications as to fees for all inspection work, with certain exceptions, would be deleted from the present regulations and provisions made for announcement to the trade from time to time of the fees to be charged. Certain formal changes in the regulations are also proposed to delete references to officials in the Department other than the Secretary and to make such revision of the definitions and other provisions in the regulations as the foregoing changes require.

Any interested person who wishes to submit his views on the proposed amendments, or written data or arguments thereon, may file such views, data and arguments with the Director of the Special Commodities Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C., within fifteen business days after the date of publication of this notice.

[SEAL] H. C. ALBIN,
Director,
Special Commodities Branch.

INSPECTION AND CERTIFICATION OF CANNED WET FOOD FOR DOGS, CATS AND OTHER CARNIVORA

The Department of Agriculture is now considering adoption of proposed regulations under the Agricultural Marketing Act of 1946 (Title II, Public Law 733, 79th Congress, 2d Session) for the inspection, certification and identification of the class, quality, quantity, and condition of canned wet food for dogs, cats and other carnivora.

Under the proposed regulations, the Department of Agriculture would certify that canned wet foods for dogs, cats and other carnivora constitute normal maintenance foods for such carnivora if such foods were prepared under federal inspection and otherwise in accordance with standards and requirements to be specified in such regulations.

Any interested person who wishes to submit written data, views or arguments concerning the proposed regulations may do so by filing them with The Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., within fifteen business days after the date of publication of this notice.

Issued this 25th day of September 1946.

[SEAL] H. E. REED,
Director, Livestock Branch.

NORWEGIAN SARDINES AND KIPPERED HERRING

ANNOUNCEMENT RE IMPORT AUTHORIZATIONS UNDER WAR FOOD ORDER 63

The United States Department of Agriculture is now prepared to issue authorizations under War Food Order 63 for the importation of certain canned Norwegian sardines and canned Norwegian kippered herring to pre-war importers (i. e. persons who imported such fish in any year between 1935 and 1939, inclusive) and to new importers, including veterans, who did not import such fish during that period.

At the present time there is an approved international allocation under which the United States is to receive 17,370,000 pounds of the 1946–1947 Norwegian pack. The allocation consists of approximately 3,200,000 pounds of brisling sardines, 8,610,000 pounds of sild sardines, and 5,560,000 pounds of kippered herring (including kippered snacks).

Import authorizations will be available to new importers, both war veterans and nonveterans, as well as qualified pre-war importers, on the following basis:

(a) The applicant must mail to the Administrator of War Food Order 63, United States Department of Agriculture, Washington 25, D. C., prior to October 18, 1946, an application for a 1946–1947 quota for each type of canned fish, supplying the information required by this announcement, and may attach thereto executed form WFO 63–2 (obtainable from said Order Administrator).

(b) Pre-war importers must submit with their applications historical records of their importations of the respective types of fish. The years 1935–1939 inclusive are to be used as the base period, and an importer may select any three consecutive years of that period as his individual base period. This information need not be submitted if it is already on file in the Department, but previously submitted data may be supplemented or corrected.

(c) New importers must show clearly on their applications that they were established in business prior to September 20, 1946.

(d) Each new importer organization and its officers must be engaged in the importation and distribution of food and this fact must be stated in the application. Each new importer applicant is required to list on the application the names of all officials and principal stockholders.

(e) Each application for quota must carry the statement that neither directly nor indirectly will import licenses issued under such quota be transferred to any other person or company.

Import quotas will be established as follows:

(a) A uniform quota will be determined for each new importer, and an equal quantity will be established as the minimum quota for each pre-war importer.

(b) The remainder of the pack allocated for United States import will be distributed to qualified pre-war importers on a pro-rata basis determined by actual imports during a base period consisting of the average of any three consecutive years between 1935 and 1939, inclusive.

(c) Importers must import within two months after issuance of a license; or they must, within two months after the issuance of the license, file a statement with the Administrator of the Order showing the quantity purchased and to be shipped for import within three months after the issuance date of the import license.

(d) Failure to import or show record of purchase within the allowed two months will result in forfeiture of quotas; forfeited quotas will be redistributed on the pro-rata basis to pre-war firms.

Each importer will be notified of his quota when it has been determined. Upon receipt of such notification he must execute and mail to the Order Administrator form WFO 63–2 (obtainable from said Administrator) if it has not previously been filed. Licenses for the importation of brisling sardines, which are packed, will be issued to importers who have filed WFO 63–2, immediately after October 18, 1946. Licenses for the importation of sild sardines and kippered herring will be issued at a later date.

Applications for 1946–1947 quotas submitted after October 18, 1946 will not be considered.

Issued this 24th day of September 1946.

(War Food Order 63, 10 F. R. 8950, 11 F. R. 2630, 5105)

NOTE: The reporting requirements of this announcement have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

E. A. MEYER,
Assistant Administrator.

FEDERAL POWER COMMISSION.

[Docket Nos. G-627 and G-635]

PITTSBURGH & WEST VIRGINIA GAS CO. AND KENTUCKY WEST VIRGINIA GAS CO.

ORDER POSTPONING HEARING

SEPTEMBER 24, 1946.

City of Pittsburgh, Complainant, v. Pittsburgh & West Virginia Gas Co., Kentucky West Virginia Gas Co., Defendants, Docket No. G-627; in the matter of: Pittsburgh & West Virginia Gas Co., Kentucky West Virginia Gas Co., Docket No. G-635.

Upon consideration of the request of Kentucky West Virginia Gas Company and Pittsburgh & West Virginia Gas Company for a postponement of the hearing in the above-entitled matters; the Commission orders that:

The hearing be and the same is hereby postponed from September 30, 1946 to October 14, 1946 at 10:00 a. m. o'clock, in the Hearing Room of the Commission, 1800 Pennsylvania Avenue N. W., Washington, D. C.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 46-17501; Filed, Sept. 27, 1946; 8:46 a. m.]

INTERSTATE COMMERCE COMMISSION.

[S. O. 614, Special Permit 1]

DELIVERY OF FREIGHT CARS AT MUSKEGON, MICH.

Pursuant to the authority vested in me by paragraph (b) of the first ordering paragraph of Service Order No. 614, permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard the provisions of Service Order No. 614 insofar as it applies to the delivery of cars on hand, or arriving before, 5:00 p. m., September 23, 1946, in the switching limits of Muskegon, Mich.

The waybill shall show reference to this special permit.

A copy of this special permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 23d day of September 1946.

V. C. CLINGER,
Director,
Bureau of Service.

[S. O. 615]

UNLOADING OF LUMBER AT BRADLEY, ILL.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of September A. D. 1946.

It appearing, that 7 cars containing lumber at Bradley, Illinois, on the Illinois Central Railroad Company have been on hand for an unreasonable length of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action: It is ordered, that:

(a) *Lumber at Bradley, Illinois, be unloaded.* The Illinois Central Railroad Company, its agents or employees shall unload immediately the following cars containing lumber on hand at Bradley, Illinois, consigned to Kroehler Manufacturing Company:

CGW 87882	SFe 147126
PRR 564671	NW 51119
MP 120677	DRG 61325
MILW 705959	

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., September 26, 1946, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire. (40 Stat. 101, sec. 402; 41 Stat. 476, sec. 4; 54 Stat. 901, 911; 49 U. S. C. 1 (10)-(17), 15 (2))

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Illinois Central Railroad Company, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[S. O. 616]

UNLOADING OF COMMODITIES AT BRADLEY, ILL.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of September A. D. 1946.

It appearing, that numerous cars containing lumber and cotton at Bradley, Illinois, on The New York Central Railroad Company have been on hand for an unreasonable length of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action: It is ordered, that:

(a) *Commodities at Bradley, Ill., be unloaded.* The New York Central Railroad Company, its agents or employees, shall unload immediately the following cars now on hand at Bradley, Ill., consigned to Kroehler Manufacturing Company:

Initial and number	*Contents*
SP 27952	Lumber.
SOU 167968	Lumber.
GN 46381	Lumber.
NYC 175011	Cotton.
B&O 290871	Lumber.
TNO 39467	Lumber.
NKP 9184	Cotton.
NP 39767	Cotton.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., September 26, 1946, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901, 911; 49 U. S. C. 1 (10)-(17), 15 (2))

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction shall be served upon The New York Central Railroad Company, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

NATIONAL HOUSING AGENCY.

Federal Housing Administration.

2¾ PERCENT HOUSING INSURANCE FUND DEBENTURES, SERIES D

NOTICE OF FOURTH CALL FOR PARTIAL REDEMPTION

SEPTEMBER 24, 1946.

Pursuant to the National Housing Act (48 Stat. 1246; U. S. C., Title 12, sec. 1701 et seq.) as amended, public notice is hereby given that 2¾ percent Housing Insurance Fund Debentures, Series D, of the denomination and serial numbers designated below, are hereby called for redemption, at par and accrued interest, on January 1, 1947, on which date interest on such debentures shall cease:

2¾ Percent Housing Insurance Fund Debentures, Series D

Denomination: $10,000.
Serial numbers (all numbers inclusive): 755 to 854.

The debentures first issued as determined by the serial numbers were selected for redemption by the Commissioner, Federal Housing Administration, with the approval of the Secretary of the Treasury.

No transfers or denominational exchanges in debentures covered by the foregoing call will be made on the books maintained by the Treasury Department on or after October 1, 1946. This does not affect the right of the holder of a debenture to sell and assign the debenture on or after October 1, 1946, and provision will be made for the payment of final interest due on January 1, 1947, with the principal thereof to the actual owner, as shown by the assignments thereon.

The Commissioner of the Federal Housing Administration hereby offers to purchase any debentures included in this call at any time from October 1, 1946 to December 31, 1946, inclusive, at par and accrued interest, to date of purchase.

Instructions for the presentation and surrender of debentures for redemption on or after January 1, 1947, or for purchase prior to that date will be given by the Secretary of the Treasury.

RAYMOND M. FOLEY,
Commissioner.

Approved:

JOHN W. SNYDER,
Secretary of the Treasury.

OFFICE OF ALIEN PROPERTY CUSTODIAN.

[Vesting Order 7383]

HENRY KOLKHORST

In re: Estate of Henry Kolkhorst, also known as Henry C. Kolkhorst, and as H. C. Kolkhorst, deceased; file 017-14388.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: Cash in the amount of $11,500

is property in the possession of the Alien Property Custodian;

That such property was held by Lena H. Schmidt and E. Clyde Harvey, Co-Executors of the Estate of Henry Kolkhorst, also known as Henry C. Kolkhorst, and as H. C. Kolkhorst and is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Wilhelm Kolkhorst, Germany.
Hermann Kolkhorst, Germany.
Sophia Kolkhorst, Germany.
August Kolkhorst, Germany.
Christian Kolkhorst, Germany.
Heinrich Kolkhorst, Germany.
Karl Kolkhorst, Germany.
Lina Kolkhorst, Germany.
Minna Kolkhorst, Germany.
Christian Schmidt, Germany.

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on August 14, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[F. R. Doc. 46-17507; Filed, Sept. 27, 1946; 8:45 a. m.]

[Vesting Order 7412]

MARIE L. FRENZEN

In re: Estate of Marie L. Frenzen, deceased; File No. D-28-7387; E. T. sec. 7596.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Mathilde Schmitz, Anna Chabrié, Clara Strelow Töing, Margareta E. Nommensen, Maria Nommensen, Jonathan T. Nommensen, Lore Nommensen, Walter Naumann, Gertrude Naumann, Clara Bohe, Susanna Wintermeyer, and each of them, in and to the Estate of Marie L. Frenzen, deceased,

is property payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Mathilde Schmitz, Germany.
Anna Chabrié, Germany.
Clara Strelow Töing, Germany.
Margareta E. Nommensen, Germany.
Maria Nommensen, Germany.
Jonathan T. Nommensen, Germany.
Lore Nommensen, Germany.
Walter Naumann, Germany.
Gertrude Naumann, Germany.
Clara Böhe Germany.
Susanna Wintermeyer, Germany.

That such property is in the process of administration by Miss Henrietta C. Schuetz, as Executrix of the Estate of Marie L. Frenzen, deceased, acting under the judicial supervision of the Passaic County Orphans' Court, Paterson, New Jersey;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof or within such further time as may be allowed, file with the Alien Property Custodian, on Form APC-1, a notice

of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on August 15, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 7415]

ALEXANDER KOWALCZYK

In re: Estate of Alexander Kowalczyk also known as Maximilian Kowalczyk, deceased; File No. D-28-8255; E. T. sec. No. 9341.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Frau Maia Gertler in and to the Estate of Alexander Kowalczyk a/k/a Maximilian Kowalczyk, deceased,

is property payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Frau Maia Gertler, Germany.

That such property is in the process of administration by the Reverend Henry Fiedorczyk, as Administrator d. b. n. of the Estate of Alexander Kowalczyk a/k/a Maximilian Kowalczyk, deceased, acting under the judicial supervision of the Court of Probate for the District of Berlin, New Britain, Connecticut;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on August 15, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 7463]

JOSEPHINE PAPE GROTE

In re: Interest in real property owned by Josephine Pape Grote.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Josephine Pape Grote, whose last known address is Hanover, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: An undivided one-fifth interest in and to real property, situated in the Township of Falls, County of Bucks, State of Pennsylvania, particularly described in Exhibit A attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 2 hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on August 16, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

EXHIBIT A

PARCEL 1

Beginning at a point in the Oxford Valley-Edgewood Road said point being distant in a southerly direction ninety-six and sixteen hundredths feet from the line of land now or formerly owned by Michael Rice and running thence (1) North eighty-two degrees forty-two minutes east four hundred and fifty-four and four hundredths feet to a point in the westerly line of land known as Oxford Valley Heights, thence (2) South five degrees forty-six minutes east ninety-five and eighty-four hundredths feet along the westerly line of said land known as Oxford Valley Heights to a point thence (3) South eighty-two degrees forty-two minutes west four hundred and fifty-five and thirty-seven hundredths feet to a point in the Oxford Valley-Edgewood Road (said point being distant in a westerly direction two hundred thirty-three and ninety-six hundredths feet from the northerly line of land now or formerly of C. Watson Spencer) thence (4) North four degrees fifty-eight minutes west ninety-five and eighty-eight hundredths feet along the Oxford Valley-Edgewood Road to the point and place of beginning.

CHARLES JACKSON

In re: Trust under the Will of Charles Jackson, deceased; File No. D-28-7447; E. T. sec. 12622.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Caroline Grun, in and to the Trust created under the Will of Charles Jackson, deceased,

is property payable or deliverable to, or acclaimed by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Caroline Grun, Germany.

That such property is in the process of administration by Edwin H. Stern, as Trustee, acting under the judicial supervision of the Surrogate's Court of New York County, New York;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such persons be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on August 21, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 7537]

AMIKAN FISHING NET MFG. CO., LTD.

In re: Drafts owned by and debt owing to Amikan Fishing Net Manufacturing Co., Ltd.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Amikan Fishing Net Manufacturing Co., Ltd., the last known address of which is Tomida, Japan, is a corporation organized under the laws of Japan, and which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

2. That the property described as follows:

a. That certain draft, in the principal sum of $852.91, dated March 11, 1940, drawn by Amikan Fishing Net Manufacturing Co., Ltd., on Joao Burnay Bastos, Lisbon, Portugal, and presently in the custody of the Superintendent of Banks of the State of New York, as Liquidator of the Business and Property in New York of Mitsui Bank, Ltd., 80 Spring Street, New York, New York, together with any and all rights in, to and under, including particularly the right to possession of, the aforesaid draft,

b. That certain draft, in the principal sum of $1,956.60, dated April 9, 1940, drawn by Amikan Fishing Net Manufacturing Co., Ltd., on Fernendo Menendez, Lisbon, Portugal, and presently in the custody of the Superintendent of Banks of the State of New York, as Liquidator of the Business and Property in New York of Mitsui Bank, Ltd., 80 Spring Street, New York, New York, together with any and all rights in, to and under, including particularly the right to possession of, the aforesaid draft,

c. That certain draft, in the principal sum of $868.78, dated April 17, 1940, drawn by Amikan Fishing Net Manufacturing Co., Ltd., on Fernendo Menendez, Lisbon, Portugal, and presently in the custody of the Superintendent of Banks of the State of New York, as Liquidator of the Business and Property in New York of Mitsui Bank, Ltd., 80 Spring Street, New York, New York, together with any and all rights in, to and under, including particularly the right to possession of, the aforesaid draft, and

d. That certain debt or other obligation owing to Amikan Fishing Net Manufacturing Co., Ltd., by the Superintendent of Banks of the State of New York, as Liquidator of the Business and Property in New York of Mitsui Bank, Ltd., 80 Spring Street, New York, New York, in the amount of $1,732.24, as of December 31, 1945, arising out of a collection after closing account, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 7538]

K. ARIMOTO & CO., LTD.

In re: Drafts owned by and debt owing to K. Arimoto & Co., Ltd.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That K. Arimoto & Co., Ltd., the last known address of which is Kyoto, Japan, is a corporation organized under the laws of Japan, and which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

2. That the property described as follows:

a. That certain draft, in the principal sum of $120.00, dated February 5, 1941, drawn by K. Arimoto & Co., Ltd., on Julio de la Torre, Bueno Arequipa, Peru, and presently in the custody of the Superintendent of Banks of the State of New York, as liquidator of the Business and Property in New York of The Sumitomo Bank, Ltd., 80 Spring Street, New York, New York, together with any and all rights in, to and under, including particularly the right to possession of, the aforesaid draft,

b. That certain draft, in the principal sum of $257.00, dated April 16, 1941, drawn by K. Arimoto & Co., Ltd., on Sr. Wadi Bitar, Buenos Aires, Argentina, and presently in the custody of the Superintendent of Banks of the State of New York, as liquidator of the Business and Property in New York of The Sumitomo Bank, Ltd., 80 Spring Street, New York, New York, together with any and all rights in, to and under, including particularly the right to possession of, the aforesaid draft, and

c. That certain debt or other obligation owing to K. Arimoto & Co., Ltd., by the Superintendent of Banks of the State of New York, as Liquidator of the Busi-

ness and Property in New York of The Sumitomo Bank, Ltd., 80 Spring Street, New York, New York, in the amount of $10,427.94, as of December 31, 1945, arising out of a collection after closing account, together with any and all accruals thereto and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold, or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

BREISGAU-WALZWERK, G. M. B. H.

In re: Bank account owned by Breisgau-Walzwerk, G. M. B. H.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Breisgau-Walzwerk, G. M. B. H., the last known address of which is Singen, Hohentweil, Germany, is a corporation organized under the laws of Germany and which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of The National City Bank of New York, 1451 Broadway, New York, New York, arising out of a checking account, entitled Adolphe Hurst & Co., Inc., for account of Breisgau-Walzwerk, G. M. B. H., and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Breisgau-Walzwerk, G. M. B. H., the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

AUGUSTA HANSEN

In re: Bank account owned by Augusta Hansen, also known as Auguste Hansen.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Augusta Hansen, also known as Auguste Hansen, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation of Bank of America National Trust and Savings Association, 300 Montgomery Street, San Francisco, California, arising out of a savings account, Account Number 631, entitled California Holding Company, as Trustee for Augusta Hansen, maintained at the branch office of the aforesaid bank located at 1019 Fillmore Street, San Francisco, California, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Augusta Hansen, also known as Auguste Hansen, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

Z. & F. ASSETS REALIZATION CORP.

In re: Z. & F. Assets Realization Corporation, pursuant to section 106 of the Stock Corporation Law of the State of New York, In Liquidation File F-28-736; E. T. sec. 9246.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: All rights and interests evidenced by Participation Certificates Series A, certificate numbers 393 and 138 in the face amounts of $124.33 and $170.87 respectively issued by Z. & F. Assets Realization Corporation (a New York Corporation), pursuant to a Trust agreement dated April 2, 1925, between said Z. & F. Assets Realization Corporation and the Guaranty Trust Company of New York, The New York Trust Company, The Equitable Trust Company, Hubert E. Rogers and Frederick F. Greenman (Trustees) including particularly but not limited to the right to all dividends and other distributions or payments, whether of principal or of income, heretofore or hereafter declared or made on account of such Participation Certificates, and the right to enforce and collect the same,

is property payable or deliverable to, or claimed by, nationals of designated enemy countries, Germany and Rumania, namely,

Nationals and Last Known Address

Karl Oswald, Germany.
Erste Temesvarer Sparkasse, Rumania.

That such property is in the process of administration by the Z. & F. Assets Realization Corporation, c/o The New York Trust Company, 100 Broadway, New York, N. Y., acting under the judicial supervision of the Supreme Court of the State of New York, County of New York;

And determining that to the extent that such nationals are persons not within designated enemy countries, the national interest of the United States requires that such persons be treated as nationals of designated enemy countries (Germany and Rumania);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The term "national" as used herein shall have the meaning prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 19, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[F. R. Doc. 46-17521; Filed, Sept. 27, 1946; 8:47 a. m.]

[Supp. Vesting Order 7725]

Z. & F. ASSETS REALIZATION CORP.

In re: Z. & F. Assets Realization Corporation, pursuant to section 106 of the Stock Corporation Law of the State of New York, in liquidation.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: All rights and interests evidenced by Participation Certificates Series B in the numbers and face amounts set forth in Exhibit A, attached hereto and by reference made a part hereof, issued by Z. & F. Assets Realization Corporation (a New York corporation), pursuant to a Trust Agreement dated April 2, 1925, between said Z. & F. Assets Realization Corporation and the Guaranty Trust Company of New York, The New York Trust Company, The Equitable Trust Company, Hubert E. Rogers and Frederick F. Greenman (Trustees), including particularly but not limited to the right to all dividends and other distributions or payments, whether of principal or of income, heretofore or hereafter declared or made on account of such Participation Certificates, the right to enforce and collect the same, and the right to have the outstanding certificates cancelled on the books and records of said corporation and to have issued in lieu thereof new certificates in the name of the Alien Property Custodian evidencing such rights and interests,

is property payable or deliverable to, or claimed by, the persons whose names appear in Exhibit A, attached hereto and by reference made a part hereof, the last known address of each being Germany or Rumania, and who are nationals of designated enemy countries, Germany and Rumania;

That such property is in the process of administration by the Z. & F. Assets Realization Corporation, c/o The New York Trust Company, 100 Broadway, New York, N. Y., acting under the judicial supervision of the Supreme Court of the State of New York, County of New York;

And determining that to the extent that such nationals are persons not within designated enemy countries, the national interest of the United States requires that such persons be treated as nationals of designated enemy countries (Germany and Rumania);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The term "national" as used herein shall have the meaning prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 25, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

[Vesting Order 6215, Amdt.]

Z. & F. ASSETS REALIZATION CORP.

In re: Z. & F. Assets Realization Corporation, pursuant to section 106 of the Stock Corporation Law of the State of New York, In Liquidation; File F-28-736; ET Sec. 9246.

Vesting Order Number 6215, dated April 23, 1946, is hereby amended as follows and not otherwise:

By deleting the sum of "$63.45", appearing in Exhibit A as the Face Amount of Certificate Number 68 in the name of Allgemeine Depositenbank and substituting therefor the sum of "$630.45".

By deleting the sum of "$51.25", appearing in Exhibit A as the Face Amount of Certificate Number 2505 in the name of Reichs-Kredit Gesellschaft and substituting therefor the sum of "$51.23".

By deleting the sum of "$534.27", appearing in Exhibit A as the Face Amount of Certificate Number 2110 in the name of Hans Thomsen, K. G. and substituting therefor the sum of "$534.12".

By deleting the sum of "$11,083.88", appearing in Exhibit A as the Face Amount of Certificate Number 472 in the name of Deutsche Handelsbank, A. G. and substituting therefor the sum of "$1,083.88".

By deleting the sum of "$11,070.63", appearing in Exhibit A as the Face Amount of Certificate Number 2441 in the name of Deutsche Laenderbank and substituting therefor the sum of "$11,770.63".

By deleting the sum of "$4,885.63", appearing in Exhibit A as the Face Amount of Certificate Number 515 in the name of Ephrussi & Co., and substituting therefor the sum of "$3,885.63".

By deleting the number "2130", appearing in Exhibit A as the number of the certificate in the name of Adolf Loehlein and substituting therefor the number "1203".

By deleting the sum of "$3,747.50", appearing in Exhibit A as the Face Amount of Certificate Number 1026 in the name of L. Josian & Co., and substituting therefor the sum of "$3,747.59".

All other provisions of said Vesting Order Number 6215 and all action taken

on behalf of the Alien Property Custodian in reliance thereon, pursuant thereto and under authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C., on September 19, 1946.

[SEAL] JAMES E. MARKHAM,
Alien Property Custodian.

UNITED STATES MARITIME COMMISSION.

"AURORA"

DETERMINATION OF VESSEL OWNERSHIP

Notice of determination by Administrator, War Shipping Administration, pursuant to section 3 (b) of the Act approved March 24, 1943 (Public Law 17, 78th Congress).

Whereas the title to the vessel *Aurora* of Finnish registry was requisitioned pursuant to the Act of June 6, 1941 (Public Law 101—Seventy-Seventh Congress; 55 Stat. 242), as amended, on or about December 27, 1941; and

Whereas section 3 (b) of the act approved March 24, 1943 (Public Law 17—78th Congress; 57 Stat. 45), provides in part as follows:

(b) The Administrator, War Shipping Administration, may determine at any time prior to the payment in full or deposit in full with the Treasurer of the United States, or the payment or deposit of 75 per centum, of just compensation therefor that the ownership of any vessel (the title to which has been requisitioned pursuant to Section 902 of the Merchant Marine Act, 1936, as amended, or the Act of June 6, 1941 (Public Law 101, Seventy-seventh Congress)), is not required by the United States, and after such determination has been made and notice thereof has been published in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned for all purposes as of the date of the original taking: *Provided, however,* That no such determination shall be made with respect to any vessel after the expiration of a period of two months after the date of delivery of such vessel pursuant to title requisition except with the consent of the owner * * *;

and

Whereas neither the full amount nor 75 per centum of just compensation for such vessel has been paid or deposited with the Treasurer of the United States; and

Whereas the former owner of the said vessel has consented to a determination that the use of the vessel is no longer required by the United States and to the return of the vessel and the conversion of the requisition of title thereto to a requisition of the use thereof in accordance with the act approved March 24, 1943 (Public Law 17—78th Congress); and

Whereas section 202 of the act of July 8, 1946 (Public Law 492, 79th Congress), provides that effective September 1, 1946, and continuing only during the period ending December 31, 1946, "all functions, powers, and duties of the War Shipping Administration, including all of the foregoing provisions in this act relating to said Administration are hereby transferred to and shall be exercised by the United States Maritime Commission under the same legal authorities and subject to the same conditions and limitations not otherwise altered by the foregoing provisions in this Act relating to said Administration, as will be applicable to the War Shipping Administration on August 30, 1946, and the War Shipping Administration shall cease to exist as of September 1, 1946;"

Now, therefore, I, A. J. Williams, Secretary, United States Maritime Commission, do hereby certify that on August 28, 1946, the Administrator, War Shipping Administration, acting pursuant to the Act approved March 24, 1943 (Public Law 17—78th Congress), determined that the ownership of said vessel is not required by the United States and that from and after the date of publication hereof in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned, for all purposes, as of the date of the original taking.

Dated: September 25, 1946.

A. J. WILLIAMS,
Secretary,
United States Maritime Commission.

OFFICE OF PRICE ADMINISTRATION.

[MPR 188, Amdt. 1 to Order 5104]

WOOD COMMERCIAL FURNITURE

ADJUSTMENT OF MAXIMUM PRICES

For the reason set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation 188, *It is ordered:*

Order No. 5104 under § 1499.159b of Maximum Price Regulation 188 is amended in the following respect:

1. Section 2 is amended to read as follows:

SEC. 2. *Articles covered by this order.* This order covers all types of wood commercial chairs, desks and tables covered by Maximum Price Regulation 188, except those whose maximum prices were established under the "cost method" of Order 4332 or Revised Order 4332 under the regulation. The term "wood commercial chairs, desks and tables" as used in this order means all chairs, desks and tables covered by Appendix C of Maximum Price Regulation 188, when primarily designed and generally used for non-household purposes, and when made with wood which accounts for at least 50% of the total cost of materials used, exclusive of joining hardware and upholstery materials.

This amendment shall become effective on the 2d day of October 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 5104 UNDER SECTION 1499.159B OF MAXIMUM PRICE REGULATION 188

This amendment provides that the cost of upholstery materials shall not be considered in determining whether the cost of the wood used in an article constitutes 50% or more of the total cost of materials, under the definition of "Wood commercial chairs, desks and tables" set forth in the Order.

The cost of joining hardware has already been eliminated by the original definition, as it was found that otherwise some types of chairs commonly considered wood would be classed as metal under the definition. Since issuance of the order, information has been received by the Office of Price Administration which indicates that for some types of upholstered chairs the cost of the wood would constitute less than 50% of the total cost (less the cost of joining hardware) owing to the high cost of upholstery materials. Since the order was intended to apply to such chairs, since both upholstered and non-upholstered chairs were included in the survey which preceded the order, and since otherwise no price adjustment would apply to such chairs, this amendment is issued to definitely include them within the scope of Order 5104.

[F. R. Doc. 46-17647; Filed, Sept. 27, 1946; 11:46 a. m.]

[MPR 188, Amdt. 3 to Order 5122]

HOUSEHOLD KITCHEN WARE

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to § 1499.159b of Maximum Price Regulation No. 188, *It is ordered,* That Order No. 5122 under § 1499.159b of Maximum Price Regulation No. 188 be amended in the following respects:

1. The first paragraph of section 2 is amended to read as follows:

SEC. 2. *Articles covered by this order.* This order applies to all sales and deliveries of all articles of the type of household ware which are listed in section 3 of this order; except as is otherwise provided for in section 7 of this order, and except "sub-standard enamelware". For the purposes of this order, "sub-standard enamelware" shall mean enameled household articles which have obvious defects, which the manufacturer does not sell as a line and which he sells at least 15 percent below his lowest ceiling price for a comparable enameled household article without such defects.

2. Paragraph (a) of section 5 is amended to read as follows:

(a) *Retail ceiling prices for retailers other than "Class I" sellers.* The retail ceiling price for an article covered by this order sold by a retailer other than a Class I seller (as defined below) shall be determined by adding to the "manufacturer's price" an amount equal to 100% of such price.

For the purposes of this section, the "manufacturer's price" is the highest of the following f. o. b. factory ceiling prices for his sales of the article to the class of wholesaler or Class I seller to whom he sells articles covered by this order in the largest dollar volume.

(1) The ceiling price as established under § 1499.153 to 14.99.158, inclusive, of Maximum Price Regulation No. 188 provided that the ceiling price as established under Maximum Price Regulation No. 188 does not include either directly or indirectly any adjustment, either individual or industry-wide, plus the percentage of that price specified below as applicable to the type of household ware which includes the article whose ceiling price is being determined.

Percentage of MPR 188 ceiling price that may be added for the purpose of determining the manufacturer's price:

Type of household ware:	
Cast iron ware	5
Enamel ware	5

(2) The price established by an individual adjustment order under Supplementary Orders Nos. 118, 133 or 148, or Revised Supplementary Order No. 119 or any other supplementary order which may provide for the individual adjustment of a manufacturer's ceiling price.

If a manufacturer cannot determine a retail ceiling price in accordance with the foregoing provisions of the order for any article of his manufacture because he does not have a ceiling price to wholesalers or Class I sellers for that article, but does have a ceiling price to a retailer other than a Class I seller for that article, he shall compute the retail ceiling price by multiplying by 150% his adjusted f. o. b. factory ceiling price for that article to the class of retailer other than a Class I seller who buys that article in the largest dollar volume.

If a manufacturer has ceiling prices to purchasers for resale which include any type of freight allowance, he shall convert his ceiling prices for the purpose of computing retail ceiling prices by subtracting from his ceiling prices which include the freight allowance, the maximum freight allowance included in such a price which is in excess of 50 cents per hundredweight.

3. The last sentence in the first paragraph in section 5 (b) is amended to read as follows: "However, the retail ceiling price for a sale by a mail order house of an article which it sold during 1941 shall be the last catalog price in effect prior to March 31, 1942, plus 5%."

4. Paragraph (d) of section 4 is amended to read as follows:

(d) *Adjustment of retail ceiling prices.* All retail ceiling prices established by this section shall first be calculated without regard to this paragraph. If any retail ceiling price so calculated is more than $1.00 and not a multiple of 5 cents, that retail ceiling price shall be adjusted up or down, whichever is applicable, to the nearest figure which is a multiple of 5 cents.

5. Section 6 is amended to read as follows:

SEC. 6. *Tagging.* (a) On and after October 15, 1946, no person may display, offer for sale, sell or deliver at retail any article covered by this order unless there appears on the article a price which does not exceed the retail ceiling price established by this order for a sale of that article by the class of seller making the sale at the place where the article is displayed, offered for sale, sold or delivered and which is clearly designated as "OPA Retail Ceiling Price."

(b) Anything contained in paragraph (a) of this section to the contrary notwithstanding the retail ceiling price need not appear on any article sold by mail order by a mail order house.

(c) It shall be the responsibility of the person making the display, offer for sale, sale or delivery at retail to write, stamp, label or tag the retail ceiling price on any article covered by this order in accordance with the requirements of paragraph (a) of this section. However, if on any article covered by this order there appears a tag, label or stamp affixed thereto by the manufacturer in the following form (with the blank properly filled in):

OPA Retail Ceiling Price—$_____ Plus 5% in Zone II Except Class I Sellers

the requirements of paragraph (a) of this section shall be deemed to have been satisfied.

6. Paragraph (b) of section 7 is amended to read as follows:

(b) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale, but after September 30, 1946, each seller shall notify the purchaser in writing of the requirements of section 6 of this order, of the States in each zone as specified by this order and the retail ceiling prices established by this order for all articles sold or delivered on or after September 30, 1946; however, a seller who is also a purchaser for resale, need not give such notice with respect to any articles until such time as he receives the notice required to be given by this paragraph covering such articles from his seller. Manufacturers shall notify purchasers for resale at wholesale of all ceiling prices and conditions established by this order for sales by the purchaser.

This amendment shall become effective on the 30th day of September 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 3 TO ORDER NO. 5122 UNDER SECTION 1499.159B OF MAXIMUM PRICE REGULATION NO. 188

The accompanying amendment makes certain clarifying changes in Order No. 5122 under Section 1499.159e of Maximum Price Regulation No. 188, hereinafter referred to as Order No. 5122, which establishes adjusted ceiling prices for household cast iron and enamel ware and relieves manufacturers from the preticketing requirements heretofore imposed on them.

The amendment makes clear that Order No. 5122 applies to all household cast iron and enamel ware except sub-standard enamel ware covered by Maximum Price Regulation No. 188 and is not limited to household kitchenware. Ceiling prices for sub-standard enamel ware remain subject to Maximum Price Regulation No. 188 and the General Maximum Price Regulation depending on the character of the seller.

The accompanying amendment provides a method by which manufacturers' delivered ceiling prices can be converted into f. o. b. factory ceiling prices for the purposes of calculating retail ceiling prices; however a price which includes no more than a $.50 per hundredweight freight allowance shall be deemed to be a f. o. b. factory ceiling price. The $.50 per hundredweight freight allowance is permitted to be included in the f. o. b. factory ceiling price for this purpose because this allowance was included in the ceiling prices of most manufacturers in the industry and such prices were customarily doubled to determine retail prices. Prices which include greater freight allowances must be converted into f. o. b. factory prices with a $.50 per hundredweight freight allowance so that retail ceiling prices for articles of all manufacturers will be determined on a comparable basis.

The accompanying amendment also prescribes a method for determining retail ceiling prices of articles which are sold only to retailers other than Class I sellers without the use of wholesalers. Heretofore, it was impossible to calculate a retail ceiling price for an article which the manufacturer sold only direct to retailers other than Class I sellers. The prices so established are in line with the level of ceiling prices established for comparable articles.

The amendment provides that mail order house catalog ceiling prices may be increased by 5% so as to keep such prices in line with the level of ceiling prices established for other retailers.

The amendment requires retail sellers other than by mail order to label on and after October 15, 1946, all articles covered by Order No. 5122 with the retail ceiling price established by Order No. 5122 or a lower price, and it is the obligation of every seller to a purchaser for resale to advise the purchaser in writing of the ceiling prices established by Order No. 5122.

Heretofore, Order No. 5122 required manufacturers to pre-ticket all merchandise subject to the order with the retail ceiling prices; however the manufacturers of enamel ware have demonstrated that conditions peculiar to their manufacturing technique make it extremely difficult if not impossible for them to pre-ticket such merchandise. Accordingly, the Price Administrator has found that the most feasible method of securing compliance with the ceiling prices established by Order No. 5122 is to require retailers to label all such merchandise with the retail ceiling prices.

The Administrator has advised and consulted with members of the industries affected and has given consideration to their recommendations.

All provisions of the amendment and its effect upon business practices, cost practices or methods or means or aids to distribution in the industry have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry affected have been included in the

amendment, unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the price control act. To the extent that the provisions of the amendment compel or may operate to compel changes in business practices, cost practices or methods or means or aids to distribution established in the industry, or industries affected, such provisions are necessary to prevent evasion or circumvention of the order or of the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17648; Filed, Sept. 27, 1946; 11:47 a. m.]

[RMPR 143, Order 46]

WHOLESALE PRICES FOR NEW RUBBER TIRES AND TUBES

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 7 of Revised Maximum Price Regulation 143, *It is ordered:*

(a) The maximum retail price for the following new size and type of truck tire, shall be:

NATURAL OR SYNTHETIC RUBBER TRUCK TIRE

Size	Replaces size	Ply	Maximum retail price, each
CC-12	5.50 x 18	6	$23.32

(b) The maximum wholesale price for sales of the tire described in paragraph (a) above, when sold by the manufacturer or brand owner, shall be determined by applying the appropriate discount determined under section 3 (b) (2) of RMPR 143 to the discount base for such tire listed below and adding to the price so computed the amount of the wholesale increase specified for such tire below:

NATURAL OR SYNTHETIC RUBBER TRUCK TIRE

Size	Replaces size	Ply	Discount base	Wholesale increase
CC-12	5.50 x 18	6	$22.75	$1.46

(c) All provisions of Revised Maximum Price Regulation 528 not inconsistent with this order shall apply to retail sales of commodities covered by this order. All provisions of RMPR 143 not inconsistent with this order shall apply to wholesale sales of commodities covered by this order.

(d) This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective September 28, 1946.

Issued this 27th day of September 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDER 46 UNDER REVISED MAXIMUM PRICE REGULATION 143

Applications have been received for the establishment of a maximum retail price for a new size natural or synthetic rubber truck tire. Since these tires are not listed in Appendix III to Revised Maximum Price Regulation 143 for the purpose of determination of wholesale prices when sold by the manufacturer or brand owner, it is necessary to establish such wholesale price by authorization under section 7 of that regulation. In connection with the establishment of wholesale prices, maximum retail prices may also be established under the provisions of that section since these tires are not priced at retail under Revised Maximum Price Regulation 528 nor were they listed in any price list of the manufacturer as of February 1, 1944. This order, therefore, establishes maximum retail price for sales of this tire by any person.

The maximum prices fixed by this order bear the normal relationship to the maximum prices fixed by the regulations for other sizes of this type of tire and such maximum prices are consistent with the level of maximum prices otherwise fixed by RMPR 143 for wholesale sales and RMPR 528 for retail sales.

[F. R. Doc. 46-17646; Filed, Sept. 27, 1946; 11:46 a. m.]

[MPR 580, Amdt. 2 to Order 4]

MARSHALL FIELD AND CO., INC.

ESTABLISHMENT OF MAXIMUM PRICES

Maximum Price Regulation 580, Amendment 2 to Order 4. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-792. For the reasons set forth in the opinion issued simultaneously herewith, Order 4 issued under section 13 of Maximum Price Regulation 580 on application of Marshall Field and Company, Inc., through its division Karastan Rug Mills, 295 Fifth Avenue, New York 16, New York, is amended in the following respects:

1. Paragraph (a) is amended by deleting the heading "Manufacturer's Selling Price" and substituting therefor the heading "Manufacturer's Unadjusted Selling Price".

2. Paragraph (a) is further amended by adding the following footnote:

"Manufacturer's Unadjusted Selling Price" is the manufacturer's selling price prior to the addition, in whole or in part, of the 4½% increase permitted under Amendment 7 to Revised Price Schedule 57.

3. Paragraph (a) is further amended by adding the following:

WOOL SHAG BROADLOOM CARPETING—"CHATEAU BY KARASTAN" GRADE

Manufacturer's unadjusted selling price	Retail ceiling price	
	East of Denver	West of Denver
Per sq. yd. $8.085	*Per sq. yd.* $14.20	*Per sq. yd.* $14.65

4. Paragraph (b) is amended to read as follows:

(b) The retail ceiling price of an article stated in paragraph (a) shall apply to any other article of the same type, having the same unadjusted selling price to the retailer, the same brand or company name, and first sold by the manufacturer after the effective date of this order.

5. Paragraph (c) is amended by deleting the phrase "Maximum Price Regulation No. 580" and substituting therefor the phrase "the regulation which would apply in the absence of this order."

6. Paragraph (d) is amended to read as follows:

(d) At the time of or before the first delivery to any purchaser for resale of any article listed in paragraph (a), the seller shall send the purchaser a copy of this order and of each amendment thereto issued prior to the date of such delivery. Within 15 days after the effective date of any subsequent amendment to the order, the seller shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment. The seller shall also send a copy to all other purchasers at the time of or before the first delivery of the article subsequent to the effective date of the amendment.

7. Paragraph (e) is amended by deleting the phrase "Maximum Price Regulation No. 580" and substituting therefor the phrase "the regulation which would apply in the absence of this order."

This amendment shall become effective September 28, 1946.

Issued this 27th day of September 1946.

ROBERT A. NIXON,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER NO. 4 UNDER MAXIMUM PRICE REGULATION NO. 580

The accompanying amendment to Order No. 4 issued to Marshall Field and Company, Inc., through its division Karastan Rug Mills, 295 Fifth Avenue, New York 16, New York, under section 13 of Maximum Price Regulation 580, establishes a uniform retail ceiling price, on a yardage basis, of additional carpeting. The amendment revises the heading "Manufacturer's Selling Price" to read "Manufacturer's Unadjusted Selling Price". This was done to indicate that the retail ceilings established by the order are based upon the manufacturer's unadjusted prices, that is, his prices before addition of the adjustment charge of 4½% permitted under § 1352.1a of Revised Price Schedule 57, as amended.

Paragraph (b) is amended to provide, under specified conditions, an automatic method for establishing a uniform retail ceiling for branded articles not included in the order and first sold by the manufacturer after the effective date of the order.

The amendment also broadens the notice provision contained in paragraph (d).

[MPR 580, Amdt. 2 to Order 36]

VANITY FAIR MILLS, INC.

ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation 580, Amendment 2 to Order 36. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-804.

For the reasons set forth in the opinion issued simultaneously herewith, Order No. 36 issued under section 13 of Maximum Price Regulation 580 on application of Vanity Fair Mills, Inc., Reading, Pennsylvania, is amended in the following respects:

1. Paragraph (a) is amended by adding the following:

LADIES' UNDERWEAR, NIGHTWEAR, ENSEMBLE COATS, BED JACKETS, ROBES AND HOUSECOATS

Manufacturer's selling price (per dozen)	*Ceiling price at retail (per unit)*
$4.25	$0.59
4.65	.65
5.55 to $5.65	.79
6.00	.85
6.40	.89
7.20 to 7.25	1.00
9.00	1.25
9.70	1.35
10.80	1.50
11.85	1.65
12.25	1.75
14.40	2.00
16.20	2.25
20.65 to 21.60	2.95
27.65 to 28.80	3.95
31.50	4.50
36.00	5.00
52.50	7.50
70.00	9.95
77.00	10.95
MEN'S UNDERWEAR	
14.40	2.00
18.00	2.50
21.60	3.00
25.20	3.50
28.80	4.00
36.00	5.00
LADIES' SPORT SHORTS	
14.00	2.00
17.50	2.50

This amendment shall become effective September 28, 1946.

Issued this 27th day of September 1946.

ROBERT A. NIXON,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER NO. 36 UNDER MAXIMUM PRICE REGULATION NO. 580

The accompanying amendment to Order No. 36 issued to Vanity Fair Mills Inc., Reading, Pennsylvania, under section 13 of Maximum Price Regulation 580, establishes uniform retail ceiling prices for additional cost lines. This will enable the manufacturer to continue his practice of maintaining uniform retail selling prices on his branded merchandise.

[F. R. Doc. 46-17650; Filed, Sept. 27, 1946; 11:47 a. m.]

[MPR 580, Amdt. 2 to Order 199]

FELIX TAUSEND & SONS

ESTABLISHMENT OF MAXIMUM PRICES

Maximum Price Regulation 580, Amendment 2 to Order 199. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-790.

For the reasons set forth in the opinion issued simultaneously herewith, Order No. 199 issued under section 13 of Maximum Price Regulation 580 on application of Felix Tausend & Sons, 114 Franklin Street, New York 13, New York, is amended in the following respects:

1. Paragraph (a) is amended by deleting the heading "Manufacturer's Unadjusted Selling Price" and substituting therefor the heading "Manufacturer's Selling Price".

2. Paragraph (a) is further amended by deleting the footnote thereto.

3. Paragraph (a) is amended to increase the uniform retail ceiling prices established by the order for the articles listed below. The new cost-retail price lines are as follows:

Size	Article	Manufacturer's selling price	Retail ceiling price
54 x 70	Tablecloth with 6 15" napkins.	$8 per set	$13.50 per set.
65 x 85	Tablecloth	$7.50 each	$12.50 each.
65x108	Tablecloth	$9.50 each	$15.95 each.
20 x 20	Napkins	$7.50 per doz	$12.50 per doz.

4. Paragraph (d) is amended by adding thereto the following undesignated paragraph:

Upon issuance of any amendment to this order which either adds an article to those already covered by the order or changes the retail ceiling price of a covered article, Felix Tausend & Sons, as to such article, must comply with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this order.

5. Paragraph (e) is amended to read as follows:

(e) At the time of or before the first delivery to any purchaser for resale of any article covered by this order, the seller shall send the purchaser a copy of the order and of each amendment thereto issued prior to the date of such delivery. Within 15 days after the effective date of any subsequent amendment to the order, the seller shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment. The seller shall also send a copy to all other purchasers at the time of or before the first delivery of the article subsequent to the effective date of the amendment.

This amendment shall become effective September 28, 1946.

Issued this 27th day of September 1946.

ROBERT A. NIXON,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER NO. 199 UNDER MAXIMUM PRICE REGULATION NO. 580

The accompanying amendment to Order 199 issued to Felix Tausend & Sons, 114 Franklin Street, New York 13, New York, under section 13 of Maximum Price Regulation 580, increases the uniform retail ceiling prices of napery. Prior to this amendment, the retail ceilings established by the order were based upon below-ceiling manufacturer's prices. The manufacturer now wishes to invoice his retailers at his ceiling prices. Accordingly, this amendment sets forth the manufacturer's ceiling prices and the increased retail prices. The new retail ceilings reflect markups which are not higher than they were prior to the amendment.

With respect to articles for which retail ceiling prices are established by amendment, provision is made for the suspension of the preticketing requirements for a specified period.

The amendment also revises the notice provision in paragraph (e).

[F. R. Doc. 46-17651; Filed, Sept. 27, 1946; 11:47 a. m.]

[MPR 580, Order 322]

VALMOR UNDERGARMENT CO., INC.

ESTABLISHMENT OF MAXIMUM PRICES

Maximum Price Regulation No. 580, Order 322. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-711.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 13 of Maximum Price Regulation No. 580, *It is ordered:*

(a) The following ceiling prices are established for sales by any seller at retail of the following articles manufactured by Valmor Undergarment Co., Inc., 149 Madison Avenue, New York, New York, having the brand name "Val Mode" and described in the manufacturer's application dated June 12, 1946. The manufacturer's prices listed below are subject to a discount of 8%/10 EOM.

LADIES AND MISSES' SLIPS

Manufacturer's selling price (per dozen)	*Ceiling price at retail (per unit)*
$22.50	$2.98

(b) The retail ceiling price of an article stated in paragraph (a) shall apply to any other article of the same type, having the same selling price to the re-

tailer, the same brand or company name and first sold by the manufacturer after the effective date of this order.

(c) The retail ceiling prices contained in paragraph (a) shall apply in place of the ceiling prices which have been or would otherwise be established under this or any other regulation.

(d) On and after October 30, 1946, Valmor Undergarment Co., Inc. must mark each article listed in paragraph (a) with the retail ceiling price under this order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

Sec. 13, MPR 580
OPA Price—$------

On and after November 30, 1946, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to November 30, 1946, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the applicable regulation.

Upon issuance of any amendment to this order which either adds an article to those already listed in paragraph (a) or changes the retail ceiling price of a listed article, Valmor Undergarment Co., Inc., as to such article, must comply with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is preticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so preticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this order.

(e) Within 15 days after the effective date of this order, the seller shall send a copy to each purchaser for resale to whom, within two months immediately prior to the effective date, the seller had delivered any article covered in paragraph (a). Copies shall be sent to all other purchasers at the time of or before the first delivery of any such article subsequent to the effective date of the order and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the order, the seller shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment. The seller shall also send a copy to all other purchasers at the time of or before the first delivery of the article subsequent to the effective date of the amendment.

(f) Unless the context otherwise requires, the provisions of the applicable regulation shall apply to sales for which retail ceiling prices are established by this order.

(g) This order or any provision thereof may be revoked, suspended, or amended by the Price Administrator at any time.

This order shall become effective September 28, 1946.

Issued this 27th day of September 1946.

ROBERT A. NIXON,
Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 322 UNDER MAXIMUM PRICE REGULATION NO. 580

In accordance with section 13 of Maximum Price Regulation No. 580, the applicant named in the accompanying order, Valmor Undergarment Co., Inc., has applied to the Office of Price Administration for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Price Administrator indicates that the applicant has complied with other stated requirements.

The Price Administrator has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this order are no higher than the level of maximum prices under Maximum Price Regulation No. 580. The articles for which the accompanying order fixes ceiling prices for sales at retail under section 13 will no longer be priced under any other section of this or of any other regulation.

The order also contains a provision requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying order. Applicant and subsequent sellers (except sellers at retail) are required to send purchasers of the articles a copy of this order, and, in specified cases, of subsequent amendments thereto.

[MPR 594, Corr. to Amdt. 7 to Order 12]

HUDSON MOTOR CAR CO.

AUTHORIZATION OF MAXIMUM PRICES

Amendment 7 to Order 12 under Maximum Price Regulation 594 is corrected in the following respects:

1. The schedule in paragraph (a) (2) (i) is corrected in the following respects:

a. The item, under the column headed "description", reading "Special two paint copper red and harvest tan, all models" is corrected to read "Special two-tone paint, copper red and harvest tan, all models".

b. The item described as "Window reveal mouldings" is corrected to read as follows:

Description	Company net price to distributor	Distributor net price to dealer	List price
Window reveal mouldings, models 51 and 53:			
Sedans and Broughams	$12.01	$12.87	$17.16
Coupes	6.73	7.21	9.61

2. The base amount in paragraph (c) (2) for Model 53 (Super Eight) chassis is corrected to read "$1058" instead of "$1038".

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

PACKARD MOTOR CAR CO.

[MPR 594, Corr. to Amdt. 3 to Order 3]

AUTHORIZATION OF MAXIMUM PRICES

Amendment 3 to Order 23 under Maximum Price Regulation 594 is corrected in the following respect:

1. The "wholesale price installed-to dealer" for the item of extra or optional equipment described as "Exhaust pipe trim" is corrected to read "$1.39" instead of $1.29".

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

[Order 54 Under 19 (a), Revocation]

SOYA MEAL OR FLOUR

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to § 1499.19a of the General Maximum Price Regulation, *It is ordered:*

Order No. 54 under § 1499.19a of the General Maximum Price Regulation is hereby revoked.

This order shall become effective October 2, 1946.

Issued this 27th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING REVOCATION OF ORDER NO. 54 UNDER SECTION 1499.19A OF GENERAL MAXIMUM PRICE REGULATION

The accompanying order revokes Order No. 54 under Section 1499.19a of the General Maximum Price Regulation which authorized open-billing for sales of adhesives and isolated proteins made in whole or in part from soya meal or soya flour.

By Amendment 25 to SR 14F, industry-wide increases were granted in the maximum prices of these products to reflect the recent raw material increase in the cost of soybean meal, an important ingredient of these products. This action was taken after a study of the cost-price relationship of these products. Consequently, a generally fair and equitable price adjustment having been made, there is no longer a necessity for an open-billing authorization.

In accordance with the provision in the opinion accompanying Order No. 54 which stipulated that this order would be revoked once a final action was adopted by the Office of Price Administration, Order No. 54 is revoked.

In view of the foregoing, the Administrator finds that the accompanying revocation order is in accord with the Emergency Price Control Act of 1942, as amended, and the Executive Orders of the President.

226-5	Tire pump	1.55
226-2	Tropical roof	3.68
226-35	Wheel trim rings chrome	4.49

(ii) *Federal excise taxes.* A charge for Federal excise taxes at the current legal rates computed in accordance with the method the company had in effect on October 15, 1941.

(iii) *Cooperative advertising.* A charge for cooperative advertising not to exceed $10.00 when the distributor or direct dealer agrees to participate in the cooperative advertising program.

(iv) *Transportation.* A charge for transportation of the station wagon and extra or optional equipment from Toledo, Ohio to distributor, not to exceed a charge computed in accordance with the method the company had in effect on October 15, 1941, including transportation tax at the current legal rate.

(v) *Preparing and conditioning.* A charge not to exceed $20.00 for preparing and conditioning the new station wagon to make it ready for operation by a user.

(vi) *State and local taxes.* A charge equal to the company's expense for State or local taxes, if any, directly imposed on sale or delivery of the station wagon.

(vii) *Gasoline, oil and anti-freeze.* A charge for gasoline and anti-freeze not furnished as part of the service referred to in subdivision (v) above. The charge shall not exceed applicable maximum prices of such commodities.

(b) The Company shall submit to the Office of Price Administration, Automotive Branch, Washington, D. C., on or before February 28, 1947 the following information for the 3 month period commencing October 1, 1946 and ending December 31, 1946.

1. Overall Company profit and loss statement.

2. Total sales of Willys station wagons in units and dollars.

3. Unit manufacturing costs and unit selling, general and administrative expense of Willys station wagon.

The same information shall be submitted by the Company for each three month period after December 31, 1946 within 60 days after the end of each 3 month period.

(c) Any distributor, when selling under a distributor's sales agreement with the Company is authorized to sell to dealers the Willys station wagon listed in subparagraph (1) of paragraph (a) at a price not to exceed the applicable list price in that subparagraph less a discount of 22%, plus the total of the following applicable charges:

(1) *Extra or optional equipment.* A charge for each item of extra or optional equipment described in subparagraph (2) (i) of paragraph (a) affixed to or shipped with the new station wagon which shall not exceed the list price in that subparagraph less a discount of 22%.

(2) *Federal excise taxes.* A charge not to exceed the charge made by the company to provide for Federal excise taxes on the new station wagon and extra or optional equipment.

(3) *Advertising.* A charge for advertising expense not to exceed $10.00 when the purchasing dealer agrees to participate in the cooperative advertising program.

(4) *Transportation.* A charge to cover the distributors transportation expense not to exceed the following:

(i) *When transportation charge to distributor is prepaid.* A charge not to exceed the net invoice transportation charge to the distributor for the new station wagon and extra or optional equipment being sold; or

(ii) *When transportation charge to distributor is not prepaid.* A charge to cover transportation expense which shall not exceed the rail freight charge at carload rate or truck-away charge at truck load rate, whichever is higher, for the transportation of new station wagon, and extra or optional equipment, from the factory at Toledo, Ohio, by the most direct route to the place at which delivery is made to the purchaser including transportation tax at the current legal rate.

(5) *Preparing and conditioning.* A charge for preparing and conditioning the new station wagon and delivery not to exceed $20.00 when delivery is made to the user.

(6) *State and local taxes.* A charge equal to his expense for state and local taxes on the sale or delivery of the new station wagon and extra or optional equipment.

(7) *Gasoline, oil and anti-freeze.* A charge for gasoline, oil and anti-freeze supplied with the new station wagon when not furnished under subparagraph (5) above, not to exceed applicable maximum prices.

(d) A reseller is authorized to sell any purchaser each of the new Willys station wagon listed in subparagraph (1) of paragraph (a) at a price not to exceed the list price in that subparagraph plus the following applicable charges:

(1) *Extra or optional equipment.* A charge for each item of extra or optional equipment described in subparagraph (2) (i) of paragraph (a) when sold as original equipment which shall not exceed the applicable list price in that subparagraph.

(2) *Federal excise taxes.* A charge not to exceed the charge made by the distributor to provide for Federal excise taxes on the new station wagon and extra or optional equipment.

(3) *Charge for transportation.* A charge to cover the dealer's transportation expense not to exceed the following:

(i) *When the transportation charge to reseller is prepaid.* A charge not to exceed the net invoice transportation charge to the dealer for the new station wagon and extra or optional equipment being sold; or

(ii) *When the transportation charge to reseller is not prepaid.* A charge to cover transportation expense which shall not exceed the rail freight charge at carload rate or truck-away charge at truck load rate, whichever is higher, for the transportation of new station wagon, and extra or optional equipment, from the factory at Toledo, Ohio, by the most direct route to the place at which delivery is made to the purchaser including transportation tax at the current legal rate.

(4) *Preparing and conditioning charge.* A charge for preparing and conditioning the new station wagon for delivery not to exceed $20.00.

(5) *State and local taxes.* A charge equal to his expense for state and local taxes directly imposed on the sale or delivery of the new station wagon and extra or optional equipment.

(6) *Gas, oil and anti-freeze.* A charge for gas, oil and anti-freeze supplied with the new station wagon not to exceed applicable maximum prices.

(e) *Resale in Porto Rico and Alaska.* A reseller is authorized to sell each of the

may be revoked, suspended, or amended by the Price Administrator at any time.

be revoked once a final action was

station wagons and extra or optional equipment described in paragraph (a) in Porto Rico and Alaska at a price not to exceed the maximum price permitted by paragraph (c) or (d), whichever is applicable, to which he may add a sum equal to the expense incurred by or charged to him for: payment of territorial and insular taxes on the purchase, sale or introduction of the new station wagon in the territory or possession, when not charged under paragraph (c) or (d); export premiums; boxing and crating for export purposes; assembly cost, if any, marine and war risk insurance; landing, wharfage, and terminal operations; ocean freight; freight to port of embarkation when not charged under paragraph (c) or (d); and freight from the point of debarkation by the most direct route to the place of business of the reseller.

(f) All requests not granted herein are denied.

(g) This order may be amended or revoked by the Administrator at any time.

This order shall become effective September 27, 1946.

Issued this 27th day of September 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 29 UNDER MAXIMUM PRICE REGULATION 594

In the order which this opinion accompanies maximum prices are established under section 9 of Maximum Price Regulation 594 for a new jeep station wagon being manufactured for the first time by the Willys Overland Motors, Inc.

The new jeep station wagon is not similar to any model of automobile previously manufactured by the Willys Overland, Inc. For such a passenger automobile, the maximum price for sales at the manufacturing level must be determined under section 9 of Maximum Price Regulation 594. That section requires that the maximum price established shall be a price in line with the general level of maximum prices permitted by the regulation for new passenger automobiles having similar specifications for most major characteristics.

In determining an in-line factory price for the jeep station wagon, its engineering and design specifications were compared with comparable specifications of station wagons of competitive makes on the basis of rating factors for 41 engineering and design specifications suggested by the Bureau of Standards as most significant in automobiles. Through comparison of the specifications of the jeep station wagon with the station wagons of competitive makes, relative competitive ratings for 3 general specification groups were developed. These groups are: (1) Engine; (2) Auxiliary equipment; and (3) general. The body of the jeep station wagon, which is of all steel construction, was given the same rating as the bodies of the station wagons of competitive makes although the latter are of all wood construction. It was determined that the aggregate of the features of both types of bodies were appoximately in balance, and, therefore, the body was assigned the same rating for each of the competitive makes. The same rating was also given to each of the station wagons for certain types of parts and accessories which were considered to be virtually the same for these vehicles. Each of the three competitive ratings and the rating common to all the station wagons compared were weighted by the relative cost importance of the group it represented.

The result of these calculations was then related to the maximum prices already established for the station wagons of the makes competitive with the Willys make of automobile, and an in-line factory price was calculated for the jeep station wagon.

Prices for resales at the wholesale and retail levels were determined by adding to the factory price gross margins which reflect the pre-war margins of these distributive levels. In addition to the factory price and wholesale and retail list prices, maximum prices include charges for transportation, Federal excise taxes, preparing and conditioning, State and local taxes, and gasoline, oil and anti-freeze. The factory and wholesale price also include a charge for cooperative advertising.

When the Company has had cost data reflecting representative production experience, then the maximum price established for it in this order may be reviewed from the standpoint of cost and price. To permit the Administrator to make this review, a provision is included in the order which requires the company to furnish the Office of Price Administration with certain financial data reflecting actual production experience.

The maximum prices established in this action are in accordance with the provisions of Maximum Price Regulation 594 and the Emergency Price Control Act of 1942, as amended.

[F. R. Doc. 46-17655; Filed, Sept. 27, 1946; 11:48 a. m.]

[MPR 594, Order 30]

KAISER-FRAZER CORP.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 9 and 9b of Maximum Price Regulation 594, it is ordered:

(a) *Company sales to dealers.* Kaiser-Frazer Corporation, Willow Run, Michigan, and its wholly owned subsidiaries, hereinafter called the Company, is authorized to sell and deliver f. o. b. factory, Willow Run, Michigan, to dealers, the new Kaiser Special passenger automobile described in subparagraph (1) at a price not to exceed the total of the following charges:

(1) *Charge for new automobile.* A charge for a new automobile not to exceed the applicable dealer price in the following schedule:

Model	Description	Dealer price
K-100	4-door sedan	$1,28[illegible]

(2) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment listed in the following schedule not to exceed the applicable dealer price in the schedule:

Description:	Dealer price
Group 1:	
Cigar lighter, Bumper guard (front and rear), Oil filter (replaceable element type), Heavy duty air cleaner, Storage tank for vacuum windshield wiper	$22.50
Wheel rings (set of 5)	7.00
Chrome tailpipe extension	1.25
Chrome trim rings (set of 5)	5.00

(3) *Charge for Federal excise taxes.* A charge to provide for Federal excise taxes at the current legal rate.

(4) *Charge for transportation.* A charge to cover transportation of the new automobile and extra or optional equipment not to exceed a charge computed in accordance with the method and rates approved by the Office of Price Administration.

(5) *Charge for preparing and conditioning.* A charge not to exceed $15.00 when the Company performs its customary preparing and conditioning operations on the new automobile to make it ready for operation by a consumer.

(6) *Charge for anti-freeze.* A charge for anti-freeze furnished with the automobile not to exceed the applicable maximum price.

(7) *Charge for advertising.* A charge for advertising not to exceed $10.00 when the dealer, agrees to participate in the cooperative advertising program.

(8) *Deposit for retail delivery record.* A deposit not to exceed $5.00 for a retail delivery record which shall be refunded when the record is prepared and furnished to the Company.

(b) *Company sales to United States.* The Company is authorized to sell and deliver f. o. b. factory, Willow Run, Michigan, to the United States, its agencies, and wholly-owned corporations for the use in the United States, the new Kaiser Special automobile described in subparagraph (1) of paragraph (a) at a price not to exceed the total of the following charges:

(1) *Charge for the new automobile.* A charge for the new automobile not to exceed the amount of the dealer price in subparagraph (1) of paragraph (a).

(2) *Charge for extra or optional equipment.* A charge for each item of extra or optional equipment listed in subparagraph (2) of paragraph (a) not to exceed the applicable dealer price in that paragraph.

(3) *Charge for preparing and conditioning.* A charge not to exceed $15.00 for preparing and conditioning the new automobile for delivery.

(4) *Other charges.* Charges permitted by subparagraph (3), (4) and (6) of paragraph (a).

(c) *Company sales to users.* The Company may sell and deliver to users f. o. b. factory, Willow Run, Michigan, the new Kaiser Special automobile described in subparagraph (1) of paragraph (a) at a price not to exceed a total of the following charges:

(1) *Charge for new automobile.* A charge for the new automobile not to exceed the applicable factory retail price in subparagraph (1) of paragraph (e).

(2) *Charge for extra or optional equipment.* A charge for each item of extra or optional equipment listed in subparagraph (2) of paragraph (e) not to exceed the applicable factory retail price in that subparagraph.

(3) *Charge for state and local taxes.* A charge to cover state and local taxes on the sale or delivery of the new automobile and extra or optional equipment.

(4) *Charge for preparing and conditioning.* A charge not to exceed $15.00 for preparing and conditioning the new automobile for delivery.

(5) *Other charges.* Charges permitted by subparagraph (3), (4), and (6) of paragraph (a) when applicable to the sale.

(d) The company shall submit to the OPA Automotive Branch, Washington, D. C., on or before February 28, 1947 the following information by months for the period commencing October 1, 1946 and ending December 31, 1946.

1. Overall Company profit and loss statement.

2. Total sales of new passenger automobiles in units and dollars.

3. Unit total costs, with supporting details by months, of new passenger automobiles.

The same information shall be submitted by the company by months for a four, five and six month period, commencing October 1, 1946 within 60 days after the end of each period.

(e) *Sales by resellers in continental United States.* A reseller may sell and deliver at its place of business the new Kaiser Special passenger automobile described in subparagraph (1) below at a price not to exceed the total of the following charges:

(1) *Charge for automobile.* A charge for the new automobile not to exceed the applicable factory retail price in the following schedule:

Model	Description	Factory retail price
K-100	4-door sedan	$1,645

(2) *Charge for extra or optional equipment.* A charge for each item of extra or optional equipment listed in the following schedule when installed not to exceed the applicable factory retail price in the schedule:

Description:	Factory retail price
Group 1:	
Cigar lighter, Bumper guards (front and rear), Oil filter (replaceable element type), Heavy duty air cleaner, Storage tank for vacuum windshield wiper	$27.50
Wheel rings (set of 5)	10.50
Chrome tailpipe extension	1.75
Chrome trim rings (set of 5)	7.50

(3) *Charge for Federal excise taxes.* A charge not to exceed the charge made by the Company for Federal excise taxes on the new automobile and extra or optional equipment.

(4) *Charge for transportation*—(i) *When transportation charge to reseller is prepaid.* A charge not to exceed the average net invoice transportation charge for the new automobile and extra or optional equipment being sold; or

(ii) *When transportation charge to reseller is not prepaid.* A charge to cover transportation expense which shall not exceed the rail freight charge at carload rate, or the truckaway charge at truckload rate, whichever is higher, for the transportation of the new automobile and extra or optional equipment from the factory, Willow Run, Michigan, by the most direct route to the place at which delivery is made to the purchaser, including transportation tax at the current legal rate.

(5) *Charge for preparing and conditioning.* A charge for preparing and conditioning the new automobile for delivery not to exceed $25.00.

(6) *Charge for state and local taxes.* A charge equal to his expense for state and local taxes on the sale or delivery of the new automobile and extra or optional equipment.

(7) *Charge for gasoline, oil and anti-freeze.* A charge for gasoline, oil and anti-freeze furnished with the automobile not to exceed applicable maximum prices.

(f) *Resale in territories and possessions.* A reseller is authorized to sell the new Kaiser Special passenger automobile and extra or optional equipment described in paragraph (a) in a territory or possession of the United States at a price not to exceed the maximum price permitted by paragraph (e), to which he may add a sum equal to the expense incurred by or charged to him for: payment of territorial and insular taxes on the purchase, sale or introduction of the new automobile in the territory or possession, when not charged under paragraph (e); export premiums; boxing and crating for export purposes; assembly costs, if any; marine and war risk insurance; landing, wharfage, and terminal operations; ocean freight; freight to port of embarkation when not charged under paragraph (e); and freight from the point of debarkation by the most direct route to the place of business of the reseller.

(g) The maximum prices authorized in this order shall remain in effect for Kaiser Special automobiles and extra or optional equipment sold by the Company during the period September 27, 1946 to March 31, 1947.

(h) All requests not granted herein are denied.

(i) This order may be amended or revoked by the Administrator at any time.

This order shall become effective September 27, 1946.

Issued this 27th day of September 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDERS 30 AND 31 UNDER MAXIMUM PRICE REGULATION 594

The accompanying orders establish maximum prices on two makes of new four door sedan passenger automobiles produced by the Kaiser-Frazer Corporation and the Graham-Paige Motors Corporation of Willow Run, Michigan.

Section 9 of Maximum Price Regulation 594 provides for the determination of maximum prices for makes and models of new passenger vehicles which were not in production during the period from July 1, 1940 to June 30, 1941 and for which maximum prices cannot otherwise be determined. Such maximum prices are to be computed in line with the general level of prices already established by the regulation for comparable makes and models.

In applying for the establishment of maximum prices for the Kaiser Special and Frazer cars, neither of which was previously in production, the companies submitted complete engineering and design specifications. The specifications of the Kaiser Special were compared with comparable specifications of the standard four door sedan of other makes of automobiles on the basis of rating factors for 41 engineering and design specifications suggested as most significant in automobiles by the Bureau of Standards. Through comparison of the specifications of the Kaiser Special car with those of competitive makes, relative competitive ratings for 4 general specification groups were developed. These groups are: (1) Body; (2) Engine; (3) Auxiliary equipment; or (4) General. Certain parts and accessories which were considered virtually identical for the Kaiser Special and the competitive models of other makes were assigned the same rating. Each of the ratings was then weighted by the relative cost importance of the group it represented.

The result of these calculations was then related to the maximum factory prices established for the competitive makes of closely related design and engineering specifications and in-line maximum factory price was calculated for the Kaiser Special automobile. The requested factory price differential for the Frazer car, a deluxe version of the Kaiser Special, was found reasonable in the light of differences in specifications and existing differentials on deluxe models of competitive makes of cars.

The maximum prices so determined were appreciably below those requested by the companies, which had submitted in support of its request detailed estimates of cost of production at anticipated normal future volume. Examination of these estimates indicated that on the basis of anticipated production schedules the maximum prices determined by the in-line method would not permit break-even operations for at least six months. Moreover, only the attainment of production rates substantially in excess of those considered likely by the companies would yield an operating profit.

The Administrator has elsewhere recognized the highly abnormal conditions attending current production of passenger cars and the extent to which current operating costs are distorted by

shortages of parts and materials and resulting limited volume. While he anticipates the gradual disappearance of the factors now restricting the production of automobiles to levels below those achieved in 1941, and a consequent improvement in the industry's earnings, the Administrator has nevertheless found it necessary to provide a temporary hardship adjustment formula for producers of passenger cars who are currently operating at an overall loss with little likelihood of marked improvement in the near future. Although this formula was primarily developed for those companies who have by this time acquired actual cost and earnings experience in the production of 1946 and 1947 model passenger cars, the Administrator considers it desirable to apply the basic principles of that adjustment formula to the situation of a new producer who would otherwise sustain serious financial hardship.

In reaching this decision, the Administrator recognizes that in the automobile industry present shortages of parts and materials prevent the early attainment of production levels at least equal to 1941 volume. These conditions are undoubtedly accentuated in the case of new producers who must in the present short market even develop sources of supply for necessary materials and parts.

In addition, the long-cycle characteristics of production in this industry prevent the early development of actual cost experience on volume operations. This handicap is far less serious in the case of established companies, all of whom have not only recorded experience of pre-war operations at normal volume but who have as well cost experience regarding recent operations which in the light of pre-war operations can be adjusted to remove cost abnormalities reflecting present restricted volume. For such of these established companies as are unable at least to break even under present conditions, the Administrator has already provided a means of relief. The Administrator deems it proper to extend the basic principles underlying this formula to the case of a new producer, who, although he cannot demonstrate by actual experience the amount of his losses, can demonstrate that he would incur financial hardship in the absence of such action.

A careful review has been made of estimated costs for the production of the Kaiser and Frazer cars for the next six months. It appears to the Administrator that under the in-line prices determined for the Kaiser and Frazer cars the companies producing them would be currently in an over-all loss position with little prospect of change for the better in the near future. In such circumstances these companies are in the same position of hardship as the automobile companies which can qualify for an adjustment under the adjustment standard recently announced for automobile manufacturers with prewar production experience The Administrator, is therefore, of the opinion that the companies should have maximum prices which are a combination of in-line prices and a hardship adjustment.

On the basis of a careful review of estimated costs at an anticipated normal volume submitted by the companies, the Administrator is of the opinion that the maximum prices requested by them do not exceed those necessary to place them in a break-even position at representative volume. The Administrator has therefore decided to establish as temporary maximum factory prices those requested by the company. Insofar as the Administrator can determine from estimates of actual cost at representative volume, he is of the opinion that the temporary maximum prices do not include costs arising from labor inefficiency, abnormal materials prices and overhead operations attendant on low volume.

In addition to the factory price, the maximum prices for sales at the factory of the Kaiser Special and Frazer cars include charges for transportation, Federal excise taxes, preparing and conditioning, State and local taxes, anti-freeze, and a charge for cooperative advertising.

Prices for resales were determined by adding to the factory price gross markups which reflect customary pre-war margins in the automotive resale trade. The Kaiser Special cars will be sold directly by the factory to retail dealers, and, therefore, the only distributive level price authorized for this car is a retail price. The Frazer car will be sold to retail dealers through wholesale distributors. Therefore, for this car, wholesale as well as retail prices are established in this action.

In addition to wholesale and retail list prices, maximum resale prices include charges for transportation, Federal excise taxes, preparing and conditioning, State and local taxes, and gasoline, oil and anti-freeze.

The maximum prices set by the accompanying orders are subject to periodic review and modification by the Administrator at any time in the light of actual cost and volume experience in the production of these automobiles and the pricing policies then prevailing for other producers in the industry. Therefore, the maximum prices authorized in this action for the Kaiser-Frazer Corporation and the Graham-Paige Motors Corporation are effective only for the cars sold by the companies during the period ending March 31, 1947.

[F. R. Doc. 46-17657; Filed, Sept. 27, 1946; 11:49 a. m.]

[MPR 594, Order 31]

GRAHAM-PAIGE MOTORS CORP.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 9 and 9b of Maximum Price Regulation 594, it is ordered:

(a) *Company sales to distributors.* Graham-Paige Motors Corporation, Willow Run, Michigan, and its wholly owned subsidiaries, hereinafter called the Company, is authorized to sell and deliver f. o. b. factory, Willow Run, Michigan, to distributors, the new Frazer passenger automobile described in subparagraph (1) at a price not to exceed the total of the following charges:

(1) *Charge for new automobile.* A charge for a new automobile not to exceed the applicable distributor price in the following schedule:

Model	Description	Distributor price
F-47	4-door sedan	$1,795

(2) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment listed in the following schedule not to exceed the applicable distributor price in the schedule:

Description:	Distributor price
Group 1:	
Cigar lighter, Bumper guards (front and rear), Oil filter (replaceable element type), Heavy duty air cleaner, Storage tank for vacuum windshield wiper	$20.00
Overdrive	46.00
Wheel rings (set of 5)	6.50
Chrome tailpipe extension	1.00
Chrome trim rings (set of 5)	4.50

(3) *Charge for Federal excise taxes.* A charge for Federal excise taxes at the current legal rate.

(4) *Charge for transportation.* A charge to cover transportation of the new automobile and extra or optional equipment not to exceed a charge computed in accordance with the method and rates approved by the Office of Price Administration.

(5) *Charge for preparing and conditioning.* A charge not to exceed $15.00 when the Company performs its customary preparing and conditioning operations on the new automobile to make it ready for operation by a consumer.

(6) *Charge for anti-freeze.* A charge for anti-freeze furnished with the automobile not to exceed the applicable maximum price.

(7) *Charge for advertising.* A charge for advertising not to exceed $10.00 when the distributor or dealer, whichever is applicable, agrees to participate in the cooperative advertising program.

(8) *Deposit for retail delivery record.* A deposit not to exceed $5.00 for a retail delivered record which shall be refunded when the record is prepared and furnished to the Company.

(b) *Company sales to United States.* The Company is authorized to sell and deliver f. o. b. factory, Willow Run, Michigan, to the United States, its agencies, and wholly-owned corporations for the use in the United States, the new Frazer automobile described in subparagraph (1) of paragraph (a) at a price not to exceed the total of the following charges:

(1) *Charge for the new automobile.* A charge for the new automobile not to exceed the amount of the distributor price in subparagraph (1) of paragraph (a).

(2) *Charge for extra or optional equipment.* A charge for each item of extra or optional equipment listed in subparagraph (2) of paragraph (a) not to exceed the applicable distributor price in that paragraph.

(3) *Charge for preparing and conditioning.* A charge not to exceed $15.00 for preparing and conditioning the new automobile for delivery.

(4) *Other charges.* Charges permitted by subparagraphs (3), (4), and (6) of paragraph (a) if applicable to the sale.

(c) *Company sales to users.* The Company may sell and deliver to users f. o. b. the factory, Willow Run, Michigan, the new Frazer automobile described in subparagraph (1) of paragraph (f) at a price not to exceed a total of the following charges:

(1) *Charge for new automobile.* A charge for the new automobile not to exceed the applicable factory retail price in subparagraph (1) of paragraph (f).

(2) *Charge for extra or optional equipment.* A charge for each item of extra or optional equipment listed in subparagraph (2) of paragraph (f) not to exceed the applicable factory retail price in that subparagraph.

(3) *Charge for state and local taxes.* A charge to cover state and local taxes on the sale or delivery of the new automobile and extra or optional equipment.

(4) *Charge for preparing and conditioning.* A charge not to exceed $15.00 for preparing and conditioning the new automobile for delivery.

(5) *Other charges.* Charges permitted by subparagraph (3), (4), and (6) of paragraph (a) when applicable to the sale.

(d) The company shall submit to the OPA Automotive Branch, Washington 25, D. C. on or before February 28, 1947 the following information by months for the period commencing October 1, 1946 and ending December 31, 1946.

(1) Overall Company profit and loss statement.

(2) Total sales of new passenger automobiles in units and dollars.

(3) Unit total costs, with supporting details by months, of new passenger automobiles.

The same information shall be submitted by the Company by months for a four, five and six month period, commencing October 1, 1946 within 60 days after the end of each period.

(e) *Sales by distributor to dealer.* A distributor is authorized to sell and deliver to a dealer the new Frazer passenger automobile described in subparagraph (1) at a price not to exceed the total of the following charges:

(1) *Charge for new automobile.* A charge for new automobile not to exceed the applicable dealer price in the following schedule:

Model	Description	Dealer price
F-47	4-door sedan	$1,395

(2) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment listed in the following schedule not to exceed the applicable prices listed in such schedule:

Description:	Dealer price
Group 1:	
Cigar lighter, Bumper guards (front and rear), Oil filter (replaceable element type), Heavy duty air cleaner, Storage tank for vacuum windshield wiper	$22.50
Overdrive	49.00
Wheel rings (set of 5)	7.00
Chrome tailpipe extension	1.25
Chrome trim rings (set of 5)	5.00

(3) *Charge for Federal excise taxes.* A charge for Federal excise taxes not to exceed the amount of the charge the selling distributor is billed for this expense.

(4) *Charge for transportation*—(i) *When transportation charge to distributor is prepaid.* A charge not to exceed the average net invoice transportation charge for the new automobile and extra or optional equipment being sold; or

(ii) *When transportation charge to distributor is not prepaid.* A charge to cover transportation expense which shall not exceed the rail freight charge at carload rate, or the truckaway charge at truckload rate, whichever is higher, for the transportation of a new automobile and extra or optional equipment from the factory, Willow Run, Michigan, by the most direct route, to the place at which delivery is made to the purchaser, including transportation tax at the current legal rate.

(5) *Charge for preparing and conditioning.* A charge not to exceed $25.00 when the distributor prepares and conditions the automobile for delivery to the person to whom the purchasing dealer sells the automobile or to the agent of such person.

(6) *Charge for anti-freeze.* A charge for anti-freeze furnished with the automobile not to exceed the applicable maximum price.

(7) *Charge for advertising.* A charge for cooperative advertising not to exceed $10.00 when the purchasing dealer agrees to participate in the cooperative advertising program.

(8) *Charge for retail delivery record.* A charge not to exceed $5.00 for a retail delivery record which shall be refunded when the record is prepared and furnished in accordance with the dealer agreement.

(f) *Sales by resellers in continental United States.* A reseller may sell and deliver at its place of business the new Frazer passenger automobile described in subparagraph (1) below at a price not to exceed the total of the following charges:

(1) *Charge for automobile.* A charge for the new automobile not to exceed the applicable factory retail price in the following schedule:

Model	Description	Factory retail price
F-47	4-door sedan	$1,795

(2) *Charge for extra or optional equipment.* A charge for each item of extra or optional equipment listed in the following schedule when installed not to exceed the applicable factory retail price in the schedule:

Description:	Factory retail price
Group 1:	
Cigar lighter, Bumper guards (front and rear), Oil filter (replaceable element type), Heavy duty air cleaner, Storage tank for vacuum windshield wiper	$27.50
Overdrive	66.00
Wheel rings (set of 5)	10.50
Chrome tailpipe extension	1.75
Chrome trim rings (set of 5)	7.50

(3) *Charge for Federal excise taxes.* A charge for Federal excise taxes on the new automobile and extra or optional equipment.

(4) *Charge for transportation*—(i) *When transportation charge to reseller is prepaid.* A charge not to exceed the average net invoice transportation charge for the new automobile and extra or optional equipment being sold; or

(ii) *When transportation charge to reseller is not prepaid.* A charge to cover transportation expense which shall not exceed the rail freight charge at carload rate, or the truckaway charge at truckload rate, whichever is higher, for the transportation of the new automobile and extra or optional equipment from the factory, Willow Run, Michigan, by the most direct route to the place at which delivery is made to the purchaser, including transportation tax at the current legal rate.

(5) *Charge for preparing and conditioning.* A charge for preparing and conditioning the new automobile for delivery not to exceed $25.00.

(6) *Charge for state and local taxes.* A charge equal to his expense for state and local taxes on the sale or delivery of the new automobile and extra or optional equipment.

(7) *Charge for gasoline, oil and anti-freeze.* A charge for gasoline, oil and anti-freeze furnished with the automobile not to exceed applicable maximum prices.

(g) *Resale in territories and possessions.* A reseller is authorized to sell the new Frazer passenger automobile and extra or optional equipment described in paragraph (a) in a territory or possession of the United States at a price not to exceed the maximum price permitted by paragraph (e) or (f), whichever is applicable, to which he may add a sum equal to the expense incurred by or charged to him for: payment of territorial and insular taxes on the purchase, sale or introduction of the new automobile in the territory or possession, when not charged under paragraph (e) or (f); export premiums; boxing and crating for export purposes; assembly costs, if any; marine and war risk insurance; landing, wharfage, and terminal operations; ocean freight; freight to port of embarkation when not charged under paragraph (e) or (f); and freight from the point of debarkation by the most direct route to the place of business of the reseller.

(h) The maximum prices authorized in this order shall remain in effect for Frazer automobiles and extra or optional equipment sold by the Company during the period September 27, 1946 to March 31, 1947.

(i) All requests not granted herein are denied.

(j) This order may be amended or revoked by the Administrator at any time.

This order shall become effective September 27, 1946.

Issued this 27th day of September 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING ORDERS 30 AND 31 UNDER MAXIMUM PRICE REGULATION 594

The accompanying orders establish maximum prices on two makes of new four-door sedan passenger automobiles produced by the Kaiser-Frazer Corporation and the Graham-Paige Motors Corporation of Willow Run, Michigan.

Section 9 of Maximum Price Regulation 594 provides for the determination of maximum prices for makes and models of new passenger vehicles which were not in production during the period from July 1, 1940 to June 30, 1941 and for which maximum prices cannot otherwise be determined. Such maximum prices are to be computed in line with the general level of prices already established by the regulation for comparable makes and models.

In applying for the establishment of maximum prices for the Kaiser Special and Frazer cars, neither of which was previously in production, the companies submitted complete engineering and design specifications. The specifications of the Kaiser Special were compared with comparable specifications of the standard four-door sedan of other makes of automobiles on the basis of rating factors for 41 engineering and design specifications suggested as most significant in automobiles by the Bureau of Standards. Through comparison of the specifications of the Kaiser Special car with those of competitive makes, relative competitive ratings for 4 general specification groups were developed. These groups are: (1) Body; (2) Engine; (3) Auxiliary equipment; or (4) General. Certain parts and accessories which were considered virtually identical for the Kaiser Special and the competitive models of other makes were assigned the same rating. Each of the ratings was then weighted by the relative cost importance of the group it represented.

The result of these calculations was then related to the maximum factory prices established for the competitive makes of closely related design and engineering specifications and in-line maximum factory price was calculated for the Kaiser Special automobile. The requested factory price differential for the Frazer car, a deluxe version of the Kaiser Special, was found reasonable in the light of differences in specifications and existing differentials on deluxe models of competitive makes of cars.

The maximum prices so determined were appreciably below those requested by the companies, which had submitted in support of its request detailed estimates of cost of production at anticipated normal future volume. Examination of these estimates indicated that on the basis of anticipated production schedules the maximum prices determined by the in-line method would not permit break-even operations for at least six months. Moreover, only the attainment of production rates substantially in excess of those considered likely by the companies would yield an operating profit.

The Administrator has elsewhere recognized the highly abnormal conditions attending current production of passenger cars and the extent to which current operating costs are distorted by shortages of parts and materials and resulting limited volume. While he anticipates the gradual disappearance of the factors now restricting the production of automobiles to levels below those achieved in 1941, and a consequent improvement in the industry's earnings, the Administrator has nevertheless found it necessary to provide a temporary hardship adjustment formula for producers of passenger cars who are currently operating at an overall loss with little likelihood of marked improvement in the near future. Although this formula was primarily developed for those companies who have by this time acquired actual cost and earnings experience in the production of 1946 and 1947 model passenger cars, the Administrator considers it desirable to apply the basic principles of that adjustment formula to the situation of a new producer who would otherwise sustain serious financial hardship.

In reaching this decision, the Administrator recognizes that in the automobile industry present shortages of parts and materials prevent the early attainment of production levels at least equal to 1941 volume. These conditions are undoubtedly accentuated in the case of new producers who must in the present short market even develop sources of supply for necessary materials and parts.

In addition, the long-cycle characteristics of production in this industry prevent the early development of actual cost experience on volume operations. This handicap is far less serious in the case of established companies, all of whom have not only recorded experience of pre-war operations at normal volume but who have as well cost experience regarding recent operations which in the light of pre-war operations can be adjusted to remove cost abnormalities reflecting present restricted volume. For such of these established companies as are unable at least to break even under present conditions, the Administrator has already provided a means of relief. The Administrator deems it proper to extend the basic principles underlying this formula to the case of a new producer, who, although he cannot demonstrate by actual experience the amount of his losses, can demonstrate that he would incur financial hardship in the absence of such action.

A careful review has been made of estimated costs for the production of the Kaiser and Frazer cars for the next six months. It appears to the Administrator that under the in-line prices determined for the Kaiser and Frazer cars the companies producing them would be currently in an over-all loss position with little prospect of change for the better in the near future. In such circumstances these companies are in the same position of hardship as the automobile companies which can qualify for an adjustment under the adjustment standard recently announced for automobile manufacturers with pre-war production experience. The Administrator is, therefore, of the opinion that the companies should have maximum prices which are a combination of in-line prices and a hardship adjustment.

On the basis of a careful review of estimated costs at an anticipated normal volume submitted by the companies, the Administrator is of the opinion that the maximum prices requested by them do not exceed those necessary to place them in a break-even position at representative volume. The Administrator has therefore decided to establish as temporary maximum factory prices those requested by the company. Insofar as the Administrator can determine from estimates of actual cost at representative volume, he is of the opinion that the temporary maximum prices do not include costs arising from labor inefficiency, abnormal materials prices and overhead operations attendant on low volume.

In addition to the factory price, the maximum prices for sales at the factory of the Kaiser Special and Frazer cars include charges for transportation, Federal excise taxes, preparing and conditioning, State and local taxes, anti-freeze, and a charge for cooperative advertising.

Prices for resales were determined by adding to the factory price gross mark-ups which reflect customary pre-war margins in the automotive resale trade. The Kaiser Special cars will be sold directly by the factory to retail dealers, and therefore, the only distributive level price authorized for this car is a retail price. The Frazer car will be sold to retail dealers through wholesale distributors. Therefore, for this car, wholesale as well as retail prices are established in this action.

In addition to wholesale and retail list prices, maximum resale prices include charges for transportation, Federal excise taxes, preparing and conditioning, State and local taxes, and gasoline, oil and anti-freeze.

The maximum prices set by the accompanying orders are subject to periodic review and modification by the Administrator at any time in the light of actual cost and volume experience in the production of these automobiles and the pricing policies then prevailing for other producers in the industry. Therefore the maximum prices authorized in this action for the Kaiser-Frazer Corporation and the Graham-Paige Motors Corporation are effective only for the cars sold by the companies during the period ending March 31, 1947.

[F. R. Doc. 46-17656; Filed, Sept. 27, 1946; 11:49 a. m.]

[RMPR 136, Amdt. 2 to Order 636]

WOODWORKING AND TIMBER WORKING MACHINERY AND EQUIPMENT

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register, *It is ordered:*

Order No. 636 under Revised Maximum Price Regulation 136 is amended in the following respects:

Paragraph (c) is amended to read as follows:

(c) *Manufacturers maximum prices.* The maximum prices for sales by manufacturers of woodworking and timber making machinery and equipment shall be:

(1) The manufacturer's base prices, as defined in (b) above, increased by 16% except that,

(2) If the manufacturer's base prices were approved by the Office of Price Administration as "in-line" prices under section 9 (c) of Revised Maximum Price Regulation 136 subsequent to May 29, 1946 and prior to September 27, 1946, the maximum prices shall be the prices so approved increased by 5.5%; and if the manufacturers base prices are approved by the Office of Price Administration as "in-line" prices under section 9 (c) of Revised Maximum Price Regulation 136 subsequent to September 27, 1946, the maximum prices shall be the prices so approved.

This order shall become effective September 27, 1946.

Issued this 27th day of September, 1946.

GEOFFREY BAKER,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER 636 UNDER REVISED MAXIMUM PRICE REGULATION 136

Order No. 636 under Revised Maximum Price Regulation 136, issued and effective May 29, 1946, authorized a 10% interim increase over base date maximum sales prices for woodworking and timber working machinery and equipment. That action was based upon an industry-wide survey in which firms accounting for approximately 60% of the industry's total output were included. The financial data submitted by 39 representative companies and accepted for study consisted principally of fourth quarter 1945 profit and loss statements and in a few cases first quarter 1946 statements. At the instance of the Industry Advisory Committee of the Woodworking and Timber Working Machinery and Equipment Industry, the Office of Price Administration has reexamined the information submitted and has revised its adjustments in the light of subsequent occurrences. To augment the financial reports submitted on the original survey, a further and more detailed wage survey for the period subsequent to August 18, 1945 covering an additional 25% of the industry was conducted and the information reported was included in the resurvey.

As a consequence of the present study, the Administrator now finds that a further increase of 6% over base date maximum sales prices is required in order to remove a threatened impediment to production and he is accordingly amending Order No. 636 to provide a 16% increase over base date maximum sales prices for all woodworking and timber working machinery and equipment in lieu of the 10% originally authorized. In taking this action, the Administrator has been mindful of the current needs of the industry and the heavy demands being placed upon it. During the war years, woodworking and timber working machinery and equipment was produced in large volume and at the present time the annual output exceeds twice that for the year 1939. Despite this excellent performance, production must be enhanced if the building, housing and furniture requirements are to be met. However, some, but not all, of the producing firms are capable of immediately expanding their existing plants, increasing their work week, or otherwise augmenting their present output. Although all members of the industry will be greatly assisted by this action, those firms which are immediately capable of undertaking additional production should be encouraged to do so and they may, if they so elect, file separate applications on an individual basis under Supplementary Order 142 (Adjustment Provisions for Sales of Industrial Machinery) and upon proper demonstration, obtain whatever additional relief the circumstances warrant. Attention is now being directed to the matter of revising Supplementary Order 142 to effect this purpose.

At the time of the earlier survey, less than half of the reporting firms had granted approved wage increases. At that time, therefore, upward adjustments could be made in reported labor costs only in those instances where individual wage increases had been granted and had been approved by the Wage Stabilization Board. The information now available shows that since August 18, 1946, firms representing approximately 77% of the total industry output have granted wage increases which have been approved by the Wage Stabilization Board. It is not possible for the Administrator to say what, if any, hourly wage rate increases may be agreed upon or approved for the remaining 23% of the industry's production. However, it appears reasonable to expect that the reported average percentage increase in labor costs will adequately cover any foreseeable subsequent wage adjustments that may be made by those companies accounting for the small remaining volume of production. The Woodworking and Timberworking Machinery Industry is not concentrated in a few well defined areas but is widely spread over the entire United States and the reports received with respect to wage increases are representative of the industry, covering all geographical segments of the industry, and including all types and sizes of producers. Considering the magnitude of the industry and the large number of small widely scattered producers, the number of firms reporting on the wage survey is remarkably large. In view of the large percentage of production for which approved wage increases have been effected, the Administrator now finds that the authorization of a single uniform price increase will promote effective price administration. Accordingly, the average percentage increase in costs of direct and indirect labor over and above that already reflected in the financial reports submitted has been determined and reported costs adjusted upwards by this percentage amount, namely, 15.1%. In addition, that portion of selling and administrative expense properly chargeable to labor and not reflected in reported costs was likewise increased. Converted to sales prices, this aggregate rise in labor costs requires an increase of 5.7% over base date maximum sales prices.

Recent materials increases, principally for all types of steel, lumber, motors, malleable and grey iron castings, bearings and drive chains have occurred subsequent to the preparation of the financial data submitted and they have been given cognizance in determining the amount of relief required. On the average, materials increases amount to 10% and, accordingly, reported costs of direct and indirect materials were adjusted upward by this percentage amount. This adjustment entails an increase of 4.0% in base date maximum sales prices.

As noted in the earlier survey, more than one-third of the industry's total output is produced by single line companies. During the base period years, 1936–39, the industry earned an average 5.5% on its net worth. After eliminating price adjustments granted individual manufacturers included in the sample and after making the adjustments discussed above for allowable increases in materials and labor costs, the Administrator finds that in order to assure the same 5.5% return on current net worth, an average increase of 12.5% over base date maximum sales prices would be required. This computation does not include the usual reduction of 5% in reported direct and indirect labor costs by reason of anticipated improvements in labor efficiency. Were such downward adjustments to be included, the average percentage increase required to provide the base period rate of return on current net worth would be 10.8%. However, even an increase of 12.5% over base date maximum sales prices is insufficient to permit at least seventy-five percent of the industry's output to cover current total costs. The Administrator has found further, that on a company-by-company basis, an increase of 16% in maximum base date sales prices is required in order to permit recovery of at least current total costs for the bulk of the industry's output. The Administrator has, therefore, determined that in order to encourage vital production and to avoid administrative difficulties in processing a large number of individual applications for price relief, the increase factor authorized should be in a measure equal to the amount to which the bulk of the industry's total production would be entitled

on the basis of separate individual applications, namely, 16% over base date maximum sales prices.

Some individual adjustments each in excess of 16% have heretofore been authorized to individual manufacturers in this industry. Those actions have substantially reduced that portion of the industry here considered as requiring assistance beyond the 16% increase level in order to recover at least total current costs. Similar opportunities remain available to all and should be seriously considered by any of the remaining minority of producers who, despite the present industry increase may need some further relief. Furthermore, as stated above, additional relief will be made available depending upon individual needs, to that small but indeterminable group of producers who evidence their willingness and ability to increase their present output.

In accordance with the provisions of the Price Control Act of 1942, as amended, the present action authorizes resellers to pass-on the full percentage amount of their supplier's increase, thereby assuring to resellers of wooodworking and timber working machinery and equipment their March 31, 1946 markups.

In the opinion of the Administrator, this action will, for the bulk of the woodworking and timber working machinery and equipment industry, remove existing threats to production and permit it to continue to expand its present output of vitally needed machinery and equipment.

Regional and District Office Orders.

[Twin Cities Order G-6 Under Gen. Order 68, Amdt. 1]

Hard Building Materials in Winona, Minn., Area

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G-6, issued under the authority of General Order No. 68, is amended in the following respect:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This amendment No. 1 to Order No. G-6 under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August, 1946.

Carel C. Koch,
District Director.

Appendix A

Commodity and unit	Maximum prices
Hardwell plaster, paper bag	$1.00
Plaster, gauging, paper bag	1.70
Keene's cement, 100-lb. bag	2.00
Finishing lime, 50-lb. paper bag	.78
Gypsum lath, 3/8", per sq. yd	.28
Portland cement, paper bag	.86½
Portland cement (maximum price in cloth bag does not include bag deposit), cloth bag	.81½
Masonry mortar, paper bag	.75
Mason's hydrated lime, 50-lb. paper bag	.56
Portland cement, white, paper bag	2.25
Hi-Early cement, 50-lb. paper bag	1.00
Vitrified clay sewer pipe, 4", lin. ft	.30
Vitrified clay sewer pipe, 6", lin ft	.42
Flue lining, 8½" x 8½", lin. ft	.60
Flue lining, 8½" x 12½", lin. ft	.81
Flue lining, 12½" x 12½", lin. ft	1.07
Gypsum wallboard, 3/8", per sq. ft	.045
Gypsum wallboard, ½", per sq. ft	.05
Asphalt roofing, mineral surface, 90-lb. roll, per roll	3.09
Asphalt or tarred felt, 15-lb., or 30-lb., per roll	3.01
Asphalt shingles, 210-lb. (3 in 1), thick butt, per sq	7.08
Asphalt shingles, 165-lb., 2-tab hex., per sq	5.50
Fibre insulation board, ½", lath and board, per sq. ft	.059
25/32" asphalt coated and impregnated insulating sheathing, per sq. ft	.097
Asphalt cement siding—standard colors, 12" x 24" or 27", per sq. ft	.10
Hard density synthetic fibre board, 1/8" tempered (standard size), per sq. ft	.10
Thermal insulation batts, paper backed, 2" thick, per sq. ft	.055
Thermal insulation batts, paper backed, full thick, per sq. ft	.08
Thermal insulation, plain, loose in bags, per bag	1.15

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-6 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946, requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946, in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17365; Filed, Sept. 25, 1946; 8:50 a. m.]

[Twin Cities Order G-10 Under Gen. Order 68, Amdt. 1]

Hard Building Materials in Faribault—Owatonna, Minn., Area

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G-10 issued under the authority of General Order No. 68 is amended in the following:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 1 to Order No. G-10, under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August 1946.

Carel C. Koch,
District Director.

Revised Appendix A

Commodity and unit	Maximum prices
Plaster, hardwall, paper bag	$1.15
Plaster, gauging, paper bag	1.85
Keene's cement, 100-lb. paper bag	2.75
Finishing lime, 50-lb. paper bag	.78
Gypsum lath, 3/8", sq. yd	.30
Metal lath, 3.4 lb., galvanized (26 ga.), sq. yd	.44
Corner bead, straight edges, lin. ft	.06
Portland cement, paper bag	.76½
Masonry mortar, paper bag	.70
Mason hydrated lime, 50-lb. paper bag	.67
Portland cement, white, paper bag	2.90
Vitrified clay sewer pipe, 4", lin. ft	.28
Vitrified clay sewer pipe, 6", lin. ft	.39½
Vitrified clay sewer pipe, 8", lin. ft	.56½
Vitrified clay sewer pipe, 10", lin. ft	.83½
Gypsum wallboard, 3/8", sq. ft	.045
Gypsum wallboard, ½", sq. ft	.05
Asphalt roofing, mineral surface, 90-lb. roll, roll	3.04
Asphalt or tarred felt, 15 lb. or 30 lb., roll	2.95
Asphalt shingles, 210 lb. (3 in 1), thick butt, sq	6.82
Fibre insulation board, ½" lath and board, sq. ft	.059
25/32" asphalt coated and impregnated insulating sheathing, sq. ft	.091

Thermal insulation blankets, paper backed, single (balsam wool), sq ft	.055
Thermal insulation, plain, loose in bags, bag	1.10

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-10 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946 requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946 in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17369; Filed, Sept. 25, 1946; 8:51 a. m.]

[Twin Cities Order G-7 Under Gen. Order 68, Amdt. 1]

Hard Building Materials in Rochester, Minn., Area

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G-7, issued under the authority of General Order No. 68, is amended in the following respect:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 1 to Order No. G-7 under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August, 1946.

Carel C. Koch,
District Director.

Revised Appendix A

Commodity and unit	Maximum prices

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-7 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946, requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946 in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17366; Filed, Sept. 25, 1946; 8:50 a. m.]

[Twin Cities Order G-9 Under Gen. Order 68, Amdt. 1]

Hard Building Materials in Mankato, Minn. Area

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G-9 issued under the authority of General Order No. 68 is amended in the following:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 1 to Order No. G-9, under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August 1946.

Carel C. Koch,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-9 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946 requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946 in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17368; Filed, Sept. 25, 1946; 8:51 a. m.]

[Twin Cities Order G-11 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN FAIRMONT, MINN., AREA

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G-11 issued under the authority of General Order No. 68 is amended in the following:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 1 to Order No. G-11, under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August 1946.

CAREL C. KOCH,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-11 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946 requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946 in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17370; Filed, Sept. 25, 1946; 8:51 a. m.]

[Twin Cities Order G-13 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN NORTHERN MINNESOTA AREA

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G-13 issued under the authority of General Order No. 68 is amended in the following:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 1 to Order No. G-13, under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August 1946.

CAREL C. KOCH,
District Director.

Asphalt roofing, mineral surface, 90 lb., w/nails and cement, class C label, per roll	3.15
Asphalt mineral surface, split roll, diamond point, block edge, shadow or similar roofing (class C label), 105–110 lb., per roll	3.67
Asphalt or tarred felt, 15 or 30 lb., per roll	3.01
Red resin paper, 20 lb. (500 ft. roll), per roll	1.25
Red resin paper, 25 lb. (500 ft. roll), per roll	1.60
Deadening felt, 1 lb., per roll	3.80
Deadening felt, 1½ lb., per roll	5.50

REVISED APPENDIX A—Continued

Commodity and unit	*Maximum prices*
Asphalt roof coating, 5-gal. pail, per gal	$0.56
Plastic cement, 5-lb. can, per can	.50
Plastic cement, 10-lb. can, per can	.85
Asphalt shingles, 210-lb. thick butt (3 in 1) standard quality, per sq	7.23
Asphalt shingles, 165-lb. hexagon, 2 or 3 tab. standard quality, per sq	5.66
Asbestos cement siding, 12 x 24 or 27, standard colors, per sq	12.08
Asphalt roll brick siding, per sq	4.19
Insulating brick siding, thickness approximately 5/8", per sq	13.60
Medium blanket type insulation, 1,000 sq. ft	52.00
Thick blanket type insulation, 1,000 sq. ft	72.00
Loose mineral wool, nodulated or granulated, per bag	1.20

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-13 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946, requires the Administrator of this Agency, to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946, in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order 68. It provided by its terms that it was inapplicable to orders under General Order No. 68 issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46-17372; Filed, Sept. 25, 1946; 8:52 a. m.]

[Twin Cities Order G-14 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN NORTH CENTRAL MINNESOTA AREA

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G-14 issued under the authority of General Order No. 68 is amended in the following:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 1 to Order No. G-13, under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August 1946.

CAREL C. KOCH,
District Director.

REVISED APPENDIX A

Commodity and unit	*Maximum prices*
Cement plaster, unfibred (neat hardwall), per bag	$1.30
Cement plaster, wood fibre, per bag	1.23
White trowel finish plaster, per bag	2.60
Moulding plaster, gray, per bag	1.60
Gauging plaster, gray, per bag	1.80
Keene's cement, per bag	2.75
Finishing lime, per 50-lb. sack	.90
Mason's hydrated lime, per 50-lb. sack	.78
Plaster lath, 3/8" thick (rock lath), per M ft	30.00
Wallboard gypsum, ¼", per M ft	35.00
Wallboard gypsum, 3/8", per M ft	45.00
Wallboard gypsum, ½", per M ft	50.00
Portland cement, paper, per bag	.83½
Portland waterproof cement, white paper, per 94-lb. bag	2.75
Masonry cement, paper bags, cu. ft. bag	.70
2.5-lb. painted diamond mesh, copper bearing metal, sq. yd	.33
3.4-lb. painted diamond mesh, copper bearing metal, sq. yd	.40
3.4-lb. galv. diamond mesh, sq. yd	.44
Expanded wide flange corner bead, lin. ft	.053
3" corner rite, copper bearing, painted, lin. ft	.032
Vitrified clay sewer pipe, No. 1 standard, single strength, 4", per lin. ft	.28
Vitrified clay sewer pipe, No. 1 standard, single strength, 6", per lin. ft	.40½
Vitrified clay sewer pipe, No. 1 standard, single strength, 8", per lin. ft	.56½
Vitrified clay sewer pipe, No. 1 standard, single strength, 10", per lin. ft	.75½
Sewer pipe fittings, curves and elbows, 4", each	1.20

Loose mineral wool, nodulated or granulated, per bag	1.10

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–14 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946, requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946, in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order No. 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order No. 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

LIST OF COMMUNITY CEILING PRICE ORDERS

The following orders under Revised General Order 51 were filed with the Division of the Federal Register on September 20, 1946.

Region I

Montpelier Order 2–F, Amendments 64, 65, 66, and 67, covering fresh fruits and vegetables in certain areas in Vermont. Filed 9:19, 9:18, 9:17 and 9:16 a. m.

Montpelier Order 15, Amendments 9 and 10, covering dry groceries in the entire State of Vermont. Filed 9:18 and 9:17 a. m.

Region II

Albany Order 16–F, Amendment 2, covering fresh fruits and vegetables in certain cities in New York and the town of Green Island, New York. Filed 9:21 a. m.

Albany Order 16–F, Amendment 4, covering fresh fruits and vegetables in certain cities in New York and the town of Green Island, New York. Filed 9:20 a. m.

Wilmington Orders 27 and 28, Amendment 2, covering dry groceries in Delaware lying north of the Chesapeake & Delaware Canal. Filed 9:19 a. m.

Region III

Indianapolis Order 14–F, Amendments 78 and 79, covering fresh fruits and vegetables in the counties of Marian, Vigo and Tippecanoe. Filed 9:29 a. m.

Indianapolis Order 15–F, Amendments 78 and 79, covering fresh fruits and vegetables in the counties of Wayne, Delaware and Allen. Filed 9:28 and 9:31 a. m.

Indianapolis Order 16–F, Amendments 78 and 79, covering fresh fruits and vegetables in the county of St. Joseph. Filed 9:31 and 9:32 a. m.

Indianapolis Order 17–F, Amendments 78 and 79, covering fresh fruits and vegetables in the county of Vanderburgh. Filed 9:33 and 9:32 a. m.

Region IV

Atlanta Order 39, Amendment 9, covering dry groceries sold by Groups 3 and 4 stores in the Atlanta area. Filed 9:28 a. m.

Birmingham Order 5–F, Amendment 44, covering fresh fruits and vegetables in Jefferson county. Filed 9:24 a. m.

Birmingham Order 26–F, Amendment 44, covering fresh fruits and vegetables in Mobile county. Filed 9:24 a. m.

Birmingham Order 27–F, Amendment 46, covering fresh fruits and vegetables in Montgomery county. Filed 9:25 a. m.

Birmingham Order 28–F, Amendment 43, covering fresh fruits and vegetables in Houston county. Filed 9:27 a. m.

Birmingham Order 29–F, Amendment 43, covering fresh fruits and vegetables in Dallas county. Filed 9:26 a. m.

Jackson Orders 24 and 25, Amendment 10, covering dry groceries for Groups 1 and 2 and 3 and 4 stores in the Mississippi area. Filed 9:28 and 9:27 a. m.

Jackson Order 26, Amendment 10, covering dry groceries for Groups 3A and 4A stores in the Mississippi area. Filed 9:27 a. m .

Memphis Order 8–F, Amendment 43, covering fresh fruits and vegetables in Memphis and Shelby county, Tennessee. Filed 9:26 a. m.

Memphis Order 9–F, Amendment 15, covering fresh fruits and vegetables in Memphis and Shelby county, Tennessee. Filed 9:25 a. m.

Memphis Order 11–F, Amendment 5, covering fresh fruits and vegetables in certain counties in the Memphis area. Filed 9:24 a. m.

Memphis Order 31, Amendment 3, covering dry groceries sold by Groups 1 and 2 stores in the Memphis area. Filed 9:23 a. m.

Memphis Order 32, Amendments 2 and 3, covering dry groceries sold by Groups 3 and 4 stores in the Memphis area. Filed 9:23 a. m.

Miami Order 11, Amendment 11, covering dry groceries in the Miami, Florida area in Monroe county. Filed 9:23 a. m.

Nashville Order 14–F, Amendments 43 and 44, covering fresh fruits and vegetables in certain counties in Tennessee and Bristol, Virginia. Filed 9:22 a. m.

Nashville Order 22, Amendments 5 and 6, covering dry groceries in certain areas in Tennessee. Filed 9:21 a. m.

Region V

Wichita Orders 34, 35, and 36, Amendments 10 and 7, covering dry groceries. Filed 9:30 a. m.

Copies of any of these orders may be obtained from the OPA Office in the designated city.

ERVIN H. POLLACK,
Secretary.

[Twin Cities Order G–5 Under Gen. Order 68, Amdt. 2]

HARD BUILDING MATERIALS IN CENTRAL MINNESOTA AREA

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. G–5, issued under the authority of General Order No. 68, is amended in the following respect:

Maximum prices set forth in Appendix A are amended to read as set forth in the attached Revised Appendix A, which is incorporated into and made a part of this order.

This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (modification of resellers' maximum prices established under General Order No. 68 for certain building and construction materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This Amendment No. 2 to Order No. G–5 under General Order No. 68 shall become effective August 24, 1946.

Issued this 23d day of August 1946.

CAREL C. KOCH,
District Director.

APPENDIX A

Commodity and unit	*Maximum price*
Hardwall plaster, paper bag	$1.25
Plaster, gauging, paper bag	1.30
Plaster moulding, paper bag	1.65
Keene's cement, 100-lb. paper bag	2.75
Finishing lime, 50-lb. paper bag	.95
Gypsum lath, ⅜", sq. ft	.03
Metal lath, 2.5-lb. PDM (26 ga.), sq. yd	.32
Metal lath, 2.5-lb. galv. (26 ga.), sq. yd	.37½
Metal lath, 3.4-lb. PDM (24 ga.), sq. yd	.40
Metal lath, 3.4-lb. galv. (24 ga.), sq. yd	$0.44
Metal lath, corner bead, straight edge, lin ft	.055
Portland cement, paper bag	.80½
Masonry mortar, paper bag	.72
Masons hydrated lime, 50-lb. paper bag	.73
Portland cement, white, paper bag	2.75
Fireclay, paper bag	2.00
Clay drain tile, 4", per ft	.06
Gypsum wallboard, ⅜", sq. ft	.045
Gypsum wallboard, ½", sq. ft	.05
Gypsum sheeting, ½", sq. ft	.045
Asphalt roofing, mineral surface, 90-lb., per roll	3.09
Asphalt or tarred felt, 15- or 30-lb., per roll	3.01
Fibre insulation board, ½" std. lath and board, sq. ft	.055
Hard density synthetic fibre board, ⅛" tempered, std. size, sq. ft	.10
Thermal insulation blanket (paper backed) single (balsam wool), sq. ft	.05
Thermal insulation blanket (paper backed) medium (balsam wool), sq. ft	.055
Thermal insulation blanket (paper backed) thick (balsam wool), sq. ft	.07
Thermal insulation batts (paper backed) 2" thick, sq. ft	.05
Thermal insulation batts (paper backed) full, thick, sq. ft	.07
Thermal insulation (loose in bags), plain, 35-lb bag	1.10

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. G–5 UNDER GENERAL ORDER NO. 68

Section 2 (t) of the Price Control Extension Act of 1946, effective July 25, 1946, requires the Administrator of this Agency to allow average current cost of acquisition of any commodity, plus such average percentage mark-up or discount as was in effect on March 31, 1946, in establishing maximum prices applicable to wholesale or retail distributors. The act prescribes that the Administrator may have thirty (30) days from the date of the enactment of the act within which to effect changes in existing maximum prices to conform to the requirements of the act.

Supplementary Order 172, effective August 8, 1946, permitted resellers of certain building and construction materials whose maximum prices were set by orders under General Order 68 to increase such prices by designated percentages or amounts. The order was an interim measure designed to give relief to resellers of items on which manufacturers' authorized increases were not reflected in existing orders under General Order 68. It provided by its terms that it was inapplicable to orders under General Order No. 68, issued after August 7, 1946, or to existing orders under the general order which were amended subsequent to that date.

The accompanying amendment, therefore, supersedes the provisions of Supplementary Order 172. The maximum prices established by the amendment conform to the requirements of the Emergency Price Control Act of 1942, as amended, and to those of the Price Control Extension Act of 1946.

[F. R. Doc. 46–17364; Filed, Sept. 25, 1946; 8:50 a. m.]
